Welcome from Dr. Leyba Ruiz

First a college student, then a teacher and now the president of Glendale Community College, I have a passion for watching students develop and succeed. I am a proud, first-generation college student and thankful to my parents for instilling in me a commitment to a college education. I was raised and educated in South Phoenix and struggled with all the typical distractions, which could have derailed my education.

I know first-hand the trials and challenges our students face today. With that in mind, I believe the purpose of a community college is to offer a path to empowerment through education, a chance to reach for dreams and goals that you never thought within your grasp.

At GCC, we do this by providing an excellent learning environment in classes taught by dedicated faculty who are experts in their field. We offer support services, led by passionate professionals dedicated to ensuring a smooth start, and staff dedicated to helping reach your goal each semester – specifically to minimize or eliminate those “distractions” you may face.

Our goal, at GCC, is to focus on student completion – whatever your goals may be. I want you to be empowered to create your own definition of success. And we are here to help.

Glendale Community College has more than 50 years' history of academic excellence and a reputation for student success. We offer traditional classroom settings, online and hybrid classes in almost all disciplines. From English 101 to automotive technology, we cover the full spectrum of educational offerings.

We don't stop there. GCC has strong community partnerships and collaborative, customized workforce development programs. We are deeply embedded in our community, and value the trust placed in us by the tax payers. I believe everything we do is in our students' best interests.

Your success matters. Period.

Please take advantage of GCC's services. Need help understanding and navigating your exact path? Visit our Academic Advising Office or Counseling and Career Center for guidance. Or, get free tutoring services and a

mentor to encourage you along the way. Whatever your needs or interests, we're here to guide you on your journey.

I encourage you to get involved with college life, create a community for yourself to lean on, learn with and expand your experiences. GCC hosts a vibrant arts environment where you can participate or attend theater productions, art events, music concerts, and other cultural happenings throughout the year. Sign up for one of our 70+ student clubs and organizations. Make the most of your college career!

We have been helping students just like you for more than 50 years.

Thank you for letting us be a part of your success!

*Teresa Leyba Ruiz, Ed.D.
President*

2022 - 2023 Academic Calendar

Calendar Applies to GCC, GCC North, and GCC at Other Valley Locations

Colleges/Centers may modify start dates in order to meet special needs. Dates listed below which are directly related to instruction refer to the traditional academic year. Some courses may be offered over time periods for which these dates are not applicable.

Summer Semester - 2022 (Note: Subject to the 2022-2023 Catalog)

Summer 2022 Priority Registration Begins for Currently Enrolled Students.....	March 7
Summer 2022 Open Registration Begins	March 21
Observance of Memorial Day (College Closed).....	May 30
Summer Semester Begins.....	May 31
Observance of Independence Day (College Closed)	July 4
Summer Semester Ends.....	August 4

Fall Semester - 2022

Fall 2022 Priority Registration Begins for Currently Enrolled Students.....	March 7
Fall 2022 Open Registration Begins	March 21
Classes Begin.....	August 20
Observance of Labor Day (College Closed).....	September 5
Spring 2023 Priority Registration Begins for Currently Enrolled Students.....	October 3
Last Day for Withdrawal without Instructor's Signature ⁺	October 8
Student Withdrawal with Instructor's Signature Begins ⁺⁺	October 10
Spring 2023 Open Registration Begins.....	October 10
Application for December 2022 Graduation.....	November 1
Observance of Veterans Day (College Closed).....	November 11
Thanksgiving Holiday (College Closed)	November 24-27
Last Day of Regular Classes	December 11
Final Exams*	December 12-15
Mid-Year Recess Begins for Students.....	December 16
Fall Semester Ends (Last day of Faculty Accountability).....	December 16
Mid-Year Recess (College Closed).....	December 25 - January 2

Spring Semester - 2023

Spring 2023 Priority Registration Begins for Currently Enrolled Students	October 3
Spring 2023 Open Registration Begins.....	October 10
Classes Begin.....	January 14
Observance of Martin Luther King, Jr. Holiday (College Closed).....	January 16
Observance of Presidents' Day (College Closed)	February 20
Last Day for Withdrawal without Instructor's Signature ⁺	March 4
Student Withdrawal with Instructor's Signature Begins ⁺⁺	March 6
Summer/Fall 2023 Priority Registration Begins for Currently Enrolled Students.....	March 6
Spring Break	March 13-19
Summer/Fall 2023 Open Registration Begins	March 20
Application for May 2023 Graduation.....	April 1
Last Day of Regular Classes	May 7
Final Exams*	May 8-11
Commencement	May 12
Spring Semester Ends.....	May 12

Summer Semester - 2023 (Note: Subject to 2023-2024 Catalog)

Observance of Memorial Day (College Closed).....	May 29
Summer Semester Begins.....	May 30
Observance of Independence Day (College Closed)	July 4
Summer Semester Ends.....	August 3

*Students may register online seven days a week. Go to maricopa.edu/students for more information.

⁺Through the 7th week, student may initiate an official withdrawal from course(s) without instructor signature (see Appendix S-7 in Catalog Common Pages).

⁺⁺After the 7th week, student must initiate an official withdrawal request from instructor and obtain their signature (see Appendix S-7 in Catalog Common Pages)

About Glendale Community College

Education has the power to inspire growth and change lives. Since 1965 Glendale Community College (GCC) has welcomed over 500,000 students as they worked towards graduating with two-year degrees, transferring to a university, completing new career training, or finishing an occupational certificate.

GCC upholds the guiding principles and foundations of the Maricopa County Community College District (MCCCD) and works to serve the diverse and evolving needs of students and the community.

Making it Happen in Glendale Since 1965

In 1965, Glendale welcomed the first community college in the West Valley. Housed in temporary facilities at the Camelback and Maryland extensions of Phoenix College, 1,974 students enrolled in liberal arts classes at the brand new Glendale community college.

By September the following year, the college had moved to its permanent home at 59th Avenue and Olive Avenue. The sprawling 147-acre campus was anchored by 226 majestic palm trees that line the central mall. These beautiful and stately trees were part of the original ranch and were carefully moved and replanted during construction. The look of the iconic palm was incorporated into the main architectural elements used throughout campus and is prominent in the official campus logo.

The Northwest Valley population exploded in the 1980s and 1990s and with it, the need for affordable higher education. In 2000, the GCC North campus opened at 57th Avenue and Happy Valley Road. In 2004 a bond election provided capital funds for critical expansion and renovations to main campus facilities. The most recent additions, the Public Safety Science and Life Sciences buildings, incorporate innovative, hands-on teaching facilities, collaborative environments and LEED-certified design.

Keeping pace with rapid population growth and growing business needs, GCC continues to expand community development efforts and partnerships that contribute to the economic vitality of Glendale, the West Valley and Maricopa County.

GCC remains focused on serving the community, sustainability, strategic growth, advancing technology, continuing its commitment to student success, building

on a reputation of quality education and striving to inspire excellence in all who attend.

GCC North

Glendale Community College North (GCC North) is an extension of GCC at Happy Valley Road between 57th and 61st Avenues. Since opening in Fall 2000, GCC North has served the higher educational needs of the Northwest Valley.

Providing the full resources available at Main campus, GCC North programs include general education, university transfer courses and workforce development opportunities.

Architectural Design

Across 28 acres, GCC North campus includes 87,000 square feet of single-story classrooms and administrative areas. The four newest buildings, opened in Fall 2008, joined the existing A Complex to blend neighboring architecture and desert landscaping to make the campus an attractive addition to the community.

The one-story modular buildings have a stucco exterior that is compatible with the exterior finishes of the surrounding community. The additional buildings that were added in Fall 2008 were also confined to one-story and designed to integrate well with the natural landscape. The heating and cooling towers, access roads and parking lot are located a sufficient distance from the residents to prevent excessive noise; lighting is reduced after 10:00 p.m.; pre-existing and added landscape provide a pleasant desert-adapted buffer around the campus.

One of the major premises in planning for GCC North is maintaining a “Good Neighbor” policy, relating to physical facilities and curriculum. Planning has been going on since 1996 with community input at all phases. Extensive community suggestions have been incorporated into the planning of the new site, particularly with regard to noise, appearance, lighting, landscaping, location of transportation access and parking lots.

History of GCC North

In 1994, \$2 million from MCCCD Capital Development Bond was allocated to be used to provide initial site development such as sewer, water, electricity, and parking for the 20,000 square-foot campus. In 2004,

\$25 million from MCCCDC Capital Development Bond was allocated to be used to expand and create a master plan for the GCC North site. Fall 2008, phase one of the GCC North Master Plan opened adding 67,000 square feet of new facilities and services.

- 75-acre site at 57th Avenue and Happy Valley Road purchased with monies approved in the 1984 MCCCDC Capital Development Plan.
- \$2 million of capital monies provided 10,000 square feet of classrooms, study areas, student support services, and offices.
- \$25 million of capital monies approved to provide a master plan and additional 67,000 square feet of new services and facilities.

Values, Vision and Mission

Values - Glendale Community College is guided by six core values:

- **Learning** - Provide comprehensive and transformative experiences to assist students in achieving their personal, academic, and career goals.
- **Quality** - Assure excellence in instructional and support services through employee development and continuous assessment for optimal results.
- **Integrity** - Demonstrate an unwavering commitment to honesty, transparency, and accountability.
- **Inclusiveness** - Promote a community that supports diversity, equity, and social justice.
- **Community** - Foster a culture that enables positive internal and external relationships based on mutual respect, trust, and a sense of belonging.
- **Future-Focused** - Enhance innovative and forward-thinking perspectives and approaches to prepare students for evolving educational, workforce, and societal needs.

Vision - Glendale Community College fosters student success by providing innovative, quality learning experiences for all members of the community.

Mission - Glendale Community College prepares students for further higher education, employment and advancement, and successful participation in a global society.

Accreditation

GCC is accredited by the Higher Learning Commission (HLC). For more information see www.ncahlc.org/.

GCC completed its previous Reaffirmation Accreditation in April 2012. Our accreditation relationship has continued with the HLC on the Open Pathway.

As part of the current Reaffirmation of Accreditation process, GCC prepared for the Comprehensive Visit on February 28 to March 1, 2022. The "Assurance Argument 2022" details the current work and tells GCC's story and showcases our continuous improvement as we serve our students and our community.

The Maricopa Nursing Program is approved by the Arizona State Board of Nursing and accredited by the Accreditation Commission for Education in Nursing (ACEN).

Some GCC programs are also accredited/approved by: Arizona Peace Officer Standards and Training Board (AZPOST)

Assessment of Student Learning at GCC

When their time at GCC is complete, are students leaving with the content knowledge, marketable skills, and life skills necessary for success? Our process of student learning assessment addresses that question. Student assessment at GCC focuses on the verification and improvement of student learning through a comprehensive program of academic benchmarking, data collection, analysis, and implementation. GCC uses multiple sources of evidence to discover what and how students learn and how they might use their learning experiences upon exiting the institution.

GCC is committed to hearing the voices of our students and wants to ensure that these voices represent the learning and engagement of our students. By contributing to assessments, students benefit from improved instruction and programs. On occasion, students may be asked to complete nationally recognized assessment instruments and should take their participation in these activities seriously. There is no cost to students to participate in any assessment activity. Information obtained from these instruments will be used solely in determining the effectiveness of programs and student learning in ways that do not reflect personally on individual students.

Assessment of student learning occurs at multiple levels at GCC - course, program/service area, institutional -

typically on a three-year cycle. At the course level, student learning is assessed by individual or collaborating groups of faculty within an academic department with the goal of improving student learning in a particular course. To support learning outside the classroom, student organizations have begun conducting assessment targeting the specific learning outcomes of their organization's events and activities.

Programs and Service Areas in Academic Affairs, Student Affairs, and Administrative Services engage in a process of review and assessment to ensure continuous improvement. Students can find the program goals and competencies for all Academic and Career & Technical Education (CTE) certificate and degree programs here: <https://curriculum.maricopa.edu/>

GCC updated our institutional learning outcomes in the fall of 2017 and began an authentic process of assessment of these outcomes. Our institutional learning outcomes state that by the end of their college experience, students at GCC will have demonstrated:

- oral, written, and visual communication;
- critical and creative thinking;
- quantitative reasoning and analysis;
- personal and community well-being;
- diversity awareness and appreciation;
- information literacy;
- career goals and workplace skills.

For more information about our assessment program, including our public reports, visit
<https://www.gccaz.edu/who-we-are/assessment>

Compliance Disclosures

As part of Institutional Effectiveness, GCC's Office of Compliance provides tools and support to college departments to help fulfill the mission of the institution in an ethical way that adheres to MCCCD policy and federal, state, and local regulations.

The Office of Compliance provides direction, education, oversight, ongoing risk monitoring, guidance, and resources to the college to optimize ethical and compliant behavior, provide assurance, and continuously improve our compliance and ethics program.

GCC adheres to all Federal, State, and MCCCD District policies, regulations, disclosure reporting requirements, and laws.

Most policies can be found at one of these links:

- GCC Student Handbook:
<https://www.gccaz.edu/campus-life/office-student-life/student-handbook>
- MCCCD Technology Resource Standards:
<https://maricopa.edu/students/academics/technology-regulations>
- MCCCD Website: <https://district.maricopa.edu/>

Student Right to Know

Campus Security Report

The GCC Public Safety department publishes annual reports that disclose relevant information about campus security policies and crime statistics.:

<https://www.gccaz.edu/sites/default/files/inline/file/8418-gcc-2021-annual-security-report.pdf>

Cost of Attendance

The Net Price Calculator (<https://www.maricopa.edu/future-students/net-price-calculators/glendale>) is a tool designed to help students estimate the annual cost to attend a MCCCD college. This broad estimate is based on the cost of attendance and the financial aid that was provided to full-time, first-time degree/certificate-seeking undergraduate students in 2019-20. The actual net price can vary significantly based on student eligibility and does not represent an actual award. The submission of the FAFSA is the only way to obtain a true and accurate determination of eligibility.

Diversity of Enrollment

In Fall 2020 enrollment of all full-time undergraduate students in credit programs was 4,133. Of these 56% were female and 44% were male. 1% were American Indian/Alaska Native, 5% were Asian/Pacific Islander, 5% were Black, 41% were Hispanic, 39% were White, 5% were Two or More Races, and 2% were Non-Resident Alien

Diversity of Pell Recipients

Federal Pell Grant recipients comprised 43% of the full-time enrolled students in Fall 2020. Of these, 61% were female and 39% were male. Sixty-nine percent of the Pell

recipients identified themselves as members of a racial or ethnic minority.

Retention Rates

Fifty -six percent of the first-time, full-time undergraduate students who enrolled in Fall 2019 returned in Fall 2020. The part-time student retention rate was 35%.

Graduation and Transfer Rates

The three-year graduation rate for full-time students entering in Fall 2017 was 14%. The three-year transfer-out rate was 26%.

Out of State Enrollment in Online Programs

GCC is currently not authorized to deliver online classes to students who reside in a state other than Arizona per 34 CFR Part 600.9 - Institutional Eligibility under the Higher Education Act of 1965.

FERPA & GDPR Rights

GCC complies with the Family Educational Rights and Privacy Act (FERPA) (<https://district.maricopa.edu/consumer-information/family-educational-rights-privacy-act-ferpa>) and the General Data Protection Regulation (GDPR), (<https://district.maricopa.edu/consumer-information/gdpr>) which affords students certain rights with respect to their education records.

Voter Registration

Voter Registration forms are available in GCC's Enrollment Center or may be requested via the website: <https://azsos.gov/elections/voting-election/register-vote-or-update-current-voter-information>

Non-Discrimination Statements

The Maricopa County Community College District (MCCC) is an EEO/AE institution and an equal opportunity employer of protected veterans and individuals with disabilities. All qualified applicants will receive consideration for employment without regard to

race, color, religion, sex, sexual orientation, gender identity, age, or national origin. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of the District.

The Maricopa County Community College District does not discriminate on the basis of race, color, national origin, sex, disability or age in its programs or activities. For Title IX/504 concerns, call the following number to reach the appointed coordinator: (480)731-8499. For additional information, as well as a listing of all coordinators within the Maricopa College system, visit <http://www.maricopa.edu/non-discrimination.Diversity>

The GCC student body is as diverse as its surrounding community. The college is committed to celebrating this diversity and ensuring that students coming into college receive equitable opportunities for success. Two organizations on campus committed to the goal of diversity and equity across the campus are the Diversity Committee and the Diversity, Equity, and Inclusion (DEI) Council.

Diversity

Achieving the Dream

At GCC we recognize the value in ongoing assessment of our efforts and outcomes as relates to diversity, equity and inclusion. In collaboration with Achieving The Dream (ATD), GCC participated in a college-wide assessment, which resulted in the GCC Equity Opportunity Assessment Report. The ATD report provides recommendations based on GCC's existing equity efforts both inside and outside of the classroom, focusing on engaging leadership around the conditions necessary for an impactful campus climate and equity focused strategic actions, examining the core conditions necessary for addressing equity in teaching and learning and student supports, and identifying the foundation for building momentum for sustainable efforts in diverse, equitable, and inclusive practices. Within these areas, a number of core recommendations to improve equity at GCC were provided:

1. Engage faculty as change agents in building an equity focused culture
2. Intentionally design the student experience using a student-centered design approach and systems perspective
3. Develop an inclusive feedback loop with faculty, staff, and the community

4. Develop a transparent plan for democratizing student success data
5. Develop a comprehensive plan for recruiting and retaining diverse faculty, especially LatinX
6. Develop an equity statement with the support of a cross functional team

While equity change work is not limited to one area or department, the impacts of inequities directly affect how GCC students, faculty, staff, community members, and administrators experience the college and feel supported. As such, we all, in our various roles, are essential to closing equity gaps. We support our faculty commitment to culturally-relevant teaching and eliminating unconscious bias, as we support and leverage the strength of a diverse student population.

GCC chose to work with ATC because we continually strive to be agile and dynamic in addressing the diversity of student needs. On our campus you will find no shortage of faculty, staff, and leaders who care deeply and passionately champion the removal of challenges in support of student success and sense of belonging. GCC offers a plethora of services, programs, interventions, and supports to address identified equity needs within the general student population.

Learning Environment

Maricopa's Excellence in Teaching and Learning Guiding Principles provide an overarching framework for defining who we are and how we engage students in transformative ways.

We actualize these principles at GCC by committing to create learning environments that align with GCC's institutional values and intentionally move students toward the achievement of our institutional learning outcomes.

Because we value LEARNING, our learning environments ...

- Provide comprehensive and transformative experiences that help students achieve their personal, academic, and career goals
- Spark intrinsic interest in course content and challenge students through problem-solving, analyzing, synthesizing, and evaluating ideas
- Assume intelligence and abilities can grow with experience

- Engage students in hypothesizing and then testing their conceptual understanding
- Teach students to create and assess different types of information and ways of knowing
- Encourage students to take risks, receive feedback, and build resilience to try again
- Because our learning environments are designed in this way, our students are able to demonstrate critical and creative thinking skills as well as quantitative reasoning and analysis

Because we value QUALITY, our learning environments ...

- Assure excellence in instruction and support services and continuous assessment for optimal results
- Engage students in deep learning in which they challenge their existing paradigms to evaluate the merit of their own ways of thinking
- Encourage students to take responsibility and self-regulate their own learning so the quality of their educational experiences extends beyond an individual class
- Provide students opportunities to test their understanding and apply their knowledge through real-world experiences
- Because our learning environments are designed in this way, our students are able to demonstrate information literacy

Because we value INTEGRITY, our learning environments ...

Demonstrate unwavering commitment to honesty, transparency, and accountability

- Ensure fair and honest consideration of student work
- Encourage students to strive to be the best students they can be both in terms of character and commitment
- Provide students a sense of control over and responsibility for their own learning
- Help students develop ethical principles and an understanding of the world around them
- Because our learning environments are designed in this way, our students are able to demonstrate

responsible decision-making that leads to personal and community well-being.

Because we value INCLUSIVENESS, our learning environments...

- Cultivate and support diversity, equity, and social justice
- Develop cultural awareness and sensitivity
- Attend to students' intellectual, emotional, and physical well-being to ensure a sense of belonging and empowerment
- Build connections among different people, disciplines, and perspectives
- Because our learning environments are designed in this way, our students are able to demonstrate awareness and appreciation of diversity

Because we value COMMUNITY, our learning environments...

- Foster a culture that enables positive relationships based on mutual respect, trust, and a sense of belonging
- Ensure students believe we have confidence in their ability to learn and they believe that they can learn
- Afford opportunities for students to collaborate with other learners who are struggling with the same problems
- Encourage teamwork and an understanding of how students can share their skill set with others at multiple levels of society (locally, nationally, and globally)
- Cultivate student understanding of the importance of being a responsible citizen
- Because our learning environments are designed in this way, our students are able to demonstrate the communication skills necessary for effective oral, written, and visual communication.

Because we value being FUTURE-FOCUSED, our learning environments ...

- Enhance innovative and forward-thinking perspectives and approaches to prepare students for evolving educational, workforce, and societal needs

- Pose significant, encompassing, important questions to challenge students with relevant learning that prepares them to address problems impacting their lives, their work, and the world around them
- Engage students in inventing ways to solve problems
- Prepare students to be self-directed, intentional, life-long learners
- Assist students in acquiring leadership skills and the ability to manage complex projects
- Because our learning environments are designed in this way, our students are able to clarify their career goals and demonstrate the knowledge and skills needed for success in the workplace.

Strategic Planning

The strategic planning process is critical to realizing our institution's long-term vision that is anchored in the foundations of GCC and furthers our efforts to support the success of our students and community. An institution's strategic plan should be, among other things, a tool used to communicate the most important efforts the college is working towards, and we are working to create a document that does just that.

Focus 2024

Focus 2024 is GCC's College-wide Strategic Plan accessible via the link included in the Downloads section on this page. Built upon the principles of the Four Disciplines of Execution (4DX), we believe these principles will help to ensure forward momentum by asking individuals and departments to take an active role in our GCC Super Goal: Increase completion with equity from 23% to 33% by Fall 2024. The three strategic goals are meant to advance specific areas of the entire college: Enrollment, Operational Effectiveness, and GCC's Reputation and Competitive Edge. Together, our super goal and three strategic goals will result in a stronger and more connected college to better serve our community.

Background

In fall 2020, the Strategic Plan Design Team (SPDT) was formed to draft the institution-wide 2021-2024 strategic plan. This webpage aims to bring clarity and transparency to the college planning process. Further, it aims to more strongly align College strategic goals with department operational goals enabling more integrated long-term planning.

Throughout 2020-2021, the SPDT collected feedback from more than 150 students, faculty, staff, administrators, and community members to determine areas and big ideas requiring college-wide attention to move forward. This process was designed to be as inclusive as possible.

Questions, comments, or concerns? Email strategicplanning@gccaz.edu.

Get Involved with Strategic Planning

Implementing the strategic plan requires an inclusive and engaging approach to ensure all voices have the opportunity to voice their ideas as we engage in this concerted effort to implement a plan for our future. If you would like to schedule a meeting or listening session, please contact us at strategicplanning@gccaz.edu to coordinate a time that works for your group to ensure your voices and ideas are heard and integrated into our future plan

Structure of Strategic Planning

GCC's strategic planning structure aims to provide an integrated and holistic model that links college resources to our strategic dimensions and goals that are forward-looking, drive our ambitious goals, and quickly adapt to changing conditions. GCC's new integrated model for strategic planning further attempts to link department and committee operational goals to the college's strategic goals. GCC's strategic goals are categorized under three dimensions, formerly known as dimensions, which include Effective Teaching and Learning, Strategic Enrollment Management, and Operational Excellence. This model further aligns college efforts to the District Office's goals and ongoing efforts to create a systematic approach to student success.

GCC's Planning Model 2013 to Present

GCC's 2013 Integrated Strategic Plan emphasized a three-tier approach to planning: College, Division, and Department. In crafting the structure for our new strategic plan, the College Leadership Team (CLT)

recognized this model no longer allows for flexible and dynamic planning when forces external to GCC change the course of how we serve our community. The COVID-19 global pandemic was a perfect example of an external force that pushed us to think differently and more rapidly about how we plan and execute our goals based on the needs of our diverse communities.

GCC's New Planning Model

Past challenges with the flexibility and the ability of the plan to quickly adapt has encouraged GCC's College Leadership Team to change course to support a more dynamic model of strategic planning that integrates planning and resources, primarily relying on two levels of planning: College and Department / Committee. Recognizing that committees play a crucial role in advancing GCC's goals and objectives, it is essential that they are included in the planning process. GCC's new strategic plan will include three dimensions:

1. **Effective Teaching and Learning:** Providing and ensuring quality educational programs, courses, and activities both inside and outside of the classroom.
2. **Strategic Enrollment Management:** A coordinated and targeted effort to identify, recruit, enroll, retain, and graduate our GCC Gauchos.
3. **Operational Excellence:** Consistently and reliably providing service to students, employees, and the community in a way that creates a competitive advantage for GCC.

What does this mean for me?

GCC's new college-wide strategic plan will provide all stakeholders with a clear understanding of the institution's top priorities and plans to address areas of opportunity. Each of these dimensions is not specific to a college division, but is embedded in the work we all do. Effective teaching and learning happen everywhere, everyone plays a role in the continued enrollment of students, and we can't do anything of this if our institution doesn't operate efficiently and effectively. It will take all of us working together, in alignment, to multiply the impact of this plan towards our overarching goal of student success.

After the college strategic plan is published, GCC's Office of Institutional Effectiveness will provide support and tools for college departments and committees to create annual operational plans that include their operational

goals that align to the college's strategic goals forward. The college strategic plan is anticipated to be released to departments in March 2021, and then operational plans will be developed from March - June 2021, with implementation beginning July 2021 into the fall semester.

Sustainability on Campus

GCC is a strong proponent of sustainability with many initiatives in place which are actively supported by students, faculty and staff. In line with GCC's commitment to sustainability, we have pledged to be carbon neutral by 2025 through the signing of the American College and University Presidents' Climate Commitment in 2011. GCC President Teresa Leyba-Ruiz continues to support the culture of sustainability among its students and employees.

The Sustainability Board, chaired by Vice President Administrative Services Augustine Erpelding, works with the Green Efforts Committee, Environmental Club, and academic members of the Sustainability degree and certificate programs to incorporate sustainable ideas and programs in the administration of the college.

The list of green efforts at the main and North campus have continued to flourish through the years, for example:

- Energy conservation: temperature set points, LED light bulbs, hybrid vehicles, electric vehicle charging stations, sensors to reduce energy & resource usage, LEED-designed buildings, locally-sourced building materials, meatless cafeteria menu, telecommuting policy and more
- Water conservation: landscaping without the use of irrigation, environmentally-friendly chemicals & cleaners
- Plastic and paper use reduction: water bottle fill stations, reusable cups, increase use of aluminum can vs plastic, paper reduction pledge
- Recycling & waste reduction: e-cycling events, zero waste program, co-mingled recycling bins

Celebrating Success

Though our campus-wide commitment to sustainability, GCC has won awards for many of our programs. GCC is working on lowering greenhouse gas emissions.

The state-mandated Trip Reduction Program provides discounted bus passes and other commuting alternative

opportunities (carpool, vanpool, bike racks) to its employees and students to help lessen emissions.

Get more information

To learn more about the sustainability efforts for the Maricopa County Community College District, please visit the MCCCD Sustainability page:
<https://www.maricopa.edu/about/sustainability>

Green Efforts and Recycling

We are students, faculty, staff and community members working toward a more sustainable campus in order to meet the needs of the present without compromising the needs of future generations. Learn more about MCCCD's Global Sustainability Initiative.

What is Recyclable?

The following list of acceptable materials are recyclable at both campuses:

- Aluminum, such as cans, foil, and food trays.
- Cardboard, empty of all packing materials and broken down.
- Cartons, such as half-gallon milk or juice cartons.
- Chipboard, like cereal, cracker, and cake mix boxes (without inserts).
- Mixed Paper, such as magazines, junk mail, catalogs, brown paper bags, telephone directories, and newspapers.
- Plastic Containers #1 & #2 only, such as water bottles, soda bottles, & milk jugs. No plastic bags, Styrofoam, or bubble wrap.
- Steel/Tin, like soup or vegetable cans.

Green Means Clean!

The following items should not be placed in the recycle bins: glass, paper towels, tissues, napkins, food waste, liquids, chewing gum, chip or cookie bags, plastic bags, clear plastic wrap, bubble wrap, Styrofoam, plastic food utensils, wax-coated coffee cups, electronics, light bulbs, batteries, toner cartridges, and cell phones. Garbage placed in our recycle bins contaminates the entire bin!

GCC Commits to Protect Climate

In February 2010, Chancellor Glasper signed the American College and University Presidents' Climate Commitment (ACUPCC) to pledge all of Maricopa to

become carbon neutral. GCC's Greenhouse Gas Inventory is now complete. Please join us this year as we develop our Climate Action Plan.

To become carbon neutral by 2025, GCC must reduce from the two largest sources:

- Commuting to and from campus - 51% (students, faculty & staff)
- Electrical power purchased to run campus - 37%

Green Gaucho Guide: Commingled Recycling

Over the past four years, Green Efforts members have worked to provide recycling services in all classrooms, common areas, hallways, and employee work areas. GCC has received two grant awards that provided 150 recycle bins for our campuses. In Spring 2013, recycle bins were added to every employee office space in preparation for campus conversion to Zero Waste. It's now time to focus on what goes in the blue bins. The Green Gaucho Guide: Commingled Recycling (<https://www.gccaz.edu/sites/gcc/files/inline/file/7206-gcc-recycling.pdf>) contains a list of items that are

recyclable on campus and items that are not. Know your recyclables and help reduce contamination in our recycle bins.

Zero Waste Program

The Zero Waste Program is an initiative to reduce waste, maximize recycling, and reduce consumption. On America Recycles Day 2014, President Kovala reiterated her support for the Zero Waste initiative and announced campus-wide implementation by August 2014. All office spaces have been converted to Zero Waste (7-gallon recycle bin + 1-gallon waste bin).

Get Involved!

Are you interested in discussing sustainability, recycling, and awareness of environmental issues at GCC? Green Efforts is open to students, employees, and members of the community. For updated information on meetings, activities, and events, join Green Efforts on Canvas (MEID required) (<https://learn.maricopa.edu/enroll/H8KAHD>). The Canvas site contains project information, meeting minutes, links to resources, and more.

Graduation Requirements

General Graduation Requirements (A.R. 2.3.9)

Note: Also see Catalog Under Which a Student Graduates (AR 2.2.5)

Earning a Certificate or Degree

The Maricopa Community Colleges offers certificates and degrees in a variety of areas. Each certificate and degree have specified program requirements for graduation. See certificate and degree information for specific program requirements. It is the student's responsibility to be aware of these requirements.

Candidates for graduation must satisfy the following requirements:

- Complete the minimum number of credits required for the certificate or degree. For degrees, at least 15 credits must be completed at the awarding college. For certificates that are 15 or more credits, at least 6 credits must be completed at the awarding college. For certificates that are 14 or fewer credits, at least half of the credits must be completed at the awarding college. Exceptions to this institutional residency policy must have prior written approval of the program director, department/division chair, or designee and documentation of rationale and approval included as part of application to graduate.
- All new to Maricopa students who declare an associate degree, an Associate in Applied Science degree, or intend transfer to a college/university to complete a bachelor's degree, will be required to successfully complete a first-year experience course (FYE101 or FYE103) within the first two semesters at a MCCC college.
- Meet the general education, program requirements, and electives for the certificate or degree required. Requirements can be satisfied by MCCC coursework, prior learning assessment, and transfer credit. No more than 45 credit hours can be accepted and applied to a degree using transfer credit and/or prior learning assessment. Transfer credit and prior learning assessment does not count as hours in residence for graduation requirements. Exceptions to this institutional policy must have prior written approval of the program director, department/division chair, or designee and documentation of rationale and approval included as part of application to graduate.
- Earn a minimum cumulative grade point average (GPA) of 2.0 on a four-point grading scale in all letter-graded courses (100-level and above) (completed in residence and accepted in transfer) used to fulfill requirements at the college granting the degree or certificate. Some awards may specify additional GPA requirements.
- Remove all deficiencies (e.g. incomplete grades, missing transcripts, national test results, etc.) on the record to use those courses toward program completion.
- Fulfill any financial obligations with the college. The same degree or certificate can only be awarded once within the Maricopa Community College District.

AutoAward Policy: MCCC has an auto-award program that identifies some students who have completed a degree or certificate and never submitted a Petition for Graduation (e.g. [Reverse Transfer](#)). However, this program is limited and students should not depend on it for graduation. The Petition for Graduation should always be submitted when a student is intending to graduate.

Maricopa Nursing Program

For the Maricopa Nursing program, the cumulative GPA for awarding purposes is calculated based on courses required for the degree or certificate taken at any Maricopa campus and includes pre-requisites, co-requisites, and nursing blocks. Students must apply for graduation from the college where they have successfully completed Block 4 of the Associate in Applied Science in Nursing.

Appendix S-13: The Maricopa Community Colleges Allied Health or Nursing Program Allied Health or Nursing Assumption of Risk/Release of Liability

Most of the allied health or nursing program pathways include a program of study in a clinical training environment that may contain exposures to risks inherent in patient-oriented educational experiences (such as but not limited to bodily injury or communicable and infectious diseases). Students enrolling in clinical educational courses will be asked to sign a statement assuming all risks inherent in their coursework.

Use of Confidential Information

Students enrolled in allied health or nursing program pathways will have learning experiences in a health care setting where they will have access to confidential information. Prior to beginning any clinical studies, the students will be asked Catalog Common Pages 2022-2023 Approved 5/24/22 130 to sign an agreement to adhere to the requirements of those clinical sites and applicable law, including the Health Insurance Portability and Accountability Act of 1996 (HIPAA).

MCCCD Required Background Checks

Students enrolled in an MCCCD allied health or nursing program are required to complete and pass clinical learning experiences, working with children, elderly persons, and other vulnerable populations. MCCCD's major clinical agency partners now mandate that any college students assigned to them for clinical experiences submit to a comprehensive background clearance prior to entering such learning experiences. Because the clinical experience portion of the programs is critical to completing a program of study, MCCCD has instituted two specific background check requirements in order for a student to enroll in a program. First, the student must obtain, at his or her own cost, a Level I Fingerprint Clearance Card from the Arizona Department of Public Safety. Precluding offenses for a Level I card can be found in Arizona Revised Statute § 41-1758.07 (<https://www.azleg.gov/viewdocument/?docName=https://www.azleg.gov/ars/41/01758-07.htm>). Additionally, students must also obtain a "pass" status on a MCCCD supplemental background check from MCCCD's authorized background check contractor. The student must also pay for this background check. The supplemental check will be based on the most stringent standards of MCCCD's clinical experience partners.

The sole program for which the background check requirements are different is the Emergency Medical Technician program. For that program, students must have obtained a Level 1 Fingerprint Clearance Card from the Arizona Department of Public Safety. They are also required, at the time of their clinical assignments, to submit to, pay for and pass any additional background check requirements of the clinical agencies to which their EMT program places students.

Certain licensing boards may require a separate background check or clearance card upon application for licensure or certification.

The MCCCD supplemental background check review may include searches of the following databases and information but MCCCD reserves the right to change the search criteria and the program background check requirements at any time without notice:

1. National Federal Health Care and Abuse Databases
2. Social Security Verification
3. Residency History
4. Arizona Statewide Criminal Records
5. Nationwide Criminal Databases
6. Nationwide Sexual Offender Registry
7. Homeland Security Search

Examples of background information that will result in a "fail" status on the supplemental background check include:

1. Social Security number does not belong to the applicant
2. Any inclusion on any registered sex offender database
3. Any inclusion on any of the Federal exclusion lists or Homeland Security watch lists
4. Any conviction of a felony no matter what age of the convictions

5. Any warrant any state
6. Any misdemeanor conviction for the following no matter how long ago:
 - a. Violent crimes
 - b. Sex crime of any kind including non-consensual sexual crimes and sexual assault
 - c. Murder, attempted murder
 - d. Abduction
 - e. Assault
 - f. Robbery
 - g. Arson
 - h. Extortion
 - i. Burglary
 - j. Pandering
 - k. Any crime against minors, children, vulnerable adults including abuse, neglect, exploitation
 - l. Any abuse or neglect
 - m. Any fraud
 - n. Illegal drugs
 - o. Aggravated DUI
7. Any misdemeanor controlled substance conviction in last 7 years
8. Any other misdemeanor conviction within last 3 years

EXCEPTIONS: Any misdemeanor traffic (DUI is not considered traffic)

The information that MCCC uses for the “pass/fail” background check is subject to change at any time without notice.

MCCC recommends that students carry proof of the background clearance at all times during any clinical agency learning experience.

Duty to Report Changes; Removal

Students have an obligation to immediately report to the director of their program any change in the information that they supplied on forms submitted to initiate background checks relating to the allied health or nursing program. That includes information provided to the Arizona Department of Public Safety and MCCC’s supplemental background check vendor, as well as that related to the background check required by a clinical agency. Failure to do so will result in removal from the program. Additionally, any change in background check status that would affect the student’s clearance under either MCCC’s or a clinical agency’s standards will result in removal from a program.

Additional Clinical Agency Background Check

Some clinical agencies require that students assigned to their sites submit to a criminal background check covering other offenses, as well as to a drug screening. Students are required to pay for the additional agency clinical background check. A clinical agency that requires this additional background check may refuse to place a student due to information the clinical agency obtains in its background check even though that student possess a valid Level I Fingerprint Clearance Card and has obtained a “pass” status on the MCCC supplemental background check.

Some conditions that have resulted in students being denied placement at clinical agencies include pending criminal charges, outstanding warrants, unfinished terms of a sentence (such as unpaid fines), pattern of repeated types of arrests/convictions, and failure to disclose all past arrests/convictions when asked to do so on any background check application.

Inability to Place

MCCCD has no obligation to make repeated attempts to place a student when the reason for MCCCD's inability to place the student is due to background check issues. Since clinical agency assignments are mandatory requirements for completion of a program, a student's inability to complete required clinical experience due to his or her background check issues will result in removal from the program.

Changes to Admission or Background Check Requirements

MCCCD may change its program admission requirements or background check requirements without notice at any time.

No Guarantee of Receipt of Licensure/Certificate

Many of the nursing and allied health programs prepare graduates for application for State or National certificates or licenses. In some professions, such licensure and certification are required prior to employment or practice in the profession. Graduation from a nursing and allied health program does not guarantee the receipt of a license or certificate to practice in the field of study.

Graduation with Honors

All courses used to fulfill graduation and degree requirements, including courses from other institutions are used in the grade point average calculation (GPA) at graduation. Degree-seeking students who have distinguished themselves with GPAs 3.50 and higher are recognized with the following graduation honors:

- 3.50 to 3.69 graduation "with distinction"
- 3.70 to 3.89 graduation "with high distinction"
- 3.90 to 4.0 graduation "with highest distinction"

Certificate programs are not eligible for institutional honors.

General Academic Policies for Associate Degrees Designed for University Transfer

The following academic policies govern the associate degrees designed for university transfer: Associate in Arts (AA); Associate in Arts, Elementary Education (AAEE); Associate in Arts, Fine Arts (AAFA); Associate in Business-General Requirements (ABUS-GR); Associate in Business-Special Requirements (ABUS-SR); and Associate in Science (AS). **Note that academic policies that govern the Associate in General Studies (AGS) and Associate in Applied Science (AAS) degrees are listed separately, with the requirements for each of those degrees.**

- The graduation policies within the general catalog must be satisfied (administrative regulation 2.3.9). **First Year Experience required (FYE101 Or FYE103).**
- Minimum semester credits for completion vary slightly by degree and specific emphasis (when applicable). Refer to the Program (Degree) Search at <https://curriculum.maricopa.edu/> for credit minimums for individual degree programs.
- Credits completed toward these minimums must be in courses numbered 100 or above with a grade of C or better. These credits must include a minimum of 35* in satisfaction of the requirements of the Arizona General Education Curriculum (AGEC) along with a maximum of 6 credits towards MCCCD's Additional Requirements.
- Detailed degree requirements are maintained by the Center for Curriculum and Transfer Articulation (CCTA); refer to the program search at <https://curriculum.maricopa.edu/>.

General Education Requirements:

- The AGEC requirements include a designated number of courses approved for each of the following areas:
 - First-Year Composition [FYC]
 - Mathematical Applications [MA]
 - Computer/Statistics/Quantitative Applications [CS] (not required for Associate in Science)

- Literacy and Critical Inquiry [L]
 - Humanities, Arts and Design [HU]
 - Social-Behavioral Sciences [SB]
 - Natural Sciences: Science Quantitative [SQ], Science General [SG]
 - Awareness Area: Cultural Diversity in the U.S. [C]
 - Awareness Area: Global [G] or Historical [H] Awareness
- Note that there are three different AGECs each aligning with a different subset of associate degrees--AGEC-A for the AA, AAE, and AAFA degrees; AGEC-B for the ABUS-GR and ABUS-SR degrees; and AGEC-S for the AS degree. For some types of AGECs/Associate degrees, students are allowed to choose from a broad list of courses; for others the courses are more restricted or even specified.
 - A single course can simultaneously count toward one or more areas in the following Awareness Areas of [C]; and/or [H]/[G] may be shared with AGEC requirements. MCCC Additional Requirements e.g. Oral Communication and Critical Reading may be shared with other AGEC requirements. For example, CRE101 may be used to satisfy both the MCCC Reading Requirement and [L] in the AGEC core. For some degree types, other lower division courses can be used to meet the degree requirements.
 - While multiple requirements can be met with a single course, the credits are only counted one time toward the required minimum for the degree. Except for the AGEC-S, a single course cannot be used to satisfy more than one AGEC core requirement, with the exception of Awareness Areas. For example, a course cannot be used to satisfy [HU] and [SB], but a course can be used to meet [HU] and [C], [G] and/or [H].
 - The AGEC-A and AGEC-B require a minimum of 35 credits* and the AGEC-S requires a minimum of 36 credits*, however, the AGEC credit count within the total credits for a degree may be under these minimums if courses are also applied toward Required Courses or Restricted Electives and the credits are counted in those areas. Awareness Areas and MCCC's Additional Requirements may also be shared with AGEC Core Areas. Optimizing credits in this way is often recommended because some programs and universities limit transferable credits at 64.
 - All MCCC courses applied to the AGEC must be completed with a grade of C or better. All MCCC courses applied to the AGEC must be accepted for transfer credit as a direct equivalent, departmental elective, or general elective credit at ASU, NAU, and UA according to the Course Equivalency Guide for the academic year in which the course was taken. Courses applied exclusively to the Bachelor of Applied Science are ineligible for inclusion in the AGEC.

Coursework beyond General Education:

- For some degree types, the additional coursework required to complete the degree is specified while others offer the student more latitude. See degree checksheets for more complete description. Consultation with an academic advisor about course selection is always recommended.
- Oral Communication and Critical Reading are MCCC Additional Requirements required for Associate in Arts; Associate in Arts, Elementary Education; Associate in Arts, Fine Arts; and Associate in Science degrees. Refer to the Program (Degree) Search at curriculum.maricopa.edu for acceptable options to meet these requirements for individual degree programs.
- Within the Restricted Electives, course recommendations are made for specific transfer institutions. Students should select a transfer plan (group of courses) based on their intended transfer institution. However, not all transfer institutions are reflected in these recommendations. Therefore, students may instead meet the minimum number of Restricted Elective credits using a combination of courses from the transfer plans listed. Restricted Electives should be selected in consultation with an academic, faculty, or program advisor.
- Note that some majors require up to a 4th semester proficiency (202-course level) in a non-English language. Students should consult with an academic advisor to discuss options to complete these requirements.

- General Electives may need to be selected to meet the minimum total credits required for the degree. Maricopa courses and external courses evaluated as Maricopa equivalents, departmental electives, (e.g., HIS110 for a history elective), or general electives (GENELC) that are numbered 100 level or higher, and completed with a grade of C or higher, may be applied in the elective area, regardless of potential transferability to other institutions. It is recommended, however, that students planning to transfer to a baccalaureate-granting institution meet these general elective requirements with courses that are transferable and applicable to their intended university degree. Transfer advisement information is accessible on the following websites: aztransfer.com, curriculum.maricopa.edu, as well as those of individual universities. For appropriate course selection, students should consult with an academic advisor.
- Any course cross-referenced under another prefix(es) (for example ENH291/EDU291-Children's Literature) covers identical content and its credits can only be counted once toward requirements.

Transfer Credit from Institutions Outside of MCCC:

- Credits transferred from outside of MCCC must be at a grade of C (2.0 on a 4.0 scale) or better. Transfer credit graded pass/fail or pass/no credit may be used to satisfy AGEC requirements if documentation collected by the community college indicates that this was the only grading option available and that the Pass grade ("P") is equivalent to a C or better.
- External courses evaluated either as equivalent to an MCCC course or as elective credit may be applied toward the minimum credits for degree completion.
- The AGEC (Arizona General Education Curriculum) designations of courses completed at other Arizona public colleges or universities will be applied as listed on AZTransfer's Course Equivalency Guide (CEG) for the semester(s) in which the course(s) were completed. If a transcript evaluation determines there is no MCCC direct equivalency to a course from another Arizona public college or university, applicability to AGEC and/or associate degree requirements will be based on the source institution's AGEC designation for the semester in which the course was completed.
- Courses from private, out-of-state, and/or online institutions (i.e., outside of the Arizona Transfer System composed of Arizona's public community colleges, tribal colleges and universities) will be applied toward AGEC and/or associate degree requirements based on the courses' evaluated MCCC equivalence. If courses are not directly equivalent, the credit may be articulated as a departmental elective, and if deemed appropriate, may have a general education designation applied to the course.
- Credit awarded at a Maricopa Community College through prior learning assessment is transferable to the other colleges in the district but is not necessarily transferable to other colleges and universities. No more than 20 such assessed semester credit hours may be applied toward AGEC, and no more than 30 credits (including up to 20 toward AGEC) may be applied toward a degree.

Completion and Transfer:

- Completion of the AGEC with a minimum Grade Point Average of at least 2.0 on a 4.0 scale for Arizona residents and 2.50 for non-residents meets Arizona public university general admission requirements. It does not ensure admission to specific university majors or programs with selective admission processes and/or limited enrollment.
- While MCCC's associate degrees are designed to facilitate a seamless transfer to other Arizona institutions, courses may be transferable and/or meet associate degree requirements, but may not necessarily meet the specific requirements of a particular degree, major, or area of emphasis at another institution.
- Students planning to transfer to another college or university are urged to refer to university requirements and academic advisors from both institutions to be certain that all their selected coursework is applicable to the requirements of their intended transfer degree and within their allowed transferable credit limit. For some majors, the statewide Common Course matrix and AZTransfer Major Guides at aztransfer.com and/or university

transfer guides can also provide some guidance. For appropriate course selection, students should consult with an academic advisor.

*Credit minimums may be lower if students have transfer credit from ASU, NAU or UA for a single course that meets First-Year Composition in full. See notes on individual degree policies.

Catalog Under Which a Student Graduates (A.R. 2.2.5)

Students maintaining continuous enrollment at any public Arizona community college or university may graduate according to the requirements of the catalog in effect at the time of initial enrollment or according to the requirements of any single catalog in effect during subsequent terms of continuous enrollment. Students may maintain continuous enrollment whether attending a public community college and/or public university in the state of Arizona.

The rules for maintaining continuous enrollment are:

- A semester in which a student earns course credit will be counted toward continuous enrollment.
- Noncredit courses, audited courses, or courses from which the student withdraws do not count toward continuous enrollment.
- Failure to enroll in three consecutive regular (fall or spring) semesters breaks continuous enrollment; however, enrollment in the intervening summer terms may be used to maintain continuous enrollment status.
- If continuous enrollment is not maintained, the student must fulfill the requirements for graduation specified in the catalog in effect for the academic year in which they re-enroll or any subsequent catalog of their continuous enrollment.
- Students who initially enrolled or re-enrolled during a summer term must follow the annual catalog of the subsequent academic year or any subsequent catalog of their continuous enrollment.

Age of Credit

In areas of study in which the subject matter changes rapidly, material in courses taken long before graduation may become obsolete or irrelevant. Coursework that is more than ten years old is applicable to completion of certificate and degree requirements at the discretion of the designated individuals at the college. The college may accept such coursework, reject it, or request that the student revalidate its substance. The 10-year limit on coursework applies except when program accreditation agencies limit the life of coursework to less than eight years. Departments may also require students to satisfy current major requirements rather than major requirements in earlier catalogs, when completing earlier requirements is no longer possible or educationally sound.

*Please note that the above language is guided by statewide practices.

University Transfer (A.R. 2.2.13)

The Maricopa Community Colleges have developed formal agreements to facilitate the transfer of credit to four-year colleges and universities. This is accomplished through the development of course and program articulation agreements. The Maricopa Community Colleges articulate with accredited private, public, and international baccalaureate granting institutions. Maricopa transfer agreements are on behalf of the district as a whole and not with individual colleges within the District. Courses taken at any of the Maricopa Community Colleges are equally transferable by institutions wishing to articulate. Students planning to transfer to a university may be required to submit official transcripts. Articulated transfer programs and pathways between the Maricopa Community Colleges and baccalaureate-granting institutions [such as the Maricopa-ASU Pathway Program (MAPP), the UA Bridge Program, 2NAU and 90/30 Transfer Agreements] are official, recognized programs of study that fulfill both associate degree and bachelor's degree requirements. These articulated programs and pathways are designed to aid in a smooth transition for a student planning to transfer to a four-year college or university by identifying the required, transferable, and applicable coursework for that student's specific program of study. A complete list of Maricopa-ASU Pathway Program requirements by major and catalog year is maintained on ASU's website, at [Transfer: https://admission.asu.edu/transfer](https://admission.asu.edu/transfer)

ARIZONA PUBLIC COMMUNITY COLLEGES AND UNIVERSITIES

Maricopa is a participant in the Arizona statewide transfer system. AZTRANSFER.COM is the official source of information for the statewide articulation agreements between the Arizona public community colleges and universities (Arizona State University, Northern Arizona University, and University of Arizona). Included on AZTRANSFER.COM is the Course Equivalency Guide (CEG), which shows transfer course equivalencies between Arizona's public community colleges and tribal institutions to Arizona State University, Northern Arizona University, and the University of Arizona. The transferability of a course does not indicate directly how the course will apply to meet requirements for specific bachelor's degrees. [AZTransfer Course Equivalency Guide](#)

(U.S.) AND INTERNATIONAL INSTITUTIONS

The Maricopa Community Colleges have transfer agreements with accredited U.S. universities and colleges as well as international institutions that have been approved by the Ministry of Education. These partnerships are formalized through District-Wide memorandums of understanding and articulation agreements, and are designed to help students maximize the applicability of transfer credit toward a bachelor's degree. To access a list of institutions with which Maricopa has established articulation agreements, visit: [Maricopa University Partner List](#)

TIME LIMIT FOR TRANSFER COURSEWORK

Students should be aware other colleges and universities may have age of credit limits on certain coursework to be used in transfer. Students should refer to the policy of their intended transfer institution regarding time limits for transfer coursework.

SHARED UNIQUE NUMBERING (SUN) SYSTEM COURSE INFORMATION

Senate Bill 1186, which passed into law in 2010, mandated the creation of a shared numbering system for public college and university courses in Arizona to identify courses that transfer from community colleges to universities toward a baccalaureate degree. The Shared Unique Number (SUN) system is a college course numbering system designed to help students locate and enroll in courses that have direct equivalents for transfer among Arizona's public community colleges and three state universities. However, even if a course at the Maricopa Community Colleges is not designated as a SUN course, it may still transfer to other Arizona public institutions with a direct equivalent as per the Course Equivalency Guide on AZTRANSFER.COM. The SUN system does not address the applicability of courses. students are encouraged to work with an academic advisor on course selections. To access a list of SUN courses, visit [SUN:](#)

<https://www.aztransferqa.com/sun/>

University Transfer Pathways

Transfer Pathways are an advising tool to help you identify your best transfer strategy. Public community colleges and universities follow a statewide transfer policy that specifies how courses transfer. That means that you can select courses to meet university requirements even if you haven't decided on your major or university.

Most pathways include an associate degree, an Arizona General Education Curriculum (A GEC) block and common courses.

Connect with your Advisor (<https://www.gccaz.edu/advisement>) or Transfer Representative (<https://www.gccaz.edu/transfer/university-partnerships>) to create your customized transfer plan.

Associate Degrees (AA, ABus, AS)

Degree Name	A GEC Block	Total Credits
Associate in Arts (AA) <i>for Liberal Arts majors</i>	A GEC-A	60-64
Associate in Arts, Elementary Education (AAEE) <i>for Elementary Education, Multicultural/Multilingual, or Special Education majors</i>	A GEC-A	60-64

Degree Name	AGEC Block	Total Credits
Associate in Arts, Fine Arts (AAFA) <i>for Art, Dance, Theater or Music-related majors</i>	AGEC-A	60-64
Associate in Business, General Requirements (ABUS-GR) <i>for Business majors</i>	AGEC-B	62
Associate in Business, Special Requirements (ABUS-SR) <i>for Computer Information Systems majors</i>	AGEC-B	62
Associate in General Studies* (AGS) <i>when your educational goals require flexibility</i>	N/A	60-64
Associate in Science (AS) <i>for majors that require more rigorous math and science</i>	AGEC-S	60-64

*This degree may be less appropriate for students who intend to transfer to a bachelor's degree-granting institution. Meet with your academic advisor to discuss this option.

Arizona General Education Curriculum (AGEC - A, B, S)

If you complete the entire AGEC block before getting admitted, these credits will transfer as a block to Arizona State University (ASU), Northern Arizona University (NAU), and University of Arizona (UA) and satisfy most of the university's general studies requirements. If you complete the AGEC with a 2.5 GPA or better, you are guaranteed admission to ASU, NAU, and UA.

There are three General Education blocks – AGEC-A, AGEC-B, and AGEC-S. Complete the AGEC that is appropriate for your major.

AGEC-A (35 credits)

Complete the AGEC-A if you will major in liberal arts, fine and performing arts, or elementary education when you transfer to the university. Such majors may include communications, English, history, religion, philosophy, theater, dance and sculpture.

AGEC-B (35 credits)

Complete the AGEC-B if you will major in business when you transfer to the university. Business majors may concentrate on accounting, economics, finance and marketing.

AGEC-S (36 credits)

Complete the AGEC-S if you will major in a subject area that requires calculus and more rigorous science courses. Such STEM majors may include biology, chemistry and engineering.

Common Courses

If you know your major but haven't decided which university you will attend, Common Courses are a safe option. Common Courses:

- are recommended lower-division courses in a major offered by two or more public universities.
- are decided upon by university and community college faculty committees.
- will satisfy major, minor, prerequisite or elective requirements for associated majors.
- provide an alternative for students exploring many possible majors.

Refer to the transfer guide (<https://aztransmac2.asu.edu/cgi-bin/WebObjects/CEG>) and connect with your Advisor (<https://www.gccaz.edu/advisement>) or Transfer Representative (<https://www.gccaz.edu/transfer/university-partnerships>) to select courses.

Transfer Your AAS Degree

In addition to the degrees listed above, all of GCC's Associate in Applied Science (AAS) degrees can transfer seamlessly into a Bachelor of Applied Science (BAS) degree at some universities. Meet with your academic advisor to discuss if this transfer opportunity fits your academic or professional goals.

Attending a Private University

If you are planning to transfer to a private university in Arizona or another state, your transfer plan may still include completing an AGEC and/or an associate degree. Ask your Advisor or transfer representative.

Arizona General Education Curriculum (AGEC) AGEC-A, AGEC-B, AGEC-S

Maricopa County Community College District (MCCCD)

2022-2023 Arizona General Education Curriculum (AGEC) – A, B, S

Description

The Maricopa County Community College District Arizona General Education Curriculum (MCCCD AGEC) is a general education certificate that fulfills lower-division general education requirements for students planning to transfer to any Arizona public community college or university. Generally, the MCCCD AGEC transfers as a block without loss of credit. The AGEC-A and AGEC-B require a minimum of 35* credit hours, and the AGEC-S requires a minimum of 36* credit hours.

In most cases, all courses used to satisfy the MCCCD AGEC will apply to graduation requirements of the university major for which the AGEC was designed.

There are three types of AGECs in MCCCD: AGEC-A, AGEC-B, and AGEC-S. As described below, these AGECs are also a component of most MCCCD associate degrees and comparable degrees at other Arizona public community colleges. The AGEC-A defines the general education requirements in the Associate in Arts (AA), Associate in Arts, Elementary Education (AAEE), and the Associate in Arts, Fine Arts (AAFA) degrees. The AGEC-B defines the general education requirements in the Associate in Business-General Requirements (ABUS-GR) and Associate in Business-Special Requirements (ABUS-SR) degrees. The AGEC-S defines the general education requirements in the Associate in Science (AS) degree.

As described in more detail below, all AGECs require designated courses in First-Year Composition [FYC], Literacy and Critical Inquiry [L], Mathematical Studies [MA/CS] (Exception: The AGEC-S does not require CS.), Social-Behavioral Sciences [SB], Humanities, Design and Fine Arts [HU], and Natural Science [SQ/SG]. Students must satisfy two Awareness areas: Cultural Diversity in the U.S. and either Global Awareness or Historical Awareness.

Purpose of the AGECs

AGECs were designed to articulate with different academic majors, and their particular requirements vary accordingly. In some major-specific pathways, students are allowed to choose from a broad list of courses to satisfy the AGEC requirements; for others the courses are more restricted or even specified. Additional information on academic majors at the Arizona public universities can be accessed via the following website: www.aztransferqa.com

1. The AGEC-A is designed to satisfy requirements in many liberal arts majors as well as other majors that articulate with an Associate in Arts degree (e.g., social sciences, fine arts, humanities, elementary education). AGEC-A requires a minimum of college mathematics or college algebra to satisfy the Mathematics [MA] requirement.
2. The AGEC-B is designed to satisfy requirements in business majors that articulate with the Associate in Business. AGEC-B requires a minimum of brief calculus to satisfy the Mathematics [MA] requirement.
3. The AGEC-S is designed to satisfy requirements in majors with more prescriptive mathematics and mathematics-based science requirements such as many in the sciences, technology, engineering and mathematics. AGEC-S requires a minimum of the first course in a calculus sequence to satisfy the Mathematics [MA] requirement, and a

minimum of eight credits of either university chemistry, university physics, general biology for majors, or physical and historical geology to satisfy the Natural Sciences [SQ/SG] requirement. In addition, students must select six to ten additional credits of Subject Options composed of math and/or science appropriate to their major.

Academic Policies that Govern the AGEC-A, -B, -S

- Requires completion of at least 35 credit hours* (AGEC-A, AGEC-B) and 36 credit hours* (AGEC-S) in courses numbered 100 and above and that a minimum of 12 of those credits be taken at one or any combination of the MCCC college. See First-Year Composition [FYC] notes in the following AGEC descriptions and footer for credit minimum exceptions.*
- All MCCC courses applied to the AGEC must be completed with a grade of C or better.
- All MCCC courses applied to the AGEC must be accepted for transfer credit as a direct equivalent, departmental elective, or general elective credit at ASU, NAU, and UA according to the Course Equivalency Guide for the academic year in which the course was taken. Courses applied exclusively to the Bachelor of Applied Science are ineligible for inclusion in the AGEC.
- A single course can simultaneously count toward one or more Awareness Areas and other AGEC requirements. For example, a course in world geography can be used to satisfy [SB] and [G] requirements. While multiple requirements can be met with a single course, the credits for that course are only counted one time toward the required minimum total for the AGEC. Except as detailed below for the AGEC-S, a single course cannot be used to satisfy more than one AGEC requirement, with the exception of Awareness Areas.
- The AGEC-A and AGEC-B require a minimum of 35* credits and the AGEC-S requires a minimum of 36* credits, however, the AGEC credit count within the total credits for a degree may be lower than these minimums if courses are also applied toward Required Courses or Restricted Electives and the credits are counted in those areas. Awareness Areas and MCCC's Additional Requirements may also be shared with other AGEC Requirements. Optimizing credits in this way is often recommended because some programs and universities limit transferable credits at 64.

Transfer Credit from Institutions Outside of MCCC

- Credits transferred from outside of MCCC must be a grade of C (2.0 on a 4.0 scale) or better. Transfer credit graded pass/fail or pass/no credit may be used to satisfy AGEC requirements if documentation collected by the community college indicates that this was the only grading option available and that the Pass grade ("P") is equivalent to a C or better.
- External courses evaluated either as equivalent to an MCCC course or as elective credit may be applied toward the minimum credits for degree completion.
- The AGEC (Arizona General Education Curriculum) designations of courses completed at other Arizona public colleges or universities will be applied as listed on AZTransfer's Course Equivalency Guide (CEG) for the semester(s) in which the course(s) were completed. If a transcript evaluation determines there is no MCCC direct equivalency to a course from another Arizona public college or university, applicability to AGEC and/or associate degree requirements will be based on the source institution's AGEC designation for the semester in which the course was completed.
- Courses from private, out-of-state, and/or online institutions (i.e., outside of the Arizona Transfer System composed of Arizona's public community colleges, tribal colleges and universities) will be applied toward AGEC and/or associate degree requirements based on the courses' evaluated MCCC equivalence. If courses are not directly equivalent, the credit may be articulated as a departmental elective, and if deemed appropriate, may have a general education designation applied to the course.
- Credit awarded at a Maricopa Community College through prior learning assessment in non-traditional setting is transferable to the other colleges in the MCCC district but is not necessarily transferable to other colleges and universities. No more than 20 such assessed semester credit hours may be applied toward AGEC.

Completion and Transfer

- Completion of the AGEC with a minimum grade point average of at least 2.0 on a 4.0 scale for Arizona residents and 2.50 for non-residents meets Arizona public university general admission requirements. It does not ensure admission to specific university majors or programs with selective admission processes and/or limited enrollment.
- Students planning to transfer to another college or university are urged to refer to university requirements and academic advisors from both institutions to be certain that all their selected coursework is applicable to the requirements of their intended transfer degree. For some majors, the statewide Common Course matrix, AZTransfer Pathway Guides and/or University Transfer Guides posted on the AZTransfer website can also provide some guidance. For appropriate course selection, students should consult with an academic advisor.

AGEC Requirements

Descriptions and definitions of the requirements for each of the three AGECs follow. The following website identifies the courses that apply to the different requirements within each AGEC: [AGECmatrix](#). Courses available for both Areas during a current or upcoming semester can also be found using the “Find a Class” tool on maricopa.edu and on each MCCC college’s website.

Note that for students pursuing an associate degree with a specific emphasis (for example: Associate in Arts, Emphasis in History, Associate in Arts, Fine Arts, Emphasis in Theatre, Associate in Science, Emphasis in Physics), the AGEC course requirements are usually more prescriptive. Students pursuing a major-specific pathway should consult the Program (Degree) Search at [curriculum.maricopa.edu](#) for specific degree and AGEC requirements. Consultation with an academic advisor about course selection is always recommended.

Credits

Arizona General Education Curriculum - Arts (AGEC-A)35 (min.) *

The AGEC-A requires a minimum of 35 credits (32 if FYC is met by single transfer course)*, however, the AGEC credit count within the total credits for a degree may be lower if courses are also applied toward Required Courses or Restricted Electives and the credits are counted in those areas. Credits count once toward the total for the degree. Therefore, the AGEC-A may be met with fewer than 35 credits (fewer than 32 if FYC is met by single transfer course) * within an associate degree provided that all requirements listed below are completed.

Courses applied to meet AGEC-A requirements vary by emphasis. Refer to the Program (Degree) Search at [curriculum.maricopa.edu](#) for specific course requirements. Some courses may be met by Required Courses or Restricted Electives. Some of these courses also have Awareness Areas designations and can be used to satisfy [C], [G] and/or [H] requirement(s) as well as other AGEC requirements, Required Course(s) or Restricted Elective(s). AGEC designations are subject to change. Courses may meet more than one requirement but are only counted once toward the total credits for the degree. See [AGECmatrix](#) for each course's value(s) in the semester it is taken.

- | | |
|---|------|
| A. First-Year Composition [FYC]..... | 6* |
| ENG101 OR ENG107..... | (3)* |
| AND ENG102 OR ENG108..... | (3)* |
| B. Literacy and Critical Inquiry [L]..... | 3 |
| C. Mathematical Applications [MA]..... | 3-6 |
| Requires a course in college mathematics (MAT140, MAT141, MAT142, MAT145, MAT146) or college algebra (MAT150, MAT151, MAT152, MAT155, MAT156) or precalculus (MAT187) or higher [MA]-approved general education course. | |
| D. Computer/Statistics/Quantitative Applications [CS]..... | 3 |
| E. Humanities, Arts and Design [HU]..... | 6 |
| Students are encouraged to choose course work from more than one discipline. | |
| F. Social-Behavioral Sciences [SB] | 6 |
| Students are encouraged to choose course work from more than one discipline. | |
| G. Natural Sciences [SQ/SG] | 8 |

The lecture courses selected for Natural Sciences must include or be accompanied by the corresponding laboratory courses for a total of four credits each. Credits for lecture and lab components may be combined or each may carry separate credit. At least four credits must be designated as SQ-Science Quantitative. Eight credits of SG-Science General will not satisfy this requirement.

- H. Awareness Areas.....0-6
 Courses may be used to satisfy other AGEC requirements and one or more Awareness Area(s). (See [AGEC matrix](#) for current course values.)
 1. Cultural Diversity in the United States [C](0-3)
 2. Global Awareness [G] OR Historical Awareness [H].....(0-3)

* FYC may be met with fewer than 6 credits if student has transfer credit from ASU, NAU or UA for a single course that meets FYC in full.

Credits

Arizona General Education Curriculum - Business (AGEC-B)35 (min.)*

The AGEC-B requires a minimum of 35 credits (32 if FYC is met by single transfer course)*, however, the AGEC credit count within the total credits for a degree may be lower if courses are also applied toward Required Courses or Restricted Electives and the credits are counted in those areas. Credits count once toward the total for the degree. Therefore, the AGEC-B may be met with fewer than 35 credits (fewer than 32 if FYC is met by single transfer course)* within an associate degree provided that all requirements listed below are completed.

Courses applied to meet AGEC-B requirements vary by emphasis. Refer to the Program (Degree) Search at [curriculum.maricopa.edu](#) for specific course requirements. Some courses may be met by Required Courses or Restricted Electives. Some of these courses also have Awareness Areas designations and can be used to satisfy [C], [G] and/or [H] requirement(s) as well as other AGEC requirements, Required Course(s) or Restricted Elective(s). AGEC designations are subject to change. Courses may meet more than one requirement but are only counted once toward the total credits for the degree. See [AGEC matrix](#) for each course's value(s) in the semester it is taken.

- | | |
|--|-------|
| A. First-Year Composition [FYC]..... | 6* |
| ENG101 OR ENG107..... | (3)* |
| AND ENG102 OR ENG108..... | (3)* |

| MAT212 Brief Calculus OR..... | (3) |
| MAT213 Brief Calculus OR..... | (4) |
| Higher [MA] designated course | (3-5) |
| D. Computer/Statistics/Quantitative Applications [CS]..... | 3 |
| CIS105 Survey of Computer Information Systems | |
| E. Humanities, Arts and Design [HU]..... | 6 |
| Students are encouraged to choose course work from more than one discipline. | |
| F. Social-Behavioral Sciences [SB]..... | 6 |
| ECN211 Macroeconomics AND ECN212 Microeconomics | |
| G. Natural Sciences [SQ/SG] | 8 |
| The lecture courses selected for Natural Sciences must include or be accompanied by the corresponding laboratory courses for a total of four credits each. Credits for lecture and lab components may be combined or each may carry separate credit. At least four credits must be designated as SQ-Science Quantitative. Eight credits of SG-Science General will not satisfy this requirement. | |
| H. Awareness Areas..... | 0-6 |
| Courses may be used to satisfy other AGEC requirements and one or more Awareness Area(s). (See AGEC matrix for current course values.) | |
| 1. Cultural Diversity in the United States [C] | (0-3) |
| 2. Global Awareness [G] OR Historical Awareness [H]..... | (0-3) |

*FYC may be met with fewer than 6 credits if student has transfer credit from ASU, NAU or UA for a single course that meets FYC in full.

Credits

Arizona General Education Curriculum - Science (AGEC-S)36 (min.)*

The AGEC-S requires a minimum of 36 credits (33 if FYC is met by single transfer course)*, however, the AGEC credit count within the total credits for a degree may be lower if courses are also applied toward Required Courses or Restricted Electives and the credits are counted in those areas. Credits count once toward the total for the degree. Therefore, the AGEC-S may be met with fewer than 36 credits (fewer than 33 if FYC is met by single transfer course)* within an associate degree provided that all requirements listed below are completed.

Courses applied to meet AGEC-S requirements vary by emphasis. Refer to the Program (Degree) Search at curriculum.maricopa.edu for specific course requirements. Some courses may be met by Required Courses or Restricted Electives. Some of these courses also have Awareness Areas designations and can be used to satisfy [C], [G] and/or [H] requirement(s) as well as other AGEC requirements, Required Course(s) or Restricted Elective(s). AGEC designations are subject to change. Courses may meet more than one requirement but are only counted once toward the total credits for the degree. See [AGEC matrix](#) for each course's value(s) in the semester it is taken.

- | | |
|---|-------|
| A. First-Year Composition [FYC]..... | 6* |
| ENG101 OR ENG107..... | (3)* |
| AND ENG102 OR ENG108..... | (3)* |
| B. Literacy and Critical Inquiry [L] | 0-3** |
| Students are strongly encouraged to choose an [L] course that also has [HU] or [SB] designation or to use CRE101 or COM225 from the Maricopa Additional Requirements Area to satisfy the [L] requirement. It may also have been approved to satisfy one or more Awareness Areas ([C], [G], [H]). (AGEC designations are subject to change. See AGEC matrix for each course's value(s) in the semester it is taken.) | |
| C. Mathematical Applications [MA]..... | 4-5 |
| Requires the first semester of calculus courses designed for scientists and engineers (MAT220 or MAT221) or any other [MA] designated course for which Calculus I is a prerequisite. | |
| D. Humanities, Arts and Design [HU] | 6 |
| For the AGEC-S, a single course with both [HU] and [L] designations may satisfy both Areas. Note that some of these courses also have Awareness Areas designations and can be used to satisfy [C], [G] and/or [H] requirement(s) as well. (AGEC designations are subject to change. See AGEC matrix for each course's value(s) in the semester it is taken.) | |
| E. Social-Behavioral Sciences [SB] | 6 |
| For the AGEC-S, a single course with both [SB] and [L] designations may satisfy both Areas. Note that some of these courses also have Awareness Areas designations and can be used to satisfy [C], [G] and/or [H] requirement(s) as well. (AGEC designations are subject to change. See AGEC matrix for each course's value(s) in the semester it is taken.) | |
| F. Natural Sciences [SQ/SG] | 8-10 |
| Students must complete eight credits of General Chemistry, University Physics, General Biology for Majors, or Physical and Historical Geology. Consult specific requirements of university transfer major for guidance. | |

GLG102 Introduction to Geology II - Historical Lecture and	
GLG104 Introduction to Geology II – Historical Lab	
G. Subject Options - Math/Science	6-10
Refer to transfer resources, including academic advisement and transfer guides, to select six to ten additional math and/or science credits that meet requirements for selected major.	
Select Mathematics course(s) [MAT] above Calculus I and/or	
Computer Science course(s) [CSC] and/or	
Science courses from the following disciplines: Astronomy, Biology, Botany, Chemistry, Engineering, Environmental Science, Geology, Physical Geography, Physics, Zoology (MCCCD prefixes AST, BIO (except BIO174), CHM, ECE, EEE, ENV, GLG, GPH, and/or PHY)	
H. Awareness Areas.....	0-6
Courses may be used to satisfy other AGEC requirements and one or more Awareness Area(s). (See AGEC matrix for current course values.)	
1. Cultural Diversity in the United States [C]	(0-3)
2. Global Awareness [G] OR Historical Awareness [H].....	(0-3)

*FYC may be met with fewer than six credits if student has transfer credit from ASU, NAU or UA for a single course that meets FYC in full.

**Zero (0) only if shared with HU or SB

AGEC Area Requirements Descriptions/Definitions

First-Year Composition (FYC)

First-Year Composition courses emphasize skills necessary for college-level expository writing, including correct grammar and punctuation, logical organization of ideas, and identification of supporting documentation.

Literacy and Critical Inquiry [L]

In the [L] course students, typically at the sophomore level, gather, interpret, and evaluate evidence and express their findings in writing or speech. This course includes a series of graded written or spoken formal assignments.

Literacy is defined broadly as communicative competence in written and oral discourse; critical inquiry is defined as the gathering, interpreting, and evaluating of evidence. Building on the proficiency attained in traditional First-Year Composition courses, the Literacy and Critical Inquiry [L] requirement sustains and extends students' ability to thoughtfully use and critically analyze written and/or spoken language.

Mathematical Applications [MA]

The Mathematical Studies requirement is intended to ensure that students have requisite skill in mathematics appropriate for their discipline and can apply mathematical analysis in their chosen fields.

Computer/Statistics/Quantitative Applications [CS]

AGEC-A and AGEC-B require a course that emphasizes the use of statistics, other mathematical methods, computer programming languages and/or software in the interpretation of data and in describing and analyzing quantitative relationships.

Humanities, Arts and Design [HU]

The study of the humanities and the disciplines of art and design deepen awareness of the complexities of the human condition and its diverse histories and cultures. Courses in the humanities are devoted to the production of human thought and imagination, particularly in philosophical, historical, religious and artistic traditions. Courses with an emphasis in fine arts and design are devoted to the study of aesthetic experiences and the processes of artistic creation. They may also feature a design emphasis in which material culture is studied as a product of human thought and imagination.

Social-Behavioral Sciences [SB]

Social-Behavioral Sciences provide scientific methods of inquiry and empirical knowledge about human behavior, both within society and within individuals. This area of emphasis in general education curriculum may include study of such disciplines as anthropology, economics, history, political science, psychology, or sociology. The courses in this area address the challenge of understanding the diverse natures of individuals and cultural groups who live together in a complex and evolving world.

Natural Sciences [SQ/SG]

In addition to an understanding of basic scientific principles and concepts, courses in the Natural Sciences are designed to help students appreciate, from firsthand laboratory and/or field research experience, the nature of science as a process that embraces curiosity, inquiry, testing, and communication to better understand natural phenomena. At least one of the two natural science courses must include an introduction to the fundamental behavior of matter and energy in physical or biological systems.

AWARENESS AREAS

Students must satisfy two Awareness areas: Cultural Diversity in the U.S. and either Global Awareness or Historical Awareness. Courses can satisfy other AGEC requirements and one or two Awareness areas simultaneously. Therefore, no additional semester credits are required to satisfy the two Awareness areas.

Cultural Diversity in the United States [C]

The contemporary “culture” of the United States involves the complex interplay of many different cultures that exist side by side in various states of harmony and conflict. U.S. history involves the experiences not only of different groups of European immigrants and their descendants, but also of diverse groups of American Indians, Hispanic Americans, African Americans and Asian Americans--all of whom played significant roles in the development of contemporary culture and together shape the future of the United States. At the same time, the recognition that gender, class, and religious differences cut across all distinctions of race and ethnicity offers an even richer variety of perspectives from which to view one. Awareness of cultural diversity and its multiple sources can illuminate the collective past, present, and future and can help to foster greater mutual understanding and respect.

The objective of the Cultural Diversity area requirement is to promote awareness of and appreciation for cultural diversity within the contemporary United States. This is accomplished through the study of the cultural, social, or scientific contributions of women and minority groups, examination of their experiences in the United States, or exploration of successful or unsuccessful interactions between and among cultural groups.

Global Awareness [G]

Human organizations and relationships have evolved from being family and village centered to the modern global interdependence that is apparent in many disciplines--for example, contemporary art, business, engineering, music, and the natural and social sciences. Many serious local and national problems are world issues that require solutions which exhibit mutuality and reciprocity. These problems occur in a wide variety of activities, such as food supply, ecology, health care delivery, language planning, information exchange, economic and social developments, law, technology transfer, and even philosophy and the arts. The Global Awareness Area recognizes the need for an understanding of the values, elements, and social processes of cultures other than the culture of the United States. The Global Awareness Area includes courses that recognize the nature of other contemporary cultures and the relationship of the American cultural system to generic human goals and welfare.

Courses that satisfy the global awareness option in the requirements are of one or more of the following types:

1. Area studies that are concerned with an examination of culture-specific elements of a region of the world;
2. The study of a non-English language;
3. Studies of international relationships, particularly those in which cultural change is facilitated by such factors as social and economic development, education, and the transfer of technology; and
4. Studies of cultural interrelationships of global scope such as the global interdependence produced by problems of world ecology.

Historical Awareness [H]

The Historical Awareness Area option in the requirements aims to develop a knowledge of the past that can be useful in shaping the present and future. Because historical forces and traditions have created modern life and lie just beneath its surface, historical awareness is an aid in the analysis of present-day problems. Also, because the historical past is a source of social and national identity, historical study can produce intercultural understanding by tracing cultural differences to their origins. Even the remote past may have instructive analogies for the present.

The Historical Awareness Area consists of courses that are historical in method and content. In this area, the term "history" designates a sequence of past events or a narrative whose intent or effect is to represent such a sequence.

The requirement presumes that these are human events and that history includes all that has been felt, thought, imagined, said, and done by human beings. History is present in the languages, art, music, literature, philosophy, religion, and the natural sciences, as well as in the social science traditionally called history.

Associate in Arts (AA)

Maricopa County Community College District (MCCCD)

2022-2023 Associate in Arts (AA) Degree

Description

The Maricopa County Community College District Associate in Arts (AA) degree requires a minimum of 60 semester credits for the program of study; minimum total credits vary by specific emphasis (for example, Associate in Arts, Emphasis in Psychology). Refer to the Program (Degree) Search at <https://curriculum.maricopa.edu/> for credit minimums for individual degree programs by emphasis. A minimum grade point average of 2.0 and grades of C or higher are required to earn the degree. The AA degree is governed by the [MCCCD General Academic Policies for Associate Degrees Designed for University Transfer](#).

The Associate in Arts degree includes the following components:

- I. Program Prerequisites (if applicable, for versions with an emphasis only)
- II. Required Courses (for versions with an emphasis only)
- III. Restricted Electives (for versions with an emphasis only)
- IV. Arizona General Education Curriculum for Arts (AGEC-A)
- V. MCCCD Additional Requirements (Oral Communication and Critical Reading)
- VI. General Electives (if needed to reach minimum credits for degree)

Purpose of the Degree

The Associate in Arts (AA) degree is designed for students planning to transfer to four-year colleges and universities. In general, the components of the degree meet requirements for majors in the Liberal Arts or programs of study other than business or science. Generally, the degree will transfer as a block without loss of credit to Arizona's public universities and other institutions with district-wide articulation agreements.

In most cases, courses used to satisfy the MCCCD Associate in Arts (AA) will apply to general university graduation requirements of the majors that align with the AA degree; however, students need to be aware of any specific requirements of their intended major at the university to be sure they select courses that will meet them. Information regarding the

articulation of the AA with majors at the Arizona public universities can be accessed via the following website:
www.aztransferqa.com

Degree Requirements

The requirements for the Associate in Arts (AA) follow. No versions of the Associate in Arts require fewer than a minimum of 60 credits; however, minimum credits for the AA vary by specific emphasis. Refer to the Program (Degree) Search at curriculum.maricopa.edu for credit minimums by emphasis. The following websites identify the courses that apply to the different General Education Core and Awareness Areas: [AGEC-A](#) and the [AGEC matrix](#). Courses available for both Areas during a current or upcoming semester can also be found using the “Find a Class” tool on maricopa.edu and on each MCCC college’s website.

Requirements	Credits
I. Program Prerequisites	Number varies
Program prerequisites for the Associate in Arts degree vary by specific emphasis, and are not required for the version of the degree without a specific emphasis. Refer to the Program (Degree) Search at curriculum.maricopa.edu for specific courses and credit minimums by emphasis.	
II. Required Courses	Number varies
Students must complete FYE101(1) OR FYE103 (3) and select the required courses for the specific Associate in Arts degree emphasis. Refer to the Program (Degree) Search at curriculum.maricopa.edu for specific courses and credit minimums by emphasis.	
III. Restricted Electives	Number varies
Restricted electives for the Associate in Arts degree vary by specific emphasis, and are not required for version of the degree without a specific emphasis. Refer to the Program (Degree) Search at curriculum.maricopa.edu for specific courses and credit minimums by emphasis.	
IV. Arizona General Education Curriculum –Arts (AGEC-A)	up to 44
The AGEC-A requires a minimum of 35 credits (32 if FYC is met by single transfer course)*. However, prerequisite/required/restricted elective courses may also meet AGEC-A requirements but are only counted once toward the total credits for the degree. Therefore, the AGEC-A may be met with fewer than 35 credits (fewer than 32 if FYC is met by single transfer course)* as long as all requirements listed in this section (IV) are completed.	
Courses applied to meet AGEC-A requirements vary by emphasis. Refer to the Program (Degree) Search at curriculum.maricopa.edu for specific course requirements. Some courses may be met by Required Courses or Restricted Electives. Some of these courses also have Awareness Areas designations and can be used to satisfy [C], [G] and/or [H] requirement(s) as well other AGEC requirements, Required Course(s) or Restricted Elective(s). AGEC designations are subject to change. Courses may meet more than one requirement but are only counted once toward the total credits for the degree. See AGEC matrix for each course's value(s) in the semester it is taken.	
A. First-Year Composition [FYC].....	6*
ENG101 OR ENG107	(3)*
AND ENG102 OR ENG108.....	(3)*
B. Literacy and Critical Inquiry [L].....	3
C. Mathematical Applications [MA].....	3-6
Requires a course in college mathematics (MAT140, MAT141, MAT142, MAT145, MAT146) or college algebra (MAT150, MAT151, MAT152, MAT155, MAT156) or precalculus (MAT187) or higher [MA]-approved general education course.	
D. Computer/Statistics/Quantitative Applications [CS]	3
E. Humanities, Arts and Design [HU].....	6
Students are encouraged to choose course work from more than one discipline.	
F. Social-Behavioral Sciences [SB].....	6
Students are encouraged to choose course work from more than one discipline.	
G. Natural Sciences [SQ/ SG].....	8

The lecture courses selected for Natural Sciences must include or be accompanied by the corresponding laboratory courses for a total of four credits each. Credits for lecture and lab components may be combined or each may carry separate credit. At least four credits must be designated as SQ-Science Quantitative. Eight credits of SG-Science General will not satisfy this requirement.

H. Awareness Areas	o-6
Courses may be used to satisfy other AGEC requirements and one or more Awareness Area(s). (See AGECmatrix for current course values.)	
1. Cultural Diversity in the United States [C]	(o-3)
2. Global Awareness [G] OR Historical Awareness [H].....	(o-3)

V. MCCCD Additional Requirements.....o-6

As noted below, courses in this area may also be applied toward AGEC-A requirements.

A. Oral Communication.....	(o-3)
COM100 [SB] Introduction to Human Communication OR	
COM110 [SB] Interpersonal Communication OR	
COM225 [L] Public Speaking OR	
COM230 [SB] Small Group Communication (3 credits) OR	
COM100AA& COM100AB & COM100AC [SB] (3 credits) OR	
COM110AA& COM110AB & COM110AC [SB] (3 credits)	
B. Critical Reading.....	(o-3)
CRE101 [L] Critical Reading OR equivalent as indicated by assessment	

VI. General Electives..... o-28

Select courses 100-level or higher if needed to complete a minimum of 60 semester credits but no more than a total of 64 semester credits, which is the maximum number of credits accepted toward most degree programs at Arizona's public universities. Ideally, students should select courses that meet requirements for their major/area of interest and transfer institution. See General Associate Degree Academic Policies for further details, limitations, and guidelines.

Maricopa courses and external courses evaluated as Maricopa equivalents, departmental electives (e.g., HISELC for a history elective), or general electives (GENELC) that are numbered 100 level or higher, and completed with a grade of C or higher, may be applied in the elective area, regardless of potential transferability to other institutions. It is recommended, however, that students planning to transfer to a baccalaureate-granting institution meet these general elective requirements with courses that are transferable and applicable to their intended university degree. Transfer and major guides are accessible on the following websites: aztransfer.com, <https://www.maricopa.edu/degrees-certificates/transfer/pathways-partners>, as well as those of individual universities. For appropriate course selection, students should consult with an academic advisor.

TOTAL **60-64****

*FYC may be met with fewer than 6 credits if student has transfer credit from ASU, NAU or UA for a single course that meets FYC in full.

**64 semester credits are the maximum accepted toward most degree programs at Arizona's public universities. Some exceptions apply; consult with an academic advisor for additional transfer pathways.

Associate in Arts Transfer Degrees:

8126 - Associate in Arts, Emphasis in American Indian Studies	60-64
8109 - Associate in Arts, Emphasis in Anthropology.....	60-64
8124 - Associate in Arts, Emphasis in Communication	60-64

8128 - Associate in Arts, Emphasis in Women and Gender Studies.....	60-64

Associate in Arts, Elementary Education (AA-EE)

Field of Interest: Education

Maricopa County Community College District (MCCCD)

2022-2023 Associate in Arts, Elementary Education (AAEE) Degree

Description

The Maricopa County Community College District Associate in Arts, Elementary Education (AAEE) degree requires a minimum of 60 semester credits for the program of study. A minimum grade point average of 2.0 and grades of C or

higher are required to earn the degree. The AAEE degree is governed by the [MCCCD General Academic Policies for Transfer Degrees](#).

The Associate in Arts, Elementary Education degree includes the following components:

- I. Required Courses
- II. Restricted Electives
- III. Arizona General Education Curriculum for Arts (AGEC-A)
- IV. MCCCD Additional Requirements (Oral Communication and Critical Reading)

Purpose of the Degree

The Associate in Arts, Elementary Education (AAEE) degree is designed for the student who plans to transfer to an Elementary Education, Early Childhood, Multicultural/Multilingual, or Special Education program at an Arizona public higher education institution and/or who plans to become a classroom instructional aide. Generally, the degree transfers as a block without loss of credit to Arizona's public universities, and in most cases, its required courses apply to graduation requirements for these Education majors.

Degree Requirements

The requirements for the Associate in Arts in Elementary Education follow. The following websites identify the courses that apply to the different General Education Core and Awareness Areas: AGEC-A and the AGEC matrix. Courses available for both Areas during a current or upcoming semester can also be found using the "Find a Class" tool on maricopa.edu and on each MCCCD college's website.

Requirements	Credits
I. Required Courses.....	18-20
EDU221 Introduction to Education.....	(3)
EDU222 Introduction to the Exceptional Learner	(3)
EDU230 Cultural Diversity in Education	(3)
FY E101 Introduction to College, Career and Personal Success (1) OR	
FY E103 Exploration of College, Career and Personal Success (3).....	1-3
MAT256 Investigating Quantity: Number, Operations, and Numeration Systems.....	(4)
MAT257 Investigating Geometry, Probability, and Statistics	(4)
II. Restricted Electives.....	8

A total of 8 semester credits is required to satisfy the Electives for Arizona Professional Teacher Standards: 3 credits in an additional Education course and 5 credits in Content Area Electives.

Courses must transfer to all public Arizona universities as elective credit, departmental elective, or equivalent to a university course as indicated in the Arizona Course Equivalency Guide in effect when the course is taken. Courses identified as non-transferable in the Arizona Course Equivalency Guide cannot be used to satisfy this requirement.

Select one additional EDU course (other than EDU221, EDU222, EDU230 or EDU250) (3)

Recommended:

EDU110 Education in Film

EDU220 Introduction to Serving English Language Learners (ELL)

EDU236 Classroom Relationships

EDU/HUM/STO292 The Art of Storytelling

Choose any combination from the following list of courses and prefixes to total five (5) credits of additional coursework. Course(s) selected must be different from those used to fulfill a requirement of the AGEC-A and/or those used to fulfill Required Courses.

Content Area Electives: Select 5 credits from the following:..... (5)

ARH+++ Any ARH Art Humanities course(s)

ART+++ Any ART Art course(s)
 BPC+++ Any BPC Business-Personal Computers course(s)
 CFS/ECH176 Child Development
 CFS205 Human Development
 CIS+++ Any CIS Computer Information Systems course(s)
 ECN+++ Any ECN Economics course(s)
 EDU+++ Any EDU Education course(s) (except EDU221, EDU222, EDU230, and EDU250)
 EED215 Early Learning: Health, Safety, Nutrition and Fitness OR
 CFS123 Health and Nutrition in Early Childhood Settings
 AND
 CFS125 Safety in Early Childhood Settings
 ENG+++ Any ENG English course(s)
 ENH+++ Any ENH English Humanities course(s)
 GCU+++ Any GCU Cultural Geography course(s)
 GPH+++ Any GPH Physical Geography course(s)
 HIS+++ Any HIS History course(s)
 MAT+++ Any MAT Mathematics course(s) 140 or higher (except MAT256 and MAT257)
 MHL+++ Any MHL Music: History/Literature course(s)
 MTC+++ Any MTC Music: Theory/Composition course(s)
 POS+++ Any POS Political Science course(s)
 THE+++ Any THE Theatre course(s)
 THF+++ Any THF Theatre and Film course(s)
 THP+++ Any THP Theatre Performance/Production course(s)
 Any Foreign Language course(s)
 Any Natural Science course(s)

III. Arizona General Education Curriculum –Arts (AGEC-A)..... 35-44*

The AGEC-A requires a minimum of 35 credits (32 if FYC is met by single transfer course)*, however, prerequisite/required/restricted elective courses may also meet AGEC-A requirements and credits count once toward the total for the degree. Therefore, the AGEC-A may be met with fewer than 35 credits (fewer than 32 if FYC is met by single transfer course)* as long as all requirements listed in this section (III) are completed.

Courses applied to meet A GEC-A requirements vary by emphasis. Refer to the Program (Degree) Search at curriculum.maricopa.edu for specific course requirements. Some courses may be met by Required Courses or Restricted Electives. Some of these courses also have Awareness Areas designations and can be used to satisfy [C], [G] and/or [H] requirement(s) as well as other A GEC requirements, Required Course(s) or Restricted Elective(s). A GEC designations are subject to change. Courses may meet more than one requirement but are only counted once toward the total credits for the degree. See [AGEC matrix](#) for each course's value(s) in the semester it is taken.

A.	First-Year Composition [FYC]	6*
	ENG101 OR ENG107	(3)*
	AND ENG102 OR ENG108.....	(3)*
B.	Literacy and Critical Inquiry [L]	3
C.	Mathematical Applications [MA]	3-6
	Requires a course in college mathematics (MAT140, MAT141, MAT142, MAT145, MAT146) or college algebra (MAT150, MAT151, MAT152, MAT155, MAT156) or precalculus (MAT187) or higher approved general education course in the Mathematical Applications [MA] area for which MAT15+ is a prerequisite. (Note that MAT182, MAT206, MAT256, MAT257 do NOT meet this requirement.)	
D.	Computer/Statistics/Quantitative Applications [CS]	3
	BPC110 Computer Usage and Applications OR	
	CIS105 Survey of Computer Information Systems OR	

EDU/EED115 Digital Literacy for Teaching and Learning in Education
(EDU/EED115 recommended)

E. Humanities, Arts and Design [HU]	6
Note that some of these courses also have Awareness Areas designations and can be used to satisfy [G] and/or [H] requirement as well as [HU]. (AGEC designations are subject to change. See AGEC matrix for each course's value(s) in the semester it is taken.)	
1. Select one of the following ARH, DAH, MHL or THE courses:.....	(3)
ARH100 Introduction to Art OR	
ARH101 Prehistoric through Gothic Art OR	
ARH102 Renaissance through Contemporary Art OR	
DAH100 Introduction to Dance OR	
DAH201 World Dance Studies OR	
DAH250 Dance in Popular Culture OR	
MHL140 Survey of Music History OR	
MHL145 American Jazz and Popular Music OR	
MHL146 Survey of Broadway Musicals OR	
MHL153 Rock Music and Culture OR	
THE111 Introduction to Theatre OR	
THE220 Modern Drama	
AND	
2. Select one of the following EDU, ENH or HUM courses	(3)
EDU/ENH291 Children's Literature (Recommended) OR	
ENH110 Introduction to Literature OR	
ENH241 American Literature Before 1860 OR	
ENH242 American Literature After 1860 OR	
HUM250 Ideas and Values in the Humanities: Early Civilizations to the Renaissance OR	
HUM251 Ideas and Values in the Humanities: Renaissance to the Contemporary World	
F. Social-Behavioral Sciences [SB].....	6
Note that some of these courses also have Awareness Areas designations and can be used to satisfy [G] and/or [H] requirement as well as [SB]. (AGEC designations are subject to change. See AGEC matrix for each course's value(s) in the semester it is taken.)	
1. Select one of the following US History/Government courses**	(3)
These courses satisfy the United States Constitution requirement for state teacher certification.	
GCU/POS113 United States and Arizona Social Studies OR	
HIS103 United States History to 1865 OR	
POS110 American National Government	
AND	
2. Select one of the following CFS, ECH, GCU, ECN, HIS or PSY courses	(3)
CFS205 Human Development OR	
CFS/ECH176 Child Development OR	
ECN211 Macroeconomic Principles OR	
ECN212 Microeconomic Principles OR	
GCU121 World Geography I: Eastern Hemisphere OR	
GCU122 World Geography II: Western Hemisphere OR	
HIS104 United States History 1865 to Present OR	
PSY101 Introduction to Psychology	
(CFS/ECH176 recommended)	
G. Natural Sciences [SQ/SG].....	8

The lecture courses selected for Natural Sciences must include or be accompanied by the corresponding laboratory course for a total of 4 credits each. At least four (4) credits must be designated as SQ. Eight (8) credits of SG will not satisfy this requirement.

1. Life Sciences: Select four credits of SQ or SG in Biology (BIO).....(4)
AND
2. Physical Sciences or Earth/Space Sciences: Select four credits of SQ or SG from one of the following prefixes:.....(4)

AGS, ASM, AST, CHM, GPH, GLG, PHS, or PHY

Note: Students are advised to check with the university they plan to attend as specific requirements for lab sciences may vary.

H. Awareness Areas..... 0-3

1. Cultural Diversity in the United States [C](o)
Met by EDU222 and EDU230 in Required Courses.
2. Global Awareness [G] OR Historical Awareness [H].....(o-3)
May be met by [HU] and/or [SB] course depending on specific courses selected. (AGEC designations are subject to change. See [AGEC matrix](#) for each course's value(s) in the semester it is taken.)

IV. MCCCD Additional Requirements..... 0-3

These requirements may be shared with other AGEC requirements. See the [AGEC matrix](#) on [aztransfer.com](#) for course designations.

- A. Oral Communication(o)
Met by COM225 in Required Courses
- B. Critical Reading(o-3)
Students may demonstrate proficiency through assessment.
CRE101 [L] Critical Reading OR equivalent as indicated by assessment

TOTAL **60-64*****

*FYC may be met with fewer than 6 credits if student has transfer credit from ASU, NAU or UA for a single course that meets FYC in full.

**State certification requirements include courses on the constitutions of U.S. and Arizona. Taking GCU/POS113 for [SB] fulfills this requirement completely. Students who instead take HIS103 or POS110 for [SB] should consider taking POS221 as a Content Area Elective so they have completed study of both constitutions. POS220 meets state certification requirements for both constitutions but does not meet [SB].

***64 semester credits are the maximum accepted toward most degree programs at Arizona's public universities. Some exceptions apply; consult with an academic advisor for additional transfer pathways.

Associate in Arts, Fine Arts (AAFA)

Field of Interest: Visual and Performing Arts

Maricopa County Community College District (MCCCD)

2022-2023 Associate in Arts, Fine Arts (AAFA) Degree

Description

The Maricopa County Community College District Associate in Arts, Fine Arts (AAFA) degree requires a minimum of 60 semester credits for the program of study; however, minimum total credits for the AAFA vary by specific emphasis (Art, Dance, Music, Musical Theatre, Theatre). Refer to the Program (Degree) Search at [curriculum.maricopa.edu](#) for credit minimums for individual degree programs by emphasis. A minimum grade point average of 2.0 and grades of C or higher are required to earn the degree. The AAFA degree is governed by the [MCCCD General Academic Policies](#) for associate degrees designed for university transfer.

The Associate in Arts, Fine Arts degree includes the following components:

- I. Program Prerequisites (if applicable, for versions with an emphasis only)
- II. Required Courses (for versions with an emphasis only)
- III. Restricted Electives (for versions with an emphasis only)
- IV. Arizona General Education Curriculum for Arts (AGEC-A)
- V. MCCC D Additional Requirements (Oral Communication and Critical Reading)
- VI. General Electives (if needed to reach minimum credits for degree)

Purpose of the Degree

The Associate in Arts, Fine Arts (AAFA) degree is designed for students planning to transfer to four-year colleges and universities. In general, the components of the degree meet requirements for majors in the Fine Arts. The degree is designed to prepare students to meet selective admission criteria for programs such as the Bachelor of Fine Arts, which may require a portfolio or performance requirement.

In most cases, courses used to satisfy the MCCC D Associate in Arts, Fine Arts (AAFA) will apply to general university graduation requirements of the majors that align with AAFA degree; however, students need to pay attention to any specific requirements of their intended focus at the university to be sure they select courses that will meet them. Information regarding the articulation of the AAFA degree with majors at the Arizona public universities can be accessed via the following website: www.aztransferqa.com

Degree Requirements

The requirements for the Associate in Arts, Fine Arts (AAFA) follow. No versions of the AAFA require fewer than a minimum of 60 credits; however, minimum total credits for the AAFA vary by specific emphasis (Art, Dance, Music, Musical Theatre, Theatre). Refer to the Program (Degree) Search at curriculum.maricopa.edu for credit minimums by emphasis. The following websites identify the courses that apply to the different General Education Core and Awareness Areas: [AGEC-A](#) and the [AGEC matrix](#). Courses available for both Areas during a current or upcoming semester can also be found using the “Find a Class” tool on maricopa.edu and on each MCCC D college’s website.

Requirements	Credits
I. Program Prerequisites	Number varies
Program prerequisites for the Associate in Arts, Fine Arts degree vary by specific emphasis (Art, Dance, Music, Musical Theatre, Theatre). Refer to the Program (Degree) Search at curriculum.maricopa.edu for specific courses and credit minimums by emphasis.	
II. Required Courses	Number varies
Students must complete FYE101 or FYE103 and select the required (major-specific) courses for the Associate in Arts Fine Arts degree by the specific emphasis (Art, Dance, Music, Musical Theatre, Theatre). Refer to the Program (degree) Search at curriculum.maricopa.edu for specific courses and credit minimums by emphasis.	
III. Restricted Electives	Number varies
Restricted electives for the Associate in Arts, Fine Arts degree vary by specific emphasis, and are not required for versions of the degree without a specific emphasis (Art, Dance, Music, Musical Theatre, Theatre). Refer to the Program (Degree) Search at curriculum.maricopa.edu for specific courses and credit minimums by emphasis.	
IV. Arizona General Education Curriculum –Arts (AGEC-A)	up to 44
The AGECA requires a minimum of 35 credits (32 if FYC is met by single transfer course)*. However, prerequisite/required/restricted elective courses may also meet AGECA requirements and credits count once toward the total for the degree. Therefore, the AGECA may be met with fewer than 35 credits (fewer than 32 if FYC is met by single transfer course)* as long as all requirements listed in this section (IV) are completed.	
Courses applied to meet AGECA requirements vary by emphasis (Art, Dance, Music, Musical Theatre, Theatre). Refer to the Program (Degree) Search at curriculum.maricopa.edu for specific course requirements. Some courses may be	

met by Required Courses or Restricted Electives. Some of these courses also have Awareness Area designations and can be used to satisfy [C], [G] and/or [H] requirement(s) as well as other AGEC requirements. Required Course(s) or Restricted Elective(s). A GEC designations are subject to change. Courses may meet more than one requirement but are only counted once toward the total credits for the degree. See [AGEC matrix](#) for each course's value(s) in the semester it is taken.

A. First-Year Composition [FYC]	6*
ENG101 OR ENG107	(3)*
AND ENG102 OR ENG108.....	(3)*
B. Literacy and Critical Inquiry [L]	3
C. Mathematical Applications [MA]	3-6
Requires a course in college mathematics (MAT140, MAT141, MAT142, MAT145, MAT146) or college algebra (MAT150, MAT151, MAT152, MAT155, MAT156) or higher [MA]-approved general education course	
D. Computer/Statistics/Quantitative Applications [CS]	3
E. Humanities, Arts and Design [HU]	6
F. Social-Behavioral Sciences [SB].....	6
Students are encouraged to choose course work from more than one discipline	
G. Natural Sciences [SQ/ SG].....	8
The lecture courses selected for Natural Sciences must include or be accompanied by the corresponding laboratory courses for a total of four credits each. Credits for lecture and lab components may be combined or each may carry separate credit. At least four credits must be designated as SQ-Science Quantitative. Eight credits of SG-Science General will not satisfy this requirement.	
H. Awareness Areas.....	0-6
Courses may be used to satisfy other AGEC requirements and one or more Awareness Area(s). (See AGEC matrix for current course values.)	
1. Cultural Diversity in the United States [C].....	(0-3)
2. Global Awareness [G] OR Historical Awareness [H].....	(0-3)

V. MCCCD Additional Requirements.....0-6

These requirements may be shared with other AGEC requirements. See the [AGEC matrix](#) on [aztransfer.com](#) for course designations.

A. Oral Communication	0-3
Refer to emphasis area (Art, Dance, Music, Musical Theatre, Theatre) for specific COM course required from the following:	
COM100 [SB] Introduction to Human Communication OR	
COM110 [SB] Interpersonal Communication OR	
COM225 [L] Public Speaking OR	
COM230 [SB] Small Group Communication (3 credits) OR	
COM100AA & COM100AB & COM100AC [SB] (3 credits) OR	
COM110AA & COM110AB & COM110AC [SB] (3 credits)	
B. Critical Reading	0-3
Students may demonstrate proficiency through assessment.	
CRE101 [L] Critical Reading OR equivalent as indicated by assessment	

VI. General Electives.....0-25

Select courses 100-level or higher if needed to complete a minimum of 60 semester credits but no more than a total of 64 semester credits, which is the maximum number of credits accepted toward most degree programs at Arizona's public universities. Ideally, students should select courses that meet requirements for their major/area of interest and transfer institution. See General Associate Degree Academic Policies for further details, limitations, and guidelines.

Maricopa courses and external courses evaluated as Maricopa equivalents, departmental electives (e.g., HISLC for a history elective), or general electives (GENELC) that are numbered 100 level or higher, and completed with a grade of C or higher, may be applied in the elective area, regardless of potential transferability to other institutions. It is recommended, however, that students planning to transfer to a baccalaureate-granting institution meet these general elective requirements with courses that are transferable and applicable to their intended university degree. Transfer and major guides are accessible on the following websites: aztransfer.com, maricopa.edu/transfer/partners, as well as those of individual universities. For appropriate course selection, students should consult with an academic advisor.

*FYC may be met with fewer than 6 credits if student has transfer credit from ASU, NAU or UA for a single course that meets FYC in full.

**64 semester credits are the maximum accepted toward most degree programs at Arizona's public universities. Some exceptions apply; consult with an academic advisor for additional transfer pathways.

Associate in Arts, Fine Arts Transfer Degrees:

8311 - Associate in Arts, Fine Arts, Emphasis in Art	60-68
8312 - Associate in Arts, Fine Arts, emphasis in Dance	62-92
8313 - Associate in Arts, Fine Arts, Emphasis in Music	66-80
8314 - Associate in Arts, Fine Arts, Emphasis in Musical Theatre	66-81
8315 - Associate in Arts, Fine Arts, Emphasis in in Theatre	61-94

Associate in Business – General Requirements (ABUS-GR)

Field of Interest: Business, Entrepreneurialism, and Management

Maricopa County Community College District (MCCCD)

2022-2023 Associate in Business, General Requirements (ABUS-GR) Degree

Description

The Maricopa County Community College District Associate in Business General Requirements (ABUS-GR) degree requires a minimum of 62 semester credits for the program of study. A minimum grade point average of 2.0 and grades of C or higher are required to earn the degree. The Associate in Business-General Requirements degree is governed by the [MCCCD General Academic Policies for Transfer Degrees](#).

This degree provides the first two years of a four-year curriculum for students who wish to specialize in business. For a comprehensive list of bachelor's degrees at Arizona's public universities, refer to the [AZTransfer Business Matrix](#). With a bachelor's degree, students may pursue a number of careers, including but not limited to accountancy, business administration, business data analytics, economics, entrepreneurship, finance, marketing, management, retail management, and supply chain management.

The Associate in Business-General Requirements degree includes the following components:

- I. Required Courses
- II. Restricted Electives
- III. Arizona General Education Curriculum for Business (AGEC-B)
- IV. General Electives (if needed to reach minimum credits for degree)

Purpose of the Degree

The Associate in Business General Requirements (ABUS-GR) degree is designed for students who plan to transfer to four-year colleges and universities. In general, the components of this degree meet requirements for the various business majors (except Computer Information Systems) at Arizona's public universities. Computer Information Systems majors should follow the Associate in Business Special Requirements (ABUS-SR) pathway instead. Generally, the degree transfers

as a block without loss of credit to Arizona's public universities and other institutions with district-wide articulation agreements.

Special Academic Policies that Govern the ABUS-GR Degree

- The ABUS-GR does not include any MCCC Special Requirements for Oral Communication and/or Critical Reading like the other associate degrees. (However, some university programs have a speech requirement; consult your academic advisor or transfer guide to verify the specifics for your program.)
- A single course can be used to satisfy multiple areas within the degree simultaneously:(Awareness Area(s), other AGEC-B requirements), Required Courses (Common Lower Division Requirements), and/or Restricted Electives (Business Electives)). Credits are counted once toward the total for the degree.

Degree Requirements

The courses required for the Associate in Business General Requirements follow. The following websites identify the courses that apply to the different General Education Areas: [AGEC-B](#) and the [AGEC Matrix](#). Courses available for both Areas during a current or upcoming semester can also be found using the "Find A Class" tool on each MCCC college's website.

Requirements	Credits
I. Required Courses.....	22-28
Accounting.....	(6-9)
ACC111 Accounting Principles AND	
ACC230 Uses of Accounting Information I AND	
ACC240 Uses of Accounting Information II	
OR	
ACC211 Financial Accounting AND	
ACC212 Managerial Accounting	
OR	
ACC111 Accounting Principles I AND	
ACC112 Accounting Principles II AND	
ACC212 Managerial Accounting	
OR	
ACC111 Accounting Principles I AND	
ACC112 Accounting Principles II AND	
ACC212 Managerial Accounting	

Some of the following courses can be used to satisfy both this requirement and an AGEC-B requirement. AGEC designations are subject to change. See [AGEC Matrix](#) for each course's value(s) in the semester it is taken.

ECN211 [SB] Macroeconomic Principles.....	(3)
ECN212 [SB] Microeconomic Principles.....	(3)
FYE101 Introduction to College, Career and Personal Success (1) OR	
FYE103 Exploration of College, Career and Personal Success (3).....	1-3

GBS221 Business Statistics	(3)
GBS220 Quantitative Methods in Business (3) OR	
MAT217 Mathematical Analysis for Business (3) OR	
MAT218 Mathematical Analysis for Business (4).....	3-4

Note:

- Students planning to transfer to ASU's W.P. Carey School of Business BS program should take MAT217 or MAT218.
- Students planning to transfer to ASU's W.P. Carey School of Business BA program may take GBS220, MAT217, or MAT218.
- Students planning to transfer to the University of Arizona should take GBS220.

II. Restricted Electives.....0-6

Complete six credits from the following options. Some courses may be used to satisfy both Restricted Elective and Arizona General Education Curriculum (AGEC) requirements simultaneously. See the [AGEC matrix](#) on [aztransfer.com](#) for course designations. AGEC designations are subject to change. See [AGEC Matrix](#) for each course's value(s) in the semester it is taken.

III. Arizona General Education Curriculum - Business (AGEC-B).....29-37*

The AGEC-B requires a minimum of 35 credits (32 if FYC is met by single transfer course)*. However, Required and Restricted elective courses may also meet AGEC-B requirements and credits count once toward the total for the degree. Therefore, the AGEC-B may be met with fewer than 35 (fewer than 32 if FYC is met by single transfer course)* credits as long as all requirements listed in this section (III) are completed.

Some courses may be met by Required Courses or Restricted Electives. Some of these courses also have Awareness Areas designations and can be used to satisfy [C], [G] and/or [H] requirement(s) as well as other AGEC requirements, Required Course(s) or Restricted Elective(s). AGEC designations are subject to change. Courses may meet more than one requirement but are only counted once toward the total credits for the degree. See [AGEC matrix](#) for each course's value(s) in the semester it is taken.

A. First-Year Composition [FYC]	6*
ENG101 OR ENG107 AND	(3)*
ENG102 OR ENG108	(3)*
B. Literacy and Critical Inquiry [L]	0-3
MAY BE MET BY GBS233 IN THE RESTRICTED ELECTIVES AREA.	
C. Mathematical Applications [MA]	3-5
MAT212 Brief Calculus OR.....	(3)
MAT213 Brief Calculus OR.....	(4)
Higher General Education Courses in the Mathematical Applications [MA] Area.....	(3-5)
D. Computer/Statistics/Quantitative Applications [CS].....	3

E. Humanities, Arts and Design [HU]	6
Students are encouraged to choose course work from more than one discipline.	
F. Social-Behavioral Sciences [SB].....	0
Met by Required Courses ECN211 AND ECN212	
G. Natural Sciences [SQ/SG].....	8

The lecture courses selected for Natural Sciences must include or be accompanied by the corresponding laboratory courses for a total of four credits each. Credits for lecture and lab components may be combined or each may carry separate credit. At least four credits must be designated as SQ-Science Quantitative. Eight credits of SG-Science General will not satisfy this requirement.

- H. Awareness Areas.....0-6
Courses may be used to satisfy other AGEC requirements and one or more Awareness Area(s). (See [AGEC matrix](#) for current course values.)
1. Cultural Diversity in the United States [C].....(0-3)
2. Global Awareness [G] OR Historical Awareness [H].....(0-3)

Students transferring to ASU to major in business should complete courses from the following list (up to the 64-credit transfer maximum) to meet W.P. Carey School of Business requirements. If students do not take these prior to transfer, they may need to take additional credits to meet ASU graduation requirements:

Any course that transfers to ASU in the SOC prefix and carries the [SB] designation
Any course that transfers to ASU in the PSY prefix and carries the [SB] designation
COM100 Introduction to Human Communication (3) OR
COM225 Public Speaking (3) OR
COM230 Small Group Communication (3) OR
COM259 Communication in Business and Professions (3)

Note: COM requirements vary by business major. Check ASU MAP or major map for acceptable options.

- IV. General Electives.....**
Select courses 100-level or higher if needed to complete a minimum of 62 semester credits but no more than a total of 64 semester credits, which is the maximum number of credits accepted toward most degree programs at Arizona's public universities. Ideally, students should select courses that meet requirements for their major/area of interest and transfer institution. See General Associate Degree Academic Policies for further details, limitations, and guidelines.

Maricopa courses and external courses evaluated as Maricopa equivalents, departmental electives (e.g., HISELC for a history elective), or general electives (GENELC) that are numbered 100 level or higher, and completed with a grade of C or higher, may be applied in the elective area, regardless of potential transferability to other institutions. It is recommended, however, that students planning to transfer to a baccalaureate-granting institution meet these general elective requirements with courses that are transferable and applicable to their intended university degree. Transfer advisement information is accessible on the following websites: [aztransfer.com](#), [curriculum.maricopa.edu](#), as well as those of individual universities. For appropriate course selection, students should consult with an academic advisor.

TOTAL **62****

*FYC may be met with fewer than 6 credits if student has transfer credit from ASU, NAU or UA for a single course that meets FYC in full.

**64 semester credits are the maximum accepted toward most degree programs at Arizona's public universities. Some exceptions apply; consult with an academic advisor for additional transfer pathways.

Associate in Business – Special Requirements (ABUS-SR)

Field of Interest: Business, Entrepreneurialism, and Management

Maricopa County Community College District (MCCCD)

2022-2023 Associate in Business, Special Requirements (ABUS-SR) Degree

Description

The Maricopa County Community College District Associate in Business, Special Requirements (ABUS-SR) degree requires a minimum of 62 semester credits for the program of study. A minimum grade point average of 2.0 and grades of C or higher are required to earn the degree.

This degree provides the first two years of a four-year curriculum for students who wish to pursue Computer Information Systems majors at Arizona's public universities. With a bachelor's degree, students may pursue a number of careers, including but not limited to accountancy, business administration, business data analytics, computer information systems, economics, entrepreneurship, finance, marketing, management, retail management, and supply chain management. The Associate in Business-Special Requirements degree is governed by the [MCCCD General Academic Policies for Transfer Degrees](#).

The Associate in Business-Special Requirements degree includes the following components:

- I. Required Courses
- II. Arizona General Education Curriculum for Business (AGEC-B)
- III. General Electives (if needed to reach minimum credits for degree)

Purpose of the Degree

The Associate in Business Special Requirements (ABUS-SR) degree is designed for students who plan to transfer to four-year colleges and universities. In general, the components of this degree meet requirements for Business' Computer Information Systems majors at Arizona's public universities. Other Business majors should follow the Associate in Business General Requirements (ABUS-GR) pathway instead. Generally, the degree transfers as a block without loss of credit to Arizona's public universities and other institutions with district-wide articulation agreements.

Special Academic Policies that Govern the ABUS-SR Degree

- The ABUS-SR does not include any MCCCD Special Requirements for Oral Communication and/or Critical Reading like the other associate degrees. (However, some university programs have a speech requirement; consult your academic advisor or transfer guide to verify the specifics for your program.)
- A single course can be used to satisfy multiple areas within the degree simultaneously: Awareness Area(s), other AGEC-B requirements, and/or Required Courses (Common Lower Division Requirements). Credits are counted once toward the total for the degree.

Degree Requirements

The COURSES required for the Associate in Business Special Requirements follow. The following websites identify the courses that apply to the different General Education Core and Awareness Areas: [AGEC-B](#) and the [AGEC Matrix](#). Courses available for both Areas during a current or upcoming semester can also be found using the "Find A Class" tool on each MCCCD college's website.

Requirements	Credits
I. Required Courses.....	28-34
Accounting.....	(6-9)
ACC111 Accounting Principles AND	
ACC230 Uses of Accounting Information I AND	
ACC240 Uses of Accounting Information II	
OR	
ACC211 Financial Accounting AND	
ACC212 Managerial Accounting	
OR	
ACC111 Accounting Principles I AND	
ACC112 Accounting Principles II AND	
ACC212 Managerial Accounting	
Some of the following courses can be used to satisfy both this requirement and an AGEC-B requirement. AGEC designations are subject to change. See AGEC Matrix for each course's value(s) in the semester it is taken.	
CIS162AD C#: Level 1.....	(3)
CIS250 Management of Information Systems.....	(3)

ECN211 [SB] Macroeconomic Principles.....	(3)
ECN212 [SB] Microeconomic Principles.....	(3)
FYE101 Introduction to College, Career and Personal Success (1) OR	
FYE103 Exploration of College, Career and Personal Success (3).....	1-3
GBS205 Legal, Ethical, and Regulatory Issues in Business.....	(3)
GBS221 Business Statistics.....	(3)
GBS220 Quantitative Methods in Business (3)OR	
MAT217 Mathematical Analysis for Business (3) OR	
MAT218 Mathematical Analysis for Business (4).....	3-4

Note:

- Students planning to transfer to ASU's W.P. Carey School of Business BS program should take MAT217 or MAT218.
- Students planning to transfer to ASU's W.P. Carey School of Business BA program may take GBS220, MAT217, or MAT218.
- Students planning to transfer to the University of Arizona should take GBS220.

II. Arizona General Education Curriculum - Business (AGEC-B).....29-37*

The AGEC-B requires a minimum of 35 credits (32 if FYC is met by single transfer course)*.

However, Required and Restricted Elective courses may also meet AGEC-B requirements and credits count once toward the total for the degree. Therefore, the AGEC-B may be met with fewer than 35 credits (fewer than 32 if FYC is met by single transfer course)* as long as all requirements listed in this section (II) are completed.

Some courses may be met by Required Courses or Restricted Electives. Some of these courses also have Awareness Areas designations and can be used to satisfy [C], [G] and/or [H] requirement(s) as well as other AGEC requirements or Required Course(s). AGEC designations are subject to change. Courses may meet more than one requirement but are only counted once toward the total credits for the degree. See [AGEC Matrix](#) for each course's value(s) in the semester it is taken.

A. First-Year Composition [FYC].....	6*
ENG101 OR ENG107 AND.....	(3)*
ENG102 OR ENG108.....	(3)*
B. Literacy and Critical Inquiry [L]	3
C. Mathematical Applications [MA].....	3-5
MAT212 Brief Calculus OR (3)	
MAT213 Brief Calculus OR (4)	
Higher [MA] designated course	(3-5)
D. Computer/Statistics/Quantitative Applications [CS].....	3
CIS105 Survey of Computer Information Systems	
E. Humanities, Arts and Design [HU]	6
Students are encouraged to choose course work from more than one discipline.	
F. Social-Behavioral Sciences [SB].....	0
Met by Required Courses ECN211 AND ECN212	
G. Natural Sciences [SQ/SG].....	8
The lecture courses selected for Natural Sciences must include or be accompanied by the corresponding laboratory courses for a total of four credits each. Credits for lecture and lab components may be combined or each may carry separate credit. At least four credits must be designated as SQ-Science Quantitative. Eight credits of SG-Science General will not satisfy this requirement.	
H. Awareness Areas.....	0-6
Courses may be used to satisfy other AGEC requirements and one or more Awareness Area(s). (See AGEC matrix for current course values.)	
1. Cultural Diversity in the United States [C]	(0-3)

2. Global Awareness [G] OR Historical Awareness [H](o-3)

Students transferring to ASU to major in business should complete courses from the following list (up to the 64-credit transfer maximum) to meet W.P. Carey School of Business requirements. If students do not take these prior to transfer, they may need to take additional credits to meet ASU graduation requirements:

Any course that transfers to ASU in the SOC prefix and carries the [SB] designation

Any course that transfers to ASU in the PSY prefix and carries the [SB] designation

COM100 Introduction to Human Communication (3) OR

COM225 Public Speaking (3) OR

COM230 Small Group Communication (3) OR

COM259 Communication in Business and Professions (3)

Note: COM requirements vary by business major. Check ASU MAP or major map for acceptable options.

III. General Electives.....

Select courses 100-level or higher if needed to complete a minimum of 62 semester credits but no more than a total of 64 semester credits, which is the maximum number of credits accepted toward most degree programs at Arizona's public universities. Ideally, students should select courses that meet requirements for their major/area of interest and transfer institution. See General Associate Degree Academic Policies for further details, limitations, and guidelines.

Maricopa courses and external courses evaluated as Maricopa equivalents, departmental electives (e.g., HISELC for a history elective), or general electives (GENELC) that are numbered 100level or higher, and completed with a grade of C or higher, may be applied in the elective area, regardless of potential transferability to other institutions. It is recommended, however, that students planning to transfer to a baccalaureate-granting institution meet these general elective requirements with courses that are transferable and applicable to their intended university degree. Transfer advisement information is accessible on the following websites: aztransfer.com, curriculum.maricopa.edu, as well as those of individual universities. For appropriate course selection, students should consult with an academic advisor.

TOTAL.....62**

*FYC may be met with fewer than 6 credits if student has transfer credit from ASU, NAU or UA for a single course that meets FYC in full.

**64 semester credits are the maximum accepted toward most degree programs at Arizona's public universities. Some exceptions apply; consult with an academic advisor for additional transfer pathways.

Associate in General Studies (AGS)

Maricopa County Community College District (MCCCD)

2022-2023 Associate in General Studies (AGS) Degree and General Education Requirements

Description

The Maricopa County Community College District Associate in General Studies degree requires 60-64 semester credits in courses numbered 100 and above. The degree includes the following components:

I. General Education (minimum of 38 credits)

Core curriculum (requires a grade of C or better)

Distribution courses (requires a grade of D or better)

II. General Electives (enough additional courses numbered 100 or above, passed with a grade of D or better, to bring total credits to at least 60)

Purpose of the Degree

The Associate in General Studies (AGS) degree is recommended for students whose educational goals require flexibility. The degree allows students to apply any course numbered 100 or above, including some that are not transferable to the Arizona public universities and may not be transferable to other universities, toward the credits required for the degree.

Therefore, for students who intend to transfer to another college or university to pursue a bachelor's degree, this degree may be less appropriate than other associate degrees offered (Associate in Arts; Associate in Arts, Elementary Education; Associate in Arts, Fine Arts; Associate in Business-General Requirements; Associate in Business-Special Requirements; Associate in Science; and all emphases under these degrees), by the Maricopa Community Colleges.

Academic Policies that Govern the Associate in General Studies Degree:

- The graduation policies within the general catalog must be satisfied (Administrative Regulation 2.3.9). First Year Experience is required (FY E101 OR FY E103)
- A single course can simultaneously count towards a Core Area and a Distribution requirement. Courses that meet this criterion are **bold print and underscored** in the Core areas and Distribution areas (on the course list at the conclusion of this document). For example, CRE101 may be used to satisfy both the Literacy and Critical Inquiry requirement [L] of Distribution area and the Core Curriculum's Critical Reading area. While multiple requirements can be met with a single course, the credits are only counted one time toward the required minimum for the degree. A course cannot satisfy more than one Core area, even if it is approved for more than one Core area. A course cannot satisfy more than one Distribution area, even if it is approved for more than one Distribution area.
- Credits transferred from outside of MCCC must be at a grade of C (2.0 on a 4.0 scale) or better. Transfer credit graded pass/fail or pass/no credit may be transferred if documentation collected by the community college indicates that this was the only grading option available to the student and that the Pass grade ("P") is equivalent to a C or better.
- Completion of the AGS with a minimum Grade Point Average of at least 2.0 on a 4.0 scale for Arizona residents and 2.50 for non-residents meets Arizona public university general admission requirements. However, meeting all AGS minimums does not ensure admission to specific university majors or programs with selective admission processes and/or limited enrollment. Furthermore, because the AGS is not designed to align with the requirements for bachelor degrees, not all credits may be transferable and students may have deficiencies in lower division (100- and 200-level) courses for a particular major

Summary of Degree Requirements:

Details on how to identify courses approved for each of the different categories is described following the outline.

FY E101 Introduction to College, Career and Personal Success (1) OR
FY E103 Exploration of College, Career and Personal Success (3).....1-3

I. MCCC General Education	35-48*
Core Areas.....	13-19

5. Critical Reading	0-3
Students may demonstrate proficiency through assessment.	
CRE101 Critical Reading OR	

equivalent as indicated by assessment

Distribution Areas.....	22-29
1. Humanities, Arts and Design	9
Students are encouraged to choose course work from more than one discipline.	
2. Social-Behavioral Sciences.....	6-9
Students are encouraged to choose course work from more than one discipline. Social-Behavioral Sciences requirements may be met with 6 credits only if COM100, COM110, or COM230 is shared between Core and Distribution (see Academic Policies section on prior page). The credits are only counted once, but may be applied to meet Oral Communication and Social-Behavioral Science requirements.	
3. Natural Sciences.....	7-8
Two lecture courses and one corresponding laboratory course are to be selected. Credits for lecture and lab components may be combined or each may carry separate credit. For appropriate course selection students should consult with an academic advisor.	
4. Literacy and Critical Inquiry	0-3
Literacy requirement may be met with 0 credits only if CRE101 or COM225 is shared between Core and Distribution (see Academic Policies section on prior page). The credits are only counted once, but may be applied to meet [Oral Communication and Literacy] or [Critical Reading and Literacy and Critical Inquiry] requirements.	

II. General Electives..... 13-26

Select additional courses 100-level or higher to complete a minimum of 60 semester credits but no more than a total of 64 semester credits.

Associate in General Studies Total Credits: 60-64

*First-Year Composition may be met with fewer than 6 credits if student has transfer credit from ASU, NAU or UA for a single course that meets FYC in full.

All courses listed meet AGS requirements as specified. Courses in Purple Italic Underline also meet Arizona General Education Curriculum AGEC requirements.

Courses in **bold print and underscored** simultaneously count towards a Core Area and a Distribution requirement.

AGS GENERAL EDUCATION CORE (16 credits - grade of C or better)*

First-Year Composition (6 credits) *

ENG English 101, 107 & 102, 108

Oral Communication (3 credits)

COM Communication 100, 100AA & 100AB & 100AC,
110, 110AA & 110AB & 110AC, 225, 230

Critical Reading (3 credits)

CRE Critical Reading 101 or Equivalent as indicated by assessment

Mathematics (3 credits)

MAT Mathematics 112, 114, 115, 120, 121, 122, 126, 140, 141, 142, 145, 146, 150, 150&182, 151, 151&182, 152, 152&182, 155, 155&182, 156, 156&182, 172, 187, 206, 212, 213, 217, 218, 220, 221, 225, 227, 230, 231, 240, 241, 256, 257, 261, 276, 277, Equivalent

course/Satisfactory completion of a higher level Mathematics course.

Computer Usage (1 credit)

Computer-related course or demonstration of comparable computer skills. Additional courses may be approved by individual colleges. Students should contact their advisor for college-specific courses satisfying the requirement.

Elective Courses (15-22 credits)

May select courses from prefixes already chosen for General Education Distribution requirements in order to develop depth in one or more subject areas.

*First-Year Composition may be met with fewer than six credits if student has transfer credit from ASU, NAU or UA for a single course that meets FYC in full.

Associate in Applied Science (AAS)

Maricopa County Community College District (MCCCD)

2022-2023 Associate in Applied Science (AAS) Degree and General Education Requirements

Description

The Associate in Applied Science (AAS) degree requires at least 60 credits in its program of study. The exact number of credits for a specific degree is identified as part of the presentation of its requirements on the web or in the college catalog.

Purpose of the Degree

The Maricopa County Community College District Associate in Applied Science (AAS) degree is recommended for students who wish to gain a depth of technical expertise in a particular workforce-related area of study. The AAS degree options vary at the different MCCCD colleges and can be searched [alphabetically](#) or by [field of interest](#). Requirements for each degree can be found on the linked web pages and in the corresponding college(s)'s catalog.

Academic Policies that Govern the AAS degree:

- * Requires 60 or more credits numbered 100 or above and includes credits or the equivalent in the General Education Core areas and credits in the Distribution areas. AAS degree requirements follow with the use of a diagonal character (/) between course numbers to signify options. An asterisk (*) following the course number defines requirements with an effective begin term of spring;
- * All courses must be completed with a grade of C or higher; any additional requirements such as grades of B or higher or minimum grade point average requirements are listed on individual degrees and certificates;
- * The graduation policies within the general catalog must be satisfied (Administrative Regulation 2.3.9).
- * First Year Experience required (FYE101 OR FYE103)
- * Includes both courses and their modular equivalents, either the course or the modular equivalents will satisfy the Associate in Applied Science requirements.
- * Requires completion of General Education courses as indicated in the General Education Requirements for the Associate in Applied Science degree from the Maricopa County Community College District, or completion of a curriculum as stated in the catalog;
- * Accepts one of the courses that is cross-referenced with other courses.

AAS GENERAL EDUCATION CORE (12-15 credits)*

Demonstrate college-level skills in the following areas:

First-Year Composition (6 credits)*

ENG English [101/107] & [102/108/111]

Oral Communication (3 credits)

COM Communication 100/100AA&100AB & 100AC/110/110AA&110AB&110AC/225/230

Critical Reading (3 credits)

CRE Critical Reading 101 or Equivalent as indicated by assessment

Mathematics (3 credits)

MAT Mathematics 112/114/115/120/121/122/126/140/141/142/145/146/150/MAT150&182/151/MAT151&182/152/152&182/155/155&182/156/156&182/172/187/206/212/213/217/218/220/221/225/227/230/231/240/241/256/257/261/276/277/equivalent course/Satisfactory completion of a higher level mathematics course

Maricopa County Community College District (MCCCD)

2022-2023 Associate in Science (AS) Degree

Description

The Maricopa County Community College District Associate in Science (AS) degree requires a minimum of 60 semester credits for the program of study; minimum total credits vary by specific emphasis (for example, Associate in Science, Emphasis in Physics). Refer to the Program (Degree) Search at curriculum.maricopa.edu for credit minimums for individual degree programs by emphasis. A minimum grade point average of 2.0 is required to earn the degree. The AS degree is governed by the [MCCCD General Academic Policies for Transfer Degrees](#).

The Associate in Science degree includes the following components:

- I. Program Prerequisites (if applicable, for versions with an emphasis only)
- II. Required Courses (for versions with an emphasis only)
- III. Restricted Electives (for versions with an emphasis only)
- IV. Arizona General Education Curriculum for Science (AGEC-S)
- V. MCCCD Additional Requirements (Oral Communication and Critical Reading)
- VI. General Electives (if needed to reach minimum credits for degree)

Purpose of the Degree

The Associate in Science (AS) degree is designed for students planning to transfer to four-year colleges and universities. In general, the components of the degree meet requirements for majors with more stringent mathematics and mathematics-based science requirements. Generally, the degree will transfer as a block without loss of credit to Arizona's public universities and other institutions with district-wide articulation agreements.

In most cases, courses used to satisfy the MCCCD Associate in Science (AS) will apply to general university graduation requirements of the majors that align with the AS degree; however, students need to be aware of any specific requirements of their intended major at the university to be sure they select courses that will meet them. Information regarding the articulation of the AS with majors at the Arizona public universities can be accessed via the following website:

www.aztransferqa.com

It is recommended that students select courses that meet more than one general education and/or awareness area requirement. Doing so will maximize the number of math and science electives the student can take as part of his/her Associate in Science degree.

Special Academic Policies that Govern the Associate in Science Degree

- The AGEC-S does not require a course with [CS] Computer/Statistics designation.

- Unlike the AGEC-A and AGEC-B, the same course is allowed to satisfy the ([L] and [HU]) or ([L] and [SB]) areas of the AGEC-S's Core Area. The credits for such a "shared" course are only counted one time toward the required minimum for the degree.

Degree Requirements

The requirements for the Associate in Science follow. All versions of the Associate in Science require at least 60 credits; for major-specific pathways within the degree, prescribed courses and minimum credits for categories within the degree, as well as the total, vary. Refer to the Program (Degree) Search at curriculum.maricopa.edu for credit minimums for major-specific pathways within the degree. The following websites identify the courses that apply to the different General Education Core and Awareness Areas: [AGEC-S](#) and the [AGEC Matrix](#). Courses available for both Areas during a current or upcoming semester can also be found using the "Find a Class" tool on each MCCC college's website.

Requirements	Credits
I. Program Prerequisites.....	Number varies
Program prerequisites for the Associate in Science degree vary by specific emphasis, and are not required for the version of the degree without a specific emphasis. Refer to the Program (Degree) Search at curriculum.maricopa.edu for specific courses and credit minimums by emphasis.	
II. Required Courses	Number varies
Students must complete FYE101(1) or FYE103(3) and select the required courses for the specific Associate in Science degree emphasis. Refer to the Program (Degree) Search at curriculum.maricopa.edu for specific courses and credit minimums by emphasis.	
III. Restricted Electives.....	Number varies
Restricted electives for the Associate in Science degree vary by specific emphasis, and are not required for version of the degree without a specific emphasis. Refer to the Program (Degree) Search at curriculum.maricopa.edu for specific courses and credit minimums by emphasis.	
IV. Arizona General Education Curriculum –Science (AGEC-S)	up to 56
The AGEC-S requires a minimum of 36 credits (33 if FYC is met by single transfer course)*. However, prerequisite/required/restricted elective courses may also meet AGEC-S requirements and credits count once toward the total for the degree. Therefore, the AGEC-S may be met with fewer than 36 credits (33 if FYC is met by single transfer course)* as long as all requirements listed in this section (IV) are completed.	
Courses applied to meet AGEC-A requirements vary by emphasis. Refer to the Program (Degree) Search at curriculum.maricopa.edu for specific course requirements. Some courses may be met by Required Courses or Restricted Electives. Some of these courses also have Awareness Areas designations and can be used to satisfy [C], [G] and/or [H] requirement(s) as well as other AGEC requirements, Required Course(s) or Restricted Elective(s). AGEC designations are subject to change. Courses may meet more than one requirement but are only counted once toward the total credits for the degree. See AGEC matrix for each course's value(s) in the semester it is taken.	
A. First-Year Composition [FYC].....	6*
ENG101 OR ENG107.....	(3)*
AND ENG102 OR ENG108.....	(3)*
B. Literacy and Critical Inquiry [L]	0-3**
Students are strongly encouraged to choose an [L] course that also has [HU] or [SB] designation or to use CRE101 or COM225 from the Maricopa Additional Requirements Area to satisfy the [L] requirement. It may also have been approved to satisfy one or more Awareness Areas ([C], [G], [H]). (AGEC designations are subject to change. See AGEC matrix for each course's value(s) in the semester it is taken.)	
C. Mathematical Applications [MA].....	4-5
Requires the first semester of calculus courses designed for scientists and engineers (MAT220 or MAT221) or any other [MA] designated course for which Calculus I is a prerequisite.	
D. Humanities, Arts and Design [HU].....	6

For the AGEC-S, a single course with both [HU] and [L] designations may satisfy both Areas. Note that some of these courses also have Awareness Areas designations and can be used to satisfy [C], [G] and/or [H] requirement(s) as well as their respective Core Area(s). (AGEC designations are subject to change. See [AGEC matrix](#) for each course's value(s) in the semester it is taken.)

E. Social-Behavioral Sciences [SB]6

For the AGEC-S, a single course with both [SB] and [L] designations may satisfy both Areas. Note that some of these courses also have Awareness Areas designations and can be used to satisfy [C], [G] and/or [H] requirement(s) as well as their respective Core Area(s). (AGEC designations are subject to change. See [AGEC matrix](#) for each course's value(s) in the semester it is taken.)

F. Natural Sciences [SQ/SG]8-10

Students must complete eight to ten credits of General Chemistry, University Physics, General Biology for Majors, or Physical and Historical Geology. Consult specific requirements of university transfer major for guidance.

[(CHM150 or CHM151) & CHM151LL] or
CHM150AA or CHM151AA General Chemistry I
AND
[CHM152 & CHM152LL] or CHM152AA General Chemistry II
OR
PHY115 or PHY121 University Physics I
AND
PHY116 or PHY131 University Physics II
OR
BIO181 or BIO181XT General Biology (Majors) I
AND
BIO182 or BIO182XT General Biology (Majors) II
OR
GLG101IN Introduction to Geology I - Physical or
GLG101 Introduction to Geology I - Physical Lecture and
GLG103 Introduction to Geology I – Physical Lab
AND
GLG102IN Introduction to Geology II – Historical or
GLG102 Introduction to Geology II - Historical Lecture and
GLG104 Introduction to Geology II – Historical Lab

G. Subject Options - Math/Science6-10

Refer to transfer resources, including academic advisement and transfer guides, to select six to ten additional math and/or science credits that meet requirements for selected major.

Select Mathematics course(s) [MAT] above Calculus I and/or
Computer Science course(s) [CSC] and/or
Science courses from the following disciplines: Astronomy, Biology, Botany, Chemistry,
Engineering, Environmental Science, Geology, Physical Geography, Physics, Zoology (MCCCD
prefixes AST, BIO(except BIO174), CHM, ECE, EEE, ENV, GLG, GPH, and/or PHY)

H. Awareness Areas0-6

Courses may be used to satisfy other AGEC requirements and one or more Awareness Area(s). (See [AGEC matrix](#) for current course values.)

1. Cultural Diversity in the United States [C](0-3)
2. Global Awareness [G] OR Historical Awareness [H](0-3)

V. MCCCD Additional Requirements.....0-6

Some courses in this area have [SB] and [L] designations and may also be applied to the corresponding AGEC requirements. See the [AGEC matrix](#) on [aztransfer.com](#) for course designations.

A. Oral Communication(0-3)

COM100 [SB] Introduction to Human Communication OR
 COM110 [SB] Interpersonal Communication OR
 COM225 [L] Public Speaking OR
 COM230 [SB] Small Group Communication (3 credits) OR
 COM100AA&COM100AB&COM100AC [SB] (3 credits) OR
 COM110AA&COM110AB&COM110AC [SB] (3 credits)

B. Critical Reading.....(o-3)
 CRE101 [L] Critical Reading OR equivalent as indicated by assessment

VI. General Electives..... o-28

Select courses 100-level or higher if needed to complete a minimum of 60 semester credits but no more than a total of 64 semester credits, which is the maximum number of credits accepted toward most degree programs at Arizona's public universities. Ideally, students should select courses that meet requirements for their major/area of interest and transfer institution. See General Associate Degree Academic Policies for further details, limitations, and guidelines.

Maricopa courses and external courses evaluated as Maricopa equivalents, departmental electives (e.g., HIS101 for a history elective), or general electives (GENELC) that are numbered 100 level or higher, and completed with a grade of C or higher, may be applied in the elective area, regardless of potential transferability to other institutions. It is recommended, however, that students planning to transfer to a baccalaureate-granting institution meet these general elective requirements with courses that are transferable and applicable to their intended university degree. Transfer and major guides are accessible on the following websites: aztransfer.com, maricopa.edu/transfer/partners, as well as those of individual universities. For appropriate course selection, students should consult with an academic advisor.

TOTAL.....60-64***

*FYC may be met with fewer than six credits if student has transfer credit from ASU, NAU or UA for a single course that meets FYC in full.

**(o only if shared with HU or SB)

*64 semester credits are the maximum accepted toward most degree programs at Arizona's public universities. Some exceptions apply; consult with an academic advisor for additional transfer pathways.

Associate in Science Transfer Degrees:

8605	Associate in Science, Emphasis in Astronomy.....	60-64
8610	Associate in Science, Emphasis in Biochemistry.....	60-64
8602	Associate in Science, Emphasis in Biological Sciences.....	60-64
8603	Associate in Science, Emphasis in Chemistry.....	60-64
8601	Associate in Science, Emphasis in Computer Science.....	60-64
8607	Associate in Science, Emphasis in Engineering	60-64
8604	Associate in Science, Emphasis in Geography – Meteorology	60-64
8608	Associate in Science, Emphasis in Geology	60-64
8606	Associate in Science, Emphasis in Physics.....	60-64
8609	Associate in Science, Emphasis in Secondary Education.....	60-64

Academic Certificate (AC)

Maricopa County Community College District (MCCCD) 2022-2023 Academic Certificate (AC)

Purpose of the Academic Certificate

The Maricopa County Community College District Academic Certificate (AC) is a defined and coherent program of study that is recommended for students who wish to gain additional expertise in a specific area of emphasis in an academic

discipline. While this program of study can result in proficiency in the specified skills and competencies, as well as mastery of a body of knowledge, it is not designed to prepare someone for employment in a specific occupation. The coursework for an Academic Certificate may be from a variety of disciplines or it can be discipline specific. There is no required general studies component to an Academic Certificate; however, the program may include some courses that have specific general studies designations such as Humanities, Arts and Design [HU], Social-Behavioral Sciences [SB], Literacy and Critical Inquiry [L], or Cultural Awareness [C]. (See [AGEC matrix](#) for current course values.)

Academic Policies that Govern the Academic Certificate:

- Although, the program of study for an Academic Certificate (AC) does not have a mandated minimum number of credit hours, most ACs require approximately 12-39 credit hours in courses numbered 100 and above;
- Requires a cumulative GPA of 2.0 or better in required courses for completion;
- Follows the graduation policies listed in the college's general catalog for the appropriate catalog year;
- Any course cross-referenced under another prefix(es) (for example ENH291/EDU291-Children's Literature) covers identical content and its credits can only be counted once toward certificate requirements;
- Although ACs may include a subset of coursework required in particular transfer degrees, the intent of an AC is not to align with any specific university major. There is no presumption of block transfer to another college or university;
- May have admission criteria established by the college if and when appropriate;
- Generally offered at a limited number of colleges. For a listing of all ACs available in the district and their affiliated college(s) see the [CCTA web site](#).

Fast Track Certificates

Train for a new career—fast!

Imagine finding your dream job. It's the one where you get respect, good pay, advancement opportunities, and a deep sense of satisfaction. But wait—you don't have to imagine it. Maricopa Community Colleges' Fast Track Certificates can put your life on a better trajectory and make a new career happen in no time at all!

You can be work-ready to start a new career in as little as six months—or even a few weeks. We've worked with our industry partners to design our Fast Track Certificates to teach students relevant skills and prepare them to step into vital jobs and be hirable as quickly as possible.

Train to start a new career or enhance your current one. You can continue adding Fast Track certifications to expand your specialized skill set, stay current in your field, and up your workplace value—and pay. New skills make you more desirable to employers, giving you more options. You can even use Fast Track Certificates as stepping-stones toward a future degree.

Explore our available Fast Track Certificates. Today is the day you can start turning your dream into a fantastic new reality!

It's Free to Apply and Everyone is Accepted

Getting started is easy on our Become a Student page. Click Apply Now, and once there, select New Student if you're new to Maricopa Community Colleges or select Returning Student if you already have an account.

Science, Technology, Engineering and Mathematics

Creatively solve problems and explore new frontiers with a challenging STEM career.

VISUAL AND PERFORMING ARTS

Visual and Performing Arts

Unleash your creativity while honing your craft as you pursue a career in visual art, design, dance, music, fashion, film, or theater.

First-Year Experience

Beginning in the Fall 2022 semester, all new students will be required to take a First Year Experience (FYE) course. These courses are a degree requirement for Maricopa Community Colleges students who are beginning any degree or transfer program.

Which course is right for you? Look at the questions below and determine your best fit!

FYE101

FYE101 is a 1-credit course designed to help students learn how to succeed at your Maricopa Community College. You will explore your field of interest, confirm your program or degree pathway, understand the financial considerations for your career, and meet with your advising team.

Are you a student who:

- is returning to college and needs to focus on completing a degree or transferring to a 4-year university?
- is transferring from another college but new to Maricopa?
- is confident in your chosen program of study and would like to take a deeper dive into your respective field of interest?
- recently completed high school or another early college program and feels on track for your next steps in Maricopa?
- is paying out of pocket and needs to consider every option?

If the majority of the above apply to you, then FYE 101 is right for you!

FYE103

FYE103 is a 3-credit course that is similar to FYE101, but it also helps students determine what program is best for them, provides strategies for school/life balance, assists in preparing students for work in a diverse world, and provides opportunities for students to build connections.

Are you a student who:

- is new to college and unsure/anxious around college expectations and available resources?
- is undecided on your major or field of interest and needs some help researching and considering the best options for you and your future?
- is concerned about taking math, English or other pre-requisite courses that align with your major and need to have additional information on how to be successful throughout the first year?
- has been out of school/college for more than 3 years and/or is concerned about your ability to manage work, school, family, and life?
- needs to meet full-time enrollment requirements for financial aid or scholarships and is concerned about taking more than 4 classes?
- would benefit from understanding of how you prioritize your finances while a college student and after you graduate?
- is interested in learning about resources available to support your academic pathway, like transportation, child care, housing, and/or additional financial assistance?
- is interested in understanding your own identity better and how to appreciate differences in your peers?

If the majority of the above apply to you, then FYE 103 is right for you!

Near-Z Degree General Information

For Information: Christine Jones

Phone: 623.845.4555

OER@ gccaz.edu

What are Open Educational Resources (OERs)?

Free, openly licensed materials that faculty use in place of or in addition to traditional textbooks. OERs come in a range of materials including full-length books, videos, tutorials, and more. Faculty who utilize these materials select high-quality content that reflects the needs of their students and course learning objectives. Faculty may also choose to customize the OER they use in their courses.

Most OERs are digital resources that are available immediately and accessible anytime online. Since access is open, students may retain these resources after the class concludes.

What are Low-Cost or No-Cost Courses?

Low-Cost courses have textbook costs under \$40 and No-Cost courses do not have any required textbook costs. Course fees are not included in these calculations, so there may be additional costs beyond textbooks.

No-Cost courses may utilize OER, library resources, and/or other free resources.

What is a Near-Z Degree?

GCC offers Near-Z (Near to Zero Cost Learning Materials) programs and degrees. This means that all required courses within a program or degree pathway have textbook costs between \$0-\$40 per class. Please refer to the class schedule for the most current course information.

Low-Cost and No-Cost Offerings

Degree or Certificate Title	Type	Courses	Cost
Arizona General Education Curriculum (AGEC-A)	General	Pathway	Low -Cost
Arizona General Education Curriculum (AGEC-S)	General	Pathway	Low -Cost

GCC Degrees and Certificates

Accounting General Information

Field of Interest: Business, Entrepreneurialism, and Management

For Information: Scott Stroher

Phone: 623.845.3453

<https://www.gccaz.edu/business>

Student Goals: Transfer/Career Related

Accountants function in different ways. They offer their services to the public on a fee basis (public accounting), employed by individual profit or nonprofit organizations (private accounting), or work for governmental units (governmental accounting). Accountants provide financial information about an organization to its owners, managers, and creditors, as well as to appropriate governmental authorities. They also design, install, manage, and maintain information systems which produce this important information. There is considerable demand for accountants and demand should increase. Pay is relatively high, and the accounting field offers many opportunities for professional growth and advancement.

Students take Accounting courses to:

Prepare for employment: An Associate in Applied Science degree program is available to prepare students for immediate employment as a paraprofessional accountant or bookkeeper. There are also two Certificates of Completion (CCL) available. One is the Accounting CCL which is designed as a stepping stone for the AAS degree. The other is the Enrolled Agent CCL which is designed to prepare students for a career as a tax professional.

Prepare for a major in accounting at a four-year institution: Students may complete most or all of their lower division requirements at Glendale Community College. Students should follow the Associate in Business, General Requirements program and consult with a Business Department Advisor to plan for transfer.

Prepare for virtually all other business majors and careers: Accounting coursework is required in most business major curriculum because knowledge of accounting is fundamental for success in business.

Students should consult with a Department Advisor in planning their academic schedule in order to complete degree requirements in an expedient manner.

Accounting AAS 3149

Associate in Applied Science - 62-73 credits

Field of Interest: Business, Entrepreneurialism, and Management

For Information: Scott Stroher

Phone: 623.845.3453

<https://www.gccaz.edu/business>

Program Description: The Associate in Applied Science (AAS) in Accounting program is designed to provide fundamental skills for individuals planning to enter the field of accounting. Possible entry-level jobs for this program include accounting clerk, accounts payable/receivable clerk, claims clerk, payroll clerk, credit clerk, bookkeeper, accounting intern, tax preparation or comparable positions. This program may prepare students for certification in Certified Bookkeeper (CB), Enrolled Agent (EA), and Certified Payroll Professional (CPP). Certificates of Completion (CCL) in Accounting and Enrolled Agent are available.

Program Notes: Students must earn a grade of C or better in all courses in the program.

Consultation with an Academic Advisor is recommended for course selection.

This program also is offered at Chandler-Gilbert, Estrella Mountain, GateWay, Mesa, Paradise Valley, Phoenix, Rio Salado, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Certificate of Completion - 15 credits

This program is not eligible for Title IV Federal Financial Aid

Fast Track Certificate: Administration of Justice CCL 5007N

Field of Interest: Behavioral Science and Human Services

For Information: Paul Brown

Phone: 623.845.3913

<https://www.gccaz.edu/public-safety-sciences>

Program Description: The Certificate of Completion (CCL) in Administration of Justice program is designed to be interdisciplinary by nature and provides students with foundational knowledge of the criminal justice system and operational processes for addressing crime within society. This program also examines diverse populations and communities, and their effects on relationships with the criminal justice system. In addition, this program allows students to familiarize themselves with and evaluate various career opportunities in the criminal justice field and is one pathway to the Associate in Applied Science (AAS) in Administration of Justice.

This program also is offered at Chandler-Gilbert, Estrella Mountain, Mesa, Phoenix, Paradise Valley, Rio Salado, Scottsdale, and South Mountain Community Colleges.

Program Notes: Students must earn a grade of C or better for all courses required within the program.

Program Prerequisites: None.

Required Courses (15 credits)	Credits
AJS101	Introduction to Criminal Justice
AJS109	Substantive Criminal Law (3) OR
AJS260	Procedural Criminal Law (3) 3
AJS123	Ethics and the Administration of Justice
AJS230	The Police Function 3

Administration of Justice Studies AAS 3181

Associate in Applied Science - 61-65 credits

Field of Interest: Behavioral Science and Human Services

For Information: Paul Brown

Phone: 623.845.3913

<https://www.gccaz.edu/public-safety-sciences>

Program Description: The Associate in Applied Science (AAS) in Administration of Justice Studies provides in-depth preparation for students desiring to be practitioners or pursue continued education and advancement in several fields including local and federal law enforcement, the courts, corrections, security, and investigations. The program also provides criminal justice practitioners with the opportunity to complete the Certificate of Completion (CCL) in Administration of Justice as well as one of five Certificates of Completion (CCLs) in Corrections, Homeland Security, Law Enforcement, Legal Studies, and Victimology. A transfer pathway in Criminal Justice is also available (Associate Arts (AA), Emphasis in Criminal Justice) as well as an Associate in Applied Science (AAS) in Forensics and related Certificates of Completion.)

Program Notes: Students must earn a grade of C or better for all courses required within the program.

This program also is offered at Chandler-Gilbert, Estrella Mountain, Mesa, Paradise Valley, Phoenix, Rio Salado, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (28-30 credits)		Credits
AJS101	Introduction to Criminal Justice	3
AJS109	Substantive Criminal Law	3
AJS123	Ethics and the Administration of Justice	3
AJS200	Current Issues In Criminal Justice (3) OR	
AJS/EMT/FSC/SWU258	Victimology and Crisis Management (3).....	3

AJS225	Criminology	3
AJS230	The Police Function	3
AJS240	The Correction Function	3
AJS260	Procedural Criminal Law	3
FYE101	Introduction to College, Career and Personal Success (1) OR	
FYE103	Exploration of College, Career and Personal Success (3).....	1-3
Restricted Electives: (12-13 credits)		Credits
AJS113	Criminal Justice Crime Control Policies and Practices	3
	(Fulfills ASU transfer requirement)	
AJS119	Computer Applications in Justice Studies (Fulfills NAU transfer requirement)	3
AJS162	Domestic Violence (Fulfills Victimology certificate requirement).....	3
AJS201	Rules of Evidence (Fulfills Legal Studies certificate requirement)	3
AJS205	Effective Communication and Report Writing in Criminal Justice	3
	(Fulfills Corrections, Law Enforcement and Legal Studies certificate requirement)	
AJS210	Constitutional Law.....	3
	(Fulfills Legal Studies certificate requirement and NAU transfer requirement)	
AJS255	The Criminal Justice System Handling of the Mentally Ill	3
	(Fulfills Corrections and Victimology certificate requirement)	

AJS270	Community Relations (Fulfills GCU transfer requirement)	3
AJS275	Criminal Investigation I	3
	(Fulfills Corrections and Law Enforcement certificate requirement and GCU transfer requirement)	
AJS290BN	Courtroom Testimony Seminar	1
AJS+++++	Any AJS Administration of Justice Studies course not listed under Required Courses area (3) OR	
BPC110	Computer Usage and Applications (3) OR	
CIS105	Survey of Computer Information Systems (3)	3
	(BPC110 or CIS105 fulfills transfer requirement)	
CIS114DE	Excel Spreadsheet (Fulfills NAU transfer requirement).....	3
PSY101	Introduction to Psychology (3) OR	
SOC101	Introduction to Sociology (3) (Fulfills ASU transfer requirement)	3
REC120	Leisure and the Quality of Life (Fulfills ASU transfer requirement)	3
SWU171	Introduction to Social Work (Fulfills ASU transfer requirement)	3

General Electives: (0-5 credits)

Credits

Select additional courses 100-level or higher to complete a minimum of 60 semester credits.

Select courses not already listed in Required Courses, Restrictive Electives, or General Education requirements. Consult with an AJS faculty advisor, program director, and/or academic advisor to identify coursework that best aligns with academic and professional goals.

Recommend the following for transfer:

Any course with an [HU] and [G] general education designation

General Education Requirements: (16-22 credits)

General Education Core: (12-18 credits)

Credits

First-Year Composition:

6

- + ENG101 First-Year Composition (3) OR
- + ENG107 First-Year Composition for ESL (3)
- AND
- + ENG102 First-Year Composition (3) OR
- + ENG108 First-Year Composition for ESL (3)

Oral Communication:

3

- COM100 Introduction to Human Communication (3) OR
 - COM110 Interpersonal Communication (3) OR
 - + COM225 Public Speaking(3) OR
 - COM230 Small Group Communication (3)
- Recommend +COM225 for students intending to transfer.

Critical Reading:

0-3

- + CRE101 College Critical Reading and Critical Thinking (3) OR
- Equivalent as indicated by assessment.

Mathematics:

3-6

- + MAT140 College Mathematics(5)OR
- + MAT141 College Mathematics (4) OR

+ MAT142	College Mathematics (3) OR
MAT145	College Mathematics with Review (5) OR
MAT146	College Mathematics with Review (6) OR
	Any higher approved general education course in the Mathematics area (3-6)

General Education Distribution: (4 credits)

Credits

Humanities, Arts and Design:

0

Met by AJS123 in the Required Courses area.

Social-Behavioral Sciences:

0

Met by AJS200 or AJS/EMT/FSC/SWU258 in the Required Courses area.

Natural Sciences:

4

Any approved general education course from the Natural Sciences area.

Recommend for transfer:

FOR105	Forensic Science: Physical Evidence (4) OR
FOR106	Forensic Science: Biological Evidence (4) OR
	any course with the [SQ] general education designation (4)

Administration of Justice Studies General Information

Field of Interest: Behavioral Science and Human Services

For Information: Paul Brown

Phone: 623.845.3913

<https://www.gccaz.edu/public-safety-sciences>

Student Goals: Career-related, Personal

Administration of Justice (AJS) courses provide information for personal interest and related careers, but are designed primarily for those interested in careers in law enforcement and related fields. Students take these courses to:

Prepare for Employment: An Associate in Applied Science (AAS) degree and certificate programs are available.

Police officers and detectives are responsible for protecting life and property, enforcing laws, preventing and investigating crimes, and apprehending criminals. Officers working in small communities have many duties, while officers employed by large police departments are usually assigned to specific types of duty such as traffic, narcotics, robbery, or homicide.

Those assigned to patrol a regularly-assigned area, work alone or in pairs. Related law enforcement careers are in security, probation, corrections, etc.

Enhance Employment: The AJS290 seminar series provides specialized training for those in law enforcement desiring to enhance their skills. These seminars are available on a limited basis.

Prepare for Related Fields: Students in other fields may well find courses such as AJS101, or AJS225 of interest.

For Personal Interest: Those seeking training in the safe and ethical use of firearms may enroll in any one of the following: AJS151, AJS153, and AJS154; or in all of them.

Administrative Professional AAS 3680

Associate in Applied Science - 62-70 credits

Field of Interest: Business, Entrepreneurialism, and Management

For Information: Kara Kujawa

Phone: 623.845.3997

<https://www.gccaz.edu/business>

Program Description: The Associate in Applied Science (AAS) in the Administrative Professional degree is designed to provide training for various office positions. The curriculum incorporates people and technological skills essential for job

success. Includes instruction in business communications, office procedures, public relations, accounting, records management, and report preparation. A Certificate of Completion (CCL) in Administrative Professional is also available.

Program Notes: Students must earn a grade of C or better in all courses required within the program.

This program also is offered at Chandler-Gilbert, Estrella Mountain, GateWay, Mesa, Paradise Valley, Phoenix, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (25-27 credits)

Credits

ACC115	Computerized Accounting	3
BPC110	Computer Usage and Applications (3) OR	
CIS105	Survey of Computer Information Systems (3)	3
CIS113DE	Microsoft Word: Word Processing	3
CIS114DE	Excel Spreadsheet	3
FYE101	Introduction to College, Career and Personal Success (1) OR	
FYE103	Exploration of College, Career and Personal Success (3)	1-3
GBS120	Workplace Communication Skills	3
GBS131	Business Calculations	3
GBS151	Introduction to Business	3

Select three of the following courses:

BPC101AA	Introduction to Computers I	1
BPC/OAS111AA	Computer Keyboarding I	1
CIS121AE	Windows Operating System: Level I	1
CIS121AI	Mac Operating System	1
+ CIS122AE	Windows Operating System: Level II	1
CIS133AA	Internet/Web Development Level I-A	1

Restricted Electives: (15 credits)

Credits

Students should select 15 credits from the following courses, except courses used to satisfy the Required Courses area, in consultation with a Program Advisor:

ACC+++	Any ACC Accounting prefixed course (except ACC115)	3
MGT251	Human Relations in Business	3
MGT126	Customer Service Skills and Strategies	3
CIS133DA	Internet/Web Development: Level I	3
+ CIS214DE	Advanced Excel Spreadsheet: Level II	3
CIS103	Introduction to Social Media	3
MKT110	Marketing and Social Networking	3
CIS117DM	Microsoft Access: Database Management	3
GBS205	Legal, Ethical, and Regulatory Issues in Business	3
MKT271	Principles of Marketing	3

General Education Requirements: (22-28 credits)

General Education Core: (12-18 credits)

Credits

First-Year Composition:

6

+ ENG101	First-Year Composition (3) OR

Any approved general education course from the Natural Sciences area.		
Administrative Professional CCL 5677		
Certificate of Completion - 18 credits		
Field of Interest: Business, Entrepreneurialism, and Management		
For Information: Kara Kujawa		
Phone:	623.845.3997	
https://www.gccaz.edu/business		
Program Description: The Certificate of Completion (CCL) in the Administrative Professional program is designed to provide students with basic office skills. This program is recommended for students with little or no office-related work experience or college experience. Includes instruction in business communications, office procedures, and report preparation. An Associate in Applied Science (AAS) in Administrative Professional is available.		
This program also is offered by Chandler-Gilbert, Estrella Mountain, and Paradise Valley Community Colleges.		
Program Notes: Students must earn a grade of C or better in all courses required within the program.		
Program Prerequisites: None.		
Required Courses: (18 credits)		Credits
BPC110	Computer Usage and Applications (3) OR	
CIS105	Survey of Computer Information Systems (3)	3
CIS113DE	Microsoft Word: Word Processing	3
GBS120	Workplace Communication Skills	3
GBS131	Business Calculations	3
GBS151	Introduction to Business	3

Select three of the following courses:

BPC101AA	Introduction to Computers I	1
BPC/OAS111AA	Computer Keyboarding I	1
CIS121AE	Windows Operating System: Level I	1
CIS121AI	Mac Operating System	1
+ CIS122AE	Windows Operating System: Level II	1
CIS133AA	Internet/Web Development Level I-A	1

Adobe Foundations: Animation and Graphics Production CCL 5167N

Certificate of Completion - 9 credits

This program is not eligible for Title IV Federal Financial Aid

Field of Interest: Computer and Information Technology

For Information: Bill Stewart

Phone: 623.845.3250

<https://www.gccaz.edu/business>

Program Description: The Certificate of Completion (CCL) in Adobe Foundations: Animation and Graphics Production program helps prepare students to create, edit, and enhance digital images, graphics, and animation for use in web, print, and video. A Certificate of Completion in Adobe Foundations: Video and Audio Production and an Associate in Applied Science (AAS) in Web Design and Development are also available.

This program also is offered by Chandler-Gilbert, Mesa, Paradise Valley, and South Mountain Community Colleges.

Program Notes: Students must earn a grade of C or better in all courses required within the program.

Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.¹

Program Prerequisites: None.

Required Courses: (9 credits)	Credits	
CIS120DB	Introduction to Adobe Illustrator	3
CIS120DC	Introduction to Adobe Animate	3
CIS120DF	Introduction to Adobe Photoshop	3

Advanced Behavioral Health Sciences CCL 5521

Certificate of Completion - 40-43 credits

Field of Interest: Behavioral Science and Human Services

For Information: Dr. Thomas Rojo Aubrey, Jr.

Phone: 623.845.3212

<https://www.gccaz.edu/counseling>

Program Description: The Certificate of Completion (CCL) in Advanced Behavioral Health Sciences is designed to provide students with a comprehensive study of human behavior and prepare them to assist, as part of a clinical team, in the care of individuals and families dealing with mental illness, addictions and substance use, trauma, developmental disabilities, co-morbid medical conditions, and challenging behaviors. The program includes courses designed to provide students with the skills necessary to deliver specialized and comprehensive behavioral health and social services. This program also provides university transfer options in addition to preparation for industry certifications and supervised field experience.

Program Notes: Students must earn a grade of C or better in all courses within the program.

Students should select courses in one of the following specializations:

- Trauma and Crisis Stabilization

- Infant and Early Childhood Mental Health
- Addiction and Substance Use Disorders
- Developmental Disabilities
- Criminal Justice and Forensic Science
- Mental Health

This program also is offered by South Mountain Community College.

Program Prerequisites: None.

Required Courses: (34 credits)

	Credits
Certificate of Completion (CCL) in Basic Behavioral Health Sciences (5522)	18
AND	
BHS175	Introduction to Trauma-Informed Care and Trauma Focused Caregiving
BHS185	Cultural Competence in Behavioral Health
+ BHS190	Professional Portfolio: Supervised Practice In Behavioral Health and Social Services
BHS205	Therapeutic Models and Interventions in Individual Therapy.....
BHS210	Addictions, Substance Use Disorders, and Relapse Prevention
BHS215	Therapeutic Models and Intervention in Group Therapy

Restricted Electives: (6 credits)

Student must choose six credits from one of the following specializations:

Specialization 1: Trauma and Crisis Stabilization

	Credits
BHS230	Crisis and Trauma Stabilization.....
BHS235	Emergency Mental Health Crisis Response and Recovery

Specialization 2: Infant and Early Childhood Mental Health

BHS275	Infant and Early Childhood Mental Health (3) OR
CFS177	Parent-Child Interaction (3).....
BHS272	Child and Adolescent Mental Health and Interventions
CFS235	Developing Child: Theory into Practice, Prenatal to Age Eight.....
+ EED210	Creative and Cognitive Play

(If EED210 is selected, CFS235 will need to be selected unless another requisite option has been met.)

Specialization 3: Addiction and Substance Use Disorders

ASD110	Pharmacology of Substances of Abuse and Dependency
--------	--

ASD245	Co-Ocurring Disorders (2)
--------	---------------------------

AND	
ASD120	Professional Ethics in Addictions and Substance Use Disorders (1) OR
ASD145	AIDS and Addiction (1)
BHS251	Harm Reduction in Addiction, Substance Use, and Social Services

Specialization 4: Developmental Disabilities

BHS271	Developmental Disabilities Assistance Training
+ PSY 241	Understanding and Changing Behavior.....
+ PSY 243	The Psychology of Developmental Disabilities.....

Specialization 5: Criminal Justice and Forensic Science

+ PSY 267	Introduction to Forensic Psychology
-----------	---

AJS101	Introduction to Criminal Justice (3) OR	
AJS200	Current Issues In Criminal Justice (3) OR	
AJS225	Criminology (3)	3

Specialization 6: Mental Health

BHS230	Crisis and Trauma Stabilization (3) OR	
BHS235	Emergency Mental Health Crisis Response and Recovery (3)	3
BHS251	Harm Reduction in Addiction, Substance Abuse and Social Services	3
BHS255	Health and Wellness Coaching in Professional Resiliency	3
BHS262	Behavioral Health Service Techniques for the Elderly	3
BHS266	Violence and Abuse Services	3
BHS269	Grief Support Techniques	3
BHS271	Developmental Disabilities Assistance Training	3
BHS272	Child and Adolescent Mental Health and Interventions.....	3
BHS275	Infant and Early Childhood Mental Health.....	3
CPD180	Human Resilience: Cognitive, Emotional, and Behavioral Applications.....	3
+ PSY 266	Psychological Disorders	3

General Electives: (0-3 credits)

Credits

Students choosing Developmental Disabilities, Criminal Justice and Forensic Science, or Mental Health may also need to complete PSY 101 as it is a requisite to courses in these specializations. PSY 101 can be counted towards General Education requirement in most Associate degrees.

PSY 101	Introduction to Psychology	0-3
---------	----------------------------------	-----

Aerospace Studies General Information

Field of Interest: Culture and Society

For Information: Arizona State University AFROTC

Phone: 480.965.3181

<https://afrotc.asu.edu/>

The Aerospace Studies (AES) curriculum consists of the General Military Course (GMC) for freshmen and sophomores, and the Professional Officer Course (POC) for juniors and seniors. Through an arrangement with Arizona State University (ASU) at Tempe, students at Glendale Community College can take the GMC at ASU. Upon receiving a four-year bachelor's degree and completion of the POC at any university offering Air Force Reserve Officer Training Corps (AFROTC), the student will receive a commission as a Second Lieutenant in the Air Force or Space Force.

A formal application is not required for students entering the GMC. Students register for AFROTC at the same time and in the same manner as other courses. During the first two years, students enrolled in the GMC will take three to four total courses for AFROTC per semester, dependent upon if the student is a three-year or four-year cadet. AFROTC students not on AFROTC scholarship incur no military obligation.

Students apply for the POC prior to their sophomore year. Those students accepted will attend a three-week field training encampment at an Air Force Base between their sophomore and junior years. They must complete their AFROTC requirements at a university offering the POC program.

AFROTC offers scholarships to outstanding young men and women on a nationwide competitive basis. Scholarships cover full college tuition as well as books, fees, and a monthly tax-free allowance ranging from \$350 to \$500. These scholarships are highly competitive and are not guaranteed as part of the program. For more information contact ASU's AFROTC at 480-965-3181.

Amazon Web Services Cloud Associate CCL 5330N

Certificate of Completion - 3-6 credits

This program is not eligible for Title IV Federal Financial Aid

Field of Interest: Computer and Information Technology

For Information: Andrea Schauer

Phone: 623.845.3502

<https://www.gccaz.edu/consumer-sciences>

Program Description: The Certificate of Completion (CCL) in Amazon Web Services (AWS) Cloud Associate builds the knowledge and skills to design, plan, and implement a cloud solution architecture. Students will be introduced to concepts and hands-on opportunities to manage cloud systems/architectures for real world -applications. Students with the requisite experience in the field who complete this CCL can pursue employment in a variety of information technology jobs. This CCL also helps to prepare students for the AWS Certified Solutions Architect – Associate examination, which is the second level of the AWS certifications.

Program Notes: This Certificate of Completion (CCL) is intended for industry professionals with the requisite experience such as database, Linux, information security, networking, programming, and DevOps who are interested in expanding their knowledge in the area of cloud computing to enhance their employment opportunities. Speak to a program director for additional information.

Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: BPC, CIS, CLD, CNT, ITS, and MST.

Students must earn a grade of C or better for all courses required within the program.¹

This program also is offered at Chandler-Gilbert, GateWay, Mesa, Paradise Valley, Phoenix, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (3-6 credits)

Credits

CLD110	Amazon Web Services Cloud Foundations (3) OR Certificate of Completion in Amazon Web Services Cloud Practitioner (5141N (not eligible for Title IV Federal Financial Aid)) (3) OR AWS Certified Cloud Practitioner certification badge (0) OR Permission of Program Director (0).....	0-3
+ CLD120	Amazon Web Services Cloud Architect Associate.....	3

Amazon Web Services Cloud Practitioner CCL 5141N

Certificate of Completion - 3 credits

This program is not eligible for Title IV Federal Financial Aid

Fast Track Certificate: Amazon Web Services Cloud Practitioner CCL 5141N

Field of Interest: Computer and Information Technology

For Information: Andrea Schauer

Phone: 623.845.3502

<https://www.gccaz.edu/consumer-sciences>

Program Description: The Certificate of Completion (CCL) in Amazon Web Services Cloud Practitioner builds the practical knowledge and skills of cloud computing. Cloud computing provides reliable, scalable, secure, and flexible technology solutions for personal and business use. This CCL will introduce students new to or interested in cloud computing to the fundamental concepts of cloud services as well as hands-on opportunities to apply these concepts to real-world applications. Students with the requisite experience in the field who complete this CCL can pursue employment in a variety of information technology jobs. This CCL also helps to prepare students for the Amazon Web Services (AWS) Certified Cloud Practitioner exam, which is the first level of the AWS certification.

+ indicates course has pre/corequisites. ++ indicates suffixed courses

2022-2023 GCC Academic Catalog

Program Notes: Students must earn a grade of C or better for all courses required within the program.

This Certificate of Completion (CCL) is intended for industry professionals with the requisite experience such as database, Linux, information security, networking, programming, and DevOps who are interested in expanding their knowledge in the area of cloud computing to enhance their employment opportunities. Speak to a program director for additional information.

Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.

This program also is offered at Chandler-Gilbert, GateWay, Mesa, Paradise Valley, Phoenix, Scottsdale, and South Mountain Community Colleges.

Required Courses: (3 credits)	Credits
CLD110 Amazon Web Services Cloud Foundations	3

Amazon Web Services Cloud Specialist CCL 5331N

Certificate of Completion – 3-9 credits

This program is not eligible for Title IV Federal Financial Aid

Field of Interest: Computer and Information Technology

For Information: Andrea Schauer

Phone: 623.845.3502

<https://www.gccaz.edu/consumer-sciences>

Program Description: The Certificate of Completion (CCL) in Amazon Web Services (AWS) Cloud Specialist builds the requisite knowledge and skills to perform core Amazon Web Services (AWS) services in a manner that is based on compute, data, security and requirements as well as AWS best practices. Students select a specialization in either Developer or SysOps. Developer focuses on developing, deploying and debugging cloud based applications using AWS. SysOps focuses on deploying, managing and operating scalable, highly available, and fault tolerant systems on AWS.

Students will have hands-on opportunities to manage cloud systems/architectures for real world-scenarios. Students with the requisite prior experience in the field who complete this CCL can pursue employment in a variety of information technology jobs.

This CCL also helps to prepare students for industry-standard certification as either AWS Certified Developer - Associate or AWS Certified SysOps Administrator - Associate based on their emphasis.

Program Notes: This Certificate of Completion (CCL) is intended for industry professionals with the requisite experience such as database, Linux, information security, networking, programming, and DevOps who are interested in expanding their knowledge in the area of cloud computing to enhance their employment opportunities. Speak to a program director for additional information.

Courses within any of the following prefixes must be taken within five years prior to completion of the CCL to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.

Students must earn a grade of C or better for all courses required within the program.

This program also is offered at Chandler-Gilbert, GateWay, Mesa, Paradise Valley, Phoenix, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (3-9 credits)	Credits
CLD110 Amazon Web Services Cloud Foundations (3) OR	
AWS Cloud Practitioner Certification (0) OR	
Permission of Program Director (0)	0-3

+ CLD120	Amazon Web Services Cloud Architect Associate (3) OR AWS Certified Solutions Architect - Associate certification (o) OR Permission of Program Director (o)	0-3
----------	--	-----

Complete all courses in the specialization below that best aligns with your academic and professional goals. Consult with an Academic, Faculty, or Program Advisor.

Specialization 1: AWS Certified Developer - Associate

+ CLD130	Amazon Web Services Cloud Developing.....	3
----------	---	---

Specialization 2: AWS Certified SysOps Administrator - Associate

+ CLD140	Amazon Web Services Cloud Operations.....	3
----------	---	---

Animation CCL 5169

Certificate of Completion - 40 credits

Field of Interest: Visual and Performing Arts

For Information: Michelle Blomberg

Phone: 623.845.3667

<https://www.gccaz.edu/art-humanities>

Program Description: The Certificate of Completion (CCL) in Animation develops knowledge and skills in the area of digital animation, including but not limited to the production of still and time-based media, animation techniques, narrative development, character design, compositing, motion graphics, and interactive design. The curriculum is designed to provide the student with an understanding of animation techniques, use of production equipment, animation terminology, media and interactivity applications, and industry practices. This certificate prepares students for employment and upgrades the skills of persons employed in occupations such as digital animators, media producers, storyboard artists, media artist/designers, and interaction designers. CCL in Video Game Production, and Associate in Applied Science (AAS) degrees in Animation and Time-Based Media and Video Game Production, are also available.

This program also is offered at Phoenix Community College.

Program Notes: Students must earn a grade of C or better for all courses required within the program.

This CCL is designed for individuals who already have a degree or relevant experience in the field or who are currently employed in the field.

Program Prerequisites: None.

Required Courses (40 credits)		Credits
+ ADA/ART169	2D Media Design (3) OR	
+ ART178	Digital Arts Studies (3)	3
+ ADA/ART177	Digital Photographic Imaging I	3
+ ADA/ART/MMT184	Digital Animation I	3
ART100	Introduction to Digital Arts	1
ART111	Drawing I	3
ART116	Life Drawing I	3
ART/COM/STO150	Digital Storytelling (3) OR

+ ART/MMT285	3D Modeling and Animation II	3
+ ART287	3D Character Animation	3

Animation and Time-Based Media AAS 3199

Associate in Applied Science - 69-77 credits

Field of Interest: Visual and Performing Arts

For Information: Michelle Blomberg

Phone: 623.845.3667

<https://www.gccaz.edu/art-humanities>

Program Description: The Associate in Applied Science (AAS) in Animation and Time-Based Media is designed for the student who wishes to develop marketable skills in the area of digital animation and time-based media development. The program provides the student with an understanding of the equipment, operations, and knowledge of the terminology related to still image, video, and animation production. It allows for the exploration of personal interest in this area, prepares students for employment, and upgrades skills of those already employed in this field. Employment opportunities are included in video and multimedia fields, such as digital animator, media production, marketing, publishing, motion graphics, photography, storyboard artist, freelance artist designer, web and interactivity design, and multimedia artist/designer. A Certificate of Completion (CCL) in Animation and in Time-Based Media are also available.

This program also is offered at Mesa and Phoenix Community Colleges.

Program Notes: Students must earn a grade of C or better for all courses required within the program.

Program Prerequisites: None.

Required Courses: (17-19 credits)		Credits
+ ADA/ART169	2D Media Design(3) OR	
+ ART178	Digital Arts Studies (3)	3
+ ADA/ART177	Digital Photographic Imaging I	3
+ ADA/ART/MMT184 ART100	Digital Animation I	3
	Introduction to Digital Arts	1
ADA/ART248 ART255	Design Self Promotion(3) OR Art Marketing (3)	3
+ ART280AC	Digital Media Arts and Design Capstone	3
FY E101	Introduction to College, Career and Personal Success (1) OR	
FY E103	Exploration of College, Career and Personal Success (3)	1-3

Restricted Electives: (30 credits)

Specialization 1: Digital Animation - Credits: 30

ART111	Drawing I	3
--------	-----------------	---

ART116	Life Drawing I	3
ART/COM/STO150	Digital Storytelling (3) OR	
CRW150	Introduction to Creative Writing (3) OR	
CRW172	Introduction to Comic Book Writing (3) OR	
CRW176	Writing Narrative for Video Games (3) OR	
FMT121	Story Theory for Film, Television and Media (3)	3
+ ART170	3D Computer Design (3) OR	
ART/THP246	Digital Fabrication (3)	3

+ ART/MMT185	3D Modeling and Animation I	3
+ ART200	Animation and Interactivity	3
+ ART240	Cinematography and Directing for 2D/3D Animation	3
+ ART284	Digital Animation II	3
+ ART/MMT285	3D Modeling and Animation II	3
+ ART287	3D Character Animation	3

Specialization 2: Time-Based Media - Credits: 30

ART111	Drawing I (3) OR	
ART116	Life Drawing I (3)	3
ART142	Introduction to Digital Photography	3
ART/COM/STO150	Digital Storytelling (3) OR	
FMT121	Story Theory for Film, Television and Media (3) OR	
+ JRN213	Writing for Online (3)	3
+ ART202	Media Productions I (3) OR	
FMP108	Video Production (3)	3
+ ART279	Media Productions II (3) OR	
+ FMP215	Digital Video Effects (3)	3
MTC191	Electronic Music I (3) OR	
MUC122	Sound Design I (3)	3

Complete 12 credits from courses not already selected in the Required Courses area. Students may choose from one emphasis or from among multiple emphasis areas according to their occupational needs.

Photography Emphasis

ART131	Photography I	3
+ ART138	Commercial Photography I	3
+ ART140	Portrait Photography	3
+ ART143	Intermediate Digital Photography	3
+ ART270	Digital Photographic Imaging II	3

Audio Emphasis

+ FMP114	Audio Production	3
MTC191	Electronic Music I	3
+ MTC192	Electronic Music II	3
MUC122	Sound Design I	3
MUC195	Studio Music Recording I	3

+ MUC222	Sound Design II	3
----------	-----------------------	---

Media Production Emphasis

ART/COM/STO145	Digital Storybook	1
+ ART/MMT190	Art of Web Site Design	3
+ ART192	Advanced Web Presentation Design	3
ART/THP246	Digital Fabrication	3
CIS133DA	Internet/Web Development Level I	3
+ FMP204	Advanced Video Production	3
+ FMP215	Digital Video Effects	3
+ FMT151	TV and New Media Production	3

Motion Graphics Emphasis

ART116	Life Drawing I	3
+ ART174	Electronic Color Principles	1
+ ART/MMT185	3D Modeling for Animation I	3
+ ART200	Animation and Interactivity	3
+ ART240	Cinematography and Directing for 2D/3D Animation	3
+ ART273AC	Special Topics: Multimedia Arts	3
+ ART2873D	Character Animation	3
+ FMP215	Digital Video Effects	3

General Education Requirements: (22-28 credits)

General Education Core: (12-18 credits)	Credits
---	---------

First-Year Composition:	6
--------------------------------	----------

+ ENG101	First-Year Composition (3) OR
+ ENG107	First-Year Composition for ESL (3)
AND	
+ ENG102	First-Year Composition (3) OR
+ ENG108	First-Year Composition for ESL (3) OR

Oral Communication:	3
----------------------------	----------

COM100	Introduction to Human Communication (3) OR
COM110	Interpersonal Communication (3) OR
+ COM225	Public Speaking(3) OR
COM230	Small Group Communication

Critical Reading:	0-3
--------------------------	------------

+ CRE101	College Critical Reading and Critical Thinking (3) OR
Equivalent as indicated by assessment.	

Mathematics:	3-6
---------------------	------------

Any approved general education course from the Mathematics area.

Recommended for students planning to transfer to a four-year university:

+ MAT140	College Mathematics(5)OR
+ MAT141	College Mathematics(4) OR
+ MAT142	College Mathematics(3) OR
MAT145	College Mathematics with Review (5) OR
MAT146	College Mathematics with Review (6)

General Education Distribution: (10 credits)	Credits
--	---------

Humanities, Arts and Design:	3
-------------------------------------	----------

ARH101	Prehistoric Through Gothic Art (3) OR
--------	---------------------------------------

ARH102	Renaissance Through Contemporary Art (3) OR
ARH115	History of Photography (3) OR
HUM/THF205	Introduction to Cinema (3)

Social-Behavioral Sciences: Any approved general education course from the Social-Behavioral Sciences area. 3

Natural Sciences: Any approved general education course from the Natural Sciences area. 4

Anthropology General Information

Field of Interest: Culture and Society

For Information: Dr. Dean Wheeler

Phone: 623.845.3903

<https://www.gccaz.edu/social-sciences>

Student Goals: General Education, Career-related, Personal

Anthropology courses examine the origins, cultures, biology, and social behaviors of human beings in both the past and the present. Students take these courses:

For Personal Interest: ASB102 emphasizes different cultures around the world, while ASM104 focuses on human origins and variation. ASB202 looks at the relationships of different groups in the U.S., past and present. ASB214 discusses religions from around the world. ASB222, ASB223 and ASB230 introduce students to the methods and discoveries of archaeology. ASB235 covers past Native American culture in the Southwest. All courses transfer to Arizona universities.

To meet General Education Requirements: Anthropology courses may also be used to meet the following requirements for any associate degree and will also transfer:

Humanities: ASB211, ASB220, ASB222, ASB223

Social-Behavioral Sciences: ASB102, ASB211, ASB214, ASB222, ASB223, ASB230, ASB235, ASM104

Natural Sciences: ASB231, ASM104

Global Awareness: ASB102, ASB211, ASB214, ASB222, ASB223

Historical Awareness: ASB202, ASB222, ASB223, ASB235, ASM104

Cultural Diversity: ASB202, ASB235

To Prepare for a Major at Arizona State University (ASU)-Main: Those intending to transfer as anthropology majors should complete ASM104, ASB102, and either ASB222 or ASB223. Consult with Dr. Dean Wheeler, Social Sciences Department, in selecting additional anthropology courses for transfer to ASU-Main.

Architectural and Civil CAD Technology AAS 3503

Associate in Applied Science - 62-73 credits

Field of Interest: Applied Technology

For Information: Glenda Chagolla

Phone: 623.845.3699

<https://www.gccaz.edu/consumer-sciences>

Program Description: The Associate in Applied Science (AAS) in Architectural and Civil CAD Technology degree is designed to prepare students for careers in Computer Aided Design (CAD) and Building Information Modeling (BIM) including but not limited to Structural, Mechanical, Electrical, or Civil Engineering offices; Landscape Architects, or related fields. The goal of this program is to broaden design exposure and CAD technology skills. Students develop two-dimensional (2D) and three-dimensional (3D) drawings and models utilizing industry standard CAD and BIM software and learn presentation methods and construction documentation conventions.

Program Notes: Students must earn a grade of C or better for all courses within the program.

Program Prerequisites: None.

Required Courses: (34-42 credits)

		Credits
BLT263++	Any Building Codes course	3
CAD100	Fundamentals of 2D AutoCAD	3
+ CAD101	Elements of CAD Graphics (AutoCAD)	3
+ CAD145	Design Principles for Industry	3
+ CAD201	Three-Dimensional (3D) Modeling and Advanced CAD Techniques	3
+ CET211	Strength of Materials	3
DFT126	Building Trades Blueprint Reading	3
FYE101	Introduction to College, Career and Personal Success (1) OR	
FYE103	Exploration of College, Career and Personal Success (3)	1-3

Students must complete one of the following math requirements:

+ DFT106	Algebra and Graphs for Design Technology (3)	
AND		
+ DFT107	Trigonometry and Analytic Geometry for Design Technology (3) OR	
+ MAT150	College Algebra/Functions (5) OR	
+ MAT151	College Algebra/Functions (4) OR	
+ MAT152	College Algebra/Functions (3) OR	
+ MAT155	College Algebra/Functions with Review (5) OR	
+ MAT156	College Algebra/Functions with Review (6)	
AND		
+ MAT182	Plane Trigonometry (3) OR	
+ MAT187	Precalculus (5)	3-9

Students must also complete the courses in one of the following application specializations:

Specialization I: Architecture Credits: 9

+ CAD105	Fundamentals of Revit Architecture	3
+ CAD167	Architectural Drawings I (Revit): Residential CAD	3
+ CAD267	Architectural Drawings II (Revit): Commercial CAD	3

Specialization II: Civil Credits: 9

+ CAD106	Fundamentals of Civil 3D	3
+ CAD186	Site Development I	3
+ CAD286	Site Development II	3

Restricted Electives: (9 credits)

Students must select an additional nine credit hours from the following course options. Selected courses will not apply to both Required Courses and Restricted Electives areas.

+ CAD105	Fundamentals of Revit Architecture	3
+ CAD106	Fundamentals of Civil 3D	3
+ CAD167	Architectural Drawings I (Revit): Residential CAD	3
+ CAD186	Site Development I	3
+ CAD235	Modeling, Rendering and Animation for Technical Presentations	3
+ CAD267	Architectural Drawings II (Revit): Commercial CAD	3
+ CAD286	Site Development II	3
+ CAD287	Advanced Revit Techniques	3
+ CAD292	Current Developments in CAD Technology (1) (May repeat up to three times on different	

topics) 1-3

Courses selected from the following Restricted Electives options require prior approval by Department Advisor or Program Director:

CAD++++	Any CAD Computer-Aided Drafting course(s) (1-3) OR
CIS++++	Any CIS Computer Information Systems course(s) (1-3) OR
ECE++++	Any ECE Engineering Science course(s) (1-3) 1-3

General Education Requirements: (19-22 credits)

General Education Core: (9-12 credits)	Credits
First-Year Composition:	6
+ ENG101	First-Year Composition (3) OR
+ ENG107	First-Year Composition for ESL (3)
AND	
+ ENG102	First-Year Composition (3) OR
+ ENG108	First-Year Composition for ESL (3) OR
+ ENG111	Technical and Professional Writing (3)
Oral Communication:	3
COM100	Introduction to Human Communication (3) OR
COM110	Interpersonal Communication (3) OR
+ COM225	Public Speaking (3) OR
COM230	Small Group Communication
Critical Reading: 0-3	
+ CRE101	College Critical Reading and Critical Thinking (3) OR
	Equivalent as indicated by assessment.
Mathematics:	0
Met by (DFT106 and DFT107) OR (MAT150, or MAT151, or MAT152, or MAT155, or MAT156 and MAT182) OR MAT187 in Required Courses area.	
General Education Distribution: (10 credits)	Credits
Humanities, Arts and Design:	3
Any approved general education course in the Humanities, Arts and Design [HU] area.	
Social-Behavioral Sciences:	3
Any approved general education course from the Social-Behavioral Sciences [SB] area.	
Natural Sciences:	4
+ PHY 101	Introduction to Physics (4) OR
+ PHY 111	General Physics I (4)

Art General Information

Field of Interest: Visual and Performing Arts

For Information: Brendan Regan

Phone: 623.845.3449

<https://www.gccaz.edu/art-humanities>

Student Goals: Career-related

Transfer Pathways:

Associate in Arts, Fine Arts (AAFA) - Art, Dance, Music, Musical Theatre, Theatre

Associate in General Studies (AGS)

Fine Arts occupations reflect creating artwork whose primary purpose is to be viewed through the context of a conceptual theme. While there has been an ongoing trend of commercial art overlap, the main difference is an avenue of exhibition along with thematic and process-based execution. Career tracks are based on education, a proficiency in skill set, a firm conceptual direction, and the personal tenacity to market the artwork. This program prepares students to be emerging artists in various media as well as providing a path to higher educational goals.

Program Description: This program is designed for students who wish to specialize in Fine Art. If the student intends to transfer to a four-year institution, he or she should consult the institution's catalog for appropriate lower division courses that can then be taken at GCC.

Students should consult with an advisor prior to every semester to keep on track with their educational goals. Courses are offered in sequence with the understanding that every course is not offered every semester.

Recommended Courses:

Credits

The following courses would be acceptable at most four-year schools for lower division credit. If the student is seeking the AAFA degree please consult with an advisor to determine which track best suits your individual needs.

ARH101	Prehistoric Through Gothic Art	3
ARH102	Renaissance Through Contemporary Art.....	3
ART100	Introduction to Digital Arts.....	1
ART111	Drawing I.....	3
ART112	Two-Dimensional Design	3
ART113	Color 3	
ART115	Three-dimensional Design 3	
ART116	Life Drawing I 3.....	
+ ART117	Life Drawing II 3.....	
+ ART122	Drawing and Composition II 3	
ART131	Photography I 3	
+ ART132	Photography II 3.....	
ART142	Intro to Digital Photography 3.....	
ART151	Sculpture I 3.....	
+ ART152	Sculpture II 3	
ART255	Art Marketing 3	

Audio Production Technologies AAS 3024

Associate in Applied Science - 62-71 credits

Field of Interest: Visual and Performing Arts

For Information: Dave Schmidt

Phone: 623.845.3725

<https://www.gccaz.edu/performing-arts>

Program Description: The Associate in Applied Science (AAS) in Audio Production Technologies program offers students hands-on study of audio engineering and related media fields. Students learn and apply the concepts and theories associated with music recording, live sound reinforcement, and sound design. The program is designed to give students foundational knowledge and experience essential in the field of audio production. An embedded Certificate of Completion (CCL) in Audio Production Technologies is also available.

This program also is offered at Mesa, Paradise Valley, and Phoenix Community Colleges.

Program Notes: Students must earn a grade of C or better for all courses required within the program.

Program Prerequisites: None.

Required Courses: (31-34 credits)

Credits

In addition to the required course work, students must consult with a program advisor to select nine credits within the Restricted Electives area.

FY E101	Introduction to College, Career and Personal Success (1) OR	
FY E103	Exploration of College, Career and Personal Success (3)	1-3
MTC101	Introduction to Music Theory	3
MTC191	Electronic Music I	3
+ MTC192	Electronic Music II	3
MUC109	Music Business: Content Creation and Copyright	3
MUC110	Music Business: Marketing and Monetization(3) OR	
MUC145	Recording Studio Business Operations (2)	2-3
+ MUC111	Digital Audio Workstation I (DAWI)	3
+ MUC194	Audio Mixing Techniques	3
MUC195	Studio Music Recording I(3) OR	
MUC195AA	Studio Music Recording I (3)	3
+ MUC196	Studio Music Recording II	3
MUC197	Live Sound Reinforcement I	3
+ MUC297AA	Audio Production Internship(1) OR	
+ MUC296WA	Cooperative Education(1) OR	
MUC298AA	Special Projects (1)	1

Restricted Electives: (9 credits)

Students must select a total of nine credits from the list below in consultation with an academic advisor.

NOTE: at least one of the following courses must be completed: MTC291, MUC289, MUC292, or MUC295:

+ MTC193	Computer-Based Sound Synthesis	3
+ MTC291	Electronic Music III.....	3
+ MUC112	Digital Audio Workstation II (DAWII)	3
MUC122	Sound Design I	3
+ MUC198	Live Sound Reinforcement II	3
MUC222	Sound Design II	3
+ MUC289	Live Sound Reinforcement III	3
+ MUC292	Sound Design III.....	3
+ MUC295	Studio Music Recording III.....	3

General Education Requirements: (22-28 credits)

General Education Core: (12-18 credits)

First-Year Composition:		Credits
+ ENG101	First-Year Composition (3) OR	
+ ENG107	First-Year Composition for ESL (3)	
AND		
+ ENG102	First-Year Composition (3) OR	
+ ENG108	First-Year Composition for ESL (3) OR	
+ ENG111	Technical and Professional Writing(3)6	
Oral Communication:		3
COM100	Introduction to Human Communication (3) OR	

+ indicates course has pre/corequisites. ++ indicates suffixed courses

COM110	Interpersonal Communication (3) OR
+ COM225	Public Speaking(3) OR
COM230	Small Group Communication

COM110 is recommended.

Critical Reading:	0-3
+ CRE101	College Critical Reading and Critical Thinking (3) OR Equivalent as indicated by assessment.

Mathematics:	3-6
Any approved general education course from the Mathematics area. Students who intend to transfer must take	

+ MAT140	College Mathematics (5) OR
+ MAT141	College Mathematics (4) OR
+ MAT142	College Mathematics (3) OR
MAT145	College Mathematics with Review (5) OR
MAT146	College Mathematics with Review (6)

General Education Distribution: (10 credits)	Credits
---	----------------

Humanities, Arts and Design:	3
Any approved general education courses from the Humanities, Arts and Design area. MHL140 or MHL145 or MHL153 recommended.	

Social-Behavioral Sciences:	3
Any approved general education course from the Social-Behavioral Sciences area. PSY 101 recommended.	

Natural Sciences:	4
Any approved general education course from the Natural Sciences area.	

Audio Production Technologies CCL 5334

Certificate of Completion - 39-40 credits

Field of Interest: Visual and Performing Arts

For Information: Dave Schmidt

Phone: 623.845.3725

<https://www.gccaz.edu/performing-arts>

Program Description: The Certificate of Completion (CCL) in Audio Production Technologies program offers students hands-on study of audio engineering and related media fields. Students learn and apply the concepts and theories associated with music recording, live sound reinforcement, and sound design. The program is designed to give students foundational knowledge and experience essential in the field of audio production. An Associate in Applied Science (AAS) is also available.

This program also is offered at Mesa, Paradise Valley, and Phoenix Community Colleges.

Program Notes: Students must earn a grade of C or better in all courses within the program.

Program Prerequisites: None.

Required Courses: (30-31 credits)	Credits
In addition to the required coursework, students must consult with a Program Advisor to select one of the specializations within the Restricted Electives area.	

MTC101	Introduction to Music Theory	3
MTC191	Electronic Music I	3

+ MTC192	Electronic Music II	3
MUC109	Music Business: Content Creation and Copyright	3
MUC110	Music Business: Marketing and Monetization (3) OR	
MUC145	Recording Studio Business Operations (2)	2-3
+ MUC111	Digital Audio Workstation I (DAWI)	3

MUC195	Studio Music Recording I(3) OR	
MUC195AA	Studio Music Recording I (3)	3
+ MUC196	Studio Music Recording II	3
+ MUC196AA	Studio Music Recording II (3).....	3
MUC197	Live Sound Reinforcement I	3
+ MUC296WA	Cooperative Education(1) OR	
+ MUC297AA	Audio Production Internship OR	
MUC298AA	Special Projects (1).....	1

Restricted Electives: (9 credits)

Students must select a total of nine credits from the list below in consultation with an academic advisor.
NOTE: at least one of the following courses must be completed: MTC291, MUC289, MUC292, or MUC295.

Credits

Specialization I: Audio Engineering - Credits: 9

+ MTC193	Computer-Based Sound Synthesis	3
+ MTC291	Electronic Music III.....	3
+ MUC112	Digital Audio Workstation II (DAWII)	3
MUC122	Sound Design I	3
+ MUC198	Live Sound Reinforcement II	3
+ MUC222	Sound Design II	3
+ MUC289	Live Sound Reinforcement III	3
+ MUC292	Sound Design III	3
+ MUC295	Studio Music Recording III.....	3

Specialization II: Sound Design - Credits: 9

Automotive Automatic Transmission and Transaxle CCL 5930N

Certificate of Completion - 4 credits

This program is not eligible for Title IV Federal Financial Aid

Fast Track Certificate: Automotive Automatic Transmission and Transaxle CCL 5930N

Field of Interest: Applied Technology

For Information: Jonathan Strait

Phone: 623.845.4546

<https://www.gccaz.edu/automotive>

Program Description: The Certificate of Completion (CCL) in Automotive Automatic Transmission and Transaxle provides individuals with the technical knowledge and skills needed by automotive technicians specializing in the area of automatic transmission and transaxle. The curriculum within this certificate aligns with the Automotive Service Excellence (ASE) Automobile and Light Truck Certification A2 Test.

See Program Advisor for additional certificate offerings. An Associate in Applied Science (AAS) in Automotive Service is also available.

This program also is offered at GateWay and Mesa Community Colleges.

Program Notes: Students must earn a grade of C or better for each course listed in the Required Courses area.

Program Prerequisites: None.

Required Courses: (4 credits)	Credits
ASE121	Automatic Transmission and Transaxle (4) OR
ASE121AU	Automatic Transmission and Transaxle (4)4

Automotive Brake Systems CCL 5936N

Certificate of Completion - 4 credits

This program is not eligible for Title IV Federal Financial Aid

Fast Track Certificate: Automotive Brake Systems CCL 5936N

Field of Interest: Applied Technology

For Information: Jonathan Strait

Phone: 623.845.4546

<https://www.gccaz.edu/automotive>

Program Description: The Certificate of Completion (CCL) in Automotive Brake Systems provides individuals with the technical knowledge and skills needed by automotive technicians specializing in the area of brake systems. The curriculum within this certificate aligns with the Automotive Service Excellence (ASE) Automobile and Light Truck Certification A5 Test.

See Program Advisor for additional certificate offerings. An Associate in Applied Science (AAS) in Automotive Service also is available.

This program also is offered at GateWay and Mesa Community Colleges.

Program Notes: Students must earn a grade of C or better for each course listed in the Required Courses area.

Program Prerequisites: None.

Required Courses: (4 credits)	Credits
ASE151	Introduction to Brake Systems (2) OR
ASE151AU	Introduction to Brake Systems (2)2
+ ASE251	Advanced Brake Systems (2) OR
+ ASE251AU	Advanced Brake Systems (2)2

Automotive Chassis CCL 5952

Certificate of Completion - 16 credits

Field of Interest: Applied Technology

For Information: Joe Landavazo

Phone: 623.845.3189

<https://www.gccaz.edu/automotive>

Program Description: The Certificate of Completion (CCL) in Automotive Chassis provides individuals with the technical knowledge and skills needed by automotive technicians specializing in the area of suspension, steering, brakes and electrical systems. The curriculum within this certificate aligns with the Automotive Service Excellence (ASE) Automobile and Light Truck Certification A4, A5 and A6 Tests.

See Program Advisor for additional certificate offerings. An Associate in Applied Science (AAS) in Automotive Service also is available.

This program also is offered at Mesa Community College.

Program Notes: Students must earn a grade of C or better for each listed in the Required Courses area.

Program Prerequisites: None.

Required Courses: (16 credits)		Credits
ASE141	Steering, Suspension and Pre-Alignment (2) OR	
ASE141AU	Steering, Suspension and Pre-Alignment (2)	2
ASE151	Introduction to Brake Systems (2) OR	
ASE151AU	Introduction to Brake Systems (2)	2
ASE161	Basic Automotive Electrical/Electronics (2) OR	
ASE161AU	Basic Automotive Electrical/Electronics (2)	2
+ ASE162	Automotive Battery, Starting and Charging Systems (2) OR	
+ ASE162AU	Automotive Battery, Starting and Charging Systems (2)	2
+ ASE241	Advanced Steering, Suspension and Alignment (2) OR	
+ ASE241AU	Advanced Steering, Suspension and Alignment (2)	2
+ ASE251	Advanced Brake Systems (2) OR	
+ ASE251AU	Advanced Brake Systems (2)	2
+ ASE261	Automotive Electrical Diagnostics and Repair (2) OR	
+ ASE261AU	Automotive Electrical Diagnostics and Repair (2)	2
+ ASE262	Automotive Electronic Control Systems (2) OR	
+ ASE262AU	Automotive Electronic Control Systems (2)	2

Automotive Drive Train CCL 5950

Certificate of Completion - 16 credits

Field of Interest: Applied Technology

For Information: Joe Landavazo

Phone: 623.845.3189

<https://www.gccaz.edu/automotive>

Program Description: The Certificate of Completion (CCL) in Automotive Drive Train provides individuals with the technical knowledge and skills needed by automotive technicians specializing in the area of automatic and manual transmissions and drivetrains and electrical systems. The curriculum within this certificate aligns with the Automotive Service Excellence (ASE) Automobile and Light Truck Certification A2, A3 and A6 Tests.

See Program Advisor for additional certificate offerings. An Associate in Applied Science (AAS) in Automotive Service also is available.

This program also is offered at Mesa Community College.

Program Notes: Students must earn a grade of C or better for each course listed in the Required Courses area.

Program Prerequisites: None.

Required Courses: (16 credits)		Credits
ASE1 21	Automatic Transmission and Transaxle (4) OR	
ASE1 21AU	Automatic Transmission and Transaxle (4)	4
ASE1 31	Manual Drive Trains and Axles (4) OR	
ASE1 31AU	Manual Drive Trains and Axles (4)	4
ASE1 61	Basic Automotive Electrical/Electronics (2) OR	
ASE1 61AU	Basic Automotive Electrical/Electronics (2)	2
+ ASE1 62	Automotive Battery, Starting and Charging Systems (2) OR	
+ ASE1 62AU	Automotive Battery, Starting and Charging Systems (2)	2
+ ASE261	Automotive Electrical Diagnostics and Repair (2) OR	
+ ASE261AU	Automotive Electrical Diagnostics and Repair (2)	2
+ ASE262	Automotive Electronic Control Systems (2) OR	
+ ASE262AU	Automotive Electronic Control Systems (2)	2

Automotive Electrical, Heating, Ventilation and Air Conditioning Systems CCL 5948N

Certificate of Completion - 11 credits

This program is not eligible for Title IV Federal Financial Aid

Fast Track Certificate: Automotive Electrical, Heating, Ventilation and Air Conditioning Systems CCL 5948N

Field of Interest: Applied Technology

For Information: Joe Landavazo

Phone: 623.845.3189

<https://www.gecaz.edu/automotive>

Program Description: The Certificate of Completion (CCL) in Automotive Electrical, Heating, Ventilation and Air Conditioning Systems provides individuals with the technical knowledge and skills needed by automotive technicians specializing in the area of electrical systems and heating, ventilation and air conditioning. The curriculum within this certificate aligns with the Automotive Service Excellence (ASE) Automobile and Light Truck Certification A7 and A6 Tests.

See Program Advisor for additional certificate offerings. An Associate in Applied Science (AAS) in Automotive Service also is available.

This program also is offered at GateWay and Mesa Community Colleges.

Program Notes: Students must earn a grade of C or better for each course listed in the Required Courses area.

Program Prerequisites: None.

Required Courses: (11 credits)		Credits
ASE1 61	Basic Automotive Electrical/Electronics (2) OR	
ASE1 61AU	Basic Automotive Electrical/Electronics (2)	2
+ ASE1 62	Automotive Battery, Starting and Charging Systems (2) OR	
+ ASE1 62AU	Automotive Battery, Starting and Charging Systems (2)	2
ASE171	Automotive Heating, Ventilation and Air Conditioning Systems (3) OR	
ASE171AU	Automotive Heating, Ventilation and Air Conditioning Systems (3)	3
+ ASE261	Automotive Electrical Diagnostics and Repair (2) OR	

+ ASE261AU	Automotive Electrical Diagnostics and Repair (2)	2
+ ASE262	Automotive Electronic Control Systems (2) OR	
+ ASE262AU	Automotive Electronic Control Systems (2)	2

Automotive Electronic/Electrical Systems CCL 5938N

Certificate of Completion - 8 credits

This program is not eligible for Title IV Federal Financial Aid

Fast Track Certificate: Automotive Electronic/Electrical Systems CCL 5938N

Field of Interest: Applied Technology

For Information: Jonathan Strait

Phone: 623.845.4546

<https://www.gccaz.edu/automotive>

Program Description: The Certificate of Completion (CCL) in Automotive Electronic/Electrical Systems provides individuals with the technical knowledge and skills needed by automotive technicians specializing in the area of electronic/electrical systems. The curriculum within this certificate aligns with the Automotive Service Excellence (ASE) Automobile and Light Truck Certification A6 Test.

See Program Advisor for additional certificate offerings. An Associate in Applied Science (AAS) in Automotive Service also is available.

This program also is offered at GateWay and Mesa Community Colleges.

Program Notes: Students must earn a grade of C or better for each course listed in the Required Courses area.

Program Prerequisites: None.

Required Courses: (8 credits)		Credits
ASE161	Basic Automotive Electrical/Electronics (2) OR	
ASE161AU	Basic Automotive Electrical/Electronics (2)	2
+ ASE162	Automotive Battery, Starting and Charging Systems (2) OR	
+ ASE162AU	Automotive Battery, Starting and Charging Systems (2)	2
+ ASE261	Automotive Electrical Diagnostics and Repair (2) OR	
+ ASE261AU	Automotive Electrical Diagnostics and Repair (2)	2
+ ASE262	Automotive Electronic Control Systems (2) OR	
+ ASE262AU	Automotive Electronic Control Systems (2)	2

Automotive Engine Performance CCL 5942N

Certificate of Completion - 8 credits

This program is not eligible for Title IV Federal Financial Aid

Fast Track Certificate: Automotive Engine Performance CCL 5942N

Field of Interest: Applied Technology

For Information: Jonathan Strait

Phone: 623.845.4546

<https://www.gccaz.edu/automotive>

Program Description: The Certificate of Completion (CCL) in Automotive Engine Performance provides individuals with the technical knowledge and skills needed by automotive technicians specializing in the area of engine performance.

The curriculum within this certificate aligns with the Automotive Service Excellence (ASE) Automobile and Light Truck Certification A8 Test.

See Program Advisor for additional certificate offerings. An Associate in Applied Science (AAS) in Automotive Service also is available.

This program also is offered at GateWay and Mesa Community Colleges.

Program Notes: Students must earn a grade of C or better for each course listed in the Required Courses area.

Program Prerequisites: None.

Required Courses: (8 credits)		Credits
ASE181	Introduction to Engine Performance (2) OR	
ASE181AU	Introduction to Engine Performance (2)	2
+ ASE182	Theory and Fundamentals of Automotive Fuel/Air and Ignition Systems (2) OR	
+ ASE182AU	Theory and Fundamentals of Automotive Fuel/Air and Ignition Systems (2)	2
+ ASE281	Computerized Automotive Engine Control Systems (2) OR	
+ ASE281AU	Computerized Automotive Engine Control Systems (2)	2
+ ASE282	Advanced Engine Performance Diagnosis (2) OR	
+ ASE282AU	Advanced Engine Performance Diagnosis (2)	2

Automotive Engine Repair CCL 5928N

Certificate of Completion - 4 credits

This program is not eligible for Title IV Federal Financial Aid

Fast Track Certificate: Automotive Engine Repair CCL 5928N

Field of Interest: Applied Technology

For Information: Jonathan Strait

Phone: 623.845.4546

<https://www.gccaz.edu/automotive>

Program Description: The Certificate of Completion (CCL) in Automotive Engine Repair provides individuals with the technical knowledge and skills needed by automotive technicians specializing in the area of engine repair. The curriculum within this certificate aligns with the Automotive Service Excellence (ASE) Automobile and Light Truck Certification A1 Test.

See Program Advisor for additional certificate offerings. An Associate in Applied Science (AAS) in Automotive Service also is available.

This program also is offered at GateWay and Mesa Community Colleges.

Program Notes: Students must earn a grade of C or better for each course listed in the Required Courses area.

Program Prerequisites: None.

Required Courses: (4 credits)		Credits
Students are required to take (ASE102++, AND ASE111++) OR		
ASE113++ for a total of four credits.		
ASE102	Automotive Express Service (2) OR	
ASE102AU	Automotive Express Service (2)	
AND		
ASE111	Engine Diagnosis and Inspection (2) OR	

ASE111AU	Engine Diagnosis and Inspection (2)	4
OR		
ASE113	Engine Repair (4) OR	
ASE113AU	Engine Repair (4)	4

Automotive Engine Repair and Performance CCL 5954

Certificate of Completion - 20 credits

Field of Interest: Applied Technology

For Information: Joe Landavazo

Phone: 623.845.3189

<https://www.gccaz.edu/automotive>

Program Description: The Certificate of Completion (CCL) in Automotive Engine Repair and Performance provides individuals with the technical knowledge and skills needed by automotive technicians specializing in the area of engine repair and performance and electrical systems. The curriculum within this certificate aligns with the Automotive Service Excellence (ASE) Automobile and Light Truck Certification A1, A6 and A8 Tests.

See Program Advisor for additional certificate offerings. An Associate in Applied Science (AAS) in Automotive Service also is available.

This program also is offered at Mesa Community College.

Program Notes: Students must earn a grade of C or better for each course listed in the Required Courses area.

Program Prerequisites: None.

Required Courses: (20 credits)		Credits
Students are required to take (ASE102++, AND ASE111++) OR		
ASE113++ for a total of four credits.		
AND		
ASE102	Automotive Express Service (2) OR

+ ASE263	Hybrid Vehicle Overview (2)	2

Automotive Heating, Ventilation and Air Conditioning Systems CCL 5940N

Certificate of Completion - 3 credits

This program is not eligible for Title IV Federal Financial Aid

Fast Track Certificate: Automotive Heating, Ventilation and Air Conditioning Systems CCL 5940N

Field of Interest: Applied Technology

For Information: Jonathan Strait

Phone: 623.845.4546

<https://www.gccaz.edu/automotive>

Program Description: The Certificate of Completion (CCL) in Automotive Heating, Ventilation and Air Conditioning (HVAC) Systems provides individuals with the technical knowledge and skills needed by automotive technicians specializing in the area of HVAC systems. The curriculum within this certificate aligns with the Automotive Service Excellence (ASE) Automobile and Light Truck Certification A7 Test.

See Program Advisor for additional certificate offerings. An Associate in Applied Science (AAS) in Automotive Service also is available.

This program also is offered at GateWay and Mesa Community Colleges.

Program Notes: Students must earn a grade of C or better for each course listed in the Required Courses area.

Program Prerequisites: None.

Required Courses: (3 credits)	Credits	
ASE171	Automotive Heating, Ventilation and Air Conditioning Systems (3) OR	
ASE171AU	Automotive Heating, Ventilation and Air Conditioning Systems (3)	3

Automotive Maintenance and Light Repair CCL 5946

Certificate of Completion - 16 credits

Field of Interest: Applied Technology

For Information: Joe Landavazo

Phone: 623.845.3189

<https://www.gccaz.edu/automotive>

Program Description: The Certificate of Completion (CCL) in Automotive Maintenance and Light Repair provides individuals with the technical knowledge and skills needed by automotive technicians specializing in the area of basic electrical and mechanical maintenance and repair. The curriculum within this certificate aligns with the Automotive Service Excellence (ASE) Automobile and Light Truck Certification Tests.

See Program Advisor for additional certificate offerings. An Associate in Applied Science (AAS) in Automotive Service also is available.

This program also is offered at Mesa Community College.

Program Notes: Students must earn a grade of C or better for each course listed in the Required Courses area.

Program Prerequisites: None.

Required Courses: (16 credits)		Credits
ASE101	Introduction to Automotive	2
ASE141	Steering, Suspension and Pre-Alignment (2) OR	
ASE141AU	Steering, Suspension and Pre-Alignment (2)	2
ASE151	Introduction to Brake Systems (2) OR	
ASE151AU	Introduction to Brake Systems (2)	2
ASE161	Basic Automotive Electrical/Electronics (2) OR	
ASE161AU	Basic Automotive Electrical/Electronics (2)	2
+ ASE162	Automotive Battery, Starting and Charging Systems (2) OR	
+ ASE162AU	Automotive Battery, Starting and Charging Systems (2)	2
ASE171	Automotive Heating, Ventilation and Air Conditioning Systems (3) OR	
ASE171AU	Automotive Heating, Ventilation and Air Conditioning Systems (3)	3
ASE181	Introduction to Engine Performance (2) OR	
ASE181AU	Introduction to Engine Performance (2)	2
ASE290AA	Automotive Service Internship (1) OR	
ASE298AA	Special Projects (1)	1

Automotive Manual Drive Train and Axles CCL 5932N

Certificate of Completion - 4 credits

This program is not eligible for Title IV Federal Financial Aid

Field of Interest: Applied Technology

For Information: Jonathan Strait

Phone: 623.845.4546

<https://www.gccaz.edu/automotive>

Program Description: The Certificate of Completion (CCL) in Automotive Manual Drive Train and Axles provides individuals with the technical knowledge and skills needed by automotive technicians specializing in the area of manual drive train and axles. The curriculum within this certificate aligns with the Automotive Service Excellence (ASE) Automobile and Light Truck Certification A3 Test.

See Program Advisor for additional certificate offerings. An Associate in Applied Science (AAS) in Automotive Service also is available.

This program also is offered at GateWay and Mesa Community Colleges.

Program Notes: Students must earn a grade of C or better for each course listed in the Required Courses area.

Program Prerequisites: None.

Required Courses: (4 credits)		Credits
ASE131	Manual Drive Trains and Axles (4) OR	
ASE131AU	Manual Drive Trains and Axles (4)	4

Automotive Service AAS 3180

Associate in Applied Science - 63-70 credits

Field of Interest: Applied Technology

For Information: Joe Landavazo

Phone: 623.845.3189

<https://www.gccaz.edu/automotive>

For ASEP Program Information: Lyle Clark

Phone: 623.845.3659

For ASSET Program Information: Don Davis

Phone: 623.845.3972

For MCAP Program Information: Greg Dragiewicz

Phone: 623.845.3167

The Automotive Technology Department at Glendale Community College offers four automotive programs:

General

ASEP (General Motors)

ASSET (Ford)

MCAP (Fiat Chrysler)

The General Program is a non-factory sponsored program. This program is designed for students who may wish to work in an independent repair facility as well as those who simply want to broaden their automotive repair skills. This program allows students to take courses at their own pace. Students may choose to follow a recommended schedule for completing the program or may choose classes at his/her convenience.

The Factory Sponsored Programs at Glendale Community College (GCC) are designed with the intention of placing the student in a dealership. The goal of these programs is to enable the student to achieve entry level as a technician. The programs are intensive and require full time status of each student. The student will require four semesters to complete this course of study. During those four semesters the student will also be employed by his or her dealership whenever classes are not in session. This allows the student to experience working conditions and grow into a professional technician. To register in one of the factory-sponsored programs, students must be sponsored by a dealership as a technician apprentice (we will help potential students with the interview process and steer them to dealerships that have already agreed to sponsor apprentices).

The Automotive Service Educational Program (ASEP) combines GCC's Automotive Service AAS degree program with General Motors dealership experience.

The Automotive Student Service Educational Training Program (ASSET) combines GCC's Automotive Service AAS degree program with Ford dealership experience.

The Fiat Chrysler Mopar Career Automotive Program (MCAP) combines GCC's Automotive Service AAS degree program with a Chrysler, Dodge Fiat or Jeep dealership service department experience.

Students sponsored through ASEP/ASSET/MCAP programs may be required to take additional classes.

Transferability: Coursework has been generally transferable to Arizona State University's and Northern Arizona University's Department of Industrial Education, but the transfer student may need 75-80 more hours to receive the

Bachelor of Science (BS) Degree. When a transfer is planned, the student should consult as early as possible with the school and program to which he or she plans to transfer.

Certification: Certified by the National Institute for Automotive Service Excellence (ASE) and evaluated by National Automotive Technicians Education Foundation (NATEF).

Due to limited course availability, students should consult with a Department Advisor and/or Automotive Department instructor in planning their academic schedule in order to complete degree requirements in an expedient manner.

Special Skill Levels Needed: Students wishing to pursue an Associate in Applied Science (AAS) degree are advised to follow the recommendations of the Basic Studies Advisors for English and Reading placements.

Program Description: The Associate in Applied Science (AAS) in Automotive Service prepares individuals to apply technical knowledge and skills to repair, service, and maintain automobiles. Instruction is in both the theoretical and practical aspects of automotive repair, service, and maintenance; and includes brake systems, electrical systems, engine performance, engine repair, suspension and steering, automatic and manual transmissions and drivetrains, and heating and air conditioning systems. The curriculum within this certificate aligns with the Automotive Service Excellence (ASE) Automobile Certification Tests (A1 - A8).

See Program Advisor for additional certificate offerings.

This program also is offered at GateWay and Mesa Community Colleges.

Program Notes: Students must earn a grade of C or better for each course listed in the Required Courses area.

Program Prerequisites: None.

Required Courses: (42-44 credits)

Credits

ASE101	Introduction to Automotive	2
Students are required to take (ASE102++, AND ASE111++) OR ASE113++ for a total of four credits.		
ASE102	Automotive Express Service (2) OR	
ASE102	AU Automotive Express Service (2)	
AND		
ASE111	Engine Diagnosis and Inspection (2) OR	
ASE111AU	Engine Diagnosis and Inspection (2)	4
OR		
ASE113	Engine Repair (4) OR	
ASE113AU	Engine Repair (4)	4
ASE121	Automatic Transmission and Transaxle (4) OR	
ASE121AU	Automatic Transmission and Transaxle (4)	4
ASE131	Manual Drive Trains and Axles (4) OR	
ASE131AU	Manual Drive Trains and Axles (4)	4
ASE141	Steering, Suspension and Pre-Alignment (2) OR	
ASE141AU	Steering, Suspension and Pre-Alignment (2)	2
+ ASE241	Advanced Steering, Suspension and Alignment (2) OR	
+ ASE241AU	Advanced Steering, Suspension and Alignment (2)	2
ASE151	Introduction to Brake Systems (2) OR	

ASE151AU	Introduction to Brake Systems (2)	2
+ ASE251	Advanced Brake Systems(2) OR	
+ ASE251AU	Advanced Brake Systems (2)	2
ASE161	Basic Automotive Electrical/Electronics (2) OR	
ASE161AU	Basic Automotive Electrical/Electronics (2)	2
+ ASE162	Automotive Battery, Starting and Charging Systems (2) OR	
+ ASE162AU	Automotive Battery, Starting and Charging Systems (2)	2
+ ASE261	Automotive Electrical Diagnostics and Repair(2)OR	
+ ASE261AU	Automotive Electrical Diagnostics and Repair (2)	2
+ ASE262	Automotive Electronic Control Systems(2) OR	
+ ASE262AU	Automotive Electronic Control Systems (2)	2
ASE171	Automotive Heating, Ventilation and Air Conditioning Systems(3)OR	
ASE171AU	Automotive Heating, Ventilation and Air Conditioning Systems (3)	3
ASE181	Introduction to Engine Performance (2) OR	
ASE181AU	Introduction to Engine Performance (2)	2
+ ASE182	Theory and Fundamentals of Automotive Fuel/Air and Ignition Systems(2)OR	
+ ASE182AU	Theory and Fundamentals of Automotive Fuel/Air and Ignition Systems (2)	2
+ ASE281	Computerized Automotive Engine Control Systems(2) OR	
+ ASE281AU	Computerized Automotive Engine Control Systems (2)	2
+ ASE282	Advanced Engine Performance Diagnosis (2) OR	
+ ASE282AU	Advanced Engine Performance Diagnosis (2) OR	
+ ASE263	Hybrid Vehicle Overview (2)	2
FYE101	Introduction to College, Career and Personal Success (1)OR	
FYE103	Exploration of College, Career and Personal Success (3).....	1-3

Restricted Electives: (3 credits)

Credits

ASE264	Advanced Automotive Electrical Systems	3
ASE265	Introduction to Electric Drive Vehicles	3
ASE266	Electric/Hybrid High Voltage Batteries	1
ASE267	Electric Vehicle Operation and Diagnosis	3
ASE290++	Automotive Service Internship (any suffixed courses) (1-3)	1-3
ASE296++	Cooperative Education (any suffixed courses)(1-3)	1-3
ASE298++	Special Projects (any suffixed courses)(1-3)	1-3
DIE104	Electrical for Diesel Engines I	3
DIE106	Mobile Hydraulics and Pneumatics	3
DIE108	Heavy Duty Diesel Power Trains	3
DIE112	General Diesel Engines	3
MFG102	Machine Processes, Theory and Application	3
OSH106	Industrial Safety	2
WLD101	Welding I	3

General Education Requirements: (18-23 credits)**General Education Core: (12-17 credits)**

	Credits
First-Year Composition:	6
+ ENG101	First-Year Composition (3) OR
+ ENG107	First-Year Composition for ESL (3)
AND	
+ ENG102	First-Year Composition (3) OR
+ ENG108	First-Year Composition for ESL (3) OR
+ ENG111	Technical and Professional Writing (3)
Oral Communication:	3

Automotive Technology General Information

Field of Interest: Applied Technology

For Information: Lyle Clark

Phone: 623.845.4545

<https://www.gccaz.edu/automotive>

Constant increases in the number of vehicles on the road as well as their increasing complexity promises a steady stream of new career openings within the automotive service industry both locally and nationally.

Mobility within the automotive service industry is almost limitless. The experienced technician who demonstrates quality workmanship, willingness to learn, organizational skills, reliability, and good communication skills will find opportunities to move into other jobs within the industry such as management, sales, field service, business ownership, or teaching.

Automobile technicians diagnose, repair, and perform maintenance operations on cars, trucks, buses, and other motor vehicles. The most critical attributes of an automotive technician are the ability to accurately diagnose the causes of malfunctions and to demonstrate quality workmanship in making repairs. Thorough knowledge and understanding of the vehicle and component being serviced, combined with good testing and service skills, ensures fast and efficient work.

Basic Behavioral Health Sciences CCL 5522

Certificate of Completion - 18 credits

Field of Interest: Behavioral Science and Human Services

For Information: Dr. Thomas Rojo Aubrey

Phone: 623.845.3212

<https://www.gccaz.edu/counseling>

Program Description: The Certificate of Completion (CCL) in Basic Behavioral Health Sciences is designed to provide students with a foundational study of human behavior and prepare them to assist, as part of a clinical team, in the care of individuals and families dealing with mental illness, comorbid medical conditions, and challenging behaviors. The program includes courses designed to provide students with the skills necessary to deliver essential behavioral health and social services. The core focus of the program is practical training and service learning experiences.

Program Notes: Students must earn a grade of C or better in all courses within the program.

This program also is offered at South Mountain Community College.

Prerequisites: None.

Required Courses: (18 credits)	Credits
BHS150	Introduction to Behavioral Health and Social Services
BHS155	Professional Resiliency and Well-Being
BHS160	Ethical, Legal and Professional Issues in Behavioral Health and Social Services
BHS165	Applied Therapeutic Communication Skills
BHS170	Case Management and Clinical Documentation
BHS180	Child, Family, and Adult Advocacy

Behavioral Health Sciences General Information

Field of Interest: Behavioral Science and Human Services

For Information: Dr. Thomas Rojo Aubrey

Phone: 623.845.3212

Behavioral Sciences is designed to provide students with a comprehensive study of human behavior and prepare them to assist, as part of a clinical team, in the care of individuals and families dealing with mental illness, addictions and substance use, trauma, developmental disabilities, comorbid medical conditions, and challenging behaviors. The Behavioral Health Sciences curriculum provides a strong foundation for students who plan to pursue advanced degrees in mental health, social services, or a related field.

A Behavioral Health Sciences degree and certificate provides students with the knowledge and skills to work in the field while they continue higher-level education. Our transfer partnerships with state and private universities allow BHS students to transfer 67-90 credits towards a bachelor's degree in:

Behavioral Health Sciences	Psychology	Substance abuse counseling
Counseling	Sociology	Technical Education
Human Services	Social work	

The BHS program offers the following certifications and degree:

CCL in Basic Behavioral Health Sciences

CCL in Advanced Behavioral Health Sciences

AAS in Behavioral Sciences

Industry certifications offered in the BHS program include:

BHS 150 = Mental Health First Aid (National Council for Behavioral Health)

BHS 155 = Certified Psychological and Emotional Resilience Professional (International Trauma Institute)

BHS 155 = Approved Distance Learning (13.5 CEU hours) by The Arizona Peace Officer Standards and Training Board (AzPOST.gov)

BHS 175 = Certified Trauma Support Specialist (Trauma Institute International)

BHS 190 = Nonviolent Crisis Intervention (Crisis Prevention Institute)

BHS 205 = Registered Behavior Technician (Behavior Analyst Certification Board) - in process

BHS 230 = Applied Suicide Intervention Skills Training (LivingWorks)

BHS 230 = safeTALK (Living Works)

BHS 235 = Psychological First Aid (The National Child Traumatic Stress Network)

Upon completion of an associate or bachelor's degree, students may pursue a career as a(n):

ABA Therapist

Case Aid

ACT Specialist

Child Care Worker/Child Welfare

Behavior Coach

Crisis Specialist

Behavior Analyst

Crisis Transition Navigator

Behavioral Health Technician

Crisis Hotline

Behavior Management Specialist

Direct Care Staff

Birth to five Mental Health Specialist

Family Advocate

Child Development Specialist

Family Support Partner

Care Manager/Case manager

High Needs Case Management

Human Services Worker
Independent Living Specialist
Mental Health Intake Specialist
Mental Health Provider
Parent Aid
Parent Support Partner
Peer Support Specialist
Psychiatric Aide/Attendant/Technician
Psychological Stress Evaluator
Psychosocial Rehabilitation Specialist
Recovery Support Specialist
Rehabilitation Specialist
Respite Care Worker
Social Service Aid
Social Work
Substance Abuse Counselor
Youth Advocate
Youth Mentor
Victims' Advocate

Behavioral Sciences AAS 3067

Associate in Applied Science - 63-71 credits

Field of Interest: Behavioral Science and Human Services

For Information: Dr. Thomas Rojo Aubrey

Phone: 623.845.3212

<https://www.gccaz.edu/counseling>

Program Description: The Associate in Applied Science (AAS) in Behavioral Sciences is designed to provide students with a comprehensive study of human behavior and prepare them to assist, as part of a clinical team, in the care of individuals and families dealing with mental illness, addictions and substance use, trauma, developmental disabilities, comorbid medical conditions, and challenging behaviors. The program includes courses designed to provide students with the skills necessary to deliver specialized and comprehensive behavioral health and social services. This program is university-transferable and provides preparation for industry certifications and supervised field experience.

Program Notes: Students must earn a grade of C or better in all courses within the program.

Students should select restricted electives in one of the following specializations:

Trauma and Crisis Stabilization

Infant and Early Childhood Mental Health

Addiction and Substance Use Disorders

Developmental Disabilities

Criminal Justice and Forensic Science

Mental Health

This program also is offered at South Mountain Community College.

Program Prerequisites: None.

Required Courses: (35-37 credits)

		Credits
BHS150	Introduction to Behavioral Health and Social Services	3
BHS155	Professional Resiliency and Well-Being	3
BHS160	Ethical, Legal and Professional Issues in Behavioral Health and Social Services	3
BHS165	Applied Therapeutic Communication Skills	3
BHS170	Case Management and Clinical Documentation	3
BHS180	Child, Family, and Adult Advocacy	3
BHS175	Introduction to Trauma-Informed Care and Trauma-Focused Caregiving	3
BHS185	Cultural Competency in Behavioral Health Services	3
+ BHS190	Professional Portfolio: Supervised Practice In Behavioral Health and Social Services	1
BHS205	Therapeutic Models and Interventions in Individual Therapy.....	3
BHS210	Addictions, Substance Use Disorders, and Relapse Prevention	3
BHS215	Therapeutic Models and Intervention in Group Therapy	3
FYE101	Introduction to College, Career and Personal Success (1) OR	
FYE103	Exploration of College, Career and Personal Success (3).....	1-3

Restricted Electives: (6 credits)

Students must choose six credits from one of the following specializations:

Specialization 1: Trauma and Crisis Stabilization

		Credits
BHS230	Crisis and Trauma Stabilization	3

BHS235	Emergency Mental Health Crisis Response and Recovery	3
--------	--	---

Specialization 2: Infant and Early Childhood Mental Health

BHS275	Infant and Early Childhood Mental Health (3)	3
CFS177	Parent-Child Interaction (3) OR	

BHS272	Child and Adolescent Mental Health and Interventions	3
--------	--	---

CFS235	Developing Child: Theory into Practice, Prenatal to Age Eight	3
--------	---	---

+ EED210	Creative and Cognitive Play	3
----------	-----------------------------------	---

(If EED210 is selected, CFS235 will need to be selected unless another requisite option has been met.)

Specialization 3: Addiction and Substance Use Disorders

ASD110	Pharmacology of Substances of Abuse and Dependency	3
--------	--	---

ASD245	Co-Occurring Disorders (2)	
--------	----------------------------	--

AND

ASD120	Professional Ethics in Addictions and Substance Use Disorder (1) OR	
ASD145	AIDS and Addiction (1)	3

BHS251	Harm Reduction in Addiction, Substance Use, and Social Services	3
--------	---	---

Specialization 4: Developmental Disabilities

BHS271	Developmental Disabilities Assistance Training	3
--------	--	---

+ PSY 241	Understanding and Changing Behavior	3
-----------	---	---

+ PSY 243	The Psychology of Developmental Disabilities	3
-----------	--	---

Specialization 5: Criminal Justice and Forensic Science

+ PSY 267	Introduction to Forensic Psychology	3
-----------	---	---

AJS101	Introduction to Criminal Justice (3) OR	
--------	---	--

AJS200	Current Issues In Criminal Justice (3) OR	
--------	---	--

AJS225	Criminology (3)	3
--------	-----------------------	---

Specialization 6: Mental Health

BHS230	Crisis and Trauma Stabilization (3) OR	
--------	--	--

BHS235	Emergency Mental Health Crisis Response and Recovery (3)	3
--------	--	---

BHS251	Harm Reduction in Addiction, Substance Abuse and Social Services	3
--------	--	---

BHS255	Health and Wellness Coaching in Professional Resiliency	3
--------	---	---

BHS262	Behavioral Health Service Techniques for the Elderly	3
--------	--	---

BHS266	Violence and Abuse Services	3
--------	-----------------------------------	---

BHS269	Grief Support Techniques	3
--------	--------------------------------	---

BHS271	Developmental Disabilities Assistance Training	3
--------	--	---

BHS272	Child and Adolescent Mental Health and Interventions	3
--------	--	---

BHS275	Infant and Early Childhood Mental Health	3
--------	--	---

CPD180	Human Resilience: Cognitive, Emotional, and Behavioral Applications	3
--------	---	---

+ PSY 266	Psychological Disorders	3
-----------	-------------------------------	---

General Education: (22-28 Credits)

General Education Core: (12-18 credits)

Credits

First-Year Composition:		6
--------------------------------	--	---

+ ENG101	First-Year Composition (3) OR	
----------	-------------------------------	--

+ ENG107	First-Year Composition for ESL (3)	
----------	------------------------------------	--

AND

+ ENG102	First-Year Composition (3) OR	
+ ENG108	First-Year Composition for ESL (3) OR	
+ ENG111	Technical and Professional Writing (3)	
ENG102 or ENG108 recommended for students considering pursuing a bachelor's degree at an Arizona university.		
Oral Communication:		
COM100	Introduction to Human Communication (3) OR	3
COM110	Interpersonal Communication (3) OR	
+ COM225	Public Speaking (3) OR	
COM230	Small Group Communication (3)	
Critical Reading:		
+ CRE101	College Critical Reading and Critical Thinking (3) OR	0-3
Equivalent as indicated by assessment. (o)		
Mathematics:		
+ MAT112	Mathematical Concepts and Applications (3) OR	3-6
Satisfactory completion of a higher-level mathematics course (3-6)		
MAT142	College Mathematics or	
MAT151	College Algebra/Functions recommended for those planning to transfer.	
General Education Distribution: (10 credits)		
Humanities, Arts and Design:		
Any approved general education course from the Humanities, Arts and Design area.		
+ HCR210	Clinical Health Care Ethics recommended.	3
Social-Behavioral Sciences:		
PSY101	Introduction to Psychology	3
Natural Sciences:		
Any approved general education course from the Natural Sciences area.		
Recommended:		
+ PSY275	Biopsychology (suggested) (4) OR	
+ BIO156	Introductory Biology for Allied Health (4) OR	
BIO160	Introduction to Human Anatomy and Physiology (4) OR	
FON241	Principles of Human Nutrition (3) AND	
+ FON241LL	Principles of Human Nutrition Laboratory (1)	
Biology General Information		
Field of Interest: Science, Technology, Engineering, and Mathematics		
For Information: Karen Conzelman, karen.ann.conzelman@gccaz.edu		
Phone: 623.845.3612		
https://www.gccaz.edu/biology		
Student Goals: Career-related, General Education, Transfer		
The primary focus of biology is the study of life. This field includes all living organisms from the smallest bacterium to the largest and most complex plants and animals. The critical role that scientists play in helping us to better understand natural phenomena like climate change and disease means that it is as important as ever for everyone to have a basic knowledge of biology and the process of scientific inquiry. It is only with this foundation that we can evaluate the credibility of information, understand new technology and its impact on all aspects of our society, and make personal choices that best serve us now and in the future.		
Students typically take biology courses to:		

- Provide the needed foundation for careers in fields such as nursing, medicine, health, human services, nutrition, physical education, agriculture, and forestry. Pre-Nursing students must complete several prerequisite biology courses before applying for admission to the nursing program. Similarly, as described in the Pre-Health section of this catalog, biology is one of many science courses required for admission to other professional programs in the health fields (such as, Pre-Med, Pre-Dental, Pre-Pharmacy).
- Meet requirements for a major in biology (or related field) at a four-year institution. Students can complete the first half of their bachelor's degree in Biology at Glendale Community College (GCC). Careful planning can enable students to transfer seamlessly to the university. The guided pathway leading to an Associate in Science, Emphasis in Biological Sciences provides an academic planning framework for students intending to transfer to an Arizona university: <https://www.maricopa.edu/degrees-certificates/science-technology-engineering-mathematics/associate-science-emphasis-biological-sciences-8602-as> This program of study also aligns with the admission requirements of professional programs in many health-related fields like medicine, dentistry, and pharmacy. (For additional information, see the Pre-Health information provided elsewhere in this catalog).
- Prepare for careers in the field of biotechnology. GCC offers an Associate in Applied Sciences (AAS) degree in Biotechnology and Molecular Biosciences: <https://www.gccaz.edu/degrees-certificates/science-technology-engineering-and-mathematics/biotechnology-and-molecular-biosciences-3034-aas> that is aligned with unique partnership with Arizona State University (ASU) West campus. This program of study leads to students earning both their AAS and a Bachelor of Applied Science (BAS) in Biology with a concentration in Cell and Molecular Biology Research: <https://www.gccaz.edu/stem/asuwbio> Students accepted into this program take courses concurrently at ASU West and GCC.
- Fulfill a General Education requirement in Natural Sciences for their associate and/or bachelor's degree in non-STEM majors like business, computer information systems, elementary education, and the arts. BIO101, BIO102, BIO105, BIO145, and BIO160 are intended primarily for such non-major students, and all have Arizona General Education Curriculum (AGEC) designations [SQ or SG].

Biomedical Equipment Technology CCL 5985

Certificate of Completion - 26-36 credits

Field of Interest: Science, Technology, Engineering, and Mathematics

For Information:

Phone:

Program Description: The Certificate of Completion (CCL) in Biomedical Equipment Technology program introduces students to the technical knowledge and skills needed for entry level positions troubleshooting, repairing, and maintaining biomedical equipment used by hospitals, clinics, home healthcare providers, and medical device manufacturers and repair companies. Coursework includes the study of electronics, networking, information security, human anatomy and physiology, regulatory, and healthcare delivery systems.

Program Notes: Students must earn a grade of C or better for each course in the program.

Prerequisites: None.

Required Courses: (26-36 credits)		Credits
BIO160	Introduction to Human Anatomy and Physiology	4
BME101	Introduction to Biomedical Equipment Technology	3
CIS105	Survey of Computer Information Systems (3)	
AND		
+ CIS190	Introduction to Networking (3) OR	
CNT140AB	Introduction to Networks (4)	4-6

+ ELE111	Circuit Analysis I.....	4
+ ELE121	Solid-State Devices and Circuits I	4
+ ELE131	Digital Logic and Circuits	3
HCC130	Fundamentals in Health Care Delivery	3
HCC145	Medical Terminology for Health Care Professionals (3) OR	
HCC145AA	Medical Terminology for Health Care Professionals I (1)	1-3
MAT120	Intermediate Algebra(5) OR	
MAT121	Intermediate Algebra(4) OR	
MAT122	Intermediate Algebra(3) OR	
MAT125	Intermediate Algebra(5) OR	
MAT126	Intermediate Algebra with Review (6) OR	
Permission of Program Director (o).....		0-6

Biotechnology and Molecular Biosciences AAS 3034

Associate in Applied Science - 63-72 credits

Field of Interest: Science, Technology, Engineering, and Mathematics

For Information: James Tuohy

Phone: 623.845.3845

<https://www.gecaz.edu/biology>

Program Description: The Associate in Applied Science (AAS) in Biotechnology and Molecular Bio sciences program is designed to give entry-level laboratory technicians skills for application in academic, industrial and commercial research institutions. The exposure to an academic environment that simulates the contemporary biotechnological workplace, inclusive of analytical, critical thinking and problem-solving skills, provides the opportunity to form a strong technical foundation typically sought by employers. The successful completion of the program may also provide the educational background for those wishing to pursue a career in the pharmaceutical industry, clinical laboratory medicine, forensics or environmental testing laboratories and/or a foundation for a student wishing to continue their education at a university.

Program Notes: Students must earn a grade of C or better for each course listed in the Required Courses and Restricted Electives area.

Prerequisites: None.

Required Courses: (45-48 credits)

		Credits
ABS/BIO173	Basic Instrumentation and Lab Math	1
ABS/BIO175	Research Methods in Biology	1
+ BIO181	General Biology (Majors) I (4) OR	
+ BIO181XT	General Biology (Majors) I (4)	4
+ BIO195AA	Principles and Practice of Scientific Research	1
+ BIO205	Microbiology	4
+ BIO208	Nucleic Acid Methods	3
+ BIO209	Biomolecular Separation	3
+ BIO210	Advanced Lab Instrumentation	3
BIO211AA	Biotechnology Seminar: Biomedical Applications (1) OR	
+ BIO211AB	Biotechnology Seminar: Laboratory Protocol(1) OR	

BIO211AE	Biotechnology Seminar: Business and Regulatory Issues (1)	1
FY E101	Introduction to College, Career and Personal Success (1) OR	
FY E103	Exploration of College, Career and Personal Success (3).....	1-3
Select four credits of internship/research from the following. BIO215AB and BIO295AB may be repeated for credit.		
+ BIO215AB	Biotechnology Internship	2
+ BIO295AB	Independent Research in Biology	2
+ BIO/CSC283	Bioinformatics and Scientific Computing	3

General Education Requirements: (18-24 Credits)

General Education Core: (12-18 credits)	Credits
First-Year Composition:	6
+ ENG101 + ENG107 AND + ENG102 + ENG108	First-Year Composition (3) OR First-Year Composition for ESL (3) First-Year Composition (3) OR First-Year Composition for ESL (3) OR
Oral Communication:	3
COM100 COM110 + COM225 COM230 COM230 recommended.	Introduction to Human Communication (3) OR Interpersonal Communication (3) OR Public Speaking(3) OR Small Group Communication (3)
Critical Reading:	0-3
+ CRE101 College Critical Reading and Critical Thinking(3) OR Equivalent as indicated by assessment.	
Mathematics:	3-6
+ MAT150 + MAT151 + MAT152 + MAT155 + MAT156	College Algebra/Functions(5) OR College Algebra/Functions(4) OR College Algebra/Functions(3) OR College Algebra/Functions with Review(5) OR College Algebra/Functions with Review(6) OR

Satisfactory completion of higher level Mathematics course.

General Education Distribution: (6 credits)		Credits
Humanities, Arts and Design:		3
PHI105	Introduction to Ethics (3) OR	
PHI213	Medical and Bio-Ethics (3) OR	
PHI216	Environmental Ethics (3)	
Social-Behavioral Sciences:		3
Any approved general education course from the Social-Behavioral Sciences area.		
Natural Sciences:		0
Met by BIO181 OR BIO181XT in Required Courses area.		

Business Administration Fastrack CCL 5152

Certificate of Completion - 27 credits

Field of Interest: Business, Entrepreneurialism, and Management

For Information: Scott Stroher

Phone: 623.845.3453

<https://www.gccaz.edu/business>

Program Description: The Certificate of Completion (CCL) in Business Administration Fastrack program provides opportunities for individuals to update, upgrade, or develop essential business skills. The program's focus is preparing students for job advancement and career opportunities in today's business environment as defined by industry practitioners. Each course includes learning activities and projects which may be offered in an accelerated five-week or eight-week format. Additional features of the program include: student directed learning stressing the dynamic business environment, communication skills, leadership development, and performing effectively within a team environment.

Program Notes: Students must earn a grade of C or better in all courses in the program.

This program also is offered at Scottsdale Community College.

Program Prerequisites: None.

Required Courses: (27 credits)		Credits
ACC110	Understanding and Using Accounting Systems (3) OR	
ACC111	Accounting Principles I (3)	3
BPC110	Computer Usage and Applications (3) OR	
CIS105	Survey of Computer Information Systems (3)	3
GBS120	Workplace Communication Skills	3
GBS151	Introduction to Business	3
GBS205	Legal, Ethical, and Regulatory Issues in Business	3
MGT126	Customer Service Skills and Strategies	3
MGT175	Business Organization and Management	3
MGT251	Human Relations in Business	3
MKT271	Principles of Marketing.....	3

Business and Information Technology General Information

Field of Interest: Computer and Information Technology

For Information: Scott Stroher

Phone: 623.845.3453

<https://www.gccaz.edu/business>

University Transfer Program

Associate in Business, General Requirements: Purpose of the Degree

The Associate in Business, General Requirements (ABUS-GR) degree is designed for students who plan to transfer to four-year colleges and universities. In general, the components of this degree meet requirements for the various business majors at Arizona's public universities except Business Computer Information Systems (CIS). Business CIS majors should follow the Associate in Business, Special Requirements (ABUS-SR) pathway, instead. Generally, the degree transfers as a block without loss of credit to Arizona's public universities and other institutions with district-wide articulation agreements. In most cases, courses used to satisfy the ABUS-GR will apply to university graduation requirements of the university major for which the ABUS-GR was designed.

Associate in Business, Special Requirements: Purpose of the Degree

The ABUS-SR degree is designed for students who plan to transfer to four-year colleges and universities. In general, the components of this degree meet requirements for Business CIS majors at Arizona's public universities. Other Business majors should follow the ABUS-GR pathway instead. Generally, the degree transfers as a block without loss of credit to Arizona's public universities and other institutions with district-wide articulation agreements. In most cases, courses used to satisfy the ABUS-SR will apply to university graduation requirements of the university major for which the ABUS-SR was designed.

Business and Personal Computers General Information

Field of Interest: Computer and Information Technology

For Information: Kara Kujawa

Phone: 623.845.3997

<https://www.gccaz.edu/business>

Student Goals: Personal, Career-related

These eCourses and traditional structured courses designed to develop skills in using IBM and Macintosh microcomputers and their related software. Students take these courses:

For personal development of microcomputer skills. Beginning courses are available, such as BPC101 Introduction to Computers, BPC110 Computer Usage and Applications, and BPC111AA Computer Keyboarding I and BPC111AB Computer Keyboarding II. Students may wish to continue in more advanced courses.

To Prepare for or Enhance Employment. Both an Associate in Applied Science degree program and a Certificate of Completion (CCL) program are available. With proper choices, a student who completes a CCL may apply all those courses toward the associate degree program. For either program, students should consult with a Department Advisor to plan their academic schedules.

Required courses may not be available every semester and degree-seeking or transfer students should consult with a Department Advisor in planning their academic schedule in order to complete degree requirements in an expedient manner.

For more information and course availability on Business and Personal Computers programs, visit
<https://www.gccaz.edu/business>.

CAD Application CCL 5410N

Certificate of Completion - 12-37 credits

This program is not eligible for Title IV Federal Financial Aid

Field of Interest: Applied Technology

For Information: Glenda Chagolla

Phone: 623.845.3699

<https://www.gccaz.edu/consumer-sciences>

Program Description: The Certificate of Completion (CCL) in CAD Application program is designed to broaden students' design exposure and Computer-Aided Design (CAD) technology skills. Students will utilize industry standard CAD and building information modeling (BIM) software to produce three-dimensional (3D) drawings and parametric models. This will include presentation methods and construction documentation conventions for either the architecture or civil design fields. Students may apply these courses toward the Associate in Applied Science (AAS) degree in Architectural and Civil CAD Technology.

Program Notes: Students must earn a grade of C or better for each course listed in the program.

Program Prerequisites: None.

Required Courses: (6-31 credits)		Credits
CAD100	Fundamentals of 2DAutoCAD(3) AND	
+ CAD101	Elements of CAD Graphics (AutoCAD) (3) AND	
+ CAD145	Design Principles for Industry (3) AND	
+ CAD201	Three-Dimensional (3D) Modeling and Advanced CAD Techniques (3) AND	
+ CAD105	Fundamentals of Revit Architecture (3) OR	
+ CAD106	Fundamentals of Civil 3D (3) AND	
+ CAD292	Current Developments in CAD Technology (1) OR Permission of Program Director based on equivalent industry experience. (o)	0-16

Students must complete one of the following math requirements:

+ DFT106	Algebra and Graphs for Design Technology (3)	
AND		
+ DFT107	Trigonometry and Analytic Geometry for Design Technology (3) OR	
+ MAT150	College Algebra/Functions (5) OR	
+ MAT151	College Algebra/Functions (4) OR	
+ MAT152	College Algebra/Functions (3) OR	
+ MAT155	College Algebra/Functions with Review (5) OR	
+ MAT156	College Algebra/Functions with Review (6)	
AND		
+ MAT182	Plane Trigonometry (3) OR	
+ MAT187	Precalculus (5) OR	
Permission of Program Director based on equivalent industry experience. (o).....		0-9
+ CAD167	Architectural Drawings I (Revit): Residential CAD (3) OR	
+ CAD186	Site Development I (3)	3
+ CAD267	Architectural Drawings II (Revit): Commercial CAD (3) OR	
+ CAD286	Site Development II (3)	3

Restricted Electives: (6 credits)		Credits
BLT263++	Any Building Codes course	3
+ CAD167	Architectural Drawings I (Revit): Residential CAD	3
+ CAD186	Site Development I	3
+ CAD235	Modeling, Rendering and Animation for Technical Presentations	3
+ CAD267	Architectural Drawings II (Revit): Commercial CAD	3
+ CAD286	Site Development II	3
+ CAD287	Advanced Revit Techniques	3
+ CAD292	Current Developments in CAD Technology (1)	1-3
(CAD292 may be repeated up to three times on different topics.)		
CAD++++	Any other CAD Computer-Aided Drafting course(s)	1-3
CET211	Strength of Materials	3

CAD Fundamentals CCL 5409

Certificate of Completion - 16 credits

Field of Interest: Applied Technology

For Information: Glenda Chagolla

Phone: 623.845.3699

<https://www.gecaz.edu/consumer-sciences>

Program Description: The Certificate of Completion (CCL) in CAD Fundamentals program is designed to provide students with the Computer-Aided design (CAD) skills and competence in two-dimensional (2D) and three-dimensional (3D) documentation and modeling typical of entry level CAD operators. Students may apply these courses toward the Associate in Applied Science (AAS) degree in Architectural and Civil CAD Technology.

Program Notes: Students must earn a grade of C or better for all courses within the program.

Program Prerequisites: None.

Required Courses: (16 credits)		Credits
CAD100	Fundamentals of 2D AutoCAD	3
+ CAD101	Elements of CAD Graphics (AutoCAD)	3
+ CAD145	Design Principles for Industry	3
+ CAD201	Three-Dimensional (3D) Modeling and Advanced CAD Techniques	3
+ CAD105	Fundamentals of Revit Architecture (3) OR	
+ CAD106	Fundamentals of Civil 3D (3)	3
+ CAD292	Current Developments in CAD Technology	1

Chemistry General Information

Field of Interest: Science, Technology, Engineering, and Mathematics

For Information: Debbie Leedy

Phone: 623.845.4770

<https://www.gecaz.edu/chemistry>

Student Goals: General Education, Career-related, Transfer

Chemists study the behavior of substances, and create new or improved materials for special purposes: faster semiconductor circuits, new drugs, and new personal care products to name a few. They use their knowledge to study the complex chemistry of living systems vital to research efforts in the field of medicine. They also analyze samples for trace elements in fields such as forensic science, medical labs, and environmental chemistry. And sometimes, they engage in pure research that just might lead to an unexpected discovery!

Students studying chemistry often find employment in a variety of related fields: medicine, pharmacy, industrial safety, engineering, geology, environmental science, and biology; as well as in education or the traditional chemistry lab. There is a continuing demand for BS, MS, and PhD chemists in business, government, and industry. Although the Phoenix area has some positions in medical labs, government labs, and the semiconductor industry; opportunities for local employment are somewhat limited. The national picture is more encouraging.

Transfer Program: Students intending to major in chemistry should regard this program as a guide for preparing to transfer to a baccalaureate degree granting institution. The program is designed to generally parallel the first two years of coursework required by most four-year institutions. For individual requirements at specific institutions, the student should refer to the Chemistry Department website or consult with a Chemistry Department Advisor.

Transferability: All 100-level and above courses transfer.

Students should consult with a Department Advisor in planning their academic schedule in order to complete degree requirements in an expedient manner. Required courses may not be available every semester. Due to limited course offerings, degree seeking students may find it necessary to attend both day and evening classes.

Special Skill Levels Needed: College level reading and writing skills. MAT120 Intermediate Algebra or MAT122 Intermediate Algebra or the equivalent of four years high school math.

Departmental Recommendations for Chemistry Majors:		Credits
+ CHM150	General Chemistry I	4
+ CHM151	General Chemistry I	3
+ CHM151LL	General Chemistry I Laboratory	1
+ CHM152	General Chemistry II	3
+ CHM152LL	General Chemistry II Laboratory	1
+ CHM235	General Organic Chemistry I	3
+ CHM235LL	General Organic Chemistry I Laboratory.....	1
+ CHM236	General Organic Chemistry II.....	3
+ CHM236LL	General Organic Chemistry II Laboratory.....	1

Other Recommendations:		Credits
+ MAT220	Calculus with Analytic Geometry I	5
+ MAT230	Calculus with Analytic Geometry II	5
+ MAT241	Calculus with Analytic Geometry III.....	4
+ MAT262	Differential Equations.....	3
+ PHY 115*	University Physics I.....	5
+ PHY 116*	University Physics II.....	5

*Student should take PHY111 and PHY112, General Physics, if transferring to the University of Arizona.

General Education Recommendations:

Individual universities may require foreign language. Others accept computer literacy to fulfill the language requirement. In any case, computer courses are strongly recommended.

Chicana and Chicano Studies - AC 6230N

Academic Certificate 12-13 credits

This program is not eligible for Title IV Federal Financial Aid

Field of Interest: Culture and Society

For information: Guiomar Borras

Phone: 623.845.3636

<https://www.gccaz.edu/communication>

Program Description: The Academic Certificate (AC) in Chicana and Chicano Studies explores the unique experiences of the Chicana and Chicano people living in the Southwest. The Certificate provides a study of Mexican-American life in the society of the United States, including Mexican background, social and cultural differences, and experiences of assimilation.

Program Notes: Students must earn a grade of C or better for all courses within the program.

This program also is offered at Chandler-Gilbert and Phoenix Community Colleges.

Program Prerequisites: Credits: 3-6	Credits
+ ENG101	First-Year Composition (3) OR
+ ENG107	First-Year Composition for ESL (3)
+ CRE101	College Critical Reading and Critical Thinking (3) OR

Equivalent as indicated by assessment. 0-3

Required Courses: Credits: 9		Credits
+ CCS101	Chicana and Chicano Studies	3
HIS109	Mexican-American History and Culture	3
SPH245	Hispanic Heritage in the Southwest	3

Restricted Electives: Credits: 3-4		Credits
ENH112	Chicano Literature	3
HIS145	History of Mexico	3
HUM213	Hispanic Film	3
SPA101	Elementary Spanish I	4
+ SPA102	Elementary Spanish II	4
+ SPA103	Elementary Spanish for Spanish Speakers I	4
+ SPA104	Elementary Spanish for Spanish Speakers II	4
+ SPA201	Intermediate Spanish I	4
+ SPA202	Intermediate Spanish II	4
+ SPA203	Spanish for Spanish-Speaking Students I	4
+ SPA204	Spanish for Spanish-Speaking Students II	4

Child and Family Organizations Management and Administration CCL 5401

Certificate of Completion - 16 credits

Field of Interest: Behavioral Science and Human Services

For Information: Gina Weatherly

Phone: 623.845.3194

<https://www.gccaz.edu/consumer-sciences>

Program Description: The Certificate of Completion (CCL) in Child and Family Organizations Management and Administration is designed to prepare individuals to enter the family life education, human development, early childhood settings, or child and family organizations field at the paraprofessional level. Students at a paraprofessional level may seek employment opportunities within management and administration of programs such as: early childhood settings, adoption and foster care, adult day care centers, crisis intervention programs, group and halfway houses, hospice care, senior citizen centers, social service agencies (both private and State/local government), facilities for the disabled and developmentally challenged individuals, community mental health clinics, psychiatric facilities, shelters, and other child and family, community-based organizations.

Program Notes: Students must earn a grade of C or better in all courses within the program.

For some occupations within this field, students may be required to have a current Identity Verified Print (IVP) Fingerprint Clearance Card and a current tuberculosis (TB) vaccination. Please consult with your faculty mentor to discuss these and other occupational requirements.

This program also is offered at Rio Salado Community College.

Program Prerequisites: None.

Required Courses: (16 credits)		Credits
CFS206	Child and Family Organizations: Management and Administration	3
CFS207	Organization and Community Leadership in Child and Family Organizations	3
CFS208	Child and Family Organizations: Fiscal Management and Grant Writing	3
CFS209	Child and Family Organizations: Project Management	3
+ FCS250	Portfolio Development and Professional Writing	3
+ FCS260	Family and Consumer Science Internship	1

Cisco Certified Network Professional: Enterprise CCL 5190

Certificate of Completion - 16 credits

This program currently is not eligible for Title IV Federal Financial Aid

Field of Interest: Computer and Information Technology

For Information: Andrea Schauer

Phone: 623.845.3502

<https://www.gccaz.edu/consumer-sciences>

Program Description: The Certificate of Completion (CCL) in Cisco Certified Network Professional: Enterprise builds the advanced knowledge and skills needed for professional-level networking technologies and architecture. This CCL includes fundamental concepts of virtualization, network assurance, security, automation, and the implementation and troubleshooting of advanced routing technologies; as well as hands-on opportunities to apply these concepts to real-world applications. Students with the requisite experience in the field who complete this CCL can pursue employment in a variety of information technology jobs. This CCL also helps to prepare students for the Cisco Enterprise Network Core Technologies (ENCOR) certification and Implementing Cisco Enterprise Network Advanced Routing and Services (ENARSI) exams aligned with the Cisco Certified Network Professional Enterprise (CCNP Enterprise), Cisco Certified Internetwork Expert (CCIE) Enterprise Infrastructure, CCIE Enterprise Wireless, and Cisco Certified Specialist - Enterprise core, CCNP Enterprise, Cisco Certified Specialist - Advanced Infrastructure Implementation certifications.

Additional CCLs in Cisco Certified Network Security (CCNA Security), Cisco Certified Network Professional: Enterprise Core, Cisco Certified Network Professional: Enterprise Advanced Routing and Services, Cisco Network Administration: CCNP, as well as an Associate in Applied Science (AAS) in Network and Systems Administration, are also available.

Program Notes: Students must earn a grade of C or better for all courses required within the program.

This CCL is intended for industry professionals with the requisite skills aligned with the Cisco Certified Network Associate (CCNA) industry certification who are interested in expanding their knowledge in the area in professional-level networking or to enhance their employment opportunities. Speak to a Program Director for additional information.

All courses within the Required Courses area are not applicable if taken more than five years prior to the completion of the program. Consult with an Academic Advisor or Program Director for exceptions.

Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.¹

This program also is offered at Chandler-Gilbert, GateWay, Mesa, Scottsdale, and South Mountain Community Colleges.

Admission Criteria: This Certificate of Completion is intended for industry professionals with the requisite experience. To pursue this CCL, students must complete the following prerequisites to the courses within the Required Course area as follows with a C or better OR have a Cisco Certified Network Associate (CCNA) industry certification OR receive permission of the Program Director:

CNT140AB	Introduction to Networks	4
+ CNT150AB	Switching, Routing, and Wireless Essentials	4
+ CNT160AB	Enterprise Networking, Security, and Automation	4

Students also have the option to complete the full CCL in this program, Cisco Network Administration: CCNP (major code 5037), that includes the prerequisites and required course:

Program Prerequisites: None.

Required Courses: (16 credits)

		Credits
+ CNT240	Cisco Certified Network Professional: Enterprise Core (8) OR

Cisco Network Administration and Security CCL 5036

Certificate of Completion - 16-19 credits

Field of Interest: Computer and Information Technology

For Information: Andrea Schauer

Phone: 623.845.3502

<https://www.gccaz.edu/consumer-sciences>

Program Description: The Certificate of Completion (CCL) in Cisco Network Administration and Security provides training for those interested in working with Cisco network and Internet hardware with a particular emphasis on securing networks from threats and vulnerabilities. Knowledge and skills are developed to install, configure, and maintain Cisco routers and switches; configure routing protocols, and Local Area Networks (LANs); troubleshoot problems with various hardware and software configurations; perform administrative tasks in a network. Specific skills in maintaining integrity, accountability, and confidentiality of data are also developed. Taught by Cisco Certified professionals using the Cisco Network Academy program curriculum, courses are designed to help prepare students for the Cisco Certified Network Associate (CCNA) and Security examinations. Students who complete this program may seek employment in a variety of environments. An additional CCL in Cisco Certified Network Professional (CCNP), as well as an Associate in Applied Science (AAS) in Network and Systems Administration, are also available.

Program Notes: Students must earn a grade of C or better in all courses within the program.

Students who pursue this CCL should have a basic level of computer literacy including navigating the internet and computer systems or take CIS105 as indicated in the required courses. Students with the requisite skills may have the CIS105 requirement waived by permission of the Program Director.

Required courses and restricted electives must be taken within five years prior to completion of the program to be applied toward this award.

Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.¹

This program also is offered at Chandler-Gilbert, Estrella Mountain, GateWay, Mesa, Paradise Valley, Scottsdale, and South Mountain Community Colleges.

Commercial and Freelance Photography CCL 5784

Certificate of Completion - 35-36 Credits

Field of Interest: Visual and Performing Arts

For Information: Stephanie Lucas

Phone: 623.845.3755

<https://www.gccaz.edu/art-humanities>

Program Description: The Certificate of Completion (CCL) in Commercial Photography program (Commercial and Freelance Photography¹) includes the study of both the digital and film aspects of photography. The program is structured to help students develop an understanding of exposure principles, camera operations and functions, digital photographic materials, film-based strategies, studio lighting, and the basics of running a freelance photography business. This certificate is designed to provide knowledge and experience important to those hoping to work as freelance photographers, wedding photographers, commercial photographers, photography editors, photography assistants, or photo lab technicians. An Associate in Applied Science (AAS) in Photography is also available.

Program Notes: Students must earn a grade of C or better for all courses required within the program.

There will be costs for supplies and equipment in this program.

¹ indicates course has pre/corequisites. ++ indicates suffixed courses

This program also is offered at Phoenix College.

Program Prerequisites: None.

Required Courses: (27 credits)		Credits
ART100	Introduction to Digital Arts	1
ART112	Two-Dimensional Design	3
ART131	Photography I	3
+ ART132	Photography II	3
+ ART138	Commercial Photography I	3
+ ART140	Portrait Photography (3) OR	
+ ART237	Fashion Photography (3)	3
ART142	Introduction to Digital Photography	3
+ ART143	Intermediate Digital Photography	3
+ ENG101	First-Year Composition (3) OR	
+ ENG107	First-Year Composition for ESL (3)	3
SBS200	Small Business Operations	2

Restricted Electives: (8-9 credits)

Students must complete one of the two following specializations:

Specialization I: Freelance Photography - Credits: 8

SB204	Small Business Marketing and Advertising	2
-------	--	---

In consultation with Departmental Advisor, (an Advisor or Program Coordinator,¹⁾ choose two courses from the following list to best fulfill goals:

ARH115	History of Photography	3
ART116	Life Drawing I	3
ART137	Alternative Photographic Processes.....	3
ART139	Commercial Art Photography II.....	3
+ ART181	Graphic Design I	3
ART234	Color Photography I	3
ART255	Art Marketing.....	3
FMP108	Video Production	3

Specialization II: Commercial Photography - Credits: 8-9

+ ART139	Commercial Photography II	3
+ ART234	Color Photography I	3

In consultation with an Advisor or Program Coordinator, choose one course from the following list to best fulfill goals:

ARH115	History of Photography	3
ART116	Life Drawing I	3
ART137	Alternative Photographic Processes	3
+ ART181	Graphic Design I	3
ART255	Art Marketing	3
FMP108	Video Production	3
SB204	Small Business Marketing and Advertising	2

Commercial Real Estate CCL 5229N

Certificate of Completion - 7 credits

⁺ indicates course has pre/corequisites. ⁺⁺ indicates suffixed courses

This program is not eligible for Title IV Federal Financial Aid

Field of Interest: Business, Entrepreneurism, and Management

For Information: Scott Stroher

Phone: 623.845.3453

<https://www.gccaz.edu/business>

Program Description: The Certificate of Completion (CCL) in Commercial Real Estate is designed for additional preparation for the new agent or broker and to provide specialized professional development for the experienced professional agent or broker. The CCL includes a core of classes in the foundations of commercial real estate, ethics, and the required research and computational skills in the field. The program also offers the opportunity to explore specializations within the industry. A CCL in Real Estate: Prelicense (5139N) is also available.

Program Notes: Students must earn a grade of C or better for each course in the program.

This program also is offered by Mesa, Rio Salado, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: Students should have:

- an AZ real estate license OR
- completion of MCCC's CCL Real Estate: Prelicense (5139N) or its equivalent OR
- a real estate license from another state OR
- have completed pre licensure coursework from another approved Arizona real estate school.

Required Courses: (5 credits)

Credits

REA 205	Introduction to Commercial Real Estate	2
REA 208	Ethics in Commercial Real Estate	1
REA 211	Compliance in Commercial Real Estate.....	1
REA 214	Finance in Commercial Real Estate	1

Restricted Electives: (2 credits)

Credits

Students must select two of the following options:	
REA 220	Multiunit Properties in Commercial Real Estate.....
REA 225	Industrial Properties in Commercial Real Estate
REA 230	Land Properties in Commercial Real Estate.....
REA 235	Commercial Real Estate Essential Tools.....

Communication General Information

Field of Interest: Culture and Society

For Information: Dr. Doug Deiss

Phone: 623.845.3985

<https://www.gccaz.edu/communication>

Student Goals: General Education, Career-related, Bachelor of Science in Speech Communication with an Emphasis in Organizational Communication

The objectives of the Communication and World Languages Department are: to provide individual courses as electives in other programs; to satisfy requirements prescribed by programs in other areas; and to provide low division requirements for the NAU@GCC Bachelor of Science in Communication Studies; to provide lower-division courses for students who will transfer to other Arizona university Communication programs; and to provide second language learners opportunity to achieve oral communication fluency. Our courses are organized to meet practical needs of students, especially those individuals planning careers in the Human Service area. We encourage our students to participate in a very active speech and debate program as well as various other student activities. Glendale Community College's (GCC's) Communication

and World Languages Department is affiliated with the National Communication Association (NCA), Western States Communication Association, and is headquarters for the Southwest Communication Association (SWCA).

Bachelor of Science in Communication studies with an Emphasis in Organizational Communication (NAU@GCC)

That's correct, students may now receive their bachelor's degree without ever leaving GCC's campus. The Bachelor of Science Degree in Communication Studies is a joint offering between GCC and Northern Arizona University (NAU). Upon completion of the program, students receive their bachelor's degree from NAU. The Bachelor of Science Degree in Communication Studies with an Emphasis in Organization Communication provides a better understanding of how organizations work and helps students develop effective leadership skills by optimizing their communication. The program explores how communication takes place in relationships, within national and international organizations, in public forums, and between cultures. It is grounded in both rhetorical and experimental approaches to the study of human communication. This innovative program gives students the opportunity to study a common core of communication courses, to design part of their program to achieve individual goals, and to take part in a communication apprenticeship experience. Faculty and students work together to integrate the classroom, research, and service with the goal of improving communicative interactions. A recent national survey of college graduates with the majors or minors in Communication revealed that graduates hold positions in education, law, the ministry, sales and marketing, information services, public relations, advertisement, government, social services, industrial and labor relations, human resources, and fund raising. Other careers in mass communications include radio, TV, and film.

Communication Core: (6 credits)

Credits

COM100	Introduction to Human Communication.....	3
COM110	Interpersonal Communication	3

Speech Communication: (18 credits)

Glendale Community College Courses: (9 credits)

+ COM207	Introduction to Communication Inquiry	3
+ COM225	Introduction to Public Speaking	3
COM230	Small Group Communication	3

Upper Division NAU Courses taken at GCC: (9 credits)

CST 300W	Rhetorical Criticism	3
CST 311	Advanced Presentation Techniques	3
CST 498C	Senior Seminar in Speech Communication	3

Organizational Communication Emphasis: (24 credits)

Upper Division NAU Courses taken at GCC:(9 credits)

CST 312	Methods of Interviewing	3
CST 472	Organizational Communication	3
CST 477	Mediation and Conflict Management	3

Communication Electives taken at GCC: (15 credits)

COM222	Argumentation and Debate (GCC Course)	3
COM259	Communication in Business and the Professions (GCC Course)	3
COM263	Intercultural Communication (GCC Course)	3
CST 321	Nonverbal Communication (NAU Course)	3
CST 351	Interpersonal Communication (NAU Course)	3
CST 361	Persuasion (NAU Course)	3
CST 365	Communication in Contemporary Affairs (NAU Course)	3
CST 408	Fieldwork Experience (NAU Course)	1-12
CST 424	Gender and Communication (NAU Course)	3
CST 460	Rhetorical Theory (NAU Course)	3
CST 465	American Political Communication (NAU Course)	3
CST 475	Health Communication (NAU Course).....	3

Extended Major: (12 credits)

Students are required to take 12 hours of GCC courses in a concentrated area of study. Students should work in conjunction with the NAU advisor to determine these courses.

Bachelor of Arts/Bachelor of Science Communication Studies Transfer Guide

If you plan to complete your Communication degree at another Arizona institution, our department can help you. The Communication and World Languages Department's selection of Maricopa Community College coursework meets the Arizona General Education Curriculum (AGEC-A) as modified by MCCC and lower-division program requirements for a bachelor's degree in Communication, Speech Communication, and Communication Studies at any of Arizona's universities. Depending on the university to which you plan to transfer, the following courses may be recommended:

COM100	Introduction to Human Communication
COM110	Interpersonal Communication
+ COM207	Introduction to Communication Inquiry
+ COM222	Argumentation
+ COM225	Public Speaking
COM230	Small Group Communication
+ COM241	Oral Interpretation of Literature
COM250	Introduction to Organizational Communication
+ COM259	Communication in Business and Professions*
COM263	Intercultural Communication

*For non-communication majors. Meets the business requirement for accounting majors, media arts, music business, dance, and other disciplines.

Consult your Community College Advisor to ensure compliance. Students are responsible for checking all requirements and regulations at their transferring institution.

English Language Learner Course Concentration

The Communication and World Languages Department offers a series of courses for speakers of other languages. Through these offerings and an informal laboratory, international students can further their oral communication skills and achieve oral fluency. The aim of the program is that of achieving communication competence. Please consult the Communication and World Languages Department for more information concerning testing, course offerings, and available certificates.

Communication Competence in the Workplace AC 6219N**Academic Certificate - 30-33 credits**

This program is not eligible for Title IV Federal Financial Aid

Field of Interest: Culture and Society

For Information: Jim Reed

Phone: 623.845.3631

<https://www.gccaz.edu/communication>

Program Description: The Academic Certificate (AC) in Communication Competence in the Workplace is an interdisciplinary program of study that provides intensive study of written and oral communication skills in different contexts including interpersonal communication, small group interaction, team-building, problem solving, public speaking and presentation skills, conflict resolution, assertiveness, and leadership. Students develop skills to enhance their professional, social, and personal interactions, and become more competitive and effective in the workforce.

Program Notes: Students must earn a grade of C or better for all courses within the Required Courses area.

This program also is offered at Mesa Community College.

Program Prerequisites: None.

Program Description: The Certificate of Completion (CCL) in Community Health Paramedicine is designed to provide the knowledge, skills and ability to synthesize standard of care and expanded scope of practice with comprehensive assessment, diagnostic technology, patient advocacy, ethical and professional behaviors, to practice patient-centered evidence-based paramedicine in the community setting. This certificate prepares students for a community health paramedic credential.

Program Notes: Students must earn a grade of C or better in all courses required within the program.

Admission Criteria: Current state Paramedic certification.

This program also is offered at Mesa, Paradise Valley, and Phoenix Community Colleges.

Program Prerequisites: None.

Required Courses: (8 credits)

Credits

Computer Science General Information

Field of Interest: Science, Technology, Engineering, and Mathematics

For Information: Dr. Chris Miller

Phone: 623.845.3841

<https://www.gccaz.edu/math>

Student Goals: Career-related, General Education, Transfer

Computer Science (CS) courses develop skills in designing, writing, and modifying computer programs to accomplish a wide variety of tasks in all areas of business and industry. Students take these courses:

To Prepare for a major at a four-year institution. A typical Bachelor of Science graduate in CS has the programming skills to develop operating systems and programming languages, as well as write programs for almost all areas of industry. CS majors also understand the software engineering process and may use this knowledge to eventually manage large projects. The college offers coursework which parallels the first two years of a bachelor degree in Computer Science or Computer Systems Engineering at Arizona State University (ASU). Coursework should include:

+CSC100AB	Introduction to Computer Science (C++)
+CSC110AB	Introduction to Computer Science (Java)
+CSC120	Digital Design Logic
+CSC205	Object Oriented Programming and Data Structures
+CSC220	Programming for Computer Engineering
+CSC230	Computer Organization and Assembly Language
+CSC240	Introduction to Different Programming Languages
+MAT227	Discrete Mathematical Structures

As Background for other Careers. CSC100AB Introduction to Computer Science (C++) is recommended for those who are going into an Engineering discipline. CSC180 Computing for Scientists, Engineers and Medical/Health Specialists transfers to ASU as CSE180 and is recommended as an introductory computer class for scientific, engineering, and education majors. CSC283 Bioinformatics and Scientific Computing is designed for Biotech majors and those considering a career in Bioinformatics. Both CSC180 and CSC283 fulfill the general education CS requirement at ASU.

To update and improve professional programming skills. The CSC150, 181, 182, 185, 260, 261, 270, 281, 284, and 285 are courses in current or emerging technologies and are designed for industry professionals (and students) who wish to update and expand their professional skills in this fast-changing profession.

Please check the course listings on the Glendale Community College website, www.gccaz.edu, for an up-to-date description of course offerings.

An Associate in Science Degree, Emphasis in Computer Science also is available.

Computer System Configuration and Support CCL 5038N

Certificate of Completion - 6-9 credits

This program is not eligible for Title IV Federal Financial Aid

Fast Track Certificate: Computer System Configuration and Support CCL 5038N

Field of Interest: Computer and Information Technology

For Information: Andrea Schauer

Phone: 623.845.3231

<https://www.gccaz.edu/business>

Program Description: The Certificate of Completion (CCL) in Computer System Configuration and Support program is designed to prepare students for entry-level computer maintenance, help desk, and network technician jobs. The classes focus on the development of knowledge and skills in computer technologies including system components, installation,

system configuration, peripheral devices, and notebooks. Emphasis is placed on hardware installation, maintenance, mobile devices, hardware troubleshooting, proper use of tools, safety procedures, and professionalism. This program helps prepare students for the CompTIA A+ certification exams. Students who complete this program may seek employment in a variety of environments. Students can also pursue additional CCLs in a variety of specializations within the information technology field to deepen their knowledge and skills and help prepare them for multiple industry certification examinations. An Associate in Applied Science (AAS) in Network and Systems Administration is also available.

Program Notes: Students must earn a grade of C or better in all courses within the program.

Students who pursue this CCL should have a basic level of computer literacy including navigating the internet and computer systems or take CIS105 as indicated in the required courses. Students with the requisite skills may have the CIS105 requirement waived by permission of the Program Director.

Required courses and restricted electives must be taken within five years prior to completion of the program to be applied toward this award.

Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.¹

This program also is offered at Chandler-Gilbert, Estrella Mountain, GateWay, Mesa, Paradise Valley, Phoenix, Rio Salado, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses (6-9 credits)		Credits
CIS105	Survey of Computer Information Systems (3) OR Permission of Program Director (0)	0-3
BPC170 + BPC270	A+ Exam Prep: Computer Hardware Configuration and Support A+ Exam Prep: Operating System Configuration and Support	3 3

Computer System Configuration and Support, Linux CCL 5039N

Certificate of Completion - 9-12 credits

This program is not eligible for Title IV Federal Financial Aid

Fast Track Certificate: Computer System Configuration and Support, Linux CCL 5039N

Field of Interest: Computer and Information Technology

For Information: Andrea Schauer

Phone: 623.845.3231

<https://www.gccaz.edu/business>

Program Description: The Certificate of Completion (CCL) in Computer System Configuration and Support, Linux program is designed to prepare students for entry-level computer maintenance, help desk, and network technician jobs with an emphasis on Linux. The classes focus on the development of knowledge and skills in computer and network technologies including system components, installation, system configuration, peripheral devices, and notebooks. Emphasis is placed on the Linux Operating system including knowledge and skills required to install, configure and troubleshoot a Linux-based workstation. This program helps prepare students for the CompTIA A+ and Linux+ certification exams. Students who complete this program may seek employment in a variety of environments. Students can also pursue additional CCLs in a variety of specializations within the information technology field to deepen their knowledge and skills and help prepare them for multiple industry certification examinations. An Associate in Applied Science (AAS) in Network and Systems Administration is also available.

Program Notes: Students must earn a grade of C or better in all courses within the program.

Students who pursue this CCL should have a basic level of computer literacy including navigating the internet and computer systems or take CIS105 as indicated in the required courses. Students with the requisite skills may have the CIS105 requirement waived by permission of the Program Director.

Required courses and restricted electives must be taken within five years prior to completion of the program to be applied toward this award.

Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.¹

This program also is offered at Chandler-Gilbert, Estrella Mountain, GateWay, Mesa, Paradise Valley, Phoenix, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses (9-12 credits)		Credits
CIS105	Survey of Computer Information Systems (3) OR Permission of Program Director (o)	0-3
BPC170	A+ Exam Prep: Computer Hardware Configuration and Support	3
+ BPC270	A+ Exam Prep: Operating System Configuration and Support	3
CIS126DL	Linux Operating System (3) OR	
CIS126RH	Red Hat System Administration I (3)	3

Computer System Configuration and Support, Network CCL 5044N

Certificate of Completion - 9-13 credits

This program is not eligible for Title IV Federal Financial Aid

Fast Track Certificate: Computer System Configuration and Support, Network CCL 5044N

Field of Interest: Computer and Information Technology

For Information: Andrea Schauer

Phone: 623.845.3502

<https://www.gccaz.edu/consumer-sciences>

Program Description: The Certificate of Completion (CCL) in Computer System Configuration and Support, Network program is designed to prepare students for entry-level computer maintenance, help desk, and network technician jobs with an emphasis on networking. The courses focus on the development of knowledge and skills in computer and network technologies including system components, installation, system configuration, peripheral devices, and notebooks. Emphasis is placed on elements of a data network, network components, and use of a network. This program helps prepare students for the CompTIA A+ and Network+ certification exams. Students who complete this program may seek employment in a variety of environments. Students can also pursue additional CCLs in a variety of specializations within the information technology field to deepen their knowledge and skills and help prepare them for multiple industry certification examinations. An Associate in Applied Science (AAS) in Network and Systems Administration is also available.

Program Notes: Students must earn a grade of C or better in all courses within the program.

		3-4

Computer System Configuration and Support, Security CCL 5040N

Certificate of Completion - 9-19 credits

This program is not eligible for Title IV Federal Financial Aid

Field of Interest: Computer and Information Technology

For Information: Andrea Schauer

Phone: 623.845.3231

<https://www.gccaz.edu/business>

Program Description: The Certificate of Completion (CCL) in Computer System Configuration and Support, Security program is designed to prepare students for entry-level computer maintenance, help desk, and network technician jobs with an emphasis on security. The courses focus on the development of knowledge and skills in computer and security technologies including system components, installation, system configuration, peripheral devices, and notebooks. Emphasis is placed on preventing, identifying, and mitigating threats to the security of information systems and utilizing the basic tools for information security. This program helps prepare participants for the CompTIAA+, Security+, and certification exams. Students who complete this program may seek employment in a variety of environments. Students can also pursue additional CCLs in a variety of specializations within the information technology field to deepen their knowledge and skills and help prepare them for multiple industry certification examinations. An Associate in Applied Science (AAS) in Network and Systems Administration is also available.

⁺ indicates course has pre/corequisites. ⁺⁺ indicates suffixed courses

BPC170	A+ Exam Prep: Computer Hardware Configuration and Support	3
+ BPC270	A+ Exam Prep: Operating System Configuration and Support	3

Select from one of the following areas of specialization.

Specialization 1: Credits 3-6

+ CIS270	Essentials of Network and Information Security (3) OR	
+ ITS110	Information Security Fundamentals (3) AND	
CIS126DL	Linux Operating System (3) OR	
CIS126RH	Red Hat System Administration I (3)	3-6

Specialization 2: Credits 9-10

CNT140AB	Introduction to Networks (4) OR	
CIS190	Introduction to Networking (3)	3-4
CIS250	Management of Information Systems	3
+ CIS271DB	Information Security Essentials	3

Corrections CCL 5776N

Certificate of Completion - 15 credits

This program is not eligible for Title IV Federal Financial Aid

Fast Track Certificate: Corrections CCL 5776N

Field of Interest: Behavioral Science and Human Services

For Information: Paul Brown

Phone: 623.845.3913

<https://www.gccaz.edu/public-safety-sciences>

Program Description: The Certificate of Completion (CCL) in Corrections program is designed for students intending to pursue careers in various correctional components of the justice system, including parole, probation, jail, and prisons. Focus is broader learning about the correction function in the context of overall administration of justice system.

Program Notes: Students must earn a grade of C or better in all courses within the program.

This program also is offered at Chandler-Gilbert, Estrella Mountain, Mesa, Paradise Valley, Phoenix, Rio Salado, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses (15 credits)		Credits
AJS101	Introduction to Criminal Justice	3
AJS123	Ethics and the Administration of Justice (3) OR	
AJS255	The Criminal Justice System Handling of the Mentally Ill (3)	3
AJS212	Juvenile Justice Procedures	3
AJS240	The Correction Function	3
AJS205	Effective Communication and Report Writing in Criminal Justice (3) OR	
AJS275	Criminal Investigation I (3)	3

Counseling General Information

Field of Interest: Behavioral Science and Human Services

For Information: Paul Romo

Phone: 623.845.3051

<https://www.gccaz.edu/counseling>

FYE101 or FYE103 is required for new, degree-seeking students at GCC and should be completed in the first year. FYE courses will help students to clarify their career and educational goals, learn how to maximize focus and motivation, develop effective learning strategies, practice self-care, finance education, and make connections with college resources and support systems. FYE103 has greater depth and breadth and is recommended for students who want to develop the greatest level of college preparedness.

- FYE103 Exploration of College, Career and Personal Success (3 credits)
- FYE101 Introduction to College, Career and Personal Success (1 credit)

Career and Personal Development (CPD) courses are taught by Master's level and advanced degree counselors who have vast experience in human behavior, career development, student development, and a broad range of social issues and dynamics. CPD160 transfers to the state universities as both a Literacy and Critical Inquiry and a Cultural Awareness. The course will help students to develop intercultural awareness and skills that are valuable socially and as well as career marketable.

- CPD160 Introduction to Multiculturalism (3 credits)

Creative Writing AC 6224N

Academic Certificate - 24 credits

This program is not eligible for Title IV Federal Financial Aid

Field of Interest: Culture and Society

For Information: Jeff Baker

Phone: 623.845.3248

<https://www.gccaz.edu/english>

Program Description: The Academic Certificate (AC) in Creative Writing program is designed to provide students and professional writers with access to a community of writers and creative writing activities, instruction and guidance from established authors, and ongoing support in improving their writing skills and marketing their work. As students take courses in the program, they will build a portfolio of original work that may be submitted for publication. The program offers classes, workshops, and other activities such as readings and contests, which are accessible to writers of all levels regardless of academic or professional standing. The program aims to serve a diverse community who may be underrepresented in traditional creative writing programs. Completion of the certificate does not lead to a particular degree program, but may aid students in their pursuit of a career in the writing professions and in their continued enjoyment of writing for personal growth.

Program Notes: Students must earn a grade of C or better for all courses required within the program.

Admission Criteria: Students who wish to enroll in the Creative Writing program must complete a formal application; contact Program Director.

This program also is offered at Chandler-Gilbert, Estrella Mountain, Mesa, Paradise Valley, Phoenix, Rio Salado, and Scottsdale Community Colleges.

Program Prerequisites: None.

Required Courses: (21 credits)

		Credits
ENG210	Creative Writing (3) may be substituted for CRW150 with permission of Program Director.	
CRW150	Introduction to Creative Writing	3
CRW200	must be repeated for a total of two credits.	
+ CRW200	Readings for Writers (1).....	2

+ CRW201	Portfolio	1
----------	-----------------	---

Students must complete six credits from Series I and nine credits from Series II in consultation with a Program Director.

Series I: Credits: 6

Students must complete two of the following courses for a total of six credits.

CRW120	Introduction to Writing Children's Literature	3
CRW160	Introduction to Writing Poetry	3
CRW170	Introduction to Writing Fiction	3
CRW172	Introduction to Comic Book Writing	3
CRW180	Introduction to Writing Nonfiction	3
CRW190	Introduction to Screenwriting	3
THE118	Playwriting.....	3

Series II: Credits: 9

Students must complete three of the following courses for a total of nine credits.

+ CRW202	The Writer as Witness.....	3
+ CRW203	Dialogue	3
+ CRW204	Journaling	3
+ CRW220	Intermediate Writing Children's Literature	3
CRW251	Topics in Creative Writing	3
+ CRW260	Intermediate Poetry Writing	3
+ CRW261	Topics in Writing: Poetry.....	3
+ CRW270	Intermediate Fiction Writing	3
+ CRW271	Topics in Writing: Fiction.....	3
+ CRW272	Planning and Structuring the Novel	3
+ CRW273	Writing the Novel.....	3
+ CRW274	Revising the Novel.....	3
+ CRW281	Topics in Writing: Non-Fiction.....	3
+ CRW290	Intermediate Screenwriting	3
+ CRW291	Topics in Writing: Plays	3

Restricted Electives: Credits: 3

Credits

CRW+++++	Any CRW Creative Writing prefixed course not listed under Required Courses area.....	1-3
ENG235	Magazine Article Writing.....	3
THE 260	Film Analysis.....	3
ENH+++++	Any ENH English Humanities prefixed course	3
HUM/THF210	Contemporary Cinema.....	3

Crime Scene Investigation CCL 5964

Certificate of Completion - 16-18 credits

Field of Interest: Behavioral Science and Human Services

For Information: Paul Brown

Phone: 623.845.3913

<https://www.gccaz.edu/public-safety-sciences>

Program Description: The Certificate of Completion (CCL) in Crime Scene Investigation is designed to develop knowledge and skills required to investigate and reconstruct crime scenes using scientific evidence and logical analysis. The program provides instruction in criminal investigation procedures, collection and preservation of physical and

biological evidence, death investigation techniques, crime scene reconstruction methodology and presentation of testimony in court.

Program Notes: Students must earn a grade of C or better in all courses within the program.

This program also is offered at Chandler-Gilbert, Mesa, Paradise Valley, Phoenix, Scottsdale, and South Mountain Community Colleges.

Admission Criteria: None.

Program Prerequisites: None.

Required Courses (16-18 credits)		Credits
AJS213	Evidence Technology/Fingerprints (3) OR	
AJS243	Crime Scene Reconstruction (3)	3
AJS215	Criminalistics: Physical Evidence (3) OR	
AJS219	Crime Scene Technology: Physical Evidence (3) OR	
FOR105	Forensic Science: Physical Evidence (4).....	3-4
AJS216	Criminalistics: Biological Evidence (3) OR	
FOR106	Forensic Science: Biological Evidence (4).....	3-4
AJS214	Evidence Technology Photography.....	3
AJS275	Criminal Investigation I	3
AJS290BN	Courtroom Testimony Seminar	1

Critical Care Paramedicine CCL 5003N

Certificate of Completion - 8 credits

This program is not eligible for Title IV Federal Financial Aid

Field of Interest: Health Sciences

For Information: Todd Polansky

Phone: 623.845.3908

<https://www.gccaz.edu/public-safety-sciences>

Program Description: The Certificate of Completion (CCL) in Critical Care Paramedicine is designed to provide the knowledge, skills and ability to synthesize standard of care and expanded scope of practice with comprehensive assessment, diagnostic technology, patient advocacy, ethical and professional behaviors, to practice patient-centered evidence-based paramedicine in the clinical, out-of-hospital, and inter-facility transport settings. This certificate prepares students for a critical care paramedic credential.

Program Notes: Students must earn a grade of C or better in all courses required within the program.

This program also is offered at Mesa, Paradise Valley, and Phoenix Community Colleges.

Admission Criteria: Current state Paramedic certification.

Program Prerequisites: None.

Required Courses: (8 credits)		Credits
PME292	Critical Care Paramedicine	8

Critical Infrastructure CCL 5159

Certificate of Completion - 44 credits

This program currently is not eligible for Title IV Federal Financial Aid.

Field of Interest: Computer and Information Technology

For Information: Martin Bencic

Phone: 623.845.3237

<https://www.gccaz.edu/business>

Program Description: The Certificate of Completion (CCL) in Critical Infrastructure program provides students with the skills required to secure, protect and identify vulnerabilities in a network with a focus on the cross-domain security concerns between information technology and operational technology systems. This program is designed to prepare students for a variety of industry-recognized information technology (IT) security certification exams. An Associate in Applied Science (AAS) in Cybersecurity is also available.

Program Notes: Students must earn a grade of C or better for all courses required within the program.

Required courses and restricted electives must be taken within five years prior to completion of the program to be applied toward this award.

Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.¹

This program also is offered at Estrella Mountain Community College.

Program Prerequisites: None.

Required Courses: (44 credits)

The following courses are required and included in the CCL in Cybersecurity Fundamentals:

		Credits
MST150++	Any Microsoft Windows course (3)	3
CIS105	Survey of Computer Information Systems	3
CIS111	Ethics in Information Technology.....	3
CIS126DL	Linux Operating System (3) OR	
CIS126RH	Red Hat System Administration I (3)	3
+ CIS156	Python Programming: Level I	3
+ CIS271DB	Information Security Essentials.....	3
+ CIS272DB	Information Security Principles.....	3
CNT140AB	Introduction to Networks	4
+ ITS240	Ethical Hacking and Network Defense	3

The following courses are required for CCL in Critical Infrastructure

+ CIS143	Introduction to Critical Infrastructure Protection	3
+ CIS201	Introduction to Operational Technology	3
+ CIS202	Introduction to Smart Grid Security	3
+ CIS203	Risk Management Framework	3
+ CNT150AB	Switching, Routing, and Wireless Essentials	4

Cyber Engineering CCL 5149

Certificate of Completion - 42-46 credits

Field of Interest: Computer and Information Technology

For Information: Martin Bencic

Phone: 623.845.3237

<https://www.gccaz.edu/business>

⁺ indicates course has pre/corequisites. ++ indicates suffixed courses

Program Description: The Certificate of Completion (CCL) in Cyber Engineering program is designed to focus on the necessary skills required to secure, protect and identify vulnerabilities in a network, including various operating systems and network devices. Emphasis is placed on developing the theoretical, legal, ethical and practical skills needed to maintain security on mission-critical networking and server systems. The program is designed to meet the training needs of government and industry employees. The program covers a variety of information security technologies and structured languages. The Cyber Engineering program also focuses on the skills needed for internationally recognized IT certifications and high demands in business, industry, and government. An Associate in Applied Science (AAS) in Cybersecurity is also available.

Program Notes: Students must earn a grade of C or better in all courses within the program.

Only required courses taken within eight years of completion of the program may be applied towards this degree. Consult with your Faculty Mentor or Academic Advisor.

Clarified Program Note per CIS IC: Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.¹

Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.¹

This program also is offered at Chandler-Gilbert, Estrella Mountain, Mesa, Paradise Valley, Phoenix, Rio Salado, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (42-46 credits)

The following courses are required and included in the CCL in Cybersecurity Fundamentals:

Credits

+ BPC270 MST150++	A + Exam Prep: Operating System Configuration and Support (3) OR Any Microsoft Windows course (3)	3
CIS105	Survey of Computer Information Systems	3
+ CIS111 + ITS120	Ethics in Information Technology (3) OR Legal, Ethical and Regulatory Issues (3)	3
CIS126DL CIS126RH	Linux Operating System (3) OR Red Hat System Administration I (3)	3
+ CIS156	Python Programming: Level I	3
+ CIS190 CNT140AB	Introduction to Networking (3)	3
	Introduction to Networks (4)	3-4
+ CIS270 + CIS271DB AND + CIS272DB + ITS110	Essentials of Network and Information Security (3) OR Information Security Essentials (3) Information Security Principles (3) OR Information Security Fundamentals (3)	3-6
+ ITS240	Ethical Hacking and Network Defense	3

The following courses are required in the CCL in Cyber Engineering:

+ CIS119DO + CIS276++	Introduction to Oracle: SQL (3) OR Any SQL Database course (3)	3
--------------------------	---	---

⁺ indicates course has pre/corequisites. ++ indicates suffixed courses

+ CIS162++	Any C Programming: Level I course	3
CIS227	Assembler Language	3
+ CIS238DL	Linux System Administration (3) OR	
+ CIS238RH	Red Hat System Administration II (3)	3
+ CIS250	Management of Information Systems	3
+ CIS262++	Any C Programming: Level II course	3

Cyber Operations CCL 5165

Certificate of Completion - 41-42 credits

Field of Interest: Computer and Information Technology

For Information: Martin Bencic

Phone: 623.845.3237

<https://www.gccaz.edu/business>

Program Description: The Certificate of Completion (CCL) in Cyber Operations program is designed to focus on the necessary skills required to secure, protect and identify vulnerabilities in a network, including various operating systems and network devices. Emphasis is placed on developing the theoretical, legal, ethical and practical skills needed to maintain security on mission-critical networking and server systems. The program is designed to meet the training needs of government and industry employees. The program covers a variety of information security technologies and structured languages. Program Prerequisites: None.

Required Courses: (25-31 credits)

Credits

+ BPC270	A+ Exam Prep: Operating System Configuration and Support (3) OR	
MST150++	Any Microsoft Windows course (3)	3
(MST150++ required for Microsoft System Administration specialization and Critical Infrastructure specialization.)		
CIS105	Survey of Computer Information Systems	3

¹ + indicates course has pre/corequisites. ++ indicates suffixed courses

CIS111	Ethics in Information Technology (3) OR	
+ ITS120	Legal, Ethical and Regulatory Issues (3)	3
CIS126DL	Linux Operating System (3) OR	
CIS126RH	Red Hat System Administration I (3)	3
+ CIS156	Python Programming: Level I	3
+ CIS190	Introduction to Networking (3) OR	
CNT140AB	Introduction to Networks (4)	3-4
(CNT140AB required for Cisco Network Administration and Security specialization and Critical Infrastructure specialization.)		
FY E101	Introduction to College, Career and Personal Success (1) OR	
FY E103	Exploration of College, Career and Personal Success (3).....	1-3
+ CIS271DB AND	Information Security Essentials (3)	
+ CIS272DB	Information Security Principles (3) OR	
+ CIS270	Essentials of Network and Information Security (3) OR	
+ ITS110	Information Security Fundamentals (3)	3-6
(ITS110 required for Cyber Operations specialization; CIS271DB and CIS272DB required for Critical Infrastructure specialization.)		
+ ITS240	Ethical Hacking and Network Defense	3

Restricted Electives: (12-18 credits)

Credits

Students must complete 12 to 18 credits from the following list of courses. Courses that are required for a specialization in Cyber Operations, Linux System Administration, Microsoft System Administration, Cisco Network Administration and Security, Cyber Engineering, and/or Critical Infrastructure are noted. Courses cannot be repeated for credit.

Specialization I: Cyber Operations - Credits: 17

BPC170	A+ Exam Prep: Computer Hardware Configuration and Support	3
+ CIS238DL	Linux System Administration (3) OR	
+ CIS238RH	Red Hat System Administration II (3)	3
+ CIS290AC	Computer Information Systems Internship (3) OR	
+ CIS298AC	Special Projects (3)	3
+ ITS291	Computer Forensics Foundations	4
+ ITS292	Advanced Computer Forensics	4

Specialization II: Linux System Administration - Credits: 15

+ CIS238DL	Linux System Administration (3) OR	
+ CIS238RH	Red Hat System Administration II (3)	3
+ CIS239DL	Linux Shell Scripting	3
+ CIS240DL	Linux Network Administration	3
+ CIS240RH	Red Hat System Administration III (3)	3

+ CIS271DL	Linux Security (3) OR	
+ CIS271RH	Red Hat System Administration IV (3)	3
+ CIS275DL	Linux Capstone	3

Specialization III: Microsoft System Administration - Credits: 15-16

+ BPC274	Advanced Server Computer Maintenance: Server+ Prep	3
CIS121AH	Microsoft PowerShell/Command Line Operations	3
+ CIS239DL	Linux Shell Scripting	3
+ MST160	Azure Administrator (4), OR	
+ CLD110	Amazon Web Services Cloud Foundations (3).....	3-4
+ MST260	Microsoft Azure Cloud Development and Operations (3), OR	
+ CLD120	Amazon Web Services Cloud Architect Associate (3)	3

Specialization IV: Cisco Network Administration and Security - Credits: 12

+ CNT150AB	Switching, Routing, and Wireless Essentials	4
+ CNT160AB	Enterprise Networking, Security, and Automation	4
+ CNT202	Cisco Secure Firewall Appliance Configuration(4)OR	
+ CNT205	Cisco Certified Network Associate Security (4)	4

Specialization V: Cyber Engineering - Credits: 18

+ CIS119DO	Introduction to Oracle: SQL (3) OR	
+ CIS276++	Any SQL Database course (3)	3
+ CIS162++	Any C Programming: Level I course	3
	(Students intending to transfer to University of Arizona (UA) South should take CIS162 C Programming.)	
CIS227	Assembler Language	3
+ CIS238DL	Linux System Administration (3) OR	
+ CIS238RH	Red Hat System Administration II (3)	3
+ CIS250	Management of Information Systems	3
+ CIS262++	Any C Programming: Level II course	3

Specialization VI: Critical Infrastructure - Credits: 16

+ CIS143	Introduction to Critical Infrastructure Protection.....	3
+ CIS201	Introduction to Operational Technology	3
+ CIS202	Introduction to Smart Grid Security	3
+ CIS203	Principles of the Risk Management Framework	3
+ CNT150AB	Switching, Routing, and Wireless Essentials	4

General Electives: (0-3 credits)

Credits

Select additional courses 100-level or higher to complete a minimum of 61-semester credits. It is recommended to select from the restricted elective options. Consult with a faculty advisor, program director, and/or academic advisor to identify coursework that best aligns with academic and professional goals.

General Education Requirements: (22-28 credits)

General Education Core: (12-18 credits)

First-Year Composition:		Credits
+ ENG101	First-Year Composition (3) OR	6

+ ENG107 AND + ENG102 + ENG108	First-Year Composition for ESL (3) First-Year Composition (3) OR First-Year Composition for ESL (3)	
Oral Communication:	COM100 COM110 + COM225 COM230	Introduction to Human Communication (3) OR Interpersonal Communication (3) OR Public Speaking (3) OR Small Group Communication (3)
		3
COM100 required for students intending to transfer to Arizona State University West to earn a Bachelor of Science in Applied Computing (Cybersecurity)		
Critical Reading:	+ CRE101	College Critical Reading and Critical Thinking (3) OR Equivalent as indicated by assessment.
		0-3
Mathematics:	Any approved general education course in the Mathematics area.	3-6
General Education Distribution: (10 credits)		Credits
Humanities, Arts and Design:	Any approved general education course(s) in the Humanities, Arts and Design area.	3
Social-Behavioral Sciences:	Any approved general education course(s) in the Social-Behavioral Sciences area.	3
Natural Sciences:	Any approved general education course(s) from the Natural Sciences area.	4

Cybersecurity Fundamentals CCL 5154

Certificate of Completion - 24-31 credits

Field of Interest: Computer and Information Technology

For Information: Martin Bencic

Phone: 623.845.3237

<https://www.gccaz.edu/business>

Program Description: The Certificate of Completion (CCL) in Cybersecurity Fundamentals is designed to focus on the necessary skills required to secure, protect and identify vulnerabilities in a network, including various operating systems and network devices. Emphasis is placed on developing the theoretical, legal, ethical and practical skills needed to maintain security on mission-critical networking and server systems. The program is designed to provide applied skills necessary for government and industry employees. The program covers a variety of information security technologies and structured languages. The Cybersecurity program also focuses on the skills needed for internationally recognized IT certifications and high demands in business, industry, and government. An Associate in Applied Science (AAS) in Cybersecurity is also available.

Program Notes: Students must earn a grade of C or better for all courses required within the program.

Required courses and restricted electives must be taken within five years prior to completion of the program to be applied toward this award.

Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.¹

This program also is offered at Chandler-Gilbert, Estrella Mountain, GateWay, Mesa, Paradise Valley, Phoenix, Rio Salado, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (24-31 credits)

		Credits
+ BPC270 MST150++	A+ Exam Prep: Operating System Configuration and Support (3) OR Any Microsoft Windows course (3)	3
CIS105	Survey of Computer Information Systems	3
CIS111 + ITS120	Ethics in Information Technology (3) OR Legal, Ethical and Regulatory Issues (3)	3
CIS126DL CIS126RH	Linux Operating System (3) OR Red Hat System Administration I (3)	3
+ CIS156	Python Programming: Level I	3
+ CIS190 CNT140AB	Introduction to Networking (3) OR Introduction to Networks (4)	3-4
+ CIS250	Management of Information Systems (3)	0-3
	Only students taking CIS271DB would be required to take CIS250.	
+ CIS270 + CIS271DB AND + CIS272DB + ITS110	Essentials of Network and Information Security (3) OR Information Security Essentials (3) Information Security Principles (3) OR Information Security Fundamentals (3)	3-6
+ ITS240	Ethical Hacking and Network Defense	3

Dance General Information

Field of Interest: Visual and Performing Arts

For Information: Rebecca Rabideau

Phone: 623.845.3796

<https://www.gccaz.edu/performing-arts>

The Glendale Community College (GCC) Dance Program is designed to offer the first two years of a traditional dance major and allow the student to transfer with ease into a university program. Emphasis is on technique, performance, and choreography in a pre-professional atmosphere. Courses may be repeated each semester, depending upon the student's skill level.

The GCC resident dance company, Verve Dance Company, is intended for those students who wish an intense program of study and plan to major in dance. Auditions are held the Monday following the Fall and Spring dance concerts. Students are expected to perform at an intermediate or advanced level of skill. See Associate in Arts, Fine Arts, Emphasis in Dance (8312) for specific course requirements.

Desktop Support CCL 5043

Certificate of Completion - 19-22 credits

Field of Interest: Computer and Information Technology

For Information: Rachelle Hall

Phone: 623.845.3231

Program Description: The Certificate of Completion (CCL) in Desktop Support program is designed to prepare students for entry-level computer maintenance, help desk, and network technician jobs. The classes focus on the development of knowledge and skills in computer, network, and security technologies, as well as the interpersonal skills in customer service/technical support needed to be successful within the industry. Depending on course selection, this program helps prepare students for the CompTIA A+, CompTIA Network+, and/or CompTIA Linux+ certification exams. Students who complete this program may seek employment in a variety of environments. Students can also pursue additional CCLs in a variety of specializations within the information technology field to deepen their knowledge and skills and help prepare them for multiple industry certification examinations. An Associate in Applied Science (AAS) in Network and Systems Administration is also available.

Program Notes: Students must earn a grade of C or better in all courses within the program.

Required courses and restricted electives must be taken within five years prior to completion of the program to be applied toward this award.

Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.¹

This program also is offered at Chandler-Gilbert, Estrella Mountain, GateWay, Mesa, Paradise Valley, Phoenix, Rio Salado, Scottsdale, and South Mountain Community College.

Program Prerequisites: None.

Required Courses: (18-19 credits)

		Credits
	BPC170	A+ Exam Prep: Computer Hardware Configuration and Support
+	BPC270	3
	CIS102DA	A+ Exam Prep: Operating System Configuration and Support
	CIS105	3
	CIS126DL	Customer User Support
	CIS126RH	3
		Survey of Computer Information Systems
+ CIS190	Linux Operating System (3) OR Red Hat System Administration I (3)	3
CNT140AB	Introduction to Networking (3) OR Introduction to Networks (4)	3-4
(Note: CNT140AB is recommended for students interested in pursuing their Cisco Network Administration Certification.)		

Restricted Electives: (1-3 credits)

Students must select one to three credits from the following:

		Credits
	BPC171	Recycling Used Computer Technology
+	CIS290AA	1
+	CIS290AB	Computer Information Systems Internship
+	CIS290AC	2
+	CIS296WB	Computer Information Systems Internship
+	CIS296WC	3
+	CIS298AA	Cooperative Education
+	CIS298AB	1
+	CIS298AC	2
		Special Projects
		3

Developmental Disabilities Specialist CCL 5034

Certificate of Completion - 17-18 credits

Field of Interest: Behavioral Science and Human Services

For Information: Shana Hornstein

⁺ indicates course has pre/corequisites. ⁺⁺ indicates suffixed courses

Phone: 623.845.4761

<https://www.gccaz.edu/psychology>

Program Description: The Certificate of Completion (CCL) in Developmental Disabilities Specialist is designed for students interested in working in various settings serving children or adults with developmental disabilities. The coursework combines theory and application. Academic preparation focuses on the physical and emotional correlates of developmental disability. The students also complete an internship, gaining experience working in a school or agency supporting persons with developmental disability.

Program Notes: Students must earn a grade of C or better for all courses within the program.

Program Prerequisites: None.

Required Courses: (14 credits)

Students must earn a grade of C or better for all Required Courses.

		Credits
EDU222	Introduction to the Exceptional Learner (3) OR	
+ PSY 243	The Psychology of Developmental Disabilities (3).....	3
PSY 101	Introduction to Psychology	3
+ PSY 240	Developmental Psychology (3) OR	
+ PSY 266	Psychological Disorders (3).....	3
+ PSY 241	Understanding and Changing Behavior.....	3
+ PSY 242	Understanding and Changing Behavior Lab.....	1
+ PSY 244	Internship in Psychology	1

Restricted Electives: (3-4 credits)

Student may select any combination of courses from the list below that total at least three credits. Restricted electives must be different from those courses counted in the Required Area.

		Credits
ASL101	American Sign Language I.....	4
BHS170	Case Management and Clinical Documentation.....	3
BHS175	Introduction to Trauma-Informed Care and Trauma-Focused Caregiving	3
BHS180	Child, Family, and Adult Advocacy.....	3
BHS275	Infant and Early Childhood Mental Health.....	3
CFS112	Personal Growth and Family Relations	3
CFS/ECH176	Child Development.....	3
CFS205	Human Development.....	3
CFS235	Developing Child: Theory into Practice, Prenatal to Age Eight.....	3
COM110	Interpersonal Communication	3
EDU222	Introduction to the Exceptional Learner	3
FON100	Introductory Nutrition.....	3
HES154	First Aid/Cardiopulmonary Resuscitation.....	3
+ PSY 240	Developmental Psychology	3
+ PSY 266	Psychological Disorders	3
SPA115	Beginning Spanish Conversation I	3
SWU171	Introduction to Social Work.....	3

Digital Media Arts AAS 3567

Associate in Applied Science - 66-74 Credits

Field of Interest: Visual and Performing Arts

For Information: Michelle Blomberg

Phone: 623.845.3667

Program Description: The Associate in Applied Science (AAS) in Digital Media Arts is designed for the student who wishes to develop skills in the area of graphic design, imaging, photography, animation, time-based, interactivity, and media production. The program emphasizes critical thinking, written communication, and teamwork by challenging students to develop their own design method, production workflow, and conceptual aesthetic. The program provides students with a broad understanding of media design and its place in society as a means to communicate. It allows for the development of an individual's personal interest in this area, prepares students for employment, and upgrades skills of those already employed in this field. Upon completion of the program, students will have compiled a professional portfolio. Employment opportunities include, but are not limited to, graphic design, animation, web design, and video production. Based on course selections, students may also pursue transfer opportunities.

Program Notes: Students must earn a grade of C or better in all courses within the program.

This program also is offered at Phoenix College.

Program Prerequisites: None.

Required Courses: (32-34 credits)

		Credits
+ ADA/ART169	2D Media Design	3
+ ADA/ART177	Digital Photographic Imaging I	3
ART100	Introduction to Digital Arts	1
ART111	Drawing I (3) OR	
ART116	Life Drawing I (3)	3
ART142	Digital Photography	3
+ ART181	Graphic Design I	3
+ ADA/ART/MMT184	Digital Animation I	3
+ ART200	Animation and Interactivity	3
ADA/ART248	Design Self Promotion	3
+ ART280AC	Digital Media Arts and Design Capstone (3) OR	
+ ART297++	Computer Graphic Design Internship (3)	3
FYE101	Introduction to College, Career and Personal Success (1) OR	
FYE103	Exploration of College, Career and Personal Success (3)	1-3
+ JRN213	Writing for Online	3

Restricted Electives: (12 credits)

Complete 12 credits from the following courses:

		Credits
+ ART182	Graphic Design II	3
+ ART/MMT185	3D Modeling for Animation I	3
+ ART210	Design Tools for Imagery, Production, and Publishing	3
+ ART240	Cinematography and Directing for 2D/3D Animation	3
CIS133DA	Internet/Web Development	3
FMP108	Video Production	3
+ FMP215	Digital Video Effects	3
MTC191	Electronic Music I	3
MUC122	Sound Design I	3

General Education Requirements: (22-28 credits)

General Education Core: (12-18 credits)

Credits

First-Year Composition:		6
+ ENG101	First-Year Composition (3) OR	
+ ENG107	First-Year Composition for ESL (3)	
AND		
+ ENG102	First-Year Composition (3) OR	
+ ENG108	First-Year Composition for ESL (3)	
Oral Communication:		3
COM100	Introduction to Human Communication (3) OR	
COM110	Interpersonal Communication (3) OR	
+ COM225	Public Speaking (3) OR	
COM230	Small Group Communication (3)	
Critical Reading: 0-3		
+ CRE101	College Critical Reading and Critical Thinking (3) OR	
	Equivalent as indicated by assessment.	
Mathematics:		3-6
Any approved general education course from the Mathematics area.		
Recommended for students planning to transfer to a four-year university:		
+ MAT140	College Mathematics (5) OR	
+ MAT141	College Mathematics (4) OR	
+ MAT142	College Mathematics (3) OR	
MAT145	College Mathematics with Review (5) OR	
MAT146	College Mathematics with Review (6)	
General Education Distribution: (10 credits)		Credits
Humanities, Arts and Design:		3
Students who intend to transfer should choose either ARH102 or HUM/THF205 to fulfill the [HU] requirement for transfer.		
ARH102	Renaissance Through Contemporary Art (3) OR	
ARH110	History of Graphic Design (3) OR	
HUM/THF205	Introduction to Cinema (3)	
Social-Behavioral Sciences:		3
Any approved general education course from the Social-Behavioral Sciences area.		
Natural Sciences:		4
Any approved general education course from the Natural Sciences area.		
Documentary Film Production CCL 5059		
Certificate of Completion - 31-34 credits		
Field of Interest: Visual and Performing Arts		
For Information: Stephanie Lucas		
Phone: 623.845.3755		
https://www.gccaz.edu/art-humanities		
Program Description: The Certificate of Completion (CCL) in Documentary Film Production introduces the fundamentals of nonfiction filmmaking in a small, supportive setting with industry professionals as mentors. Includes technical aspects of documentary filmmaking (producing, camera, and audio) and exposure to the history and theory behind the art. Students will develop, shoot, and edit an original short documentary film, as well as collaborate on various non-fiction productions, which can include work for clients, non-profits, and new media. An Associate in Applied Science (AAS) in Film and Media Production is also available.		

Program Notes: Students must earn a grade of C or better in all courses within the program.

Program Prerequisites: None.

Required Courses: (31-34 credits)

		Credits
ART142	Digital Photography	3
FMP125	Podcasting.....	3
+ ENG101	First-Year Composition (3) OR	
+ ENG107	First-Year Composition for ESL (3) OR	
Equivalent coursework and/or experience approved by Program Director		0-3
FMP108	Video Production	3
FMP111AA	Scripting for the Media	3
+ FMP114	Audio Production	3
FMP115	Introduction to Editing for Media	4
+ FMP204	Advanced Video Production	3
+ FMP/FMT270	Documentaries for Social Change	4
FMP170	Introduction to Documentary Filmmaking (3) OR	
HUM212	Documentary Film	3

In consultation with Advisor or Program Director, choose one course from the following:

+ FMP/FMT117	Introduction to Cinematography	3
FMP208	Production Company Management	3
FMP260	Film and Media Producing and Financing	3
+ FMP/FMT294AC	Special Topics in Motion Picture, Television, Documentary, and New Media Production	3

Driver Operator CCL 5418N

Certificate of Completion - 8 credits

This program is not eligible for Title IV Federal Financial Aid

Fast Track Certificate: Driver Operator CCL 5418N

Field of Interest: Behavioral Science and Human Services

For Information: Raul Muniz

Phone: 623.845.4776

<https://www.gccaz.edu/public-safety-sciences>

Program Description: The Certificate of Completion (CCL) in Driver Operator program is designed for students who need (1) advanced training as professional firefighters, (2) preparation courses for career advancement opportunities in fire services, and/or (3) more comprehensive information about the role and function of an emergency vehicle driver/operator.

Program Notes: Students must earn a grade of C or better for all courses required within the program.

Admission Criteria: Acceptance into the program and permission of Program Director is required.

This program also is offered at Mesa, Paradise Valley, and Phoenix Community Colleges.

Program Prerequisites: None.

Required Courses: (8 credits)

		Credits
FSC111	Emergency Vehicle Driver Operator	2
FSC117	Fire Apparatus	3
FSC118	Fire Hydraulics	3

Early Childhood Education AAS 3186

Associate in Applied Science - 61-74 credits

Field of Interest: Education

For Information: Tina Le Baron

Phone: 623.845.3628

<https://www.gccaz.edu/consumer-sciences>

Program Description: The Associate in Applied Science (AAS) in Early Childhood Education (ECE) program is designed to prepare individuals for employment as early childhood professionals in a variety of educational settings. The AAS program includes courses based on current ECE theory and practice as well as general education classes to broaden a student's base of knowledge. Certificates of Completion are also available.

Program Notes: Students must earn a grade of C or better for all courses within the program.

For some employment and field experiences (including internship courses), students will be required to have a current Identity Verified Print (IVP) Fingerprint Clearance Card and a current TB vaccination.

This program also is offered at Chandler-Gilbert, Estrella Mountain, Mesa, Paradise Valley, Phoenix, Rio Salado, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (30-37 credits)

Credits

CFS/ECH176	Child Development (3) OR	
CFS235	Developing Child: Theory into Practice, Prenatal – Age Eight (3) OR	
EED205	The Developing Child: Prenatal to Age Eight (3)	3
EED225	Language and Literacy in the Context of Culture and Relationships	3
CFS101AH AND ECH281 + EED210 ECH128	Art Activities for the Young Child (1) Movement/Music for the Young Child (1) OR Creative and Cognitive Play (3) OR Early Learning: Play and the Arts (3)	2-3
EED200	Foundations of Early Childhood Education	3
CFS/ECH271 AND CFS282 AND ECH282 EED212	Arranging the Environment (1) Mainstreaming The Young Child with A Disability (1) Discipline/Guidance of Child Groups (1) OR Guidance, Management and the Environment (3)	3
CFS123 AND CFS125 AND ECH280 EED215	Health and Nutrition in Early Childhood (1) Safety in Early Childhood Settings (1) Food Experiences With Young Children (1) OR Early Learning: Health, Safety, Nutrition and Fitness (3)	3
EED222 EDU222	Introduction to the Exceptional Young Child: Birth to Age Eight (3) OR Introduction to the Exceptional Learner (3)	3

CFSECH269	Child Care Seminar (1)	
AND		
CFSECH287	Professional Development in Early Childhood Education (1) OR	
EED255	Portfolio Development and Writing for the Profession (3).....	2-3
+ CFS/ECH284AB	Early Childhood Teaching Internship (3) OR	
+ EED260	Early Childhood Infant/Toddler Internship (1)	
AND		
+ EED261	Early Childhood Preschool Internship (1) OR	
+ CFS/ECH284AA	Early Childhood Teaching Internship (1).....	2-3
ECH272	Science for the Young Child (1)	
AND		
CFS/ECH273	Math for the Young Child (1)	
AND		
CFS/ECH275	Literacy Development and the Young Child (1)	
AND		
ECH279	Early Childhood Curriculum Development (1) OR	
+ EED278	Early Learning: Curriculum and Instruction - Birth/ Preschool (3)	3-4
ECH140	Learning Made Visible Through Documentation (1)	
AND		
ECH270	Observing Young Children (1) OR	
+ EED280	Standards, Observation and Assessment of Typical/Atypical Behaviors of Young Children Birth to Age Eight (3)	2-3
FY E101	Introduction to College, Career and Personal Success (1) OR	
FY E103	Exploration of College, Career and Personal Success (3).....	1-3

Restricted Electives: (9-12 credits)

Credits

Students must select 9 to 12 credits from the following and must complete a minimum of 60 credits for the degree. Students are encouraged to consult with a Faculty Advisor or student services analyst to identify the requirements for their desired academic and professional goals:

CFS+++	Any CFS Child/Family Studies course(s)
ECH+++	Any ECH Early Childhood Education course(s)
EDU+++	Any EDU Education course(s)
EED+++	Any EED Early Education course(s)
FCS+++	Any FCS Family and Consumer Science course(s)
ITD+++	Any ITD Infant/Toddler Development course(s)

General Education Requirements: (19-25 credits)

General Education Core: (12-18 credits)

Credits

First-Year Composition:		6
+ ENG101	First-Year Composition (3) OR	
+ ENG107	First-Year Composition for ESL (3)	
AND		
+ ENG102	First-Year Composition (3) OR	
+ ENG108	First-Year Composition for ESL (3)	

Oral Communication:

3

Any approved general education course from the Oral Communication area.

Note: +COM225 is recommended for students who wish to transfer to the Bachelor of Arts in Education at Arizona State University.

Critical Reading:

- + CRE101 College Critical Reading and Critical Thinking (3) OR
Equivalent as indicated by assessment. 0-3

Mathematics:

- + MAT112 Mathematical Concepts and Applications (3) OR
Satisfactory completion of a higher-level mathematics course 3-6

Note: MAT14+ College Mathematics or any approved general education course in the Mathematical Application [MA] area may be required for students intending to transfer to a bachelor's degree program.

General Education Distribution: (7 credits)

Credits

Humanities, Arts and Design:

3

Any approved general education course from the Humanities, Arts and Design area.

Recommend: EDU/ENH291 Children's Literature OR
EDU/HUM/STO292 The Art of Storytelling.

Social-Behavioral Sciences:

0

Fulfilled by EDU222 or EED222 in Required Courses area.

Natural Sciences:

4

Any approved general education course from the Natural Sciences area.

Early Childhood Education CCL 5056

Certificate of Completion - 36 credits

Field of Interest: Education

For Information: Tina Le Baron

Phone: 623.845.3628

<https://www.gecaz.edu/consumer-sciences>

Program Description: The Certificate of Completion (CCL) in Early Childhood Education program is designed to prepare students for employment as early childhood teachers in a variety of educational programs. Students learn effective teaching skills as they apply developmentally appropriate early childhood educational theory in the classroom setting. Courses have been selected with a focus on developing an educational career ladder. An Associate in Applied Science (AAS) in Early Childhood Education is also available and includes additional early childhood electives and general education classes to broaden the student's base of knowledge.

Program Notes: Students must earn a grade of C or better for all courses within the program.

For some employment and field experiences (including internship courses), students will be required to have a current Identity Verified Print (IVP) Fingerprint Clearance Card and a current TB vaccination.

This program also is offered at Chandler-Gilbert, Estrella Mountain, Mesa, Paradise Valley, Phoenix, Rio Salado, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (29-34 credits)

Credits

- CFS/ECH176 Child Development (3) OR
CFS235 Developing Child: Theory into Practice, Prenatal - Age Eight (3) OR
EED205 The Developing Child: Prenatal to Age Eight (3)3

EED200	Foundations of Early Childhood Education	3

Restricted Electives: (2-7 credits)**Credits**

Students must select 2 to 7 credits from the following courses to meet a minimum of 36 credits for the certificate. Cannot be shared with Required Courses Area.

CFS+++	Any CFS Child/Family Studies course(s)
ECH+++	Any ECH Early Childhood Education course(s)
EDU+++	Any EDU Education course(s)
EED+++	Any EED Early Education course(s)
FCS+++	Any FCS Family and Consumer Science course(s)
ITD+++	Any ITD Infant/Toddler Development course(s)

Economics General Information

Field of Interest: Culture and Society

For Information: Dmytro Zhosan

Phone: 623.845.3694

<https://www.gccaz.edu/social-sciences>

Student Goals: General Education, Career-related

Economics courses provide an understanding of economic institutions, consumer economic issues, and world economic systems. Students take these courses to:

Meet general education Social-Behavioral Sciences Requirements. ECN 211 or 212 are especially recommended.

Provide Needed Background for other careers especially in Business and Engineering, Social Work and Journalism. ECN 211 or 212 are typically recommended or required.

Prepare for transfer as an economics major at a four-year institution. Degrees in economics may be offered in the liberal arts college, the business college, or both, depending on the institution. Students should consult the catalog of the relevant transfer institution.

Economists research conditions affecting the production, distribution, and consumption of goods and services. They evaluate and forecast business trends, guide monetary policy, and evaluate results of financial, governmental, and business policies. Areas of specialization include labor, fiscal management, agriculture, industry, and social welfare. Related careers are in labor relations, public administration, consulting, foreign diplomacy, and investment counseling.

With the increased reliance on scientific methods of analyzing business trends, forecasting sales, and planning purchases and production operations; employment of economists can be expected to increase. In order to work in the field, a graduate degree is likely to be required.

Recommended courses for potential majors are: ECN 211 and 212, GBS221, MAT 212 or 220 and 225

A broad background in social sciences, history, and philosophy is strongly recommended.

Education General Information

Field of Interest: Education

For Information: Heather Merrill

Phone: 623.845.3768

<https://www.gccaz.edu/social-sciences>

Student Goals: Explore teaching as possible career and/or transfer to a Professional Teacher Preparation Program.

Career Outlook: Arizona is experiencing a shortage of qualified teachers. Due to increasing population, teacher retirements, and demands for reduction in class size; job opportunities for certified teachers are excellent.

Transfer recommendations: Students are advised to consult with the institution to which they plan to transfer. Universities differ in their admission and course requirements.

Department Recommendations for Elementary and Special Education Majors:		Credits
EDU221	Introduction to Education	3
EDU222	Introduction to the Exceptional Learner	3
EDU230	Cultural Diversity in Education	3
EDU236	Classroom Relationships(3) OR	
EDU291	Children's Literature (3) OR	
EDU292	The Art Of Storytelling (3).....	3
Other Recommendations for Elementary and Special Education Majors:		Credits
+ COM225	Public Speaking	3
ARH100	Introduction to Art (3) OR	
ARH101	Prehistoric Through Gothic Art (3) OR	
ARH102	Renaissance Through Contemporary Art (3).....	3
HIS103	United States History to 1865 (3) OR	
+ MAT156	College Algebra/Functions with Review(3)	
MAT256	Investigating Quantity: Number, Operations and Numeration Systems (4) OR	
MAT257	Investigating Geometry, Probability and Statistics (4).....	4
POS221	Arizona Constitution(1)	
AND		
POS222	U.S. Constitution (2).....	3

See listing of courses for Associate in Arts in Elementary Education (AAEE) in the Graduation Requirements section.

Emergency Management CCL 5304

Certificate of Completion - 18 credits

Field of Interest: Behavioral Science and Human Services

Administration of Justice Studies Information: Paul Brown

Phone: 623.845.3913

<https://www.gccaz.edu/public-safety-sciences>

Fire Science Information: Raul Muniz

Phone: 623.845.4776

<https://www.gccaz.edu/public-safety-sciences>

Program Description: The Certification of Completion (CCL) in Emergency Management provides the student with knowledge and skills required to conduct a comprehensive emergency management program. The program prepares students to manage emergency operations, hazardous materials incidents, tactics, strategy, and safety of firefighting activities, and customer service in the public sector. The student will be prepared for positions such as Emergency Manager, Emergency Management Planner, Emergency Operations Coordinator, Environmental Compliance Planner, and Emergency Management Specialist, working in state, local, federal, and international governments, business and industry, military installations, and health care facilities.

Program Notes: Students must earn a grade of C or better in all courses within the program.

This program also is offered at Mesa, and Paradise Valley, and Phoenix Community Colleges.

Program Prerequisites: None.

Required Courses: (18 credits)		Credits
AJS/FSC139	Emergency Response to Terrorism	3
AJS/FSC146	Disaster Recovery Operations	3
AJS/FSC147	Emergency Preparedness	3
AJS/FSC148	Fundamentals of Emergency Management	3
AJS/FSC149	Hazard Mitigation	3
FSC224	Incident Command Systems	3

Emergency Medical Technology General Information

Field of Interest: Health Sciences

For Information: Rainier Perez

Phone: 623.845.3172

<https://www.gccaz.edu/public-safety-sciences>

Certificate of Completion (CCL) in Emergency Medical Technology curriculum provides the student with the necessary knowledge and skills in accordance with the National Emergency Medical Services (EMS) Scope of Practice published by National Highway Traffic Safety Administration (NHTSA) and the Arizona Department of Health Services. With successful completion of the curriculum and upon licensure, the candidate can seek employment with ambulance service companies, first responder agencies, fire departments, and hospitals as an Emergency Medical Technician (EMT). Emphasis is on the fundamental principles and skills required to provide emergency medical care for the ill or injured. An EMT will treat and stabilize the patient and may provide transport to a medical care facility. Includes instruction on preparatory topics, airway management, patient assessment, medical emergencies, trauma emergencies, pediatric care and EMS operations.

Paramedics are advanced-level providers of emergency care that are educated through a nationally accredited program of 1,500 to 2,000 hours. Paramedics are considered an extension of the hospital emergency department and receive formal education in anatomy, physiology, pathophysiology, cardiology, pulmonology, pharmacology, pediatrics, geriatrics, hematology, toxicology, and many more topics in emergency medicine. The paramedic scope of practice builds on EMT education and includes advanced patient assessment, advanced airway and ventilation management, electrocardiogram analysis and interpretation, administration of more than 50 emergency medications, intravenous therapy, advanced cardiac life support, pediatric advanced life support, trauma management, obstetric care, hazardous materials, and much more. Paramedics are certified through a process that includes national cognitive and psychomotor examinations. Paramedics continue their professional development through prescribed continuing education.

Certificate of Completion (CCL) in Paramedicine Program is a 14-month program that builds on the knowledge obtained in the EMT curriculum with an emphasis on patient assessment, fluid resuscitation, cardiac monitoring, specialized medication administration, and life saving techniques. With advanced lab space, simulators, and mannequins; students learn in a case-based environment that prepares them for actual patient care by emulating real world settings. Most of our faculty still work in the pre-hospital setting and all actively maintain certification and licensure. You must be a licensed EMT before you are able to apply for the paramedic program. Our program is accredited by the Commission on Accreditation of Allied Health Education Programs.

The EMT Program meets the educational requirements set forth by the National EMS Scope of Practice published by NHTSA, National Registry of Emergency Medical Technicians (NREMT) and the State of Arizona Administrative Register, R9-25-301 Article 3: Training Programs, The State of Arizona, NREMT, and local EMS agencies may have additional requirements including state and federal criminal background investigations and disclosures to obtain certification and licensure as an EMT or Paramedic in Arizona.

Emergency Medical Technology CCL 5643N

Certificate of Completion - 13 credits

This program is not eligible for Title IV Federal Financial Aid

Fast Track Certificate: Emergency Medical Technology CCL 5643N**Field of Interest:** Health Sciences**For Information:** Rainier Perez**Phone:** 623.845.3172<https://www.gccaz.edu/public-safety-sciences>

Program Description: The Certificate of Completion (CCL) in Emergency Medical Technology curriculum provides the student with the necessary knowledge and skills in accordance with the National EMS Scope of Practice published by National Highway Traffic Safety Administration (NHTSA) and the Arizona Department of Health Services. Successful completion of the curriculum and upon licensure, the candidate can seek employment with ambulance service companies, first responder agencies, fire departments, and hospitals as an Emergency Medical Technician (EMT). Emphasis is on the fundamental principles and skills required to provide emergency medical care for the ill or injured. The primary focus of an EMT is to respond to, assess and triage emergent, urgent, and non-urgent requests for medical care, apply basic knowledge and skills necessary to provide patient care and medical transportation to/from an emergency or health care facility.

Program Notes: Students must earn a grade of C or better in all courses within the program.

EMT104 requires students to complete additional hours in a competency-based clinical, vehicular, and/or scenario based experience. Depending on the college, this may be completed through EMT104AB or Program Director-approved rotation.

This program also is offered at Chandler-Gilbert, Mesa, Paradise Valley, Phoenix, and Rio Salado Community Colleges.

Program Prerequisites: None.

Required Courses: (13 credits)**Credits**

Students who have current validation in Basic Life Support (BLS) are required to receive credit by evaluation.

EMT101	Basic Life Support/Cardiopulmonary Resuscitation (CPR) for Health Care Providers (0.5)

Engineering General Information

Field of Interest: Science, Technology, Engineering, and Mathematics

For Information: Dr. Didem Yamak Congress

Phone: 623.845.3974

<https://www.gccaz.edu/consumer-sciences>

Program Description: The Engineering Program at Glendale Community College provides both the Associate in Applied Science (AAS) in Engineering Technology and the Associate in Science (AS), Emphasis in Engineering.

The AAS in Engineering Technology program prepares students as entry-level engineering technicians. They will apply basic engineering principles and technical skills to support engineers engaged in a wide variety of projects. Includes instruction in various engineering support functions, including preparation in the areas of research, production, and operations. This degree prepares highly skilled and needed workers for area manufacturers and the tech industry. For more information, please visit <https://www.maricopa.edu/degrees-certificates/science-technology-engineering-mathematics/engineering-technology-3187-aas>

The AS, Emphasis in Engineering provides the majority of the first two years of a four-year curriculum for students who wish to transfer to a four-year institution to earn a bachelor degree in an engineering discipline. With a bachelor degree, students may pursue a career as an engineer in a number of areas including but not limited to aerospace engineering, biomedical engineering, chemical engineering, civil engineering, computer systems engineering, electrical engineering, industrial engineering, and mechanical engineering. For more information, please visit <https://www.maricopa.edu/degrees-certificates/science-technology-engineering-mathematics/associate-science-emphasis-engineering-8607-as>

Acquired Skills

Gain introductory engineering design experience. Complete projects to build robots, rockets, catapults, and mousetrap powered vehicles.

Gain team skills required in an engineering work environment. Establish team goals; set ground rules; decide how to resolve team conflicts.

Gain computer application skills. Use MatLab to solve optimization and area problems from calculus. Use Excel to calculate odds and solve problems using iteration methods. Use AutoCAD to build models of engineering designs.

Gain science and mathematics skills. Calculate the height of your rocket and the path of catapult projectiles; use levers and/or torsion to power catapults and vehicles. Design a vending machine or a miniature microprocessor.

Gain effective verbal and written communications skills. Learn how to give effective PowerPoint presentations. Document project work in a design notebook.

Program Course Offerings:		Credits
+ ECE102	Engineering Analysis Tools and Techniques	2
+ ECE103	Engineering Problem Solving and Design.....	2
+ ECE105	MatLab Programming	1
+ EEE202	Circuits and Devices	5
+ ECE 211	Engineering Mechanics: Statics	3

Restricted Electives: (12-15 credits)

Credits

In consultation with an Academic, Faculty, or Program Advisor, complete 12 to 15 credits of coursework from any of the areas below that best align with academic and professional goals. Students may select courses from multiple areas.

General Application

Select one of the following programming courses not already taken in required courses:

+ CIS150	Programming Fundamentals (3) OR	
+ CIS150AB	Object-Oriented Programming Fundamentals (3) OR	
+ CIS156	Python Programming: Level I (3) OR	
+ CIS159	Visual Basic Programming I (3) OR	
+ CIS162AB	C++: Level I (3) OR	
+ CIS162AC	Visual C++: Level I (3) OR	
+ CIS162AD	C#: Level I (3) OR	
+ CIS163AA	Java Programming: Level I (3) OR	
+ CSC100	Introduction to Computer Science (C++) (3) OR	
+ CSC100AA	Introduction to Computer Science (C++) (3) OR	
+ CSC100AB	Introduction to Computer Science (C++) (4) OR	
+ CSC110	Introduction to Computer Science (Java) (3) OR	
+ CSC110AA	Introduction to Computer Science (Java) (3) OR	
+ CSC110AB	Introduction to Computer Science (Java) (4)	3-4

Select one of the following courses not already taken in required courses:

+ ECE104	EPICS Gold I (2) OR	
+ ECE294++	Special Topics in Engineering (1-4) OR	
+ ECE296++	Cooperative Education (1-3) OR	
+ ECE298++	Special Projects (1-3)	1-4
+ ECE105	MATLAB Programming	1
ECE106	Survey of Nanotechnology (1) OR	
+ MNT110	General Principles of Nanotechnology (3)	1-3
AIT100	Industrial Safety (1) OR	
CON271	Construction Safety (3) OR	
GTC/MIT/OSH106	Industrial Safety (2)	1-3
+ MAT206	Elements of Statistics	3

Biomedical Engineering Technician

BIO160	Introduction to Human Anatomy and Physiology (4) OR	
+ BIO201	Human Anatomy and Physiology I (4)	4
BIO175	Research Methods in Biology	1

BIO211AA	Biotechnology Seminar: Biomedical Applications	1
ECE111	Bioengineering Systems	3

Civil Engineering Technician

+ CET211	Strength of Materials (3) OR	
CON223	Strength of Materials (3)	3
+ CON241	Surveying	3
+ ECE216	Computer-Aided Engineering	2
+ ECE216LL	Computer-Aided Engineering Laboratory	1
GLG101	Introduction to Geology I - Physical Lecture (3)	
AND		
GLG103	Introduction to Geology I - Physical Lab (1) OR	
GLG101IN	Introduction to Geology I - Physical (4)	4

Drafting for Engineering Technician

CAD100	Fundamentals of 2D AutoCAD	3
+ CAD101	Elements of CAD Graphics (AutoCAD)	3
+ CAD145	Design Principles for Industry	3
DFT110	Introduction to Drafting	3
DFT126	Building Trades Blueprint Reading	3
+ ECE216	Computer-Aided Engineering	2
+ ECE216LL	Computer-Aided Engineering Laboratory	1

General Education Requirements: (19-23 credits)

General Education Core: (13-17 credits)	Credits
---	---------

First-Year Composition:	6
+ ENG101	First-Year Composition (3) OR
+ ENG107	First-Year Composition for ESL (3)
AND	
+ ENG102	First-Year Composition (3) OR
+ ENG108	First-Year Composition for ESL (3)

Oral Communication:	3
COM100	Introduction to Human Communication (3) OR
COM110	Interpersonal Communication (3) OR
+ COM225	Public Speaking(3) OR
COM230	Small Group Communication (3)
Recommends +COM225 or COM230.	3

Critical Reading:	0-3
+ CRE101	College Critical Reading and Critical Thinking (3) OR Equivalent as indicated by assessment.

Mathematics:	4-5
+ MAT187	Precalculus (5) OR
+ MAT220	Calculus with Analytic Geometry I (5) OR
+ MAT221	Calculus with Analytic Geometry I (4)

General Education Distribution: (6 credits)	Credits
---	---------

Humanities, Arts and Design:	3
Any approved general education course in the Humanities, Arts and Design area.	

Social-Behavioral Sciences:	3
-----------------------------	---

Any approved general education course in the Social-Behavioral Sciences area.
Recommend ECN211 or ECN212.

Natural Sciences:

Met by CHM or PHY in Required Courses.

o

Enrolled Agent CCL 5958

Certificate of Completion - 17-18 credits

Field of Interest: Business, Entrepreneurialism, and Management

For Information: Scott Stroher

Phone: 623.845.3453

<https://www.gccaz.edu/business>

Program Description: The Certificate of Completion (CCL) in Enrolled Agent program helps to prepare students for the Enrolled Agent Examination. The Internal Revenue Service (IRS) Enrolled Agent credential allows tax practitioners to represent taxpayers before the IRS when it comes to collections, audits, and appeals. Enrolled Agents' expertise in the continually changing field of taxation enables them to effectively represent taxpayers at all administrative levels within the IRS. Students who successfully complete this CCL may also seek employment as tax preparers.

Program Notes: Students must earn a grade of C or better in all courses in the program.

Consultation with an Academic Advisor is recommended for course selection.

The Volunteer Income Tax Assistance (VITA) program internship is only available in the spring semester- Contact a program adviser for more information.

This program also is offered at Chandler-Gilbert, Mesa, Paradise Valley, Phoenix, Rio Salado, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (15 credits)

Credits

ACC111	Accounting Principles I (3) OR	
ACC211	Financial Accounting (3)	3
ACC121	Individual Tax Preparation	3
+ ACC221	Tax Accounting	3
+ ACC224	Tax Practice Administration and Business Entity Analysis	3
CIS105	Survey of Computer Information Systems	3

Restricted Electives: (2-3 credits)

Credits

Students should select two to three credits from the list below:

ACC105	Payroll, Sales and Property Taxes	3
+ ACC112	Accounting Principles II	3
ACC115	Computerized Accounting	3
+ ACC222	Payroll Accounting	3
+ ACC230	Uses of Accounting Information I	3
+ ACC270AB	Accounting Internship	2
+ ACC270AC	Accounting Internship	3

English General Information

Field of Interest: Culture and Society

For Information: Dr. Jennifer Lane

Phone: 623.845.3436

<https://www.gccaz.edu/english>

Student Goals: General Education, Transfer, Personal Interest

Courses in English are in the areas of composition, literature, and linguistics. Composition courses concentrate on the communication skills of writing, reading, and speaking. Courses in literature encourage students to comprehend and appreciate essays, prose fiction, poetry, and drama. Courses in linguistics examine the history, development, and structure of language.

Communication skills taught in the English Department are essential in any employment area. English majors are well prepared for careers in teaching, law, politics, journalism, writing, editing, public relations, advertising, marketing, and management.

English courses fulfill general education requirements in communications and humanities and provide background for advanced study programs. They develop communication skills for personal, employment, and academic use. English Humanities (literature) courses encourage personal enrichment through the study of literature.

Courses in English as a second language (ESL) assist speakers of other languages to learn to speak, write, and read English.

Students should consult with an advisor in planning their academic schedule in order to complete degree requirements in an expedient manner. Required courses may not be available every semester or year. Due to limited course offerings, degree-seeking students may find it necessary to extend completion timelines and attend both day and evening classes.

Special Skill Levels Needed: The department recommends that students have computer skills. Papers must be typed and research is database driven.

Departmental Recommendations:**Credits**

The following courses are generally required for a baccalaureate degree in English:

+ ENG101	First-Year Composition.....	3
+ ENG102	First-Year Composition.....	3
+ ENG200	Reading and Writing about Literature	3
+ ENG216	Persuasive Writing on Public Issues (3) OR	
+ ENG217	Personal and Exploratory Writing (3).....	3
+ ENH221	Survey of English Literature Before 1800.....	3
+ ENH222	Survey of English Literature After 1800	3
+ ENH241	American Literature Before 1860	3
ENH242	American Literature After 18603	
Foreign Language	8-16

ENG107 AND ENG108, First-Year Composition for ESL, may be substituted for ENG101 AND ENG102.

Entrepreneurial Studies Level I CCL 5819N**Certificate of Completion - 10-11 credits**

This program is not eligible for Title IV Federal Financial Aid

Fast Track Certificate: Entrepreneurial Studies Level I CCL 5819N

Field of Interest: Business, Entrepreneurialism, and Management

For Information: Kendra Swensen

Phone: 623.845.3749

<https://www.gccaz.edu/business>

Program Description: The Certificate of Completion (CCL) in Entrepreneurial Studies Level I program is designed to provide students with an introduction to the entrepreneurial process. Courses include a history of entrepreneurship,

current research into its impacts on society, types of business start-up opportunities, and creating a preliminary business plan, as well as securing a healthy financial future. A CCL in Entrepreneurial Studies Level II is also available.

Program Notes: Students must earn a grade of C or better for all courses within the program.

This program also is offered at GateWay, Mesa, Paradise Valley, Phoenix, Rio Salado, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (10-11 credits)		Credits
EPS150	Introduction to Entrepreneurship	3
EPS160	New Venture Creation	2
EPS162	Introduction to Social Entrepreneurship (3) OR	
EPS195	Business Start-Up and Planning (2)	2-3
GBS/HEC132	Personal and Family Financial Security	3

Entrepreneurial Studies Level II CCL 5820

Certificate of Completion - 18-19 credits

Field of Interest: Business, Entrepreneurialism, and Management

For Information: Kendra Swensen

Phone: 623.845.3749

<https://www.gccaz.edu/business>

Program Description: The Certificate of Completion (CCL) in Entrepreneurial Studies Level II program is designed to prepare students to acquire additional skills, tools and knowledge necessary for successful venture opportunities. A CCL in Entrepreneurial Studies Level I is also available and fully embedded in this program.

Program Notes: Students must earn a grade of C or better for all courses within the program.

This program also is offered at GateWay, Mesa, Paradise Valley, Phoenix, Rio Salado, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (18-19 credits)		Credits
EPS150	Introduction to Entrepreneurship	3
EPS160	New Venture Creation	2
EPS162	Introduction to Social Entrepreneurship (3) OR	
EPS195	Business Start-Up and Planning (2)	2-3
GBS/HEC132	Personal and Family Financial Security	3
EPS161	New Venture Law and Finance (3) OR	
EPS180	Technology Business Planning (3)	3
EPS165	New Venture Feasibility Analysis	2
MGT253	Owning and Operating a Small Business	3

Exercise Science: Health, Fitness, and Sports Performance AAS 3059

Associate in Applied Science - 62-74.5 credits

Field of Interest: Health Sciences

For Information: Louise So

Phone: 623.845.3883

<https://www.gccaz.edu/fitness-wellness>

Program Description: The Associate in Applied Science (AAS) in Exercise Science: Health, Fitness and Sports Performance program prepares students for the American College of Sports Medicine (ACSM), National Strength and Conditioning Association (NSCA), National Academy of Sports Medicine (NASM) and the American Council on Exercise (ACE) personal trainer certifications. The curriculum is designed to prepare students for employment in positions such as personal training within health and fitness clubs, wellness centers, and public and private recreation facilities. The curriculum includes the foundational courses required for the Certificate of Completion (CCL) in Personal Training coupled with advanced hands-on courses required for the CCL in Personal Training: Advanced that foster the development of critical thinking, leadership, and communication skills important for developing, implementing and leading exercise programs. This curriculum also provides a good foundation for transfer to a four-year bachelor program. Students who complete this AAS also qualify for the CCL in Personal Training and Personal Training: Advanced. An Associate in Arts (AA), Emphasis in Exercise Science is also available for students interested in continuing their studies in this field.¹

Program Notes: Students must earn a grade of C or better required for all courses within the program.

This program also is offered at Chandler-Gilbert, Mesa, Paradise Valley, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (46-52.5 credits)

Credits

+ BIO181	General Biology (Majors) I (4) OR One year of high school biology (o)	0-4
+ BIO160	Introduction to Human Anatomy and Physiology (4) OR Human Anatomy and Physiology I (4)	4

Film and Media Production AAS 3570**Associate in Applied Science - 61-71 credits****Field of Interest: Visual and Performing Arts**

For Information: Stephanie Lucas

Phone: 623.845.3755

<https://www.gccaz.edu/art-humanities>

Program Description: The Associate in Applied Science (AAS) in Film and Media Production is designed to help students develop the creative and technical skills needed to work in the competitive film and video industry. Students receive comprehensive training in the craft, process, and theory behind visual storytelling. The program uses the latest

¹ indicates course has pre/corequisites. ++ indicates suffixed courses

technologies and provides opportunities for students to develop their skills and professionalism with real world projects, both in the laboratory and on location. This program is focused on independent filmmaking with the spirit of entrepreneurship in the field. A Certificate of Completion (CCL) in Documentary Film Production is also available.

Program Notes: Students must earn a grade of C or better in all courses within the program.

Program Prerequisites: None.

Required Courses: (10-12 credits)		Credits
FMP108	Video Production	3
+ FMP114	Audio Production	3
FMP115	Introduction to Editing for Media	3
FYE101	Introduction to College, Career and Personal Success (1) OR	
FYE103	Exploration of College, Career and Personal Success (3)	1-3

Restricted Electives: (25-31 credits)	Credits
--	----------------

In addition to completing the Required Courses, students must select one of the following specializations:

Specialization 1: Film and Media Production - Credits: 30-31

Film and Media Production Core Credits: 18

MUC122	Sound Design I	3
FMP105	Studio Production	3
FMP111	Screenwriting I (3) OR	
FMP111AA	Scripting for the Media (3)	3
+ FMP/FMT117	Introduction to Cinematography	3
+ FMT134	Pre-Production for Motion Picture and Television	3
FMP208	Production Company Management (3) OR	
FMP260	Film and Media Producing and Financing (3)	3

Film and Media Production Related Area Credits: 12-13

Complete two Production courses for a total of six credits from the following list of options. (Note: Students planning to take FMT217 as their Capstone/Internship course should select FMP204.):

ART142	Digital Photography	3
+ FMP/FMT151	TV and New Media Production	3
+ FMP204	Advanced Video Production.....	3
+ FMP215	Digital Video Effects	3

Complete one Humanities Film course for a total of three credits from the following:

HUM/THF206	Introduction to Television Arts	3
HUM/THF210	Contemporary Cinema	3
HUM211AA	Foreign Films: Classics	3
HUM212	Documentary Film	3
HUM213	Hispanic Film	3

Complete one Capstone/Internship course for a total of three to four credits based on career goals:

+ ART280AC	Digital Media Arts and Design Capstone	3
+ FMP211	Screenwriting II	3
+ FMP214AC	Video Production Internship	3
+ FMP/FMT270	Documentaries for Social Change	4
+ FMP275	Advanced Portfolio Production	4

+ FMT217	Advanced Cinematography	3
----------	-------------------------------	---

Specialization 2: Documentary Film Production - Credits: 25

Documentary Film Production Core Credits: 19

ART142	Digital Photography	3
FMP125	Podcasting	3
FMP111AA	Scripting for the Media	3
+ FMP204	Advanced Video Production	3
+ FMP/FMT270	Documentaries for Social Change	4
FMP170	Introduction to Documentary Filmmaking(3) OR	
HUM212	Documentary Film	3

Documentary Film Production Related Area Credits: 6

In consultation with Advisor or Program Director, choose two courses for a total of six credits:

+ FMP/FMT117	Introduction to Cinematography	3
FMP208	Production Company Management	3
FMP260	Film and Media Producing and Financing	3
+ FMP/FMT294AC	Special Topics in Motion Picture, Television, Documentary, and New Media Production	3

General Electives: (0-4 credits)

Credits

Students must complete additional courses to meet the 60 minimum credits required for the degree. 0-4

General Education Requirements: (22-28 credits)

General Education Core: (12-18 credits)

Credits

First-Year Composition:

6

+ ENG101	First-Year Composition (3) OR
+ ENG107	First-Year Composition for ESL (3)
AND	
+ ENG102	First-Year Composition (3) OR
+ ENG108	First-Year Composition for ESL (3) OR

Oral Communication:

3

Credits

Humanities, Arts and Design:

3

HUM/THF205	Introduction to Cinema
------------	------------------------

Social-Behavioral Sciences:	3
Any approved general education course from the Social-Behavioral Sciences area. PSY 101 is recommended.	

Natural Sciences:	4
Any approved general education course from the Natural Sciences area.	

Fingerprint Identification and Photography CCL 5010N

Certificate of Completion - 10 credits

This program is not eligible for Title IV Federal Financial Aid

Fast Track Certificate: Fingerprint Identification and Photography CCL 5010N

Field of Interest: Behavioral Science and Human Services

For Information: Paul Brown

Phone: 623.845.3913

<https://www.gccaz.edu/public-safety-sciences>

Program Description: The Certificate of Completion (CCL) in Fingerprint Identification and Photography is designed to prepare students for entry level positions in the field of fingerprint classification and identification. It is one pathway to the Associate in Applied Science (AAS) in Forensic Science.

Program Notes: Students must earn a grade of C or better for all courses required within the program.

This program also is offered at Chandler-Gilbert, Mesa, Paradise Valley, Phoenix, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses (10 credits)		Credits
AJS101	Introduction to Criminal Justice	3
AJS213	Evidence Technology/Fingerprints	3
AJS214	Evidence Technology/Photography	3
AJS290BN	Courtroom Testimony Seminar	1

Fire Science General Information

Field of Interest: Behavioral Science and Human Services

For Information: Raul Muniz

Phone: 623.845.4776

<https://www.gccaz.edu/public-safety-sciences>

Student Goals: Career-related

The Fire Science program at Glendale Community College prepares the student primarily for a career in fire service. It also would enhance one's performance in safety education, arson investigation, and related careers.

Greater Phoenix is one of the fastest growing cities in the "Sun Belt," and the need for firefighters will increase in direct proportion to the total population. Although competition is heavy for available positions, the applicant with a Fire Science background has a significant advantage over those without training. However, a degree in Fire Science does not guarantee employment. Persons already employed as firefighters can expect the attainment of the degree to be an asset when seeking promotion within a fire department or district.

FSC110 Wildland Firefighter training classes which meet the National Wildland Coordinating Group S-130, S-190 and I-100 learning objectives, are offered weekends during the spring and fall semesters. Registration information is available by contacting the Fire Science Department.

To be considered for employment in local fire departments, a candidate must meet the following minimum standards:

United States citizenship;

- A high school diploma or GED equivalency certificate;
- No felony conviction in any state or federal jurisdiction;
- A medical examination by a licensed physician attesting that no physical conditions exist which would adversely affect the performance of duties as a firefighter;
- Successful completion of the agility and written (general knowledge) tests and oral interview as specified by the employing fire department;
- Proportional height and weight; and
- Minimum age as required by law.

Students should consult with a Department Advisor in planning their academic schedule in order to complete degree requirements in an expedient manner. Due to limited course offerings, degree-seeking students may find it necessary to extend completion timelines and attend both day, evening, and weekend classes.

Also see Associate in Applied Science Fire Science 3205.

Fire Science AAS 3205

Certificate of Completion - 61.5-92 credits

Field of Interest: Behavioral Science and Human Services

For Information: Raul Muniz

Phone: 623.845.4776

<https://www.gccaz.edu/public-safety-sciences>

Program Description: The Associate in Applied Science (AAS) in Fire Science provides the opportunity for individuals seeking careers in the fire service to acquire standard firefighting skills and prepare for state and/or national certifications, including the Firefighter I and II Certification. Students will gain broad knowledge and skills necessary to work effectively in the fire service as firefighters. A Certificate of Completion (CCL) in Firefighter Operations is also available.

Program Notes: Students must earn a grade of C or better for all courses required within the program.

Consult with your faculty mentor or Academic Advisor to determine educational requirements, including possible university transfer options, for your chosen career field.

Admission Criteria: Admission to program is required. See Program Director for details.

This program also is offered at Mesa, Paradise Valley, and Phoenix Community Colleges.

Program Prerequisites: None.

Required Courses: (38.5-61 credits)

Fitness and Wellness General Information

Field of Interest: Health Sciences

For Information: Lisa Lewis

Phone: 623.845.3784

<https://www.gccaz.edu/fitness-wellness>

Student Goals: Transfer, Career-related, Personal Interest

The Fitness and Wellness program seeks to help students apply their knowledge of fitness, health, and nutrition in a practical and professional manner. Instructors guide students toward the institutional learning outcomes of wellbeing and career. In collaboration with the Food and Nutrition Program; we offer courses and degree programs which prepare students for immediate entry into the workforce, for transfer to university, or for personal interest.

Our fitness and nutrition labs and facilities have state-of-the-art equipment that enhance students' testing skills in VO₂ max, body composition, muscular strength, power and flexibility. Notable facilities include the Sports Performance Lab, Fitness Centers, Adapted Fitness Center, Powerhouse, Olympic-sized swimming pool, tennis courts, and racquetball courts.

Wellness Education (WED): Students can learn about alternative medicine, medication, and aromatherapy to enhance overall personal health for a lifetime.

Physical Education (PED): Physical activity courses benefit the overall health and fitness of students, and include courses that enhance cardiovascular fitness, muscular strength and endurance, flexibility, balance, and sport skills.

Health (HES): Health courses include Healthful Living, Cardiopulmonary Resuscitation (CPR), and First Aid which provide a general knowledge of personal health concepts and practices, first aid techniques, and safety. Prevention and Treatment of Athletic Injuries is offered for the prospective school teacher, coach, athletic trainer, or other persons desiring more advanced knowledge than is provided in the basic courses. HES100 Healthful Living, explores current health and wellness topics and how they can be applied to achieve an optimal lifestyle. HES210 Current Aspects of Health and Illness, examines how culture influences health care practices, barriers to healthcare, interactions with healthcare professionals, and health disparities in the U.S.

Recreation (REC): Students can learn about historical, psychological, social, and cultural aspects of play, leisure, and recreation and their role in contemporary society in REC120 Leisure and the Quality of Life.

Exercise Science (EXS) Degree Pathways: GCC's Fitness and Wellness Program offers various pathways to obtaining certificates and degrees in the fields of Exercise Science and Personal Training. Each certificate is its own destination or can be used as a stepping stone to a higher level of knowledge, leading to an AA degree or Associate in Applied Science (AAS) degree (and eventually a four-year institution) in Exercise and Wellness, Physical Education, Kinesiology, Wellness, or Health Promotion. Northern Arizona University (NAU) now offers a Bachelor's degree in Health Sciences-Fitness Wellness that can be completed on campus at GCC.

Students continuing on to a four-year institution will be well on their way to a career in Personal Training, Strength and Conditioning, Youth and Senior Fitness, Group Fitness, Weight Management, Health and Wellness Coaching, Sports Coaching, Athletic Training, Physical Therapy, Occupational Therapy, Corporate Wellness, and other health related fields. Students should see a Program Advisor each semester to plan for easy transition to the university.

Fitness professionals assess and design fitness programs and supervise workouts for clients who want to improve their fitness level in a safe, motivating, and effective manner. Many fitness professionals also consult, advise, or offer online fitness services for clients. As businesses, government, and insurance organizations continue to recognize the benefits of health and fitness programs for their employees, incentives to join gyms or other types of health clubs are expected to increase the need for fitness trainers and instructors. Other employment growth will come from the continuing emphasis on exercise to combat obesity and chronic disease, and encourage healthier lifestyles for people of all ages.

Job prospects and earning potential improve for workers with professional certifications and formal education in the field. Employment of fitness trainers and instructors is projected to grow 39% from 2020 to 2030 which is much faster than the average for all occupations.

Nationally certified fitness professionals have a greater earning potential and are more credible to employers and clients. Students who complete our degree and certificate programs will be prepared to become nationally certified by:

American College of Sports Medicine (ACSM)

American Council on Exercise (ACE)

National Academy of Sports Medicine (NASM)

National Strength and Conditioning Association (NSCA)

Other national fitness organizations accredited by the National Commission for Certifying Agencies (NCCA)

Certificates of Completion (CCLs) and AAS Degrees:

Personal Training (CCL) program is designed to help prepare students for employment in the fitness industry as a personal trainer. The program provides students with a fundamental knowledge of human anatomy and physiology, nutrition, weight management, CPR and AED training, and skills to assess, design, and implement safe and effective exercise programs.

Personal Training: Advanced (CCL) is based on the foundation of the Personal Trainer CCL, and offers more advanced and diversified courses. Students who complete both programs will be prepared for the AAS in Exercise Science: Health, Fitness and Sports Performance.

Exercise Science: Health, Fitness and Sports Performance (AAS) is designed to prepare students for employment in entry-level positions such as personal training within health and fitness clubs, wellness centers, and public and private recreation facilities. This curriculum also provides good preparation for transfer to a four-year bachelor degree program. The program prepares students for personal trainer certification exams from the American College of Sports Medicine (ACSM), National Strength and Conditioning Association (NSCA), National Academy of Sports Medicine (NASM) and the American Council on Exercise (ACE).

Associate in Arts, Emphasis in Exercise Science (AA) This program provides the first two years of a four-year curriculum for students who wish to specialize in Exercise Science, Kinesiology, Clinical Exercise Physiology, Sport

Science, Healthy Lifestyles Coaching, or Fitness and Wellness. With a bachelor's degree, students may pursue a career as a fitness specialist or director, strength and conditioning specialist, healthy lifestyles coach, or an exercise physiologist. With a graduate degree, students may pursue careers in a number of fields, including but not limited to physical therapy, occupational therapy, athletic training, exercise physiology, medicine, and physician assistant.

Forensic Science AAS 3183

Associate in Applied Science - 61-68 credits

Field of Interest: Behavioral Science and Human Services

For Information: Paul Brown

Phone: 623.845.3913

<https://www.gccaz.edu/public-safety-sciences>

Program Description: The Associate in Applied Science (AAS) in Forensic Science provides the student with a specialization in forensic investigation as it relates to crime. The curriculum presents a specialized scope of knowledge about photography, collection and preservation of evidence, and investigative strategies. The program provides students with an important knowledge base for investigative specialization in a wide range of disciplines and careers. This degree pathway also provides students with the opportunity to complete two Certificates of Completion (CCL) in Crime Scene Investigation, and Fingerprint Identification and Photography.

Program Notes: Students must earn a grade of C or better in all courses within the program.

This program also is offered at Chandler-Gilbert, Mesa, Paradise Valley, Phoenix, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (32-44 credits)		Credits
AJS101	Introduction to Criminal Justice	3
AJS123	Ethics and the Administration of Justice	3
AJS275	Criminal Investigation I	3
AJS290BN	Courtroom Testimony Seminar	1
AJS215	Criminalistics: Physical Evidence (3) OR	
AJS219	Crime Scene Technology: Physical Evidence (3) OR	
FOR105	Forensic Science: Physical Evidence (4)	3-4
AJS216	Criminalistics: Biological Evidence (3) OR	
FOR106	Forensic Science: Biological Evidence (4)	3-4
FYE101	Introduction to College, Career and Personal Success (1) OR	
FYE103	Exploration of College, Career and Personal Success (3)	1-3

Students should select courses from one of the following specializations based on career goals.

Specialization 1: Crime Scene (15 credits)

AJS109	Substantive Criminal Law	3
AJS210	Constitutional Law	3
AJS213	Evidence Technology/Fingerprints	3
AJS214	Evidence Technology/Photography	3
AJS260	Procedural Criminal Law	3

Specialization 2: Lab Science (23 credits)

ASM/FOR275	Forensic Anthropology	4
+ CHM151	General Chemistry I	3

+ CHM151LL	General Chemistry I Laboratory	1
+ CHM152	General Chemistry II	3
+ CHM152LL	General Chemistry II Laboratory	1
+ PHY111	General Physics I	4
+ PHY112	General Physics II	4
Any course with the HU, C and G general education designations (3) OR		
Any course with the HU, C and H general education designations (3)		3

Restricted Electives: (3 credits) **Credits**

Students must complete three credits of restricted electives.

Students interested in the **Specialization 1: Crime Scene**

CIS105	Survey of Computer Information Systems (3) OR
BPC110	Computer Usage and Applications (3) OR
AJS+++++	Any AJS Administration of Justice Studies course not listed in the required courses area. (3)

Students interested in the **Specialization 2: Lab Science**

CIS105	Survey of Computer Information Systems (3) OR
BPC110	Computer Usage and Applications (3)

General Electives: (0-10 (0-14) credits) **Credits**

Students must choose 0 to 10 additional credits of general elective courses. Total number of general electives required will largely depend upon specialization selected.

General Education Requirements: (12-24 credits)

General Education Core: (12-20 credits) **Credits**

First-Year Composition: 6

+ ENG101	First-Year Composition (3) OR
+ ENG107	First-Year Composition for ESL (3)
AND	
+ ENG102	First-Year Composition (3) OR
+ ENG108	First-Year Composition for ESL (3)

Oral Communication: 3

+ COM225	Public Speaking
----------	-----------------

Critical Reading: 0-3

+ CRE101	College Critical Reading and Critical Thinking (3) OR
Equivalent as indicated by assessment.	

Mathematics: 3-8

For Specialization 1: Crime Scene (3-5)

+ MAT140	College Mathematics (5) OR
+ MAT141	College Mathematics (4) OR
+ MAT142	College Mathematics (3) OR
Higher course with an [MA] general education designation (3-5)	

For Specialization 2: Lab Science (3-8)

+ MAT150	College Algebra/Functions (5) OR
+ MAT151	College Algebra/Functions (4) OR
+ MAT152	College Algebra/Functions (3) AND
+ MAT182	Plane Trigonometry (3) OR
+ MAT187	Precalculus (5) OR
Higher course with an [MA] general education designation (3-8)	

For **Specialization 2: Lab Science** met by CHM151 and CHM151LL.

Foundations of Early Childhood Education CCL 5054

Certificate of Completion – 18-19 credits

Field of Interest: Education

For Information: Tina LeBaron

Phone: 623.845.3628

<https://www.gccaz.edu/consumer-sciences>

Program Description: The Certificate of Completion (CCL) in Foundations of Early Childhood Education is designed to prepare students with foundational knowledge regarding the growth and development of the young child. Topics include cognitive and physical development of the young child, language acquisition, curriculum development, health and safety guidelines, business procedures, and family/community relationship building. This CCL is embedded (can be used to fulfill part of the requirements) in a second available CCL, Early Childhood Education. Both CCLs are embedded (can be used to fulfill requirements) in the Associate in Applied Science (AAS) in Early Childhood Education.

Program Notes: Students must earn a grade of C or better for all courses within the program.

For some employment and field experiences (including internship courses), students will be required to have a current Identity Verified Print (IVP) Fingerprint Clearance Card and a current TB vaccination.

This program also is offered at Chandler-Gilbert, Estrella Mountain, Mesa, Paradise Valley, Phoenix, Rio Salado, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (18-19 credits)

Required Courses (15-19 credits)	Credits
CFS/ECH176 Child Development(3) OR	
CFS235 Developing Child: Theory into Practice, Prenatal - Age Eight(3) OR	
EED205 The Developing Child: Prenatal to Age Eight (3)	3
EED200 Foundations of Early Childhood Education	3
CFS/ECH271 Arranging the Environment(1)	
AND	
CFS282 Mainstreaming The Young Child with A Disability (1)	

AND		
ECH282	Discipline/Guidance of Child Groups (1) OR	
EED212	Guidance, Management and the Environment (3)	3
CFS123	Health and Nutrition in Early Childhood (1)	
AND		
CFS125	Safety in Early Childhood Settings (1)	
AND		
ECH280	Food Experiences With Young Children (1) OR	
EED215	Early Learning: Health, Safety, Nutrition and Fitness (3)	3
CFS101AH	Art Activities for the Young Child (1)	
AND		
ECH281	Movement/Music for the Young Child (1) OR	
ECH128	Early Learning: Play and the Arts (3) OR	
+ EED210	Creative and Cognitive Play (3)	2-3
EDU222	Introduction to the Exceptional Learner (3)	
EED222	Introduction to the Exceptional Young Child: Birth to Age Eight (3) OR.....	3
+ CFS/ECH284AA	Early Childhood Teaching Internship (1) OR	
+ EED260	Early Childhood Infant/Toddler Internship (1) OR	
+ EED261	Early Childhood Preschool Internship (1)	1

General Business AAS 3148

Associate in Applied Science - 62-69 credits

Field of Interest: Business, Entrepreneurialism, and Management

For Information: Scott Stroher

Phone: 623.845.3453

<https://www.gccaz.edu/business>

Program Description: The Associate in Applied Science (AAS) in General Business program is designed to meet the needs of students who wish a broad overview of business and desire not to enroll in a specialized curriculum in business. The program is designed to acquaint students with major subject areas of business, to improve the student's business vocabulary, and to provide students with an understanding of influencing factors in business decision making and activities. In addition, this program may aid a student in recognizing a specific business field to be pursued in future studies. A Certificate of Completion (CCL) in General Business is available.

Program Notes: Students must earn a grade of C or better in all courses in the program.

This program also is offered at Chandler-Gilbert, Estrella Mountain, GateWay, Mesa, Paradise Valley, Phoenix, Rio Salado, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (22-24 credits)

Credits

ACC111	Accounting Principles I	3
CIS105	Survey of Computer Information Systems	3
FYE101	Introduction to College, Career and Personal Success (1) OR	
FYE103	Exploration of College, Career and Personal Success (3).....	1-3
GBS120	Workplace Communication Skills (3) OR	

+ GBS233	Business Communication (3)	3
GBS151	Introduction to Business	3
GBS205	Legal, Ethical and Regulatory Issues in Business	3
MGT175	Business Organization and Management (3) OR	
MGT251	Human Relations in Business (3)	3
MKT271	Principles of Marketing	3

Restricted Electives: (18 credits) **Credits**

Students should select 18 credits from the following courses/subjects.

Any 100/200 level courses in the following subjects can be used, except courses used to satisfy the Required Courses area.

ACC+++	Any ACC Accounting course(s)	
CIS114DE	Excel Spreadsheet	3
CIS117DM	Microsoft Access: Database Management	3
CIS133DA	Internet/Web Development Level I	3
EPS+++	Any EPS Entrepreneurial Studies course(s)	
GBS+++	Any GBS General Business course(s)	
IBS+++	Any IBS International Business course(s)	
MGT+++	Any MGT Management course(s)	
MKT+++	Any MKT Marketing course(s)	
REA+++	Any REA Real Estate course(s)	
SBS+++	Any SBS Small Business Management course(s)	

General Education Requirements: (22-27 credits)

General Education Core: (12-17 credits) **Credits**

First-Year Composition:		6
+ ENG101	First-Year Composition (3) OR	
+ ENG107	First-Year Composition for ESL (3)	
AND		
+ ENG102	First-Year Composition (3) OR	
+ ENG108	First-Year Composition for ESL (3)	

Oral Communication:		3
COM100	Introduction to Human Communication (3)	
COM110	Interpersonal Communication (3)	
+ COM225	Public Speaking (3) OR	
COM230	Small Group Communication (3)	

Critical Reading:		0-3
+ CRE101	College Critical Reading and Critical Thinking (3) OR Equivalent as indicated by assessment.	

Mathematics:		3-5
Any approved general education course from the Mathematics area.		

General Education Distribution: (10 credits) **Credits**

Humanities, Arts and Design:		3
Any approved general education course in the Humanities, Arts and Design area.		

Social-Behavioral Sciences:		3
ECN211	Macroeconomic Principles (3) OR	
ECN212	Microeconomic Principles (3) OR	

Natural Sciences:

Any approved general education course in the Natural Sciences area.

General Business CCL 5683**Certificate of Completion - 21 credits**

Field of Interest: Business, Entrepreneurialism, and Management

For Information: Scott Stroher

Phone: 623.845.3453

<https://www.gccaz.edu/business>

Program Description: The Certificate of Completion (CCL) in General Business is designed to provide business training for various entry-level positions in business. The courses include an introduction to business concepts, accounting and computer principles, and legal issues related to business. An Associate in Applied Science (AAS) is also available.

Program Notes: Students must earn a grade of C or better in all courses in the program.

This program also is offered at Chandler-Gilbert, GateWay, Mesa, Paradise Valley, Phoenix, Rio Salado, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (12 credits)		Credits
ACC111	Accounting Principles I	3
CIS105	Survey of Computer Information Systems	3
GBS151	Introduction to Business	3
GBS205	Legal, Ethical and Regulatory Issues in Business.....	3

Restricted Electives: (9 credits)**Credits**

Students should select nine credits from the following courses/subjects. Any 100/200 level courses in the following subjects can be used, except courses used to satisfy the Required Courses area.

ACC+++	Any ACC Accounting course(s)	
CIS114DE	Excel Spreadsheet.....	3
CIS117DM	Microsoft Access: Database Management.....	3
CIS133DA	Internet/Web Development Level I.....	3

SBS+++	Any SBS Small Business Management course(s)	

Geology and Earth Science General Information

Field of Interest: Science, Technology, Engineering, and Mathematics

For Information: Gary Calderone

Phone: 623.845.3654

<https://www.gccaz.edu/physical-sciences>

Student Goals: Transfer, General Education

Geology is the scientific study of the Earth - its composition, structure, history, processes, and its interaction with biological systems and life forms, including humans. Geologists provide the fundamental information required by society to solve problems in resource development, land-use planning, water resource management, geologic hazards, and

environmental policy. Furthermore, geologists perform the basic research necessary to understand such processes as global climate change, biological extinctions, earthquakes, and volcanic hazards. Finally, geologists are called upon to find new sources of useful earth materials to balance society's growing demand for energy and materials and the need to conserve resources for future generations.

Employment opportunities for geologists include the areas of water resource management, environmental consulting for civil engineering and private development enterprises, oil and mineral exploration and production, geologic hazard assessment, federal/state research, management, and environmental agencies, and teaching.

The recommendations below are designed as the first two years for students intending to pursue the bachelor's degree in geology, earth science, geophysics-geochemistry, or hydrology. Students should consult a Department Advisor for specific requirements of senior institutions.

Geology Major Recommendations:

The following courses are required by each of the State's Universities.

GLG101	Introduction to Geology I - Physical Lecture.....	3
GLG103	Introduction to Geology I - Physical Lab	1
GLG102	Introduction to Geology II - Historical Lecture.....	3
GLG104	Intro to Geology II - Historical Lab	1

Other Recommendations for Geology Majors:

Credits

+ CHM151	General Chemistry I.....	3
+ CHM151LL	General Chemistry I Laboratory	1
+ CHM152	General Chemistry II	3
+ CHM152LL	General Chemistry II Laboratory	1
+ MAT220	Calculus with Analytic Geometry I (5) OR	
+ MAT221	Calculus with Analytic Geometry I (4)	4-5
+ MAT230	Calculus with Analytic Geometry II (5) OR	
+ MAT231	Calculus with Analytic Geometry II (4)	4-5
+ PHY 115	University Physics I.....	5
+ PHY 116	University Physics II.....	5

Other Recommendations for non-majors:

Credits

Geology can be used to satisfy both the Science and Global and Historical Awareness requirements of the AGEC-A and AGEC-B and the Optional Sciences requirement of AGEC-S. When taken in combination of lecture and lab together, Physical Geology (GLG101 and GLG103) or Geologic Disasters and the Environment (GLG110 and GLG111) will satisfy the [SQ] lab science requirement. Likewise, when taken in combination of lecture and lab together, Historical Geology (GLG102 and GLG104) will satisfy [SG] lab science requirements. GLG105 or the combination of GLG110/GLG111 will satisfy the Global Awareness [G] credit. GLG102 qualifies for Historical Awareness [H] credit.

GLG103	Introduction to Geology I - Physical Lab	1
GLG102	Introduction to Geology II - Historical Lecture.....	3
GLG104	Introduction to Geology II - Historical Lab.....	1
GLG105	Introduction to Planetary Science	4
GLG110	Geologic Disasters and the Environment.....	3
GLG111	Geological Disasters and the Environment Lab	1

History General Information

Field of Interest: Culture and Society

For Information: Donna Allen

Phone: 623.845.4760

Student Goals: General Education, Career-related, Personal Interest

History concerns the political, economic, social, and cultural events and achievements of humanity. Historians analyze and evaluate this material in an attempt to understand the past and interpret the present.

History courses at Glendale Community College serve students who intend to major in history at a four-year institution, students who need these courses in preparation for other courses and to fulfill general education requirements at most universities, and students choosing them for personal interest. Students intending to pursue a baccalaureate degree in history should consult with a departmental advisor to plan their program.

Those with a baccalaureate in history will find the teaching field crowded. Careers with museums, historical societies, special libraries, archives, government agencies, and communication media (consulting and research) should be explored. Because of its breadth as a part of the liberal arts curriculum, a baccalaureate in history provides excellent preparation for any occupation emphasizing communications skills and personal relations, e.g., journalism, civil service, law, foreign service, publishing, and public relations.

Homeland Security CCL 5322N

Certificate of Completion - 15 credits

This program is not eligible for Title IV Federal Financial Aid

Fast Track Certificate: Homeland Security CCL 5322N

Field of Interest: Behavioral Science and Human Services

For Information: Paul Brown

Phone: 623.845.3913

<https://www.gccaz.edu/public-safety-sciences>

Program Description: The Certificate of Completion (CCL) in Homeland Security program is designed to provide students with the knowledge and skills needed to conduct a homeland security evaluation and to assess, investigate and respond to terrorism incidents. It also provides criminal justice practitioners with an opportunity for academic growth and the development of specialized skills in homeland security.

Program Notes: Students must earn a grade of C or better in all courses required within the program.

This program also is offered at Chandler-Gilbert, GateWay, Mesa, Paradise Valley, Phoenix, Rio Salado, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (15 credits)		Credits
AJS/FSC139	Emergency Response to Terrorism	3
AJS/FSC147	Emergency Preparedness	3
AJS/FSC148	Fundamentals of Emergency Management	3
AJS/FSC149	Hazard Mitigation	3
AJS195	International and Domestic Terrorism	3

Honors Program General Information

For Information: Honors Office – 07 Building

Phone: 623.845.3650

<https://www.gccaz.edu/honors>

The Honors Program at Glendale Community College offers talented and motivated students opportunities for academic and personal growth through many special courses that emphasize critical thinking, verbal expression, and creative problem solving. Small classes, usually limited to 17 students, make it possible for excellent professors to give more individualized attention to students.

Honors courses are offered in all Fields of Interest and most satisfy a general education requirement for graduation from GCC. Honors courses fit into a student's guided pathway, and most courses will transfer to four-year colleges and universities. Honors courses are indicated as such on transcripts. Students who complete a minimum of 15 honors credits (pass/fail credits excluded), complete required co-curricular activities, and whose cumulative grade-point average is 3.500 or higher will be designated as Honors Program Graduates.

Honors Program Graduates are awarded special recognition at commencement and on their transcripts and diploma. They are encouraged to apply for Honors Programs and scholarships at state universities and other institutions.

Benefits of the Honors Program:

- Provisional membership in Phi Theta Kappa, a national honors fraternity.
- Financial awards.
- Special recognition for honors achievements.
- Participation in cultural, social, and service activities.
- Honors Forums.
- Assistance with transfer to Arizona state universities.
- Eligibility to participate in regional, national, and international programs and conferences.

For further information, please visit <https://www.gccaz.edu/honors>, or contact the Honors Office at 623.845.3650.

Presidents' Honors Scholarship

Recent graduates of a secondary education program in Maricopa County (including NCA-accredited, charter, private, religious high schools, and homeschool) with a final, unweighted GPA of 3.250 or higher may apply for the Presidents' Honors Scholarship.

Qualified students must enroll during the academic year following high school graduation without having enrolled in any institution other than a Maricopa Community College. Students submitting the Presidents' Honors Scholarship application must be able to show legal presence in the United States and be eligible to receive public funds. In addition, students must also be a resident of Maricopa County while on scholarship.

Application materials and information on deadlines can be found at: <https://www.gccaz.edu/honors/apply/presidents-honors-scholarship>

If accepted, Presidents' Scholars must meet the following requirements as a condition of their scholarships:

- Attend all Honors Program orientations and meetings, including those conducted virtually via Canvas.
- Submit all required acknowledgements and renewal agreements.
- Enroll in and complete a minimum of 12 credits at the 100+ level (pass/fail credits excluded) each Fall and Spring semester.
- Enroll in and complete with a grade of C or higher at least 3 credits of Honors coursework/contract each semester.
- Maintain a cumulative Grade Point Average (GPA) of 3.250 or higher. (Cumulative GPA does include all Maricopa Community College credits.)
- Maintain continuous enrollment for the four semesters (summer session excluded).
- Complete two co-curricular activities each semester as defined by the Honors Program.

Students who do not meet the requirements for retention face the loss of their scholarships, which cannot be reinstated, and they may be billed for tuition and fees for the semester in which they are enrolled.

Honors Program students should not withdraw from courses or alter class schedules without first consulting the Honors Office.

All refund, drop-add, and withdrawal policies, dates, and deadlines apply to Honors Program students.

Honors Achievement Award

Continuing and transfer students who have accumulated a minimum of 12 credits in courses numbered 100 and above (pass/fail credits excluded) and who have a cumulative MCCCD GPA of 3.250 or higher may apply for the Honors Achievement Award.

Application materials and information on deadlines can be found at: <https://www.gccaz.edu/honors/apply/honors-achievement-award>

An Honors Achievement Award is earned at the end of the semester when a student successfully meets all the requirements to receive an award:

- Apply for the award before the deadline.
- Attend all Honors Program orientations and meetings, including those conducted virtually via Canvas.
- Submit all required acknowledgements and renewal agreements.
- Enroll in and complete a minimum of six or more credits at the 100+ level (pass/fail credits excluded).
- Enroll in and complete with a grade of C or higher at least 3 credits of honors coursework/contract each semester.
- Complete one co-curricular activity as defined by the Honors Program.

Number of Credits	Amount of Fee Waiver
12 or more	\$500.00
9 - 11	\$325.00
6 - 8	\$244.00
Less than 6	not eligible for an award

Students will receive the Honors Achievement Award at the end of the semester in which they participate in the program.

The amount of the award is determined by the number of credits completed. All refund, drop-add, and withdrawal policies, dates, and deadlines apply to Honors Program students.

Clarion Award

The Clarion Award is for current Maricopa Community College students who have an interest in the Honors Program or taking Honors courses but are unable to be funded. Recipients of the Clarion Award are not eligible for any scholarship funds.

Recipients of the Clarion Award must meet the following requirements during each semester they receive the award:

- Attend all Honors Program orientations and meetings, including those conducted virtually via Canvas.
- Submit all required acknowledgements and renewal agreements.
- Complete six or more credits of 100+ level coursework (pass/fail credits excluded).
- Enroll in and complete with a grade of C or higher at least 3 credits of honors coursework/contract each semester.
- Complete at least one co-curricular event as defined by the Honors Program.

For more information about the Clarion award or to apply, contact the Honors

Program at <https://www.gccaz.edu/honors>.

Human Resources Management CCL 5580

Certificate of Completion - 24 credits

Field of Interest: Business, Entrepreneurialism, and Management

For Information: Kendra Swensen

Phone: 623.845.3749

<https://www.gccaz.edu/business>

Program Description: The Certificate of Completion (CCL) in Human Resources Management program is designed to provide skills necessary for careers in human resources management. The program is designed to provide students a series of courses with an emphasis in management and is designed to prepare students for an entry-level position in human resources. Graduates may be employed in employment (recruiting, interviewing, and hiring), benefits administration, compensation, and employee relations.

Program Notes: Students must earn a grade of C or better in all courses required within the program.

This program also is offered at Chandler-Gilbert, Mesa, Phoenix, Rio Salado, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (24 credits)		Credits
BPC110	Computer Usage and Applications (3) OR	
CIS105	Survey of Computer Information Systems (3)	3
GBS205	Legal, Ethical, and Regulatory Issues in Business	3
GBS131	Business Calculations (3) OR	
+ MAT112	Mathematical Concepts and Applications (3) OR	
	Satisfactory completion of higher level Mathematics course.	3
GBS120	Workplace Communication Skills	3
MGT229	Management and Leadership I	3
MGT251	Human Relations in Business	3
MGT276	Human Resources Management	3
+ MGT286	Human Resource Employment Management.....	3

Information Security AAS 3039

Associate in Applied Science - 63-74 credits

Field of Interest: Computer and Information Technology

For Information: Martin Bencic

Phone: 623.845.3237

<https://www.gccaz.edu/business>

Program Description: The Associate in Applied Science (AAS) in Information Security degree is designed to provide students with the knowledge and tools to understand how networks, operating systems and programs function. Emphasis is placed on developing the theoretical and practical skills needed to maintain security on mission-critical data and systems. The program is designed to meet the training needs of government and industry employees. The program covers a variety of information security disciplines which include both vendor-neutral and vendor-specific information technology (IT) security training. The Information Security program prepares students for internationally recognized IT certifications and high demands in business, industry and government.

Program Notes: Students must earn a grade of a C or better for all courses required within the program.

Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.¹

Program Prerequisites: None.

⁺ indicates course has pre/corequisites. ⁺⁺ indicates suffixed courses

Required Courses: (29-31 credits)	Credits
Certificate of Completion (CCL) in Information Security Technology (5347).....	28

FY E101	Introduction to College, Career and Personal Success (1) OR	
FY E103	Exploration of College, Career and Personal Success (3).....	1-3

Restricted Electives: (12-16 credits)	Credits
Students should select at least four courses from the list below. A minimum of six credits must be ITS prefixed course.	
+ CIS1+++ Any CIS programming Level I course	3
+ CIS271DL Linux Security	3
+ CNT150AB Switching, Routing, and Wireless Essentials.....	4
+ CNT160AB Enterprise Networking, Security, and Automation.....	4
+ CNT205 Cisco Certified Network Associate Security.....	4
ITS++++ Any ITS Information Technology Security course except courses used to satisfy Required Courses area.	6-16

General Education Requirements: (22-27 credits)

General Education Core: (12-17 credits)	Credits
--	----------------

First-Year Composition:	6
+ ENG101 First-Year Composition (3) OR	
+ ENG107 First-Year Composition for ESL (3)	
AND	
+ ENG102 First-Year Composition (3) OR	
+ ENG108 First-Year Composition for ESL (3)	

Oral Communication:	3
Any approved general education course in the Oral Communications area.	

Critical Reading:	0-3
+ CRE101 College Critical Reading and Critical Thinking (3) OR Equivalent as indicated by assessment.	

Mathematics:	3-5
+ MAT150 College Algebra/Functions (5) OR Higher level mathematics course.	

General Education Distribution: (10 credits)	Credits
---	----------------

Humanities, Arts and Design:	3
Any approved general education course from the Humanities, Arts and Design area.	

Social-Behavioral Sciences:	3
Any approved general education course from the Social-Behavioral Sciences area.	

Natural Sciences:	4
Any approved general education course from the Natural Sciences area.	

Information Security Technology CCL 5347

Certificate of Completion - 28 credits

Field of Interest: Computer and Information Technology

For Information: Martin Bencic

Phone: 623.845.3237

<https://www.gccaz.edu/business>

Program Description: The Certificate of Completion (CCL) in Information Security Technology program is designed to provide students with the knowledge and tools to understand how networks, operating systems and programs function, as well as, how to protect them. Emphasis is placed on developing the knowledge and skills to maintain security on mission-critical data and computer systems. The program is designed to meet the training needs of employees in both public and private sectors. The program covers a variety of information security disciplines that include both vendor-neutral and vendor-specific security training. The Information Security Technology program is designed to help prepare students for internationally recognized industry certifications.

Program Notes: Students must earn a grade of C or better in all courses within the program.

Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.¹

Program Prerequisites: None.

Required Courses: (28 credits)		Credits
BPC170	A+ Exam Prep: Computer Hardware Configuration and Support	3
CIS105	Survey of Computer Information Systems	3
CIS126DL	Linux Operating System	3
 + CIS238++	Any UNIX/Linux Administration course (3) OR	
+ CIS239DL	Linux Shell Scripting (3)	3
 + CNT140AB	Introduction to Networks	4
+ ITS110	Information Security Fundamentals	3
+ ITS120	Legal, Ethical and Regulatory Issues	3
+ ITS130	Operating System Security	3
MST150++	Any Microsoft Windows Operating System course	3

Information Technology AAS 3196

Associate in Applied Science - 61-68 credits

Field of Interest: Computer and Information Technology

For Information: Bill Stewart

Phone: 623.845.3250

Or

For Information: Martin Bencic

Phone: 623.845.3237

<https://www.gccaz.edu/business>

Program Description: The Associate in Applied Science (AAS) in Information Technology (IT) program is designed to provide students with skills to meet information technology needs across industries. This program includes instruction in the principles of computer hardware components and business software, programming, databases, networking, customer service, web development, and information systems and project management. Coursework helps prepare students for a variety of industry-recognized examinations and certifications. Students will earn one or more of the following Certificates of Completion (CCLs):

CCL/5154	Cybersecurity Fundamentals
CCL/5083	Database Development
CCL/5043	Desktop Support
CCL/5793	Foundations of Mobile App Development
CCL/5132	Microsoft Office Professional

¹ + indicates course has pre/corequisites. ++ indicates suffixed courses

CCL/5031	Microsoft System Administration
CCL/5048	Programming and Systems Analysis Level I
CCL/5183N	Oracle Database Operations
CCL/5050N	Red Hat Linux Engineer
CCL/5984	Web Foundations

Program Notes: Students must earn a grade of C or better in all courses required within the program.

Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.¹

This program also is offered at Chandler-Gilbert, Estrella Mountain, GateWay, Mesa, Paradise Valley, Phoenix, Rio Salado, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (33-41 credits)

Credits

FY E101	Introduction to College, Career and Personal Success (1) OR	
FY E103	Exploration of College, Career and Personal Success (3)	1-3

Complete all courses in the specialization below that best aligns with your academic and professional goals. Consult with an Academic, Faculty, or Program Advisor.

Specialization 1: Cybersecurity Fundamentals - Credits: 32-38

Information Technology Core Credits: 24-25

+ BPC270	A + Exam Prep: Operating System Configuration and Support (3) OR	
MST150++	Any Microsoft Windows course (3)	3
CIS105	Survey of Computer Information Systems	3
CIS117DM	Microsoft Access: Database Management (3) OR	
+ CIS119DO	Introduction to Oracle: SQL (3) OR	
+ CIS276DA	MySQL Database (3) OR	
+ CIS276DB	SQL Server Database (3)	3
CIS126DL	Linux Operating System (3) OR	
CIS126RH	Red Hat System Administration I (3)	3
CIS133DA	Internet/Web Development Level I	3
+ CIS156	Python Programming: Level I	3
+ CIS190	Introduction to Networking (3) OR	
CNT140AB	Introduction to Networks (4)	3-4
CIS224	Project Management Microsoft Project for Windows (3) OR	
+ CIS250	Management of Information Systems (3)	3
Students taking CIS271DB would be required to take CIS250.		

Cybersecurity Fundamentals Credits: 9-12

CIS111	Ethics in Information Technology (3) OR	
+ ITS120	Legal, Ethical and Regulatory Issues (3)	3
+ CIS270	Essentials of Network and Information Security (3) OR	
+ CIS271DB	Information Security Essentials (3) AND	
+ CIS272DB	Information Security Principles (3) OR	

⁺ indicates course has pre/corequisites. ++ indicates suffixed courses

+ ITS110	Information Security Fundamentals (3)	3-6
+ ITS240	Ethical Hacking and Network Defense	3

Related Area Credits: 0-5

Select courses with one of the following prefixes to complete a minimum of 60 credits for the Associate in Applied Science (AAS) in Information Technology:

BPC++++	Any BPC Business-Personal Computers courses
CIS++++	Any CIS Computer Information Systems courses
CLD++++	Any CLD Cloud Computing courses
CNT++++	Any CNT Cisco Network Technology courses
ITS++++	Any ITS Information Technology Security courses
MST++++	Any MST Microsoft Technology courses

Specialization 2: Database Development - Credits 36-38

Information Technology Core Credits: 21-22

+ BPC270	A+ Exam Prep: Operating System Configuration and Support (3) OR Linux Operating System (3) OR Red Hat System Administration I (3) OR Microsoft Windows (3)	3
CIS126DL		
CIS126RH		
MST150++		
 + CIS105	Survey of Computer Information Systems	3
+ CIS119DO	Introduction to Oracle: SQL	3
CIS133DA	Internet/Web Development Level I	3
 + CIS156	Python Programming: Level I (3) OR	
+ CIS162++	Any C Programming: Level I course (3) OR	
+ CIS163AA	Java Programming: Level I (3)	3
 + CIS190	Introduction to Networking (3) OR	
CNT140AB	Introduction to Networks (4)	3-4
 CIS224	Project Management Microsoft Project for Windows (3) OR	
CIS250	Management of Information Systems (3)	3

Database Development Credits: 15

CIS117DM	Microsoft Access: Database Management (3) OR	
+ CIS154	Database Modeling and Design (3)	3
 + CIS150++	Programming Fundamentals	3
 + CIS164AB	Oracle: PL/SQL Programming (3) OR	
+ CIS276DA	MySQL Database (3) OR	
+ CIS276DB	SQL Server Database (3)	3
 + CIS217AM	Advanced Microsoft Access: Database Management (3) OR	
+ CIS276DB	SQL Server Database (3) 3	
 + CIS225AB	Object-Oriented Analysis and Design	3

Related Area Credits: 0-2

Select courses with one of the following prefixes to complete a minimum of 60 credits for the Associate in Applied Science (AAS) in Information Technology:

iOS App Development CCL 5914N**Certificate of Completion - 9-12 credits**

This program is not eligible for Title IV Federal Financial Aid

Fast Track Certificate: iOS App Development CCL 5914N

Field of Interest: Computer and Information Technology

For Information: Bill Stewart

Phone: 623.845.3250

<https://www.gccaz.edu/business>

Program Description: The Certificate of Completion (CCL) in iOS App Development prepares students for positions in app development for the Apple iPad, iPhone, and Apple Watch series. The program emphasizes knowledge and skills required to design, develop, test, and document structured and object-oriented programs utilizing Swift and XCode. Courses in this certificate can apply toward the Associate in Applied Science (AAS) in Mobile App Development and CCLs in Native App Development and Mobile App Development.

Program Notes: Students must earn a grade of C or better for all courses required within the program.

Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.¹

This program also is offered at Chandler-Gilbert, GateWay, Mesa, Paradise Valley, Phoenix, Rio Salado, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (9-12 credits)**Credits**

Journalism, Mass Communications and New Media Studies General Information

Field of Interest: Culture and Society

For Information: Dr. Jennifer Lane

Phone: 623.845.3436

<https://www.gccaz.edu/english>

Student Goals: Career-related, Transfer

Journalism training is based on a broad liberal arts program because the journalist must be well-rounded. In addition, the ability to put that knowledge into words is essential. Despite the tremendous technological growth now affecting news dissemination, no electronic shortcuts will replace the journalist of tomorrow. Reporters and editors will always be needed to witness events, gather facts, make news judgments, and deliver the news. Recent employment studies show that journalism and communication graduates found jobs in daily newspapers, weekly newspapers, public relations, advertising, wire services, magazines, and news broadcasting. A sizable number of graduates found non-media jobs including sales, management, and clerical positions.

It is important for students planning a journalism career to consult with an advisor as soon as possible so that a sequence of journalism experiences can be planned for the maximum benefit of the student.

Transferability: Journalism and Mass Communications courses vary as to acceptance at four-year institutions. Students should consult with an advisor at both Glendale Community College and the four-year school to which they plan to transfer. Due to limited course offerings, degree-seeking students may find it necessary to extend completion timelines and attend both day and evening classes.

Kubernetes Administration CCL 5933N

Certificate of Completion - 4-10 credits

This program is not eligible for Title IV Federal Financial Aid.

Field of Interest: Computer and Information Technology

For Information: Andrea Schauer

Phone: 623.845.3502

<https://www.gccaz.edu/consumer-sciences>

Program Description: The Certificate of Completion (CCL) in Kubernetes Administration is designed to provide students with the knowledge and skills to perform the responsibilities of administering cluster architecture, installation, configuration, storage and troubleshooting. This program helps prepare students for the Certified Kubernetes Administrator certification (CKA). Industry professionals in the field of systems administration will benefit from adding a specialization in Kubernetes administration to their skill sets.

Program Notes: Students must earn a grade of C or better in each course in the program.

This program also is available at Chandler-Gilbert and Mesa Community Colleges.

Program Prerequisites: None.

Kubernetes Application Development CCL 5935N

Certificate of Completion - 3-6 credits

This program is not eligible for Title IV Federal Financial Aid.

Field of Interest: Computer and Information Technology

For Information: Andrea Schauer

Phone: 623.845.3502

<https://www.gccaz.edu/consumer-sciences>

Program Description: The Certificate of Completion (CCL) in Kubernetes Application Development is designed to provide students with the knowledge and skills to define application resources and use core primitives to build, monitor and troubleshoot scalable applications and tools in Kubernetes. This program helps prepare students for the Kubernetes Security Specialist (CKAD) certification exam. Industry professionals in the field of application development will enhance their skill set by adding this specialization.

Program Notes: Students must earn a grade of C or better in each course in the program.

This program also is available at Chandler-Gilbert and Mesa Community Colleges.

Program Prerequisites: None.

Required Courses: (3-6 credits)

Credits

Knowledge of at least one programming language, such as Python, C++, JavaScript, Ruby, C# (C-Sharp), is recommended.

Kubernetes Security CCL 5937N

Certificate of Completion - 7-13 credits

This program is not eligible for Title IV Federal Financial Aid.

Field of Interest: Computer and Information Technology

For Information: Andrea Schauer

Phone: 623.845.3502

<https://www.gccaz.edu/consumer-sciences>

Program Description: The Certificate of Completion (CCL) in Kubernetes Security provides students the knowledge and skills to perform a broad range of best practices for securing container-based applications and Kubernetes platforms during build, deployment and runtime. This program helps prepare students for the Kubernetes Security Specialist (CKS) certification exam. Industry professionals in the field of information technology security will benefit from adding a specialization in Kubernetes security to their skill sets.

Program Notes: Students must earn a grade of C or better in each course in the program.

This program also is available at Chandler-Gilbert and Mesa Community Colleges.

Program Prerequisites: None.

Language Studies AC 6237N

Academic Certificate - 12-18 credits

This program is not eligible for Title IV Federal Financial Aid

Field of Interest: Culture and Society

For Information: Guiomar Borras

Phone: 623.845.3636

<https://www.gccaz.edu/communication>

Program Description: The Academic Certificate (AC) in Language Studies is designed to provide students with a foundation in the study of culture, language, and linguistic structures. Students will have the opportunity to develop oral and written communication skills in a language other than English.

Program Notes: Students must earn a grade of C or better in each course in the program.

Students may qualify to enter higher level Spanish courses by placement or may qualify to exempt out of taking any Spanish courses by assessment. Students wishing to earn credit for any course of which they are exempt by assessment should take the College-Level Examination Program (CLEP) examination or apply credits earned through the Advanced Placement (AP) or International Baccalaureate (IB) exams.

This program also is offered at Chandler-Gilbert, Mesa, and Rio Salado Community Colleges.

Program Prerequisites: (0-4 credits)

Credits

201-level proficiency in a language other than English as indicated by assessment or coursework..... 0-4

Required Courses: (6-8 credits)

Credits

SLC201 Introduction to Linguistics 3

AND

Students must choose three to five credits in 202 or higher-level coursework in the language used to satisfy the program prerequisites. 3-5

Restricted Electives: (6-10 credits)

Credits

Students must choose two courses from the list below. Prerequisites may not be used to satisfy the Restricted Electives:

AFR/ASB/CCS202 Ethnic Relations in the United States (3) OR

SOC241 Race and Ethnic Relations (3) 3

+ COM163

Intercultural Communication in Everyday Life 3

COM263

Elements of Intercultural Communication 3

Law Enforcement CCL 5987N

Certificate of Completion - 15 credits

This program is not eligible for Title IV Federal Financial Aid

Fast Track Certificate: Law Enforcement CCL 5987N

Field of Interest: Behavioral Science and Human Services

For Information: Genea Stephens

Phone: 623.845.3951

<https://www.gccaz.edu/public-safety-sciences>

Program Description: The Certificate of Completion (CCL) in Law Enforcement is designed for students who are interested in pursuing a course of study specifically focused on law enforcement. The certificate program specializes in training and education related to the duties of law enforcement. The program is designed for the student with no Arizona police academy experience and is one pathway to the Associate in Applied Science (AAS) in Administration of Justice.

Program Notes: Students must earn a grade of C or better in all courses within the program.

This program also is offered at Chandler-Gilbert, Estrella Mountain, Mesa, Paradise Valley, Phoenix, Rio Salado, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (15 credits)	Credits	
AJS101	Introduction to Criminal Justice	3
AJS123	Ethics and the Administration of Justice	3
AJS205	Effective Communication and Report Writing in Criminal Justice	3
AJS230	The Police Function	3
AJS275	Criminal Investigation I	3

Law Enforcement Investigation CCL 5899N

Certificate of Completion - 6 credits

This program is not eligible for Title IV Federal Financial Aid

Field of Interest: Behavioral Science and Human Services

For Information: Genea Stephens
Phone: 623.845.3951
<https://www.gccaz.edu/public-safety-sciences>

Program Description: The Certificate of Completion (CCL) in Law Enforcement Investigation is designed to prepare the law enforcement officer to become a specialist in the investigation of criminal activity and to successfully assist in prosecution. Courses address case management, legal aspects of interviewing, search and seizure, and courtroom presentations. Students will demonstrate skills related to these areas in a crime scene scenario.

Program Notes: Students must earn a grade of C or better for all courses within the program.

This program also is offered at Rio Salado Community College.

Program Prerequisites: None.

Admission Criteria: Student must be Law Enforcement personnel or have permission of Program Director.

Required Courses: (6 credits)	Credits
+ LET225	Criminal Investigations Certification (6) OR
+ LET225AA	Criminal Investigations Certification I (1)
AND	
+ LET225AB	Criminal Investigations Certification II (1)
AND

Any approved general education course in the Social-Behavioral Sciences area.

Natural Sciences: 4
Any approved general education course in the Natural Sciences area.

Law Enforcement Training Academy CCL 5991N

Certificate of Completion - 40 credits

This program is not eligible for Title IV Federal Financial Aid

Field of Interest: Behavioral Science and Human Services

For Information: Genea Stephens

Phone: 623.845.3951

<https://www.gecaz.edu/public-safety-sciences>

Student Goals: Career-related

This is a closed registration program: only persons employed as a full-time employee and sponsored by an Arizona law enforcement agency will be accepted into the Glendale Community College Law Enforcement Training Academy (GCC LETA).

The GCC LETA is an Arizona Peace Officers Standards and Training (AzPOST) approved academy providing the basic training required for Arizona sworn peace officers. Each academy class will span almost 24 full weeks of academically and physically rigorous training. AzPOST basic law enforcement basic training academy curriculum includes nearly 700 hours of required training and another 250 hours of agency requested training. This training is provided through both classroom interactive lecture, scenarios, and hands-on proficiency training.

Basic law enforcement academy classes across the state are frequently at or exceeding recommended capacity. Limitations on the numbers of academy slots available restrict law enforcement agencies' ability to meet the needs of the community. GCC is working to address this critical challenge by collaborating with West Valley law enforcement agencies to increase the availability of basic law enforcement training for new officers for our community. As a result, at this time, only persons employed as a full-time employee and sponsored by an Arizona law enforcement agency will be accepted into the GCC LETA.

Program Description: The Certificate of Completion (CCL) in Law Enforcement Training Academy is designed for students wishing to pursue a career as a law enforcement officer. The student will develop skills in eight functional areas: Introduction to Law Enforcement, Law and Legal Matters, Patrol Procedures, Traffic Control, Crime Scene Management, Community and Police Relations, Report Writing, and Police Proficiency Skills. At the conclusion of this program the student will have completed all requirements of the Arizona Peace Officer Standards and Training (AzPOST) Board standards established to certify police officers in the State of Arizona.

Program Notes: Students must earn a grade of C or better for all courses required within the program.

AZPOST regulations require AZPOST recognized instructors teach all coursework within this certificate and that this coursework follow lesson plans approved by AZPOST. Any AJS coursework that has already been completed, and was not taught by an AZPOST recognized instructor, will not satisfy the requirements of this certificate.

This Certificate of Completion (CCL) is offered as an educational partnership at Rio Salado College. Students are advised to meet with the program director, chair and/or Faculty Advisor. This Certificate of Completion is offered as a closed academy program at Chandler Gilbert Community College and Glendale Community College. Students at these colleges are advised to meet with the program director, chair and/or Faculty Advisor.

This program also is offered at Chandler-Gilbert and Rio Salado Community College.

Admission Criteria: Must meet AzPOST minimum requirements for a law enforcement officer and meet any physical requirements by the Academy Director.

Program Prerequisites: None.

Required Courses: (40 credits)

Leadership in Public Safety Organizations CCL 5211N

Certificate of Completion - 6 credits

This program is not eligible for Title IV Federal Financial Aid

Field of Interest: Behavioral Science and Human Services

Administration of Justice Studies Information: Paul Brown

Phone: 623.845.3913

www.gccaz.edu/public-safety-science

Fire Science Information: Raul Muniz

Phone: 623.845.4776

<https://www.gccaz.edu/public-safety-sciences>

Program Description: The Certificate of Completion (CCL) in Leadership in Public Safety Organizations program builds the industry knowledge and skills for individuals to transition to leadership positions in the field of public safety. This CCL will introduce students to the fundamental concepts and skills of professionalism, organizational culture and management, characteristics of effective teams, conflict resolution, motivation, systems-thinking, problem-solving, and leadership as applicable to public safety organizations. Students with the requisite experience in the field who complete this CCL can pursue employment in a variety of front-line leadership positions within the fields of public safety including law enforcement, fire service, and public safety support operations such as communication operators and property and records management.

Program Notes: Students must earn a grade of C or better for all courses within the program.

This program also is offered at Chandler-Gilbert, Mesa, and Phoenix Community Colleges.

Admission Criteria: This is a closed program for Public Safety professionals. Please see the Program Advisor for admission requirements.

Program Prerequisites: None.

Required Courses: (6 credits)

		Credits
LET173	Introduction to Leadership in Public Safety	2

+ LET174	Organizational Culture and Leadership	3
+ LET175	Public Safety Leadership Capstone	1

Linux Associate CCL 5046N

Certificate of Completion - 6-9 credits

This program is not eligible for Title IV Federal Financial Aid

Fast Track Certificate: Linux Associate CCL 5046N

Field of Interest: Computer and Information Technology

For Information: Martin Bencic

Phone: 623.845.3237

<https://www.gccaz.edu/business>

Program Description: The Certificate of Completion (CCL) in Linux Associate program is designed to help prepare students for employment or to improve current professional skills. The program includes Linux operating system basics and management including sophisticated manipulation of file structures, backup systems, printing processes, troubleshooting, user account management, hard disk maintenance and configuration, process monitoring and prioritizing, kernel customization, and system resource control. This program helps prepare students for the Linux Professional Institute Certification (LPIC-1) and CompTIA Linux + certification exams. Students who complete this program may seek employment in a variety of environments. Students can also pursue additional CCLs in a variety of specializations within the information technology field to deepen their knowledge and skills and to help prepare them for multiple industry certification examinations. An Associate in Applied Science (AAS) in Network and Systems Administration is also available.

Program Notes: Students must earn a grade of C or better in all courses within the program.

Students who pursue this Certificate of Completion (CCL) should have a basic level of computer literacy including navigating the internet and computer systems or take CIS105 as indicated in the required courses. Students with the requisite skills may have the CIS105 requirement waived by permission of the Program Director.

Required courses and restricted electives must be taken within five years prior to completion of the program to be applied toward this award.

Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.¹

This program also is offered at Chandler-Gilbert, Estrella Mountain, GateWay, Mesa, Paradise Valley, Phoenix, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (6-9 credits)

Credits

CIS105	Survey of Computer Information Systems (3) OR Permission of Program Director (O)	0-3
CIS126DL	Linux Operating System	3
+ CIS238DL	Linux System Administration	3

Linux System Administration CCL 5052N

Certificate of Completion - 15-18 credits

Mathematics General Information**Field of Interest: Science, Technology, Engineering, and Mathematics****For Information:** Dr. Chris Miller**Phone:** 623.845.3841<https://www.gccaz.edu/math>**Student Goals:** Career-related, General Education, Transfer.

Mathematics courses serve students who intend to major in mathematics at a four-year institution, students who need these courses in preparation for other careers, and students choosing them for personal interest. Students intending to pursue a baccalaureate degree in mathematics should consult with a departmental advisor to plan their program.

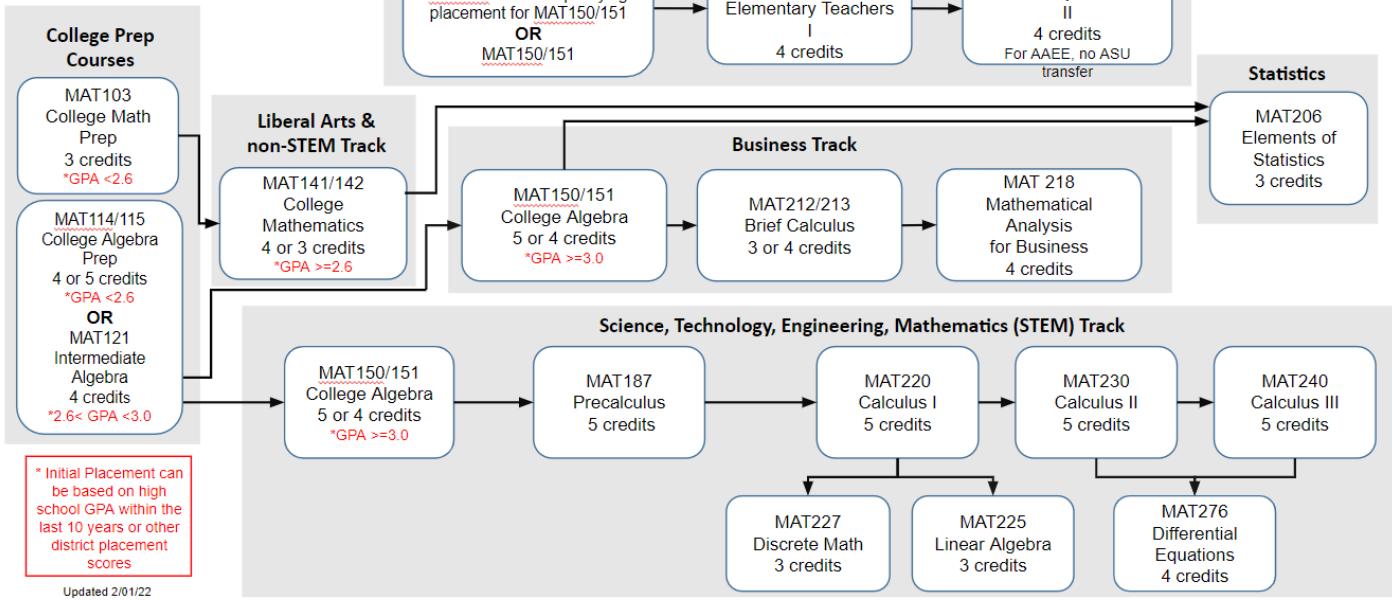

Mathematicians engage in a wide variety of activities ranging from the creating and relating of new theories to solving of simple or complex numerical problems. Some graduates engage in mathematics for money, some for humanitarian purposes, and some simply because they find it beautiful.

At a time when most job markets are tight, mathematicians can limit their career opportunities by failing to explore available options. Teaching and research are but two of a long list of possibilities. Related careers are applied mathematics, computer research and programming, biomedical engineering, accounting, pure mathematics, systems analysis, economics, physical and life science, statistics and actuarial professions.

Students should consult with a Science, Technology, Engineering, and Mathematics (STEM) Advisor in planning their academic schedule in order to complete degree requirements in an expedient manner. Due to limited course offerings, degree seeking students may find it necessary to extend completion timelines and attend both day and evening classes.

An Associate in Science Degree, Emphasis in Mathematics also is available.

Math Course Pathways (2022-2023)

Microsoft Certification Preparation General Information

Field of Interest: Computer and Information Technology

For Information: Kenneth Lein

Phone: 623.845.3232

<https://www.gccaz.edu/business>

Glendale Community College, Microsoft Authorized Academic Training Program provider, prepares students for industry-recognized certification.

Microsoft Desktop Associate CCL 5030N

Certificate of Completion - 3 credits

This program is not eligible for Title IV Federal Financial Aid

Fast Track Certificate: Microsoft Desktop Associate CCL 5030N

Field of Interest: Computer and Information Technology

For Information: Kenneth Lein

Phone: 623.845.3232

<https://www.gccaz.edu/business>

Program Description: The Certificate of Completion (CCL) in Microsoft Desktop Associate program is designed to provide students with background knowledge and skills required for learning the specific tasks and industry recognized standards associated with how to effectively install and configure Windows operating systems. The course includes basic features of the Windows operating system, virtualization improvements, network connectivity, access to resources, monitor and maintain Windows clients and backup and recovery. It is designed to prepare students for the Microsoft 365 Certified: Modern Desktop Administrator Associate certification exam. Students who complete this program may seek employment in a variety of environments. Students can also pursue additional CCLs in a variety of specializations within

the information technology field to deepen their knowledge and skills and to help prepare them for multiple industry certification exams. An Associate in Applied Science (AAS) in Network and Systems Administration is also available.

Program Notes: Students must earn a grade of C or better for all courses required within the program.

Students are encouraged, but not required, to complete CIS105, or CIS190, or CNT140AB prior to beginning this CCL. Students who pursue this Certificate of Completion (CCL) should have a basic level of computer literacy including navigating the internet and computer systems or take CIS105.

Required courses and restricted electives must be taken within five years prior to completion of the program to be applied toward this award.

Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.¹

This program also is offered at Chandler-Gilbert, Estrella Mountain, GateWay, Mesa, Paradise Valley, Phoenix, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (3 credits)		Credits
MST150WT	Installing and Configuring Microsoft Windows 10	3

Microsoft Office Professional CCL 5132

Certificate of Completion - 16-22 credits

Field of Interest: Computer and Information Technology

For Information: Kara Kujawa

Phone: 623.845.3997

<https://www.gccaz.edu/business>

Program Description: The Certificate of Completion (CCL) in Microsoft Office Professional emphasizes training on word processing, spreadsheet, database, and presentation software for business purposes. This certificate provides students with the knowledge and skills requisite of various business settings. This certificate helps with initial preparation for the Microsoft examinations for certification as a Microsoft Office Specialist (MOS). This certificate embeds into the Associate in Applied Science (AAS) degree in Information Technology and CCL in Microsoft Office Specialist.

Program Notes: Students must earn a grade of C or better for all courses required within the program.

Required courses and restricted electives must be taken within five years prior to completion of the program to be applied toward this award.

Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.¹

This program also is offered at Chandler-Gilbert, Estrella Mountain, GateWay, Mesa, Paradise Valley, Phoenix, Rio Salado, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Microsoft Office Specialist CCL 5137

Certificate of Completion - 25-31 credits

Field of Interest: Computer and Information Technology

For Information: Kara Kujawa

Phone: 623.845.3997

<https://www.gccaz.edu/business>

Program Description: The Certificate of Completion (CCL) in Microsoft Office Specialist emphasizes advanced training on word processing, spreadsheet, and database software for business purposes. This certificate builds upon the knowledge and skills gained by the CCL in Microsoft Office Professional for use in various business settings. This certificate helps prepare students for the Microsoft Office Specialist (MOS) certification examinations. This certificate embeds into the Associate in Applied Science (AAS) degree in Information Technology.

Program Notes: Students must earn a grade of C or better in all courses required within the program.

Required courses and restricted electives must be taken within five years prior to completion of the program to be applied toward this award.

Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.¹

This program also is offered at Chandler-Gilbert, Estrella Mountain, GateWay, Mesa, Paradise Valley, Rio Salado, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (25-31 credits)

The following courses are required and included in Microsoft Office Professional CCL:

Credits

BPC/OAS111AA	Computer Keyboarding I (1) OR Permission of Program Director (o)	0-1
CIS105	Survey of Computer Information Systems (3) OR Permission of Program Director (o)	0-3

CIS214DE	Advanced Excel Spreadsheet: Level II	3
CIS217AM	Advanced Microsoft Access: Database Management	3

Microsoft System Administration CCL 5031

Certificate of Completion - 18-21 credits

Field of Interest: Computer and Information Technology

For Information: Dr. Ken Lein

Phone: 623.845.3232

<https://www.gccaz.edu/business>

Program Description: The Certificate of Completion (CCL) in Microsoft System Administration program is designed to provide students with background knowledge and skills required for learning the specific tasks and industry recognized standards associated with computer networks and data communications. The program includes a core of Microsoft courses to develop professionals who implement, manage, and troubleshoot existing network and system environments based on current Microsoft operating systems including active directory, messaging services, file and print servers, and firewalls. The courses in the program are also designed to help prepare students for the Microsoft 365 Certified: Modern Desktop Administrator Associate and Microsoft Certified Solutions Associate (MCSA) - Windows Server 2016 certification exams. Students who complete this program may seek employment in a variety of environments. Students can also pursue additional CCLs in a variety of specializations within the information technology field to deepen their knowledge and skills and to help prepare them for multiple industry certification examinations. An Associate in Applied Science (AAS) in Network and Systems Administration is also available.

Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.¹

This program also is offered at Chandler-Gilbert, Estrella Mountain, Mesa, Paradise Valley, and Phoenix Community Colleges.

Program Notes: Students must earn a grade of C or better in all courses within the program.

Students who pursue this CCL should have a basic level of computer literacy including navigating the internet and computer systems or take CIS105 as indicated in the required courses. Students with the requisite skills may have the CIS105 requirement waived by permission of the Program Director.

Required courses and restricted electives must be taken within five years prior to completion of the program to be applied toward this award.

Program Prerequisites: None.

Required Courses: (18-21 credits)

Military Science General Information

Field of Interest: Culture and Society

For Information: Arizona State University ROTC Program

Phone: 480.965.3318

<https://militaryscience.asu.edu/>

Reserve Officer Training Corps (ROTC) offers, degree seeking individuals, a unique opportunity to develop leadership and management skills by providing motivation, generating confidence, establishing guidelines, and practical application in those things that “make a leader.” At Glendale Community College, these basic courses are unique for ROTC in that they:

- Do not have any military obligation.
- Teach valuable skills regardless of the student’s future plans.
- Can normally be used toward general education requirements at Arizona State University.
- Have no uniform or haircut requirements.

Equivalence for some or all of these courses may be granted to veterans, Junior Reserve Officer Training Corps (JROTC) graduates, national guard or reserve members, or students who attend ROTC summer programs.

Reserve Officer Training Corps

Arizona State University offers a three-year and a four-year program leading to a commission in the United States Air Force, Space Force, or Army. The Departments of Aerospace Studies and Military Sciences will accept a transfer student from the Maricopa Community Colleges. With an agreement already in place, students may enroll in the Air Force ROTC or Army ROTC program at ASU through GCC.

Music General Information

Field of Interest: Visual and Performing Arts

For Information: Donald Smith

Phone: 623.845.3070

<https://www.gccaz.edu/performing-arts>

Musicians pursue careers as performers, teachers, composers, arrangers, music theorists, music historians, music therapists, music producers, audio engineers, sound designers, and in music-related business and professional work.

Program Description: This program provides the first two years of music required for a bachelor’s degree in Music Education, Theory, Composition, Music Therapy, Jazz Performance, Popular Music Performance and Classical Performance. Associate in Arts, Fine Arts (AAFA) degrees with Emphases in Music and Musical Theatre are available.

Associate in Applied Science (AAS) degrees and Certificates of Completion (CCLs) are available in Music Business and Audio Production Technologies with tracks in Audio Engineering and Sound Design.

Every music major pursuing the AAFA, Emphasis in Music degree is required to participate in a large performance ensemble each semester. Qualifying large ensembles include concert choir, band, orchestra, and guitar. There are many other performance opportunities available, including jazz ensembles, percussion ensembles, chamber singers, jazz choir, musical theatre, and many various chamber ensembles such as flute, clarinet, bass clarinet, brass quintet, woodwind quintet, saxophone, trumpet, tuba/euphonium and brass.

Most courses in the music program are open to all students. There are some courses which have prerequisites and those are found in the course descriptions. Students who have not had sufficient training in the fundamentals of music are advised to take MTC101 Introduction to Music Theory and MTC103 Introduction to Aural Perception before taking MTC105 Music Theory I and MTC106 Aural Perception I.

The Performing Arts Department offers class instruction in piano, voice, and guitar. In addition, the department provides private instruction in the areas of piano, guitar, voice, flute, clarinet, oboe, bassoon, saxophone, horn, trumpet, trombone, euphonium, tuba, percussion, drum set, harp, violin, viola, cello, string bass and electric bass. There is a course fee for private instruction that is partially waived for music majors taking a minimum amount of credits. If a student is not ready for "first-year level" in applied music on the major instrument, the first semester of the private instruction sequence will be repeated as many times as necessary. That student will receive a grade of P (credit) or Z (no credit). Upon reaching freshman level, the student will receive traditional grades.

Students who major in music at Glendale Community College (GCC) should follow the curricula as outlined. Various universities and colleges; however, demand specific subjects for degree requirements. Students planning to transfer or continue their work at other institutions should consult their GCC Music Advisor and the catalogs of the universities that they plan to attend.

Availability: Complete day programs. Partial evening programs. Due to limited course offerings, students should consult with a Department Advisor in planning their academic schedule in order to complete degree requirements in an expedient manner. See AAFA, Emphasis in Music; AAFA, Emphasis in Musical Theatre; AAS/CCL in Audio Production; AAS/CCL in Music Business for specific course requirements.

Music Business I CCL 5106

Certificate of Completion - 16 credits

Field of Interest: Visual and Performing Arts

For Information: Dave Schmidt

Phone: 623.845.3725

<https://www.gccaz.edu/performing-arts>

Program Description: The Certificate of Completion (CCL) in Music Business I is designed to provide aspiring music industry professionals with a broad background in music management, production, and entrepreneurship activities. The program combines foundational and applied learning experiences to help students gain a strategic understanding of commercial music as both an art and profession. There is a CCL in Music Business II available as well as an Associate in Applied Science (AAS) in Music Industries: Music Business.

Program Notes: Students must earn a grade of C or better for all courses required within the program.

This program also is offered at Mesa, Paradise Valley, Phoenix, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (16 credits)		Credits

Network and Systems Administration AAS 3189**Associate in Applied Science - 61-74 credits****Field of Interest:** Computer and Information Technology**For Cisco Network Information:** Andrea Schauer**Phone:** 623.845.3502<https://www.gccaz.edu/consumer-sciences>**For Linux Administration Information:** Martin Bencic**Phone:** 623.845.3237<https://www.gccaz.edu/business>**For Microsoft Information:** Kenneth Lein**Phone:** 623.845.3232<https://www.gccaz.edu/business>**For Red Hat Linux Information:** Martin Bencic**Phone:** 623.845.3237<https://www.gccaz.edu/business>**For VMware Information:** Martin Bencic**Phone:** 623.845.3237<https://www.gccaz.edu/business>

Program Description: The Associate in Applied Science (AAS) in Network and Systems Administration program provides students with a solid, hands-on skill set of computer, networking, and internetworking systems technology principles and desktop support. Students gain an understanding of the interaction between microcomputer software and hardware, network and internetworking operating systems software and hardware, local area network administration and management, the use of troubleshooting techniques, troubleshooting hardware and software tools, as well as interpersonal/customer service skills. Students have the opportunity to specialize in specific information technology areas based on their interests and professional goals and leading to industry recognized certifications through an embedded Certificate of Completion (CCL) including, but not limited to, Desktop (Desktop Support, Computer System Configuration and Support, Computer System Configuration and Support, Network, Computer System Configuration and Support, Security, Computer System Configuration and Support, Linux), Cisco (Cisco Network CCNA, Cisco Network CCNP, Cisco Network CCNA Security), Linux (Red Hat Linux Engineer, Linux Associate, Red Hat Linux Administrator, Linux System Administration), Microsoft (Microsoft System Administration, Microsoft Desktop Associate), and VMware (VMware Network Administrator, VMware Foundations, VMware System Administrator). Graduates may pursue employment in a variety of information technology environments and/or transfer to a university.

Program Notes: Students must earn a grade of C or better in all courses within the program.

Required courses and restricted electives must be taken within five years prior to completion of the program to be applied toward this award. Students may receive credit for courses within the program based on current industry certifications.

Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.¹

This degree also is offered at Chandler-Gilbert, Estrella Mountain, GateWay, Mesa, Paradise Valley, Phoenix, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (31-46 credits)		Credits
BPC170	A+ Exam Prep: Computer Hardware Configuration and Support	3
+ BPC270	A+ Exam Prep: Operating System Configuration and Support	3

CIS189	Virtualization and IT Solutions for Digital Businesses	3
+ CIS197	VMware ESXI Server Enterprise	3
+ CIS198	VMware vSphere: Optimize and Scale	3
+ CIS200	VMware NSX: Install, Configure, Manage	3

Restricted Electives: (0-8 credits)**Credits**

Students are to select enough Restricted Elective credits to meet a minimum of 60 credits not used to satisfy Required Courses or selected specialization within the Required Courses. Consult with an Academic, Program, or Faculty Advisor to pick courses that align with your career goals.

Cisco Electives

CNT140AB	Introduction to Networks	4
+ CNT150AB	Switching, Routing, and Wireless Essentials	4
+ CNT160AB	Enterprise Networking, Security, and Automation	4
+ CNT171	CCNA Exam Prep	1
+ CNT202	Cisco Secure Firewall Appliance Configuration(4) OR	
+ CNT205	Cisco Certified Network Associate Security (4)	4
+ CNT206	Cisco Certified Network Associate Wireless	4

Linux Electives

+ CIS238DL	Linux System Administration (3) OR	
+ CIS238RH	Red Hat System Administration II (3)	3
+ CIS239DL	Linux Shell Scripting	3
+ CIS240DL	Linux Network Administration (3) OR	
+ CIS240RH	Red Hat Systems Administration III (3)	3
+ CIS275DL	Linux Capstone	3

Microsoft Electives

MST+++++	Any MST Microsoft Technology course	
CIS121AB	Microsoft Command Line Operations	1
CIS121AH	Microsoft PowerShell/Command Line Operations	3

Security Electives

+ CIS270	Essentials of Network and Information Security	3
+ CIS271DB	Information Security Essentials	3
+ CIS272DB	Information Security Principles	3
+ ITS110	Information Security Fundamentals	3

VMware Electives

CIS189	Virtualization and IT Solutions for Digital Businesses	3
+ CIS197	VMware ESXI Server Enterprise	3
+ CIS198	VMware vSphere: Optimize and Scale	3
+ CIS200	VMware NSX: Install, Configure, Manage	3

Other Information Technology Electives

BPC171	Recycling Used Computer Technology	1-3
CIS111	Ethics in Information Technology	3
CIS124AA	Project Management Software: Level I	1
+ CIS124BA	Project Management Software: Level II	1
+ CIS156	Python Programming: Level I	3
+ CIS190	Introduction to Networking	3
CIS224	Project Management Microsoft Project for Windows	3
+ CIS240	Local Area Network Planning and Design	3
+ CIS250	Management of Information Systems	3
+ CIS266	Network Integration Capstone	4
CIS290++	Computer Information Systems Internship	1-3
+ CIS296++	Cooperative Education	1-4 (2-3 ¹)
+ CIS298++	Special Projects	1-3
+ ITS120	Legal, Ethical, and Regulatory Issues	3

General Education Requirements: (22-28 credits)

General Education Core: (12-18 credits)

Credits

First-Year Composition:

6

- + ENG101 First-Year Composition (3) OR
- + ENG107 First-Year Composition for ESL (3)
- AND
- + ENG102 First-Year Composition (3) OR
- + ENG108 First-Year Composition for ESL (3) OR
- + ENG111 Technical and Professional Writing(3)
(ENG111 does not count as an ENG Transfer option)

Oral Communication:

3

- COM100 Introduction to Human Communication (3) OR
- COM110 Interpersonal Communication (3) OR
- + COM225 Public Speaking(3) OR
- COM230 Small Group Communication (3)
- + COM225 is recommended for students transferring to Northern Arizona University.

Critical Reading: 0-3

- + CRE101 College Critical Reading and Critical Thinking(3) OR
Equivalent as indicated by assessment.

Mathematics: 3-6

- + MAT140 College Mathematics (5) OR
- + MAT141 College Mathematics (4) OR
- + MAT142 College Mathematics (3) OR
- MAT145 College Mathematics with Review (5) OR
- MAT146 College Mathematics with Review (6)
Equivalent or higher level mathematics course in the Mathematical Applications area.

General Education Distribution: (10 credits)

Credits

Humanities, Arts and Design:

3

Any approved general education course from the Humanities, Arts and Design area.

Social-Behavioral Sciences:

3

Any approved general education course from the Social-Behavioral Sciences area.

Natural Sciences:

4

⁺ indicates course has pre/corequisites. ⁺⁺ indicates suffixed courses

Any approved general education course from the Natural Sciences area.

Networking: Cisco Systems General Information

Field of Interest: Computer and Information Technology

<https://www.gccaz.edu/consumer-sciences>

Cisco Systems is recognized as a worldwide leader, manufacturer and innovator of networking Internet hardware, software, and high-tech services. Glendale Community College is a Cisco Networking Academy and prepares students for industry-recognized certifications and rewarding careers in Information Technology. The knowledge and skills taught in Cisco courses is the foundation for several information technology careers including network administration, network engineering, network and computer systems administration, network technician, network security, cybersecurity, network virtualization, cloud computing, telecommunications, and more.

The Cisco program is taught by certified Cisco Academy instructors, provides training for those interested in working in the IT industry, and helps to prepare students for industry recognized certification: Cisco Certified Network Associate (CCNA), CCNA Security, CCNA CyberOps, Cisco Certified Network Professional (CCNP). Students are provided hands-on experience and develop skills to install, configure, and maintain routers and switches; configure routing protocols and Local Area Networks (LAN); troubleshoot hardware and software configurations; and perform administrative tasks in a network.

Degrees & Certificates)

	Credits
3189 AAS Network and Systems Administration	60-65 credits
5969N CCL Cisco Network Administration: CCNA	12-15 credits

Non-Sworn Fire Service Professional CCL 5486

Certificate of Completion - 18 credits

Field of Interest: Behavioral Science and Human Services

For Information: Raul Muniz

Phone: 623.845.4776

<https://www.gccaz.edu/public-safety-sciences>

Program Description: The Certificate of Completion (CCL) in Non-Sworn Fire Service Professional program is designed for students who need basic preparation courses to pursue a non-sworn career as a fire service professional and/or more comprehensive information about life safety, fire hazards, and prevention. A unique feature of the program is that the instructors are professional fire service personnel including firefighters.

Program Notes: Students must earn a grade of C or better for all courses within the program.

This program also is offered at Mesa, Paradise Valley, and Phoenix Community Colleges.

Program Prerequisites: None.

Required Courses: (18 credits)		Credits
FSC105	Hazardous Materials Awareness and Operations.....	3
FSC106	Introduction to Fire Protection	3
FSC108	Fundamentals of Fire Prevention	3
FSC113	Introduction to Fire Suppression	3
+ FSC208	Firefighter Safety and Building Construction	3
FSC215	Customer Service in the Public Sector	3

Nurse Assisting CCL 5963N

Certificate of Completion - 2-4.5 credits

This program is not eligible for Title IV Federal Financial Aid

Fast Track Certificate: Nurse Assisting CCL 5963N

Field of Interest: Health Sciences

For Information: Grace Paul

Phone: 623.845.3626

<https://www.gccaz.edu/nursing>

Program Description: The Certificate of Completion (CCL) in Nurse Assisting prepares students for employment as a nurse assistant. The program combines classroom instruction with clinical laboratory practice and long-term care and/or acute care experiences. Students who complete the program are eligible to take a written and practical certification examination if desired to meet employment requirements to be a nurse assistant. Certification/licensing requirements are the exclusive responsibility of the Arizona State Board of Nursing.

The MCCC Nurse Assisting program is approved by the Arizona State Board of Nursing.

Waiver of Licensure/Certification Guarantee:

Admission or completion from the MCCC Nurse Assisting program does not guarantee obtaining a license or certificate to practice as a nurse assistant. Licensure and certification requirements and the subsequent procedures are the exclusive right and responsibility of the Arizona State Board of Nursing. Students must satisfy the requirements of the Nurse Practice Act: Statutes, Rules and Regulations, independently of any college of school requirements for graduation.

Pursuant to A.R.S. § 32-1606(B)(17), an applicant for professional or practical nurse license by examination is not eligible for licensure if the applicant has any felony convictions and has not received an absolute discharge from the sentences for all felony convictions. The absolute discharge must be received five or more years before submitting this application. If you cannot prove that the absolute discharge date is five or more years, the Board cannot process your application.

All nurse assistant applicants for certification will be fingerprinted to permit the Department of Public Safety to obtain state and federal criminal history information. All applicants with a positive history are investigated. If there is any question about eligibility for licensure or certification, contact the nursing education consultant at the Arizona State Board of Nursing (602-899-5150).

Health Declaration:

It is essential that students be able to perform a number of physical activities in the clinical portion of the program. At a minimum, students will be required to lift patients, stand for several hours at a time and perform bending activities. The clinical nursing experience also places students under considerable mental and emotional stress as they undertake responsibilities and duties impacting patients' lives. Students must be able to demonstrate rational and appropriate behavior under stressful conditions. Individuals should give careful consideration to the mental and physical demands of the program prior to making application.

Health and Safety Requirements for MCCC Nurse Assisting Program:

- Students must meet and maintain health and safety requirements throughout the program.
- Admission to a Maricopa County Community College District health program requires that students be in compliance with the MCCC Supplemental Background Check Policy. Evidence of a current Arizona Department of Public Safety Level One Fingerprint Clearance Card is required for program application.
- Negative urine drug screen.
- Grade Requirements:
 - Student must obtain a C grade or better in all courses.

University Transfer Students:

For students planning a university program:

Students who are planning to earn the Bachelor of Science in Nursing may obtain their prerequisite courses at Maricopa Community Colleges. For information on courses that meet requirements for admission into a baccalaureate program, please contact a program advisor.

THE NURSE ASSISTING PATHWAY

The nurse assisting pathway is designed to prepare students to complete the Nurse Assistant certification/licensure through the Arizona State Board of Nursing to practice in a health care agency as a nurse assistant. Completion of the Nurse Assistant program of study provides job ready skills as a nurse assistant.

Program Notes: Students must earn a grade of C or better in all courses within the program.

This program also is offered at GateWay, Mesa, Paradise Valley, and Scottsdale Community Colleges.

Admission Criteria: Application and acceptance into the program, high school graduate or GED, and meet current health and safety course requirements.

Program Prerequisites: None.

Required Courses: (2-4.5 credits)	Credits
+ NUR158 Nurse Assisting (4.5) OR Advanced Placement course:	
+ NCE150 Advanced Placement: Nursing Assistant (2)	2-4.5

Nursing General Information

Field of Interest: Health Sciences

For Information: Nursing Department

Phone: 623.845.3200

<https://www.gccaz.edu/nursing>

Maricopa Community Colleges Allied Health or Nursing Program

In collaboration and partnership with the health care community and its response to the dynamic changes occurring in the health care arena and health care professions' practice, the Maricopa Community Colleges integrated the curriculum of all allied health and nursing programs. All allied health or nursing program pathways and educational offerings emphasize

the achievement of relevant competencies and provide value to the individual, the employer, and the community. As a result, graduates of the various allied health or nursing program pathways will meet the community's demand for a flexible, multi-skilled health care workforce that meets employer and consumer needs. Refer to individual college catalogs for specific health care program pathways. For further information, <https://www.maricopa.edu/academics/healthcare> is a comprehensive information source.

Allied Health or Nursing Assumption of Risk/Release of Liability

Most of the allied health or nursing program pathways include a program of study in a clinical training environment that may contain exposures to risks inherent in patient-oriented educational experiences (such as but not limited to bodily injury or communicable and infectious diseases). Students enrolling in clinical educational courses will be asked to sign a statement assuming all risks inherent in their coursework.

Use of Confidential Information

Students enrolled in allied health or nursing program pathways will have learning experiences in a health care setting where they will have access to confidential information. Prior to beginning any clinical studies, the students will be asked Catalog Common Pages 2022-2023 Approved 5/24/22 130 to sign an agreement to adhere to the requirements of those clinical sites and applicable law, including the Health Insurance Portability and Accountability Act of 1996 (HIPAA).

MCCCD Required Background Checks

Students enrolled in an MCCCD allied health or nursing program are required to complete and pass clinical learning experiences, working with children, elderly persons, and other vulnerable populations. MCCCD's major clinical agency partners now mandate that any college students assigned to them for clinical experiences submit to a comprehensive background clearance prior to entering such learning experiences. Because the clinical experience portion of the programs is critical to completing a program of study, MCCCD has instituted two specific background check requirements in order for a student to enroll in a program. First, the student must obtain, at his or her own cost, a Level I Fingerprint Clearance Card from the Arizona Department of Public Safety. Precluding offenses for a Level I card can be found in Arizona Revised Statute § 41-1758.07 (<https://www.azleg.gov/viewdocument/?docName=https://www.azleg.gov/ars/41/01758-07.htm>). Additionally, students must also obtain a "pass" status on a MCCCD supplemental background check from MCCCD's authorized background check contractor. The student must also pay for this background check. The supplemental check will be based on the most stringent standards of MCCCD's clinical experience partners.

The sole program for which the background check requirements are different is the Emergency Medical Technician program. For that program, students must have obtained a Level 1 Fingerprint Clearance Card from the Arizona Department of Public Safety. They are also required, at the time of their clinical assignments, to submit to, pay for and pass any additional background check requirements of the clinical agencies to which their EMT program places students.

Certain licensing boards may require a separate background check or clearance card upon application for licensure or certification.

The MCCCD supplemental background check review may include searches of the following databases and information but MCCCD reserves the right to change the search criteria and the program background check requirements at any time without notice:

1. National Federal Health Care and Abuse Databases
2. Social Security Verification
3. Residency History
4. Arizona Statewide Criminal Records
5. Nationwide Criminal Databases
6. Nationwide Sexual Offender Registry
7. Homeland Security Search

Examples of background information that will result in a "fail" status on the supplemental background check include:

1. Social Security number does not belong to the applicant
2. Any inclusion on any registered sex offender database
3. Any inclusion on any of the Federal exclusion lists or Homeland Security watch lists

4. Any conviction of a felony no matter what age of the convictions
5. Any warrant any state
6. Any misdemeanor conviction for the following no matter how long ago:
 - A. Violent crimes
 - B. Sex crime of any kind including non-consensual sexual crimes and sexual assault
 - C. Murder, attempted murder
 - D. Abduction
 - E. Assault
 - F. Robbery
 - G. Arson
 - H. Extortion
 - I. Burglary
 - J. Pandering
 - K. Any crime against minors, children, vulnerable adults including abuse, neglect, exploitation
 - L. Any abuse or neglect
 - M. Any fraud
 - N. Illegal drugs
 - O. Aggravated DUI
7. Any misdemeanor controlled substance conviction in last 7 years
8. Any other misdemeanor conviction within last 3 years

EXCEPTIONS: Any misdemeanor traffic (DUI is not considered traffic).

The information that MCCCĐ uses for the “pass/fail” background check is subject to change at any time without notice.

MCCCĐ recommends that students carry proof of the background clearance at all times during any clinical agency learning experience.

Duty to Report Changes; Removal

Students have an obligation to immediately report to the director of their program any change in the information that they supplied on forms submitted to initiate background checks relating to the allied health or nursing program. That includes information provided to the Arizona Department of Public Safety and MCCCĐ’s supplemental background check vendor, as well as that related to the background check required by a clinical agency. Failure to do so will result in removal from the program. Additionally, any change in background check status that would affect the student’s clearance under either MCCCĐ’s or a clinical agency’s standards will result in removal from a program.

Additional Clinical Agency Background Check

Some clinical agencies require that students assigned to their sites submit to a criminal background check covering other offenses, as well as to a drug screening. Students are required to pay for the additional agency clinical background check. A clinical agency that requires this additional background check may refuse to place a student due to information the clinical agency obtains in its background check even though that student possess a valid Level I Fingerprint Clearance Card and has obtained a “pass” status on the MCCCĐ supplemental background check.

Some conditions that have resulted in students being denied placement at clinical agencies include pending criminal charges, outstanding warrants, unfinished terms of a sentence (such as unpaid fines), pattern of repeated types of arrests/convictions, and failure to disclose all past arrests/convictions when asked to do so on any background check application.

Inability to Place

MCCCĐ has no obligation to make repeated attempts to place a student when the reason for MCCCĐ’s inability to place the student is due to background check issues. Since clinical agency assignments are mandatory requirements for completion of a program, a student’s inability to complete required clinical experience due to his or her background check issues will result in removal from the program.

Changes to Admission or Background Check Requirements

MCCCD may change its program admission requirements or background check requirements without notice at any time.

No Guarantee of Receipt of Licensure/Certificate

Many of the nursing and allied health programs prepare graduates for application for State or National certificates or licenses. In some professions, such licensure and certification are required prior to employment or practice in the profession. Graduation from a nursing and allied health program does not guarantee the receipt of a license or certificate to practice in the field of study.

Concurrent Enrollment Program (CEP)/Associate/Baccalaureate Degree Registered Nurse

MaricopaNursing at Glendale Community College (GCC) offers concurrent enrollment program (CEP) associate/baccalaureate pathway options with partner universities, including Northern Arizona University (NAU), Arizona State University, Upper Iowa University (UIU), Grand Canyon University (GCU), and Ottawa University (OU).

These CEP programs are designed for qualified associate degree nursing students interested in earning a Bachelor of Science in Nursing (BSN) or Master of Science in Nursing (MSN) degree while pursuing the Associate in Applied Science (AAS) in Nursing degree. Students enrolled in the CEP follow a sequence of coursework that enables completion of the BSN degree concurrent with AAS graduation or within one semester following AAS graduation.

Students enrolled in the CEP follow the traditional course of study for all students pursuing the AAS degree in nursing, but at the same time they will be enrolled in partner university courses, which are almost exclusively online or offered as hybrid courses held in the Phoenix area. Upon completion of the MaricopaNursing AAS degree, graduates are eligible to take the National Council Licensure Examination (NCLEX-RN®).

For students who have a bachelor's degree in another field, Glendale Community College offers the AAS-MSN Nursing Concurrent Program option with Grand Canyon University (GCU). This program enables eligible students to take six nursing core courses from the BSN program at GCU at a significantly reduced tuition concurrent with MaricopaNursing AAS courses. After completion of AAS and BSN courses and passing the NCLEX-RN®, students move into the MSN portion of the AAS-MSN Nursing Concurrent Program. For more information about CEP options, visit the MaricopaNursing website at www.nursing.maricopa.edu.

CEP admission requirements, prerequisites, costs, and program options vary considerably and students are encouraged to review all available information to determine the best fit for their needs.

Nursing AAS 3812

Associate in Applied Science - 62-75 credits

Field of Interest: Health Sciences

For Information: Grace Paul

Phone: 623.845.3626

<https://www.gccaz.edu/nursing>

Program Description: The Associate in Applied Science (AAS) in Nursing Program is available at eight of the Maricopa Community Colleges. Clinical experiences are provided in a variety of healthcare settings. Nursing Program graduates are eligible to apply for the national exam for the registered nurse license. Licensing requirements are the exclusive responsibility of the State Board of Nursing.

The Associate in Applied Science (AAS) Nursing Program is approved by the Arizona State Board of Nursing and accredited by the Accreditation Commission for Education in Nursing (ACEN), 3390 Peachtree Road NE, Suite 1400, Atlanta, GA 30326; (404.975.5000); email: info@acennursing.org.

Program offerings:

This program is offered at the following sites:

- Chandler-Gilbert Community College

- Estrella Mountain Community College
- GateWay Community College
- Glendale Community College
- Mesa Community College
- Paradise Valley Community College
- Phoenix College
- Scottsdale Community College

Waiver of Licensure/Certification Guarantee:

Admission or graduation from the Nursing Program does not guarantee obtaining a license to practice nursing. Licensure requirements and the subsequent procedures are the exclusive right and responsibility of the Arizona State Board of Nursing. Students must satisfy the requirements of the Nurse Practice Act: Statutes, Rules and Regulations, independently of any college or school requirements for graduation.

Pursuant to A.R.S. 32-1606(B)(17), an applicant for professional or practical nurse license by examination is not eligible for licensure if the applicant has any felony convictions and has not received an absolute discharge from the sentences for all felony convictions. The absolute discharge must be received five or more years before submitting this application. If you cannot prove that the absolute discharge date is five or more years, the Board cannot process your application.

Level One Fingerprint Clearance is required for admission into the program. Applicants must present a Level One Fingerprint Clearance Card to be copied by the advisor or designee. For a Department of Public Safety Fingerprint Clearance Card application, contact MCCC HealthCare/Nursing Advisor. If there is any question about eligibility for licensure or certification, contact the nursing education consultant at the Arizona State Board of Nursing (602.771.7800).

Health Declaration:

It is essential that nursing students be able to perform a number of physical activities in the clinical portion of the program. At a minimum, students will be required to lift patients, stand for several hours at a time and perform bending activities. Students who have a chronic illness or condition must be maintained on current treatment and be able to implement direct patient care. The clinical nursing experience also places students under considerable mental and emotional stress as they undertake responsibilities and duties impacting patients' lives. Students must be able to demonstrate rational and appropriate behavior under stressful conditions. Individuals should give careful consideration to the mental and physical demands of the program prior to making application. All must provide documentation of compliance with all health and safety requirements required to protect patient safety. Only students in compliance are permitted to enroll in nursing courses. Students will meet these requirements by providing the required documentation for the Health/Safety Requirements Documentation Checklist and the signed Health Declaration Form.

Health and Safety Requirements for the Maricopa Nursing Program:

1. Students must submit a Health and Safety Documentation Checklist verifying completion of all requirements and maintain current status throughout the program.
2. Students must submit the Health Declaration Form signed by a licensed health care provider.
3. Students must test negative on a timed urine drug screen.
4. Admission to an Allied Health program requires that students be in compliance with the Maricopa County Community College District Supplemental Background Check policy. Program applications will not be accepted without a copy of an Arizona Department of Public Safety Level One Fingerprint Clearance Card. Upon conditional program admission, the student must comply with all requirements of the current MCCC background check policy.

University Transfer Students:

Students who are planning to earn the Bachelor of Science in Nursing may obtain their prerequisite courses at the Maricopa Community Colleges. For information on courses that meet requirements for admission into a baccalaureate program, please contact a program advisor.

REGISTERED NURSE PATHWAY

Associate in Applied Science Degree in Nursing Program

The Associate in Applied Science (AAS) degree in Nursing graduate is eligible to apply for licensure as a Registered Nurse (RN). The RN is educated as a generalist who delivers health care to clients and family groups and has competencies related to the art and science of nursing. The RN may be employed in a variety of acute, long term, and community-based healthcare settings. The AAS degree in Nursing provides the graduate with an educational foundation for articulation into the university setting.

Program Notes: Students must earn a grade of C or better in all courses required within the program.

Students must complete the following general education and introductory courses with a 2.0 GPA to be added to the queue of those waiting for an available cohort space to begin the core curriculum. BIO156 or BIO181, BIO201, CHM130 and CHM130LL, CHM130AA, ENG101 or ENG107, MAT140 or MAT141 or MAT142.¹

Course Fee Information: Please see class schedule for information regarding course fees.

MaricopaNursing is aligned with Nurse of the Future Competencies: Patient-Centered Care, Professionalism, Leadership, Systems-Based Practice, Informatics and Technology, Communication, Teamwork and Collaboration, Safety, Quality Improvement, and Evidence-Based Practice. These competencies focus on key stakeholders of healthcare clients, colleagues and communities. Demonstration of the competencies will signify preparation for successful transition into nursing practice and further professional development.

This program also is offered at Chandler-Gilbert, Estrella Mountain, GateWay, Mesa, Paradise Valley, Phoenix, and Scottsdale Community Colleges.

Admission Criteria: High school diploma or GED is required for the Associate in Applied Science degree in Nursing. Applicants must signify that they meet this requirement by providing high school diploma/transcripts or GED completion OR by signing the nursing application page containing the 'Declaration of High School Graduation or GED completion.' In some instances, high school diploma/transcripts or proof of GED completion may be required.

Formal application and admission to the program is required. There are limited spaces available in the Nursing program. Only students who have completed all of the general education and introductory courses noted above may have their name added to the queue of those waiting for an available space in a cohort.

A passing score on a nursing program admission test is required to complete an application. Successful completion of a nurse assistant course (NCE150 or NUR158 or equivalent as determined by the Nursing Director or designee) or current active AZ certification or licensure as a Nurse Assistant in good standing is required to complete an application.

Applicants for Advanced Placement must receive a passing score on a practical nursing content exam for placement into Block 3. The final placement decision rests with the Nursing Program Chair at the college to which the student is accepted.

The Nursing Program Chair reserves the right to deny acceptance of an admission application if the applicant was previously dismissed for issues relating to academic integrity, unsafe patient care, and/or two (2) or more failures from any nursing program.

All applicants holding or receiving a certificate or license as a Nursing Assistant and/or license as a Practical Nurse must remain in good standing with the Regulatory Board. Once enrolled, students receiving any disciplinary actions against their certificate or license must notify the Nursing Program Chair within five (5) school days. The Nursing Program Chair reserves the right to restrict the student's participation in clinical experiences and involvement in patient care until the certificate and/or license is valid and unrestricted.

Program Prerequisites: **None**

Required Courses: (40 -48 credits)

Oral Communication Fluency for Non-Native English Speakers AC 6223N

Academic Certificate - 15 credits

This program is not eligible for Title IV Federal Financial Aid

Field of Interest: Culture and Society**For Information:** Jim Reed**Phone:** 623.845.3631<https://www.gccaz.edu/communication>

Program Description: The Academic Certificate (AC) in Oral Communication Fluency for Non-Native English Speakers is a concentrated program of study in communication and oral fluency designed to extend traditional ESL coursework. It provides Non-Native English Speakers with intense practice in pronunciation and fluency of American speech as well as experience in all communication contexts including interpersonal communication, small group interaction, problem solving, and public speaking. Students develop skills to enhance their professional, academic, and social interactions to become more competitive and effective in the academic environment and in the workplace.

Program Notes: Students must earn a grade of C or better for all courses within the Required Courses area.

This program also is offered at Mesa Community College.

Program Prerequisites: None.

Required Courses: (12 credits)		Credits
COM110	Interpersonal Communication	3
COM120	Pronunciation of American Speech	3
+ COM221	Oral Fluency in American Speech	3
+ COM282AC	Service-Learning Experience in Communication	3

Restricted Electives: (3 credits)		Credits
Any approved General Education course in the Cultural Awareness [C] value		3

Organizational Leadership CCL 5731**Certificate of Completion - 18 credits****Field of Interest: Business, Entrepreneurialism, and Management****For Information:** Kendra Swensen**Phone:** 623.845.3749<https://www.gccaz.edu/business>

Program Description: The Certificate of Completion (CCL) in Organizational Leadership is designed to prepare students with knowledge and skills needed in today's changing workplace. The program provides leadership and communication skills and techniques for planning, organizing, leading and controlling business situations. This program also emphasizes procedures for effective resource allocation. The CCL in Organizational Leadership is fully embedded in an Associate in Applied Science (AAS) in Organizational Management.

Program Notes: Students must earn a grade of C or better in all courses within the program.

This program also is offered at Chandler-Gilbert, Estrella Mountain, GateWay, Mesa, Paradise Valley, Phoenix, Rio Salado, and Scottsdale Community Colleges.

Program Prerequisites: None.

Required Courses (18 credits)		Credits

Organizational Management AAS 3727

Associate in Applied Science - 61-68 credits

Field of Interest: Business, Entrepreneurialism, and Management

For Information: Kendra Swensen

Phone: 623.845.3749

<https://www.gccaz.edu/business>

Program Description: The Associate in Applied Science (AAS) in Organizational Management program is designed with a customized curriculum specific to the student's individual needs in addition to the knowledge and skills needed in today's changing workplace. The program provides leadership and communication skills and techniques for planning, organizing, leading and controlling business situations. This program also emphasizes procedures for effective resource allocation. A Certificate of Completion (CCL) in Organizational Leadership is fully embedded in this AAS.

Program Notes: Students must earn a grade of C or better for all courses required within the program.

This program also is offered at Chandler-Gilbert, Estrella Mountain, GateWay, Mesa, Paradise Valley, Phoenix, Rio Salado, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses (18 credits)		Credits
FYE101	Introduction to College, Career and Personal Success (1) OR	
FYE103	Exploration of College, Career and Personal Success (3)	1-3

Certificate of Completion in Organizational Leadership (5731) Requirements listed below: 18

BPC110	Computer Usage and Applications(3) OR	
CIS105	Survey of Computer Information Systems (3)	3
GBS110	Human Relations in Business and Industry (3) OR	
MGT251	Human Relations in Business (3)	3
GBS120	Workplace Communication Skills	3
GBS151	Introduction to Business	3
MGT175	Business Organization and Management (3) OR	
TQM240	Project Management in Quality Organizations (3)	3
MGT101	Techniques of Supervision (3) OR	
MGT229	Management and Leadership I (3)	3

Restricted Electives (20 credits)		Credits
Students must choose 20 industry/job related course credits from any MCCC occupational program and/or Academic Certificate. Industry/job related course credits must include a minimum of nine credits with a common subject or theme. Program of study must be approved by the business department chair or designee.		20

General Education Requirements: (22-27 credits)

General Education Core: (12-17 credits)		Credits
First-Year Composition	+ ENG101 + ENG107 AND + ENG102 + ENG108	First-Year Composition (3) OR First-Year Composition for ESL (3) First-Year Composition (3) OR First-Year Composition for ESL (3)
Oral Communication	Any approved general education course from the Oral Communication area.	3
Critical Reading	+ CRE101	College Critical Reading and Critical Thinking (3) OR Equivalent as indicated by assessment.
Mathematics	Any approved general education course from the Mathematics [MA] area.	3-5
General Education Distribution: (10 credits)		Credits
Humanities, Arts and Design	Any approved general education course from the Humanities, Arts and Design area.	3
Social-Behavioral Sciences	Any approved general education course from the Social-Behavioral Sciences area.	3
Natural Sciences	Any approved general education course from the Natural Sciences area.	4
Paramedicine AAS 3889		
Associate in Applied Science - 63-75 credits		
Field of Interest: Health Sciences		
For Information: Todd Polansky		
Phone: 623.845.3908		
https://www.gecaz.edu/public-safety-sciences		
Program Description: The Associate in Applied Sciences (AAS) in Paramedicine is a nationally accredited program designed to prepare students to become Paramedics. This program is a formal education in such paramedicine topics as anatomy and physiology, pathophysiology, cardiology, pulmonary, pharmacology, pediatrics, geriatrics hematology, toxicology. Paramedicine builds upon EMT education and includes paramedic scope of practice. Paramedicine is integrated with fire service, law enforcement, ground transport services, flight transport services, search and rescue, hospitals, clinical setting, community paramedicine, and EMS education. There is a Certificate of Completion (CCL) in Paramedicine available.		
Program Notes: Students must earn a grade of B or better in all PME courses required within the program.		
This program also is offered at Mesa, Paradise Valley, and Phoenix Community Colleges.		
Admission Criteria: Students must be current and in good standing with the Arizona Department of Health Services Bureau of Emergency Medical Services-Certified as an Emergency Medical Technician (EMT). EMT certification preparatory courses are available at Maricopa County Community Colleges. Contact an academic advisor for details.		
Students must complete an application and selection process.		
Program Prerequisites: None.		
Required Courses: (45-51 credits)		Credits

BIO160	Introduction to Human Anatomy and Physiology	4
PME190	Introduction to ECG Rhythm Analysis and Interpretation for EMS Professionals (3) OR Permission of Program Director (o)	0-3
PME191	Introduction to Pharmacology for EMS Professionals (3) OR Permission of Program Director (o)	0-3
+ PME201	Advanced Cardiac Life Support (ACLS) Initial Provider in Paramedicine	1
+ PME202	Pediatric Advanced Life Support (PALS) Initial Provider in Paramedicine	1
+ PME203	Pediatric Emergencies for Prehospital Professionals (PEPP) Initial Provider in Paramedicine	1
+ PME204	Neonatal Resuscitation Provider (NRP) in Paramedicine	0.5
+ PME205	Advanced Medical Life Support (AMLS) Initial Provider in Paramedicine	1
+ PME206	International Trauma Life Support (ITLS) Provider/Pre-Hospital Trauma Life Support (PHTLS)	1
+ PME240	Pharmacology in Paramedicine	3
+ PME245	Airway and Ventilatory Management in Paramedicine	3
+ PME250	Comprehensive Patient Assessment in Paramedicine	1
+ PME251	Medical Emergencies in Paramedicine I	4
+ PME252	Medical Emergencies in Paramedicine II	4
+ PME253	Medical Emergencies in Paramedicine III	4
+ PME254	Technical Operations in Paramedicine	2.5
+ PME260	Trauma Patient Management in Paramedicine	2
+ PME270	Immersive Total Patient Management Experience (ITPME)	2
+ PME280	Preparation for Paramedicine Practicum	1
+ PME281	Paramedicine Clinical Practicum: Comprehensive (2) OR Paramedicine Clinical Practicum: Phase I (1)	
AND		
+ PME281AB	Paramedicine Clinical Practicum: Phase II (1)	2
+ PME288	Paramedicine Comprehensive Field Internship Practicum	5
+ PME289	Preparation for Paramedic National Credentialing	2

General Education Requirements: (18-24 credits)

General Education Core: (12-18 credits)	Credits
First-Year Composition	6

Personal Training CCL 5421

Certificate of Completion - 18-18.5 credits

Field of Interest: Health Sciences

For Information: Louise So

Phone: 623.845.3883

<https://www.gccaz.edu/fitness-wellness>

Program Description: The Certificate of Completion (CCL) in Personal Training is designed to prepare students for the American College of Sports Medicine (ACSM), National Strength and Conditioning Association (NSCA), National Academy of Sports Medicine (NASM), and the American Council on Exercise (ACE) personal trainer certifications. These certifications are generally required for employment in personal training positions and/or professional advancement within the fitness industry. The curriculum provides students with the foundational skills needed to design and implement fitness programs appropriate to clients' goals and aligned with current industry best practices. A CCL in Personal Training: Advanced, an Associate in Applied Science (AAS) in Exercise Science: Health, Fitness, and Sports Performance, and an Associate in Arts (AA), Emphasis in Exercise Science are also available for students interested in continuing their studies in this field.

Program Notes: Students must earn a grade of C or better for all courses required within the program.

This program also is offered at Chandler-Gilbert, Mesa, Paradise Valley, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (17-17.5) credits	Credits
EMT101	Basic Life Support/Cardiopulmonary Resuscitation (CPR) for Health Care Providers (0.50) OR
HES106	Cardiopulmonary Resuscitation (CPR)/Automated External Defibrillator (AED) (0.5) OR Current CPR/AED certification (0).....

Personal Training: Advanced CCL 5445

Certificate of Completion - 30-30-5 credits

Field of Interest: Health Sciences

For Information: Louise So

Phone: 623.845.3883

<https://www.gccaz.edu/fitness-wellness>

Program Description: The Certificate of Completion (CCL) in Personal Training: Advanced is designed to prepare students for the American College of Sports Medicine (ACSM), National Strength and Conditioning Association (NSCA), National Academy of Sports Medicine (NASM), and the American Council on Exercise (ACE) personal trainer certifications. These certifications are generally required for employment in personal training positions and/or professional advancement within the fitness industry. The curriculum is designed to prepare students for employment in positions such as personal training within health and fitness clubs, wellness centers, and public and private recreation facilities. The curriculum includes the foundational courses required for the CCL in Personal Training coupled with advanced hands-on courses that foster the development of critical thinking and leadership skills important for developing, implementing and leading exercise programs. An Associate in Applied Science (AAS) in Exercise Science: Health, Fitness, and Sports Performance and an Associate in Arts (AA), Emphasis in Exercise Science are also available for students interested in continuing their studies in this field.

Program Notes: Students must earn a grade of C or better in all courses within the program.

This program also is offered at Chandler-Gilbert, Mesa, Paradise Valley, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (29-29.5 credits)		Credits

Philosophy General Information

Field of Interest: Culture and Society

For Information: Peter Lupu

Phone: 623.845.3747

<https://www.gccaz.edu/philosophy>

Student Goals: Personal, General Education, Career-related

Philosophy courses critically examine the nature of human beings and of the world, ways in which people seek to understand their world, and ethical and moral issues which arise. Students take these courses:

For personal interest: PHI101 Introduction to Philosophy and PHI105 Introduction to Ethics examine fundamental philosophic issues and major attempts to resolve them. PHI103 Introduction to Logic helps the student develop effective reasoning skills.

To meet the general education Humanities requirement: All PHI courses described below meet this requirement. PHI101 is recommended. All PHI courses transfer.

To prepare for a major in philosophy at a four-year institution: PHI101 and 103 will generally transfer as major credit toward the baccalaureate degree in philosophy. PHI105 may also meet major requirements. Students should consult with a member of the Philosophy Department to plan for transfer to a four-year institution.

As background for other careers: Philosophy is strongly recommended as an undergraduate major or minor for those planning to enter law, computer science, journalism, government, public relations, and other areas requiring training and skill in critical thinking.

Photography AAS 3195

Associate in Applied Science - 61-67 credits

Field of Interest: Visual and Performing Arts

For Information: Brendan Regan

Phone: 623.845.3449

<https://www.gccaz.edu/art-humanities>

Program Description: The Associate in Applied Science (AAS) in Photography program is designed for the student who wishes to pursue a career in photography, either commercial or fine arts. Students will study digital and traditional film-based (darkroom) media, content and image selection, and the theory and practice of visual communication.

Program Notes: Students must earn a grade of C or better for all courses required within the program.

There will be costs for supplies and equipment in this program.

This program also is offered at Chandler-Gilbert, Mesa, Phoenix, and Scottsdale Community Colleges.

Program Prerequisites: None.

Required Courses: (27-31 credits)

Credits

ARH101	Prehistoric Through Gothic Art (3) OR	
ARH102	Renaissance Through Contemporary Art (3)	3
ARH115	History of Photography	3
ART100	Introduction to Digital Arts	1

Natural Sciences

4

Any approved general education course in the Natural Sciences (Quantitative) [SQ] area or the Natural Sciences (General) [SG] area.

Physics General Information**Field of Interest: STEM**

For Information: Bruce Gordon

Phone: 623.845.3445

<https://www.gccaz.edu/physical-sciences>

Student Goals: General Education, Transfer, Career-related

The science of physics seeks to understand the behavior of matter and energy at the most general and fundamental level. Other sciences, e.g., chemistry and biology, build on the laws of physics and rely on many instruments originally devised by physicists.

Employment of physicists is greatest in areas that have heavy industrial concentrations and large college and university enrollments. Related careers are medical electronics, solid-state physics, production supervision, industrial sales, patent law, thermodynamics, acoustics, optics, and nuclear physics.

Transfer Recommendations: This program is designed as the first two years of coursework for students intending to pursue the baccalaureate degree at a four-year institution.

Students planning a major in physics should consult with a Department Advisor to outline and plan their academic schedule in order to transfer to a senior institution and to complete degree requirements in an expedient manner.

Required courses may not be available every semester or year. Due to limited course offerings, degree-seeking students may find it necessary to extend completion timelines and attend both day and evening classes.

Departmental Recommendations:**Credits**

- + PHY 115 University Physics I 5
- + PHY 116 University Physics II 5
- + MAT220 Calculus with Analytic Geometry I 5

+ CHM152LL	General Chemistry II Laboratory (1).....		4

Practical Nursing CCL 5957

Certificate of Completion - 35-45 credits

Field of Interest: Health Sciences

For Information: Grace Paul

Phone: 623.845.3626

<https://www.gccaz.edu/nursing>

Program Description: The Certificate of Completion (CCL) in Practical Nursing Program is available at seven of the Maricopa Community Colleges. Clinical experiences are provided in a variety of healthcare settings. Practical Nursing Program graduates are eligible to apply for the national exam for the practical nurse license. Licensing requirements are the exclusive responsibility of the State Board of Nursing.

The Certificate of Completion Practical Nursing Program is approved by the Arizona State Board of Nursing.

Program offerings:

This program is offered at the following sites:

- Chandler Gilbert Community College
- Estrella Mountain Community College
- Community College
- Glendale Community College
- Mesa Community College
- Paradise Valley Community College
- Scottsdale Community College

Waiver of Licensure/Certification Guarantee:

Admission or graduation from the Nursing Program does not guarantee obtaining a license to practice nursing. Licensure requirements and the subsequent procedures are the exclusive right and responsibility of the Arizona State Board of Nursing. Students must satisfy the requirements of the Nurse Practice Act: Statutes, Rules and Regulations, independently of any college or school requirements for graduation.

Pursuant to A.R.S. 32-1606(B)(17), an applicant for professional or practical nurse license by examination is not eligible for licensure if the applicant has any felony convictions and has not received an absolute discharge from the sentences for all felony convictions. The absolute discharge must be received five or more years before submitting this application. If you cannot prove that the absolute discharge date is five or more years, the Board cannot process your application.

Level One Fingerprint Clearance is required for admission into the program. Applicants must present a Level One Fingerprint Clearance Card to be copied by the advisor or designee. For a Department of Public Safety Fingerprint Clearance Card application, contact MCCC Healthcare/Nursing Advisor. If there is any question about eligibility for licensure or certification, contact the nursing education consultant at the Arizona State Board of Nursing (602.771.7800).

Health Declaration:

It is essential that nursing students be able to perform a number of physical activities in the clinical portion of the program. At a minimum, students will be required to lift patients, stand for several hours at a time and perform bending activities. Students who have a chronic illness or condition must be maintained on current treatment and be able to implement direct patient care. The clinical nursing experience also places students under considerable mental and emotional stress as they undertake responsibilities and duties impacting patients' lives. Students must be able to

demonstrate rational and appropriate behavior under stressful conditions. Individuals should give careful consideration to the mental and physical demands of the program prior to making application. All must provide documentation of compliance with all health and safety requirements required to protect patient safety. Only students in compliance are permitted to enroll in nursing courses. Students will meet these requirements by providing the required documentation for the Health/Safety Requirements Documentation Checklist and the signed Health Declaration Form.

Health and Safety Requirements for the Nursing Program:

- Students must submit a Health and Safety Documentation Checklist verifying completion of all requirements and maintain current status throughout the program.
- Students must submit the Health Declaration Form signed by a licensed health care provider.
- Students must test negative on a timed urine drug screen.
- Admission to an Allied Health program requires that students be in compliance with the Maricopa County Community College District Supplemental Background Check policy. Program applications will not be accepted without a copy of an Arizona Department of Public Safety Level One Fingerprint Clearance Card. Upon conditional program admission, the student must comply with all requirements of the current MCCC background check policy.

University Transfer Students:

Students who are planning to earn the Bachelor of Science in Nursing may obtain their prerequisite courses at the Maricopa Community Colleges. For information on courses that meet requirements for admission into a baccalaureate program, please contact a program advisor.

PRACTICAL NURSE EXIT OPTION

Following completion of the practical nurse level program of study, the student is eligible to apply for licensure as a practical nurse. Licensed Practical Nurses (LPN) may be employed in acute, long-term, and community-based health care settings under the direction of a registered nurse. Practical Nurses function within their legal scope of practice and use professional standards of care in illness care and health promotion activities for clients and families across the life span.

The Associate in Applied Science (AAS) Nursing Program is approved by the Arizona State Board of Nursing and accredited by the Accreditation Commission for Education in Nursing (ACEN), 3343 Peachtree Road NE, Suite 850, Atlanta, GA 30326; (404.975.5000); email: info@acennursing.org.

Program Notes: Students must earn a grade of C or better in all courses within the program.

Course Fee Information: Please see class schedule for information regarding course fees.

Maricopa Nursing is aligned with Nurse of the Future Competencies: Patient-Centered Care, Professionalism, Leadership, Systems-Based Practice, Informatics and Technology, Communication, Teamwork and Collaboration, Safety, Quality Improvement, and Evidence-Based Practice. These competencies focus on key stakeholders of healthcare clients, colleagues and communities. Demonstration of the competencies will signify preparation for successful transition into nursing practice and further professional development.

Admission Criteria: High School diploma or GED is required for the Certificate of Completion in Practical Nursing. Applicants must signify that they meet this requirement by providing high school diploma/transcripts or GED completion OR by signing the nursing application page containing the 'Declaration of High School Graduation or GED completion'. In some instances, high school diploma/transcripts or proof of GED completion may be required.

Formal application and admission to the program is required; all program prerequisites must be completed prior to submission.

A passing score on a nursing program admission test is required to complete an application.

The Nursing Program Chair reserves the right to deny acceptance of an admission application if the applicant was previously dismissed for issues relating to academic integrity, unsafe patient care, and/or two (2) or more failures from any nursing program.

All applicants holding or receiving a certificate as a Nursing Assistant and/or license as a Practical Nurse must remain in good standing with the Board of Nursing. Once enrolled, students receiving any disciplinary actions against their certificate or license must notify the Nursing Program Chair within five (5) school days. The Nursing Program Chair reserves the right to restrict the student's participation in clinical experiences and involvement in patient care until the certificate and/or license is valid and unrestricted.

Program Prerequisites: (10-20 credits)

Credits

The credit-hour range is subject to change depending on the student's educational experience.

+ BIO156	Introductory Biology for Allied Health (4) OR	
+ BIO181	General Biology (Majors) I (4) OR	
+ CHM130AA	Fundamental Chemistry with Lab (4) OR	
One year of high school biology.....		0-4
+ BIO201	Human Anatomy and Physiology I	4
+ CHM130	Fundamental Chemistry (3) AND	
+ CHM130LL	Fundamental Chemistry Laboratory (1) OR	
One year of high school chemistry.....		0-4
+ ENG101	First-Year Composition (3) OR	
+ ENG107	First-Year Composition for ESL (3)	3
+ MAT140	College Mathematics (5) OR	
+ MAT141	College Mathematics (4) OR	
+ MAT142	College Mathematics (3) OR	
Satisfactory completion of higher-level mathematics course.....		3-5

Students that are admitted into the Maricopa Nursing Program for Fall 2015 and Spring 2016, AND completed MAT120, MAT121, or MAT122 prior to Fall 2015 as an admission requirement, may complete the program without completing MAT140, MAT141, or MAT142 as a graduation requirement, by waiver of the Program Director.

Required Courses: (25 credits)

Credits

+ BIO202	Human Anatomy and Physiology II	4
+ NUR152	Nursing Theory and Science I	9
+ NUR172	Nursing Theory and Science II	9
+ NUR191	Practical Nursing Transition	3

Pre-Forestry General Information

Field of Interest: Culture and Society

For Information: forestryinfo@asu.edu

Phone: 928.523.3031

<https://nau.edu/forestry/>

ASSOCIATE IN ARTS (AA)/TRANSFER PROGRAM FOR NORTHERN ARIZONA UNIVERSITY

A forester manages and develops forest lands and their resources for economic and recreational purposes.

Nearly two-thirds of salaried conservation scientists and foresters work for Federal, State, or local governments. The remainder worked in private industry, mainly in support activities for agriculture and forestry or in wood product

manufacturing. Some are self-employed as consultants for private landowners, Federal and State governments, and forestry-related businesses.

Transfer Recommendations: For information on Northern Arizona University's Forestry program and transfer guide, please visit: <https://nau.edu/forestry/>. Students are advised to review the reverse transfer process to complete their Associate in Arts/Associate in Business degree and the Arizona General Education Curriculum (AGEC). The following are recommended courses:

+ BIO181	General Biology (Majors) I (4)
+ BIO182	General Biology (Majors) II (4)
CHM130	Fundamental Chemistry
CHM131LL	Fundamental Chemistry Laboratory
+ CHM151	General Chemistry I (3)
+ CHM151LL	General Chemistry I Laboratory (1)
+ COM221	Oral Fluency in American Speech (3)
ECN211	Macroeconomic Principles (3)
ECN212	Microeconomic Principles (3)
+ ENG101	First-Year Composition (3)
+ ENG102	First-Year Composition (3)
MAT125	Algebra/Trigonometry for Technology
+ MAT187	Precalculus (5)
+ MAT206	Elements of Statistics (3)

Pre-Health General Information

Fields of Interest: Health Sciences, STEM

For Information: <https://www.gccaz.edu/students/advancement/advancement-foi/foi-health-sciences-non-nursing>

For Information: <https://www.gccaz.edu/students/advancement/advancement-foi/foi-stem-science-technology-engineering-and-mathematics>

Student Goals: Transfer

Pre-health programs are designed for students preparing for the following professional schools: medical, dental, occupational therapy, optometry, pharmacy, physical therapy, physician assisting, and podiatry. Students hoping to be admitted to a professional program should first pursue their bachelor's degree at a university. Admission to professional schools is competitive; therefore, a GPA of at least 3.0 is advisable, especially in the required prerequisite coursework in science and math. Also, many professional programs require specific entrance exams (e.g., MCAT, PCAT, GRE, etc.) and higher scores make applicants more competitive. Often pre-health students choose biology, chemistry, or biochemistry, kinesiology or exercise science as their major; however, any major is allowed as long as all prerequisite courses are completed. Accomplishing this goal may require students with other majors to take extra courses/credits above and beyond the requirements of their own bachelor's degree. Students are urged to consult with an academic advisor to create an educational plan that will best support their long term educational and career goals:

<https://www.gccaz.edu/advancement/foi>. Student clubs can also provide a good way to network with other students interested in the same field as well as tap the experience of faculty advisors and invited guest speakers. GCC has both a Pre-Med club (<https://www.gccaz.edu/students/student-life/student-clubs/premed-club>) and a Pre-Pharmacy club (<https://www.gccaz.edu/students/student-life/student-clubs/prepharmacy-club>).

Program admission requirements are fairly uniform across the country; however, it is advisable for students to consult the website of all professional schools they are considering so they are aware of the specific requirements of each. In addition to specific coursework, many professional schools require applicants to have a minimum number of hours of volunteer or paid experience in a variety of healthcare settings. It is never too early to start putting in these kinds of clinical hours. This "real life" field experience can also be a good way for students to validate their career choice and to better identify how they fit in the health care professions. GCC's Career Services may be able to help interested individuals find such community-based opportunities: <https://www.gccaz.edu/career-services/internships> More specific information for various areas of emphasis follows.

Pre-Medical/Pre-Dental/Pre-Podiatry

A physician, whether allopathic, osteopathic, or podiatric, diagnoses, prescribes medication for, and treats diseases and disorders of the human body. Physicians often specialize in one aspect of medical care and treatment, but there is also a need for general/primary care practitioners.

Dentists examine, diagnose, and treat ailments or abnormalities of teeth and gums as well as performing routine prophylactic procedures. Many dentists offer multiple general oral care services, but some get additional specialized training to become endodontists, dental surgeons, periodontists and/or to perform implant, reconstructive or cosmetic dentistry.

Course Recommendations: The following list of courses is based on common admission requirements for many medical, podiatry and dental schools. The sequence of courses identified in the Associate in Science, Emphasis in Biological Sciences degree: <https://www.maricopa.edu/degrees-certificates/science-technology-engineering-mathematics/associate-science-emphasis-biological-sciences-8602-as> may be a useful academic planning tool for students interested in pursuing these medically-related programs. Students are urged to consult with an academic advisor in Glendale Community College's STEM Connect Student Success Center:

<https://www.gccaz.edu/students/advancement/advancement-foi/foi-stem-science-technology-engineering-and-mathematics> to work out an individualized program of study that will best prepare them to meet the entrance requirements of their selected professional schools.

+ BIO181	General Biology (Majors) I
+ BIO182	General Biology (Majors) II
+ BIO201	Human Anatomy and Physiology I
+ BIO202	Human Anatomy and Physiology II
+ CHM150	General Chemistry I OR
+ CHM151	General Chemistry I
AND	
+ CHM151LL	General Chemistry I Laboratory
+ CHM152	General Chemistry II AND
+ CHM152LL	General Chemistry II Laboratory
+ CHM235	General Organic Chemistry I AND
+ CHM235LL	General Organic Chemistry I Laboratory
+ CHM236	General Organic Chemistry II AND
+ CHM236LL	General Organic Chemistry II Laboratory
+ MAT15X*	College Algebra/Functions OR
higher level MAT course	
+ PHY 111**	General Physics I
+ PHY 112**	General Physics II

*Math requirements vary with transfer institution and major. Many universities and professional schools require at least one semester of calculus.

**Some university majors and professional schools require one or both semesters of Physics.

Pre-Occupational Therapy (Pre-OT)

Occupational therapists (OTs) help people of all ages live life to its fullest by helping them promote health, and improve or maintain activities of daily living after injury, illness, or disability. Common occupational therapy interventions include helping children with disabilities to participate fully in school and social situations, helping people recovering from injury

to regain life skills, and assisting older adults experiencing physical and cognitive changes improve their ability to perform daily activities.

Course Recommendations: The following is a short list of courses that those interested in applying to an OT program should consider in selecting their undergraduate major. Admission requirements vary somewhat from one OT program to another so it is important that students determine the courses needed for their preferred professional programs and work with a Glendale Community College Health Sciences advisor: <https://www.gccaz.edu/students/advisement/advisement-foi/foi-health-sciences-non-nursing> to develop a program of study that best fits those needs.

- + BIO201 Human Anatomy and Physiology I
- + BIO202 Human Anatomy and Physiology II

Additional one to two science course(s) [BIO, CHM, and/or PHY]

- + MAT206 Elements of Statistics OR
- + PSY230 Introduction to Statistics

Pre-Optometry

An optometrist examines and determines the condition of one's eyes and prescribes non-surgical treatment to conserve or improve vision such as corrective lenses and some medication.

Course Recommendations: The following is a suggested list of science and math courses that are generally required in order to be considered for admission to an optometry school; however, it is advisable for students to review the admission policies for all Optometry schools they are considering so they are aware of the specific requirements of each:

<https://optometriceducation.org/wp-content/uploads/2021/06/ASCO-Prerequisites.2-2021-updated-6-21-21.pdf> Early consultation with an academic advisor in Glendale Community College's STEM Connect Student Success Center: <https://www.gccaz.edu/students/advisement/advisement-foi/foi-stem-science-technology-engineering-and-mathematics> is recommended to assist in working out an individualized program of study based on each student's unique background and long term goals

- + BIO181 General Biology (Majors) I
- + BIO182 General Biology (Majors) II
- + BIO201 Human Anatomy and Physiology I
- + BIO202 Human Anatomy and Physiology II
- + BIO205 Microbiology

- + CHM150 General Chemistry I OR
- + CHM151 General Chemistry I
AND
+ CHM151LL General Chemistry I Laboratory

- + CHM152 General Chemistry II
AND
+ CHM152LL General Chemistry II Laboratory

- + CHM235** General Organic Chemistry I
AND
+ CHM235LL General Organic Chemistry I Laboratory

- + CHM236** General Organic Chemistry II
AND

- + CHM236LL General Organic Chemistry II Laboratory
- + MAT15X* College Algebra/Functions OR
higher level MAT course
- + MAT206 Elements of Statistics OR
- + PSY 230 Introduction to Statistics

- + PHY 111 General Physics I
- + PHY 112 General Physics II

* Most optometry schools require at least one semester of calculus.

** Some optometry schools prefer students take one semester of Organic Chemistry (such as CHM230 and CHM230LL) and one semester of Biochemistry (like CHM260).

Pre-Pharmacy

Pharmacists are medication specialists who advise patients on the proper use of medicines, monitor patients for therapeutic and adverse drug responses, and serve as drug therapy consultants to other health professionals. Pharmacy is a health-care profession that offers the practitioner excellent and diverse career opportunities in community or hospital practice, clinical pharmacy, industry, education, or government.

Many professional pharmacy schools do not require the completion of a bachelor's degree for admission; such schools' entrance requirements include the completion of up to 90 semester credits of prerequisite courses, including many in the sciences and mathematics. Admission is, however, generally quite competitive so completion of a bachelor's degree may be advantageous.

Course Recommendations: The following is a list of science and math courses that are generally required in order to be considered for admission to a pharmacy school. Early consultation with an academic advisor in Glendale Community College's STEM Connect Student Success Center: <https://www.gccaz.edu/students/advisement/advisement-foi/foi-stem-science-technology-engineering-and-mathematics> is recommended to assist in working out an individualized program of study based on each student's unique background and long term goals

- + BIO181 General Biology (Majors) I
- + BIO182 General Biology (Majors) II
- + BIO201 Human Anatomy and Physiology I
- + BIO202 Human Anatomy and Physiology II
- + CHM150 General Chemistry I OR
- + CHM151 General Chemistry I
- AND
- + CHM151LL General Chemistry I Laboratory
- + CHM152 General Chemistry II AND
- + CHM152LL General Chemistry II Laboratory
- + CHM235 General Organic Chemistry I AND
- + CHM235LL General Organic Chemistry I Laboratory
- + CHM236 General Organic Chemistry II AND
- + CHM236LL General Organic Chemistry II Laboratory
- + MAT15X* College Algebra/Functions OR

higher level MAT course

- + PHY 111** General Physics I
- + PHY 112** General Physics II

*Math requirements vary. One semester or calculus is often required.

**Number of semesters of Physics varies depending on university majors and professional school.

Pre-Physical Therapy (Pre-PT)

Physical Therapists (PTs) help people (of all ages) to rebuild strength, mobility and/or function and reduce/manage pain after an injury or other medical condition. They assess each individual's condition and then develop, monitor and adjust a treatment plan to assist in their recovery. Physical therapists may use a variety of modalities to help patients including application of heat and cold, physical manipulations and massage, ultrasound, and exercise. PTs work in a variety of medical settings including hospitals, rehabilitation centers and long-term care facilities, clinics, medical offices and patients' homes.

Course Recommendations: The following is a list of science and math courses that are generally required in order to be considered for admission to a doctoral program in physical therapy; however, it is advisable for students to review the admission policies for all PT schools they are considering so they are aware of the specific requirements of each:

<https://ptcasdirectory.apta.org/5287/Comparison-of-Course-Prerequisites-by-Program>

Although the requirements for a B.S. in Biology will include most of the courses listed below, many students interested in PT decide to major in Exercise Science or Kinesiology instead because of its emphasis on the mechanics and anatomy of movement. The Associate in Arts, Emphasis Exercise Science degree provides a tool to help pre-PT students envision their first steps in their academic journey as a semester by semester sequence: <https://www.gccaz.edu/degrees-certificates/health-sciences/associate-arts-emphasis-exercise-science-8121-aa> Early consultation with an Academic Advisor in Health Sciences: <https://www.gccaz.edu/students/advisement/advisement-foi/foi-health-sciences-non-nursing> is recommended to assist in working out an individualized program of study based on each student's unique background and long term goals.

- + BIO181* General Biology (Majors) I
- + BIO182* General Biology (Majors) II
- + BIO201 Human Anatomy and Physiology I
- + BIO202 Human Anatomy and Physiology II

- + CHM150 General Chemistry I OR
- + CHM151 General Chemistry I
AND
- + CHM151LL General Chemistry I Laboratory

- + CHM152 General Chemistry II AND
- + CHM152LL General Chemistry II Laboratory

- + MAT187 Precalculus

- + MAT206 Elements of Statistics OR
- + PSY 230 Introduction to Statistics

- PSY 101 Introduction to Psychology

- + PHY 111 General Physics I

+ PHY 112

General Physics II

*Many PT programs require at least 1 -2 semesters of General Biology in addition to the two-semester sequence of Anatomy and Physiology.

Pre-Physician Assisting (Pre-PA)

Physician Assistants (PAs) work in association with a doctor to conduct complete physical examinations, diagnose injury and illness, develop and manage treatment plans, and prescribe medications. PAs work in a variety of medical settings and specialties; they are often a patient's principal healthcare provider.

Course Recommendations: This is a suggested curriculum for the first two years of preparation for entering PA school. Students are urged to consult with an academic advisor in Glendale Community College's STEM Connect Center: <https://www.gccaz.edu/students/advisement/advisement-foi/foi-stem-science-technology-engineering-and-mathematics> to plan a program of study which will meet the entrance requirements of the PA programs of interest as well as their bachelor's degree.

Pre-Law General Information

Field of Interest: Business, Entrepreneurialism, and Management

For Information: Scott Stroher

Phone: 623.845.3453

<https://www.gccaz.edu/business>

Student Goals: Transfer

General information for students planning a career in Law:

No formal pre-law course of study is required to be eligible to apply for admission to law school. The demands of law are so varied that no one course of preparation can possibly be regarded as exclusive and law schools attempt to do no more than urge students aiming toward a legal career to acquire a liberal education to the fullest sense of that term. Legal educators agree that a pre-legal education should be geared to the development of:

- A broad cultural background.
- Habits of thoroughness, intellectual curiosity, and scholarship.
- Ability to organize materials and communicate the results, both in writing and orally.

Since the attorney's principal tools are the abilities to analytically think and communicate, every student should be particularly well-grounded in the use of language. The ability to write clearly, concisely, and with a sense of style is highly desirable. Therefore, courses in English composition and literature beyond the bare minimal requirements are recommended as well as courses which develop a lucid writing style.

A broad liberal arts education which is planned to provide understanding of institutions and values with which the law deals is excellent preparation for a career in law. The habits of reading widely and writing clearly are tied closely to the development of the capacity to absorb abstract ideas and to reason systematically. Study in the areas of government, history, philosophy, psychology, sociology, economics, and literature will all contribute to the deep understanding of our social, political, and economic institutions that every good attorney must have. Law school admission committees give strong consideration to the following:

- Scores on the Law School Admission Test (LSAT). A preparation course is recommended before taking the LSAT.
- Overall academic performance for the full period of attendance in college. (Admission becomes increasingly more competitive each year and students should endeavor to keep grades at the highest possible level.)
- Breadth in the undergraduate program in addition to the major field of study. Electives should include courses in a wide range of disciplines. Courses at the undergraduate level in law are not essential since much of the material will be explored at a later time.
- Ability to write correctly, clearly, and concisely. (Many law schools require demonstration of this ability as part of their admission test.)
- General community involvement and/or personal achievement.

Many schools require character and personal references in addition to the above listed requirements. The study of law requires self-discipline and hard work which makes it important for students to develop good study habits in their academic career.

Program Description: This suggested program should be considered as the first two years of a baccalaureate program. Students should select an undergraduate major in liberal arts, social sciences, or business. A business transfer program is especially recommended.

Program Recommendations:

General Elective

Students should choose a major and consult with an advisor in planning their pre-law program. The following courses are recommended:

		Credits
COM100	Introduction to Human Communication.....	3
+ COM225	Public Speaking	3
ECN211	Macroeconomic Principles.....	3
ECN212	Microeconomic Principles	3
GBS205	Legal, Ethical, and Regulatory Issues in Business	3
+ GBS233	Business Communication	3
HIS103	United States History to 1865.....	3

HIS104	United States History 1865 to Present	3
PHI101	Introduction to Philosophy	3
+ PHI103	Introduction to Logic	3
POS110	American National Government	3
POS120	World Politics.....	3
PSY101	Introduction to Psychology	3
SOC101	Introduction to Sociology	3

General Education Requirements:

Follow general education requirements for Associate in Arts, Associate in Science, or Associate in Business degrees, depending on intended transfer major. Meet with an Academic Advisor in the Glendale Community College Enrollment Center to develop an educational plan. In determining course choices, students should be guided by the requirements of the four-year institution from which they expect to earn a baccalaureate degree.

Programming and Systems Analysis AAS 3844

Associate in Applied Science - 62-71 credits

Field of Interest: Computer and Information Technology

For Information: Bill Stewart

Phone: 623.845.3250

<https://www.gccaz.edu/business>

Program Description: The Associate in Applied Science (AAS) in Programming and Systems Analysis program provides an in-depth exploration of different computer language and technical skills. The AAS includes, but is not limited to the following: operating systems, local area networks, business communication, team roles, and dynamics. Certificate of Completions (CCL) in Programming and Systems Analysis Level I and Level II and iOS Application Development are also available.

Program Notes: Students must earn a grade of C or better for all courses required within the program.

Consultation with an Academic Advisor is recommended for course selection.

Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.

This program also is offered at Chandler-Gilbert, Estrella Mountain, Mesa, Paradise Valley, Phoenix, Rio Salado, and Scottsdale Community Colleges.

Program Prerequisites: None.

Required Courses: (34-37 credits)		Credits
CIS105	Survey of Computer Information Systems	3
GBS151	Introduction to Business	3
CIS126DL	Linux Operating System (3) OR	
CIS126RH	Red Hat System Administration I (3) OR	
+ MST150++	Any Microsoft Windows course (3)	3
CIS133DA	Internet/Web Development Level I	3
Students interested in pursuing an iOS Certificate of Completion (CCL) are recommended to take CIS150AB.		
+ CIS150	Programming Fundamentals (3) OR	
+ CIS150AB	Object-Oriented Programming Fundamentals (3)	3
CIS166++	Any Web Scripting course(s)	3

+ CIS166++ ¹	Any Web Scripting course(s)	3
+ CIS190 CNT140AB	Introduction to Networking (3) OR Introduction to Networks (4) OR	
+ MST140	Microsoft Networking Essentials (3)	3-4
+ CIS225 + CIS225AB	Business Systems Analysis and Design(3) OR Object-Oriented Analysis and Design(3) OR	
+ CIS250	Management of Information Systems (3)	3
+ CIS119DO + CIS276DA	Introduction to Oracle: SQL (3) OR MySQL Database(3) OR	
+ CIS276DB	SQL Server Database (3)	3
FY E101 FY E103	Introduction to College, Career and Personal Success (1) OR Exploration of College, Career and Personal Success (3)	1-3

Select a programming language from below that best aligns with academic and professional goals (two courses for a total of six credits) in one of the following areas:

+ CIS156 AND	Python Programming: Level I (3)	
+ CIS256	Python Programming: Level II (3) OR	
+ CIS159 AND	Visual Basic Programming I (3)	
+ CIS259	Visual Basic Programming II(3) OR	
CIS162++ AND	Any C Programming: Level I course (3)	
CIS262++	Any C Programming: Level II course (3) OR	
+ CIS163AA AND	Java Programming: LevelI (3)	
+ CIS263AA	Java Programming: LevelII (3) OR	
CIS165++ AND	Any Mobile Application Development course (3)	
+ CIS265	Advanced iOS Application Development (3)	6

Restricted Electives: (6 credits)

Students may not use courses from the Required Courses Area.

Credits

CIS224	Project Management Microsoft Project for Windows	3
+ CIS151	Computer Game Development-Level I	3
+ CIS156	Python Programming: Level I	3
+ CIS159	Visual Basic Programming I	3
CIS162++	Any C Programming: Level I course	3
+ CIS163AA	Java Programming: Level I	3
CIS165++	Any Mobile Application Development course	3
+ CIS251	Computer Game Development-Level II	3
+ CIS259	Visual Basic Programming II	3
CIS262++	Any C Programming: Level II course	3

¹ indicates course has pre/corequisites. ++ indicates suffixed courses

+ CIS263AA	Java Programming: Level II	3
+ CIS265	Advanced iOS Application Development	3
GBS211	Legal, Ethical and Regulatory Issues of the Internet Studies	3

General Education Requirements: (22-28 credits)

General Education Core: (12-18 credits)	Credits
--	----------------

First-Year Composition:	6
+ ENG101	First-Year Composition (3) OR
+ ENG107	First-Year Composition for ESL (3)
AND	
+ ENG102	First-Year Composition (3) OR
+ ENG108	First-Year Composition for ESL (3)

Oral Communication:	3
Any approved general education course in the Oral Communication area.	

Critical Reading:	0-3
+ CRE101	College Critical Reading and Critical Thinking (3) OR
	Equivalent as indicated by assessment.

Mathematics:	3-6
+ MAT150	College Algebra/Functions(5) OR
+ MAT151	College Algebra/Functions(4) OR
+ MAT152	College Algebra/Functions(3)
+ MAT155	College Algebra/Functions with Review(5) OR
+ MAT156	College Algebra/Functions with Review(6)

General Education Distribution: (10 credits)	Credits
---	----------------

Humanities, Arts and Design:	3
Any approved general education course in the Humanities, Arts and Design [HU] area.	

Social-Behavioral Sciences:	3
ECN211	Macroeconomic Principles (3) OR
ECN212	Microeconomic Principles(3) OR
SBU200	Society and Business(3)

Natural Sciences:	4
Any approved general education course in the Natural Sciences (Quantitative) [SQ] area or the Natural Sciences (General) [SG] area.	

Programming and Systems Analysis Level I CCL 5048

Certificate of Completion - 24 credits

Field of Interest: Computer and Information Technology

For Information: Bill Stewart

Phone: 623.845.3250

<https://www.gccaz.edu/business>

Program Description: The Certificate of Completion (CCL) in Programming and Systems Analysis Level I provides an exploration of different computer language and technical skills. The CCL includes, but is not limited to the following: operating systems, local area networks, business communication, team roles, and dynamics. A CCL in Programming and Systems Analysis Level II, CCL in iOS Application Development and an Associate in Applied Science (AAS) in Programming and Systems Analysis are also available.

Program Notes: Students must earn a grade of C or better for all courses required within the program.

Consultation with an Academic Advisor is recommended for course selection.

Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.¹

This program also is offered at Chandler-Gilbert, Estrella Mountain, Mesa, Paradise Valley, Phoenix, Rio Salado, and Scottsdale Community Colleges.

Program Prerequisites: None.

Required Courses: (24 credits)

Programming and Systems Analysis Level II CCL 5962

Certificate of Completion - 36-37 credits

Field of Interest: Computer and Information Technology

For Information: Bill Stewart

Phone: 623.845.3250

<https://www.gecaz.edu/business>

Program Description: The Certificate of Completion (CCL) in Programming and Systems Analysis Level II provides an in-depth exploration of different computer language and technical skills. This CCL includes, but is not limited to the following: local area networks, team roles, and dynamics. A CCL in iOS Application Development and an Associate in Applied Science (AAS) in Programming and Systems Analysis are available.

Program Notes: Students must earn a grade of C or better for all courses required within the program.

Consultation with an Academic Advisor is recommended for course selection.

⁺ indicates course has pre/corequisites. ⁺⁺ indicates suffixed courses

Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.

This program also is offered at Chandler-Gilbert, Estrella Mountain, Mesa, Paradise Valley, Phoenix, Rio Salado, and Scottsdale Community Colleges.

Program Prerequisites: None.

Required Courses: (33-34 credits)

The following courses are required and included in CCL Programming and Systems Analysis Level I.

		Credits
CIS105	Survey of Computer Information Systems	3
+ CIS119DO	Introduction to Oracle: SQL (3) OR	
+ CIS276DA	MySQL Database (3) OR	
+ CIS276DB	SQL Server Database (3)	3

Psychology General Information

Field of Interest: Behavioral Science and Human Services

For Information: Julie Morrison

Phone: 623.845.4761

<https://www.gccaz.edu/psychology>

Associate in Arts/Transfer Program

Student Goals: General Education, Transfer to a University, Personal Interest

Psychologists are concerned with the scientific study of behavior and mental processes. Psychology is a beneficial major or minor for students interested in education, medicine, law, social work, management, or any of the human service fields such as nursing, child care, medical technology, law enforcement, or real estate. Positions in the field of psychology as a psychologist require a graduate degree.

Employment will remain competitive in educational institutions but will show 8% to 14% growth in clinical and industry settings between 2016 and 2026. Related careers include personnel management, public relations, sports and recreation, speech pathology, special education, counseling, vocational rehabilitation, gerontology, business management, and computer science.

Program Description: This program provides the first two years of a four-year curriculum for students who wish to specialize in psychological sciences or are preparing for graduate programs in psychology or related fields. With a bachelor's degree, students may pursue numerous careers such as mid- and top-level managers, market research analysts/specialists, human resources specialists/managers, social and human service assistants, psychiatric technicians, survey researchers, and probation officers/correctional treatment specialists. Most careers in psychology require graduate work. With a graduate degree, students may pursue a number of careers, including but not limited to: psychologists (industrial-organizational, clinical, counseling, and school), research scientists, psychiatrists, neuropsychologists, statisticians, teachers, and human factors engineers

Special Skill Levels Needed: College level reading, writing, and math skills.

Core Requirements:

Credits

PSY 101	Introduction to Psychology [SB]	3
+ PSY 230	Introduction to Statistics [CS]	3
+ PSY 231	Laboratory for Statistics	1
+ PSY 290AB	Research Methods [L, SG]	4

Electives:**Credits**

The following courses are available as electives but should be chosen only sparingly by psychology majors. No more than one or two of these should be taken. (Some of these courses are junior-senior level upper division courses at the universities and have no lower division equivalents there. If taken at Glendale Community College, they will count as lower division credit at the universities.)

PSY 132	Psychology and Culture [C, G, SB*].....	3
PSY 143	Psychology of Sexual Orientation and Gender Identity [C*].....	3
PSY 156	Understanding Death and Dying [SB].....	3
PSY 157	African/Black Psychology [SB*, C*].....	3
+ PSY 215	Sports Psychology	3
+ PSY 218	Health Psychology.....	3
PSY 235	Psychology of Gender [SB*, C*].....	3
+ PSY 240	Developmental Psychology [SB*].....	3
+ PSY 241	Understanding and Changing Behavior.....	3
+ PSY 242	Understanding and Changing Behavior Lab.....	1
+ PSY 243	The Psychology of Developmental Disabilities.....	3
+ PSY 244	Internship in Psychology	1
+ PSY 250	Social Psychology [SB*].....	3
+ PSY 262	Positive Psychology: The Science of Well-Being.....	3
+ PSY 266	Psychological Disorders [SB*]	3
+ PSY 267	Forensic Psychology	3
+ PSY 275	Biopsychology [SG*].....	4
+ PSY 277	Psychology of Human Sexuality [SB*]	3
+ PSY 280	Industrial/Organizational Psychology [SB*]	3
+ PSY 295AA	Independent Research in Psychology.....	1

Recommendations for Psychology Minors:

A minor in psychology fits very well as a companion discipline with a wide variety of majors. Most universities will require five or six psychology courses for a minor; at least two of them should be at the upper division level at the university. Students wishing to minor in psychology should take PSY 101, and choose other courses from the following list, depending on university requirements:

+ PSY 230	Introduction to Statistics [CS*].....	3
+ PSY 231	Laboratory for Statistics	1
+ PSY 240	Developmental Psychology [SB*].....	3
+ PSY 241	Understanding and Changing Behavior	3
+ PSY 250	Social Psychology [SB*].....	3
+ PSY 266	Psychological Disorders [SB*]	3
+ PSY 275	Biopsychology [SG*].....	4
+ PSY 277	Psychology of Human Sexuality [SB*]	3
+ PSY 290AB	Research Methods [L, SG*].....	4

Personal Improvement and Personal Interest Courses:

With the numerous and varied demands of our complex world many of us face serious difficulties adjusting to and coping with the stresses and pressures of modern living. The following courses may be of considerable help in coping with such problems.

PSY 143	Psychology of Sexual Orientation and Gender Identity [C*].....	3
PSY 156	Understanding Death and Dying	3
PSY 157	African/Black Psychology [SB*, C*].....	3
+ PSY 215	Sports Psychology [SB*].....	3
+ PSY 235	Psychology of Gender [SB, C*].....	3
+ PSY 241	Understanding and Changing Behavior.....	3
+ PSY 243	The Psychology of Developmental Disabilities.....	3

+ PSY 262	Positive Psychology: The Science of Well-Being.....	3
+ PSY 277	Psychology of Human Sexuality [SB*]	3

*[SB] counts at Arizona State University as Social-Behavioral Sciences general education requirement. [C] counts as Cultural Awareness General Education requirement. [CS] counts as Computer/Statistics, [L] counts for Literacy and Critical Inquiry, and [SG] counts for Natural Sciences-General general education requirements.

Typically, psychology majors will need to take ten or more psychology courses for graduation with a Bachelor of Arts or Bachelor of Science degree. At least five should be upper division courses at a university. Between three and five of those courses may be at the lower division (community college) level including the core requirements and suggested electives listed previously. Psychology majors should consult early with a departmental advisor about the math and science requirements and planning their course of study.

Reading General Information

Field of Interest: Culture and Society

For Information: Dr. Jennifer Lane

Phone: 623.845.3436

<https://www.gccaz.edu/english>

Student Goals: Personal, Occupational, Academic

Reading courses are offered at GCC to help students develop effective and efficient language and literacy skills for life, work, and school, such as reading and study strategies for textbooks and assessments, navigating information technology, and developing academic vocabulary. Classes include practice with fiction and non-fiction texts, helping students discern message, meaning, and method of a multitude of readings from diverse genres across disciplines.

Per placement by current MCCC recommendations outlined in the Course Placement Chart

(<https://cdn.maricopa.edu/documents/pdf/transfer/course-placement-chart.pdf>), students may take any of the following classes from reading. Please see an academic advisor for support in selecting the appropriate classes.

ALT 100 focuses on developing academic language and critical reading skills through reading and writing practice.

RDG 100 and RDG 100LL emphasize reading study strategies for college, content-area classes in multiple subject areas. RDG 100 and RDG 100LL are counted as elective credit toward A.A. and A.S. degrees and are transferable as elective credit to B.A. and B.S. degrees of study.

CRE 101 builds on students' ability to develop and apply critical reading and thinking skills through critical analysis and evaluation of varied texts and the study of contemporary issues. CRE 101 involves meaningful writing projects and qualifies as an "L" designated class toward B.A. and B.S. degrees as well as satisfies the A.A. and A.S. degree requirements for graduation

Real Estate: Prelicense CCL 5139N

Certificate of Completion - 6.5 credits

This program is not eligible for Title IV Federal Financial Aid

Fast Track Certificate: Real Estate: Prelicense CCL 5139N

Field of Interest: Business, Entrepreneurialism, and Management

For Information: Scott Stroher

Phone: 623.845.3453

<https://www.gccaz.edu/business>

Program Description: The Certificate of Completion (CCL) in Real Estate: Prelicense introduces students to the real estate profession. This program is designed to prepare students to meet the requirements to take the Arizona State Real Estate Salesperson's Exam. Emphasis will be placed on license laws, real and personal property, financing, purchasing,

selling, renting, legal descriptions, rights and interests in property, ownership, contracts, real estate terminology and economics, investing in real estate, foreclosure, land use, and evaluation.

Program Notes: Students must earn a grade of C or better for each course listed in the program.

This program also is offered by Mesa, Paradise Valley, Rio Salado, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (6.5 credits)		Credits
REA179	Real Estate Principles I (3)

Red Hat Linux Administrator CCL 5049N

Certificate of Completion - 6-9 credits

This program is not eligible for Title IV Federal Financial Aid

Fast Track Certificate: Red Hat Linux Administrator CCL 5049N

Field of Interest: Computer and Information Technology

For Information: Martin Bencic

Phone: 623.845.3237

<https://www.gccaz.edu/business>

Program Description: The Certificate of Completion (CCL) in Red Hat Linux Administrator program is designed to help prepare students for employment or to improve current professional skills. The program includes Red Hat Enterprise Linux system basics and management including sophisticated manipulation of file structures, backup systems, troubleshooting, user account management, hard disk maintenance and configuration, process monitoring and prioritizing, and system resource control. This program helps prepare students for the Red Hat Certified System Administrator (RHCSA) certification exam. Students who complete this program may seek employment in a variety of environments. Students can also pursue additional CCLs in a variety of specializations within the information technology field to deepen their knowledge and skills and help prepare them for multiple industry certification examinations. An Associate in Applied Science (AAS) in Network and Systems Administration is also available.

This program also is offered by Chandler-Gilbert, Estrella Mountain, GateWay, Mesa, Paradise Valley, Phoenix, Scottsdale, and South Mountain Community Colleges.

Program Notes: Students must earn a grade of C or better in all courses within the program.

Students who pursue this Certificate of Completion (CCL) should have a basic level of computer literacy including navigating the internet and computer systems or take CIS105 as indicated in the required courses. Students with the requisite skills may have the CIS105 requirement waived by permission of the Program Director.

Required courses and restricted electives must be taken within five years prior to completion of the program to be applied toward this award.

Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.¹

This program also is offered at Chandler-Gilbert, Estrella Mountain, GateWay, Mesa, Paradise Valley, Phoenix, Scottsdale, and South Mountain Community Colleges.

Religious Studies General Information

Field of Interest: Culture and Society

For Information: Peter Lupu

Phone: 623.845.3747

⁺ indicates course has pre/corequisites. ⁺⁺ indicates suffixed courses

Student Goals: General Education, Personal Interest and Career Related

In today's global socioeconomic situation, it is important to understand and respect the differences present in a variety of ethnic and religious cultures. The academic study of religion is an excellent program for developing strong analytical, research and critical thinking skills that will contribute to success in life and career endeavors. An Associate in Arts degree with a focus in Religious Studies prepares students for a variety of career options.

Graduates often pursue careers in:

- Business/International Business
- Counseling
- Education
- Law
- Nursing
- Journalism
- Foreign Service
- Chaplaincy
- Public and Non-Profit Administration
- Social Work

Retail Management AAS 3048

Associate in Applied Science - 62-67 credits

Field of Interest: Business, Entrepreneurialism, and Management

For Information: Kendra Swensen

Phone: 623.845.3749

<https://www.gccaz.edu/business>

Program Description: The Associate in Applied Science (AAS) in Retail Management degree is designed to prepare individuals working in the retail management, food industry, and related fields, for the mid-level management position challenges of the future. The curriculum encompasses business essentials and also emphasizes the skill sets needed for effective management and communication in the work environment. Instruction will provide the background and knowledge necessary for students to develop the judgment skills they must exercise as business managers. A Certificate of Completion (CCL) in Retail Management is also available.

Program Notes: Students must earn a grade of C or better in all courses within the program.

This program also is offered by Chandler-Gilbert, Estrella Mountain, Mesa, Phoenix, Rio Salado, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (28-33 credits)

Social Media Marketing CCL 5830

Certificate of Completion - 17-18 credits

This program currently is not eligible for Title IV Federal Financial Aid

Field of Interest: Business, Entrepreneurialism, and Management

For Information: Kendra Swensen

Phone: 623.845.3749

<https://www.gccaz.edu/business>

Program Description: The Certificate of Completion (CCL) in Social Media Marketing is designed to provide useful skills important in a variety of strategic marketing areas, e.g., social media, digital communications, integrated marketing, media relations, and brand management. An Associate in Applied Science (AAS) in Marketing and Sales is also available.

Program Notes: Students must earn a grade of C or better for all courses within the program.

This program also is offered at Chandler-Gilbert, Estrella Mountain, Mesa, Paradise Valley, Phoenix, Scottsdale and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (15 credits)		Credits
CIS103	Introduction to Social Media	3
GBS120	Workplace Communication Skills	3
MKT110	Marketing and Social Networking	3
+ MKT111	Applied Marketing and Social Networking	3
MKT271	Principles of Marketing.....	3

Restricted Electives: (2-3 credits)		Credits
MKT101	Introduction to Public Relations	3
+ MKT280AB	Marketing Internship	2
+ MKT298AB	Special Projects	2

Sustainability AC 6240N

Academic Certificate - 15 -18 credits

This program is not eligible for Title IV Federal Financial Aid

Field of Interest: Science, Technology, Engineering, and Mathematics

For Information: Michael Strong

Phone: 623.845.3602

<https://www.gccaz.edu/social-sciences>

Program Description: The Academic Certificate (AC) in Sustainability is interdisciplinary and builds a strong academic expertise within a student's desired focus area of Sustainability. The focus areas are established within and among the foundational pillars of Sustainability (social - environmental - economic).

Program Notes: Students must earn a grade of C or better for all courses required within the program.

This program also is offered at Chandler-Gilbert, Mesa, Paradise Valley, Rio Salado, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (6 credits)		Credits
SSH111	Sustainable Cities	3
SUS110	Sustainable World	3

Restricted Electives: (9-12 credits)		Credits
Students must select three focus area classes.		
ASM104	Bones, Stones, and Human Evolution	4
BIO105	Environmental Biology	4
CHM107	Chemistry and Society (3)	
AND		
+ CHM107LL	Chemistry and Society Laboratory (1)	4
COM263	Elements of Intercultural Communication	3

FON135	Sustainable Cooking	3
ECN212	Microeconomic Principles	3

ENV101	Introduction to Environmental Science	4
 AND GLG110	Geological Disasters and the Environment (3)	
GLG111	Geological Disasters and the Environment Lab (1)	4
 GPH113	Introduction to Physical Geography	4
PHI216	Environmental Ethics	3
PSY132	Psychology and Culture	3
SBU200	Society and Business	3
SUS100	Introduction to Sustainability	3
SCT100	Introduction to Sustainable Built Environments	3

Tactical Emergency Casualty Care CCL 5998N

Certificate of Completion - 2.5 credits

This program is not eligible for Title IV Federal Financial Aid

Field of Interest: Health Sciences

For Information: Todd Polansky

Phone: 623.845.3908

<https://www.gccaz.edu/public-safety-sciences>

Program Description: The Certificate of Completion (CCL) in Tactical Emergency Casualty Care is designed to provide the knowledge, skills and ability to synthesize standard of care and expanded scope of practice with comprehensive assessment, diagnostic technology, patient advocacy, ethical and professional behaviors, to practice patient-centered evidence-based paramedicine in the tactical emergency setting. This certificate prepares students for a tactical emergency casualty care paramedic credential.

Program Notes: Students must earn a grade of C or better in all courses required within the program.

This program also is offered at Mesa, Paradise Valley, and Phoenix Community Colleges.

Admission Criteria: Current state Paramedic certification.

Program Prerequisites: None.

Required Courses: (2.5 credits)

	Credits	
PME293	Tactical Emergency Casualty Care (TECC)	2.5

Technical Theatre: Audio Technician CCL 5077N

Certificate of Completion - 11-12 credits

This program is not eligible for Title IV Federal Financial Aid

Field of Interest: Visual and Performing Arts

For Information: David Seitz

Phone: 623.845.3385

<https://www.gccaz.edu/performing-arts>

Program Description: The Certificate of Completion (CCL) in Technical Theatre: Audio Technician is designed to prepare students to apply live sound reinforcement in theatre productions. Classes include instruction in live sound reinforcement, setting up equipment, and sound design for theatrical productions. A CCL in Technical Theatre and the Associate in Arts, Fine Arts (AAFA), Emphasis in Theatre are also available.

Program Notes: Students must earn a grade of C or better for all courses required within the program.

This program also is offered at Mesa, Paradise Valley, and Phoenix, Community Colleges.

Program Prerequisites: None.

Required Courses: (11-12 credits)		Credits
+ MUC122	Sound Design I	3
MUC197	Live Sound Reinforcement I	3
+ MUC198	Live Sound Reinforcement II	3
THP201AA	Theatre Production I (1) OR	
THP201AB	Theatre Production II (2) OR	
THP202	Theatre Production Projects (1) OR	
THP202AB	Theatre Production I Electrics (1) OR	1-2
THP251	Safety Practices in Theatre and Film Production	1

Technical Theatre: Costuming CCL 5090N

Certificate of Completion - 8-9 credits

This program is not eligible for Title IV Federal Financial Aid

Field of Interest: Visual and Performing Arts

For Information: David Seitz

Phone: 623.845.3385

<https://www.gccaz.edu/performing-arts>

Program Description: The Certificate of Completion (CCL) in Technical Theatre: Costuming is designed to provide students with skills in the acquisition, construction, alteration, and maintenance of costumes for theatrical performances. Courses include instruction in costume construction, theory and period styles. A CCL in Technical Theatre and the Associate in Arts, Fine Arts (AAFA), Emphasis in Theatre are also available.

Program Notes: Students must earn a grade of C or better for all courses required within the program.

This program also is offered at Mesa, Paradise Valley, and Phoenix, Community Colleges.

Program Prerequisites: None.

Required Courses: (5-6 credits)		Credits
THP201AA	Theatre Production I (1) OR	
THP201AB	Theatre Production II (2) OR	
THP202AC	Theatre Production I Costume Shop (1)	1-2
THP206	Introduction to Costume Construction for Theatre	4

Restricted Electives (3 credits)

Students should select courses for a total of three credits based on their career goal. Speak to a Program Director for additional information.

TEC113	Textiles: Dyeing	1
TEC114	Textiles: Block Printing/Silk Screening	1
TEC115	Textiles: Hand Painting	1
TEC225	Pattern Design I	3
THF115	Makeup for Stage and Screen	3

Technical Theatre: Stage Crew Technician CCL 5099N

Certificate of Completion - 6-7 credits

This program is not eligible for Title IV Federal Financial Aid

Fast Track Certificate: Technical Theatre: Stage Crew Technician CCL 5099N

Field of Interest: Visual and Performing Arts

For Information: David Seitz

Phone: 623.845.3385

<https://www.gccaz.edu/performing-arts>

Program Description: The Certificate of Completion (CCL) in Technical Theatre: Stage Crew Technician is designed to provide students with skills to work on theatrical productions as part of the stage crew. The courses include instruction in general theatre knowledge and safety and provide opportunities for hands-on theatrical production experience. A CCL in Technical Theatre and the Associate in Arts, Fine Arts (AAFA), Emphasis in Theatre are also available.

Program Notes: Students must earn a grade of C or better for all courses required within the program.

This program also is offered at Mesa, Paradise Valley, Phoenix, and Scottsdale Community Colleges.

Program Prerequisites: None.

Required Courses: (6-7 credits)

Credits

Theatre General Information

Field of Interest: Visual and Performing Arts

For Information: David Seitz

Phone: 623.845.3385

<https://www.gccaz.edu/performing-arts>

Theatre personnel pursue careers as performers, teachers, stage managers, actors, theatre critics and journalists, theatre historians, dramaturgs, writers, directors, producers, sound designers, set designers, lighting designers, media designers, costume designers, props designers, hair and makeup designers, technicians, and in theatre related business and professional work.

Program Description: This program provides the first two years of theatre required for a bachelor's degree in Theatre Arts, Theatre Performance, Theatre Design-Technical-Production, and Musical Theatre. Associate in Arts, Fine Arts (AAFA) degrees with Emphases in Theatre and Musical Theatre are available.

Certificates of Completion (CCLs) are available in Technical Theatre: Costuming, Technical Theatre: Stage Crew Technician, and Technical Theatre: Audio Technician.

Every theatre major pursuing the AAFA, Emphasis in Theatre or Musical Theatre degree has an opportunity to participate in at least one production each semester. There are one to four large and small productions produced each semester through the mainstage, blackbox, and other alternative venues Glendale Community College (GCC) Theatre has to offer.

Most courses in the theatre program are open to all students. There are some courses which have prerequisites, and those may be found in the course descriptions.

The Theatre Arts and Film and Musical Theatre programs offer class instruction in acting, directing, production, theatre and cinema and television history and analysis, theatre design areas, theatre tech, piano, voice, and many others. In addition, the program is in collaboration with professional theatre groups around the state providing occasional internship and joint venture opportunities. The Theatre Programs are actively affiliated with the Kennedy Center

American College Theater Festival (KCACTF), Maricopa County Community College District's Artists of Promise, and several other scholarship competitions. GCC Theatre also has an active chapter of Delta Psi Omega Drama Club - open to all GCC Students.

Students who major in theatre at GCC should follow the curricula as outlined. Various universities and colleges; however, demand specific subjects for degree requirements.

Students planning to transfer or continue their work at other institutions should consult their GCC Theatre Advisor and the catalogs of the universities that they plan to attend.

Availability: Complete day programs. Partial evening programs. Due to limited course offerings, students should consult with a Department Advisor in planning their academic schedule in order to complete degree requirements in an expedient manner. See AAFA, Emphasis in Theatre; AAFA, Emphasis in Musical Theatre; CCL in Technical Theatre: Audio Production; CCL in Technical Theatre: Costuming; and CCL in Technical Theatre: Stage Crew Technician for specific course requirements.

Victimology CCL 5392N

Certificate of Completion - 15 credits

This program is not eligible for Title IV Federal Financial Aid

Fast Track Certificate: Victimology CCL 5392N

Field of Interest: Behavioral Science and Human Services

For Information: Paul Brown

Phone: 623.845.3913

<https://www.gccaz.edu/public-safety-sciences>

Program Description: The Certificate of Completion (CCL) in Victimology is designed for students who are interested in pursuing a course of study specifically focused on crisis intervention, community services, and victim rights. It is one pathway to the Associate in Applied Science (AAS) in Administration of Justice.

Program Notes: Students must earn a grade of C or better for all courses required within the program.

This program also is offered at Chandler-Gilbert, Mesa, Paradise Valley, Phoenix, Rio Salado, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (15 credits)		Credits
AJS101	Introduction to Criminal Justice	3
AJS162	Domestic Violence	3
AJS225	Criminology	3
AJS255	The Criminal Justice System Handling of the Mentally Ill	3
AJS/EMT/FSC/SWU258	Victimology and Crisis Management	3

Video Game Production AAS 3890

Associate in Applied Science - 62-79 credits

Field of Interest: Computer and Information Technology

For information: Bill Stewart

Phone: 623.845.3250

<https://www.gccaz.edu/business>

Program Description: The Associate in Applied Science (AAS) in Video Game Production provides students with the essential skill sets needed to plan, design, and produce video games. The program features interdisciplinary coursework and related studies to build a strong foundation bridging the art and science of video game production. The Associate in Applied Science in Video Game Production's curriculum brings together business concepts, game technology, game narrative,

music, sound design, and animation to prepare students for entry-level careers as a Level Designer, Environment Artist, Production Artist, Character Modeler, Character Animator, Game Designer, Game Developer, Mobile Game Developer, Commercial Artist, Game Writer, Composer and/or Sound Designer. Embedded Certificates of Completion (CCL) are available in Video Game Production: Game Art, Video Game Production: Audio and Sound and Video Game Production: Narrative and Video Game Production: Scripting and Coding.

Program Notes: Students must earn a grade of C or better for all courses required within the program.

Students interested in transferring should meet with an Academic, Faculty, or Program Director.

GST201 Game Studies is recommended for students who intend to transfer to Arizona State University.

Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.¹

This program also is available at Mesa and Paradise Valley Community Colleges.

Program Prerequisites: None.

Required Courses: (29-31 credits):

Credits

In addition to the required coursework, students must consult with a program advisor to select one of the specializations within the Restricted Electives area.

ART100	Introduction to Digital Arts	1
+ ADA/ART177 CIS120DF	Digital Photographic Imaging I (3) OR Introduction to Adobe Photoshop (3)	3
ART/MMT185 CIS130DA	3D Modeling for Animation I (3) OR 3D Studio Max: Modeling (3)	3
Note: ART/MMT185 is recommended for students interested in the Game Art Emphasis and CIS130DA is recommended for students interested in the Coding and Scripting Emphasis.		
CIS105	Survey of Computer Information Systems	3
+ CIS107	The Electronic Game Industry	3
+ CIS151	Computer Game Development Level I	3
+ CIS251	Computer Game Development Level II	3
CRW176	Writing Narrative for Video Games	3
FY E101	Introduction to College, Career and Personal Success (1) OR	
FY E103	Exploration of College, Career and Personal Success (3)	1-3
+ GST202 MUC122	Games, Culture and Aesthetics	3
	Sound Design I	3

Restricted Electives: (14-23 credits)

Credits

Students must select one of the following four specializations.

Specialization I Game Art - Credits: 23

+ ADA/ART/MMT184	Digital Animation I	3
ART116	Life Drawing	3
ART/COM/STO150	Digital Storytelling	3
+ ART200	Animation and Interactivity	3
+ ART240	Cinematography and Directing for 2D/3D Animation (3) OR	
+ CIS230DB	3D Studio Max: Lighting and Rendering (3)	3

+ ART/MMT285	3D Modeling and Animation II (3) OR	
+ CIS130DB	3D Studio Max: Animation (3)	3
+ ART287	3D Character Animation	3
+ ART298AB	Special Projects	2
Specialization II Game Narrative - Credits: 17		
ART/COM/STO150	Digital Storytelling	3
CRW160	Introduction to Writing Poetry	3
CRW170	Introduction to Writing Fiction	3
CRW190	Introduction to Screenwriting	3
CRW270	Intermediate Fiction Writing	3
+ CRW298AB	Special Projects	2
Specialization III Coding and Scripting Emphasis - Credits: 14		
CIS120DC	Introduction to Adobe Animate	3
+ CIS150AB	Object-Oriented Programming Fundamentals -	3
+ CIS156	Python Programming: Level 1	3
+ CIS163AA-	Java Programming: Level I	3
+ CIS298AB	Special Projects	2
Specialization IV Audio and Music - Credits: 17-18		
MTC191	Electronic Music (3) OR	
MUC194	Audio Mixing Techniques (3)	3
+ MUC111	Digital Audio Workstation I (DAWI)	3
+ MTC192	Electronic Music II (3) OR	
+ MUC196	Studio Recording II (3)	3
MUC195	Studio Music Recording I	3
+ MUC222	Sound Design II	3
+ MUC292	Sound Design III (3) OR	
+ MUC298AB	Special Projects (2)	2-3

VMware Foundations CCL 5035N

Certificate of Completion - 3 credits

This program is not eligible for Title IV Federal Financial Aid

⁺ indicates course has pre/corequisites. ⁺⁺ indicates suffixed courses

Fast Track Certificate: VMware Foundations CCL 5035N

Field of Interest: Computer and Information Technology

For Information: Martin Bencic

Phone: 623.845.3237

<https://www.gccaz.edu/business>

Program Description: The Certificate of Completion (CCL) in VMware Foundations program is designed to help students prepare for VMware industry certifications and work in a variety of information technology environments including software defined data centers. The program introduces vSphere and VMware ESXi server in the enterprise and covers many aspects of virtualization for VMware ESXi server administration. It is designed to prepare students for the VMware Foundations (VCA) certification exam. Students can also pursue additional CCLs in a variety of specializations within the information technology field to deepen their knowledge and skills and to help prepare them for multiple industry certification examinations. An Associate in Applied Science (AAS) in Network and Systems Administration is also available.

Program Notes: Students must earn a grade of C or better in all courses within the program.

Students who pursue this CCL should have a basic level of computer literacy including navigating the internet and computer systems or take CIS105 as indicated in the required courses. Students with the requisite skills may have the CIS105 requirement waived by permission of the Program Director.

Required courses and restricted electives must be taken within five years prior to completion of the program to be applied toward this award.

Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.¹

This program also offered at Estrella Mountain, GateWay, Mesa, Phoenix, and Scottsdale Community Colleges.

Admission Criteria:

This Certificate of Completion (CCL) is intended for industry professionals with the requisite experience. To pursue this CCL, students must complete the prerequisites to the courses within the Required Courses area as follows OR receive permission of the Program Director:

CIS105	Survey of Computer Information Systems	3
BPC170 AND + BPC270 MST150++	A + Exam Prep: Computer Hardware Configuration and Support (3) A + Exam Prep: Operating System Configuration and Support (3) OR Any Windows Operation Course (3)	3-6
CIS126DL CIS126RH	Linux Operating System (3) OR Red Hat System Administration I (3)	3
+ CIS190 CNT140AB	Introduction to Networking (3) OR Introduction to Networks (3)	3

Students also have the option to complete the full CCL in this program, VMware Network Administrator (major code 5032), that includes the prerequisites and required courses.

Program Prerequisites: None.

Required Courses: (3 credits)

		Credits
+ CIS197	VMware ESXi Server Enterprise	3

¹ indicates course has pre/corequisites. ++ indicates suffixed courses

VMware Network Administrator CCL 5032

Certificate of Completion - 24-28 credits

Field of Interest: Computer and Information Technology

For Information: Martin Bencic

Phone: 623.845.3237

<https://www.gecaz.edu/business>

Program Description: The Certificate of Completion (CCL) in VMware Network Administrator program is designed to help students prepare for VMware industry certifications and work in a variety of information technology environments including software-defined data centers. Courses will build the knowledge and skills for students to design, install, configure, troubleshoot, and manage virtual environments and help prepare students for the CompTIA A+, CompTIA Linux +, CompTIA Network +; VMware VCA, VCP, and/or VCAP-NV Deploy certification exams. Students can also pursue additional CCLs in a variety of specializations within the information technology field to deepen their knowledge and skills and to help prepare them for multiple industry certification examinations. An Associate in Applied Science (AAS) in Network and Systems Administration is also available.

Program Notes: Students who pursue this Certificate of Completion should have a basic level of computer literacy including navigating the internet and computer systems or take CIS105 as indicated in the required courses. Students with the requisite skills may have the CIS105 requirement waived by permission of the Program Director.

Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.¹

This program also offered at Chandler-Gilbert, Estrella Mountain, and Mesa Community Colleges.

Program Prerequisites: None.

Required Courses: (24-28 credits)

Credits

BPC170	A+ Exam Prep: Computer Hardware Configuration and Support	3
+ BPC270	A+ Exam Prep: Operating System Configuration and Support	3
CIS105	Survey of Computer Information Systems (3) OR	
	Permission of Program Director (o)	0-3
CIS126DL	Linux Operating System (3) OR	
CIS126RH	Red Hat System Administration I (3)	3
CIS189	Virtualization and IT Solutions for Digital Businesses	3
+ CIS190	Introduction to Networking (3) OR	
CNT140AB	Introduction to Networks (4)	3-4
+ CIS197	VMware ESXI Server Enterprise	3
+ CIS198	VMware vSphere: Optimize and Scale	3
+ CIS200	VMware NSX: Install, Configure, Manage	3

VMware Systems Administrator CCL 5033N

Certificate of Completion - 6 credits

This program is not eligible for Title IV Federal Financial Aid

Fast Track Certificate: VMware Systems Administrator CCL 5033N

Field of Interest: Computer and Information Technology

For Information: Martin Bencic

⁺ indicates course has pre/corequisites. ⁺⁺ indicates suffixed courses

Phone: 623.845.3237
<https://www.gccaz.edu/business>

Program Description: The Certificate of Completion (CCL) in VMware Systems Administrator program is designed to help students prepare for VMware industry certifications and work in a variety of information technology environments including software defined data centers. The program introduces vSphere and VMware ESXi server in the enterprise and covers many aspects of virtualization for VMware ESXi server administration. It includes advanced skills for configuring and maintaining a highly available and scalable virtual infrastructure and is designed to prepare students for the VMware VCA and VCP certification exams. Students can also pursue additional CCLs in a variety of specializations within the information technology field to deepen their knowledge and skills and to help prepare them for multiple industry certification examinations. An Associate in Applied Science (AAS) in Network and Systems Administration is also available.

Program Notes: Students must earn a grade of C or better in all courses within the program.

Students with the requisite skills may have the CIS105 requirement waived by permission of the Program Director.

Required courses and restricted electives must be taken within five years prior to completion of the program to be applied toward this award.

Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.¹

This program also offered at Estrella Mountain, GateWay, Mesa, Phoenix, and Scottsdale Community Colleges.

Admission Criteria:

This CCL is intended for industry professionals with the requisite experience. To pursue this CCL, students must complete the prerequisites to the courses within the Required Courses area as follows OR receive permission of the Program Director.

CIS105	Survey of Computer Information Systems	3
BPC170	A + Exam Prep: Computer Hardware Configuration and Support (3)	
AND		
+ BPC270	A + Exam Prep: Operating System Configuration and Support (3) OR	
MST150++	Any Windows Operation Course (3)	3-6
CIS126DL	Linux Operating System (3) OR	
CIS126RH	Red Hat System Administration I (3)	3
+ CIS190	Introduction to Networking (3) OR	
CNT140AB	Introduction to Networks (3)	3

Students also have the option to complete the full CCL in this program, VMware Network Administrator (major code 5032), that includes the prerequisites and required courses.

Program Prerequisites: None.

Required Courses: (6 credits)	Credits
+ CIS197	VMware ESXI Server Enterprise
+ CIS198	VMware vSphere: Optimize and Scale

Web App Development CCL 5835N

Certificate of Completion - 9-12 credits

This program is not eligible for Title IV Federal Financial Aid

Field of Interest: Computer and Information Technology

Fast Track Certificate: Web App Development CCL 5835N

For Information: Bill Stewart

Phone: 623.845.3250

<https://www.gccaz.edu/business>

Program Description: The Certificate of Completion (CCL) in Web App Development prepares students for employment in entry-level coding, programming, and software development positions with an emphasis on web apps. Courses in this certificate can apply toward the Associate in Applied Science (AAS) in Mobile App Development and CCLs in Mobile App Development and Cross-Platform App Development.

Program Notes: Students must earn a grade of C or better for all courses required within the program.

Students should consult with a Department Advisor in arranging their schedules.

Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.¹

This program also offered at Chandler-Gilbert, GateWay, Mesa, Paradise Valley, Phoenix, Rio Salado, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (9-12 credits)

Credits

CIS105	Survey of Computer Information Systems (3) OR Permission of Program Director, Department or Division Chair (0)	0-3
+ CIS133DA	Internet/Web Development Level I	3
+ CIS166AA	Introduction to JavaScript	3
+ CIS233DA	Internet/Web Development Level II	3

Web Design CCL 5986

Certificate of Completion - 38-43 credits

Field of Interest: Computer and Information Technology

For Information: Bill Stewart

Phone: 623.845.3250

<https://www.gccaz.edu/business>

Program Description: The Certificate of Completion (CCL) in Web Design provides students with comprehensive and focused studies in web design, including advanced image manipulation, vector graphics, page layout, video editing and design principles. A CCL in Web Development and an Associate in Applied Science (AAS) in Web Design/Development are also available.

Program Notes: Students must earn a grade of C or better in each course in the program.

Students should consult with a Department Advisor in arranging their schedules.

Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.¹

This program also offered at Chandler-Gilbert, Estrella Mountain, Mesa, Paradise Valley, Rio Salado, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (36-37 credits)

Credits

The following courses are required and also fulfill the requirements for the CCL in Web Foundations:

CIS105	Survey of Computer Information Systems	3
CIS120DF	Adobe Photoshop Level I: Digital Imaging	3

⁺ indicates course has pre/corequisites. ⁺⁺ indicates suffixed courses

CIS133DA	Internet/Web Development Level I	3
CIS136	Content Management Systems: WordPress	3
+ CIS166AA	Introduction to JavaScript	3
+ CIS233DA	Internet/Web Development Level II	3
+ CIS235	e-Commerce	3

The following courses are required and fulfill the requirements for the CCL in Web Design:

ADA/ART183	Digital Graphic Arts I (3) OR	
ART100	Introduction to Digital Arts(1)	
AND		
ART181	Graphic Design I (3) OR	
ART112	Two-Dimensional Design (3)	3-4
CIS120DB	Computer Graphics: Adobe Illustrator	3
CIS120DA	Introduction to Digital Video Editing: Adobe Premiere (3) OR	
CIS120DK	Introduction to Digital Video Editing (3)	3
+ CIS138DA	Desktop Design and Publishing Using Adobe InDesign	3
+ CIS220DF	Adobe Photoshop Level II: Advanced Digital Imaging	3

Restricted Electives: (2-6 credits)

Credits

Select two to six credits in consultation with your Program Advisor to further develop skills in the areas of Adobe, Art, Social Media, Marketing, Business and/or Multimedia.

Web Design/Development AAS 3185

Associate in Applied Science - 61-70 credits

Field of Interest: Computer and Information Technology

For information: Bill Stewart

Phone: 623.845.3250

<https://www.gccaz.edu/business>

Program Description: The Associate in Applied Science (AAS) in Web Design/Development prepares students to design, create, and administer interactive and professional web sites. Courses focus on “hands-on” experience with web publishing, web graphics preparation, scripting, content management systems and e-commerce solutions. The program provides students a pathway to either develop advanced skills in Web Design or Web Development. Certificates of Completion (CCLs) in Foundational Web Technologies, Web Design and Web Development are also available.

Program Notes: Students must earn a grade of C or better in each course in the program.

Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.¹

This program also is available at Chandler-Gilbert, Estrella Mountain, Mesa, Paradise Valley, Phoenix, Rio Salado, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (22-24 credits):

Credits

In addition to the required coursework, students must consult with a program advisor to select one of the specializations within the Restricted Electives area.

CIS105	Survey of Computer Information Systems	3
CIS120DF	Adobe Photoshop Level I: Digital Imaging	3
CIS133DA	Internet/Web Development Level I	3

⁺ indicates course has pre/corequisites. ⁺⁺ indicates suffixed courses

CIS136	Content Management Systems: WordPress	3
+ CIS166AA	Introduction to JavaScript	3
+ CIS233DA	Internet/Web Development Level II	3
+ CIS235	e-Commerce.....	3
FY E101	Introduction to College, Career and Personal Success (1) OR	
FY E103	Exploration of College, Career and Personal Success (3).....	1-3

Restricted Electives: (17-22 credits)

Credits

Complete all courses in the specialization below that best aligns with your academic and professional goals. Consult with an Academic, Faculty, or Program Advisor.

Specialization I Web Design - Credits: 17-22

ADA/ART183	Digital Graphic Arts I (3) OR	
ART100	Introduction to Digital Arts(1)	
AND		
ART181	Graphic Design I (3) OR	
ART112	Two-Dimensional Design (3)	3-4
CIS120DA	Introduction to Digital Video Editing: Adobe Premiere (3) OR	
CIS120DK	Introduction to Digital Video Editing (3)	3
CIS120DB	Computer Graphics: Adobe Illustrator	3
CIS120DC	Adobe Animate: Digital Animation (3) OR	
+ CIS220DF	Adobe Photoshop Level II: Advanced Digital Imaging (3)	3
+ CIS138DA	Desktop Design and Publishing Using Adobe InDesign	3

Students must select two to six credits in consultation with your program advisor to further develop skills in the areas of Adobe, Art, Social Media, Marketing, Business and/or Multimedia.

Specialization II: Web Development - Credits: 18

+ CIS119DO	Introduction to Oracle: SQL (3) OR	
+ CIS276++	Any Database Management Systems course (3)	3
CIS126DL	Linux Operating System (3) OR	
CIS126RH	Red Hat System Administration I (3)	3
+ CIS166AE	Web Scripting with PHP: Hypertext Preprocessor (PHP)	3

Programming Language: Select two courses for a total of six credits.

+ CIS150AB	Object-Oriented Programming Fundamentals	3
+ CIS156	Python Programming: Level I	3
+ CIS159	Visual Basic Programming I	3
+ CIS162++	Any C Programming course	3
+ CIS163AA	Java Programming: Level I	3
+ CIS165++	Any Mobile Application Development course	3
+ CIS256 ¹	Python Programming: Level II	3
+ CIS262AD	C# Level II	3
+ CIS263AA	Java Programming: Level II	3
+ CIS265++	Advanced iOS Application Development	3

Students must select three credits of any course with a CIS prefix in consultation with their Program Advisor to further develop skills in the areas of Databases, Information Systems, Programming, and/or Operating Systems.

General Education Requirements: (22-28 credits)

General Education Core: (12-18 credits)

		Credits
First-Year Composition:		6
+ ENG101	First-Year Composition (3) OR	
+ ENG107	First-Year Composition for ESL (3)	
AND		
+ ENG102	First-Year Composition (3) OR	
+ ENG108	First-Year Composition for ESL (3)	

Oral Communication:		3
Any approved general education course from the Oral Communication area.		

Critical Reading:		0-3
+ CRE101	College Critical Reading and Critical Thinking (3) OR Equivalent as indicated by assessment.	

Mathematics:		3-6
Any approved general education course in the Mathematics Area. (MAT140, MAT141, MAT142, MAT145, MAT146 College Mathematics) OR (MAT150, MAT151, MAT152, MAT155, MAT156 College Algebra/Functions) OR higher math course with the Mathematical Applications [MA] general education designation recommended for students intending to transfer to a four-year institution.		

MAT187 Precalculus is recommended for students intending to transfer to Arizona State University (Tempe campus) to earn a BS in Graphic Information Technology.

General Education Distribution: (10 credits)		Credits
---	--	----------------

Humanities, Arts and Design:		3
Any approved general education course from the Humanities, Arts and Design area.		

Social-Behavioral Sciences:		3
Any approved general education course from the Social-Behavioral Sciences area.		

PSY101	Introduction to Psychology is recommended for students intending to transfer to Arizona State University (ASU)-Polytechnic campus to earn a Bachelor of Science in Technical Communication (User Experience) or to ASU-Tempe campus to earn a Bachelor of Science in Graphic Information Technology.	
--------	--	--

Natural Sciences:		4
Any approved general education course from the Natural Sciences area.		

Web Development CCL 5988

Certificate of Completion - 39 credits

Field of Interest: Computer and Information Technology

For Information: Bill Stewart

Phone: 623.845.3250

<https://www.gccaz.edu/business>

Program Description: The Certificate of Completion (CCL) in Web Development prepares students to create and administer interactive and professional websites. The program provides students with knowledge and skills in developing dynamic websites, client and server side programs, database structures, and object-oriented design. A CCL in Web Design and an Associate in Applied Science (AAS) in Web Design/Development are also available.

Program Notes: Students must earn a grade of C or better in each course in the program.

Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.¹

This program also offered at Chandler-Gilbert, Estrella Mountain, GateWay, Mesa, Paradise Valley, Phoenix, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (36 credits)

The following courses are required and included in the CCL in Web Foundations

	Credits
CIS105	3
CIS120DF	3
CIS133DA	3
CIS136	3
+ CIS166AA	3
+ CIS233DA	3
+ CIS235	3
Survey of Computer Information Systems	3
Adobe Photoshop Level I: Digital Imaging	3
Internet/Web Development Level I	3
Content Management Systems: WordPress	3
Introduction to JavaScript	3
Internet/Web Development Level II	3
e-Commerce	3

The following courses are required for CCL Web Development:

+ CIS166AE	3
Web Scripting with PHP: Hypertext Preprocessor (PHP)	3
+ CIS119DO	3
Introduction to Oracle: SQL (3) OR	3
+ CIS276++	3
Any Database Management Systems course (3)	3
CIS126DL	3
Linux Operating System (3) OR	3
CIS126RH	3
Red Hat System Administration I (3)	3

Programming Language: Select two courses for a total of six credits.

+ CIS150AB	3
+ CIS156	3
+ CIS159	3
+ CIS162++	3
+ CIS163AA	3
+ CIS165++	3
+ CIS256	3
+ CIS262AD	3
+ CIS263AA	3
+ CIS265++	3
Object-Oriented Programming Fundamentals	3
Python Programming: Level I	3
Visual Basic Programming I	3
Any C Programming course	3
Java Programming: Level I	3
Any Mobile Application Development course	3
Python Programming: Level II	3
C# Level II	3
Java Programming: Level II	3
Advanced iOS Application Development	3

Restricted Electives (3 credits)

Students should select any course with a CIS prefix in consultation with their program advisor to further develop skills in the areas of Databases, Information Systems, Programming, and/or Operating Systems3

Web Foundations CCL 5984

Certificate of Completion - 21 credits

Field of Interest: Computer and Information Technology

For Information: Bill Stewart

Phone: 623.845.3250

<https://www.gccaz.edu/business>

Program Description: The Certificate of Completion (CCL) in Web Foundations introduces students to designing and developing web pages. This CCL prepares students for entry level web positions. CCLs in Web Design and Web Development are available. An Associate in Applied Science (AAS) degree in Web Design/Development is also available.

¹ indicates course has pre/corequisites. ++ indicates suffixed courses

Program Notes: Students must earn a grade of C or better in each course in the program.

Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.¹

This program also offered at Chandler-Gilbert, Estrella Mountain, Mesa, Paradise Valley, Phoenix, Rio Salado, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (21 credits)		Credits
CIS105	Survey of Computer Information Systems	3
CIS120DF	Adobe Photoshop Level I: Digital Imaging	3
CIS133DA	Internet/Web Development Level I	3
CIS136	Content Management Systems: WordPress	3
+ CIS166AA	Introduction to JavaScript	3
+ CIS233DA	Internet/Web Development Level II	3
+ CIS235	e-Commerce	3

World Languages General Information

Field of Interest: Culture and Society

For Information: Dr. Bel Quiros-Winemiller

Phone: 623.845.3744

<https://www.gccaz.edu/communication>

The following world language course descriptions can be found using the website for the Center for Curriculum and Transfer Articulation (CCTA): <https://curriculum.maricopa.edu/curriculum/courses/search-course-bank>:

- American Sign Language (ASL) (Contact Raymond Baesler, 623.845.3640)
- Arabic (ARB)
- Chinese (CHI)
- French (FRE)
- German (GER)
- Japanese (JPN),
- Linguistics (SLC)
- Spanish (SPA)
- Spanish Humanities (SPH)

Student Goals: Personal, Career-related, General Education

The study of another language not only provides a language skill, but also helps students understand the customs and cultures of other countries. Glendale Community College offers the opportunity to study a variety of world languages: American Sign Language, Arabic, Chinese, French, German, Japanese, Linguistics (SLC), Spanish, and Spanish Humanities. Students take these courses:

For Personal Interest: The standard courses (101, 102, 201, 202 sequence) provide a thorough grounding in basic grammar, pronunciation, and vocabulary in the selected language. The 115-226 sequence is especially recommended for those who wish to focus on conversation mainly for travel needs.

To Provide Background for other careers. The 115-116 sequence is recommended.

To Prepare for a Major at a four-year institution. Although most language majors with a bachelor's degree enter secondary school teaching, others find jobs in travel bureaus, firms involved in foreign trade, and governmental agencies.

Those wishing to become college instructors or professional linguists need advanced training far beyond the bachelor's degree. The 101, 102, 201, 202 sequence in the selected language satisfies university transfer, entrance and graduation requirements.

Other courses may be granted world-language elective credit. Students intending to pursue a baccalaureate degree in a world language should consult with a departmental advisor to plan their program.

Degree-seeking and transfer students should consult with a Department Advisor in planning their academic schedule in order to complete degree requirements in an expedient manner.

Field of Interest Matrix 2022-2023

The Maricopa County Community College Field of Interest Matrix identifies all awards currently available for offering within the ten community colleges and skill centers of the district. The awards are grouped under Field of Interest as requested by the colleges. For specific information regarding individual awards, contact the college(s) listed as participating institution(s).

Areas/Award - Applied Technology	Institution
Air Conditioning and Electrical Accessories	GW

Visual Communication: Digital Process Management	SC

Shared Unique Number System (SUN)

The SUN is a college course numbering system designed to help Arizona students plan their education and ensure successful transfer of course credits. It is a special bank of courses that have direct equivalency at all Arizona public community colleges and universities.

Tens of thousands of other Arizona college courses also transfer – check the Course Equivalency Guide (CEG): <https://aztransmac2.asu.edu/cgi-bin/WebObjects/CEG> to search for additional transferrable courses.

SUN courses are designated in the CEG by the orange SUN icon: 

How SUN course Numbering Works: <https://aztransfer.com/sun/>

SUN courses have a unique three-letter prefix and four-digit course number that represents direct course equivalency at all Arizona public community colleges and universities. Each institution retains its original course numbers but uses the SUN to indicate commonality.

Example:

College Algebra has several different prefixes and numbers at the community colleges and universities. Using SUN, all of the courses will share a unique number and a single prefix: SUN# MAT 1151. This unique number/prefix indicates course equivalency at all institutions! When students enroll in a SUN course, they know that your credit will be accepted at any Arizona college.

Course Descriptions

- Gareshé, Gay** (1987-2014) Social Sciences Faculty.
- Gibbons, George R.** (1968-1988) Electronics/Drafting Faculty, Department Chair.
- Goff, Lyenatte** (1963-2004) Mathematics Faculty.
- Gordon, Ruby D.** (1967-1992) Nursing Faculty.
- Goto, Darlene M.** (1969-2007) Art Faculty.
- Griego, Manny** (1976-2005) Engineering Faculty, Department Chair.
- Griggs, John** (1971-2004) Foreign Languages/Communication Faculty, Department Chair.
- Gurule, Juan** (1989-2009) Counseling Faculty.
- Guyman, Vernon** (1968-2000) Mathematics Faculty.
- Haas, Patrick** (1984-2005) English Faculty.
- Hamilton, Mirta** (1979-2009) Art Faculty.
- Hansen, Vance W.** (1965-1991) English Faculty.
- Hardin, Carnella** (1979-2010) Business and Information Technology Faculty.
- Harris, C. Eugene** (21 years of service) Music Faculty.
- Hartley, Jack A.** (1963-1986) English Faculty.
- Hawks, Margaret** (1967-2000) English Faculty, Department Chair.
- Herlihy, Harriet** (1960-1989) English Faculty, Department Chair.
- Higgins, Don** (1967-2001) Social Sciences Faculty, Department Chair.
- Hillis, Richard** (21 years of service) Art Faculty.
- Hoff, Edward B.** (1963-1989) Mathematics Faculty, Department Chair.
- Hoffs, Marilyn J.** (1972-1996) Speech Communication/Theatre Faculty, Department Chair.
- Holtfrech, Michael** (1988-2017) Mathematics Faculty, Department Chair
- Howey, Charlotte** (1989-2005) English/ESL/Spanish Faculty.
- Hubbard, N. LaRue** (23 years of service) Business Faculty.
- Hubbard, Robert T.** (1966-2006) Philosophy Faculty, Department Chair.
- Jacobs, Elizabeth "BJ"** (1990-2014) Psychology Faculty.
- James, Gerald H.** (1967-1993) Mathematics Faculty.
- Jenkins, Carol** (1992-2017) Sociology Faculty
- Johanson, Leonard C.** (1965-1988) Art Faculty.
- Johnson, Frederica** (1988-2009) Reading Faculty.
- Johnston, Eileen** (2001-2014) Social Sciences Faculty, Department Chair.
- Jones, M. Louise** (1981-2010) Counseling Faculty.
- Karpinski, Susan** (2004-2019) Psychology Faculty
- Kersting, Joseph M.** (1991-2017) Fitness and Wellness Faculty.
- Kidney, Charlotte** (over 22 years of service) Physical Education Faculty, Department Chair.

- King, Dick** (1973-1998) Automotive Faculty, Department Chair.
- King, Owena A.** (1966-1989) Business Faculty.
- Klann, Walter** (1966-1998) Mathematics Faculty.
- Knopp, Nelda** (1966-1998) Physical Education Faculty.
- Knowles, Henry** (1965-1989) Speech Communication Faculty.
- Kong, Moonie** (1966-1987) Physical Education Faculty.
- Kurtz, Donald A.** (1965-1987) Business Faculty.
- Lange, Merle L.** (1966-1989) Counseling Faculty, Department Chair, Financial Aid Director.
- Langlois, Lyle R.** (1968-1989) Business Faculty.
- Lawrence, Barbara J.** (1967-1988) Reading/English Faculty, Department Chair.
- Leskovsky, Mary** (1986-2006) English Faculty, Honors Coordinator.
- Lorenzini, August** (1967-1985) Speech Communication/Film Faculty, Department Chair.
- Loss, Bonnie** (1990-2021) Art & Humanities Faculty.
- Ludders, Virginia** (1989-2009) Theatre/Communication Faculty.
- Martin, Ethel A.** (1963-1989) Business Faculty.
- Matthews, Jack K.** (22 years of service) Drafting Faculty, Department Chair.
- Matz, Harry** (1965-1989) Reading Faculty, Department Chair, Honors Coordinator.
- May, Mauricette** (1998-2009) French Faculty.
- McCarthy, Rita** (1988-2015) English/Reading/Journalism Faculty.
- McCoy, Leslie E.** (1967-1989) Electronics Faculty, Department Chair.
- McKinley, Michael** (1991-2012) Biology Faculty.
- McWilliams, Mary Lou** (1968-1988) Counseling Faculty.
- Meeker, Joseph A.** (1985-2009) CAD/Drafting Faculty.
- Meixner, Sylvia S.** (1969-1992) Social Sciences/Sociology Faculty, Department Chair.
- Mikus, Andrew** (1963-1989) History Faculty, Department Chair.
- Miller, David** (2021) English, Reading, & Journalism Faculty, Developmental Education Coordinator, Department Chair.
- Milliner, Charles** (1969-2004) Business Faculty, Department Chair.
- Moloso, Phillip** (1966-2002) Librarian/Business/Mathematics Faculty, Department Chair.
- Montanus, Mark** (1965-1985) Business Faculty.
- Murray, Marilee (1974-2000) Chemistry Faculty, Department Chair.
- Murry, Suzanne** (1982-2011) Business Faculty.
- Nelson, Bonnie** (1968-1999) Philosophy Faculty, Curriculum Design Facilitator.
- Overson, Peter** (1964-1989) Theatre Faculty.
- Peters, Allan M.** (1965-1986) Physics Faculty, Department Chair.
- Pilch, Richard R.** (1967-1996) Physical Education Faculty.
- Pisciotta, Pete** (1967-1996) Mathematics/Physical Education Faculty, Athletic Director.
- Pitman, Fred** (1969-1997) Physics Faculty.
- Pommerville, Jeffrey** (1989-2008) Biology Faculty.
- Price, David** (1966-1988) Chemistry Faculty.
- Rassi, Martha** (1984-2005) Business Faculty.
- Reavis, Robert, Jr.** (1999-2021) Biology Faculty.
- Reeder, Duane** (35 years of service) Psychology Faculty.
- Rees, Richard** (1965-2006) Psychology Faculty.
- Roberson, Doyle L.** (1965-1989) Mathematics Faculty.
- Samuels, Carl** (1967-2004) Psychology Faculty.
- Schafer, G.K. "Duke"** (1975-2007) Public Safety Sciences Faculty.
- Schiedat, Marilyn** (1976-2008) English Faculty.
- Schmidt, David** (1991-2022) Performing Arts, Music Industry Studies
- Schwalm, Karen T.** (1988-2008) English Faculty.
- Siefer, Nancy** (1987-2007) English Faculty.

Shipley, Alvin D. (1966-2001) Mathematics Faculty, Department Chair.

Smart, John (21 years of service) Social Science/Economics Faculty.

Smelser, Philip (1963-2009) Philosophy Faculty, Department Chair.

Smith, James A. (1965-1989) Physical Education Faculty

Smith, Linda (1986-2007) Social Sciences Faculty.

Smith, Louis L. (1963-1985) Reading Faculty, Department Chair.

Staheli, W. Kent (1966-1997) Physical Education Faculty, Department Chair.

Staten, Jean (1975-1996) Librarian, Dean of Instruction.

Sylvester, Tim (1991-2017) Business and IT Faculty.

Thompson, J.R. (Bob) (1968-2000) Geology Faculty, Department Chair.

Triplett, Patricia (1983-2009) Nursing Faculty.

Thrasher, John (1970-1997) Music Faculty, Director of Bands.

Ulm, Donald R. (1979-2009) Business and Information Technology Faculty

Van Marche, Deborah (1997-2017) Psychology Faculty, Department Chair.

VanMeter, Charles (1968-1989) Agriculture Faculty, Department Chair.

Vawter Jr., Charles (1965-2020) Business and Information Technology/Accounting Faculty.

Walcott, Lyle (1965-2007) Philosophy Faculty.

Weiss, Kenneth G. (1963-1986) Physical Education Faculty.

West, Charles L. (1966-1994) Chemistry Faculty, Department Chair.

Westenburg, Irwin S. "Wes" (1984) Psychology Faculty.

Wilhoit, Sherrill (1975-1999) Business Faculty.

Williams, Johnette (1970-2002) Library Faculty, Department Chair.

Williams, Stephen (1981-2013) Biology Faculty, Department Chair.

Wingersky, Joy (1981-2008) English Faculty.

Winters, John B. (1968-2004) Physical Science Faculty.

Glossary of College Terminology

Academic Catalog

An annual publication of graduation policies, programs, and courses.

Advisor

A resource person able to help students plan a course of study and select appropriate courses. Also called Academic Advisor or Department Advisor or Program Advisor.

Arizona General Education Curriculum Certificate (AGEC)

A general education certificate that fulfills lower-division general education requirements for students planning to transfer to any Arizona public community college or university. There are three types of AGECs in MCCC: AGEC-A, AGEC-B, and AGEC-S. Generally, the MCCC AGEC transfers as a block without loss of credit.

Associate Degree

A degree awarded for the completion of a minimum of 60 credits selected to meet specific requirements. The Associate in Arts (AA), Associate in Arts, Fine Arts (AAFA), Associate in Arts in Elementary Education (AAEE), Associate in Business (ABus) and Associate in Science (AS) emphasizes courses for transfer to four-year schools, the Associate in General Studies (AGS) allows more flexibility in course selection, and the Associate in Applied Science (AAS) emphasizes a particular occupational field.

Audit

Taking a class for no credit. Please see the Tuition and Fee chart in the common pages' addendum for the additional charges for auditing.

Award

Refers to the type of degree or certificate conferred upon completion, e.g. Associate in Applied Science (AAS), Associate in Arts (AA), Associate in Business (ABUS), Associate in General Studies (AGS), Associate in Science (AS), Arizona General Education Curriculum (AGEC), Academic Certificate (AC), Certificate of Competency (CCT), and Certificate of Completion (CCL).

Award Subplan (Specialization or Transfer Plan)

Organization of course options within an award based on a student's career or transfer goals. These options are designated as specialization for occupational pathways and transfer plans for Emphases (e.g. AS, Chemistry).

Bachelor's Degree

A degree awarded for the completion of approximately 120 credits selected to meet specific requirements. The Bachelor's in Arts (BA) or the Bachelor's in Science (BS) generally are awarded by a four-year school.

Counselor

A faculty member available to help students and community members with personal, career, or school related concerns.

Course

A unit of teaching that develops students' knowledge and skills in a particular area of study. Courses in MCCC include standard, discipline specific courses, as well as special topics, internships, experimental, service learning, etc. to provide an individualized learning experience. Courses can be offered in MCCC as clock hour, credit hour, or non-credit.

Course Competencies

Statements that describe skills and/or knowledge that students are expected to gain as a result of successfully completing a course.

Course Equivalency Guide (CEG)

The CEG indicates how Arizona State University, Northern Arizona University and the University of Arizona accept transfer coursework from the Arizona public institutions.

Credit Hour

An amount of work represented in course competencies and verified by evidence of student achievement. MCCC follows the Federal Guidelines for the definition of credit hours.

Critical Course

A course that faculty have determined is predictive of future success in a pathway. Critical courses vary by pathway and are marked in the Pathway Planner to allow for the identification of opportunities for integrated student support and to inform improvements to a pathway map.

Cumulative Grade Point Average (GPA)

A measure of student academic proficiency which is calculated by multiplying each course credit hour by the points awarded for the grade earned. The sum then is divided by the total number of credit hours completed with A, B, C, D, F, or Y grades. Please see the grade key in the common pages' addendum for point information.

Elective

A course a student selects in order to complete a program of study, sometimes with restrictions.

Emphasis

Represents a set of specified coursework designed to articulate with particular baccalaureate programs and make the transfer path clear for students. An emphasis is not a separate award. Upon completion of the emphasis requirements, students will receive one of the Associate degrees.

Federal Work Study

A form of financial aid based on need which provides the student with on campus paid employment while in school.

Field of Interest

An organization of degrees and certificates that share similar areas of study, allowing students to find an educational pathway and participate in student experiences that align with their intended academic and career goals.

Gateway Course

The first discipline-specific course on a pathway that provides an introduction to the discipline.

General Elective

Any credit course used to satisfy the minimum credit requirement for a particular degree pathway that does not fulfill any other degree requirements.

GPA

Grade point average. Minimum required grade point average in Maricopa is determined by degree policies and approved in the curricular process. Degree and certificate GPA requirements may be informed by transfer institution admission requirements.

Grant

Student financial aid based on need.

Lower Division Course

Freshman and Sophomore courses (100-level and 200-level) usually completed in the first two years of college.

Pathway

A comprehensive plan for student end goals (e.g., degree, certificate, trade and technical program, and/or transfer option). It includes career opportunities, learning outcomes, a course sequence, milestones, and critical and gateway courses.

Pathway Planner

An online academic tool located in the Student Center that houses a pre-populated semester-by-semester course sequence (also known as a pathway) based upon the student's declared academic program/plan.

Prerequisite

Specified condition, requirement, or course which must be completed before enrolling in a class.

Recommended Course

A suggested course selection provided by disciplinary faculty to meet a degree requirement where a specific course or single course is not otherwise prescribed.

Required Course

A course within the pathway that must be completed to achieve the certificate or degree awarded.

Restricted Elective

A course selected from a specified group of courses that support the achievement of the identified learning outcomes and satisfy MCCCD degree or certificate requirements.

Schedule Adjustment

The period during which a student can drop classes without penalty. This period varies with the length of class.

Scholarship

Student financial aid based on academic achievement, need, or a combination of factors.

Semester

Traditionally half an academic year (about 16 weeks). Fall semester begins in August and Spring semester begins in January.

Student Handbook

An annual online publication of college policies, procedures, and student rights and responsibilities. It contains the Maricopa Community College District (MCCD) Administrative Regulations and Appendix items (also referred to as the Catalog Common Pages) specifically relevant to students.

Syllabus

A course outline and information on classroom policies, test, dates and materials to be used in a class. The instructor usually gives it to students at the first class meeting.

Total Credits

The number of credits required to complete the award.

Transcript

An official record of the classes a student has enrolled in and grades earned.

Transfer Credit

Credit earned at another college applied to a Glendale Community College program or credit earned at Glendale Community College to be applied to another college or university.

Upper Division Courses

Junior and Senior courses (300-level and 400-level) usually completed in the last two years of college.

Ending Summer 2022

Advanced Behavioral Health Sciences CCL 5521

Certificate of Completion - 38-41 credits

Field of Interest: Behavioral Science and Human Services

For Information: Dr. Thomas Rojo Aubrey, Jr.

Phone: 623.845.3212

<https://www.gecaz.edu/counseling>

Program Description: The Certificate of Completion (CCL) in Advanced Behavioral Health Sciences is designed to provide students with a comprehensive study of human behavior and prepare them to assist, as part of a clinical team, in the care of individuals and families dealing with mental illness, addictions and substance use, trauma, developmental disabilities, co-morbid medical conditions, and challenging behaviors. The program includes courses designed to provide students with the skills necessary to deliver specialized and comprehensive behavioral health and social services. This program also provides university transfer options in addition to preparation for industry certifications and supervised field experience.

Program Notes: Students must earn a grade of C or better in all courses within the program.

Students should select courses in one of the following specializations:

- Trauma and Crisis Stabilization
- Infant and Early Childhood Mental Health
- Addiction and Substance Use Disorders
- Developmental Disabilities
- Criminal Justice and Forensic Science
- Mental Health

This program also is offered by South Mountain Community College.

Program Prerequisites: None.

Required Courses: (32 credits)

		Credits
	Certificate of Completion (CCL) in Basic Behavioral Health Sciences (5522)	16
AND		
BHS175	Introduction to Trauma-Informed Care and Trauma Focused Caregiving	3
BHS185	Cultural Competence in Behavioral Health	3
+ BHS190	Professional Portfolio: Supervised Practice In Behavioral Health and Social Services	1
BHS205	Therapeutic Models and Interventions in Individual Therapy.....	3
BHS210	Addictions, Substance Use Disorders, and Relapse Prevention	3
BHS215	Therapeutic Models and Intervention in Group Therapy	3

Restricted Electives: (6 credits)

Student must choose six credits from one of the following specializations:

Specialization 1: Trauma and Crisis Stabilization

BHS230	Crisis and Trauma Stabilization.....	3
BHS235	Emergency Mental Health Crisis Response and Recovery	3

Specialization 2: Infant and Early Childhood Mental Health

BHS275	Infant and Early Childhood Mental Health (3) OR	
CFS177	Parent-Child Interaction (3).....	3
BHS272	Child and Adolescent Mental Health and Interventions.....	3
CFS235	Developing Child: Theory into Practice, Prenatal to Age Eight.....	3

- + EED210 Creative and Cognitive Play3
(If EED210 is selected, CFS235 will need to be selected unless another requisite option has been met.)

Specialization 3: Addiction and Substance Use Disorders

ASD110	Pharmacology of Substances of Abuse and Dependency	3
ASD245	Co-Occurring Disorders (2)	
AND		
ASD120	Professional Ethics in Addictions and Substance Use Disorders (1) OR	
ASD145	AIDS and Addiction (1)3	
BHS251	Harm Reduction in Addiction, Substance Use, and Social Services	3

Specialization 4: Developmental Disabilities

BHS271	Developmental Disabilities Assistance Training	3
+ PSY 241	Understanding and Changing Behavior	3
+ PSY 243	The Psychology of Developmental Disabilities	3

Specialization 5: Criminal Justice and Forensic Science

+ PSY 267	Introduction to Forensic Psychology	3
AJS101	Introduction to Criminal Justice (3) OR	
AJS200	Current Issues In Criminal Justice (3) OR	
AJS225	Criminology (3)3	

Specialization 6: Mental Health

BHS230	Crisis and Trauma Stabilization (3) OR	
BHS235	Emergency Mental Health Crisis Response and Recovery (3)3	
BHS251	Harm Reduction in Addiction, Substance Abuse and Social Services	3
BHS255	Health and Wellness Coaching in Professional Resiliency	3
BHS262	Behavioral Health Service Techniques for the Elderly	3
BHS266	Violence and Abuse Services	3
BHS269	Grief Support Techniques	3
BHS271	Developmental Disabilities Assistance Training	3
BHS272	Child and Adolescent Mental Health and Interventions	3
BHS275	Infant and Early Childhood Mental Health	3
CPD180	Human Resilience: Cognitive, Emotional, and Behavioral Applications	3
+ PSY 266	Psychological Disorders	3

General Electives: (0-3 credits)

Students choosing Developmental Disabilities, Criminal Justice and Forensic Science, or Mental Health may also need to complete PSY101 as it is a requisite to courses in these specializations. PSY101 can be counted towards General Education requirement in most associate degrees.

Administration of Justice Studies AAS 3181

Associate in Applied Science - 60-69 credits

Field of Interest: Behavioral Science and Human Services

For Information: Paul Brown

Phone: 623.845.3913

<https://www.gccaz.edu/public-safety-sciences>

Program Description: The Associate in Applied Science (AAS) in Administration of Justice Studies provides in-depth preparation for students desiring to be practitioners or pursue continued education and advancement in several fields including local and federal law enforcement, the courts, corrections, security, and investigations. The program also provides criminal justice practitioners with the opportunity to complete the Certificate of Completion (CCL) in Administration of Justice as well as one of five Certificates of Completion (CCLs) in Corrections, Homeland Security, Law Enforcement, Legal Studies, and Victimology. A transfer pathway in Criminal Justice is also available (Associate Arts (AA), Emphasis in Criminal Justice) as well as an Associate in Applied Science (AAS) in Forensics and related Certificates of Completion.)

Program Notes: Students must earn a grade of C or better for all courses required within the program.

This program also is offered at Chandler-Gilbert, Estrella Mountain, Mesa, Paradise Valley, Phoenix, Rio Salado, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (27 credits)		Credits
AJS101	Introduction to Criminal Justice	3
AJS109	Substantive Criminal Law	3
AJS123	Ethics and the Administration of Justice	3

AJS200	Current Issues In Criminal Justice (3) OR	
	AJS/EMT/FSC/SWU258 Victimology and Crisis Management (3)	3

AJS212	Juvenile Justice Procedures	3
AJS225	Criminology	3
AJS230	The Police Function	3
AJS240	The Correction Function	3
AJS260	Procedural Criminal Law	3

Restricted Electives: (12-13 credits)		Credits
AJS113	Criminal Justice Crime Control Policies and Practices	3
	(Fulfills ASU transfer requirement)	
AJS119	Computer Applications in Justice Studies (Fulfills NAU transfer requirement)	3
AJS162	Domestic Violence (Fulfills Victimology certificate requirement)	3
AJS201	Rules of Evidence (Fulfills Legal Studies certificate requirement)	3
AJS205	Effective Communication and Report Writing in Criminal Justice	3
	(Fulfills Corrections, Law Enforcement and Legal Studies certificate requirement)	
AJS210	Constitutional Law	3
	(Fulfills Legal Studies certificate requirement and NAU transfer requirement)	
AJS255	The Criminal Justice System Handling of the Mentally Ill	3
	(Fulfills Corrections and Victimology certificate requirement)	
AJS270	Community Relations (Fulfills GCU transfer requirement)	3
AJS275	Criminal Investigation I	3
	(Fulfills Corrections and Law Enforcement certificate requirement and GCU transfer requirement)	
AJS290BN	Courtroom Testimony Seminar	1

AJS++++	Any AJS Administration of Justice Studies course not listed under Required Courses area (3) OR	
BPC110	Computer Usage and Applications (3) OR	
CIS105	Survey of Computer Information Systems (3)3 (BPC110 or CIS105 fulfills transfer requirement)	
CIS114DE	Excel Spreadsheet (Fulfils NAU transfer requirement)3	
PSY101	Introduction to Psychology (3) OR	
SOC101	Introduction to Sociology (3) (Fulfils ASU transfer requirement)3	
REC120	Leisure and the Quality of Life (Fulfils ASU transfer requirement)3	
SWU171	Introduction to Social Work (Fulfils ASU transfer requirement)3	

General Electives: (7-9 credits)

Credits

Recommend the following for transfer:

FOR105	Forensic Science: Physical Evidence (4) OR	
FOR106	Forensic Science: Biological Evidence (4) OR	
any course with the [SQ] general education designation (4).....4		

Recommend the following for transfer:

Any course with an [HU] and [G] general education designation OR an [HU] and [H] general education designation 3-5	
--	--

General Education Requirements: (12-22 credits)

General Education Core: (12-18 credits)

Credits

First-Year Composition:

6

+ ENG101	First-Year Composition (3) OR
+ ENG107	First-Year Composition for ESL (3)
AND	
+ ENG102	First-Year Composition (3) OR
+ ENG108	First-Year Composition for ESL (3)

Oral Communication:

3

COM100	Introduction to Human Communication (3) OR
COM110	Interpersonal Communication (3) OR
+ COM225	Public Speaking(3) OR

Recommend +COM225 for students intending to transfer.	

Critical Reading:

0-3

+ CRE101	College Critical Reading and Critical Thinking (3) OR
	Equivalent as indicated by assessment.

Mathematics:

3-5

+ MAT140	College Mathematics (5) OR
+ MAT141	College Mathematics (4) OR
+ MAT142	College Mathematics (3) OR
MAT145	College Mathematics with Review (5) OR
MAT146	College Mathematics with Review (6) OR
Any higher approved general education course in the Mathematics area (3-6)	

General Education Distribution: (0-4 credits)

Credits

Humanities, Arts and Design:

0

Met by AJS123 in the Required Courses area.

Social-Behavioral Sciences:

Met by AJS200 or AJS/EMT/FSC/SWU258 in the Required Courses area. 0

Natural Sciences:

Any approved general education course from the Natural Sciences area.

May be met by FOR105 or FOR106 in Electives area.

0-4

Basic Behavioral Health Sciences CCL 5522

Certificate of Completion - 16 credits

Field of Interest: Behavioral Science and Human Services

For Information: Dr. Thomas Rojo Aubrey

Phone: 623.845.3212

<https://www.gccaz.edu/counseling>

Program Description: The Certificate of Completion (CCL) in Basic Behavioral Health Sciences is designed to provide students with a foundational study of human behavior and prepare them to assist, as part of a clinical team, in the care of individuals and families dealing with mental illness, comorbid medical conditions, and challenging behaviors. The program includes courses designed to provide students with the skills necessary to deliver essential behavioral health and social services. The core focus of the program is practical training and service learning experiences.

Program Notes: Students must earn a grade of C or better in all courses within the program.

This program also is offered at South Mountain Community College.

Prerequisites: None.

Required Courses: (16 credits)

Credits

BHS150	Introduction to Behavioral Health and Social Services	3
BHS155	Professional Resiliency and Well-Being	3
BHS160	Ethical, Legal and Professional Issues in Behavioral Health and Social Services	3
BHS165	Applied Therapeutic Communication Skills	3
BHS170	Case Management and Clinical Documentation	3
BHS180	Child, Family, and Adult Advocacy	3

Program Description: The Associate in Applied Science (AAS) in Behavioral Sciences is designed to provide students with a comprehensive study of human behavior and prepare them to assist, as part of a clinical team, in the care of individuals and families dealing with mental illness, addictions and substance use, trauma, developmental disabilities, comorbid medical conditions, and challenging behaviors. The program includes courses designed to provide students with the skills necessary to deliver specialized and comprehensive behavioral health and social services. This program is university-transferable and provides preparation for industry certifications and supervised field experience.

Program Notes: Students must earn a grade of C or better in all courses within the program.

Students should select restricted electives in one of the following specializations:

Trauma and Crisis Stabilization

Infant and Early Childhood Mental Health

Addiction and Substance Use Disorders

Developmental Disabilities

Criminal Justice and Forensic Science

Mental Health

This program also is offered at South Mountain Community College.

Program Prerequisites: None.

Required Courses: (32 credits)

		Credits
BHS150	Introduction to Behavioral Health and Social Services	3
BHS155	Professional Resiliency and Well-Being	1
BHS160	Ethical, Legal and Professional Issues in Behavioral Health and Social Services	3
BHS165	Applied Therapeutic Communication Skills	3
BHS170	Case Management and Clinical Documentation	3
BHS180	Child, Family, and Adult Advocacy	3
BHS175	Introduction to Trauma-Informed Care and Trauma-Focused Caregiving	3
BHS185	Cultural Competency in Behavioral Health Services	3
+ BHS190	Professional Portfolio: Supervised Practice In Behavioral Health and Social Services	1
BHS205	Therapeutic Models and Interventions in Individual Therapy.....	3
BHS210	Addictions, Substance Use Disorders, and Relapse Prevention	3
BHS215	Therapeutic Models and Intervention in Group Therapy	3

Restricted Electives: (6 credits)

Students must choose six credits from one of the following specializations:

Specialization 1: Trauma and Crisis Stabilization

		Credits
BHS230	Crisis and Trauma Stabilization	3
BHS235	Emergency Mental Health Crisis Response and Recovery	3

Specialization 2: Infant and Early Childhood Mental Health

BHS275	Infant and Early Childhood Mental Health (3)	3
CFS177	Parent-Child Interaction (3) OR	
BHS272	Child and Adolescent Mental Health and Interventions	3
CFS235	Developing Child: Theory into Practice, Prenatal to Age Eight	3
+ EED210	Creative and Cognitive Play	3
(If EED210 is selected, CFS235 will need to be selected unless another requisite option has been met.)		

Specialization 3: Addiction and Substance Use Disorders

ASD110	Pharmacology of Substances of Abuse and Dependency	3
ASD245	Co-Occurring Disorders (2)	
AND		
ASD120	Professional Ethics in Addictions and Substance Use Disorder (1) OR	
ASD145	AIDS and Addiction (1)	3
BHS251	Harm Reduction in Addiction, Substance Use, and Social Services	3

Specialization 4: Developmental Disabilities

BHS271	Developmental Disabilities Assistance Training	3
+ PSY 241	Understanding and Changing Behavior	3

+ PSY 243	The Psychology of Developmental Disabilities	3
-----------	--	---

Specialization 5: Criminal Justice and Forensic Science

+ PSY 267	Introduction to Forensic Psychology	3
-----------	---	---

AJS101	Introduction to Criminal Justice (3) OR
AJS200	Current Issues In Criminal Justice (3) OR
AJS225	Criminology (3)

Specialization 6: Mental Health

BHS230	Crisis and Trauma Stabilization (3) OR
BHS235	Emergency Mental Health Crisis Response and Recovery (3)
BHS251	Harm Reduction in Addiction, Substance Abuse and Social Services
BHS255	Health and Wellness Coaching in Professional Resiliency
BHS262	Behavioral Health Service Techniques for the Elderly
BHS266	Violence and Abuse Services
BHS269	Grief Support Techniques
BHS271	Developmental Disabilities Assistance Training
BHS272	Child and Adolescent Mental Health and Interventions
BHS275	Infant and Early Childhood Mental Health
CPD180	Human Resilience: Cognitive, Emotional, and Behavioral Applications
+ PSY 266	Psychological Disorders

General Education: (22-28 Credits)

General Education Core: (12-18 credits)

Credits

First-Year Composition:

6

+ ENG101	First-Year Composition (3) OR
+ ENG107	First-Year Composition for ESL (3)
AND	
+ ENG102	First-Year Composition (3) OR
+ ENG108	First-Year Composition for ESL (3) OR
+ ENG111	Technical and Professional Writing (3)

ENG102 or ENG108 recommended for students considering pursuing a bachelor's degree at an Arizona university.

Oral Communication:

3

COM100	Introduction to Human Communication (3) OR
COM110	Interpersonal Communication (3) OR
+ COM225	Public Speaking(3) OR
COM230	Small Group Communication (3)

Critical Reading:

0-3

+ CRE101	College Critical Reading and Critical Thinking (3) OR
	Equivalent as indicated by assessment. (0)

Mathematics:

3-6

+ MAT112	Mathematical Concepts and Applications (3) OR
	Satisfactory completion of a higher level mathematics course (3-6)

MAT142 College Mathematics or MAT151 College Algebra/Functions recommended for those planning to transfer.

General Education Distribution: (10 credits)

Credits

Humanities, Arts and Design:

3

Any approved general education course from the Humanities, Arts and Design area.

+ HCR210	Clinical Health Care Ethics recommended.	
Social-Behavioral Sciences:		3
PSY101	Introduction to Psychology	
Natural Sciences:		4
Any approved general education course from the Natural Sciences area.		
Recommended:		
+ PSY275	Biopsychology (suggested)(4) OR	
+ BIO156	Introductory Biology for Allied Health(4) OR	
BIO160	Introduction to Human Anatomy and Physiology (4) OR	
FON241	Principles of Human Nutrition (3) AND	
+ FON241LL	Principles of Human Nutrition Laboratory (1)	

Cybersecurity AAS 3197

Associate in Applied Science - 61-74 Credits

Field of Interest: Computer and Information Technology

For Information: Martin Bencic

Phone: 623.845.3237

<https://www.gccaz.edu/business>

Program Description: The Associate in Applied Science in Cybersecurity is designed to focus on the necessary skills required to secure, protect and identify vulnerabilities in a network, including various operating systems and network devices. Emphasis is placed on developing the theoretical, legal, ethical and practical skills needed to maintain security on mission-critical networking and server systems. The program is designed to meet the training needs of government and industry employees. The program covers a variety of information security technologies and structured languages. The Cybersecurity program also focuses on the skills needed for internationally recognized IT certifications and high demands in business, industry, and government. Certificates of Completion are also available in the following areas: Cybersecurity Fundamentals, Cyber Operations, Linux System Administration, Microsoft, Cisco Networking CCNA Security, Cyber Engineering, and Critical Infrastructure.

Program Notes: Students must earn a grade of C or better in all courses within the program.

Only required courses and restricted electives taken within eight years of completion of the program may be applied towards this degree. Consult with your faculty mentor or Academic Advisor.

Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.¹

This program also is offered at Chandler-Gilbert, Estrella Mountain, GateWay, Mesa, Paradise Valley, Phoenix, Rio Salado, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (24-28 credits)		Credits
+ BPC270	A + Exam Prep: Operating System Configuration and Support(3) OR	
MST150++	Any Microsoft Windows course (3)	3
(MST150++ required for Microsoft System Administration specialization and Critical Infrastructure specialization.)		
CIS105	Survey of Computer Information Systems	3
CIS111	Ethics in Information Technology (3) OR	
+ ITS120	Legal, Ethical and Regulatory Issues (3)	3
CIS126DL	Linux Operating System (3) OR	
CIS126RH	Red Hat System Administration I (3)	3

+ CIS156	Python Programming: Level I	3
+ CIS190 CNT140AB (CNT140AB required for Cisco Network Administration and Security specialization and Critical Infrastructure specialization.)	Introduction to Networking (3) OR Introduction to Networks (4)	3-4
+ CIS271DB AND + CIS272DB + CIS270 + ITS110 (ITS110 required for Cyber Operations specialization; CIS271DB and CIS272DB required for Critical Infrastructure specialization.)	Information Security Essentials (3) Information Security Principles (3) OR Essentials of Network and Information Security (3) OR Information Security Fundamentals (3)	3-6
+ ITS240	Ethical Hacking and Network Defense	3

Restricted Electives: (12-18 credits)

Credits

Students must complete 12 to 18 credits from the following list of courses. Courses that are required for a specialization in Cyber Operations, Linux System Administration, Microsoft System Administration, Cisco Network Administration and Security, Cyber Engineering, and/or Critical Infrastructure are noted. Courses cannot be repeated for credit.

Specialization I: Cyber Operations - Credits: 17

BPC170	A+ Exam Prep: Computer Hardware Configuration and Support	3
+ CIS238DL	Linux System Administration (3) OR	
+ CIS238RH	Red Hat System Administration II (3)	3
+ CIS290AC	Computer Information Systems Internship (3) OR	
+ CIS298AC	Special Projects (3)	3
+ ITS291	Computer Forensics Foundations	4
+ ITS292	Advanced Computer Forensics	4

Specialization II: Linux System Administration - Credits: 15

+ CIS238DL	Linux System Administration (3) OR	
+ CIS238RH	Red Hat System Administration II (3)	3
+ CIS239DL	Linux Shell Scripting	3
+ CIS240DL	Linux Network Administration	3
+ CIS240RH	Red Hat System Administration III (3)	3
+ CIS271DL	Linux Security (3) OR	
+ CIS271RH	Red Hat System Administration IV (3)	3
+ CIS275DL	Linux Capstone	3

Specialization III: Microsoft System Administration - Credits: 15

CIS121AH	Microsoft PowerShell/Command Line Operations	3
+ MST155DC	Installation, Storage, and Compute with Windows Server	4
+ MST157DC	Networking with Windows Server	4
+ MST158DC	Identity Management with Windows Server 2016	4

Specialization IV: Cisco Network Administration and Security - Credits: 12

+ CNT150AB	Switching, Routing, and Wireless Essentials	4
+ CNT160AB	Enterprise Networking, Security, and Automation	4
+ CNT202	Cisco Secure Firewall Appliance Configuration(4) OR	
+ CNT205	Cisco Certified Network Associate Security (4)	4

Specialization V: Cyber Engineering - Credits: 18

+ CIS119DO	Introduction to Oracle: SQL (3) OR	
+ CIS276++	Any SQL Database course (3)	3
+ CIS162++	Any C Programming: Level I course	3

(Students intending to transfer to University of Arizona (UA) South should take CIS162 C Programming.)

CIS227	Assembler Language	3
+ CIS238DL	Linux System Administration (3) OR	
+ CIS238RH	Red Hat System Administration II (3)	3
+ CIS250	Management of Information Systems	3

+ CIS262++ Any C Programming: Level II course

Specialization VI: Critical Infrastructure - Credits: 16

+ CIS143	Introduction to Critical Infrastructure Protection.....	3
+ CIS201	Introduction to Operational Technology	3
+ CIS202	Introduction to Smart Grid Security	3
+ CIS203	Principles of the Risk Management Framework	3
+ CNT150AB	Switching, Routing, and Wireless Essentials	4

General Electives: (0-3 credits)**Credits**

Select additional courses 100-level or higher to complete a minimum of 61-semester credits. It is recommended to select from the restricted elective options. Consult with a faculty advisor, program director, and/or academic advisor to identify coursework that best aligns with academic and professional goals.

General Education Requirements: (22-28 credits)**General Education Core: (12-18 credits)****Credits****First-Year Composition:****6**

+ ENG101	First-Year Composition (3) OR	
+ ENG107	First-Year Composition for ESL (3)	
AND		
+ ENG102	First-Year Composition (3) OR	
+ ENG108	First-Year Composition for ESL (3)	

Oral Communication:**3**

COM100	Introduction to Human Communication (3) OR	
COM110	Interpersonal Communication (3) OR	
+ COM225	Public Speaking (3) OR	
COM230	Small Group Communication (3)	

COM100 required for students intending to transfer to Arizona State University West to earn a Bachelor of Science in Applied Computing (Cybersecurity)

Critical Reading:**0-3**

+ CRE101	College Critical Reading and Critical Thinking (3) OR	
	Equivalent as indicated by assessment.	

Mathematics: Any approved general education course in the Mathematics area.	3-6
General Education Distribution: (10 credits)	Credits
Humanities, Arts and Design: Any approved general education course(s) in the Humanities, Arts and Design area.	3
Social-Behavioral Sciences: Any approved general education course(s) in the Social-Behavioral Sciences area.	3
Natural Sciences: Any approved general education course(s) from the Natural Sciences area.	4

Developmental Disabilities Specialist CCL 5034

Certificate of Completion - 16 credits

Field of Interest: Behavioral Science and Human Services

For Information: Shana Hornstein

Phone: 623.845.4761

<https://www.gccaz.edu/psychology>

Program Description: The Certificate of Completion (CCL) in Developmental Disabilities Specialist program is designed for students interested in working in various settings serving children or adults with developmental disabilities. The coursework combines theory and application. Academic preparation focuses on the physical and emotional correlates of developmental disability. The students also complete an internship, gaining experience working in a school or agency supporting persons with developmental disability.

Program Notes: Students must earn a grade of C or better for all courses within the program.

Program Prerequisites: None.

Required Courses: (13 credits)		Credits
Students must earn a grade of C or better for all Required Courses.		
PSY 101	Introduction to Psychology	3
+ PSY 241	Understanding and Changing Behavior	3
+ PSY 243	The Psychology of Developmental Disabilities	3
+ PSY 244	Internship in Psychology	1
+ PSY 240	Developmental Psychology (3) OR	
+ PSY 242	Understanding and Changing Behavior Lab (1) OR	
+ PSY 266	Psychological Disorders (3)	3
(PSY 242 is recommended for those students interested in Registered Behavioral Technician certification.)		

Restricted Electives: (3 credits)		Credits
Student may select any combination of courses from the list below that total at least three credits. Restricted electives must be different from those courses counted in the Required Area.		

ASL101	American Sign Language I	4
BHS170	Case Management and Clinical Documentation	3
BHS175	Introduction to Trauma-Informed Care and Trauma-Focused Caregiving	3
BHS180	Child, Family, and Adult Advocacy	3
BHS275	Infant and Early Childhood Mental Health	3
CFS/ECH176	Child Development	3
CFS112	Personal Growth and Family Relations	3
CFS205	Human Development	3
CFS235	Developing Child: Theory into Practice, Prenatal to Age Eight	3
CPD102AS	Conflict Resolution	2

COM110	Interpersonal Communication	3
FON100	Introductory Nutrition	3
HES154	First Aid/Cardiopulmonary Resuscitation	3
+ PSY240	Developmental Psychology	3
+ PSY266	Psychological Disorders	3
ASL101	American Sign Language I	4
SPA115	Beginning Spanish Conversation I	3
+ SWU171	Introduction to Social Work.....	3

Documentary Film Production CCL 5059

Certificate of Completion - 31 credits

Field of Interest: Visual and Performing Arts

For Information: Stephanie Lucas

Phone: 623.845.3755

<https://www.gccaz.edu/art-humanities>

Program Description: The Certificate of Completion (CCL) in Documentary Film Production introduces the fundamentals of nonfiction filmmaking in a small, supportive setting with industry professionals as mentors. Includes technical aspects of documentary filmmaking (producing, camera, and audio) and exposure to the history and theory behind the art. Students will develop, shoot, and edit an original short documentary film, as well as collaborate on various non-fiction productions, which can include work for clients, non-profits, and new media. An Associate in Applied Science (AAS) in Film and Media Production is also available.

Program Notes: Students must earn a grade of C or better in all courses within the program.

Program Prerequisites: None.

Required Courses: (31 credits)		Credits
ART142	Digital Photography	3
ART/COM/STO150	Digital Storytelling	3
FMP108	Video Production	3
FMP111AA	Scripting for the Media	3
+ FMP114	Audio Production	3
FMP115	Introduction to Editing for Media	4
+ FMP204	Advanced Video Production	3
+ FMP/FMT270	Documentaries for Social Change	4
HUM212	Documentary Film	3

In consultation with Advisor or Program Director, choose one course from the following:

+ FMP/FMT117	Introduction to Cinematography	3
FMP208	Production Company Management	3
FMP260	Film and Media Producing and Financing	3
+ FMP/FMT294AC	Special Topics in Motion Picture, Television, Documentary, and New Media Production	3

Early Childhood Education AAS 3186

Associate in Applied Science - 60-71 credits

Field of Interest: Education

For Information: Tina Le Baron

Phone: 623.845.3628

<https://www.gccaz.edu/consumer-sciences>

Program Description: The Associate in Applied Science (AAS) in Early Childhood Education (ECE) program is designed to prepare individuals for employment as early childhood professionals in a variety of educational settings. The

AAS program includes courses based on current ECE theory and practice as well as general education classes to broaden a student's base of knowledge. Certificates of Completion are also available.

Program Notes: Students must earn a grade of C or better for all courses within the program.

For some employment and field experiences (including internship courses), students will be required to have a current Identity Verified Print (IVP) Fingerprint Clearance Card and a current TB vaccination.

This program also is offered at Chandler-Gilbert, Estrella Mountain, Mesa, Paradise Valley, Phoenix, Rio Salado, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (29-34 credits)		Credits
CFS/ECH176	Child Development (3) OR	
CFS235	Developing Child: Theory into Practice, Prenatal – Age Eight (3) OR	
EED205	The Developing Child: Prenatal to Age Eight (3)	3
EED225	Language and Literacy in the Context of Culture and Relationships	3
CFS101AH	Art Activities for the Young Child (1)	
AND		
ECH281	Movement/Music for the Young Child (1) OR	
+ EED210	Creative and Cognitive Play (3) OR	
ECH128	Early Learning: Play and the Arts (3)	2-3
EED200	Foundations of Early Childhood Education	3
CFS/ECH271	Arranging the Environment (1)	
AND		
CFS282	Mainstreaming The Young Child with A Disability (1)	
AND		
ECH282	Discipline/Guidance of Child Groups (1) OR	
EED212	Guidance, Management and the Environment (3)	3
CFS123	Health and Nutrition in Early Childhood (1)	
AND		
CFS125	Safety in Early Childhood Settings (1)	
AND		
ECH280	Food Experiences With Young Children (1) OR	
EED215	Early Learning: Health, Safety, Nutrition and Fitness (3)	3
EED222	Introduction to the Exceptional Young Child: Birth to Age Eight (3) OR	
EDU222	Introduction to the Exceptional Learner (3)	3
CFSECH269	Child Care Seminar (1)	
AND		
CFSECH287	Professional Development in Early Childhood Education (1) OR	
EED255	Portfolio Development and Writing for the Profession (3).....	2-3
+ CFS/ECH284AB	Early Childhood Teaching Internship (3) OR	
+ EED260	Early Childhood Infant/Toddler Internship (1)	
AND		
+ EED261	Early Childhood Preschool Internship (1) OR	

ECH272	Science for the Young Child (1)	
AND		
CFS/ECH273	Math for the Young Child (1)	
AND		
CFS/ECH275	Literacy Development and the Young Child (1)	
AND		
ECH279	Early Childhood Curriculum Development (1) OR	
+ EED278	Early Learning: Curriculum and Instruction - Birth/ Preschool (3)	3-4
ECH140	Learning Made Visible Through Documentation (1)	
AND		
ECH270	Observing Young Children (1) OR	
+ EED280	Standards, Observation and Assessment of Typical/Atypical Behaviors of Young Children Birth to Age Eight (3)	2-3

Restricted Electives: (9-12 credits)

Credits

Students must select 9 to 12 credits from the following and must complete a minimum of 60 credits for the degree.

Students are encouraged to consult with a Faculty Advisor or student services analyst to identify the requirements for their desired academic and professional goals:

CFS+++	Any CFS Child/Family Studies course(s)
ECH+++	Any ECH Early Childhood Education course(s)
EDU+++	Any EDU Education course(s)
EED+++	Any EED Early Education course(s)
FCS+++	Any FCS Family and Consumer Science course(s)
ITD+++	Any ITD Infant/Toddler Development course(s)

General Education Requirements: (19-25 credits)

General Education Core: (12-18 credits)

Credits

First-Year Composition:

6

+ ENG101	First-Year Composition (3) OR
+ ENG107	First-Year Composition for ESL (3)
AND	
+ ENG102	First-Year Composition (3) OR
+ ENG108	First-Year Composition for ESL (3)

Oral Communication:

3

Any approved general education course from the Oral Communication area.

Note: +COM225 is recommended for students who wish to transfer to the Bachelor of Arts in Education at Arizona State University.

Critical Reading:

0-3

+ CRE101	College Critical Reading and Critical Thinking (3) OR Equivalent as indicated by assessment.
----------	---

Mathematics:

3-6

Any approved general education course in the Mathematical Applications [MA] area (3-6)

General Education Distribution: (7 credits)

Credits

Humanities, Arts and Design:

3

Any approved general education course from the Humanities, Arts and Design area.

Recommend: EDU/ENH291 Children's Literature OR
EDU/HUM/STO292 The Art of Storytelling.

Social-Behavioral Sciences:

Fulfilled by EDU222 or EED222 in Required Courses area.

0

Natural Sciences:

Any approved general education course from the Natural Sciences area.

4

Electronic Music AC 6231N

Academic Certificate - 40 credits

This program is not eligible for Title IV Federal Financial Aid

Field of Interest: Visual and Performing Arts

For Information: Doug Nottingham

Phone: 623.845.3915

<https://www.gccaz.edu/performing-arts>

Program Description: The Academic Certificate (AC) in Electronic Music is intended for the student who would like to obtain acknowledgment for completion of electronic music courses, and is not designed to prepare students for employment. While the completion of the certificate does not lead to a particular degree, it does provide and enhance the development of musicianship for enjoyment and personal growth. This program provides the student with fundamental musical skills covering a variety of topics, including theory, performance, composition, and history. In addition, students receive a high level of technical training in creating electronic music. As students complete courses in the program, they will build a portfolio of original compositions that may be used to seek admittance to a bachelor's-level music program.

Program Notes: Students must earn a grade of C or better in all courses required within the program.

This program also is offered at Mesa, and Phoenix Community Colleges.

Program Prerequisites: (0-3 credits)

Credits

MTC101	Introduction to Music Theory (3) OR	
Permission of instructor	0-3

Required Courses: (40 credits)

Credits

Students are required to complete a total of six credits of MTC240.

+ MTC105	Music Theory I.....	3
+ MTC106	Aural Perception I	1
+ MTC155	Music Theory II	3
+ MTC156	Aural Perception II.....	1
+ MTC205	Music Theory III.....	3
+ MTC206	Aural Perception III.....	1
+ MTC255	Music Theory IV	3
+ MTC256	Aural Perception IV	1
MTC191	Electronic Music I	3
+ MTC192	Electronic Music II.....	3
+ MTC193	Computer-Based Sound Synthesis	3
+ MTC240	Composition (3).....	6
+ MTC291	Electronic Music III.....	3
MUC195	Studio Music Recording I	3
+ MUC196	Studio Music Recording II (3) OR	
MUC197	Live Sound Reinforcement I (3).....	3

Engineering Technology AAS 3187

Associate in Applied Science - 60-68 credits

Field of Interest: Science, Technology, Engineering, and Mathematics

For Information: Dr. Didem Yamak Congress

Phone: 623.845.3974

<https://www.gecaz.edu/consumer-sciences>

Program Description: The Associate in Applied Science (AAS) in Engineering Technology program prepares students as entry-level engineering technicians. They will apply basic engineering principles and technical skills to support engineers engaged in a wide variety of projects. Includes instruction in various engineering support functions, including preparation in the areas of research, production, and operations. This degree will prepare highly skilled and needed workers for area manufacturers and the tech industry.

Program Notes: Students must earn a grade of C or better in each course in the program.

This program also is offered at Chandler-Gilbert, Estrella Mountain, Paradise Valley, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (26-33 credits)	Credits
+ CHM130 Fundamental Chemistry (3)	
AND	
+ CHM130LL Fundamental Chemistry Laboratory (1) OR	
+ CHM130AA Fundamental Chemistry with Lab (4) OR	
+ CHM150 General Chemistry I (4)	
AND	
+ CHM151LL General Chemistry I Laboratory (1) OR

+ PHY 131	University Physics II: Electricity and Magnetism (4)	4-5

Restricted Electives: (12-15 credits)

Credits

In consultation with an Academic, Faculty, or Program Advisor, complete 12 to 15 credits of coursework from any of the areas below that best align with academic and professional goals. Students may select courses from multiple areas.

General Application

Select one of the following programming courses not already taken in required courses:

+ CIS150	Programming Fundamentals (3) OR	
+ CIS150AB	Object-Oriented Programming Fundamentals (3) OR	
+ CIS156	Python Programming: Level I (3) OR	
+ CIS159	Visual Basic Programming I (3) OR	
+ CIS162AB	C++: Level I (3) OR	
+ CIS162AC	Visual C++: Level I (3) OR	
+ CIS162AD	C#: Level I (3) OR	
+ CIS163AA	Java Programming: Level I (3) OR	
+ CSC100	Introduction to Computer Science (C++) (3) OR	
+ CSC100AA	Introduction to Computer Science (C++) (3) OR	
+ CSC100AB	Introduction to Computer Science (C++) (4) OR	
+ CSC110	Introduction to Computer Science (Java) (3) OR	
+ CSC110AA	Introduction to Computer Science (Java) (3) OR	
+ CSC110AB	Introduction to Computer Science (Java) (4)	3-4

Select one of the following courses not already taken in required courses:

+ ECE104	EPICS Gold I (2) OR	
+ ECE294++	Special Topics in Engineering (1-4) OR	
+ ECE296++	Cooperative Education (1-3) OR	
+ ECE298++	Special Projects (1-3)	1-4
+ ECE105	MATLAB Programming	1
ECE106	Survey of Nanotechnology (1) OR	
+ MNT110	General Principles of Nanotechnology (3)	1-3
AIT100	Industrial Safety (1) OR	
CON271	Construction Safety (3) OR	
GTC/MIT/OSH106	Industrial Safety (2)	1-3

+ MAT206	Elements of Statistics	3
Biomedical Engineering Technician		
BIO160	Introduction to Human Anatomy and Physiology (4) OR

Exercise Science: Health, Fitness, and Sports Performance AAS 3059

Associate in Applied Science - 63-74.5 credits

Field of Interest: Health Sciences

For Information: Louise So

Phone: 623.845.3883

<https://www.gccaz.edu/fitness-wellness>

Program Description: The Associate in Applied Science (AAS) in Exercise Science: Health, Fitness and Sports Performance program prepares students for the American College of Sports Medicine (ACSM), National Strength and Conditioning Association (NSCA), National Academy of Sports Medicine (NASM) and the American Council on Exercise (ACE) personal trainer certifications. The curriculum is designed to prepare students for employment in positions such as personal training within health and fitness clubs, wellness centers, and public and private recreation facilities. The curriculum includes the foundational courses required for the Certificate of Completion (CCL) in Personal Training coupled with advanced hands-on courses required for the CCL in Personal Training: Advanced that foster the development of critical thinking, leadership, and communication skills important for developing, implementing and leading exercise programs. This curriculum also provides a good foundation for transfer to a four-year bachelor program. Students who complete this AAS also qualify for the CCL in Personal Training and Personal Training: Advanced. An Associate in Arts (AA), Emphasis in Exercise Science is also available for students interested in continuing their studies in this field.¹

Program Notes: Students must earn a grade of C or better required for all courses within the program.

This program also is offered at Chandler-Gilbert, Mesa, Paradise Valley, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (44-48.5 credits)		Credits
+ BIO181	General Biology (Majors) I (4) OR One year of high school biology (o)	0-4
+ BIO201++	Human Anatomy and Physiology I (4).....	4

Healthcare Technology Systems AAS 3161

Associate in Applied Science - 62-77 credits

Field of Interest: Health Sciences

For Information: John Gibson

Phone: 623.845.3419

<https://www.gccaz.edu/business>

Program Description: The Associate in Applied Science (AAS) in Healthcare Technology Systems degree is designed to develop the knowledge, technical skills and problem solving strategies needed by IT departments of healthcare organizations. Potential employers include hospitals, insurance companies, billing companies, medical practices, pharmacies, health solutions companies, and public agencies. Coursework and career development experiences include training in web development, programming, database management, Data Analytics, system development, project management, as well as Artificial Intelligence (AI), Machine Learning, and other emerging technologies to solve healthcare IT challenges in jobs such as an analyst, software developer, project manager, and informatics specialist. A standalone Certificate of Completion (CCL) is also available for students who already have a bachelor's degree or equivalent work experience as determined by the Program Director. Students can also pursue a bachelor's degree in technology or related fields.

Program Notes: Students must earn a grade of C or better in all courses within the program.

BPC110 or CIS105 are not applicable if taken more than five years prior to the completion of the program. Consult with an Academic Advisor or Program Director for exceptions.

Students are encouraged to speak with an Academic Advisor or Program Director before starting the program.

Students interested in pursuing the Business and Administration Interdisciplinary Studies - Technology Management 90-30, bachelor's program should consult with a Northern Arizona University transfer specialist at their campus.

This program also is offered at Paradise Valley Community College.

Program Prerequisites: None.

Required Courses: (40-49 credits)		Credits
BPC110	Computer Usage and Applications (3) OR	
CIS105	Survey of Computer Information Systems (3) OR	
Permission of Program Director		0-3
CIS116	Computer Graphics: Introduction to Microsoft Visio	1
CIS117DM	Microsoft Access: Database Management	3
CIS133DA	Internet/Web Development Level I	3
+ CIS150AB	Object-Oriented Programming Fundamentals	3
CIS224	Project Management Microsoft Project for Windows	3
+ CIS276DA	MySQL Database (3) OR	
+ CIS276DB	SQL Server Database (3)	3
HCC130	Fundamentals of Health Care Delivery (3) OR	
Permission of Program Director		0-3
HCC145	Medical Terminology for Health Care Professionals (3) OR	
HCC145AA	Medical Terminology for Health Care Professionals I (1) OR	
HCC146	Common Medical Terminology for Health Care Professionals (2) OR	
Permission of Program Director		0-3
+ HTM150	Introduction to Healthcare IT Systems	3
+ HTM200	Healthcare IT Software Infrastructure: Interoperability, Security and mHealth	3
+ HTM230	Healthcare Data Analytics, Artificial Intelligence and Machine Learning	3
+ HTM250	Healthcare IT Systems Development Life Cycle (SDLC)	3

+ HTM270	Healthcare IT Systems Capstone	3
+ HTM280	Healthcare Technology Systems Career Strategies	3
+ CIS156	Python Programming: Level I (3) OR	
+ CIS159	Visual Basic Programming I (3) OR	
+ CIS162AC	Visual C++: Level I (3) OR	
+ CIS162AD	C#: Level I (3) OR	
+ CIS163AA	Java Programming: Level I (3)	3
CIS165++	Any Mobile Application Development course (3) OR	
CIS166++	Any Web Scripting course(s) (3)	3

General Education Requirements: (22-28 credits)

General Education Core: (12-18 credits)	Credits
First-Year Composition:	6
+ ENG101	First-Year Composition (3) OR
+ ENG107	First-Year Composition for ESL (3)
AND

Any approved general education course from the Humanities, Arts and Design [HU] area.	
Social-Behavioral Sciences:	3
Any approved general education course from the Social- Behavioral Sciences [SB] area.	
Natural Sciences:	4
Any approved general education course from the Natural Sciences (Quantitative) [SQ] area of the Natural Sciences (General) [SG] area.	

Healthcare Technology Systems CCL 5836

Certificate of Completion - 37-46 credits

Field of Interest: Health Sciences

For Information: John Gibson

Phone: 623.845.3419

<https://www.gccaz.edu/business>

Program Description: The Certificate of Completion (CCL) in Healthcare Technology Systems degree is designed to develop the knowledge, technical skills and problem solving strategies needed by IT departments of healthcare

organizations. Potential employers include hospitals, insurance companies, billing companies, medical practices, pharmacies, health solutions companies, and public agencies. Coursework and career development experiences include training in web development, programming, database management, Data Analytics, system development, project management, as well as Artificial Intelligence (AI), Machine Learning, and other emerging technologies to solve healthcare IT challenges in jobs such as an analyst, software developer, project manager, and informatics specialist. An Associate in Applied Science (AAS) in Healthcare Technology Systems is also available for students who do not have a bachelor's degree or equivalent work experience as determined by the Program Director.

Program Notes: Students must earn a grade of C or better in all courses within the program.

BPC110 or CIS105 are not applicable if taken more than five years prior to the completion of the program. Consult with an Academic Advisor or Program Director for exceptions.

Students who already possess a bachelor's degree, or higher from an accredited institution, are allowed to pursue the Certificate of Completion (CCL) in Healthcare Technology Systems rather than the Associate in Applied Science (AAS) in Healthcare Technology Systems option. Students who do not yet have a bachelor's degree but who have the relevant work or other educational experience may speak with the Program Director to see if an exception is possible.

Students are encouraged to speak with an Academic Advisor or Program Director before starting the program.

This program also is offered at Paradise Valley Community College.

Program Prerequisites: None.

Journalism and New Media Studies AAS 3120

Associate in Applied Science - 60-64 credits

Field of Interest: Culture and Society

For Information: Jenna Duncan

Phone: 623.845.3914

<https://www.gccaz.edu/english>

Program Description: The Associate in Applied Science (AAS) in Journalism and New Media Studies program is designed to provide students with general, practical and marketable skills that will enable them to seek entry-level employment in various media outlets, including: newspapers, magazines, community journals, online websites, radio and television. The program includes development of a portfolio that will exhibit students' abilities to write both news and feature stories. News judgment is also integrated as a critical component of the program. An awareness of global and cultural differences also forms a key element of this degree for the successful graduate. The curriculum combines coursework in journalism with a General Education component.

Program Notes: Students must earn a grade of C or better for all courses within the program.

There are additional university transfer options within this pathway. Students should speak with the Program Director or an Academic Advisor to identify the best option to meet their academic and career goals.

This program also is available at Mesa Community College.

Program Prerequisites: None.

Required Courses: (36 credits):		Credits
BPC110	Computer Usage and Applications (3) OR	
CIS105	Survey of Computer Information Systems (3)	3
ENG235	Magazine Article Writing (3) OR	
+ JRN212	Writing for Broadcasts (3) OR	
+ JRN234	Feature Writing (3)	3
JRN125	Photo Editing	3
+ JRN201	News Writing	3
+ JRN205	Copyediting	3
+ JRN215	News Production.....	3
JRN225	Photojournalism	3
+ MCO120	Media and Society	3
+ MCO220	Cultural Diversity and the Media	3

Any combination of the following courses must be taken for a total of six credits:

+ JRN101	Grammar and Style for Journalists	1
+ JRN240AC	Journalism Internship (3)	3
JRN290	Publications Portfolio	1

+ JRN298AA	Special Projects.....	1
+ JRN298AB	Special Projects.....	2
+ JRN298AC	Special Projects.....	3

General Electives: (0-2 credits): **Credits**

Select additional courses 100-level or higher to complete a minimum of 60 semester credits. Consult with the Program Director or an Academic Advisor

General Education Requirements: (22-28 credits)

Journalism and New Media Studies CCL 5466

Certificate of Completion - 21-25 credits

Field of Interest: Culture and Society**For Information:** Jenna Duncan**Phone:** 623.845.3914<https://www.gccaz.edu/english>

Program Description: The Certificate of Completion (CCL) in Journalism and New Media Studies program is designed both for students that are just starting their career path in journalism as well as those that have a bachelor's degree in another discipline and are shifting professional goals or areas of emphasis. The CCL includes courses that are often required in journalism program at universities throughout the state and country. An internship in journalism as well as submission of a portfolio of published articles are also required to complete the certificate.

Program Notes: Students must earn a grade of C or better for all courses within the program.

Program Prerequisites: None.

Required Courses: (21 credits)		Credits
+ ENG101	First-Year Composition (3) OR	
+ ENG107	First-Year Composition for ESL (3)	3
ENG235	Magazine Article Writing (3) OR	
+ JRN234	Feature Writing (3)	3
+ JRN201	News Writing	3
+ JRN213	Writing for Online	3
+ JRN210	News and Media Production	3
+ JRN240AB	Journalism Internship	2
JRN290	Publications Portfolio	1
+ MCO120	Media and Society	3

Restricted Electives: (0-4 credits)

Students have the option of taking up to four credits selected from the following list to develop an additional area of concentration. Restricted Elective credits are not required for the program.

Restricted Electives: (0-4 credits)		Credits
+ JRN101	Grammar and Style for Journalists	1
JRN125	Photo Editing	3
JRN133	Development of Small Publications	3
+ JRN212	Writing for Broadcasts	3
+ JRN298AA	Special Projects	1

Network and Systems Administration AAS 3189**Associate in Applied Science - 60-71 credits**

Field of Interest: Computer and Information Technology

For Cisco Network Information: Andrea Schauer

Phone: 623.845.3502

<https://www.gccaz.edu/consumer-sciences>

For Linux Administration Information: Martin Bencic

Phone: 623.845.3237

<https://www.gccaz.edu/business>

For VMware Information: Martin Bencic

Phone: 623.845.3237

<https://www.gccaz.edu/business>

Program Description: The Associate in Applied Science (AAS) in Network and Systems Administration program provides students with a solid, hands-on skill set of computer, networking, and internetworking systems technology principles and desktop support. Students gain an understanding of the interaction between microcomputer software and hardware, network and internetworking operating systems software and hardware, local area network administration and management, the use of troubleshooting techniques, troubleshooting hardware and software tools, as well as interpersonal/customer service skills. Students have the opportunity to specialize in specific information technology areas based on their interests and professional goals and leading to industry recognized certifications through an embedded Certificate of Completion (CCL) including, but not limited to, Desktop (Desktop Support, Computer System Configuration and Support, Computer System Configuration and Support, Network, Computer System Configuration and Support, Security, Computer System Configuration and Support, Linux), Cisco (Cisco Network CCNA, Cisco Network CCNP, Cisco Network CCNA Security), Linux (Red Hat Linux Engineer, Linux Associate, Red Hat Linux Administrator, Linux System Administration), Microsoft (Microsoft System Administration, Microsoft Desktop Associate), and VMware (VMware Network Administrator, VMware Foundations, VMware System Administrator). Graduates may pursue employment in a variety of information technology environments and/or transfer to a university.

Program Notes: Students must earn a grade of C or better in all courses within the program.

Required courses and restricted electives must be taken within five years prior to completion of the program to be applied toward this award. Students may receive credit for courses within the program based on current industry certifications.

Courses within any of the following prefixes must be taken within five years prior to completion of the program to be applied toward this award: AIM, BPC, CIS, CLD, CNT, CSC, ITS, and MST.¹

This degree also is offered at Chandler-Gilbert, Estrella Mountain, GateWay, Mesa, Paradise Valley, Phoenix, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (30-43 credits)

Credits

BPC170	A+ Exam Prep: Computer Hardware Configuration and Support	3
+ BPC270	A+ Exam Prep: Operating System Configuration and Support	3
CIS102DA	Customer User Support	3
CIS105	Survey of Computer Information Systems	3
CIS126DL	Linux Operating System (3) OR	
CIS126RH	Red Hat System Administration I (3)	3
+ CIS190	Introduction to Networking (3) OR	
CNT140AB	Introduction to Networks (4)	3-4
(CNT140AB is required for students on the Cisco specialization)		

Students must also select from one of the following specializations based on their career goals.

Specialization 1: Cisco System Administration (CCNA) and Security - Credits: 12

+ CNT150AB	Switching, Routing, and Wireless Essentials	4
+ CNT160AB	Enterprise Networking, Security, and Automation	4

+ CNT202	Cisco Secure Firewall Appliance Configuration(4) OR	
+ CNT205	Cisco Certified Network Associate Security (4)	4
Specialization 2: Cisco System Administration (CCNP) - Credits: 24		
+ CNT150AB	Switching, Routing, and Wireless Essentials	4
+ CNT160AB	Enterprise Networking, Security, and Automation	4
+ CNT240	Cisco Certified Network Professional: Enterprise Core (8) OR	
+ CNT240AA	Cisco Certified Network Professional: Enterprise Core I (4)	
AND		
+ CNT240AB	Cisco Certified Network Professional: Enterprise Core II (4)	8
+ CNT250	Cisco Certified Network Professional: Enterprise Advanced Routing and Services (8) OR	
+ CNT250AA	Cisco Certified Network Professional: Enterprise Advanced Routing and Services I (4)	
AND		
+ CNT250AB	Cisco Certified Network Professional: Enterprise Advanced Routing and Services II (4) .	8
Specialization 3: Linux System Administration - Credits: 12		
+ CIS238DL	Linux System Administration	3
+ CIS239DL	Linux Shell Scripting	3
+ CIS240DL	Linux Network Administration	3
+ CIS275DL	Linux Capstone	3
Specialization 4: Red Hat Enterprise Linux Administration - Credits: 12		
+ CIS238RH	Red Hat System Administration II	3
+ CIS239DL	Linux Shell Scripting	3
+ CIS240RH	Red Hat System Administration III	3
+ CIS275DL	Linux Capstone	3
Specialization 5: Microsoft System Administration - Credits: 18		
CIS121AH	Microsoft PowerShell/Command Line Operations	3
MST150++	Any Microsoft Windows Operating System course	3
+ MST155DC	Installation, Storage, & Compute With Windows Server	4
+ MST157DC	Networking With Windows Server	4
+ MST158DC	Installing and Configuring Windows Server	4
Specialization 6: VMware Network Administrator - Credits: 12		
CIS189	Virtualization and IT Solutions for Digital Businesses	3
+ CIS197	VMware ESXI Server Enterprise	3
+ CIS198	VMware vSphere: Optimize and Scale	3
+ CIS200	VMware NSX: Install, Configure, Manage	3
Restricted Electives: (0-8 credits)		Credits
Students are to select enough Restricted Elective credits to meet a minimum of 60 credits not used to satisfy Required Courses or selected specialization within the Required Courses. Consult with an Academic, Program, or Faculty Advisor to pick courses that align with your career goals.		
Cisco Electives		
CNT140AB	Introduction to Networks	4
+ CNT150AB	Switching, Routing, and Wireless Essentials	4
+ CNT160AB	Enterprise Networking, Security, and Automation	4
+ CNT171	CCNA Exam Prep	1

Nursing AAS 3812

Associate in Applied Science - 62-75 credits

Field of Interest: Health Sciences

For Information: Grace Paul

Phone: 623.845.3626

<https://www.gccaz.edu/nursing>

Program Description: The Associate in Applied Science (AAS) in Nursing Program is available at eight of the Maricopa Community Colleges. Clinical experiences are provided in a variety of healthcare settings. Nursing Program graduates are eligible to apply for the national exam for the registered nurse license. Licensing requirements are the exclusive responsibility of the State Board of Nursing.

The Associate in Applied Science (AAS) Nursing Program is approved by the Arizona State Board of Nursing and accredited by the Accreditation Commission for Education in Nursing (ACEN), 3390 Peachtree Road NE, Suite 1400, Atlanta, GA 30326; (404.975.5000); email: info@acennursing.org.

Program offerings:

This program is offered at the following sites:

- Chandler-Gilbert Community College
- Estrella Mountain Community College
- GateWay Community College
- Glendale Community College
- Mesa Community College

- Paradise Valley Community College
- Phoenix College
- Scottsdale Community College

Waiver of Licensure/Certification Guarantee:

Admission or graduation from the Nursing Program does not guarantee obtaining a license to practice nursing. Licensure requirements and the subsequent procedures are the exclusive right and responsibility of the Arizona State Board of Nursing. Students must satisfy the requirements of the Nurse Practice Act: Statutes, Rules and Regulations, independently of any college or school requirements for graduation.

Pursuant to A.R.S. 32-1606(B)(17), an applicant for professional or practical nurse license by examination is not eligible for licensure if the applicant has any felony convictions and has not received an absolute discharge from the sentences for all felony convictions. The absolute discharge must be received five or more years before submitting this application. If you cannot prove that the absolute discharge date is five or more years, the Board cannot process your application.

Level One Fingerprint Clearance is required for admission into the program. Applicants must present a Level One Fingerprint Clearance Card to be copied by the advisor or designee. For a Department of Public Safety Fingerprint Clearance Card application, contact MCCC HealthCare/Nursing Advisor. If there is any question about eligibility for licensure or certification, contact the nursing education consultant at the Arizona State Board of Nursing (602.771.7800).

Health Declaration:

It is essential that nursing students be able to perform a number of physical activities in the clinical portion of the program. At a minimum, students will be required to lift patients, stand for several hours at a time and perform bending activities. Students who have a chronic illness or condition must be maintained on current treatment and be able to implement direct patient care. The clinical nursing experience also places students under considerable mental and emotional stress as they undertake responsibilities and duties impacting patients' lives. Students must be able to demonstrate rational and appropriate behavior under stressful conditions. Individuals should give careful consideration to the mental and physical demands of the program prior to making application. All must provide documentation of compliance with all health and safety requirements required to protect patient safety. Only students in compliance are permitted to enroll in nursing courses. Students will meet these requirements by providing the required documentation for the Health/Safety Requirements Documentation Checklist and the signed Health Declaration Form.

Health and Safety Requirements for the Maricopa Nursing Program:

Students must submit a Health and Safety Documentation Checklist verifying completion of all requirements and maintain current status throughout the program.

Students must submit the Health Declaration Form signed by a licensed health care provider.

Students must test negative on a timed urine drug screen

Admission to an Allied Health program requires that students be in compliance with the Maricopa County Community College District Supplemental Background Check policy. Program applications will not be accepted without a copy of an Arizona Department of Public Safety Level One Fingerprint Clearance Card. Upon conditional program admission, the student must comply with all requirements of the current MCCC background check policy.

University Transfer Students:

Students who are planning to earn the Bachelor of Science in Nursing may obtain their prerequisite courses at the Maricopa Community Colleges. For information on courses that meet requirements for admission into a baccalaureate program, please contact a program advisor.

REGISTERED NURSE PATHWAY

Associate in Applied Science Degree in Nursing Program

The Associate in Applied Science (AAS) degree in Nursing graduate is eligible to apply for licensure as a Registered Nurse (RN). The RN is educated as a generalist who delivers health care to clients and family groups and has competencies related to the art and science of nursing. The RN may be employed in a variety of acute, long term, and community-based healthcare settings. The AAS degree in Nursing provides the graduate with an educational foundation for articulation into the university setting.

Program Notes: Students must earn a grade of C or better in all courses required within the program.

Students must complete the following general education and introductory courses with a 2.0 GPA to be added to the queue of those waiting for an available cohort space to begin the core curriculum. BIO156 or BIO181, BIO201, CHM130 and CHM130LL, CHM130AA, ENG101 or ENG107, MAT140 or MAT141 or MAT142.¹

Course Fee Information: Please see class schedule for information regarding course fees.

MaricopaNursing is aligned with Nurse of the Future Competencies: Patient-Centered Care, Professionalism, Leadership, Systems-Based Practice, Informatics and Technology, Communication, Teamwork and Collaboration, Safety, Quality Improvement, and Evidence-Based Practice. These competencies focus on key stakeholders of healthcare clients, colleagues and communities. Demonstration of the competencies will signify preparation for successful transition into nursing practice and further professional development.

This program also is offered at Chandler-Gilbert, Estrella Mountain, GateWay, Mesa, Paradise Valley, Phoenix, and Scottsdale Community Colleges.

Admission Criteria: High school diploma or GED is required for the Associate in Applied Science degree in Nursing. Applicants must signify that they meet this requirement by providing high school diploma/transcripts or GED completion OR by signing the nursing application page containing the `Declaration of High School Graduation or GED completion.` In some instances, high school diploma/transcripts or proof of GED completion may be required.

Formal application and admission to the program is required. There are limited spaces available in the Nursing program. Only students who have completed all of the general education and introductory courses noted above may have their name added to the queue of those waiting for an available space in a cohort.¹

A passing score on a nursing program admission test is required to complete an application. Successful completion of a nurse assistant course (NCE150 or NUR158 or equivalent as determined by the Nursing Director or designee) or current active AZ certification or licensure as a Nurse Assistant in good standing is required to complete an application.¹

Applicants for Advanced Placement must receive a passing score on a practical nursing content exam for placement into Block 3. The final placement decision rests with the Nursing Program Chair at the College to which the student is accepted.

The Nursing Program Chair reserves the right to deny acceptance of an admission application if the applicant was previously dismissed for issues relating to academic integrity, unsafe patient care, and/or two or more failures from any nursing program.

All applicants holding or receiving a certificate as a Nursing Assisting and/or license as a Practical Nurse must remain in good standing with the Regulatory Board. Once enrolled, students receiving any disciplinary actions against their certificate or license must notify the Nursing Program Chair within five school days. The Nursing Program Chair reserves the right to restrict the student's participation in clinical experiences and involvement in patient care until the certificate and/or license is valid and unrestricted.

Program Prerequisites: (10 -20 credits)

The credit-hour range is subject to change depending on the student's educational experience.

Personal Trainer CCL 5421

Certificate of Completion - 18-18.5 credits

Field of Interest: Health Sciences

For Information: Louise So

Phone: 623.845.3883

<https://www.gecaz.edu/fitness-wellness>

Program Description: The Certificate of Completion (CCL) in Personal Trainer is designed to provide students with the foundational skills needed to design and implement fitness routines appropriate to clients' goals and aligned with current industry best practices. The curriculum for this certificate fosters the development of critical thinking, leadership, and communication skills important for developing and implementing individualized exercise programs. A CCL in Personal Training: Advanced and an Associate in Applied Science (AAS) in Exercise Science: Health, Fitness, and Sports Performance are also available for students interested in continuing their studies in this field.

Program Notes: Students must earn a grade of C or better for all courses required within the program.

This program also is offered at Chandler-Gilbert, Mesa, Paradise Valley, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (18-18.5 credits)

		Credits

Retail Management AAS 3048

Associate in Applied Science - 61-63 credits

Field of Interest: Business, Entrepreneurialism, and Management

For Information: Kendra Swensen

Phone: 623.845.3749

<https://www.gccaz.edu/business>

Program Description: The Associate in Applied Science (AAS) in Retail Management degree is designed to prepare individuals working in the retail management, food industry, and related fields, for the mid-level management position challenges of the future. The curriculum encompasses business essentials and also emphasizes the skill sets needed for effective management and communication in the work environment. Instruction will provide the background and knowledge necessary for students to develop the judgment skills they must exercise as business managers. A Certificate of Completion (CCL) in Retail Management is also available.

Program Notes: Students must earn a grade of C or better in all courses within the program.

This program also is offered by Chandler-Gilbert, Estrella Mountain, GateWay, Mesa, Phoenix, Rio Salado, Scottsdale, and South Mountain Community Colleges.

Program Prerequisites: None.

Required Courses: (27-30 credits)

		individualized learning to be combined to maximize student development.		
ABA101	Hand and Power Tools	Selection, use, maintenance and safety procedures for common hand and power tools used in the construction industry.	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	L+L 1.0 1.0 1.0
ABA102	Electrical Fundamentals	Fundamentals of electricity including electrical hazards, Occupational Safety and Health Administration (OSHA) regulations, units of measurements and using Ohm's law. Circuit characteristics and the use of Kirchoff's voltage and current laws to calculate voltage drop, current and resistance. Operation and use of specific meters. Includes an introduction to the National Electrical Code (NEC)	Prerequisites: None.	LEC 1.0 1.0 1.0
ABA103	Hand Bending of Electrical Conduit	Conduit bending and installation. Techniques for using hand operated and step conduit benders. Cutting, reaming and threading conduit	Prerequisites: None.	LEC 0.5 0.5 0.5
ABA104	Raceways, Boxes, Fittings, Anchors/Supports	Types and applications of conduit, raceways, wireways and ducts. Types, applications and wiring techniques for conductors. Hardware and systems used to mount and support boxes, receptacles and other electrical components	Prerequisites: Registered Apprentice status or permission of the Apprenticeship Coordinator.	LEC 1.5 1.5 1.5
ABA106	Introduction to Materials Handling	Introduction to materials handling equipment and appropriate use for common job-site tasks. Recognize hazards associated with materials handling and proper techniques and procedures.	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	LEC 0.5 0.5 0.5
ABA112	Electrical I	Theories and concepts in electrical safety basics and OSHA 10 certification. Introductory concepts in construction math, hand and power tools, drawings, rigging, and materials handling. Emphasis on communication and employability skills.	Prerequisites: Registered apprenticeship status or permission of Apprenticeship Coordinator.	L+L 6.0 6.0 6.0
ABA114	Electrical II	Fundamentals of the electrical trade, residential electrical services and test equipment. Emphasis on safety, electrical circuits, theory, National Electrical Code, device boxes. Use and selection of hand bending, raceways, fittings, conductors, cables. Interpretation of electrical drawings.	Prerequisites: Registered apprenticeship status or permission of Apprenticeship Coordinator.	L+L 6.0 6.0 6.0
ABA120	Carpentry Fundamentals	Overview of the carpentry trade. Apprenticeship programs and responsibilities of the apprentice. Types and uses of nails, fasteners and adhesives. Types of wood, lumber and manufactured wood products	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	LEC 1.0 1.0 1.0
ABA121	Floor and Wall Systems	Framing systems, floor construction, center beam and post support systems. Construction of sills, joists and bridging.	Prerequisites: (Registered apprentice status and a grade of C or better in	LEC 2.0 2.0 2.0

		Subflooring, mechanical connectors and the use of prefabricated joists. Wall construction, stud walls, panelized walls, masonry walls, post and beam walls, use of metal studs and drywall construction.	ABA120) or permission of the Apprenticeship Coordinator.	
ABA122	Electrical III	Theory and application of alternating current, lighting, conduit bending, pull and junction boxes.	Prerequisites: Registered apprenticeship status or permission of Apprenticeship Coordinator.	L+L 6.0 6.0 6.0
ABA124	Electrical IV	Principles of conductor installations, cable trays, conductor terminations and splices. Emphasis on grounding, bonding, circuit breakers, and fuses. Fundamental concepts of control systems.	Prerequisites: Registered apprenticeship status or permission of Apprenticeship Coordinator.	L+L 6.0 6.0 6.0
ABA130	Installation of Electric Services	Electric services for commercial and industrial installations. Blueprints, diagrams and electrical calculations. Grounding, connecting three phase services and the installation of panelboards, switches and load centers	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	LEC 1.0 1.0 1.0
ABA135	Cast-In-Place Stairs	Cast-In-Place and Precast stair installation techniques, forming, erecting and safety procedures. Review American Concrete Institute (ACI) Codes and standard specifications.	Prerequisites: Registered apprenticeship status or permission of Apprenticeship Coordinator.	LEC 1.0 1.0 1.0
ABA136	Communications in Construction	Communication in the construction industry. Positive direct communication, written communication, active listening, understanding, negotiation, and dealing with difficult people. Communication skills at all organizational levels, with groups, combining oral and written communication for maximum effectiveness.	Prerequisites: None.	LEC 1.0 1.0 1.0
ABA150	Advanced Calculations for Electricians	Advanced mathematical calculations in the electrical industry. Powers and roots in watts, voltage, current and resistance. Metric and engineering units. English and metric systems for length, area, volume and mass, and energy and temperature measurements. Ratios, proportions, formulas, symbols and representation. Trigonometry and the Pythagorean theory. Plane and rotating vectors. Basic functions of the scientific calculator for electricians	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	LEC 1.5 1.5 1.5
ABA179	Installing and Sizing Water Supply Piping	Connecting piping to a water main. Plumbing connections to buildings and air and hydrostatic testing of water supply piping. Operation and installation of water heaters. Types, operation and installation of water meters. Installation of water supply systems to given structures. Effects of valves, fittings and piping on water pressure. Calculations of pressure drop and sizing procedures for water supply piping. Principles of	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	LEC 3.0 3.0 3.0

		back siphonage and backflow prevention		
ABA192	Plumbing Level I	History of plumbing, modern plumbing, safety, human relations, and construction career opportunities. Hand and power tool safety, use, and maintenance. Plumbing drawings, components, and symbols. Materials, schedules for plastic, copper, and cast-iron. Fittings, valves, hangers, and supports. Measuring, cutting, reaming, and joining pipe. Safety precautions for installation, operation and maintenance. Fixtures and faucets. Drain, waste, and vent systems. Water distribution systems.	Prerequisites: None.	L+L 3.0 3.0 3.0
ABA204	Contactors and Relays	Operating principals of contactors and relays. Function in an electrical system. Operation and installation of specific contactors and relays. Interpretation of wiring diagrams. Connect and test a simple control circuit	Prerequisites: None.	LEC 1.0 1.0 1.0
ABA207	Construction Trades: Green Environment	Daily activities at work and at home that affect green environment. Leadership in Energy and Environmental Design (LEED) rating process. Carbon footprint and ways to reduce it. Construction of buildings that affect green environment. Application of principles of green building rating system.	Prerequisites: Registered apprenticeship status or permission of Apprenticeship Coordinator.	LEC 1.0 1.0 1.0
ABA222	Introduction to Welding, Brazing and Cutting	Arc welding theory and safety hazards. AC, DC and AC-DC welding machines. Use of electrodes and safety requirements for arc-welding. Basic welding techniques and gas metal-arc and gas tungsten-arc welding processes. Brazing and cutting using an oxyacetylene torch.	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	L+L 2.0 3.0 3.0
ABA232	Electrical V	The course content includes Load Calculations - Branch and Feeder Circuits, Conductor Selection and Calculations, Overcurrent Protection, Raceways/Wiring/Devices and Boxes, Voice/Data and Video.	Prerequisites: Registered apprenticeship status or permission of Apprenticeship Coordinator.	L+L 6.0 6.0 6.0
ABA234	Electrical VI	Theories and concepts in distribution equipment, transformers, and commercial electrical services. Emphasis on motor calculations and voice/data and video. Operation of motor controls.	Prerequisites: Registered apprenticeship status or permission of Apprenticeship Coordinator.	L+L 6.0 6.0 6.0
ABA242	Electrical VII	Principles of course load calculations, feeder and services and specialty transformers. Selection of standby and emergency systems. Emphasis on basic electronic theory, fire alarm systems and health care facilities.	Prerequisites: Registered apprenticeship status or permission of Apprenticeship Coordinator.	L+L 6.0 6.0 6.0
ABA244	Electrical VIII	Principles of heating, ventilation, and air conditioning (HVAC) controls and heat tracing. Use and control of freeze	Prerequisites: Registered apprenticeship status or	L+L 6.0 6.0 6.0

		protection. Basics in motor operation and maintenance. Focus on medium-voltage terminations/splices and special locations. Fundamentals of Crew Leadership.	permission of Apprenticeship Coordinator.	
ABA251	High Voltage Termination and Splicing	Terminations and splices in high voltage systems (600+ volts). Identifying and splicing specific types of cables and making terminations. Includes using splicing kits and following manufacturer's specifications. Testing techniques and calculations	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	LEC 1.0 1.0 1.0
ABA255	Commercial, Industrial and Special Lighting	Operating characteristics of incandescent, fluorescent and high intensity discharge lamps. Lighting controls and fixture installations. Blueprint reading exercise for commercial and industrial installations. Lighting requirement calculations. National Electrical Code (NEC) requirements for specialty lighting fixtures	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	LEC 0.5 0.5 0.5
ABA298AA	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development.	Prerequisites: Permission of Program Director or Instructor.	LAB 1.0 1.0 0.0
ABA298AB	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development.	Prerequisites: Permission of Program Director or Instructor.	LAB 2.0 2.0 0.0
ABA298AC	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development.	Prerequisites: Permission of Program Director or Instructor.	LAB 3.0 3.0 0.0
ABC118	OSHA Standards and Regulations	Provisions of and implementation of Occupational Safety and Health Administration (OSHA) Act in the work place. Rights and responsibilities under	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	L+L 1.5 1.5 1.5

		the OSHA Act. Appeals process, record keeping, and voluntary protection programs. OSHA's construction and general industry standards. Overview of the requirements of the more frequently referenced standards.		
ABC119	Basic Safety	Overview of safety rules and procedures for working on construction job sites	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	LEC 1.0 1.0 1.0
ABC120	Basic Calculations for Construction	Addition, subtraction, multiplication and division of whole, decimal, fraction and metric numbers. Percentage and fraction conversions. Metric units of length, weight, volume and temperature. Metric system as it relates to the construction trade. Basic algebra and geometry operations and equations. Area and volume calculations of shapes.	Prerequisites: None.	L+L 1.5 1.5 1.5
ABC121	Introduction to Hand and Power Tools	Overview of the use, maintenance and safety procedures for common hand and power tools.	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	LEC 1.0 1.0 1.0
ABC122	Rigging Safety and Equipment	Rigging safety, equipment and inspection. Includes crane hand signals, common rope knots, types of derricks and cranes and safety procedures for rigging and moving materials and equipment	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	LEC 1.0 1.0 1.0
ABC123	Introduction to Construction Drawings	Basic concepts of construction drawings, including terms and symbols. Drawing interpretation, use of drawing dimensions and recognition of drawing classifications.	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	L+L 0.5 0.5 0.5
ABC124	Conduit Bending	Types of conduit benders and bends. Conduit bending procedures and use of bends in conduit systems	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	LEC 1.0 1.0 1.0
ABC126	Electrical Test Equipment	Selection, inspection, use and maintenance of common electrical test equipment	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	LEC 1.0 1.0 1.0
ABC130	Conductor Installation/Termination	Transportation, storage and setup of cable reels, methods of rigging and procedures for installing conductors using cable pulls in raceways and cable trays. Also methods of terminating and splicing conductors	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	L+L 1.0 1.0 1.0
ABC131	Cable Tray Installation	National Electrical Manufacturer's Association (NEMA) and National Electrical Code (NEC) requirements for cable tray modified installation and cable installation procedures.	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	L+L 0.5 0.5 0.5
ABC132	Circuit Breakers and Fuses	National Electrical Code (NEC) requirements, Ground Fault Circuit Interrupters (GFCI), overcurrents, fuse	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	L+L 1.0 1.0 1.0

		sizing, safety techniques and short-circuit calculations.		
ABC133	Basic Lighting	Principles of illumination and specific light sources. Includes practical applications for residential, commercial and industrial installations	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	L+L 1.0 1.0 1.0
ABC135	Fundamentals of Concrete	Materials used to make concrete, including specific types of cement, aggregate, admixtures and reinforcing materials. Handling procedures for concrete, conveying and placing concrete and finishing techniques for concrete slab. Construction of foundations and formwork	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	LEC 1.0 1.0 1.0
ABC136	Roof Systems	Defining roof terminology. Identifying and understanding specific roof systems. Using the framing square and essex scale to calculate and measure specific types of rafters. Transcribing and transferring measurements onto rafters. Using "speed square" to determine measurements for specific types of rafters. Defining unequal roof pitch. Identifying specific types of plank and beam roofs and roof trusses used in the industry today.	Prerequisites: (Registered apprentice status and a grade of C or better in ABC/MEC/PNT120) or permission of the Apprenticeship Coordinator.	LEC 1.0 1.0 1.0
ABC142	Alternating Current	Production of electricity, including; current, voltage, induction, mutual inductance and capacitance. Calculations using Ohms Law. Operation of a three phase system.	Prerequisites: (Registered apprentice status and a grade of C or better in ABC/MEC/PED120) or permission of the Apprenticeship Director.	LEC 1.0 1.0 1.0
ABC143	Motors: Theory and Application	Overview of electric motors including types, operation, and applications. Assembly and disassembly. Mounting and connections according to National Electrical Code (NEC). Also troubleshooting, installation and handling	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	LEC 2.0 2.0 2.0
ABC144	Grounding	Types of grounding and proper installation of grounds and grounding. OSHA and National Electrical Code (NEC) requirements specific to grounding. Purpose and operation of Ground Fault Circuit Interrupters (GFCI). Effects of soils and environment. Selection of grounds and grounding material for specific situations. Testing grounds with a "megger"	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	LEC 1.0 1.0 1.0
ABC221	Motors and Motor Controls	Electrical symbols, line diagrams and logic. Contactors and starters, control devices, reversing circuits and power distribution systems. Electronic control devices, programmable controllers, reduced voltage starters, accelerating and decelerating methods and circuits. Preventive maintenance and trouble shooting	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	L+L 3.0 3.0 3.0

ABC222	Hazardous Locations-Electrical	Hazardous location classifications. Equipment approved for use in specific hazardous locations. Wiring methods	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	LEC 1.0 1.0 1.0
ABC226	Raceways, Wiring Devices, Boxes and Fittings	Sizing, selecting, and installing raceways, junction boxes, outlet boxes and wiring devices. Calculating fill requirements according to National Electrical Code (NEC) regulations. Calculating bending radii in boxes and cabinets. Types and purpose of wiring devices and calculating maximum loads on such devices	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	LEC 1.5 1.5 1.5
ABC230	Stair Construction	Stair parts, materials and types. Stair dimensions and practical techniques for stair layout. Rough forming methods.	Prerequisites: (Registered apprentice status and a grade of C or better in ABC/MEC/PNT120) or permission of the Apprenticeship Coordinator.	LEC 1.0 1.0 1.0
ABC231	Exterior Wall Finishes	Exterior wall finish work; placement and hanging of windows, siding and flashing for walls. Installation of floors, chimneys and insulation included	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	LEC 3.0 3.0 3.0
ABC256	Basic Plumbing	Plumbing fixtures, drainage fixture unit ratings, and installation procedures. Includes procedures for installing fixtures, water heaters, shower and bath units, and dishwashers. Safety stressed.	Prerequisites: None.	L+L 4.0 4.0 4.0
ABC298AA	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development.	Prerequisites: Permission of Program Director or Instructor.	LAB 1.0 1.0 0.0
ABC298AB	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development.	Prerequisites: Permission of Program Director or Instructor.	LAB 2.0 2.0 0.0
ABC298AC	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized	Prerequisites: Permission of Program Director or Instructor.	LAB 3.0 3.0 0.0

		learning to be combined to maximize student development.		
ABS171	Introduction to Good Manufacturing Practices(GMP)-Regulated Manufacturing	Course is designed to provide individuals with an overview of Good Manufacturing Practices (GMP), their application in a variety of industries and the opportunities for in such fields.	Prerequisites: None.	LEC 3.0 3.0 3.0
ABS173	Basic Instrumentation and Lab Math	Introductory course covering basic equipment, measurements, and calculations used in biotechnology laboratories.	Prerequisites: None. BIO156 or BIO181 recommended.	LEC 1.0 1.0 1.0
ABS174	BioSafety	General laboratory safety, hazardous chemical use and disposal, biohazardous material use and disposal, biosafety procedures, and radiation safety.	Prerequisites: None.	LEC 1.0 1.0 1.0
ABS175	Research Methods in Biology	Fundamentals of planning and conducting biological experiments, including ones that simultaneously vary multiple experimental variables. Subsequent analysis, interpretation, and reporting of results.	Prerequisites: None. BIO156 or BIO181 recommended.	L+L 1.0 2.0 2.0
ABS274	Introduction to Wildlife Management	Introduction to the field of wildlife biology/management and the legal, cultural, ecological, and population dynamics of wildlife biology and management. Covers wildlife management objectives, management techniques, research techniques, and the organizational environment that wildlife biologists work in; provides an overview of careers in the field and guidance in planning a career.	Prerequisites: High school biology with a grade of C or better or a grade of C or better in BIO100 or BIO181 or permission of Instructor.	LEC 4.0 3.0 3.0 LAB 0.0 3.0 3.0
ACC105	Payroll, Sales and Property Taxes	Tax reporting for payroll, sales, and personal property	Prerequisites: None.	LEC 3.0 3.0 3.0
ACC107	Bookkeeping Theory and Practice	Fundamental accounting practices; application to retail stores, professional firms, and personal service operations.	Prerequisites: None.	L+L 4.0 5.0 5.0
ACC109	Accounting Concepts	Introduction to accounting with emphasis on analysis and applications of financial information.	Prerequisites: None. GBS151 and reading ability equivalent to RDG100 or RDG100LL suggested but not required.	LEC 3.0 3.0 3.0
ACC110	Understanding and Using Accounting Systems	Develops basic comprehension of the balance sheet, income statement, and equity and cash flow statements. Explores usage of specialized journals and subsidiary ledgers in a computerized system. Studies the impact of various transactions on an enterprise, including payroll, receivables, payables, inventory, cash and credit card receipts	Prerequisites: None.	L+L 3.0 3.0 3.0
ACC111	Accounting Principles I	Fundamental theory of accounting principles and procedures	Prerequisites: None.	LEC 3.0 3.0 3.0
ACC112	Accounting Principles II	Continuation of the fundamental theory of accounting principles and	Prerequisites: A grade of C or better in ACC111 or	LEC 3.0 3.0 3.0

		procedures, including interpretation of general purpose financial statements.	permission of Department or Division.	
ACC115	Computerized Accounting	Understanding of fundamental accounting principles and mastery of an accounting information systems including the general ledger, accounts receivable, accounts payable and payroll.	Prerequisites: None.	L+L 3.0 3.0 3.0
ACC121	Individual Tax Preparation	Theory and practice of accounting for individual taxation.	Prerequisites: None.	L+L 3.0 3.0 3.0
ACC211	Financial Accounting	Introduction to theory and practice in the preparation and interpretation of general purpose financial statements.	Prerequisites: None.	LEC 3.0 3.0 3.0
ACC212	Managerial Accounting	Development and analysis of accounting information for managerial planning and control	Prerequisites: A grade of C or better in (ACC111 and ACC112) or ACC211 and (CIS105 or permission of Department or Division).	LEC 3.0 3.0 3.0
ACC215	Governmental and Not-For-Profit Accounting	Theories and procedures of accounting for governmental and not-for-profit organizations.	Prerequisites: A grade of C or better in ACC112 or ACC211, or permission of Department or Division.	LEC 3.0 3.0 3.0
ACC216	Fraud Examination	Fundamental theory of fraud examination methodology to detect and prevent accounting fraud.	Prerequisites: A grade of C or better in (ACC230 or ACC112 or ACC211) or permission of Department or Division.	LEC 3.0 3.0 3.0
ACC219	Intermediate Accounting I	Continuation of the theory and practice of financial accounting, applicable to assets, liabilities, equity related problems of income determination and financial reporting.	Prerequisites: A grade of C or better in ACC212 or ACC240 or permission of Department or Division.	LEC 3.0 3.0 3.0
ACC220	Intermediate Accounting II	Continuation of the theory and practice of financial accounting, applicable to assets, liabilities, equity determination of asset values, liabilities, and related problems of income determination, special topics and financial reporting.	Prerequisites: A grade of C or better in ACC219 or permission of Department or Division.	LEC 3.0 3.0 3.0
ACC221	Tax Accounting	Theory and practice of accounting for personal, corporate, and non-corporate taxation.	Prerequisites: A grade of C or better in ACC111 or ACC211 or permission of Department or Division.	LEC 3.0 3.0 3.0
ACC222	Payroll Accounting	Payroll records for businesses required by federal and state laws	Prerequisites: A grade of C or better in ACC111 or ACC211 or permission of Department or Division.	LEC 3.0 3.0 3.0
ACC224	Tax Practice Administration and Business Entity Analysis	Federal income tax representation, practices, and procedures, including trust and estate income tax, exempt organizations, and retirement plans.	Prerequisites: A grade of C or better in ACC121 or ACC221.	LEC 3.0 3.0 3.0
ACC230	Uses of Accounting Information I	Introduction to the uses of accounting information for internal and external purposes with emphasis on financial statement analysis.	Prerequisites: A grade of C or better in ACC111 or ACC211 or (ENG101 and MAT151 and CRE101) or appropriate test scores on the District English, Reading and Math placement exams.	LEC 3.0 3.0 3.0

ACC240	Uses of Accounting Information II	Introduction to the uses of accounting information for internal and external purposes with emphasis on analysis for use by management.	Prerequisites: A grade of C or better in ACC230.	LEC 3.0 3.0 3.0
ACC250	Introductory Accounting Lab	Procedural details of accounting for the accumulation of information and generation of reports for internal and external users.	Prerequisites: None.	LAB 1.0 3.0 3.0
ACC260	Certified Bookkeeper (CB) Preparation	Fundamental accounting practices including accrual and deferral adjustments, correcting common transaction recording errors, bank reconciliations and adjusting entries. Includes payroll accounting and related Federal and State payroll law requirements. Accounting for depreciation for financial and tax accounting purposes covered. Inventory valuation methods. Includes calculating, recording, and reporting under generally accepted accounting principles (GAAP). Preventive internal control procedures to detect organizational fraud, theft, and embezzlement covered.	Prerequisites: A grade of C or better in ACC111 or ACC211 or (bookkeeping experience and permission of Instructor).	LEC 3.0 3.0 3.0
ACC270AA	Accounting Internship	Accounting work experience in a business or industry. Eighty hours of designated work per credit per semester.	Prerequisites: Permission of Department or Division.	LAB 1.0 1.0 0.0
ACC270AB	Accounting Internship	Accounting work experience in a business or industry. Eighty hours of designated work per credit totaling 160 hours per semester.	Prerequisites: Permission of Department or Division.	LAB 2.0 2.0 0.0
ACC270AC	Accounting Internship	Accounting work experience in a business or industry. Eighty hours of designated work per credit totaling 240 hours per semester.	Prerequisites: Permission of Department or Division.	LAB 3.0 3.0 0.0
ACC282AA	Volunteerism Accounting: Service Learning Experience	Service learning field experience within private/public agencies, educational institution, and citizen volunteer groups.	Prerequisites: A grade of C or better in ACC111 or (ACC230 and ACC250) and permission of Instructor.	LAB 1.0 1.0 0.0
ACC282AB	Volunteerism Accounting: Service Learning Experience	Service learning field experience within private/public agencies, educational institution, and citizen volunteer groups.	Prerequisites: A grade of C or better in ACC111 or (ACC230 and ACC250) and permission of Instructor.	LAB 2.0 2.0 0.0
ACC282AC	Volunteerism Accounting: Service Learning Experience	Service learning field experience within private/public agencies, educational institution, and citizen volunteer groups.	Prerequisites: A grade of C or better in ACC111 or (ACC230 and ACC250) and permission of Instructor.	LAB 3.0 3.0 0.0
ACC296WA	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 3.0 3.0 0.0

ADA102	Advertising Production Methods	Production procedures for publications and other print media. Layout and sizing ads, type specification, meeting deadlines, proofreading symbols, and mechanical separation for color and tone. Practice with copy proofs and camera-ready pasteups	Prerequisites: None.	L+L 3.0 4.0 4.0
ADA109	Cartooning Methods	Production of cartoon drawing suitable for reproduction and submission to publishers. Introduction to greeting card design, editorial cartooning, comic strips and other uses of cartoons	Prerequisites: None.	L+L 3.0 4.0 4.0
ADA114	Graphics Printing Processes	Printing methods, skill development in planning and layout, composition methods, proofing and correction, color process, image carrier preparation.	Prerequisites: None.	L+L 3.0 4.0 4.0
ADA169	2D Media Design	Generation of two-dimensional (2D) images, designs, and media using digital and traditional methods of visual problem solving. Understanding digital and design-based techniques and workflows.	A grade of C or better required in all Prerequisites. Prerequisites or Corequisites: ART100 or permission of Instructor.	L+L 3.0 6.0 6.0
ADA175	Electronic Publishing Design I	Introduction to the multiple elements of commercial publishing using the microcomputer. Basic foundation in the use of electronic page layout techniques. Emphasis on publication design layout and concepts.	Prerequisites: A grade of C or better in ART100 or Corequisites: ART100 or permission of Instructor.	L+L 3.0 6.0 6.0
ADA177	Digital Photographic Imaging I	Introduction to multiple elements of digital imaging. Basic foundation in photographic manipulation of images, with special attention to aesthetic foundations underlying photographic composition.	A grade of C or better required in all Prerequisites. Prerequisites or Corequisites: ART100 or permission of Instructor.	L+L 3.0 6.0 6.0
ADA183	Digital Graphic Arts I	Graphic design use in microcomputer; black and white graphics, standard and color brushes, lines, shapes, area fills and fonts. Application to illustration, advertising graphics, typography, and video interaction.	A grade of C or better required in all Prerequisites. Prerequisites or Corequisites: ART100 or permission of Instructor.	L+L 3.0 6.0 6.0
ADA184	Digital Animation I	The art of animation (animated sequences, special effects, titles, etc.) using the computer. Construction characters, background graphics, color, scaling, storyboard, cells, timing, editing, and surface rendering. Screening and discussion of selected animated short films and videos.	Prerequisites: A grade of C or better in (ART111 or ART116) or permission of Instructor. Corequisites: ART100 or permission of Instructor.	L+L 3.0 6.0 6.0
ADA203	Creative Design for Advertising	Focuses on the design and production of advertisement layouts and visual marketing campaigns for digital, mobile, and social channels which drive business objectives. Emphasis on terminology, analysis, and critique of advertising design, campaign methods, techniques, and the use of video across digital, mobile, and social channels.	Prerequisites: None.	L+L 3.0 6.0 6.0

ADA248	Design Self Promotion	Defining career goals, and developing a self-promotional marketing plan to enter the workplace, including a resume, business card, leave behind, social media presence, interactive portfolio and printed portfolio. Understand business ethics and etiquette, artist's rights, copyright laws and contractual agreements, and develop networking, interview and communication skills.	Prerequisites: None.	L+L 3.0 6.0 6.0
ADA283	Digital Graphic Arts II	Advanced skill development of graphic design through use of microcomputer. Emphasis on computer design and techniques for producing all types of camera-ready advertising art for printed matter and package design. Includes illustration, typography, photo imaging, and color separation.	Prerequisites: A grade of C or better in ADA/ART183 or permission of Instructor.	L+L 3.0 6.0 6.0
ADA289	Computer Illustration	Introduction to the multiple elements of commercial illustration using the microcomputer. Basic foundation in the use of computer techniques including color paint and draw programs for the production of commercial illustrations for publications and printed matter. Use of and output devices.	Prerequisites: A grade of C or better in ART100 or Corequisites: ART100 or permission of Instructor.	L+L 3.0 6.0 6.0
ADA298AA	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment are made available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 1.0 1.0 0.0
ADA298AB	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment are made available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. ADA298AC	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment are made available for student use. Allows the best aspects of independent study and	Prerequisites: Permission of Program Director or Instructor.	LAB 3.0 3.0 0.0

		individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE		
AEN102	Fundamentals of Facility Energy Management	Process of evaluation of types of energy use. Evaluation of the structure, energy transfer, lighting, heating, and cooling systems. Introduction to basic thermal process, including thermal capacity, heat transfer modes, psychometric charts, fan and pump laws, energy storage, and other factors related to HVAC and occupant comfort in commercial facilities. Includes an introduction to energy generation, construction and equipment, and the impact of these factors on cost and economic justification.	Prerequisites: None.	LEC 4.0 4.0 4.0
AEN103	Hand Tools and Basic Maintenance for Building Energy Technicians	Basic tools and equipment for the building energy technician. Includes an overview of electrical theory and procedures for measurement and evaluation of common electric circuits, specific heating, ventilation, and air conditioning (HVAC) mechanical hardware devices, analysis of building environmental conditions, and safe procedures for starting and stopping equipment and systems. Also addresses basic repair and replacement of electric outlets, fuses, breakers, filters, and necessary diagnostics on related electrical and mechanical items.	Prerequisites: None.	L+L 4.0 4.0 4.0
AEN142	Introduction to Energy Management	Introduction to building energy management concepts and procedures. Includes the carbon cycle, building envelope and materials of construction in their relation to energy management, occupant comfort, and indoor air quality. Major emphasis on identification of building system components, relations, interactions and basic operation, evaluation and reporting of energy trending and consumption, and efficiency.	Prerequisites: A grade of C or better in AEN102, AEN103 and CNS182.	L+L 3.0 3.0 3.0
AEN190	Device Interface and Selection	Overview of building management systems, components, and controls. Includes energy consumption basics and measurement in addition to building systems evaluation. Also covers the process for evaluation and documentation of systems as well as recommendations for potential energy conservation.	Prerequisites: A grade of C or better in AEN142 and (MAT112 or MAT122).	L+L 3.0 5.0 5.0
AES101	Air Force Today I	Survey course designed to introduce students to the United States Air Force and Air Force Reserve Officer Training Corps (AFROTC). Featured topics include: mission and organization of the Air Force, officership and	Prerequisites: None.	LEC 2.0 1.0 0.0 LAB 0.0 1.0 0.0

		<p>professionalism, military customs and courtesies, Air Force officer opportunities, group leadership problems, and an introduction to communication skills. The Leadership Laboratory component provides dynamic and integrated grouping of leadership developmental activities designed to meet the needs and expectations of prospective Air Force second lieutenants and complement the AFROTC academic program. Emphasizes common Air Force customs and courtesies, drill and ceremonies, health and physical fitness through group participation.</p>		
AES103	Air Force Today II	<p>Introduce students to the United States Air Force and encourage participation in Air Force Reserve Officer Training Corps (AFROTC). Featured topics include: introduction to leadership, Air Force core values, introduction to interpersonal communication and team building, and a continuation of communication skills. The Leadership Laboratory component provides dynamic and integrated grouping of leadership developmental activities designed to meet the needs and expectations of prospective Air Force second lieutenants and complement the AFROTC academic program. Emphasizes learning the environments and dynamics of an Air Force officer.</p>	<p>Prerequisites: None.</p>	<p>LEC 2.0 1.0 0.0 LAB 0.0 1.0 0.0</p>
AES201	Evolution of USAF Air and Space Power I	<p>Focuses on facilitating the transition from Air Force ROTC cadet to Air Force ROTC candidate. Examines the general aspects of air and space power through a historical perspective. Utilizing this perspective, covers a time period from the first balloons and dirigibles to the modern technology currently used in overseas contingency operations. Featured topics include: Air Force heritage, Air Force leaders, introduction to ethics and values, group leadership problems and continuing application of communication skills. The Leadership Laboratory component provides dynamic and integrated grouping of leadership developmental activities designed to meet the needs and expectations of prospective Air Force second lieutenants and complement the AFROTC academic program. Provides application of advanced drill and ceremonies; issuing commands; knowing flag etiquette; and developing, directing, and evaluating skills to lead others.</p>	<p>Prerequisites: None.</p>	<p>LEC 2.0 1.0 0.0 LAB 0.0 1.0 0.0</p>

AES203	Evolution of USAF Air and Space Power II	<p>Provides knowledge-level understanding for general element and employment of air and space power. Furthermore, discusses the importance of Air Force Core Values with use of operational examples and historical Air Force leaders. Continues to develop communication skills. Topics include: the Air Force mission and organization, modern joint expeditionary Airmen, officer opportunities, and professionalism. The Leadership Laboratory component provides dynamic and integrated grouping of leadership developmental activities designed to meet the needs and expectations of prospective Air Force second lieutenants and complement the AFROTC academic program. Emphasizes preparation for field training.</p>	Prerequisites: None.	LEC 2.0 1.0 0.0 LAB 0.0 1.0 0.0
AES294	Air Force Physical Fitness	Physical training component of Air Force ROTC. Covers topics of immediate or special interest to a faculty member and students.	Prerequisites: None.	L+L 1.0 3.0 0.0
AES298AA	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: None.	LAB 1.0 1.0 0.0
AES298AB	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: None.	LAB 2.0 2.0 0.0
AES298AC	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment are made available for student use. Allows the best aspects of independent study and individualized learning to be combined	Prerequisites: None.	LAB 3.0 3.0 0.0

		to maximize student development. COMMON COMPETENCY COURSE		
AET107	Private Pilot Ground School	Ground school in preparation for the Federal Aviation Administration (FAA) Private Pilot Certificate written examination. Includes aerodynamics, airplane systems, airports, airspace, communications, Federal Air Regulations, navigation, airplane performance, flight planning, and flight physiology. Requires passing a written exam similar to the FAA Private Pilot written exam.	Prerequisites: None. Corequisites: AET110 or AET112.	LEC 5 5 5
AET107HH	Private Pilot Ground School: Helicopter	Ground school in preparation for the Federal Aviation Administration (FAA) Private Pilot Certificate written examination. Includes aerodynamics, helicopter systems, airports, airspace, communications, Federal Air Regulations, navigation, helicopter performance, flight planning, and flight physiology. Requires passing a written exam similar to the FAA Private Pilot written exam.	Prerequisites: None. Corequisites: AET110HH.	LEC 5.0 5.0 5.0
AET110	Private Pilot Flight	Flight course in preparation for the Federal Aviation Administration (FAA) Private Pilot Certificate practical examination. Includes preflight preparation and planning, ground operations, airport operations, departures, navigation, basic instrument flight, night flight, slow flight, ground reference maneuvers, emergency operations, and arrivals. Approximately 50 hours airplane flight experience at student's expense required. Requires passing check ride similar to the FAA Private Pilot check ride.	Prerequisites: None. Corequisites: AET107.	LAB 1.0 5.0 5.0
AET110HH	Private Pilot Flight: Helicopter	Flight course in preparation for the Federal Aviation Administration (FAA) Private Pilot Certificate practical examination. Includes preflight preparation, preflight procedures, airport and heliport operations, hovering maneuvers, takeoffs, landings, and go-rounds, performance maneuvers, navigation, emergency operations, night operations, and post-flight procedures. Approximately 75-85 hours helicopter flight experience at student's expense required. Requires passing check ride similar to the FAA Private Pilot check ride.	Prerequisites: None. Corequisites: AET107HH.	LAB 2.0 5.0 5.0
AET112	Private Pilot Flight - Test Course	Flight course in preparation for transition into continued AET course work. Includes preflight preparation and planning, ground operations, airport operations, departures, navigation, basic instrument flight, slow flight,	Prerequisites: FAA Private Pilot Airplane Single-Engine Land or advanced certification. Corequisites: AET107.	LAB 1.0 5.0 5.0

		ground reference maneuvers, emergency operations, and arrivals. Requires passing check ride similar to the Federal Aviation Administration Private Pilot check ride.		
AET115	Aviation Meteorology	Meteorology for professional pilots. Includes atmosphere, air mass circulation, cloud type identification, weather hazards, and high altitude, Arctic, and tropical weather systems. Basic forecasting, use of Direct User Access Terminal (DUAT) systems and reading and interpreting weather charts	Prerequisites: None.	LEC 3.0 3.0 3.0
AET203	Basic Airplane Systems	Beginning commercial pilot ground course in preparation for the Federal Aviation Administration (FAA) Commercial Pilot Certificate and Commercial written examination. Discussions will include, but not be limited to reciprocating engines, engine systems, airplane systems, altitude systems, and commercial regulations.	Prerequisites: A grade of C or better in (AET207, AET217, and AET210) or permission of Instructor. Corequisites: AET222.	LEC 3.0 3.0 3.0
AET203HH	Basic Helicopter Systems	Beginning commercial pilot ground course in preparation for the Federal Aviation Administration (FAA) Commercial Pilot Certificate and Commercial written examination. Discussions will include, but not be limited to reciprocating engines, engine systems, helicopter systems, altitude systems, and commercial regulations.	Prerequisites: A grade of C or better in AET207HH, AET217HH and AET210HH or permission of Instructor. Corequisites: AET220HH and AET213HH.	LEC 2.0 2.0 2.0
AET205	Aircraft Structures, Systems, and Maintenance	Survey of airframe structures, systems, and maintenance regulations for pilots. Includes aircraft and airfoil design and construction, and electrical, instrumentation, and automatic flight control systems. Maintenance privileges and limitations, and forms and records	Prerequisites: Private Pilot Certificate or permission of Instructor.	LEC 4.0 4.0 4.0
AET207	Attitude Instruments and Navigation	Beginning instrument pilot ground course in preparation for the Federal Aviation Administration (FAA) Instrument Pilot Rating and Instrument Rating written examinations. Includes preflight preparation, flight instruments, basic attitude instrument flying, radio navigation systems, and technically advanced aircraft systems.	Prerequisites: A grade of C or better in AET110 or permission of Instructor. Corequisites: AET210, AET217 and AET220	LEC 3.0 3.0 3.0
AET207HH	Attitude Instruments and Navigation: Helicopter	Beginning instrument pilot ground course in preparation for the Federal Aviation Administration (FAA) Instrument Pilot Rating and Instrument rating written examinations. Includes preflight preparation, flight instruments, basic attitude instrument flying, radio navigation systems, and technically advanced helicopter systems.	Prerequisites: A grade of C or better in AET110HH or permission of Instructor. Corequisites: AET210HH and AET217HH.	LEC 2.0 2.0 2.0
AET208	Aviation Safety	Introduction to aviation safety, including aviation safety programs, risk management, pilot psychology,	Prerequisites: A grade of C or better in AET107 or permission of Instructor.	LEC 3.0 3.0 3.0

		physiology, human factors, and accident review and investigation.		
AET210	Commercial Flight Lab I	Initial flight course in preparation for the Federal Aviation Administration (FAA) Commercial Pilot practical examination. Emphasis on instrument and technically advanced aircraft operations. Student must fly approximately 10 hours at own expense. Requires passing operational stage checks similar to the FAA check rides.	Prerequisites: A grade of C or better in AET110 or permission of Instructor. Corequisites: AET207, AET217 and AET220.	LAB 1.0 5.0 5.0
AET210HH	Instrument Flight: Helicopter	Initial helicopter flight course in preparation for the Federal Aviation Administration (FAA) Instrument rating practical examination. Emphasis on helicopter instrument operations. Student must fly approximately 75 hours at own expense. Requires passing operational phase checks.	Prerequisites: A grade of C or better in AET110HH or permission of Instructor. Corequisites: AET207HH and AET217HH.	LAB 2.0 5.0 5.0
AET213	Aerodynamics and Performance	Advanced commercial pilot ground course in preparation for the Federal Aviation Administration (FAA) Commercial Pilot Certificate and Commercial written examinations. Includes discussion of aerodynamic factors including lift, weight, drag, and thrust. Discussions will include, but are not limited to aerodynamics, performance, safe and efficient airplane operations, airplane stability and control, stalls, and spins.	Prerequisites: A grade of C or better in AET207, AET217, and AET210. Corequisites: AET221.	LEC 3.0 3.0 3.0
AET213HH	Aerodynamics and Performance: Helicopter	Advance commercial pilot ground course in preparation for the Federal Aviation Administration (FAA) Commercial Pilot Certificate and Commercial written examinations. Includes discussion of aerodynamic factors including lift, weight, drag, and thrust. Discussions will include, but are not limited to aerodynamics, performance, and safe and efficient helicopter operations.	Prerequisites: A grade of C or better in AET207HH, AET217HH, and AET210HH. Corequisites: AET220HH and AET203HH.	LEC 2.0 2.0 2.0
AET215	Aircraft Powerplants	Survey of engines and engine systems for pilots. Includes theory and analysis of reciprocating and turbine aircraft engines. Lubrication, ignition, fuel control, cooling, exhaust, and propellers.	Prerequisites: A grade of C or better in AET205 or permission of Instructor.	LEC 4.0 4.0 4.0
AET217	Instrument Procedures	Advanced instrument pilot ground school course in preparation for the Federal Aviation Administration (FAA) Instrument pilot rating and Instrument rating written examinations. Includes Federal Aviation Regulations, instrument approach procedures, and instrument enroute considerations. Requires passing written exam similar to the Instrument pilot rating and Instrument rating written exams.	Prerequisites: A grade of C or better in AET110 or permission of Instructor. Corequisites: AET207, AET210 and AET220.	LEC 3.0 3.0 3.0

AET217HH	Instrument Procedures: Helicopter	Advance helicopter instrument pilot ground school course in preparation for the Federal Aviation Administration (FAA) Instrument pilot rating and Instrument rating written examinations. Includes Federal Aviation Regulations, instrument approach procedures, and instrument enroute considerations. Requires passing written exams similar to the Instrument pilot rating and Instrument rating written exams.	Prerequisites: A grade of C or better in AET110HH or permission of Instructor. Corequisites: AET210HH and AET207HH.	LEC 2.0 2.0 2.0
AET220	Instrument Flight Lab	Flight course in preparation for the Federal Aviation Administration (FAA) Instrument rating practical examination. Emphasis on instrument operations. Student must fly approximately 40 hours at own expense. Requires passing of stage checks similar to the FAA check ride.	Prerequisites: A grade of C or better in AET110 or permission of Instructor. Corequisites: AET207, AET210 and AET217.	LAB 1.0 5.0 5.0
AET220HH	Commercial Flight: Helicopter	Advanced flight course in preparation for the Federal Aviation Administration (FAA) Commercial Pilot practical examination. Emphasis on commercial and high performance helicopter operations. Student must fly approximately 60 hours at own expense. Requires passing instrument rating and commercial pilot stage checks similar to the FAA check rides.	Prerequisites: A grade of C or better in AET210HH, AET207HH and AET217HH. Corequisites: AET203HH and AET213HH.	LAB 2.0 5.0 5.0
AET221	Commercial Flight Lab II	Intermediate flight course in preparation for the Federal Aviation Administration (FAA) Commercial Pilot practical examination. Emphasis on commercial and solo cross-country flight operations. Student must fly approximately 45 hours at their own expense. Maneuvers and procedures during dual instruction are designed to be performed with flight instructor guidance. Requires passing commercial pilot stage checks similar to the FAA check ride.	Prerequisites: A grade of C or better in AET207 and AET210 or by permission of Instructor. Corequisites: AET213.	LAB 1.0 5.0 5.0
AET222	Commercial Flight Lab III	Advanced flight course in preparation for the Federal Aviation Administration (FAA) Commercial Pilot practical examination. Emphasis on commercial operations. Student must fly approximately 45 hours at their own expense. Maneuvers and procedures are designed to be performed with little flight instructor guidance. Requires commercial pilot stage checks similar to the FAA check ride.	Prerequisites: A grade of C or better in AET221 and AET213. Corequisites: AET203.	LAB 1.0 5.0 5.0
AET225	Advanced Aircraft Systems	Survey of advanced aircraft systems to include electrical, automatic flight control, pressurization, cabin atmosphere, ice control, rain control, fire detection and extinguishing. Includes theory and analysis of turbine aircraft engines. Introduction to turbine engine	Prerequisites: Private Pilot Certificate or permission of Instructor.	LEC 4.0 4.0 4.0

		systems to include lubrication, ignition, fuel control, cooling, exhaust, and propellers. Includes overview of maintenance publications, forms and records.		
AET227	Certified Flight Instructor: Airplane, Single Engine Land Ground School	Ground school in preparation for the Federal Aviation Administration (FAA) Certified Flight Instructor and Fundamentals of Instruction written examinations. Includes fundamentals of instruction, aerodynamics, airplane performance, systems, operations, weight and balance, weather, federal regulations, navigation, maneuvers, pilot physiology, ethics, and aeronautical decision making. Requires passing written exams similar to the FAA Certified Flight Instructor: Airplane, and Fundamentals of Instruction written exams.	Prerequisites: A grade of C or better in AET240 or FAA Commercial Pilot Certificate with instrument rating. Corequisites: AET230.	LEC 5.0 5.0 5.0
AET227HH	Certified Flight Instructor: Helicopter Ground School	Ground school in preparation for the Federal Aviation Administration (FAA) Certified Flight Instructor and Fundamentals of Instruction written examinations. Includes fundamentals of instruction, aerodynamics, helicopter performance, systems, operations, weight and balance, weather, federal regulations, navigation, maneuvers, pilot physiology, ethics, and aeronautical decision making. Requires passing written exams similar to the FAA Certified Flight Instructor: Helicopter, and Fundamentals of Instruction written exams.	Prerequisites: FAA Commercial Pilot Certificate. Corequisites: AET230HH.	LEC 4.0 4.0 4.0
AET229	Crew Resource Management	Crew communications, teamwork, leadership, "followership," decision-making, and situational awareness; also the benefits of diversity, and the role diversity plays in the modern aerospace industry. Emphasis on utilization of all available resources in order to conduct a safe and efficient flight.	Prerequisites: A grade of C or better in AET217 or permission of Instructor.	LEC 3.0 3.0 3.0
AET230	Certified Flight Instructor: Airplane, Single Engine Land Flight Lab	Flight course in preparation for the Federal Aviation Administration (FAA) Certified Flight Instructor: Airplane practical examination. Emphasis on demonstration and analysis of flight maneuvers. Includes preflight, ground operations, airport operations, takeoffs, climbs, flight fundamentals, stalls, spins, slow flight, basic instrument operations, performance maneuvers, ground reference maneuvers, emergency operations, approaches, landings, and post-flight procedures. Requires approximately 25 hours of flight that includes high performance operations at student's expense. Also requires	Prerequisites: A grade of C or better in AET240 or FAA Commercial Pilot Certificate with instrument rating. Corequisites: AET227.	LAB 1.0 3.0 3.0

		passing check ride similar to the FAA Certified Flight Instructor check ride.		
AET230HH	Certified Flight Instructor: Helicopter	Flight course in preparation for the Federal Aviation Administration (FAA) Certified Flight Instructor: Helicopter practical examination. Emphasis on demonstration and analysis of flight maneuvers. Includes preflight procedures, airport and heliport operations, hovering maneuvers, takeoffs, landings, and go-arounds, fundamentals of flight, performance maneuvers, emergency operations, special operations, and postflight procedures. Requires approximately 60 hours of flight at student's expense. Also requires passing check ride similar to the FAA Certified Flight Instructor check ride.	Prerequisites: FAA Commercial Pilot Certificate with instrument rating. Corequisites: AET227HH.	LAB 1.0 3.0 3.0
AET237	Multiengine Airplane Pilot Ground School	Aeronautical knowledge necessary to meet requirements for a multiengine airplane rating including orientation, aerodynamics, airplane systems, airplane performance, flight planning, and emergency procedures.	Prerequisites: A grade of C or better in AET220 or FAA Commercial Pilot Certificate with instrument rating. Corequisites: AET240.	LEC 2.0 2.0 2.0
AET239	Commercial Flight Lab IV	Final flight course in preparation for the Federal Aviation Administration (FAA) Commercial Pilot practical examination. Emphasis on commercial operations. Student must fly approximately 20 hours at their own expense. Maneuvers and procedures are designed to be performed without flight instructor guidance. Requires passing commercial pilot stage check similar to the FAA check ride.	Prerequisites: A grade of C or better in (AET203 and AET222), or by permission of Instructor.	LAB 1.0 5.0 5.0
AET240	Multiengine Airplane Pilot Flight Lab	Flight course in preparation for the Federal Aviation Administration (FAA) Multi-engine Airplane practical examination. Approximately 18 hours of flight experience at the student's expense and passing check ride similar to the FAA Multi-engine check ride are required.	Prerequisites: A grade of C or better in AET239 or FAA Commercial Pilot Certificate with Single Engine Land and Instrument rating. Corequisites: AET237.	LAB 1.0 1.5 1.5
AET257	Readings in Aviation	Critical inquiry of a particular aviation theme from a wide variety of sources. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. International data communication facilities and equipment made available for student use.	Prerequisites: A grade of C or better in ENG102 or ENG111 and permission of Instructor.	L+L 3.0 4.0 4.0
AET258	Certified Flight Instructor: Instrument Airplane Ground School	Aeronautical knowledge and practical teaching ability necessary to obtain an Instrument Flight Instructor Certificate with an Airplane-Single-Engine rating and necessary to satisfactorily pass the Flight Instructor Instrument knowledge test.	Prerequisites: Valid FAA Commercial Pilot Certificate or Airline Transport Pilot Certificate with the appropriate category and class of airplane used in the course, instrument rating,	LEC 3.0 3.0 3.0

			and Flight Instructor Certificate-Airplane. Corequisites: AET270.	
AET270	Certified Flight Instructor: Instrument Airplane Flight Lab	Flight experience in an airplane to meet flight proficiency and aeronautical experience requirements necessary to add an Instrument Airplane Rating to an existing Flight Instructor-Airplane certificate.	Prerequisites: Valid FAA Commercial Pilot Certificate or Airline Transport Pilot Certificate with the appropriate category and class of airplane used in the course, instrument rating, and Flight Instructor Certificate-Airplane. Corequisites: AET258.	LAB 1.0 3.0 3.0
AET296WA	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. COMMON COMPETENCY COURSE	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and be able to obtain a position related to students academic or career goals (students present job may qualify or permission of instructor Corequisites: Must be concurrently enrolled in at least one class which is related to students major or career interest or with permission of Instructor. AFR110	Introduction to African-American Studies	Introduction to the study of the African-American experience. Interdisciplinary approach includes historical underpinnings; population and cultural characteristics; social, economic, and political issues; and implications for the future	Prerequisites: None.	LEC 3.0 3.0 3.0
AFR202	Ethnic Relations in the United States	Basic concepts and processes, including historic overview, of interethnic relations in the United States: culture, race, ethnicity, ethnocentrism, prejudice, discrimination, racism, assimilation, acculturation, and individual and group	Prerequisites: None.	LEC 3.0 3.0 3.0

		responses to interethnic contact. Cultural knowledge and intercultural communication skills and perspectives as fundamental tools for successful management of social relations in a multicultural world.		
AFR203	African-American History: The Slavery Experience	History and cultural heritage of African-Americans, including arrival in the Americas, chattel slavery experience, emancipation, and participation in the American Civil War. Presented from an Afro-centric perspective.	Prerequisites: A grade of C or better in AFR110 or permission of Instructor.	LEC 3.0 3.0 3.0
AFR204	African-American History: Reconstruction to the Present	History and cultural heritage of African-Americans from the Reconstruction period to the present, including the Depression, the Harlem Renaissance, the Civil Rights Movement, and affirmative action. Presented from an Afro-centric perspective.	Prerequisites: A grade of C or better in AFR203 or permission of Instructor.	LEC 3.0 3.0 3.0
AFR207	Black Women	Analysis and discussion of critical issues for Black women in America today	Prerequisites: None.	LEC 3.0 3.0 3.0
AGB130	Establishing and Running an Agribusiness	Basic principles used in establishing and running an Agribusiness. Emphasis on business requirements to maintain a business enterprise in Arizona	Prerequisites: None.	LEC 3.0 3.0 3.0
AGB132	Agribusiness and Management	Application of management principle skills in day-to-day operations for decision-making techniques base on collection, use and analysis of financial, employee, and customer data to determine and evaluate the daily operations of an agribusiness venture.	Prerequisites: None.	LEC 3.0 3.0 3.0
AGB139	Agribusiness Computer Operations	Agribusiness operations for solving, forecasting and projecting agribusiness problems, agribusiness communications, accounting systems and database use.	Prerequisites: None.	L+L 3.0 6.0 6.0
AGB140	Commercial Floral Design	Fundamentals of commercial floral design. Includes instruction and hands-on training in fresh, dried, and silk plants, flowers, and greens; materials; supplies; gift items; and industry conditions, standards, and trends. Covers design principles, identification, selection, care, maintenance, handling, and use of floral design material, ordering, pricing, recordkeeping, computer usage, and customer relations.	Prerequisites: None.	L+L 3.0 5.0 5.0
AGB142	Floriculture	Principles and species of floriculture. Includes instruction in cultural and production requirements of cut flowers and foliage. Covers general production information and basic plant physiology principles, propagation, production temperatures, plant nutrients, pest management, and greenhouse construction and operations.	Prerequisites: None.	L+L 3.0 5.0 5.0

AGB144	Agriculture Processing	Agricultural processing and the meat industry as a business enterprise. Carcass evaluation, grading, judging for cut ability and quality, cut identification, meat cutting, wrapping, freezing, and storing.	Prerequisites: None.	L+L 3.0 5.0 5.0
AGB229	Landscape Management and Leadership	Covers landscape and nursery management concepts and applications for business, industry, and government organizations	Prerequisites: None.	LEC 3.0 3.0 3.0
AGB231	Marketing of Agricultural Products	Principles of agricultural marketing including consumer demand, economic system fundamentals, functions and methods of marketing agricultural commodities, market planning, and promoting and selling in the agricultural domain.	Prerequisites: None.	LEC 3.0 3.0 3.0
AGB260	Youth Leadership Development	Characteristics of effective Career and Technical Student Organization (CTSO) officers, leadership styles and strategies for the management and organization of youth groups in agriculture. Includes instruction and hands-on training in speech/workshop development, budget and activity planning and the use of parliamentary procedure.	Prerequisites: None.	L+L 4.0 6.0 6.0
AGB261	Advanced Youth Leadership Development	Characteristics of effective Career and Technical Student Organization (CTSO) officers, leadership styles and strategies for the management and organization of youth groups in agriculture. Includes instruction and hands-on training in speech/workshop development, budget and activity planning and the use of parliamentary procedure.	Prerequisites: None.	L+L 4.0 6.0 6.0
AGB290	Internship	Supervised field training for Agribusiness students with local industry businesses.	Prerequisites: Student shall be in final semester before graduation and permission of Department or Division.	LAB 3.0 6.0 6.0
AGB296WA	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. COMMON COMPETENCY COURSE	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and be able to obtain a position related to students academic or career goals (students present job may qualify or permission of instructor Corequisites: Must be concurrently enrolled in at least one class which is related to students major or career interest or with permission of Instructor.	LAB 1.0 5.0 0.0
AGB296WB	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. LAB 4.0 20.0 0.0
AGB298AA	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 1.0 1.0 0.0
AGB298AB	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 2.0 2.0 0.0

AGB298AC	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment are made available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 3.0 3.0 0.0
AGL181	Landscape Construction Techniques	The methods used in site preparation, installation of edgings, construction of walks, patios and decks, installation of sprinkler systems, rock scapes and the planting of trees, shrubs, ground covers, and lawns.	Prerequisites: None.	L+L 3.0 6.0 6.0
AGL184	Landscape Drafting and Design I	Basic principles of landscape design, including drafting and design techniques commonly used in the field of landscaping. Emphasis on simple working drawings and detailed views, symbols, lettering, and drafting standards.	Prerequisites: None.	L+L 2.0 4.0 4.0
AGL188	Arizona Landscape Design	Designed for residential homeowner and beginning professional. Emphasis on plant material groupings and basic design principles. History of landscape use, special features of hardscapes, irrigation systems, and lawn-to- desert planting conversion techniques.	Prerequisites: None.	L+L 2.0 3.0 3.0
AGL189	Landscape Design I	Introduction to landscape design with an emphasis on residential and small scale projects. Application of design processes from inventory and analysis through design and development including program, measured base, study diagrams, rendered and colored plans, and sectional elevations. Architectural communication developed through hand sketch and hand drafting techniques with practice in client interview and design presentation.	Prerequisites: None.	L+L 3.0 6.0 6.0
AGL190	Landscape Design II	Advanced study of the principles, processes, and practice of Landscape Design, with an emphasis on residential and small scale design. Design problem-solving, use of landscape elements such as paving, fencing, small structures, low voltage lighting, plants, water and fire features. Construction documents will be produced including plans, estimates, details, and specifications. Regulatory agencies and other affective influences will be explained. Development of personal design philosophy and career exploration.	Prerequisites: A grade of C or better in AGL189 or permission of Instructor.	L+L 3.0 6.0 6.0

AGL269	Computer Aided Landscape Design	Using AutoCAD to create landscape design drawings and wire frames in Sketchup for elevations, sections and perspective sketches.	Prerequisites: A grade of C or better in (AGB139 or CAD100 or CAD101) and AGL189 or permission of Instructor.	L+L 3.0 6.0 6.0
AGL296WA	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. 		animals and plants in a water-based closed system.		LAB 0.0 3.0 3.0
AGS168	Grounds Equipment Management	Selection, use and maintenance of grounds equipment, including both manual and power equipment.	Prerequisites: None.	L+L 3.0 5.0 5.0
AGS170	Pesticides	Chemistry and classification of pesticides. Interpret the use of pesticide labels	Prerequisites: None.	LEC 0.5 0.5 0.5
AGS171	Insect Identification	Concepts of insect identification	Prerequisites: None.	LEC 0.5 0.5 0.5
AGS172	Household Pests	Problems associated with household pests	Prerequisites: None.	LEC 0.5 0.5 0.5
AGS173	Wood Destroying Pests	Problems associated with wood destroying pests	Prerequisites: None.	LEC 0.5 0.5 0.5
AGS174	Regulations: Federal and State	Federal and state pesticide regulations and guidelines for licensing pest control use	Prerequisites: None.	LEC 0.5 0.5 0.5
AGS175	Pesticide Safety and Use of Equipment	Federal and state pesticide safety regulations and use of equipment	Prerequisites: None.	LEC 0.5 0.5 0.5
AGS176	Environment and Toxicology of Pesticides	Environmental concepts, endangered species and toxicology associated with the use of pesticides	Prerequisites: None.	LEC 0.5 0.5 0.5
AGS177	Aquatic Pest Control	Aquatic ecosystems, pest organisms and their control	Prerequisites: None.	LEC 0.5 0.5 0.5
AGS178	General Pest Control	Arthropods and other pest organisms and their control	Prerequisites: None.	LEC 0.5 0.5 0.5
AGS179	Terrestrial Weed Control	Terrestrial weeds and their control	Prerequisites: None.	LEC 0.5 0.5 0.5
AGS182	Gardening Practices and Techniques	Cultural practices of vegetables, fruits and ornamental plants as they relate to organic and inorganic gardening	Prerequisites: None.	LEC 2.0 2.0 2.0
AGS182AA	Gardening Practices and Techniques	Cultural practices of vegetables, fruits and ornamental plants as they relate to organic and inorganic gardening.	Prerequisites: None.	LEC 3.0 1.0 1.0 LAB 0.0 4.0 4.0
AGS183	Urban Plant Identification and Use	Identification, growth, cultural requirements, uses, maintenance, and care of landscape trees, shrubs, vines and ground covers commonly used in Arizona	Prerequisites: None.	LEC 3.0 3.0 3.0
AGS183AA	Urban Plant Identification and Use: Trees	Emphasis on trees commonly used in cityscapes in the Southwest. Review of their origin, cultural requirements, uses, required maintenance, benefits and disadvantages. Identification, planting procedures, water and nutritional requirements are covered	Prerequisites: None.	LEC 1.0 1.0 1.0
AGS183AB	Urban Plant Identification and Use: Shrubs	Emphasis on shrubs commonly used in cityscapes in the Southwest. Review of their origin, cultural requirements, uses, required maintenance, benefits and disadvantages. Identification, planting procedures, water and nutritional requirements are covered	Prerequisites: None.	LEC 1.0 1.0 1.0
AGS183AC	Urban Plant Identification and Use: Vines, Flowers, Groundcovers	Emphasis on groundcovers, annuals, perennials and vines commonly used in	Prerequisites: None.	LEC 1.0 1.0 1.0

		cityscapes in the Southwest. Review of their origin, cultural requirements, uses, required maintenance, benefits and disadvantages. Identification, planting procedures, water and nutritional requirements covered		
AGS186	Greenhouse Management and Construction	Principles and practices of greenhouse operation; control of environmental factors and cultural practices affecting the production of greenhouse crops	Prerequisites: None.	LEC 3.0 2.0 2.0 LAB 0.0 3.0 3.0
AGS186AA	Greenhouse Management and Construction	Principles and practices of greenhouse operation; control of environmental factors and cultural practices affecting the production of greenhouse crops	Prerequisites: None.	LEC 3.0 3.0 3.0
AGS187	Indoor Foliage Plants	Environmental and nutritional requirements for foliage plants used for interior decoration. Includes identification, nomenclature and uses	Prerequisites: None.	LEC 3.0 3.0 3.0
AGS188	Arid Landscape Plants	Provides information on currently propagated Xerophytes available in southern Arizona. Shows how each can be applied to specific desert landscape situations. Considers identification, cultural requirements, and physical characteristics related to landscape design	Prerequisites: None.	LEC 3.0 6.0 5.1
AGS190	Arid Land Plants Identification and Use	Covers xerophytes common in southern Arizona and their applications to specific desert landscape situations. Identification, cultural requirements, and physical characteristics related to landscape design, including both mature plants and live containerized material	Prerequisites: None.	LEC 3.0 3.0 3.0
AGS192	Urban Plant Care	Establishment, care and preservation of ornamental trees, shrubs, vines, and ground cover plants used in landscape for human well-being and pleasure.	Prerequisites: None.	LEC 3.0 2.0 2.0 LAB 0.0 3.0 3.0
AGS192AA	Urban Plant Care: Site Analysis, Plant Selection and Requirements	Establishment of ornamental trees, shrubs, vines, and ground cover plants used in landscape for human well-being and pleasure	Prerequisites: None.	LEC 1.0 1.67 1.46
AGS192AB	Urban Plant Care: Maintenance of Urban Plants	Care of ornamental trees, shrubs, vines, and ground cover plants used in landscape for human well-being and pleasure	Prerequisites: None.	LEC 1.0 1.67 1.46
AGS192AC	Urban Plant Care: Diagnosing and Curing Plant Problems	Preservation of ornamental trees, shrubs, vines, and ground cover plants used in landscape for human well-being and pleasure	Prerequisites: None.	LEC 1.0 1.67 1.46
AGS217	Introduction to Hydroponics and Controlled Environment Agriculture	Introduction to hydroponics and controlled environment agriculture. Includes a history of hydroponics and basic plant physiology and anatomy. Study of general cultural practices, plant protection, conventional and organic hydroponic production systems. pollination, fertilization and bee management. Provides an overview of	Prerequisites: A grade of C or better in AGS164, or permission of Instructor.	LEC 4.0 2.0 2.0 LAB 0.0 4.0 4.0

		plant nutrition and disorders, irrigation systems and nutrients transplant production. Covers greenhouse site selection, structures and control systems, fruit harvest; food handling, safety and marketing and economics of a hydroponic business.		
AGS255	Plant Tissue Culture	Plant tissue culture techniques for cloning, reproduction, and manufacturing including media mixing, cell growth and development, aseptic transfer, manipulation, observation, and documentation	Prerequisites: A grade of C or better in AGS164.	L+L 3.0 5.0 5.0
AGS260	Soils	Fundamental properties of the physical, chemical, and biological relation of soil to plant growth. Evaluation of the human impact on soil health.	Prerequisites: A grade of C or better in CHM130 or permission of Instructor.	LEC 4.0 3.0 3.0 LAB 0.0 3.0 3.0
AGS261	Soil Fertility And Management	Relationship of soils, crops, and climatic factors to economic use of commercial fertilizer	Prerequisites: None.	LEC 3.0 3.0 3.0
AGS262	Irrigation Design, Installation, Operation, and Trouble Shooting	Design, installation, maintenance and troubleshooting of sprinklers, drip, and flood systems. Use of time clocks, pumps, filters, backflow devices, and other equipment to deliver water to the landscape. Types of water and their use in the landscape.	Prerequisites: None.	LEC 3.0 2.0 2.0 LAB 0.0 3.0 3.0
AGS264	Irrigation and Water Management	Irrigation and drainage problems relating to pumps, motors, pipe lines, ditches and wells in the Southwest. Installation of sprinkler, drip and subirrigation, time clock installation and repair. Land measurement and principles of land leveling	Prerequisites: None.	LEC 3.0 2.0 2.0 LAB 0.0 3.0 3.0
AGS266	Urban Insect Control	The interrelationship of plant organisms, animals and environments with insects as affected by soils, temperature, water and agricultural chemicals	Prerequisites: None.	LEC 3.0 3.0 3.0
AGS267	Weeds and Plant Diseases of Arizona	Weed identification, relationship to competition, cultural practices, prevention and chemical usage for control. General outline of plant autonomy and physiology relating to chemical usage of selectivity. Diseases of plants, their life cycles, biological interrelationships, identification, and control.	Prerequisites: None.	L+L 3.0 5.0 5.0
AGS268	Integrated Pest Management in the Cultivated Environment	Identification and management of pests of the garden, farm and landscape in the arid west. Special emphasis is given to safe handling of pesticides.	Prerequisites: None.	LEC 4.0 2.0 2.0 LAB 0.0 4.0 4.0
AGS282AA	Service-Learning Experience in Agriculture	Unpaid Service-Learning (SL) experience, completed with approved community partner.	Prerequisites: Permission of Instructor.	LAB 1.0 1.0 0.0
AGS282AB	Service-Learning Experience in Agriculture	Unpaid Service-Learning (SL) experience, completed with approved community partner.	Prerequisites: Permission of Instructor.	LAB 2.0 2.0 0.0

AGS282AC	Service-Learning Experience in Agriculture	Unpaid Service-Learning (SL) experience, completed with approved community partner.	Prerequisites: Permission of Instructor.	LAB 3.0 3.0 0.0
AGS284	Lawn and Turf Care	Factors that affect the establishment and maintenance of turf grasses. Includes budgets, schedules and selection of equipment	Prerequisites: None.	LEC 3.0 3.0 3.0
AGS285	Propagation of Horticultural Plants	Principles and processes of propagation of crops using seed, budding, grafting, and cuttings in greenhouse structures and open ground	Prerequisites: None.	LEC 3.0 2.0 2.0 LAB 0.0 3.0 3.0
AGS285AA	Propagation of Horticultural Plants Structures Media and Management	Design, maintenance and repair of greenhouse structures. Principles of plant propagation media and procedures. The processes involved in nursery management, including plant care, display, and marketing	Prerequisites: None.	LEC 1.0 0.7 0.7 LAB 0.0 1.0 1.0
AGS290	Internship	Supervised field training for Urban Horticulture students with local industry businesses.	Prerequisites: Student shall be in final semester before graduation and permission of Department or Division.	LAB 3.0 6.0 0.0
AGS296WA	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. COMMON COMPETENCY COURSE	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and be able to obtain a position related to students academic or career goals (students present job may qualify or permission of instructor Corequisites: Must be concurrently enrolled in at least one class which is related to students major or career interest or with permission of Instructor.	LAB 1.0 5.0 0.0

AHU245	Arabic Culture and Islam	A survey of Arab heritage in the Arab world (Middle East). Cultural and social institutions and their contribution to the development of the region and its heritage.	Prerequisites: None.	LEC 3.0 3.0 3.0

AIM100	Introduction to Artificial Intelligence	Basic concepts and applications of artificial intelligence (AI), including AI project cycles. Focus on issues surrounding AI including ethics, bias, culture, regulations, and professional expectations.	Prerequisites: None.	L+L 3.0 3.0 3.0
AIM110	Introduction to Machine Learning	Introduction to machine learning concepts and Python applications, including data acquisition, supervised and unsupervised learning, and data modeling.	Prerequisites: A grade of C or better in AIM100, CIS156 and MAT206.	L+L 3.0 4.0 4.0
AIM210	Natural Language Processing	Fundamental concepts in Natural Language Processing (NLP) and text processing. Focus on knowledge and skills necessary to create a language recognition application.	Prerequisites: A grade of C or better in AIM110.	L+L 3.0 4.0 4.0
AIM220	Artificial Intelligence for Computer Vision	Understand and apply the basic techniques to process images using OpenCV and Python libraries.	Prerequisites: A grade of C or better in AIM110.	L+L 3.0 4.0 4.0
AIM230	Artificial Intelligence for Business Solutions	Fundamentals of artificial intelligence (AI) and machine learning to support business solutions.	Prerequisites: A grade of C or better in AIM210 and AIM220.	L+L 3.0 4.0 4.0
AIM240	Artificial Intelligence Capstone Project	Focus on how a social issue is explored, brought through the Artificial Intelligence (AI) Project cycle, and delivered as a solution using the different domains of AI, including computer vision and natural language processing.	Prerequisites: A grade of C or better in AIM210 and AIM220.	L+L 3.0 4.0 4.0
AIR102	Reservations/Sales Training I	Basic orientation to Reservations/Sales Training. Includes overview of product knowledge, computer familiarization, the Passenger Name Record, sales, and fares	Prerequisites: None.	LEC 3.0 3.0 3.0
AIR103	Basic Reservations Procedures	Basic orientation to Reservation/Sales training. Includes product knowledge, computer system, seat assignment, and baggage restriction transit item classifications, automated check-in and passenger acceptance procedures	Prerequisites: None.	LEC 3.0 3.0 3.0
AIR104	Reservations/Sales Training II	Concepts and techniques of specialty faring, special sales tools, miscellaneous functions, and the Passenger Name Record	Prerequisites: A grade of C or better in AIR102.	LEC 3.0 3.0 3.0
AIR106	Reservations/Sales Training III	Expands on concepts and techniques of reservations/sales. Includes expanded miscellaneous functions and introduces advanced seat assignments, vacation packages, and ticketing	Prerequisites: A grade of C or better in AIR104.	LEC 3.0 3.0 3.0
AIR109	Dividend Miles Preferred	Overview of preferred program features and benefits. Includes database access, account actions, and screen usage in addition to procedures for reactivation and preservation of mileage. Also covers maintenance and helpdesk procedures.	Prerequisites: None.	L+L 2.0 3.0 3.0
AIR110	Advanced Reservations/Sales Training	Emphasis on attending to passenger needs by answering "live" phone calls in a laboratory setting. Includes sales,	Prerequisites: A grade of C or better in AIR102.	L+L 2.0 4.0 4.0

		mandatory parts of a call, phone etiquette, and information retrieval.		
AIR112	Airline Ticketing Procedures	Overview of ticketing procedures. Fares, payment options, passenger name record, and sales covered. Automated and basic ticketing as well as hazardous material transport restrictions emphasized	Prerequisites: A grade of C or better in AIR103.	LEC 3.0 3.0 3.0
AIR116	Airline Gate Procedures	Airline gate service operation information. Opening a flight, assigning and changing seats, processing standbys, and closing a flight emphasized. Processing oversold flights and irregular operations also covered	Prerequisites: A grade of C or better in AIR103.	LEC 3.0 3.0 3.0
AIR127	Airline Customer Relations I	Overview of airline customer relations and the passenger name record. Includes policies and procedures as well as reservations, routing, coding, and travel awards.	Prerequisites: None.	LEC 3.0 3.0 3.0
AIR128	Airline Customer Relations II	Advanced airline customer relations. Communication skills for effective customer service, as well as, techniques to assist with customer checklist, travel vouchers, and service requests. Airline ticketing systems and flight operations included.	Prerequisites: A grade of C or better in AIR127.	L+L 3.0 4.0 4.0
AIR129	Airline Customer Relations Lab	Application of airline customer relations procedures. Use of airline computer systems emphasized. Includes customer service and the processing of tickets, coding, reservations, files, and vouchers.	Prerequisites: A grade of C or better in AIR128.	LAB 2.0 6.0 6.0
AIR140	Ramp Safety Procedures	Basic ramp safety procedures for airline employees. Topics include ramp environment, engine safety, equipment malfunctions, vehicle operations and Foreign Object Damage (FOD) control. Procedures for arrival, turnaround and departure conditions and hazards covered. Hand signals and other non-verbal communications as well as back injury prevention and hearing conservation techniques included	Prerequisites: Permission of Department or Division.	LEC 2.0 2.0 2.0
AIR142	Aircraft Dynamics	Overview of ground procedures for airline employees. Covers aircraft familiarization, engine safety, ramp servicing and baggage handling as well as prearrival, arrival, predeparture and departure procedures. Rules for handling air cargo, human remains and U.S. Mail included	Prerequisites: Permission of Department or Division.	LEC 3.0 3.0 3.0
AIR160	Reservation/Booking Procedures	Overview of reservation/booking procedures. Includes use of availability displays, seating assignments, ticketing procedures and fare rules as well as fare pricing and selling. Communication skills also covered	Prerequisites: None.	LEC 3.0 3.0 3.0

AIR161	Airline Reservations System	Practical application of a travel booking procedures using a computerized reservations system. Covers codes, Passenger Name Record, ticketing and reservations.	Prerequisites: A grade of C or better in AIR160 or Corequisites: AIR160 or permission of Instructor.	L+L 2.0 3.0 3.0
AIR163	Advanced Airline Reservations	Rules, restrictions, and procedures for handling special reservations situations. Covers Bonus Travel Certificates (BTC), Virtual Coupon Records (VCR), and the Special Travel Account Record System (STARS). Also includes procedures for managing codeshare accounts and mileage plans.	Prerequisites: A grade of C or better in AIR160 or Corequisites: AIR160 or permission of Instructor.	L+L 2.0 3.0 3.0
AIR164	Airline Ticket Reissues	Rules, restrictions, and procedures for completing reissues. Includes voluntary and automated reissues as well as fare calculation. Also covers collections and verification processes.	Prerequisites: None.	LEC 3.0 3.0 3.0
AIR165	Overview of Flight Schedules/Itineraries	Basic reservation information including flight schedules, itineraries, and fares. Handling travel agent calls also covered	Prerequisites: None.	LEC 3.0 3.0 3.0
AIR169	Basic International Travel	Overview of basic international travel. Includes rules, regulations, documentation requirements, and taxes	Prerequisites: None.	LEC 1.0 1.0 1.0
AIR170	International Air Transport Association Geography	Overview of world geography according to the International Air Transport Association (IATA). Includes world traffic area divisions, sub areas and office responsibilities. Also covers atlas reading including location of countries, major cities and grids in addition to use of city codes.	Prerequisites: None.	LEC 1.0 1.0 1.0
AIR171	International Air Transport	International air reservations procedures. Includes Passenger Name Record (PNR) creation and modification as well as use of availability displays and international itineraries. Covers preferred programs and partnerships.	Prerequisites: None.	LEC 3.0 3.0 3.0
AIR172	International Fares	Overview of international fares. Includes fare basis codes, combinability and construction. Also covers transpacific routing and electronic tickets as well as procedures for completing international reissues.	Prerequisites: None.	LEC 1.0 1.0 1.0
AIR173	International Air Transport Lab	Practical application of international air reservations procedures. Includes Passenger Name Record (PNR) creation and modification as well as use of availability displays and international itineraries.	Prerequisites: None.	LAB 2.0 6.0 6.0
AIS101	Survey of American Indian Issues	Introduction to critical issues related to American Indian peoples. Examines cultural, political, economic, educational, social, and environmental issues. Focuses on contemporary issues and factors influencing American Indian communities.	Prerequisites: None.	LEC 3.0 3.0 3.0

AIS103	Introduction to Indigenous Cultures	Introduction to political, economic and social structures of indigenous peoples. Examines the impact on indigenous peoples of contact with non-indigenous cultures.	Prerequisites: None.	LEC 1.0 1.0 1.0
AIS105	Introduction to American Indian Studies	Introduction to political, economic, and social structures of American Indian Nations. Provides overview of American Indian tribal cultures prior to contact, the impact of European contact, and the influence of western social systems on tribal nations.	Prerequisites: None.	LEC 3.0 3.0 3.0
AIS110	Navajo Government	Addresses and examines major historical developments of the Navajo People with a focus on government, law, society, livelihood, tradition, and culture. Includes the major components and operation of Navajo government and related tribal laws, such as Title II and Title VII of the Navajo Nation Code, as well as the significance of the Treaty of 1868. Federal Indian policies and their impact on Navajo society and government, the importance of federal and tribal citizenship and related federal and tribal laws, and the role of the Navajo clanship system and other relevant cultural concepts addressed	Prerequisites: None.	LEC 3.0 3.0 3.0
AIS112	American Indian Policy	Reviews United States government policies and their impact on American Indian sovereignty. Examines historic, legal, economic, and social issues regarding Indian policies and how they impact Indian Nations and individual Indians. Studies historical as well as contemporary policies created by the Federal Government that define the trust relationship between the United States government and Indian Nations	Prerequisites: None.	LEC 3.0 3.0 3.0
AIS113	Proposal Writing	Provides an overview of funding sources for grants. Reviews techniques and skills necessary to develop successful proposals. Focuses on the design and writing of a complete grant proposal related to a selected problem or issue.	Prerequisites: A grade of C or better in ENG101 or ENG107.	LEC 3.0 3.0 3.0
AIS140	American Indian History	Survey of American Indian history with emphasis on the last 200 years including developments in the 20th century. Focuses on selected groups such as the Cherokee, Iroquois Confederation, Navajo, Sioux and Indians of the Southwest in relation to cultural, economic, political and social continuity and changes. Topics include development and influence of federal policies, past and present issues confronting Native Americans and how Native American individuals and	Prerequisites: None.	LEC 3.0 3.0 3.0

		communities maintain their identities as they confront social changes		
AIS141	Sovereign Indian Nations	Explores the sovereign status of American Indians as it relates to social relationships, traditions, and culture of American Indians. Reviews historic relations with non-Indian societies, the development of federal Indian law, tribal governments and their functions. Examines treaty rights, environmental issues, public policy, economic development, other current issues, and contemporary social problems	Prerequisites: None.	LEC 3.0 3.0 3.0
AIS160	American Indian Law	Analyzes the legal system of the United States Government as it applies to American Indian Nations. Examines how United States legal institutions have impacted Indian sovereignty. Units of analysis include the development of Indian law, United States Supreme Court decisions, Congressional Acts, treaty rights and the development of tribal governments. Focuses on legal institutions that have abridged the property rights of Indian Nations.	Prerequisites: None.	LEC 3.0 3.0 3.0
AIS170	American Indian History of the Southwest	Covers history of American Indian Peoples of the Southwestern United States from pre-European contact era to the present. Includes historical events, the development and implementation of non-Indigenous policies and their impact on American Indian Peoples in these areas, and contemporary issues of importance.	Prerequisites: None.	LEC 3.0 3.0 3.0
AIS201	Indigenous Nation Building	Discussion of the relationship between general management issues and their specific application to tribal government situations. Special consideration given to application of management theory and to the unique status and situation of tribal governments.	Prerequisites: None.	LEC 3.0 3.0 3.0
AIS203	Fundamentals of Economic Development for Indigenous Nations	Provides a practical understanding of the economic development process. Examines ways in which development can be initiated and financed. Focuses on how budget systems can be used as management tools. Reviews fundamentals of proposal writing and budget management for grants.	Prerequisites: None.	LEC 3.0 3.0 3.0
AIS213	American Indian Religions	An examination of the historical and cultural background of diverse lifeways and worldviews belonging to the peoples indigenous to the North American continent over time, including a study of modern day American Indian beliefs and practices.	Prerequisites: A grade of C or better in ENG101, or ENG107, or equivalent.	LEC 3.0 3.0 3.0
AIS282AA	Volunteerism for Indigenous Studies	Service-learning field experience within private/public agencies, educational	Prerequisites: Permission of Instructor.	LAB 1.0 1.0 0.0

		institutions, and citizen volunteer groups.		
AIS282AB	Volunteerism for Indigenous Studies	Service-learning field experience within private/public agencies, educational institutions, and citizen volunteer groups.	Prerequisites: Permission of Instructor.	LAB 2.0 2.0 0.0
AIS296WA	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students.	Prerequisites: Completion of at least twelve (12) college credits, minimum 2.6 grade point average, and be able to obtain a position related to student's academic or career goals (student's present job may qualify); or permission of instructor. Corequisites: Must be concurrently enrolled in at least one class which is related to student's major or career interest or with permission of the Instructor.	LAB 1.0 5.0 0.0
AIS296WB	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students.	Prerequisites: Completion of at least twelve (12) college credits, minimum 2.6 grade point average, and be able to obtain a position related to student's academic or career goals (student's present job may qualify); or permission of instructor. Corequisites: Must be concurrently enrolled in at least one class which is related to student's major or career interest or with permission of the Instructor.	LAB 2.0 10.0 0.0
AIS296WC	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students.	Prerequisites: Completion of at least twelve (12) college credits, minimum 2.6 grade point average, and be able to obtain a position related to student's academic or career goals (student's present job may qualify); or permission of instructor. Corequisites: Must be concurrently enrolled in at least one class which is related to student's major or career interest or with permission of the Instructor.	LAB 3.0 15.0 0.0
AIS296WD	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students.	Prerequisites: Completion of at least twelve (12) college credits, minimum 2.6 grade point average, and be able to obtain a position related to student's academic or career goals (student's present job may qualify); or	LAB 4.0 20.0 0.0

			permission of instructor. Corequisites: Must be concurrently enrolled in at least one class which is related to student's major or career interest or with permission of the Instructor.	
AIS298AA	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 1.0 1.0 0.0
AIS298AB	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 2.0 2.0 0.0
AIS298AC	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 3.0 3.0 0.0
AIT100	Industrial Safety	Introductory course in workplace safety training, including an overview of critical safety policies, procedures, and practices that help prevent injuries and keep the workplace safe and productive.	Prerequisites: None.	LEC 1.0 1.0 1.0
AIT101	Introduction to Industrial Automation	Introductory course in manufacturing automation systems and technologies. Includes safety practices, quality measurement, print reading, machine operation, hand tool usage, and maintenance operations.	Prerequisites: None.	LEC 3.0 3.0 3.0 LAB 0.0 2.0 2.0
AIT105	Modern Maintenance Operations	Introductory course into the practice of modern maintenance operations. Includes: safely and correctly using maintenance tools (e.g., hand tools, power tools), measuring	Prerequisites: None.	LEC 3.0 2.0 2.0 LAB 0.0 3.0 3.0

		instrumentations (e.g., tape, caliper, micrometer) and reading various engineering documents (e.g., blueprints, flowcharts, parts diagrams). Use and convert units in System International (SI) and imperial. Basic discussion of industrial safety procedures, machine operations, troubleshooting, failure analysis, modern maintenance principles, rigging, workplace organization, and records keeping.		
AIT110	Mechanical Power Transmission Systems	Introductory course in how to transmit, measure, calculate, and work safely with rotational mechanical equipment. Hands-on assembly, alignment, maintenance, and troubleshooting of mechanical power transmission systems and components e.g., belts, bearings, chains, dynamometers, gears, pulleys, couplings, bushings, and sprockets. Introduction to lubricant and grease types, their standards, safety, and application.	Prerequisite: None.	LEC 3.0 2.0 2.0 LAB 0.0 3.0 3.0
AIT115	Hydraulic Systems	Introductory course in the principles of hydraulic system operation, components construction, maintenance, troubleshooting, and operation, as well as the role of the individual components in an operating hydraulic system. Includes hydraulic fitting and seals, accumulators, cylinders, directional control valves (DVC), relief valves, check valves, pumps, filters, hoses, and a variety of hydraulic control circuits.	Prerequisites: None.	LEC 3.0 2.0 2.0 LAB 0.0 3.0 3.0
AIT120	Pneumatic Systems	Introductory course in the principles of pneumatic system operation, components construction, maintenance, troubleshooting, and operation, as well as the role of the individual components of an operating pneumatic system. Includes pneumatic fitting, seals, accumulators, actuator/cylinders, Directional Control Valves (DCV), manifolds, relief valves, check valves, pumps, filters, regulators, dryers, and common pneumatic control circuits.	Prerequisites: None.	LEC 3.0 2.0 2.0 LAB 0.0 3.0 3.0
AIT123	J-STD Soldering Certification	This course will prepare the successful student to receive the "Certified IPC Specialist" (CIS) certification from The Institute for Interconnecting and Packaging Electronic Circuits (IPC) in "Requirements for Soldered Electrical and Electronic Assemblies" (IPC J-STD-001). Topics covered and skills to be demonstrated are: soldered wires and terminals, through hole connections, surface mount components, and inspection. Certification is verified by a certified IPC trainer (CIT).	Prerequisites: Permission of Instructor.	L+L 3.0 4.0 4.0

AIT124	Composites	Basic composite materials, construction, and repair. Manufacturing methods and equipment. Assessment and repair of composite structures using vacuum bagging and other approved procedures. Corrosion control, electrical bonding, materials substitutions, machining of composite components, mold fabrication. Hot bond repair of composite components including complex shapes and varied materials.	Prerequisites: None.	L+L 3.0 4.0 4.0
AIT125	DC and AC Components and Circuits	An introductory course in Alternating Current (AC) and Direct Current (DC) electric theory. Includes electric circuits using resistors, capacitors and inductors. Also includes solenoids, relays, transformers, basic DC and AC motors, circuit protection devices and a variety of switches.	Prerequisites: None.	LEC 3.0 2.0 2.0 LAB 0.0 3.0 3.0
AIT128	A-620 Cable and Wire Harness Assembly Certification	This course will prepare the successful student to receive the "Certified IPC Specialist" (CIS) certification from The Institute for Interconnecting and Packaging Electronic Circuits (IPC)/Wire Harness Manufacturer's Association (WHMA) in "Requirements and Acceptance for Cable and Wire Harness Assemblies" (IPC/WHMA-A-620 Certification). Topics covered and skills to be demonstrated are: soldered terminations, crimp terminations, insulation displacement terminations (IDC), splices, connectorization, marking/labeling, coaxial cable assemblies, electrical shielding, wire marking and labeling, and testing methodologies. Certification is verified by a certified IPC trainer (CIT).	Prerequisites: None.	L+L 3.0 4.0 4.0
AIT130	Maintenance Piping	Overview of the area of maintenance of piping systems for manufacturing or industrial facilities. Preparation to sit for the NIMS Duty Area 9: Maintenance Piping Certification Exam.	Prerequisites: None.	LEC 3.0 2.0 2.0 LAB 0.0 3.0 3.0
AIT132	Industrial Technology for the Semiconductor Industry	Introduction to semiconductor manufacturing concepts, processes, and hands-on application. Includes electrical theory, circuits, schematics, hand tools, safety, clean room protocols, model based problem solving, lean manufacturing, vacuum technology, and troubleshooting.	Prerequisites: None.	L+L 3.0 4.0 4.0
AIT205	Power Electronics and Variable Frequency Drives	Introductory course in AC and DC power electronic theory. Includes power supplies, power conditioning, solid-state power devices, and power control circuits. Also includes proximity sensors, analog thermal sensors, control feedback loops, and the setup and	Prerequisites: A grade of C or better in AIT125, or permission of Instructor.	LEC 3.0 2.0 2.0 LAB 0.0 3.0 3.0

		operation of Variable Frequency Drives (VFDs).		
AIT210	Programmable Logic Controller Programming and Troubleshooting	Introductory course in Programmable Logic Controller (PLC) Ladder Logic programming and troubleshooting PLC connected components and systems. Also includes basic Human Machine Interface (HMI) navigation, connecting to a PLC, and program downloading.	Prerequisites: A grade of C or better in AIT125, or permission of Instructor.	LEC 3.0 2.0 2.0 LAB 0.0 3.0 3.0
AIT215	Process Control Systems	Introductory course in Process Control Systems design, operation, and tuning of Proportional, Integral, Derivative (PID) controllers for regulating flow, temperature, pressure, and level of industrial process variables. Includes manual control, feedback control, automated controls, analysis process setup, operate, and troubleshooting processes of control systems. Also includes typical Pipe and Instrument Diagram (P&IDs) symbols and tags along with the development of a basic P&ID drawing.	Prerequisites: A grade of C or better in AIT125, or permission of Instructor.	LEC 4.0 2.0 2.0 LAB 0.0 4.0 4.0
AIT225	Industrial Motors and Motor Control	An introductory course in DC, single-phase AC, and 3-phase AC electric motors and motor control circuits. Includes electric motor control circuit components, motor control circuit applications, sequence circuits, and timer circuits.	Prerequisites: A grade of C or better in AIT125, or permission of Instructor.	LEC 3.0 2.0 2.0 LAB 0.0 3.0 3.0
AIT250	Automated Industrial Technology Capstone	An examination of the integration of mechanical, hydraulic, pneumatic, electrical, piping, electronic control, and process control systems. Experience in designing, building, maintaining, troubleshooting, and repairing such integrated systems will be gained.	Prerequisites: A grade of C or better in AIT225, or permission of Instructor or Corequisites: AIT225.	LEC 3.0 2.0 2.0 LAB 0.0 3.0 3.0
AIT270	Robotics I	Fundamental principles of working safely with robots, and applications and trends in industrial robotics. Includes types of robots, axes and coordinate systems, programming and operating robots. Incorporates end effectors and collaborative robots.	A grade of C or better required in all Prerequisites. Prerequisites or Corequisites: AIT100 or permission of Instructor.	LEC 3.0 2.0 2.0 LAB 0.0 2.0 2.0
AIT275	Robotics II	Intermediate principles of working safely with robots; robot auxiliary, subsystems, and components. Includes robot maintenance, troubleshooting and repair. Integrates a basic robot design project.	Prerequisites: A grade of C or better in AIT270.	LEC 3.0 2.0 2.0 LAB 0.0 2.0 2.0
AIT276	Robotics Operations and Programming	This course is intended for an operator, technician, or programmer who must setup, record and/or troubleshoot programs on a Handling Tool software package. The course covers the Robot Operations intermixed with the tasks required to set up the Handling Tool application, test run, and refine the program and production setup.	Prerequisites: A grade of C or better in (ATP190, ATP201, and ATP205) or permission of Instructor.	L+L 3.0 6.0 6.0

AIT280	Industry 4.0 and Industrial Control Systems	Introductory course in Industry 4.0, physical processes within factories, and the virtualization techniques and intelligent decision making capabilities. Includes Cyber-Physical Systems (CPS), Supervisory Control and Data Acquisition (SCADA), Distributed Control Systems (DCS), Smart Factories, lean manufacturing, and the Internet of Things (IOT). Also includes an introduction and setup of SCADA software.	Prerequisites: A grade of C or better in AIT125, or permission of Instructor.	LEC 3.0 2.0 2.0 LAB 0.0 3.0 3.0
AIT285	Sensors and Data Acquisition	Introductory course in sensors and data acquisition. Includes sensor types, function, installation, adjustment, and maintenance. Also includes a brief overview of sensor signal conditioning, data acquisition configuration, chart recorder operation, and data storage.	Prerequisites: A grade of C or better in AIT125, or permission of Instructor.	LEC 3.0 2.0 2.0 LAB 0.0 3.0 3.0
AIT291	Automated Industrial Technology Internship	Supervised work experience in production environments. Includes experiences in maintenance, troubleshooting, repair of production environment and specific manufacturing processes. Also includes experiences in problem solving; working as a team; soft skills; time and resource management; and exposure to specific manufacturing processes.	Prerequisites: A grade of C or better in AIT225, or permission of Instructor or Corequisites: AIT225.	LAB 3.0 6.0 0.0
AIT298AA	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development.	Prerequisites: Permission of Program Director or Instructor.	LAB 1.0 1.0 0.0
AIT298AB	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development.	Prerequisites: Permission of Program Director or Instructor.	LAB 2.0 2.0 0.0
AIT298AC	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects	Prerequisites: Permission of Program Director or Instructor.	LAB 3 3 0

		of independent study and individualized learning to be combined to maximize student development.		
AJS100	Police Academy Preparation	Preparation for individuals entering a police academy as well for those who are in the beginning stages of preparing for a career in law enforcement. Includes principles of policing and job responsibilities. Covers expectations of recruits in the areas of academics, physical fitness, mental and emotional preparation. Emphasis on professional and ethical behavior.	Prerequisites: None.	LEC 2.0 2.0 2.0
AJS101	Introduction to Criminal Justice	An introduction to crime and society's responses to it. Examines the nature and causes of crime, the criminal law, constitutional safeguards, and the organization and operation of the criminal justice system including the police, courts, jails, prisons, probation and parole departments, and community corrections agencies. Covers the history of the criminal justice system, terminology and career opportunities.	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS107	Patrol Procedures	Specialized areas of the patrol function, including responding to crowds, riots, bomb threats, intoxication, hazardous materials, fires, and domestic disputes. Partially fulfills Arizona POST (Peace Officer Standards and Training) requirements for proficiency skills academy attendance	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS109	Substantive Criminal Law	Covers philosophy of legal sanctions and historical development from the common law to modern American criminal law, classifications of crimes, elements of and parties to crimes, general definition of crimes, common defenses utilized. Includes specific offenses and the essential elements of each offense.	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS110	Law and Legal Review I	In-depth study of the Arizona laws governing arrest by peace officers, as well as, an intensive study of the Arizona substantive criminal law code (ARS Title 13). Focuses on specific sections of ARS Title 4 and ARS Title 8, as they apply to peace officers in Arizona. Partially fulfills the Arizona POST (Peace Officer Standard and Training) Board requirements for Proficiency Skills Academy attendance	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS112	Wellness for Law Enforcement Officers	The value of physical fitness in law enforcement and the basic elements of strength training, aerobic conditioning, flexibility, nutrition, and back injury prevention	Prerequisites: None.	L+L 3.0 3.0 3.0
AJS113	Criminal Justice Crime Control Policies and Practices	Focus on changing the distribution of crime opportunities rather than offender	Prerequisites: None.	LEC 3.0 3.0 3.0

		motivation. Topics include application of situational crime prevention strategies, problem-oriented crime control approaches, hot spots policing, defensible space, and crime prevention through defensible space.		
AJS115	Community Emergency Response Team (CERT): Level I	Basic skills, including instruction in teamwork and disaster simulations, needed to help oneself, family, and neighbors in the event of a community disaster in accordance with the Federal Emergency Management Agency (FEMA) guidelines.	Prerequisites: None.	LEC 1.5 1.5 1.5
AJS116	Crime Prevention	Examines the principles and skills associated with crime prevention. Analyzes the appropriate techniques and strategies police agencies use to operate crime prevention programs.	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS119	Computer Applications in Justice Studies	Provides literacy in microcomputer applications in major areas of the criminal justice system. Examines availability and uses of current software packages in criminal justice work. Provides hands-on experience with appropriate integrated software packages pertaining to justice studies.	Prerequisites: None.	L+L 3.0 4.0 4.0
AJS123	Ethics and the Administration of Justice	Introduces and explores ethical issues and the justice system. Focuses on ethics and the law, the police, courts and corrections. Reviews ethical theory, concepts and practices as they relate to administration of justice. Explores issues of how media/social media shape ethics. Encourages critical thinking and value decision making in criminal justice system situations.	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS124	Correctional Institutions	An examination of correctional institutions with an emphasis on personnel and security measures, care and treatment programs and institutional planning. The criminal justice system and matters of custody and treatment. Inmate subcultures, and organized crime in correctional institutions and jails	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS131	Police Management Techniques I	Police supervisory techniques for planning, organization, coordination, reporting, budgeting and handling related personnel problems	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS132	Police Management Techniques II	Management of police personnel including selections procedures, disciplinary practices, public relations, elements of supervision, service ratings, recruiting and probation, and related personnel problems	Prerequisites: A grade of C or better in AJS131 or permission of Instructor.	LEC 3.0 3.0 3.0
AJS137	Public Safety Dispatcher: Basic	Designed to provide in-depth orientation and standardized training of public safety dispatchers within the law enforcement community and familiarize the student with the skills and	Prerequisites: None.	LEC 5.0 5.0 5.0

		information important to functioning in a competent, ethical, and professional manner.		
AJS139	Emergency Response to Terrorism	Fundamentals of emergency response to suspected terrorist events. Historical perspective of terrorist activities and methods by which responders can identify and protect themselves and the public from these threats. Coordination of responding agencies.	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS140AA	Patrol Rifle Concepts	Pre-law enforcement employment course relating to how rifles are used in the patrol function	Prerequisites: None.	LEC 1.0 1.0 1.0
AJS145	Criminal Justice System Experiences	Examines the purpose, organization, operation, and employment opportunities of various criminal justice agencies including police departments, crime labs, morgues, courts, juvenile detention facilities, jails, prisons, parole boards, and halfway houses. Includes tours of a variety of criminal justice facilities	Prerequisites: None.	L+L 3.0 3.0 3.0
AJS146	Disaster Recovery Operations	Specialized knowledge and skills for the emergency manager in developing programs and activities associated with disaster recovery assistance and mitigation actions that reduce losses from future disasters.	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS147	Emergency Preparedness	Emergency preparedness related to natural and manmade disasters. Planning concepts and the planning process; awareness and education programs and strategies for the general community as well as business and industries.	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS148	Fundamentals of Emergency Management	Emergency management systems including career opportunities, function, tasks and responsibilities of the emergency management program manager, role of the emergency manager in mitigation, preparedness, response, and recovery. Past civil defense and current emergency management systems since evolution from World War II.	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS149	Hazard Mitigation	Knowledge and skills required to develop programs to reduce losses from future disasters, emergencies, and other extreme events caused by natural and man-made hazards.	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS150	Defensive Tactics	Skills in the protection against persons armed with dangerous and deadly weapons, demonstration and drill in a limited number of holds and come-alongs, and restraint of prisoners and the mentally ill.	Prerequisites: None.	LEC 1.0 1.0 1.0
AJS151	Firearms I	Moral aspects, legal provisions, safety precautions and restrictions covering	Prerequisites: None.	L+L 1.0 1.0 1.0

		the use of firearms, and the firing of sidearms.		
AJS152	First Aid	Methods for providing emergency medical care to victims of accidents or illness and related safeguards. Includes legal and civil issues, basic functions and major organs of the human body, injury management, resuscitation, movement and extrication of victims	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS153	Firearms II/Handguns	Advanced familiarization with handguns. Variations of basic shooting stance. Legal and moral repercussions of self-defense. Includes range practice.	Prerequisites: A grade of C or better in AJS151 or equivalent certified firearms training as reviewed by the Department.	L+L 1.0 1.0 1.0
AJS154	Firearms III/Long Weapons	Familiarization with different types of long weapons and associated ammunition. Emphasis on safety techniques for use and storage of weapons. Limited use of range for practice	Prerequisites: None.	L+L 1.0 1.0 1.0
AJS155	Concealed Weapons Carry	Training in safe handling and use of handguns. Examines legal provisions related to carrying a concealed weapon; legal and moral implications of self-defense	Prerequisites: None.	L+L 2.0 2.0 2.0
AJS156	Home and Vehicle Personal Defense	Development of personal safety plans, confrontation avoidance, and effective self-defense tactics. Legal and safe use of firearms. Includes range practice	Prerequisites: A grade of C or better in AJS151 or permission of Instructor.	L+L 1.0 1.0 1.0
AJS162	Domestic Violence	Explores domestic violence as a social problem within the United States from historical, cultural, political, legal, and law enforcement perspectives. Provides an overview of theories, definitions and causes of, and interventions for domestic violence involving spousal, elder and child abuse along with teen dating violence. Examines the dynamics and effects of domestic violence. Addresses research issues and contemporary domestic violence policy	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS170	Fire and Arson Investigation for Law Enforcement	An examination of fire and arson investigative techniques along with the motives and pathology of the arsonist and the chemistry of fire. Other topics include documenting the scene, evidence, eliminating accidental causes and surveillance.	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS191	Hate Crimes	Explores the causes, incidence rates and forms of hate crimes in the United States and other countries. Studies hate crime laws and the Constitution. Examines the impact of hate crimes on society, culture and the law. Considers societal responses to combat and prevent hate crimes	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS192	Serial Killers and Mass Murderers	The study of serial killers, mass murderers and their victims. Examines	Prerequisites: None.	LEC 3.0 3.0 3.0

		the history and frequency of these crimes, profiles the killers and their victims, explores theories of causation, and discusses the problems and techniques of investigation, prosecution, punishment, and prevention		
AJS195	International and Domestic Terrorism	An overview of the history, structure, goals, and activities of domestic and international terrorist groups. Explores theories explaining terrorism and reviews methods used to combat it	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS198AB	Special Topics in the Administration of Justice	Explores special topics related to the administration of justice with an emphasis on current issues	Prerequisites: None.	LEC 1.0 1.0 1.0
AJS198AF	Special Topics in the Administration of Justice	Explores special topics related to the administration of justice with an emphasis on current issues	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS200	Current Issues in Criminal Justice	Examines current issues, techniques and trends in the Criminal Justice System.	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS201	Rules of Evidence	A practical insight into the rules of evidence to include how to recognize evidence: the general rules governing admissibility of evidence; the hearsay rule and its exceptions; the use of documentary evidence, written memoranda, photographs, recordings and electronic surveillance; corpus delicti; opinion evidence, circumstantial evidence, evidential privileges.	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS205	Effective Communication and Report Writing in Criminal Justice	Overview of effective communication for criminal justice agencies. Covers the communication process and flow. Written communication emphasized with report writing, including characteristics of reports and field notes, and the importance and uses of each. Form, style, and procedures for writing various reports, including elements of composition, required substance, proper and improper conclusions, and descriptions of persons and property.	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS210	Constitutional Law	An examination of the U.S. Constitution as it relates to the law enforcement function. Includes statutory law and judicial decisions governing the areas of arrest, search and seizure, interrogations and confessions, self-incrimination and other constitutional guarantees. Required in AJS curriculum	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS211	Police Planning	An analysis of the process of planning, and a descriptive study of logical and systematic approaches to strategic, short-range, operational, organizational and tactical planning within a law enforcement organization	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS212	Juvenile Justice Procedures	Examines the nature and extent of juvenile delinquency to the present.	Prerequisites: None.	LEC 3.0 3.0 3.0

		Including but not limited to the history, jurisdictions, terminology, procedures, and institutions of the juvenile justice system.		
AJS213	Evidence Technology/Fingerprints	Fundamental principles and processes of fingerprints to include identification, interpretation, and classification. In addition, students will apply fingerprinting latent fingerprint developing, preservation of evidence and the chain of custody.	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS213AB	Fingerprint Classification I	Identification of typelines, deltas, and cores. Rules for classification of loops, whorls, and arches.	Prerequisites: None.	LEC 1.0 1.0 1.0
AJS214	Evidence Technology/Photography	The use of photography and other aids in identification and preservation of evidence such as fingerprints, footprints and impressions. Techniques in crime scene and traffic accident photography	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS215	Criminalistics: Physical Evidence	The scientific analysis and examination of physical evidence with emphasis on scientific investigation, recognition, collection, and preservation of evidence. Topics include fingerprints, shoe prints, tool marks, firearms identification, paint chips and arson	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS216	Criminalistics: Biological Evidence	The scientific analysis and examination of biological evidence with emphasis on collection and preservation of evidence. Topics discussed include blood, drugs, blood alcohol, hairs and fibers, and topics of special interest in criminalistics	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS217	Court Procedures	Study of procedures practiced by courts of general and original jurisdiction. Extensive use of mock and moot trial methods used to prepare students in legal research, case preparation and presentation, and adversary hearings.	Prerequisites: None.	L+L 3.0 3.0 3.0
AJS218	Special Investigations: Drugs	Advanced course in the specialized investigation area of drug enforcement. Emphasis on the pharmacological propertiew of abused drugs, field testing, evidence requirements and specialized investigation techniques utilized in narcotic and dangerous drug investigations	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS219	Crime Scene Technology: Physical Evidence	Scientific analysis and examination of physical evidence with emphasis on scientific investigation, recognition, collection, and preservation of evidence. Fingerprints, shoe prints, tool marks, firearms identification, paint chips and arson	Prerequisites: None.	L+L 3.0 3.0 3.0
AJS220	Transnational Organized Crime	The study of organized crime on a domestic and global scale. Examines the history, structure, and activities of domestic and transnational organized crime groups. Explores domestic and	Prerequisites: None.	LEC 3.0 3.0 3.0

		global responses to transnational organized crime, along with accompanying challenges and future implications.		
AJS223	Forensic Pathology: Death Investigation	An examination of the medical investigation of sudden, unnatural, unexplained or violent deaths. Explains the legal and medical roles of death investigators and medical examiners. Additional topics include the autopsy, documenting and evaluating the body, routine and special investigative techniques, and death event reconstruction.	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS225	Criminology	Study of deviance, society's role in defining behavior; theories of criminality and the economic, social, and psychological impact of crime; relationships between statistics and crime trends. Examines crime victimization and the various types of crime and categories of offenders. Required in the AJS curriculum	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS230	The Police Function	Theories of procedures and methods of operations of public police with emphasis on discretionary powers available to the working police officer. Career opportunities and current trends in law enforcement presented	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS240	The Correction Function	Examines the history and development of correctional theories and institutions	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS241	Police Photography	Emphasis on proper procedure for photographing crime scenes, accident scenes, and laboratory specimens. Discussion of photographic techniques, equipment, lighting techniques, aerial photography, video and motion pictures, macro and micro photography, filters, and preparation for court presentation using selected simulations	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS243	Crime Scene Reconstruction	Examines techniques used to reconstruct the physical actions that occurred at a crime or accident scene. Involves the use of physical, testimonial, and documentary evidence, knowledge of criminal modus operandi and the scientific method, including deductive and inductive logic. Includes analysis of case studies.	Prerequisites: A grade of C or better in AJS215 or AJS216 or AJS219 or AJS275 or FOR105 or permission of Instructor.	LEC 3.0 3.0 3.0
AJS255	The Criminal Justice System Handling of the Mentally Ill	An introduction to methods police, court and correctional personnel employ specific to the mentally ill. Covers various types of mental illnesses, police emergency responses, how criminal and civil courts deal with the mentally ill, diversion programs and the correctional response both within the community and under confinement.	Prerequisites: None.	LEC 3.0 3.0 3.0

AJS256	Law Enforcement Firearm Instructor	A train the trainer course for police firearm instructors. Covers instructional techniques for the pistol, revolver, and shotgun.	Prerequisites: AzPost (Peace Officer Standard and Training) Certified Police General Instructor or permission of Department or Division.	LEC 5.0 5.0 5.0
AJS256AA	Law Enforcement Patrol Rifle Instructor	Techniques on proper manipulation and marksmanship skills needed by a patrol officer/deputy in the use of the patrol rifle, and techniques of teaching those skills to other officers/deputies.	Prerequisites: AzPOST (Peace Officer Standard and Training) certified law enforcement firearms instructor or permission of Instructor.	LEC 3.0 3.0 3.0
AJS258	Victimology and Crisis Management	Victimology, the criminal justice system, techniques of crisis intervention, and the importance of a multicultural and global perspective. Includes sexual assault, family violence, post-traumatic stress disorder, the role of substance abuse, effective coping skills, appropriate community resources and the responsiveness of the justice system.	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS260	Procedural Criminal Law	Concerned with the understanding of procedural criminal law. Examines the processes and procedures followed by law enforcement, attorneys, and the courts in the apprehension and prosecution of criminal offenders. Examines the rationale underlying major court holdings impacting the criminal justice process, the procedural requirements that stem from these holdings and their effect on the daily operations of the criminal justice system.	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS269AA	Internship	Supervised field training for preservice administration of justice students. Maximum of three (3) credit hours allowed in program.	Prerequisites: Student sponsored by governmental enforcement agency and permission of Department or Division.	LAB 1.0 5.0 0.0
AJS269AB	Internship	Supervised field training for preservice administration of justice students. Maximum of three (3) credit hours allowed in program.	Prerequisites: Student sponsored by governmental enforcement agency and permission of Department or Division.	LAB 2.0 10.0 0.0
AJS269AC	Internship	Supervised field training for preservice administration of justice students. Maximum of three (3) credit hours allowed in program.	Prerequisites: Student sponsored by governmental enforcement agency and permission of Department or Division.	LAB 3.0 15.0 0.0
AJS270	Community Relations	Examination, recognition and understanding of community problems; community action programs; methods of coping with human behavior, victimology, conflict and communication; ethnic and minority cultures and environments; the community and relationships with the criminal justice system	Prerequisites: None.	LEC 3.0 3.0 3.0

AJS275	Criminal Investigation I	Introduction to the theory of criminal investigation. Examines crime scene procedures, case preparation, interviewing, and basic investigative techniques	Prerequisites: None.	LEC 3.0 3.0 3.0
AJS276	Terrorism Liaison	Provides knowledge and skills required for the Terrorism Liaison Officer (TLO) role to coordinate and communicate with various fire, police, and military agencies in managing threat vulnerability and other emergency disasters.	Prerequisites: Permission of Program Director.	L+L 4.0 4.0 4.0
AJS277	Threat Vulnerability Assessment	Provides a historical perspective of threats and the activities and methods used by first responders to identify and mitigate future threats. Introduces and examines threat vulnerability of critical infrastructure within jurisdictions. Provides assessment techniques for responding agencies.	Prerequisites: Permission of Program Director.	L+L 1.0 1.0 1.0
AJS278	Hostile Intent and Intervention Training	Provides knowledge and skills required to detect and anticipate terrorist activities as a member of a Hostile Intent and Intervention Team (HIIT).	Prerequisites: Permission of Program Director.	L+L 2.0 2.0 2.0
AJS279	Field Intelligence Team Training	Provides knowledge and skills required for situational awareness of suspicious activities and the deployment of first responders for mitigation and investigation for the Field Intelligence Team (FIT).	Prerequisites: Permission of Program Director.	L+L 3.0 3.0 3.0
AJS280	Terrorism Hazmat First Responder Training	Provides knowledge and skills to understand the chemistry of reactive and unstable hazardous materials, the toxicology of dangerous chemicals, and the measures taken to protect the safety of responders, the community, and the environment of chemical accidents. Also includes an introduction to field sampling of unknown substances for the Field Intelligence Team (FIT) and the Hostile Intent and Intervention Team (HIIT).	Prerequisites: Permission of Program Director.	L+L 4.0 4.0 4.0
AJS282AA	Service-Learning Experience in Administration of Justice Studies	Unpaid Service-Learning (SL) experience, completed with approved community partner.	Prerequisites: Permission of Instructor.	LAB 1.0 1.0 0.0
AJS282AB	Service-Learning Experience in Administration of Justice Studies	Unpaid Service-Learning (SL) experience, completed with approved community partner.	Prerequisites: Permission of Instructor.	LAB 2.0 2.0 0.0
AJS282AC	Service-Learning Experience Administration of Justice Studies	Unpaid Service-Learning (SL) experience, completed with approved community partner.	Prerequisites: Permission of Instructor.	LAB 3.0 3.0 0.0
AJS290AH	Use of Force	Examines issues related to the use of force by and against police officers. Explores police use of force decision-making options. Reviews recent changes in Arizona law relative to police officers	Prerequisites: Permission of Department or Division.	L+L 0.5 0.5 0.5

AJS290AI	Theories of Criminal Behavior	Theories of human behavior and crime. Biological, sociological, and psychological approaches to the theories of criminal behavior	Prerequisites: None.	LEC 1.0 1.0 1.0
AJS290AU	Child Abuse Investigation	Definition and investigation of the causes and effects of child abuse	Prerequisites: None.	LEC 1.0 1.0 1.0
AJS290AW	Narcotics and Dangerous Drugs	Pharmacological effects of the use and abuse of drugs, including a description of common abuse patterns and investigative techniques used in the enforcement of drug laws	Prerequisites: None.	LEC 1.0 1.0 1.0
AJS290AZ	Police Interrogation Techniques	Proper interview and interrogation techniques, including a discussion of the constitutional rights of the defendant and applicable court decisions	Prerequisites: None.	LEC 1.0 1.0 1.0
AJS290BB	Police Report Writing	Writing clear, concise, and accurate reports with an emphasis on sentence and paragraph construction, grammar, and punctuation	Prerequisites: None.	LEC 1.0 1.0 1.0
AJS290BE	Probation and Parole	Current issues in probation and parole, including sentencing, parole revocation, and administrative procedure	Prerequisites: None.	LEC 1.0 1.0 1.0
AJS290BH	Sex Crimes Investigation	Investigative procedures employed by the police and courtroom procedures utilized by the prosecuting attorney in sex-related crimes	Prerequisites: None.	LEC 1.0 1.0 1.0
AJS290BJ	Accident Investigation I	Skills and concepts necessary to conduct an adequate traffic accident investigation	Prerequisites: None.	LEC 1.0 1.0 1.0
AJS290BN	Courtroom Testimony Seminar	Courtroom demeanor and protocol. Role and primary functions of witness and legal counsels	Prerequisites: None.	LEC 1.0 1.0 1.0
AJS290BU	Family Violence	Family violence issues as they relate to the criminal justice response	Prerequisites: None.	LEC 1.0 1.0 1.0
AJS290BV	Victim Assistance	An overview of victim issues emphasizing strategies used to reduce the trauma associated with crime. Includes description of counseling methods, referral procedures, intervention techniques, and community resources	Prerequisites: None.	LEC 1.0 1.0 1.0
AJS296WA	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. COMMON COMPETENCY COURSE	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and be able to obtain a position related to students academic or career goals (students present job may qualify or permission of instructor Corequisites: Must be concurrently enrolled in at least one class which is related to students major or career interest or with permission of Instructor.	LAB 1.0 5.0 0.0
AJS296WB	Cooperative Education	Work-college experiences that involve the combined efforts of educators and	Prerequisites: Completion of at least twelve (12) college	LAB 2.0 10.0 0.0

		employers to accomplish an outcome related to the career objectives of the students. COMMON COMPETENCY COURSE	credits minimum 2.6 grade point average and be able to obtain a position related to students academic or career goals (students present job may qualify or permission of instructor Corequisites: Must be concurrently enrolled in at least one class which is related to students major or career interest or with permission of Instructor.	
AJS296WC	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. COMMON COMPETENCY COURSE	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and be able to obtain a position related to students academic or career goals (students present job may qualify or permission of instructor Corequisites: Must be concurrently enrolled in at least one class which is related to students major or career interest or with permission of Instructor.	LAB 3.0 15.0 0.0
AJS296WD	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. COMMON COMPETENCY COURSE	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and be able to obtain a position related to students academic or career goals (students present job may qualify or permission of instructor Corequisites: Must be concurrently enrolled in at least one class which is related to students major or career interest or with permission of Instructor.	LAB 4.0 20.0 0.0
AJS298AA	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 1.0 1.0 0.0
AJS298AB	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects	Prerequisites: Permission of Program Director or Instructor.	LAB 2.0 2.0 0.0

		of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE		
AJS298AC	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 3.0 3.0 0.0
ALT100	Academic Literacy Through Integrated Reading and Writing	Develops academic language skills and critical reading skills for organizing, analyzing, and retaining material through complementary reading and writing assignments. Prepares students for college level reading and writing intensive courses as well as career-related reading and writing tasks.	Prerequisites: An appropriate District placement.	LEC 4.0 4.0 4.0
AMS298AA	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 1.0 1.0 0.0
AMS298AB	Special Projects	Organized and tailored around the interests and needs of the individual student. 		student development. COMMON COMPETENCY COURSE		
AMT124	Aircraft Forms and Regulations, Weight and Balance, Drawings, and Ground Operations	Federal Aviation maintenance publications, forms and records. Overview of technician's privileges and limitations. Perform aircraft weight and balance, aircraft ground operations and fuel servicing techniques. Drawings, symbols and schematic diagrams.	Prerequisites: Admission to the Aircraft Maintenance Technology program.	L+L 5.0 9.0 9.0
AMT126	Fundamentals of Mathematics and Electricity	Mathematical computation of fundamental electrical circuit parameters. Basic definitions, laws, and concepts. Schematic, wiring, and parts placement diagrams. Test and troubleshoot electrical and electronic components and circuits.	Prerequisites: Admission to the Aircraft Maintenance Technology program.	L+L 9.0 12.0 12.0
AMT128	Fundamentals of Aviation Physics, Corrosion Control, Materials and Processes, Fluid Lines and Fittin	Basic concepts of motion, fluid dynamics, heat and sound, aerodynamics, aircraft structure and theory of flight. Fluid lines and fittings, component identification, function, inspection, and installation. Cleaning and corrosion control, materials and processes, non-destructive testing, and precision measurement techniques.	Prerequisites: Admission to the Aircraft Maintenance Technology program.	L+L 5.0 9.0 9.0
AMT220	Fundamentals of Aircraft Wood Structures, Covering and Finishing, and Bonded Structures	Theories and techniques of aircraft wood structures. Inspection, test and repair of aircraft fabric and wood structures. Aircraft structural design and methods of working with selected materials. Characteristics of composites, inspections and repairs	Prerequisites: Admission to the program.	L+L 3.0 6.0 6.0
AMT222	Atmosphere Control, Fire Detection, Ice and Rain Protection Systems	Operation and maintenance of aircraft auxiliary systems. Inspection, servicing, troubleshooting and repair of environmental control, ice and rain control, fire protection and warning systems	Prerequisites: Admission to the program.	L+L 4.0 6.0 6.0
AMT224	Aircraft Sheet Metal	Inspection, fabrication, and repair techniques of aircraft structural and nonstructural components. Sheet metal heat-treating techniques	Prerequisites: Admission to the program.	L+L 5.0 11.0 11.0
AMT226	Aircraft Landing Gear, Hydraulic, Pneumatic, Fuel, Position and Warning Systems	Identification, inspection, repair, and troubleshooting techniques of aircraft landing gear, hydraulic, fuel, pneumatic, and position and warning system components	Prerequisites: Admission to the program.	L+L 7.0 12.0 12.0
AMT228	Aircraft Electrical Systems, Instruments, Fuel Indicating, Communication and Navigation Systems	Proper operation, inspection, servicing and troubleshooting of DC(Direct Current) and AC(Alternating Current) sources, systems, and components. Mechanical and electrical sensing and information display systems. Fuel indicator system inspections, repairs, and troubleshooting. Transmitter and receiver fundamentals. Avionics installation, inspection and testing	Prerequisites: Admission to the program.	L+L 7.0 12.0 12.0

AMT230	Airframe Assembly, Inspection and Welding	Aircraft assembly and rigging. Flight control balancing and rigging. Airframe inspection techniques, reporting procedures, and aircraft jacking. Welding techniques, theory, and materials identification	Prerequisites: Admission to the program.	L+L 6.0 11.0 11.0
AMT263	Aircraft Turbine Engines	Historical development and application of turbine engines. Theory of thrust and the design and environmental factors which influence thrust. Turbine engine troubleshooting, inspection, service, repair and overhaul. Operational characteristics and engine test techniques on the aircraft and in test cells	Prerequisites: Admission to the program.	L+L 5.0 9.0 9.0
AMT264	Aircraft Reciprocating Engines	Historical development and application of reciprocating engines, theory, design, and operations. Techniques used in troubleshooting, overhaul, inspection, and repair of opposed and radial engines	Prerequisites: Admission to the program.	L+L 7.0 11.0 11.0
AMT266	Engine Fuel Systems, Fuel Metering and Induction System	Inspection, servicing, troubleshooting, overhaul, and repair of aircraft fuel systems and components, fuel metering devices, injection systems, turbochargers, and superchargers. Induction system principles of operation and design	Prerequisites: Admission to the program.	L+L 6.0 9.0 9.0
AMT268	Engine Electrical, Ignition and Starter Systems	Inspect, service, troubleshoot, overhaul, and repair of engine electrical, ignition, starter systems, and components	Prerequisites: Admission to the program.	L+L 6.0 12.0 12.0
AMT270	Engine Instruments, Fire Protection and Lubrication, Cooling and Exhaust Systems	Operation, maintenance, servicing, inspection, repair, and troubleshooting of engine instruments, fire detection and extinguishing, engine lubrication, cooling, and exhaust systems	Prerequisites: Admission to the program.	L+L 5.0 8.0 8.0
AMT272	Propeller Systems and Engine Inspections	Historical development, operation, disassembly, inspection, repair, and maintenance of propellers. Reciprocating and turbine engine inspection and documentation	Prerequisites: Admission to the program.	L+L 4.0 8.0 8.0
AMT298AA	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment are made available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 1.0 1.0 0.0
AMT298AB	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-	Prerequisites: Permission of Program Director or Instructor. APT161	Auto Electrical/Electronic Systems I	<p>Designed for beginning automotive students. The principles of electricity including Ohm's Law, circuit principles and wiring diagrams. Skill development will include diagnosis, testing, service and repair of batteries, starting systems, charging systems, lighting systems, horns, wipers, defoggers, door locks, power mirrors, power windows, power</p>	<p>Prerequisites: None.</p>	<p>LEC 4.0 2.0 2.0 LAB 0.0 5.0 5.0</p>

		seats and the use of Digital Multi Meters (DMM) will be addressed in this course.		
APT171	Automotive Air Conditioning	Designed for beginning automotive students. Theory and principles of ventilation, heating, automotive refrigeration, vacuum-electric controls, and automatic temperature control systems. Includes training in diagnosis, testing, service and repair.	Prerequisites: None.	LEC 4.0 2.0 2.0 LAB 0.0 5.0 5.0
APT181	Engine Performance and Diagnosis I	Designed for beginning automotive students. Engine construction and operating principles, including lubrication, cooling, induction, exhaust, fuel, and ignition systems. Includes training in diagnosis, testing, service, and repair.	Prerequisites: None.	LEC 6.0 3.0 3.0 LAB 0.0 7.0 7.0
APT262	Auto Electrical/Electronic Systems II	Designed for experienced students. This course develops knowledge of body control modules including skill development, diagnosis, testing, service, and repair of the following systems - advanced lighting circuits, vehicle stability control, traction control, basic and advanced climate control systems, integrated safety systems, collision avoidance systems, start-stop technology, hybrid technology, mobile connectivity, use of Digital Multi Meters (DMM) and automotive oscilloscopes.	Prerequisites: A grade of C or better in APT161 or permission of Instructor.	LEC 4.0 2.0 2.0 LAB 0.0 5.0 5.0
APT282	Engine Performance and Diagnosis II	Designed for the experienced engine performance student. This course will include training in fuel systems, emission systems, ignition systems, turbocharging, computerized engine controls and engine driveability. Also, training in diagnosis, testing, service, repair, and documenting for customer understanding using the 3C's which are Concern, Cause and Correction will be addressed in this course.	Prerequisites: A grade of C or better in APT181 or permission of Instructor.	LEC 6.0 3.0 3.0 LAB 0.0 7.0 7.0
ARB101	Elementary Arabic I	Introduction to the basic alphabet, grammar, pronunciation and vocabulary of the Arabic language. Listening, speaking, reading and writing skills.	Prerequisites: None.	L+L 5.0 5.0 5.0
ARB102	Elementary Arabic II	A continuation of ARB101. Continued study of grammar and vocabulary, with emphasis on pronunciation and speaking skills.	Prerequisites: A grade of C or better in ARB101. Completion of prerequisites within the last three years is required.	L+L 5.0 5.0 5.0
ARB115	Beginning Arabic Conversation I	Conversational Arabic with emphasis on basic sentence structure, pronunciation and vocabulary. Designed to develop speaking and listening abilities with less emphasis on grammar	Prerequisites: None.	LEC 3.0 3.0 3.0
ARB201	Intermediate Arabic I	Review of essential grammar of the Arabic language and study of the Arabic culture. Continued practice and development of reading, writing, and speaking skills. Emphasis on both	Prerequisites: A grade of C or better in ARB102 or permission of Department or Division. Completion of	L+L 5.0 5.0 5.0

		fluency and accuracy in the spoken language.	prerequisites within the last three years is required.	
ARB202	Intermediate Arabic II	Advanced grammatical structures in Arabic. Further development of language skills with emphasis on speaking the language.	Prerequisites: A grade of C or better in ARB201 or permission of Department or Division. Completion of prerequisites within the last three years is required.	L+L 5.0 5.0 5.0
ARB296WA	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. COMMON COMPETENCY COURSE	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and be able to obtain a position related to students academic or career goals (students present job may qualify or permission of instructor Corequisites: Must be concurrently enrolled in at least one class which is related to students major or career interest or with permission of Instructor.	LAB 1.0 5.0 0.0
ARB296WB	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. COMMON COMPETENCY COURSE	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and be able to obtain a position related to students academic or career goals (students present job may qualify or permission of instructor Corequisites: Must be concurrently enrolled in at least one class which is related to students major or career interest or with permission of Instructor.	LAB 2.0 10.0 0.0
ARB296WC	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. COMMON COMPETENCY COURSE	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and be able to obtain a position related to students academic or career goals (students present job may qualify or permission of instructor Corequisites: Must be concurrently enrolled in at least one class which is related to students major or career interest or with permission of Instructor.	LAB 3.0 15.0 0.0
ARB296WD	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. COMMON COMPETENCY COURSE	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and be able to obtain a position related to students academic or career goals (students present job may qualify or permission of instructor Corequisites: Must	LAB 4.0 20.0 0.0

			be concurrently enrolled in at least one class which is related to students major or career interest or with permission of Instructor.	
ARB298AA	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 1.0 1.0 0.0
ARB298AB	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 2.0 2.0 0.0
ARB298AC	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 3.0 3.0 0.0
ARC100	Introduction to Environmental Design	A survey of design through historical evaluation of built environments and works of well-known architects. Principles, concepts, and skills associated with designs of actual and imagined ideas and things. Emphasis on social, technical, environmental, and theoretical forces that impacts design	Prerequisites: None.	L+L 3.0 6.0 6.0
ARC101	Introduction to Western Architecture	Survey of Western Architecture from prehistory to current times. Includes social and philosophical factors shaping predominant styles and theory across the periods.	Prerequisites: None.	LEC 3.0 3.0 3.0
ARC120	Design Fundamentals I	An introduction to architectural drawing and graphic representation methods. Using architectural drawings and graphic representations as visualization, and problem-solving methods.	Prerequisites: None.	L+L 3.0 6.0 6.0

		Emphasis on visual communication, and the application and development of the visual design via process as well as product.		
ARC121	Introduction to Architectural Drafting: Manual	Emphasis on basic techniques and principles of manual architectural drafting. Includes hand lettering, line work, dimensioning, multi-view projection, work in plan, section, and elevation views, design standards, wall details, office procedures, and portfolio development	Prerequisites: None.	L+L 3.0 6.0 6.0
ARC140	Rendering and Portfolio Development	Two-dimensional and three-dimensional drawings and rendering methods, including freehand and/or use of drawing tools for presentation of ideas. Techniques for use of pencil, ink, and colors. Professional formatting of portfolios	Prerequisites: None.	L+L 3.0 6.0 6.0
ARC141	Architectural CAD I: Introduction	Introduction to Computer Aided Drafting (CAD) for Architecture, Interior Design, and related professions using AutoCAD software. Includes basic operational systems, drawing set-ups, architectural formats, and two-dimensional drawing. Editing commands, annotation, and plotting for the industry also included.	Prerequisites: None.	L+L 3.0 6.0 6.0
ARC142	Architectural CAD II: Plans and Elevations	Computer Aided Drafting (CAD) instruction directed to the creation of fully annotated plan, elevation, and schematic section views including dimensions, notes, symbols, and schedules. Introduction to three-dimensional (3D) CAD using SketchUp.	Prerequisites: A grade of C or better in ARC141 or permission of Instructor.	L+L 3.0 6.0 6.0
ARC143	Architectural CAD: Extended Study	Reinforcement and extended study of basic two-dimensional computer aided drafting (CAD) skills for Architecture, Interior Design, and related professions using AutoCAD software. Includes sending/receiving drawing files on web; templates/set-ups; dimension/text formats; sheet management; external referencing, design center, basic/extended drawing and editing commands, and plotting.	Prerequisites: A grade of C or better in ARC141 or permission of Instructor.	L+L 3.0 6.0 6.0
ARC146	Architectural Print Reading	Analysis and interpretation of architectural working drawings including written specifications and drawings prepared by consulting engineers.	Prerequisites: None.	L+L 3.0 3.0 3.0
ARC148	Methods and Materials of Construction	Modern methods of construction and materials for residential, multiple, and commercial building, including the four types of structures used: wood, concrete, steel and masonry. Methods of assembly and how different materials can be used to create desired designs. Requirements of most recent building codes and the F.H.A. standards	Prerequisites: None.	LEC 3.0 3.0 3.0

ARC150	Architectural Desktop I	Residential construction drawing using Architectural Desktop (ADT). Includes preliminary workspace setups, configuration procedures, modules operations, and on screen menus applicable for producing components of a building model.	Prerequisites: A grade of C or better in CON130 or permission of Department or Division.	L+L 3.0 6.0 6.0
ARC160	Site Planning	Emphasis on the basic art of site planning, using professional design techniques and principles of architecture to develop site plans. Selection of materials, awareness of problems, and emphasis on the production of site plan drawings using board and/or computer aided drafting (CAD) skills.	Prerequisites: A grade of C or better in DFT122 or permission of Program Director.	L+L 3.0 6.0 6.0
ARC161	Residential Architectural Drafting	Basics of residential drafting and documentation topics and techniques. Includes preliminary planning and preparation for residential documentation; use of the local building codes and standards; complete drawing and annotation of a floor plan, reflected ceiling plan, roof plan, a building sections, framing plan, and exterior elevations.	Prerequisites: A grade of C or better in CON130 or permission of Department or Division.	L+L 3.0 6.0 6.0
ARC162	Advanced Residential Architectural Drafting	Advanced residential drafting and documentation topics and techniques. Includes site orientation, layout and legal description; window and door schedules; interior elevation of kitchen and bath rooms; advanced instruction on framing and structural detail methods; foundation systems, support and layout; and other needed residential details and layouts.	Prerequisites: A grade of C or better in ARC161 and CON230 or permission of Department or Division.	L+L 3.0 6.0 6.0
ARC163	Commercial Architectural Drafting	Fundamental commercial drafting and documentation topics and techniques. Includes preliminary planning and preparation for commercial documentation; use of the local building codes and standards; building methods and materials of commercial structures; complete drawing and annotation of a floor plan, reflected ceiling plan, roof plan, building sections, and exterior elevations.	Prerequisites: A grade of C or better in CON130 or permission of Department or Division.	L+L 3.0 6.0 6.0
ARC164	Advanced Commercial Architectural Drafting	Further development of advanced commercial drafting and documentation topics and techniques. Covers commercial building materials and methods, specifications, land drawings, foundation plans, interior elevations, and more details specific to commercial buildings.	Prerequisites: A grade of C or better in (ARC163 and CON130) or permission of Department or Division.	L+L 3.0 6.0 6.0
ARC165	Introduction to Architecture Professional Practice and Ethics	Professional, legal, and ethical issues in architecture practice and services. Includes marketing issues, communications, standards, insurance and bonds, agreements, contracts and	Prerequisites: None.	LEC 3.0 3.0 3.0

		contractors, standard American Institute of Architecture (AIA) forms and conditions, selection of contractors, and bidding procedures		
ARC201	Architectural History: Prehistory to Rococo	In depth analysis of Western Architecture from Prehistory to 1730. Includes social, religious, political, philosophical, scientific, and environmental factors shaping predominant styles of the historical periods.	Prerequisites: None.	LEC 3.0 3.0 3.0
ARC202	Architectural History: Modern Architecture	In-depth analysis of Western Architecture from the Industrial Revolution to current times. Includes social factors, theory, and polemics shaping predominant styles of the modern periods.	Prerequisites: None.	LEC 3.0 3.0 3.0
ARC225	Fundamentals of Architectural Detailing	Introduction to construction /architecture detailing. Examines functional, construction-related, and aesthetic applications of detailing.	Prerequisites: A grade of C or better in CON130 or CON252 or permission of Department or Division.	LEC 3.0 3.0 3.0
ARC226	Advanced Architectural Detailing	Advanced methods of detailing major construction materials such as wood, steel, and concrete, ranging from simple residential to more complicated commercial structures. Includes detailing foundations, exterior and interior walls, roof and ceiling areas.	Prerequisites: A grade of C or better in CON130 or CON252 or permission of Department or Division.	LEC 3.0 3.0 3.0
ARC243	Architectural CAD III: Site Plans and Sections	Computer-aided drafting (CAD-based) instruction directed to the creation of fully annotated site plans and sectional views. Development of professional quality site plans, wall sections, and building sections working from given residential and commercial layouts. Assignments incorporate applicable codes, construction materials and methods and office practices typical to the local area.	Prerequisites: A grade of C or better in ARC142 or permission of Department or Division.	L+L 3.0 6.0 6.0
ARC244	Architectural CAD IV: Structural Systems	CAD-based(Computer-Aided Drafting) instruction for layout and completion of fully annotated structural drawings. Focuses on working from residential and commercial layouts to develop professional quality roof, roof framing, floor framing and foundation plans. Emphasis on the use of applicable codes, construction materials and methods, and office practices typical to the local area	Prerequisites: A grade of C or better in ARC142 or permission of Department or Division.	L+L 3.0 6.0 6.0
ARC245	Architectural CAD V: Mechanical and Electrical Systems	CAD-based(Computer-Aided Drafting) instruction for layout and completion of fully annotated building systems drawings. Focuses on working from residential and commercial layouts to develop professional quality Electrical, Mechanical(HVAC), Plumbing and Reflected Ceiling plans. Emphasis on the use of applicable codes,	Prerequisites: A grade of C or better in ARC142 or permission of Department or Division.	L+L 3.0 6.0 6.0

		construction materials and methods, and office practices typical to the local area		
ARC246	Architectural CAD VI: Construction Details	Typical southwestern construction systems and details. Creation of personal standard detail files for wood frame, concrete masonry, and other specialized construction systems.	Prerequisites: A grade of C or better in ARC243 or permission of Department or Division.	L+L 3.0 6.0 6.0
ARC250	Basic Revit	Basic skills required to complete architectural drawings with Revit software; simplified overview of the software program and operations gained through completing typical plan, elevation, sectional, and 3D views, using generic walls and related components.	Prerequisites: None. ARC141, or previous AutoCAD/industry experience recommended.	L+L 3.0 6.0 6.0
ARC251	Intermediate Revit	Comprehensive use of Revit Design Development tools through the development of 3-D model(s) in working drawing and rendered formats. Includes completing a set of construction documents from creating walls, incorporating doors, windows, floor, stairs, etc., to adding views and annotation to various sheets and coordinating those sheets within the finished set.	Prerequisites: None. ARC250 or previous architectural and CAD experience strongly recommended.	L+L 3.0 6.0 6.0
ARC252	Advanced Revit	Advanced applications and use of REVIT architectural software in completing assigned projects; focus on customization of the Revit environment and developing Revit families.	Prerequisites: A grade of C or better in ARC251 or permission of Instructor.	L+L 3.0 6.0 6.0
ARC255	Introduction to Revit Structure	Introduction to Revit Structure software, addressing specialized options and processes used in structural engineering offices; includes project modeling, model analysis, reinforcement modeling, detailing, and documentation.	Prerequisites: None. Previous educational/professional experience in architecture or structural engineering strongly recommended.	L+L 3.0 6.0 6.0
ARC261	Architectural CAD 3D I: Introduction	Introduction to construction, manipulating, and rendering three-dimensional (3D) objects and architectural spaces on the computer using AutoCAD software.	Prerequisites: A grade of C or better in ARC141 or equivalent or permission of Department or Division. ARC142 suggested but not required.	L+L 3.0 6.0 6.0
ARC262	Architectural CAD 3D II: ADT and VIZ	Additional skill development in constructing, manipulating, and rendering three-dimensional (3D) architectural computer models using AutoCAD Architectural Desktop (ADT) and Viz Render (VIZ) software	Prerequisites: A grade of C or better in ARC261 or equivalent or permission of Department or Division.	L+L 3.0 6.0 6.0
ARC265	Sketchup I: Introduction to Sketchup	Provides students with introductory level instruction utilizing Sketchup rendering software for school and workplace applications. Addresses basic drawing/rendering commands, accessing external drawing files, and plotting through the creation of both three-dimensional schematic and	Prerequisites: None. Previous CAD experience recommended but not required.	L+L 3.0 6.0 6.0

		rendered interior and exterior building views.		
ARC266	Sketchup II: Advanced Rendering Techniques	Provides students with advanced instruction utilizing Sketchup, Google Earth, Sandbox and Podium rendering software for school and workplace applications. Creation of photo-realistic rendered three-dimensional interior and exterior building/site views.	Prerequisites: A grade of C or better in ARC265/INT251 or permission of Instructor.	L+L 3.0 6.0 6.0
ARC270	Architectural Technology Synthesis	Provides students an opportunity to integrate and synthesize knowledge and skills acquired in prerequisite courses. Includes completion of a full set of working drawings using AutoCAD under supervision comparable to workplace situations. Designed to provide practice in self-checking work, correcting and editing drawings, and assembling a portfolio.	Prerequisites: A grade of C or better in (ARC243 and ARC244 and ARC245) or permission of Instructor.	L+L 3.0 6.0 6.0
ARC282AA	Volunteerism for Architecture: A Service Learning Experience	Service-learning field experience within private/public agencies and citizen volunteer groups.	Prerequisites: Permission of Department or Division.	LAB 1.0 1.0 0.0
ARC282AB	Volunteerism for Architecture: A Service Learning Experience	Service-learning field experience within private/public agencies and citizen volunteer groups.	Prerequisites: Permission of Department or Division.	LAB 2.0 2.0 0.0
ARC282AC	Volunteerism for Architecture: A Service Learning Experience	Service-learning field experience within private/public agencies and citizen volunteer groups.	Prerequisites: Permission of Department or Division.	LAB 3.0 3.0 0.0
ARC290AA	Architecture Internship	Architecture internship office and field experience with private agencies, public agencies, or citizen volunteer groups.	Prerequisites: A grade of C or better in ARC282++ or permission of Department or Division.	LAB 1.0 1.0 0.0
ARC290AB	Architecture Internship	Architecture internship office and field experience with private agencies, public agencies, or citizen volunteer groups.	Prerequisites: A grade of C or better in ARC282++ or permission of Department or Division.	LAB 2.0 2.0 0.0
ARC290AC	Architecture Internship	Architecture internship office and field experience with private agencies, public agencies, or citizen volunteer groups.	Prerequisites: A grade of C or better in ARC282++ or permission of Department or Division.	LAB 3.0 3.0 0.0
ARC296WA	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. COMMON COMPETENCY COURSE	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and be able to obtain a position related to students academic or career goals (students present job may qualify or permission of instructor Corequisites: Must be concurrently enrolled in at least one class which is related to students major or career interest or with permission of Instructor.	LAB 1.0 5.0 0.0
ARC296WB	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and be able to	LAB 2.0 10.0 0.0

		students. COMMON COMPETENCY COURSE	obtain a position related to students academic or career goals (students present job may qualify or permission of instructor Corequisites: Must be concurrently enrolled in at least one class which is related to students major or career interest or with permission of Instructor.	
ARC296WC	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. COMMON COMPETENCY COURSE	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and be able to obtain a position related to students academic or career goals (students present job may qualify or permission of instructor Corequisites: Must be concurrently enrolled in at least one class which is related to students major or career interest or with permission of Instructor.	LAB 3.0 15.0 0.0
ARC296WD	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. COMMON COMPETENCY COURSE	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and be able to obtain a position related to students academic or career goals (students present job may qualify or permission of instructor Corequisites: Must be concurrently enrolled in at least one class which is related to students major or career interest or with permission of Instructor.	LAB 4.0 20.0 0.0
ARC298AA	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 1.0 1.0 0.0
ARC298AB	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize	Prerequisites: Permission of Program Director or Instructor.	LAB 2.0 2.0 0.0

		student development. COMMON COMPETENCY COURSE		
ARC298AC	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 3.0 3.0 0.0
ARH100	Introduction to Art	Understanding and enjoyment of art and visual culture through study of two-dimensional and three-dimensional works of art, design elements, media and processes, and cultural contexts. Emphasis on contemporary topics and cultural diversity in the arts.	Prerequisites: None.	LEC 3.0 3.0 3.0
ARH101	Prehistoric through Gothic Art	History of art from prehistoric through medieval period	Prerequisites: None.	LEC 3.0 3.0 3.0
ARH102	Renaissance Through Contemporary Art	History of art from around the world from the Renaissance through contemporary period	Prerequisites: None.	LEC 3.0 3.0 3.0
ARH109	History of American Art	Development and variety of American Art. Presentation of architecture, sculpture, painting and decorative objects	Prerequisites: None.	LEC 3.0 3.0 3.0
ARH110	History of Graphic Design	Survey of the history of graphic design from its origins to the present. Traces the characteristics, aesthetics and the reciprocal influence of design and society. Includes movements and individual designers. Emphasizes the function of design as a distinct but equal branch of human visual communication and the role of design as the dominant visual exercise of the contemporary world	Prerequisites: None.	LEC 3.0 3.0 3.0
ARH112	History of Modern Art	Development of and significant aspects of modern art since the mid-nineteenth century. Emphasis on modern art's relationship to socio-political and aesthetic developments, new media and the rise of mass culture.	Prerequisites: None.	LEC 3.0 3.0 3.0
ARH115	History of Photography	Survey of history of photography from beginning to present. Emphasizes medium's impact upon society and other visual arts. Technical developments, aesthetic concerns, and individual photographers studied	Prerequisites: None.	LEC 3.0 3.0 3.0
ARH118	Introduction to Chinese Art	Explores Chinese philosophy, symbolism, history and religions that underlie the choice of subject matter and life forms in Chinese art. Uses Chinese bamboo brush, ink and rice	Prerequisites: None.	L+L 3.0 3.0 3.0

		paper to study Chinese calligraphy and traditional subjects for painting		
ARH145	History of American Indian Art	Survey of American Indian Art from precontact to present. Reviews the impact of these art forms on contemporary American society, other world societies and on the visual arts. Explores characteristics, cultural influences and concerns represented in various art forms past and present. Features field trips to galleries and collections	Prerequisites: None.	LEC 3.0 3.0 3.0
ARH201	Art of Asia	Introduction to the origins and historic development of art in Asia, with emphasis on China, Japan, and India	Prerequisites: None.	LEC 3.0 3.0 3.0
ARH203	Art of Ancient Egypt	The art and culture of ancient Egypt from prehistoric through the Greco-Roman period	Prerequisites: None.	LEC 3.0 3.0 3.0
ARH204	Roman Art and Architecture	Detailed examination of the art and architecture of ancient Rome from the monarchical period to the late empire, with emphasis on the visual culture and artifacts of the civilization.	Prerequisites: None.	LEC 3.0 3.0 3.0
ARH216	Pre-Columbian Art History	Art of the Americas prior to European contact, focusing on Mesoamerica and the Central Andean region and their respective adjoining areas, with some attention to the U.S. Southwest and Eastern Woodlands Mound Building cultures	Prerequisites: None.	LEC 3.0 3.0 3.0
ARH217	Mexican Art History	Art of Mexico and related cultures, from the prehistoric to the contemporary period	Prerequisites: None.	LEC 3.0 3.0 3.0
ARH240	Art and Architecture of the Islamic World to 1800	Introduction to the principal achievements in art and architecture of the Islamic world circa 650-1800 CE and placing them in social and cultural contexts and consideration of the historical evolution of Western knowledge and understanding of these works	Prerequisites: None.	LEC 3.0 3.0 3.0
ARH250	Visual Language and Interpretation	Examines the communication of concepts through visual interpretation and expression.	Prerequisites: A grade of C or better in (ART111, ART112, ART131, ART167 and ARH100) or permission of instructor.	LEC 1.0 1.0 1.0
ARH298AA	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 1.0 1.0 0.0

ARH298AB	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 2.0 2.0 0.0
ARH298AC	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 3.0 3.0 0.0
ART100	Introduction to Digital Arts	Foundation course in digital arts and design, with emphasis in the production of art using the computer.	Prerequisites: None.	L+L 1.0 2.0 2.0
ART103	Typography in the Digital Age	Survey of the history of typography and individual designers. Emphasis on the function of typography as an integral part of effective visual communication. Study of type anatomy, mechanics, characteristics, structure, and the principles of effective selection and the relation of copy and image in graphic design. Evaluate fonts both visually and technically and learn how to manage them.	Prerequisites: A grade of C or better in ART100 or permission of Instructor.	L+L 3.0 6.0 6.0
ART104	Cross-Media Marketing for Designers	Role of graphic designer in business with an emphasis on using graphic design to achieve marketing and sales objectives. Variety of communication channels explored, such as print and digital and including social media, web, and mobile media.	Prerequisites: None.	L+L 3.0 6.0 6.0
ART105	Art Beyond the Classroom	Visual arts experience. Includes field trips to galleries, museums, and collections as well as art lectures, demonstrations, and varied studio experiences.	Prerequisites: None.	L+L 1.0 2.0 2.0
ART106	Gallery Operations	Operation of an art gallery. Includes organization, publicity, evaluation of artwork, selection and installation of exhibits.	Prerequisites: Permission of Instructor.	L+L 3.0 6.0 6.0
ART110	Experimental Chinese Painting	Explores ancient Chinese techniques with rice paper and Chinese ink to create traditional and nontraditional designs. Emphasis on use of Chinese techniques in mixed media works.	Prerequisites: None.	L+L 1.0 2.0 2.0

ART111	Drawing I	Fundamental principles of drawing. Emphasis on composition and facility in objective and expressive representation, using variety of drawing media	Prerequisites: None.	L+L 3.0 6.0 6.0
ART112	Two-Dimensional Design	Study of fundamental elements and principles of two-dimensional design.	Prerequisites: None.	L+L 3.0 6.0 6.0
ART113	Color	Investigation seeking visual solutions to a variety of problems concerning color in two and three dimensions and modes of color appearances, including light and effects in design and theory of design.	Prerequisites: None.	L+L 3.0 6.0 6.0
ART114	Digital Color	Overview of how color is perceived and utilized in a digital environment and how to ensure consistent color from capture to final output in print or online. Investigate visual solutions utilizing electronic devices for color correction, manipulation and integrity.	Prerequisites: None.	L+L 3.0 6.0 6.0
ART115	Three-Dimensional Design	Fundamental principles of three-dimensional design.	Prerequisites: None.	L+L 3.0 6.0 6.0
ART116	Life Drawing I	Use of form, structure and anatomy of draped and undraped human figure to develop basic principles of sound draftsmanship	Prerequisites: None.	L+L 3.0 6.0 6.0
ART117	Life Drawing II	Further study of form, structure, and anatomy of the draped and undraped human figure with emphasis on composition	Prerequisites: A grade of C or better in ART116.	L+L 3.0 6.0 6.0
ART118	Art Anatomy	Artistic study of the concept of anatomical unity. Principle skeletal and muscular structures affecting surface form of the human figure. Includes drawing project, portfolio, and tests.	Prerequisites: A grade of C or better in ART116 or permission of Instructor.	L+L 3.0 6.0 6.0
ART119	Penciling for Sequential Art	Development of observational skills as they apply to sequential art. Emphasis on techniques that showcase how characters interact with their environment and manipulate props and cartooning anatomy. Includes techniques on composing page layouts, adapting scripts and reference gathering.	Prerequisites: A grade of C or better in ART100 or permission of Instructor.	L+L 3.0 6.0 6.0
ART120	Inking for Sequential Art	Development of inking materials and techniques used in sequential art. Emphasis on the types of tools used in the industry and the various means of employing them. Understanding the duties of the inker and the process of computer finishing.	Prerequisites: None.	L+L 3.0 6.0 6.0
ART122	Drawing and Composition II	Emphasis on composition and exploration of drawing media	Prerequisites: A grade of C or better in ART111.	L+L 3.0 6.0 6.0
ART131	Photography I	Basic photographic principles and techniques. Basic camera functions and controls. Experience in the image-making process by creating and editing photographs for various display environments. Introduction to the	Prerequisites: None.	L+L 3.0 6.0 6.0

		photographic aesthetic and photography's role in society.		
ART132	Photography II	Advanced camera and darkroom techniques. Aesthetic awareness with personal expression	Prerequisites: A grade of C or better in ART131 or permission of Instructor.	L+L 3.0 6.0 6.0
ART133	Photography III	Refinement of aesthetic and technical aspects producing convincing images of highest quality	Prerequisites: A grade of C or better in ART132 or permission of Instructor.	L+L 3.0 6.0 6.0
ART134	Photography IV	Emphasis on personal statement and style. Related graphic art forms explored. Development of portfolio	Prerequisites: A grade of C or better in ART133 or permission of Instructor.	L+L 3.0 6.0 6.0
ART135	Photojournalism I	Basic technical knowledge of photographic process as applied by mass media	Prerequisites: A grade of C or better in ART131 or permission of Instructor.	L+L 3.0 6.0 6.0
ART137	Alternative Photographic Processes	Emphasis on development of alternative photographic processes including technique, aesthetics, and creative imagery. Exploration of various types of non-silver photographic processes including cyanotype, Van Dyke, Polaroid imaging, and others	Prerequisites: None.	L+L 3.0 6.0 6.0
ART138	Commercial Photography I	Basic techniques of lighting, camera work, and reproduction of commercial photography. Cooperation with commercial art community.	Prerequisites: A grade of C or better in (ART131 or ART142) or permission of Instructor.	L+L 3.0 6.0 6.0
ART139	Commercial Photography II	Advanced techniques with portfolio organization and presentation	Prerequisites: A grade of C or better in ART138.	L+L 3.0 6.0 6.0
ART140	Portrait Photography	Fundamentals of portrait photography. Basic techniques of lighting, posing, design, and digital workflows applicable to the industry. Theory and practices of a portrait photography business.	Prerequisites: A grade of C or better in ART131, or ART142, or permission of Instructor.	L+L 3.0 6.0 6.0
ART142	Introduction to Digital Photography	Fundamentals of digital photography. Includes camera operations, exposure techniques, introduction to digital output, and theory of digital photography.	Prerequisites: None.	L+L 3.0 6.0 6.0
ART143	Intermediate Digital Photography	Intermediate theory and techniques of digital photography. Aesthetic awareness and personal expression from image capture through intermediate techniques in the digital darkroom. Introduction to high-resolution digital output.	Prerequisites: A grade of C or better in ART142 or permission of Instructor.	L+L 3.0 6.0 6.0
ART145	Digital Storybook	Enables students to find and develop a narrative representing an aspect of their personal histories. Use of digital technology to produce and archive a storybook.	Prerequisites: None.	L+L 1.0 2.0 2.0
ART150	Digital Storytelling	Enables students to find and develop their personal stories. Emphasis on the use of digital technology to create, edit, produce and archive a digital story	Prerequisites: None.	L+L 3.0 6.0 6.0
ART151	Sculpture I	Exploration of sculptural form and expression in clay, plaster, stone, wood and metal.	Prerequisites: None.	L+L 3.0 6.0 6.0
ART152	Sculpture II	Emphasis on control of sculptural media	Prerequisites: A grade of C or better in ART151.	L+L 3.0 6.0 6.0

ART153	Woodworking I	Fundamental woodworking techniques to produce creative functional and sculptural, three-dimensional objects.	Prerequisites: None.	L+L 3.0 6.0 6.0
ART154	Woodworking II	Advanced design, joinery, fixture building, and woodworking techniques. Application of design principles.	Prerequisites: A grade of C or better in ART153.	L+L 3.0 6.0 6.0
ART155	Glass Fusing and Slumping I	Introduction to the basics involved in glass fusing and slumping. The concepts of glass, glass fusing, and glass slumping will be covered with hands-on experience using a variety of techniques to create finished glass projects such as jewelry, dishes, frames, and door bells.	Prerequisites: None.	L+L 3.0 6.0 6.0
ART156	Glass Fusing and Slumping II	Further study in the area of glass fusing and slumping. Advanced techniques including Pate-de-Verre, Pattern Bars, watchbands, bracelets, and patterned dishes.	Prerequisites: A grade of C or better in ART155.	L+L 3.0 6.0 6.0
ART158	Introduction to Glass Blowing	Introduction to the basics involved in free hand blowing glass. The concepts of hot glass, glass shaping, and glass blowing will be covered with hands-on experience using a variety of techniques to create finished glass projects such as spheres, cones, cups, and other hollow glass objects.	Prerequisites: None.	L+L 3.0 6.0 6.0
ART159	Intermediate Glass Blowing	Further study in the area of glass blowing. Advanced techniques including traditional techniques as well as further investigation into color, form, and scale.	Prerequisites: A grade of C or better in ART158.	L+L 3.0 6.0 6.0
ART160	Advanced Glass Blowing	Further study in the area of glass blowing with emphasis on advanced techniques and design considerations, such as sculpting, larger scale projects, working in multiples, and further refinement of technical skill.	Prerequisites: A grade of C or better in ART159.	L+L 3.0 6.0 6.0
ART161	Ceramics I	Introduction to ceramic materials and techniques of hand construction, decorating, glazing and throwing on potters' wheel	Prerequisites: None.	L+L 3.0 6.0 6.0
ART162	Ceramics II	Major emphasis on wheel throwing, glaze making and decorating techniques	Prerequisites: A grade of C or better in ART161.	L+L 3.0 6.0 6.0
ART164	Introduction to Drawing and Digital Paint	Essential skills, concepts and use of digital media for drawing and painting. From concept to line-drawing; use of value, texture, color, lighting, space and scale elements to execute a finished rendering	Prerequisites: A grade of C or better in ART100 or permission of Instructor.	L+L 3.0 6.0 6.0
ART164AC	Introduction to Drawing and Digital Paint III	Essential skills, concepts and use of digital media for drawing and painting to execute a finished rendering and output formats.	Prerequisites: Permission of Instructor.	L+L 1.0 2.0 2.0
ART165	Watercolor Painting I	Transparent and Gouache watercolor painting.	Prerequisites: A grade of C or better in (ART111 and ART112) or permission of Instructor.	L+L 3.0 6.0 6.0

ART166	Watercolor Painting II	Painting in water soluble media. Emphasis on individual techniques and design.	Prerequisites: A grade of C or better in ART165.	L+L 3.0 6.0 6.0
ART167	Painting I	Exploration of technical and expressive possibilities of various media in painting.	Prerequisites: A grade of C or better in (ART111 and ART112) or permission of Instructor.	L+L 3.0 6.0 6.0
ART168	Painting II	Continued refinement of painting skills and investigation of new possibilities in painting	Prerequisites: A grade of C or better in ART167 or permission of Instructor.	L+L 3.0 6.0 6.0
ART169	2D Media Design	Generation of two-dimensional (2D) images, designs, and media using digital and traditional methods of visual problem solving. Understanding digital and design-based techniques and workflows.	A grade of C or better required in all Prerequisites. Prerequisites or Corequisites: ART100 or permission of Instructor.	L+L 3.0 6.0 6.0
ART170	3D Computer Design	Artistic manipulation of computer images. Emphasis on color and three-dimensional (3D) design in production of these images. Existing software used to generate three-dimensional art.	Prerequisites: A grade of C or better in ART100 or ADA/ART169 or permission of Instructor.	L+L 3.0 6.0 6.0
ART171	Jewelry I	Fundamentals of jewelry making. Covers hand formed methods, including cutting, shaping, forging, soldering, and lost wax technique	Prerequisites: None.	L+L 3.0 6.0 6.0
ART172	Jewelry II	Further refinement of personal expression using techniques and design concepts of ART171	Prerequisites: A grade of C or better in ART171.	L+L 3.0 6.0 6.0
ART173	Computer Art	Introduction to the multiple elements of paint software programs using the microcomputer. Basic foundation in the use of computer techniques including color paint programs for the production of computer images. Use of electronic input and output devices.	Prerequisites: A grade of C or better in ART100 or permission of Instructor.	L+L 3.0 6.0 6.0
ART174	Electronic Color Principles	Interactive use of color for graphic communication. Color theory, color relationships and electronic color manipulation for computer graphic art, animation and multimedia.	Prerequisites: A grade of C or better in ART100 or Corequisites: ART100.	L+L 1.0 2.0 2.0
ART175	Electronic Publishing Design I	Introduction to the multiple elements of commercial publishing using the microcomputer. Basic foundation in the use of electronic page layout techniques. Emphasis on publication design layout and concepts.	Prerequisites: A grade of C or better in ART100 or Corequisites: ART100 or permission of Instructor.	L+L 3.0 6.0 6.0
ART177	Digital Photographic Imaging I	Introduction to multiple elements of digital imaging. Basic foundation in photographic manipulation of images, with special attention to aesthetic foundations underlying photographic composition.	A grade of C or better required in all Prerequisites. Prerequisites or Corequisites: ART100 or permission of Instructor.	L+L 3.0 6.0 6.0
ART178	Digital Arts Studies	Designed for broad overview of the digital arts. Experience in digital based media, creative problem solving, design and aesthetics.	Prerequisites: A grade of C or better in ART100 or permission of Instructor.	L+L 3.0 6.0 6.0

ART179	Electronic Presentation Design	Introduction to the multiple elements of commercial-graphic presentation materials using the microcomputer and other advanced technologies. Basic foundation in the use of computer presentation software programs using presentation techniques. Special attention to aesthetic foundations underlying all presentation materials.	Prerequisites: A grade of C or better in ART100 or Corequisites: ART100 or permission of Instructor.	L+L 3.0 6.0 6.0
ART180AC	Designer's Tools: Quark Express	Introduction to the multiple elements of Quark Express, a visual art adaptation software package using the Macintosh microcomputer. Basic foundation course in the use of electronic techniques, including appropriate input and output production devices	Prerequisites: A grade of C or better in ART100 or permission of Instructor.	L+L 1.0 2.0 2.0
ART180AD	Designer's Tools: Adobe Illustrator	Introduction to the multiple elements of Adobe Illustrator, a visual art adaptation software package using the Macintosh microcomputer. Basic foundation course in the use of electronic techniques, including appropriate input and output production devices.	Prerequisites: A grade of C or better in ART100 or permission of Instructor.	L+L 1.0 2.0 2.0
ART180AE	Designer's Tools: Adobe Photoshop	Introduction to the multiple elements of Photoshop software package using the microcomputer. Basic foundation in the use of electronic techniques including appropriate input and output production devices.	Prerequisites: A grade of C or better in ART100 or permission of Instructor.	L+L 1.0 2.0 2.0
ART180AI	Designer's Tools:3-D Studio Textures	Introduction to multiple elements of 3-D studio material using DOS microcomputers. Basic foundation in the use of electronic input and output production devices.	Prerequisites: A grade of C or better in ADA/ART/MMT184 or ART284 or permission of Instructor.	L+L 1.0 2.0 2.0
ART180AJ	Designer's Tools:3-D Special Effects	Introduction to multiple elements of 3-D studio special effects software using DOS microcomputer. Basic foundation in the use of electronic input and output production devices.	Prerequisites: A grade of C or better in ADA/ART/MMT184 or ART284 or permission of Instructor.	L+L 1.0 2.0 2.0
ART180AK	Designer's Tools: Adobe Premiere	Basic functions and use of Adobe Premiere video editing software. Applications for computer animation, multimedia, and digital video production.	Prerequisites: A grade of C or better in ART100. ADA/ART/MMT184 is strongly recommended but not required.	L+L 1.0 2.0 2.0
ART180AL	Designer Tools: Character Studio	Character Studio 3D-Character Animation software. Character motion, editing and blending electronic with traditional techniques.	Prerequisites: A grade of C or better in ART100 and ADA/ART/MMT184. ART116 is recommended but not required.	L+L 2.0 5.0 5.0
ART180AM	Designer's Tools: Dreamweaver	Introduction to Dreamweaver software and Web editing process. Developing sites, automating production, Web design integration using graphics, and graphics output. Learn powerful Web editing methods.	Prerequisites: A grade of C or better in ART100 or permission of Instructor.	L+L 1.0 2.0 2.0
ART180AN	Designer's Tools: Flash	Introduction to Flash software. Basic foundation in Flash vector graphics, 2D	Prerequisites: A grade of C or better in (ART180AD and	L+L 1.0 2.0 2.0

		and 3D animation and creation of full motion video with sound.	ART180AE) or permission of Instructor.	
ART180AP	Designer's Tools: Photoshop for Multimedia	Advanced Adobe Photoshop techniques for multimedia. Foundations in imaging for animation, Web, graphics, digital video and offset graphics.	Prerequisites: A grade of C or better in ART180AE or permission of Instructor.	L+L 1.0 2.0 2.0
ART180AR	Designer's Tools: Final Cut Pro	Introduction to non-linear editing using Final Cut Pro software for graphics, animation and the Web applications	Prerequisites: A grade of C or better in ART100 or permission of Instructor.	L+L 1.0 2.0 2.0
ART180AS	Designer's Tools: Adobe InDesign	Basic functions and operations of Adobe InDesign software. Application for graphic design, publishing, digital pre-press production and web layout	Prerequisites: A grade of C or better in ART100 or permission of Instructor.	L+L 1.0 2.0 2.0
ART180AT	Designer's Tools: Adobe After Effects	Introduction to Adobe After Effects software. Digital effects and motion graphics for the WEB, CD-ROM, DVD, video, film and animation	Prerequisites: A grade of C or better in ART100 or permission of Instructor.	L+L 1.0 2.0 2.0
ART181	Graphic Design I	Basic understanding of design principles and the stages of graphic design, with an emphasis on final product and presentation.	Prerequisites: A grade of C or better in ART100 or permission of Instructor.	L+L 3.0 6.0 6.0
ART182	Graphic Design II	Utilizing graphic design essentials of typography, contrast and layout to develop design solutions to problems in consumer advertising, typography and structure.	Prerequisites: A grade of C or better in ART181 or permission of Instructor.	L+L 3.0 6.0 6.0
ART183	Digital Graphic Arts I	Graphic design use in microcomputer; black and white graphics, standard and color brushes, lines, shapes, area fills and fonts. Application to illustration, advertising graphics, typography, and video interaction.	A grade of C or better required in all Prerequisites. Prerequisites or Corequisites: ART100 or permission of Instructor.	L+L 3.0 6.0 6.0
ART184	Digital Animation I	The art of animation (animated sequences, special effects, titles, etc.) using the computer. Construction characters, background graphics, color, scaling, storyboard, cells, timing, editing, and surface rendering. Screening and discussion of selected animated short films and videos.	Prerequisites: A grade of C or better in (ART111 or ART116) or permission of Instructor. Corequisites: ART100 or permission of Instructor.	L+L 3.0 6.0 6.0
ART185	3D Modeling and Animation I	Basic concepts of 3D modeling. Anatomy of computer geometry; basic elements that make computer models—curves, surfaces, non-uniform rational basis spline (NURBS), and polygons. 3D translation, shading, materials, and rendering.	A grade of C or better required in all Prerequisites. Prerequisites or Corequisites: ART100 or permission of Instructor.	L+L 3.0 6.0 6.0
ART187	Perspective Drawing for Animation	Perspective techniques for creating depth illusion as applied to principles of 3D modeling and animation. Study of size relationships, size and space variation, converging lines, vanishing points, overlapping planes. 3D lighting systems and light changes over distance	Prerequisites: None.	L+L 3.0 6.0 6.0
ART190	Art of Web Site Design	Introduction to design production for websites. Layout, typography and presentation style for HTML (Hyper Text	Prerequisites: A grade of C or better in ART100, or	L+L 3.0 6.0 6.0

		Markup Language). Design of mock-ups using digital design software to produce artistic form and content for the Web using Hyper Text Markup Language (HTML), digital text, and graphics. Discussion of color, proportion, typography and Web-specific design principles. Emphasizes design of cross-browser compatible interfaces that optimize usability, accessibility and browser interoperability.	permission of Instructor. CIS133DA recommended.	
ART190AA	Art of Website Design I	Introduction to design production for websites. Layout, typography and presentation style for HTML (Hyper Text Markup Language). Design of mock-ups using digital design software to produce artistic form and content for the Web using Hyper Text Markup Language, digital text, and graphics.	Prerequisites: A grade of C or better in ART100, or permission of Instructor. CIS133DA recommended.	L+L 1.0 2.0 2.0
ART190AB	Art of Website Design II	Producing Web site pages, using design and Hyper Text digital text and graphics. Discussion of color, proportion, typography and Web-specific design principles.	Prerequisites: A grade of C or better in ART100 and ART190AA or permission of Instructor. CIS133DA recommended.	L+L 1.0 2.0 2.0
ART190AC	Art of Website Design III	Producing Web sites using artistic form and content. Emphasizes design of cross-browser compatible interfaces that optimize usability, accessibility and browser interoperability.	Prerequisites: A grade of C or better in ART100 and ART190AB, or permission of Instructor. CIS133DA recommended.	L+L 1.0 2.0 2.0
ART191	Storyboarding and Layout	Introduction to storyboarding including film storytelling and scene presentation.	Prerequisites: A grade of C or better in ART111 or ART187.	L+L 2.0 4.0 4.0
ART192	Advanced Web Presentation Design	Advanced interactive application and training for Web designers and graphic artists using Quark, Illustrator, Photoshop, HTML Flash, Dreamweaver and Digital Video site optimization techniques. Development of design concepts for web pages that communicate and deliver Web content creatively.	Prerequisites: A grade of C or better in ART/MMT190 or permission of instructor. ART180AM and ART180AN suggested but not required.	L+L 3.0 6.0 6.0
ART200	Animation and Interactivity	Animation and object-oriented programming concepts and techniques using industry standard authoring tools applied by the creative industry to animation productions, and interactive media. Introduction to animation and object- oriented programming concepts and techniques using industry standard authorizing tools. Includes tools used by the creative industry for animation productions and interactive media.	Prerequisites: A grade of C or better in ART100 or permission of Instructor.	L+L 3.0 6.0 6.0
ART201	Variable Data Printing	Understanding variable data and all areas including: design, utilizing data, cleaning and creating a database, file setup, prepress and press setup. Software used: Excel, Adobe InDesign, Acrobat.	Prerequisites: A grade of C or better in ART175, or permission of Instructor.	L+L 3.0 6.0 6.0

ART202	Media Productions I	Introduction to digital media production tools, equipment, and broadcast applications. Pre-production including script writing, storyboards, budgeting and copyright; studio and mobile production including the use of cameras, lighting, audio recording, and new media tools; post-production including media editing, transitions, titles, overlays and basic motion graphics.	Prerequisites: A grade of C or better in ART100 or permission of Instructor.	L+L 3.0 6.0 6.0
ART203	Aesthetics of Web Design	Develop portfolio-level web design projects. Emphasis on advanced elements and principles of design. Continued development of aesthetic awareness and personal expression. Evaluation of aesthetic principles throughout semester.	Prerequisites: A grade of C or better in ART/MMT190 or permission of Instructor.	L+L 3.0 6.0 6.0
ART210	Design Tools for Imagery, Production, and Publishing	Industry standard development of image manipulation, digital production, digital negatives, typography, and desktop publishing. New techniques using integrated software with multiple platform applications. Emphasis on alternative processes including: technique, aesthetics and creative imagery.	Prerequisites: A grade of C or better in ART100 and [ADA/ART169 or (ADA/ART180AD, ADA/ART180AE, and ART180AS)] and ART181, or permission of Instructor.	L+L 3.0 6.0 6.0
ART211	Drawing and Composition III	Advanced development of drawing skill with emphasis on compositional theory	Prerequisites: A grade of C or better in ART122 or permission of Instructor.	L+L 3.0 6.0 6.0
ART215	Advanced Electronic Publishing	Advanced use of electronic page layout techniques including in-depth styles; typography; technical documents and digital publishing interactivity.	Prerequisites: A grade of C or better in ADA/ART175.	L+L 3.0 6.0 6.0
ART216	Life Drawing III	Advanced creative study from model in various painting and drawing media	Prerequisites: A grade of C or better in ART117 or permission of Instructor.	L+L 3.0 6.0 6.0
ART217	Life Drawing IV	Further development of skills in expressive drawing materials and techniques as applied to finished drawings of the human form	Prerequisites: A grade of C or better in ART216 or permission of Instructor.	L+L 3.0 6.0 6.0
ART219	Coloring, Toning and Lettering for Sequential Art	Understanding of the digital rules and programs used in coloring, toning and lettering comics, and the problems presented therein within the sequential narrative. Emphasis on rules and guidelines within the industry, and digital coloring and lettering.	Prerequisites: A grade of C or better in (ART100, ART119, and ART120) or permission of Instructor.	L+L 3.0 6.0 6.0
ART220	Publishing for the Comic Industry	Understanding of the comics industry. Includes researching, marketing, packaging, and distributing comics. Emphasis on selling and submitting to comic publishers, how to develop comics for self-publishing, promotional materials, and understanding contracts and copyrights involved in the process of publishing comics.	Prerequisites: A grade of C or better in ART100 or permission of Instructor.	L+L 3.0 6.0 6.0

ART221	Comics Creation	Development of a complete sequential comic, using all comics skills from beginning to end. Process includes scripting, penciling, inking, coloring or toning, lettering, and printing for publication.	Prerequisites: A grade of C or better in (ART100 and ART219) or permission of Instructor.	L+L 3.0 3.0 3.0
ART222	Drawing and Composition IV	Further study of drawing techniques with emphasis on individual problems and techniques	Prerequisites: A grade of C or better in ART211 or permission of Instructor.	L+L 3.0 6.0 6.0
ART227	Estimating for Digital Output	Introduction to estimating for digital output including job costing, labor/time, material and equipment costs. Focus on layout and imposition for press. Learn outside purchasing and vendor relationship management.	Prerequisites: None.	L+L 3.0 6.0 6.0
ART230	Visual Brand Design	Simulates an actual working environment which exposes students to the challenges and advantages of working in cross-functional teams. Topics include preparation for collaborative work environments, critical thinking and communication, messaging, and effectively employing marketing and design principles. Reviews logo creation and implementation, preparing online and offline collateral, creating marketing messaging and campaigns, written and oral communication, and personal presentation skills.	Prerequisites: A grade of C or better in (ART100 and MKT110) or permission of Instructor.	L+L 3.0 6.0 6.0
ART234	Color Photography I	Basic principles of color theory, camera and input and output techniques using slide film or digital photography.	Prerequisites: A grade of C or better in ART131 or ART142 or permission of Instructor.	L+L 3.0 6.0 6.0
ART235	Color Photography II	Basic theories and techniques of color negative materials	Prerequisites: A grade of C or better in ART234 or permission of Instructor.	L+L 3.0 6.0 6.0
ART236	Photography Location Shooting	Practical application of camera techniques, use of lighting, and on-location shooting for post-production printing.	Prerequisites: A grade of C or better in (ART131 OR ART142) OR permission of Instructor.	L+L 3.0 6.0 6.0
ART237	Fashion Photography	Practical application of photographic techniques within the fashion industry. Includes the photographing of models, garments, and accessories.	Prerequisites: A grade of C or better in (ART131 OR ART142) OR permission of instructor.	L+L 3.0 6.0 6.0
ART240	Cinematography and Directing for 2D/3D Animation	Essential skills, concepts and the use of virtual cameras in 2D and 3D animation environments: planning, pre-production, storyboards and pre-visualization using real-world camera principles is combined with rendering, sound and post-production in a nonlinear environment.	Prerequisites: A grade of C or better in (ADA/ART/MMT184, or ART/MMT185, or FMP108) or permission of Instructor.	L+L 3.0 6.0 6.0
ART241	Intaglio	Introduction to traditional concepts and techniques for Intaglio printmaking. Deals with black and white printing; includes brief introduction to color	Prerequisites: A grade of C or better in ART111 and ART113.	L+L 3.0 6.0 6.0

		printing. Covers various tools and materials used in Intaglio		
ART242	Lithography	Provides introduction to concepts and techniques of Lithography, both in plate and stone methods. Focus on black and white Lithographic drawing techniques. Introduction in color printing given	Prerequisites: A grade of C or better in ART111 and ART113.	L+L 3.0 6.0 6.0
ART246	Digital Fabrication	Introduction to concepts and application of computer visualization, modeling, and rapid prototyping for interdisciplinary arts. Students will design sculptures applying 3D computer modeling techniques, rapid prototyping, and other available digital output devices to produce solid models.	Prerequisites: None.	L+L 3.0 6.0 6.0
ART248	Design Self Promotion	Defining career goals, and developing a self-promotional marketing plan to enter the workplace, including a resume, business card, leave behind, social media presence, interactive portfolio and printed portfolio. Understand business ethics and etiquette, artist's rights, copyright laws and contractual agreements, and develop networking, interview and communication skills.	Prerequisites: None.	L+L 3.0 6.0 6.0
ART249	Visual Communication Project Management and Workflow	Communication and coordination of digital projects from inception through completion. Emphasis on job workflow including professional communication, time management, detailed follow through and conflict resolution with stakeholders.	Prerequisites: A grade of C or better in ART100 or permission of Instructor.	L+L 3.0 6.0 6.0
ART250	Introduction to Printmaking	Introduction to concepts and techniques involved in Fine Art field of Printmaking. Deals with three most basic Printmaking modes of Serigraphy, Woodcut, and Monoprinting in first part of course. Overview of Etching, Lithography and Papermaking in second part of course.	Prerequisites: A grade of C or better in ART111 and ART113.	L+L 3.0 6.0 6.0
ART251	Sculpture III	With emphasis on attention to individual problems and techniques	Prerequisites: A grade of C or better in ART152.	L+L 3.0 6.0 6.0
ART252	Sculpture IV	Advanced sculpture problems and professional practices	Prerequisites: A grade of C or better in ART251.	L+L 3.0 6.0 6.0
ART253	Woodcut	Focuses on relief method of printing, utilizing the techniques of Woodcut. Deals specifically with black and white images. Study of printing materials and tools, papers and printing methods. Relief printing in color introduced. Traditional forms of Woodcut, also an overview of innovative techniques in the field	Prerequisites: A grade of C or better in ART111 and ART113.	L+L 3.0 6.0 6.0
ART255	Art Marketing	Career goals, presentation of artist and art work (portfolio, resume, business cards, catalog), pricing and selling works, networking, establishing a studio, promotion and publicity, writing press releases, proposal writing, business	Prerequisites: None.	LEC 3.0 3.0 3.0

		ethics, artist rights, copyright law, contracts and agreements, royalties, record keeping, and communication skills		
ART255AA	Self Promotion	Career goals, presentation of artist, communication skills, keeping files and records, developing self-promotional materials	Prerequisites: None.	LEC 1.0 1.0 1.0
ART255AB	The Portfolio	Choosing the right pieces to include, presenting art work, developing the portfolio.	Prerequisites: None.	LEC 1.0 1.0 1.0
ART255AC	Marketing Fine Art	Exhibitions and galleries, establishing a studio, alternative markets	Prerequisites: A grade of C or better in ART255AB or permission of Instructor.	LEC 1.0 1.0 1.0
ART256	Glass Fusing and Slumping III	Further study in the area of glass fusing and slumping with emphasis on advanced techniques and design considerations, such as, plates designed using different techniques, weaving or strip glass, and combining previous techniques to create projects.	Prerequisites: A grade of C or better in ART156.	L+L 3.0 6.0 6.0
ART257	Glass Fusing and Slumping IV	Further study of advanced glass fusing and slumping including problems, professional practices, personal expression and experimental research into various techniques.	Prerequisites: A grade of C or better in ART256.	L+L 3.0 6.0 6.0
ART258	Papermaking	Introduction to concepts and techniques of Fine Art Papermaking. Basic overview of historical origins of craft and importance of modern papermaking to fine arts	Prerequisites: A grade of C or better in ART111 and ART113.	L+L 3.0 6.0 6.0
ART259	Monoprinting	Introduction to concepts and techniques for Monoprintmaking. Deals with <i>la prima</i> technique used in painting in first part of course. Multi-plate printing and how method of printing relates to use of color and separation in second part of course	Prerequisites: A grade of C or better in ART111 and ART113.	L+L 3.0 6.0 6.0
ART261	Ceramics III	Emphasis on wheel throwing skill and individual style development	Prerequisites: A grade of C or better in ART162.	L+L 3.0 6.0 6.0
ART262	Ceramics IV	Experimental work in clays and glazes	Prerequisites: A grade of C or better in ART261.	L+L 3.0 6.0 6.0
ART263	Figure Painting	Study of the nude and clothed figure in painting with special attention upon relevant color palettes, direct and indirect figurative painting techniques, and development of anatomical knowledge and compositional structure. Students will draw upon both historical and contemporary modes of depicting the figure to develop a personalized approach to figure painting. Live models, photographs, drawings, "Planes of the Head" models, and the studio skeleton will be used as the basis of projects.	Prerequisites: A grade of C or better in ART167 or permission of Instructor.	L+L 3.0 6.0 6.0
ART264	Glass Casting	Further study of glass art with a focus on casting and kiln working, including	Prerequisites: A grade of C or better in ART160.	L+L 3.0 6.0 6.0

		problems, professional practices, personal expression and experimental application of various techniques.		
ART265	Watercolor Painting III	Continuation of watercolor painting with emphasis on control and expression	Prerequisites: A grade of C or better in ART166.	L+L 3.0 6.0 6.0
ART266	Watercolor Painting IV	Advanced problems directed toward more personal expression	Prerequisites: A grade of C or better in ART265.	L+L 3.0 6.0 6.0
ART267	Painting III	Development of materials and techniques of painting. Individual problem-solving	Prerequisites: A grade of C or better in ART168 or permission of Instructor.	L+L 3.0 6.0 6.0
ART268	Painting IV	Advanced problem in painting. Study with greater emphasis on personal expression	Prerequisites: A grade of C or better in ART267 or permission of Instructor.	L+L 3.0 6.0 6.0
ART269AC	Digital Studio	Continued development of digital studio media with emphasis on advanced use of media techniques within a digital environment.	Prerequisites: A grade of C or better in (ADA/ART169 or ART170 or ART173 or ART179 or ART192 or ART274 or ART284 or ADA/ART289 or ART291) or permission of Instructor.	L+L 3.0 6.0 6.0
ART270	Digital Photographic Imaging II	Intermediate digital photographic imaging techniques. Refinement of aesthetic awareness and personal expression.	A grade of C or better required in all Prerequisites. Prerequisites or Corequisites: ADA/ART177.	L+L 3.0 6.0 6.0
ART271	Jewelry III	Emphasis on advanced jewelry design techniques and practices.	Prerequisites: A grade of C or better in ART172.	L+L 3.0 6.0 6.0
ART272	Jewelry IV	Emphasis on expanding repertoire of advanced jewelry design techniques and practices.	Prerequisites: A grade of C or better in ART271.	L+L 3.0 6.0 6.0
ART273AC	Special Topics: Multimedia Arts	Multimedia art studio course examining new and/or current topics in media and/or multimedia arts.	Prerequisites: Permission of Instructor.	L+L 3.0 6.0 6.0
ART274	Digital Photographic Imaging III	Advanced digital photographic imaging techniques. Advanced manipulation techniques of photographic images and time-based media. Continued development of aesthetic awareness and personal expression.	A grade of C or better required in all Prerequisites. Prerequisites or Corequisites: ART270.	L+L 3.0 6.0 6.0
ART275	Lost Wax Casting I	Introduction to lost wax casting techniques for jewelry and small sculptures. Emphasis on design concepts as related to three-dimensional forms	Prerequisites: None.	L+L 3.0 6.0 6.0
ART276	Lost Wax Casting II	Advanced course in lost wax casting techniques for jewelry and small sculptures. Emphasis on the continuation of individual expression using the lost wax method	Prerequisites: A grade of C or better in ART275.	L+L 3.0 6.0 6.0
ART277	Textiles I	Introduction to exploration of textile media.	Prerequisites: A grade of C or better in ART112 or permission of Instructor.	L+L 3.0 6.0 6.0
ART279	Media Productions II	Intermediate digital media production techniques. Continued pre-production, production, and post-production skills. Exploration of types of productions including interviews, informational/how-to, marketing/product, and	Prerequisites: A grade of C or better in ART202 or permission of Instructor.	L+L 3.0 6.0 6.0

		documentary/artistic media productions. Refinement of aesthetic awareness and personal expression.		
ART280AA	Digital Media Arts and Design Capstone	Focus on design, art, and development skills for a problem taken from business or industry. Includes practice-based capstone project focusing on a specific issue or need in digital media arts and design.	Prerequisites: Permission of Program Director or Instructor.	L+L 1.0 2.0 2.0
ART280AB	Digital Media Arts and Design Capstone	Focus on design, art, and development skills for a problem taken from business or industry. Includes practice-based capstone project focusing on a specific issue or need in digital media arts and design.	Prerequisites: Permission of Program Director or Instructor.	L+L 2.0 4.0 4.0
ART280AC	Digital Media Arts and Design Capstone	Focus on design, art, and development skills for a problem taken from business or industry. Includes practice-based capstone project focusing on a specific issue or need in digital media arts and design.	Prerequisites: Permission of Program Director or Instructor.	L+L 3.0 6.0 6.0
ART281	Graphic Design III	Advanced course in the process of graphic design and problem solving to meet customer specifications. Emphasis on steps needed to create and promote complex graphic design projects.	Prerequisites: A grade of C or better in ART182 or permission of Instructor.	L+L 3.0 6.0 6.0
ART282AA	Service-Learning Experience in Art	Unpaid Service-Learning (SL) experience, completed with approved community partner.	Prerequisites: Permission of Instructor.	LAB 1.0 1.0 0.0
ART282AB	Service-Learning Experience in Art	Unpaid Service-Learning (SL) experience, completed with approved community partner.	Prerequisites: Permission of Instructor.	LAB 2.0 2.0 0.0
ART282AC	Service-Learning Experience in Art	Unpaid Service-Learning (SL) experience, completed with approved community partner.	Prerequisites: Permission of Instructor.	LAB 3.0 3.0 0.0
ART283	Digital Graphic Arts II	Advanced skill development of graphic design through use of microcomputer. Emphasis on computer design and techniques for producing all types of camera-ready advertising art for printed matter and package design. Includes illustration, typography, photo imaging, and color separation.	Prerequisites: A grade of C or better in ADA/ART183 or permission of Instructor.	L+L 3.0 6.0 6.0
ART284	Digital Animation II	Elements of electronic animation with interactive text graphics, photography, sound, film, and video construction.	Prerequisites: A grade of C or better in ADA/ART/MMT184 or permission of Instructor.	L+L 3.0 6.0 6.0
ART285	3D Modeling and Animation II	Advanced techniques for 3D modeling and computer animation. Creating and applying 2D background and 3D model textures, creating and applying special effects to models and animation, designing, modeling, and animating a digital 3D character from a character study.	Prerequisites: A grade of C or better in ART/MMT185.	L+L 3.0 6.0 6.0
ART286	Graphic Design IV	Continuing advanced course in the process of graphic design and problem solving to meet customer specifications.	Prerequisites: A grade of C or better in ART281 or permission of Instructor.	L+L 3.0 6.0 6.0

		Emphasis on creating complex graphic design projects.		
ART287	3D Character Animation	3D-Character modeling and animation for multimedia, film, broadcast, video games and interactive entertainment. Character motion, editing, and blending electronic with traditional techniques.	Prerequisites: A grade of C or better in ADA/ART/MMT184 or ART180AC. Corequisites: ART116 or permission of Instructor.	L+L 3.0 6.0 6.0
ART288	PDF Portable Document Format	Focuses on complexity, versatility and creation of a PDF file. Emphasis on the importance of the settings regarding color management, compression, and output. Includes fillable forms and interactive files with audio and video capabilities, editing functions, preflight abilities and security.	Prerequisites: A grade of C or better in ADA/ART175 or permission of Instructor.	L+L 3.0 6.0 6.0
ART289	Computer Illustration	Introduction to the multiple elements of commercial illustration using the microcomputer. Basic foundation in the use of computer techniques including color paint and draw programs for the production of commercial illustrations for publications and printed matter. Use of input and output devices.	Prerequisites: A grade of C or better in ART100 or Corequisites: ART100 or permission of Instructor.	L+L 3.0 6.0 6.0
ART290AA	Studio Art	Studio course for art majors allowing continuation in a subject field.	Prerequisites: Permission of Instructor.	L+L 1.0 2.0 2.0
ART290AB	Studio Art	Studio course for art majors allowing continuation in a subject field.	Prerequisites: Permission of Instructor.	L+L 2.0 4.0 4.0
ART290AC	Studio Art	Studio course for art majors allowing continuation in a subject field.	Prerequisites: Permission of Instructor.	L+L 3.0 6.0 6.0
ART290BC	Studio Art: Drawing	Studio course for art majors allowing continuation in a subject field.	Prerequisites: A grade of C or better in ART111 or permission of Instructor.	L+L 3.0 6.0 6.0
ART290CC	Studio Art: Mixed Media	Studio course for art majors allowing continuation in a subject field.	Prerequisites: A grade of C or better in ART112 or permission of Instructor.	L+L 3.0 6.0 6.0
ART290DC	Studio Art: Life Drawing	Studio course for art majors allowing continuation in a subject field.	Prerequisites: A grade of C or better in ART117 or permission of Instructor.	L+L 3.0 6.0 6.0
ART290EC	Studio Art: Photography	Studio course for art majors allowing continuation in a subject field.	Prerequisites: A grade of C or better in ART132 or permission of Instructor.	L+L 3.0 6.0 6.0
ART290FF	Studio Art: Sculpture	Studio course for art majors allowing continuation in a subject field.	Prerequisites: A grade of C or better in ART252 or permission of Instructor.	L+L 3.0 6.0 6.0
ART290GC	Studio Art: Ceramics	Studio course for art majors allowing continuation in a subject field.	Prerequisites: A grade of C or better in ART162 or permission of Instructor.	L+L 3.0 6.0 6.0
ART290HC	Studio Art: Watercolor	Studio course for art majors allowing continuation in a subject field.	Prerequisites: A grade of C or better in ART166 or permission of Instructor.	L+L 3.0 6.0 6.0
ART290JC	Studio Art: Color	Studio course for art majors allowing continuation in a subject field.	Prerequisites: A grade of C or better in ART113 or permission of Instructor.	L+L 3.0 6.0 6.0
ART290KC	Studio Art: Glazing Techniques	Studio course for art majors allowing continuation in a subject field.	Prerequisites: A grade of C or better in ART162 or permission of Instructor.	L+L 3.0 6.0 6.0

ART290LC	Studio Art: Clay Bodies	Studio course for art majors allowing continuation in a subject field.	Prerequisites: A grade of C or better in ART162 or permission of Instructor.	L+L 3.0 6.0 6.0
ART290MC	Studio Art: Digital Photography	Studio course for art majors allowing continuation in a subject field.	Prerequisites: A grade of C or better in ART143 or permission of Instructor.	L+L 3.0 6.0 6.0
ART290PC	Studio Art: Painting	Studio course for art majors allowing continuation in a subject field.	Prerequisites: A grade of C or better in ART168 or permission of Instructor.	L+L 3.0 6.0 6.0
ART290WC	Studio Art: Woodworking	Studio course for art majors allowing continuation in a subject field.	Prerequisites: A grade of C or better in ART154 or permission of Instructor.	L+L 3.0 6.0 6.0
ART291	Digital Prepress	Introduction to fundamental concepts of digital prepress necessary for the designer to create digital documents for accurate output and reproduction.	Prerequisites: A grade of C or better in ART100 or permission of Instructor.	L+L 3.0 6.0 6.0
ART292	Digital Output Prepress	Introduction to prepress for digital output. Foundation of job costing and the functions of a job ticket for proper file preparation including trapping, color management, file transfers, workflow, RIPping, imposition and file proofing.	Prerequisites: A grade of C or better in ART291 or permission of Instructor.	L+L 3.0 6.0 6.0
ART293	Digital Output	Emphasis on setup, operation, and maintenance of a digital press. Introduction to specialty and common substrates and inks. Instruction on quality control, troubleshooting techniques, and proper safety precautions for press, equipment, and consumables.	Prerequisites: Permission of Instructor.	L+L 3.0 6.0 6.0
ART295AC	Art Workshop/Seminar: Drawing	Advanced level workshop seminar in art disciplines.	Prerequisites: Minimum of three (3) credits introductory and three (3) credits intermediate level courses in specific field or permission of Department or Division Chair.	L+L 3.0 6.0 6.0
ART295BA	Art Workshop/Seminar: Sculpture	Advanced level workshop seminar in art disciplines.	Prerequisites: Minimum of three (3) credits introductory and three (3) credits intermediate level courses in specific field or permission of Department or Division Chair.	L+L 1.0 2.0 2.0
ART295BC	Art Workshop/Seminar: Sculpture	Advanced level workshop seminar in art disciplines.	Prerequisites: Minimum of three (3) credits introductory and three (3) credits intermediate level courses in specific field or permission of Department or Division Chair.	L+L 3.0 6.0 6.0
ART295CA	Art Workshop/Seminar: Life Drawing	Advanced level workshop seminar in art disciplines	Prerequisites: Minimum of three (3) credits introductory and three (3) credits intermediate level courses in specific field or permission of Department or Division Chair.	L+L 1.0 2.0 2.0

ART295DA	Art Workshop/Seminar: Photography	Advanced level workshop seminar in art disciplines.	Prerequisites: Minimum of three (3) credits introductory and three (3) credits intermediate level courses in specific field or permission of Department or Division Chair.	L+L 1.0 2.0 2.0
ART295DB	Art Workshop/Seminar: Photography	Advanced level workshop seminar in art disciplines.	Prerequisites: Minimum of three (3) credits introductory and three (3) credits intermediate level courses in specific field or permission of Department or Division Chair.	L+L 2.0 4.0 4.0
ART295DC	Art Workshop/Seminar: Photography	Advanced-level workshop seminar in art disciplines.	Prerequisites: Minimum of three (3) credits introductory and three (3) credits intermediate level courses in specific field or permission of Department or Division Chair.	L+L 3.0 6.0 6.0
ART295EA	Art Workshop/Seminar: Painting	Advanced level workshop seminar in art disciplines.	Prerequisites: Minimum of three (3) credits introductory and three (3) credits intermediate level courses in specific field or permission of Department or Division Chair.	L+L 1.0 2.0 2.0
ART295EC	Art Workshop/Seminar: Painting	Advanced level workshop seminar in art disciplines.	Prerequisites: Minimum of three (3) credits introductory and three (3) credits intermediate level courses in specific field or permission of Department or Division Chair.	L+L 3.0 6.0 6.0
ART295GA	Art Workshop/Seminar: Ceramics	Advanced level workshop seminar in art disciplines.	Prerequisites: Minimum of three (3) credits introductory and three (3) credits intermediate level courses in specific field or permission of Department or Division Chair.	L+L 1.0 2.0 2.0
ART295GB	Art Workshop/Seminar: Ceramics	Advanced level workshop seminar in art disciplines.	Prerequisites: Minimum of three (3) credits introductory and three (3) credits intermediate level courses in specific field or permission of Department or Division Chair.	L+L 2.0 4.0 4.0
ART295GC	Art Workshop/Seminar: Ceramics	Advanced level workshop seminar in art disciplines.	Prerequisites: Minimum of three (3) credits introductory and three (3) credits intermediate level courses in specific field or permission of Department or Division Chair.	L+L 3.0 6.0 6.0
ART295HC	Art Workshop/Seminar: Mixed Media	Advanced level workshop seminar in art disciplines.	Prerequisites: Minimum of three (3) credits introductory and three (3) credits	L+L 3.0 6.0 6.0

			intermediate level courses in specific field or permission of Department or Division Chair.

COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 3.0 3.0 0.0
ASB100	Introduction to Global Health	The study of human health patterns at an international and local scale. Focus on pressing global health challenges that the world faces today are examined from a broad social, ecological, and cultural context.	Prerequisites: None.	LEC 3.0 3.0 3.0
ASB102	Introduction to Cultural Anthropology	Principles of cultural anthropology, with illustrative materials from a variety of cultures. The nature of culture; social, political, and economic systems; religion, aesthetics and language.	Prerequisites: None.	LEC 3.0 3.0 3.0
ASB202	Ethnic Relations in the United States	Basic concepts and processes, including historic overview, of interethnic relations in the United States: culture, race, ethnicity, ethnocentrism, prejudice, discrimination, racism, assimilation, acculturation, and individual and group responses to interethnic contact. Cultural knowledge and intercultural communication skills and perspectives as fundamental tools for successful management of social relations in a multicultural world.	Prerequisites: None.	LEC 3.0 3.0 3.0
ASB211	Women in Other Cultures	Cross-cultural analysis of the economic, social, political, and religious factors that affect women's status in traditional and modern societies	Prerequisites: None.	LEC 3.0 3.0 3.0
ASB214	Magic, Witchcraft and Healing: An Introduction to Comparative Religion	Origins, elements, and forms of religion; a comparative survey of religious beliefs, myths, rituals and symbolism including magic, witchcraft and healing as practiced in selected regions of the world; the place of religion in the total culture	Prerequisites: None.	LEC 3.0 3.0 3.0

ASB220	Anthropology Goes to the Movies	Archaeology and anthropology through the lens of popular films of the 20th and 21st Century. Explores the popularity of ancient humans as a topic for film ventures and how accurately they are portrayed. Provides the student with a basic knowledge of anthropology and offers film images of anthropologists and archaeologists and the practice of archaeology and anthropology. Analyzes accuracy of films depicting culture and our human past.	Prerequisites: None.	LEC 3.0 3.0 3.0
ASB222	Buried Cities and Lost Tribes: Old World	Introduction to archaeology through discoveries and the researchers who made them. Emphasis on methods of archaeological fieldwork and what these discoveries reveal about humanity, including the nature of archaeological inquiry, the development of human social groups, the changing role of religion in evolving societies, the origins of agriculture, the origins of settled lifeways, the rise of cities and complex societies, political strife across different cultures and the forces which tend to fragment societies. Examples drawn from Africa, Asia, Europe, the Pacific Islands, and Australia	Prerequisites: None.	LEC 3.0 3.0 3.0
ASB223	Buried Cities and Lost Tribes: New World	Introduction to archaeology through discoveries and the researchers who made them. Emphasis on methods of archaeological fieldwork and what these discoveries reveal about humanity, including the nature of archaeological inquiry, the development of human social groups, the changing role of religion in evolving societies, the origins of agriculture, the origins of settled lifeways, the rise of cities and complex societies, political strife across different cultures and the forces which fragment societies. Examples drawn from North America, Central America, and South America.	Prerequisites: None.	LEC 3.0 3.0 3.0
ASB226	Human Impacts on Ancient Environments	Interrelationship between humans and their environments, using archaeological data and case studies beginning with early hominids. Uses of research to identify environmental change and distinguish between climatic and human-induced global change. Explores ways in which prehistoric people caused and responded to environmental changes	Prerequisites: None.	LEC 3.0 3.0 3.0
ASB230	Principles of Archaeology	Introduction to archaeological methods and theory	Prerequisites: None.	LEC 3.0 3.0 3.0
ASB231	Archaeological Field Methods	Excavation of an archaeological site; recording and interpreting data collected during the field experience. Overview of	Prerequisites: None.	L+L 4.0 6.0 6.0

		the cultures concerned; contemporary issues in archaeology.		
ASB234	Art and Archaeology of Ancient Egypt	Introduction to the major social, political, religious and economic institutions of Ancient Egypt. The historical events and people that shaped Egyptian civilization	Prerequisites: None.	LEC 3.0 3.0 3.0
ASB235	Southwest Archaeology	Anthropological perspective and comparative study of the cultures of prehistoric native peoples of the North American southwest	Prerequisites: None.	LEC 3.0 3.0 3.0
ASB245	Indians of the Southwest	Comparative study of the cultures, including the histories and present status, of Indians of the Southwest	Prerequisites: None.	LEC 3.0 3.0 3.0
ASB252	Sports and Culture	Cross-cultural examination of symbolic and social dimensions of sports, past and present.	Prerequisites: None.	LEC 3.0 3.0 3.0
ASB253	Death and Dying Across Cultures	Responses to death and dying in cultures around the world. Explanations for particular cultural responses to death and dying. Examples drawn from ancient and contemporary cultures	Prerequisites: None.	LEC 3.0 3.0 3.0
ASB282AA	Service-Learning Experience in Anthropology	Unpaid Service-Learning (SL) experience, completed with approved community partner.	Prerequisites: Permission of Instructor.	LAB 1.0 1.0 0.0

		and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE		
ASD100	Foundations of Addictions and Substance Use Disorders	Introduction to the foundations of the alcohol and drug abuse rehabilitation field. Emphasis on the roles and responsibilities of the addictions counselor, ethical issues, pharmacology, family dynamics, dual diagnosis, intervention techniques, self-help groups, levels of care, symptom identification, and conducting alcohol/drug histories. Interactive work stressed.	Prerequisites: None.	LEC 3.0 3.0 3.0
ASD102	Communication Skills in Treating Addiction	Further examination and refinement of communication and beginning professional counseling skills as they relate to the addicted client and family members. Emphasis on practicing the application of these skills to various situations associated with treatment planning. Recordkeeping/documentation skills emphasized.	Prerequisites: None.	LEC 3.0 3.0 3.0
ASD110	Pharmacology of Substances of Abuse and Dependency	Exploration of the pharmacology of substance of abuse and dependency. Examines the effects of psychopharmacological chemicals on human physiology. Emphasis on identification and management of substances of abuse and dependency.	Prerequisites: None.	LEC 3.0 3.0 3.0
ASD120	Professional Ethics in Addictions and Substance Use Disorders	Exploration of topics relative to the professional and ethical development of the addictions and substance use disorders counselor, including codes of ethics, confidentiality laws, professionalism and boundary issues, and the meeting of individual counselor needs within the field.	Prerequisites: None.	LEC 1.0 1.0 1.0
ASD145	AIDS and Addiction	Exploration of AIDS and its relationship to addiction. Emphasis on myths and realities of AIDS, personal values, feelings, and limitations and treatment goals.	Prerequisites: None.	LEC 1.0 1.0 1.0
ASD146	Peer Support Specialist	Introduction to the role and foundational responsibilities of a peer support specialist in the field of addictions and substance use. Explores basic pharmacology, ethics, case management, and crisis management. Recovery-Oriented Systems of Care (ROSC) is emphasized.	Prerequisites: None. Corequisites: ASD147.	LEC 4.0 4.0 4.0
ASD147	Peer Support Specialist Practicum	Peer support specialist preparation related to addictions and substance use disorders. Opportunity for students to	Prerequisites: None. Corequisites: ASD146.	LAB 3.0 5.0 5.0

		use their developed knowledge and skills in an applied setting with supervision.		
ASD148	Introduction to the Science of Prevention	Overview of the science underlying evidence-based prevention interventions and strategies and the effective application of these approaches in prevention practice.	Prerequisites: None.	LEC 1.0 1.0 1.0
ASD149	Physiology and Pharmacology for Prevention	Overview of the physiology and pharmacology of psychoactive substances and their effects on the brain to affect mood, cognition, and behavior and the consequences of such use on the individual, family, and community.	Prerequisites: None.	LEC 1.0 1.0 1.0
ASD150	Principles of Self-Help Groups	Overview of the fundamental principles, concepts and historical antecedents of the various self-help groups. Emphasis on the self-help groups of Alcoholics Anonymous, Al-anon, Alateen, Narcotics Anonymous, Co-dependents Anonymous, and Adult Children of Alcoholics.	Prerequisites: None.	LEC 2.0 2.0 2.0
ASD151	Prevention Interventions and Policies	Overview of primary evaluation methods used to measure evidence-based prevention interventions and gives guidance in applying them to "real-world" prevention settings.	Prerequisites: None.	LEC 1.0 1.0 1.0
ASD152	Family-Based Prevention Interventions	Overview of the family as the primary socialization agent of children, the science behind family-based prevention interventions, and the application of such evidence-based approaches to help prevent the onset of substance use in children.	Prerequisites: None.	LEC 1.0 1.0 1.0
ASD153	School-Based Prevention Interventions	Overview of the role of the school in society, the science behind school-based prevention interventions, and the application of such evidence-based approaches in school settings around the world.	Prerequisites: None.	LEC 1.0 1.0 1.0
ASD154	Workplace-Based Prevention Interventions	Overview of the role of work and the workplace in society, how stressors and other work-related influences affect risk of substance use, the science behind workplace prevention interventions, and the application of such evidence-based approaches in work settings around the world.	Prerequisites: None.	LEC 1.0 1.0 1.0
ASD155	Environment-Based Prevention Interventions	Overview of the science underlying evidence-based substance use prevention using environmental interventions, involving policy, and community-wide strategies.	Prerequisites: None.	LEC 1.0 1.0 1.0
ASD156	Media-Based Prevention Interventions	Overview of the science underlying the use of media for substance use prevention interventions.	Prerequisites: None.	LEC 1.0 1.0 1.0

ASD157	Community-Based Prevention Implementation Systems	Overview of the science underlying the systems approach to prevention interventions and guidance for developing such approaches, as well as exemplars of evidence-based drug use prevention systems.	Prerequisites: None.	LEC 1.0 1.0 1.0
ASD158	Gambling Disorders Prevention	Overview of gambling disorders prevention. Emphasis on current prevention research. Also includes information on gambling prevention resources.	Prerequisites: None.	LEC 1.0 1.0 1.0
ASD159	Adolescent Substance Use Prevention	Adolescent substance use prevention issues. Emphasis on current and developing adolescent prevention information. Covers common adolescent substance use characteristics and prevention strategies.	Prerequisites: None.	LEC 1.0 1.0 1.0
ASD160	Behavioral Addictions Prevention	Overview of behavioral addictions prevention issues. Emphasis on current research. Also includes community resources information.	Prerequisites: None.	LEC 1.0 1.0 1.0
ASD161	Beginning Clinical Documentation Skills	Overview of addictions and substance use disorders counseling, interviewing, and documentation. Includes record keeping and documentation skills. Alcohol and drug abuse counselor core functions emphasized.	Prerequisites: None.	LEC 3.0 3.0 3.0
ASD165	Theories and Techniques in the Treatment of Addictions	Overview of counseling theories including the application to addictions and substance use disorders groups. Recordkeeping skills and beginning counseling skills emphasized.	Prerequisites: None.	LEC 2.0 2.0 2.0
ASD220	Family Dynamics and Addiction	Analysis of the impact of addictions on all the members of a family. Interviewing, assessment and therapeutic approaches particularly useful for these family members presented.	Prerequisites: None.	LEC 3.0 3.0 3.0
ASD226	Counseling Multicultural and Diverse Populations	Exploration of influences of culture and diversity on addictions and substance abuse. Emphasis on recovery and therapeutic relationships.	Prerequisites: None.	LEC 3.0 3.0 3.0
ASD236	Relapse, Recovery, and Addiction	Review of the bio-psycho-social processes of recovery and relapse in addictions. Exploration into those factors that both contribute to and inhibit recovery and relapse.	Prerequisites: None.	LEC 2.0 2.0 2.0
ASD245	Co-Occurring Disorders	Examines co-occurring disorders from the bio-psycho-social model. Includes causes, consequences, assessment, and treatment, emphasizing the psychoeducational model of treatment.	Prerequisites: None.	LEC 2.0 2.0 2.0
ASD250	Group Interventions	Focus on group dynamics and group process as they relate to addictions and substance use disorders. Exploration of group developmental stages, family intervention models, various counseling approaches/techniques and their	Prerequisites: None.	LEC 3.0 3.0 3.0

		application to therapeutic, education and family groups.		
ASD275	Advanced Theory and Techniques in the Treatment of Addiction Disorders	Capstone course for level two certificate in addictions and substance use disorders program. Focus on counseling theories and techniques used by counselors as they relate to the client and family members.	Prerequisites: A grade of C or better in ASD220, ASD226, ASD245 and ASD250 or permission of Instructor.	LEC 3.0 3.0 3.0
ASD280	Addictions and Substance Use Disorders Practicum	Opportunity for advanced students to use his/her developed knowledge and skills in an applied setting with supervision.	Prerequisites: A grade of C or better in ASD275 or permission of Department or Division.	LAB 6.0 18.0 18.0
ASD285	Addictions Seminar	Special topics in addictions and substance use disorders with an emphasis on current issues not covered in other addictions and substance use disorders courses.	Prerequisites: None.	LEC 1.0 1.0 1.0
ASD285AA	Treatment for Stimulant Use Disorders Seminar	Stimulant use disorder treatment issues. Emphasis on current and developing treatment information. Covers common stimulant abuse characteristics and treatment strategies. Also includes community resource information.	Prerequisites: None.	LEC 1.0 1.0 1.0
ASD285BB	Adolescent Substance Abuse Treatment Seminar	Adolescent substance abuse treatment issues. Emphasis on current and developing treatment information. Covers common adolescent substance abuse characteristics and treatment strategies. Also includes community resource information.	Prerequisites: None.	LEC 1.0 1.0 1.0
ASD285CC	Addiction Review Seminar	A brief review of current addiction issues. Emphasis on current and developing treatment information. Covers common alcohol and drug addiction characteristics and treatment strategies. Also includes community resource information.	Prerequisites: None.	LEC 1.0 1.0 1.0
ASD285DD	Motivation for Change in Substance Abuse Treatment Seminar	Issues regarding motivational change in substance abuse treatment. Emphasis on current and developing treatment information. Covers common motivational change techniques. Also includes community resource information.	Prerequisites: None.	LEC 1.0 1.0 1.0
ASD285EE	Domestic Violence and Substance Abuse Seminar	Domestic violence and substance abuse treatment issues. Emphasis on current and developing domestic violence and substance abuse information. Covers techniques, strategies, and treatment modalities for domestic violence and substance abuse patients. Also includes community resource information.	Prerequisites: None.	LEC 1.0 1.0 1.0
ASD285FF	Street Drugs Seminar	Street drug issues. Emphasis on current and developing street drug information. Covers techniques strategies and treatment modalities for street drug abuse patients. Also includes community resource information.	Prerequisites: None.	LEC 1.0 1.0 1.0

ASD285GG	Addictive and Medical Plants Seminar	Addictive and medical plant issues. Emphasis on current and developing addictive and medical plant information. Covers addictive and medical plant typology. Also includes community resource information.	Prerequisites: None.	LEC 1.0 1.0 1.0
ASD285HH	Intervention and Treatment for Addictions and Substance Use Disorders Seminar	Brief interventions and treatment for addictions and substance use disorders. Emphasis on current and developing intervention and treatment information. Covers treatment and intervention techniques for use with addictions and substance use disorders. Also includes community resource information.	Prerequisites: None.	LEC 1.0 1.0 1.0
ASD285II	Multicultural Aspects	Multicultural aspects of counseling in addictions and substance use disorders. Emphasis on current and developing treatment information. Covers common aspects of multicultural characteristics and treatment strategies. Also explores ethical counselor/client relationships.	Prerequisites: None.	LEC 1.0 1.0 1.0
ASD285JJ	Clinical Supervision Training of Supervisors	Clinical supervision training of supervisor issues. Emphasis on current and developing treatment information. Also includes community resource information.	Prerequisites: None.	LEC 1.0 1.0 1.0
ASD285KK	Recovery-Oriented Systems of Care Seminar	Overview of recovery-oriented systems of care programs. Covers research, development, and characteristics of programs in addition to applicable federal mandates.	Prerequisites: None.	LEC 1.0 1.0 1.0
ASD285LL	Gambling Addiction Seminar	A brief review of gambling addiction issues. Emphasis on current research, intervention, and treatments in the field. Also includes community resources information.	Prerequisites: None.	LEC 1.0 1.0 1.0
ASD285MM	Sexual Addiction Seminar	A brief review of sexual addiction issues. Emphasis on current research, intervention, and treatments in the field. Also includes community resources information.	Prerequisites: Student must be 18 years or older.	LEC 1.0 1.0 1.0
ASD285NN	Eating Disorders Seminar	An overview of issues associated with eating disorders. Emphasis on current research, intervention, prevention, and treatments in the field. Also includes community resources information.	Prerequisites: None.	LEC 1.0 1.0 1.0
ASD285OO	Eating Disorders: Special Considerations and Populations Seminar	A review of issues associated with eating disorders within diverse populations. Emphasis on multicultural populations, current research, intervention, prevention, and treatments in the field. Also includes community resources information.	Prerequisites: None.	LEC 1.0 1.0 1.0
ASD285PP	Eating Disorders: Conceptualization and Treatment Seminar	A review of issues associated with eating disorders. Emphasis on current research, intervention, prevention, and treatments in the field. Also includes community resources information.	Prerequisites: None.	LEC 1.0 1.0 1.0

ASD285QQ	Behavioral Addictions Seminar	A review of issues associated with behavioral addictions. Emphasis on current research, intervention, prevention, and treatments in the field. Also includes community resources information.	Prerequisites: None.	LEC 1.0 1.0 1.0
ASD285RR	Behavioral Addictions Seminar: Internet-Related Addictions	A review of issues associated with internet-based behavioral addictions. Emphasis on diagnostic descriptions and considerations for internet-based addictions including current research, intervention, prevention, and treatments in the field. Also includes community resources information.	Prerequisites: None.	LEC 1.0 1.0 1.0
ASD285SS	Marijuana Addiction Seminar	An overview of issues associated with marijuana addiction. Emphasis on current research, intervention, prevention, and treatments in the field. Also includes community resources information.	Prerequisites: None.	LEC 1.0 1.0 1.0
ASD285TT	Opioid Addiction Seminar	An overview of issues associated with opioid addiction. Emphasis on current research, intervention, prevention, and treatments in the field. Also includes community resources information.	Prerequisites: None.	LEC 1.0 1.0 1.0
ASD295	Advanced Foundations: Addictions and Substance Use Disorders Counselor Licensing/Certification Exams	Review for individuals preparing for addictions and substance use disorders counselor licensing and/or certification exams. Emphasis on ethics, treatment, pharmacology, family issues, and self-help groups.	Prerequisites: None.	LEC 3.0 3.0 3.0
ASD296WA	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students.	Prerequisites: Completion of at least twelve (12) college credits, minimum 2.6 grade point average, and be able to obtain a position related to student's academic or career goals (student's present job may qualify); or permission of instructor. Corequisites: Must be concurrently enrolled in at least one class which is related to student's major or career interest or with permission of the instructor.	LAB 1.0 5.0 0.0
ASD296WB	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students.	Prerequisites: Completion of at least twelve (12) college credits, minimum 2.6 grade point average, and be able to obtain a position related to student's academic or career goals (student's present job may qualify); or permission of instructor. Corequisites: Must be concurrently enrolled in at least one class which is related to student's major or	LAB 2.0 10.0 0.0

			career interest or with permission of the instructor.	
ASD296WC	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students.	Prerequisites: Completion of at least twelve (12) college credits, minimum 2.6 grade point average, and be able to obtain a position related to student's academic or career goals (student's present job may qualify); or permission of instructor. Corequisites: Must be concurrently enrolled in at least one class which is related to student's major or career interest or with permission of the instructor.	LAB 3.0 15.0 0.0
ASD296WD	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students.	Prerequisites: Completion of at least twelve (12) college credits, minimum 2.6 grade point average, and be able to obtain a position related to student's academic or career goals (student's present job may qualify); or permission of instructor. Corequisites: Must be concurrently enrolled in at least one class which is related to student's major or career interest or with permission of the instructor.	LAB 4.0 20.0 0.0
ASD298AA	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development.	Prerequisites: Permission of Program Director or Instructor.	LAB 1.0 1.0 0.0

Allows the best aspects of independent study and individualized learning to be combined to maximize student development.	Prerequisites: Permission of Program Director or Instructor.	LAB 2.0 2.0 0.0
ASE298AC	Special Projects	An organized and tailored activity around the interests and needs of the individual student. Allows the best aspects of independent study and individualized learning to be combined to maximize student development.	Prerequisites: Permission of Program Director or Instructor.	LAB 3.0 3.0 0.0
ASL090AA	Speedy American Sign Language I	Introduction of techniques for communicating with deaf people using American Sign Language (A.S.L.). Expressive and receptive sign skills, manual alphabet, numbers, and basic sign vocabulary.	Prerequisites: None. ASL103 suggested but not required.	LEC 1.0 1.0 1.0
ASL090AB	Speedy American Sign Language II	Use American Sign Language (ASL) to converse about feelings, family members, other people, clothing, events according to proper tense, and to count to one hundred.	Prerequisites: A grade of C or better in ASL090AA. Completion of prerequisites within the last three years is required.	LEC 1.0 1.0 1.0
ASL101	American Sign Language I	Introduction of principles, methods, and techniques for communicating with deaf people who sign. Development of expressive and receptive sign skills,	Prerequisites: None. ASL103 suggested as a corequisite but not required.	LEC 4.0 4.0 4.0

		manual alphabet, numbers, and sign vocabulary. Overview of syntax, grammar, and culture related to American Sign Language (A.S.L.).		
ASL102	American Sign Language II	Continued development of knowledge and language skills for communicating with deaf people who sign. Includes numbers, fingerspelling, and culture. Emphasis on enhancement of receptive sign skills and continued development of expressive sign skills. Application of rudimentary, syntactical, and grammatical structure stressed with continued development of sign vocabulary.	Prerequisites: A grade of C or better in ASL101 or permission of Department or Division. Completion of prerequisites within the last three years is required.	LEC 4.0 4.0 4.0
ASL103	Introduction to the Deaf Community	History and development of American Sign Language (ASL) and English codes. Overview of education for Deaf and Hard of Hearing children. Legal rights and common adaptive devices used by Deaf and Hard of Hearing individuals.	Prerequisites: None.	LEC 1.0 1.0 1.0
ASL105	Survey of the Interpreting Profession	Survey of the field of sign language interpreting. Overview of cultural, historical and sociological framework for the principles, ethics, roles, responsibilities, and standard practices of the interpreting profession.	Prerequisites: None.	LEC 3.0 3.0 3.0
ASL110	Fingerspelling	Introduction to fingerspelling techniques. Focus on methods, theory, and applications on receptive and expressive skills including manual alphabet production and numbers. In addition, skill development in speed, dexterity, clarity, and lexicalized fingerspelling, numeric incorporation, prefixes, suffixes, and polysyllabic words.	Prerequisites: A grade of C or better in ASL101 or permission of Department or Division. Completion of prerequisites within the last three years is required.	LEC 3.0 3.0 3.0
ASL200	Issues and Resources	Implications of laws pertaining to educational choices and rights of deaf, deaf-blind, and hard of hearing individuals. Local, state, and national organizations, activities, and agencies affecting the deaf community.	Prerequisites: A grade of C or better in ASL102 or permission of Department or Division. Completion of prerequisites within the last three years is required.	LEC 3.0 3.0 3.0
ASL201	American Sign Language III	Linguistics of American Sign Language (A.S.L.) including non-manual behaviors and signing English idioms with conceptual accuracy. Emphasis on practical application of A.S.L. skills, expanded vocabulary, and cross-cultural communication.	Prerequisites: A grade of C or better in ASL102 or permission of Department or Division. (ENG101 or ENG107) and (CRE101 or equivalent as indicated by assessment) suggested but not required. Completion of prerequisites within the last three years is required.	LEC 4.0 4.0 4.0
ASL202	American Sign Language IV	Advanced American Sign Language skills including continued vocabulary. Emphasis on conversational techniques in a cross-cultural framework. Continued work on conceptual accurate signing of	Prerequisites: A grade of C or better in ASL201 or permission of Department or Division. (ENG101 or ENG107), ASL200, and	LEC 4.0 4.0 4.0

		English idioms and words with multiple meanings.	(CRE101 or equivalent as indicated by assessment) suggested but not required. Completion of prerequisites within the last three years is required.	
ASL203	American Sign Language V	Advanced study of vocabulary, classifiers, use of space, and grammatical features of American Sign Language (ASL). Includes evaluation of changes that occur in ASL as a living language. Advanced use of ASL in demonstrations, reports, and presentations	Prerequisites: A grade of C or better in ASL202. Completion of prerequisites within the last three years is required.	LEC 4.0 4.0 4.0
ASL204	Comparative Linguistics: ASL/English	A variety of topics about linguistics of American Sign Language (ASL) and English including phonology, morphology, lexicon, syntax, discourse, and language acquisition. Aspects of using sign language and how visual languages differ and are similar to spoken language.	Prerequisites: A grade of C or better in ASL202. Corequisites: ASL203. Completion of prerequisites within the last three years is required.	LEC 3.0 3.0 3.0
ASL212	Deaf Culture	Linguistic, social, educational, and political issues in deaf culture. Values and group identity issues as related to heritage and literature. Special emphasis on the cultural and philosophical attitudes shared with other minority groups.	Prerequisites: A grade of C or better in ASL202 or permission of Department or Division. Completion of prerequisites within the last three years is required.	LEC 3.0 3.0 3.0
ASL296WA	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students.	Prerequisites: Completion of at least twelve (12) college credits, minimum 2.6 grade point average, and be able to obtain a position related to student's academic or career goals (student's present job may qualify), or permission of Instructor. Corequisites: Concurrent in at least one class related to student's major or career interest, or permission of Instructor.	LAB 1.0 5.0 0.0
ASL296WB	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students.	Prerequisites: Completion of at least twelve (12) college credits, minimum 2.6 grade point average, and be able to obtain a position related to student's academic or career goals (student's present job may qualify), or permission of Instructor. Corequisites: Concurrent in at least one class related to student's major or career interest, or permission of Instructor.	LAB 2.0 10.0 0.0
ASL296WC	Cooperative Education	Work-college experiences that involve the combined efforts of educators and	Prerequisites: Completion of at least twelve (12) college	LAB 3.0 15.0 0.0

		employers to accomplish an outcome related to the career objectives of the students.	credits, minimum 2.6 grade point average, and be able to obtain a position related to student's academic or career goals (student's present job may qualify), or permission of Instructor. Corequisites: Concurrent in at least one class related to student's major or career interest, or permission of Instructor.	
ASL296WD	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students.	Prerequisites: Completion of at least twelve (12) college credits, minimum 2.6 grade point average, and be able to obtain a position related to student's academic or career goals (student's present job may qualify), or permission of Instructor. Corequisites: Concurrent in at least one class related to student's major or career interest, or permission of Instructor.	LAB 4.0 20.0 0.0
ASL298AA	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development.	Prerequisites: Permission of Program Director or Instructor.	LAB 1.0 1.0 0.0
ASL298AB	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development.	Prerequisites: Permission of Program Director or Instructor.	LAB 2.0 2.0 0.0
ASL298AC	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development.	Prerequisites: Permission of Program Director or Instructor.	LAB 3.0 3.0 0.0

ASM104	Bones, Stones, and Human Evolution	Study of human evolution and variation; including fossil hominids and their tools, primate anatomy and behavior, human genetics, and the environment and human biology.	Prerequisites: None.	L+L 4.0 5.0 5.0
ASM265	Laboratory Methods in Archaeology	Techniques of artifact. Basic archaeological research techniques; methods of report writing.	Prerequisites: None.	L+L 4.0 4.0 4.0
ASM275	Forensic Anthropology	Survey of the role of forensic anthropologists, from the crime scene to the courtroom. Course focuses on how skeletal analysis can aid in medicolegal investigations, especially by identifying aspects of the life history of unknown individuals and by reconstructing events that took place at crime scenes. Covers both the legal aspects of forensic practice and the underlying biological basis for evidence obtained from skeletal remains. Examines applications of forensic anthropology in mass disasters, human rights investigations, and the deciphering of historic cases. Lab activities designed to illustrate techniques and principles central to the discipline.	Prerequisites: None.	L+L 4.0 5.0 5.0
ASM282AA	Service-Learning Experience in Anthropology	Unpaid Service-Learning (SL) experience, completed with approved community partner.	Prerequisites: Permission of Instructor.	LAB 1.0 1.0 0.0
ASM282AB	Service-Learning Experience in Anthropology	Unpaid Service-Learning (SL) experience, completed with approved community partner.	Prerequisites: Permission of Instructor.	LAB 2.0 2.0 0.0
ASM282AC	Service-Learning Experience in Anthropology	Unpaid Service-Learning (SL) experience, completed with approved community partner.	Prerequisites: Permission of Instructor.	LAB 3.0 3.0 0.0
ASM298AA	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 1.0 1.0 0.0
ASM298AB	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 2.0 2.0 0.0

ASM298AC	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 3.0 3.0 0.0
AST101	Survey of Astronomy	Survey of astronomy for the nontechnical student. The history, content, and evolution of the solar system and the universe in general. Astronomical principles and instrumentation. The planets, moons, sun, comets, stars and star formation, galaxies, and cosmology.	Prerequisites: None.	LEC 4.0 3.0 3.0 LAB 0.0 3.0 3.0
AST102	Survey of Astronomy Laboratory	Astronomical observations and exercises designed to familiarize students with the sky, telescopes, and methods used in astronomy.	Prerequisites: A grade of C or better in AST101 and permission of Instructor or Department or Division.	LAB 1.0 3.0 3.0
AST106	Life in the Universe	Introduction to the search for life in the universe for the non-science major. Earth's location in space and time, nature of life, light and the spectrum, origin and history of the universe, origin of life on Earth and the possibility of life on other planets.	Prerequisites: A grade of C or better in MAT090 or MAT091 or MAT092 or completion of higher level mathematics course, or satisfactory score on placement exam.	LEC 4.0 3.0 3.0 LAB 0.0 3.0 3.0
AST107	Life in the Universe Laboratory	Astronomy, Biology, and Planetary Science laboratory.	Prerequisites: A grade of C or better in AST/GLG106 and permission of Instructor or Department or Division.	LAB 1.0 3.0 3.0
AST111	Introduction to Solar System Astronomy	Introduction to astronomy for the non-science major. The scientific method, properties of light, astronomical instruments, our Solar System and solar systems around other stars. Includes hands-on astronomical observations and laboratory exercises.	Prerequisites: A grade of C or better in MAT092 or higher, or satisfactory score on district placement exam.	LEC 4.0 3.0 3.0 LAB 0.0 3.0 3.0
AST112	Introduction to Stars, Galaxies, and Cosmology	Introduction to astronomy for the non-science major. Structure and evolution of stars; supernovae, black holes, and quasars; nebulae; star clusters; galaxies; cosmology, including the birth and death of the universe.	Prerequisites: A grade of C or better in MAT092 or higher, or satisfactory score on district placement exam.	LEC 4.0 3.0 3.0 LAB 0.0 3.0 3.0
AST113	Introduction to Solar System Astronomy Laboratory	Hands-on astronomical observations and exercises to supplement AST111.	Prerequisites: A grade of C or better in AST111 and permission of Instructor or Department or Division.	LAB 1.0 3.0 3.0
AST114	Introduction to Stars, Galaxies, and Cosmology Laboratory	Hands-on astronomical observations and exercises to supplement AST112.	Prerequisites: A grade of C or better in AST112 and permission of Instructor or Department or Division.	LAB 1.0 3.0 3.0

AST282AA	Service-Learning Experience in Astronomy	Unpaid Service-Learning (SL) experience, completed with approved community partner.	Permission of Instructor.	LAB 1.0 1.0 0.0
AST282AB	Service-Learning Experience in Astronomy	Unpaid Service-Learning (SL) experience, completed with approved community partner.	Prerequisites: Permission of Instructor.	LAB 2.0 2.0 0.0
AST282AC	Service-Learning Experience in Astronomy	Unpaid Service-Learning (SL) experience, completed with approved community partner.	Permission of Instructor.	LAB 3.0 3.0 0.0
AST285	Introduction to Astrodynamics	Introduction to celestial mechanics and the dynamics of spacecraft navigation. Introduction to rocket propulsion and spacecraft design. Orbital and interplanetary celestial mechanics and maneuvers. Astrophysics and characteristics of the space environment. Lab is project-based, utilizing a real-time spacecraft simulation environment.	Prerequisites: A grade of C or better in ENG101 and (PHY115 or PHY121).	LEC 4.0 3.0 3.0 LAB 0.0 3.0 3.0
AST294	Special Topics in Astronomy	Conceptual, experimental, and computational aspects of a special topic in astronomy.	Prerequisites: Permission of Department or Division.	LEC 3.0 3.0 3.0
AST294AA	Special Topics in Astronomy	Conceptual, experimental, and computational aspects of a special topic in astronomy.	Prerequisites: Permission of Department or Division.	LEC 2.0 2.0 2.0
AST294AB	Special Topics in Astronomy	Conceptual, experimental, and computational aspects of a special topic in astronomy.	Prerequisites: Permission of Department or Division.	LEC 1.0 1.0 1.0
AST294AC	Special Topics in Astronomy	Conceptual, experimental, and computational aspects of a special topic in astronomy.	Prerequisites: Permission of Department or Division.	LEC 0.5 0.5 0.5
AST298AA	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 1.0 1.0 0.0
AST298AB	Special Projects	Organized and tailored around the interests and needs of the individual student. ATC298AC	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment are made available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 3.0 3.0 0.0
ATP100	Introduction to Manufacturing and Programmable Logic Controllers	Explores the origin and basic operation of programmable logic controllers (PLC) in manufacturing processes. Laboratory exercises include ladder logic programming, installation, adjustment, and testing of digital and analog sensors, signal conditioners, and basic troubleshooting concepts.	Prerequisites: None.	L+L 3.0 6.0 6.0
ATP101	Introduction to Automated Systems and Robotics	An introduction to automation, distribution systems, Automated Storage and Retrieval Systems (ASRS), and the role of the manufacturing technician. Includes general manufacturing techniques, industry	Prerequisites: None.	LEC 2.0 2.0 2.0

		standards, and statistical process control.		
ATP105	Engineering Documentation	Analysis and interpretation of engineering documentation, common to manufacturing processes.	Prerequisites: None.	LEC 2.0 2.0 2.0
ATP106	Industrial Electrical Systems	Safety for electrical power and control systems, DC & AC circuit analysis, DC power supplies, switches and proximity sensors, inductors and capacitors, electrical and engineering documentation & schematics, digital multimeter & oscilloscope operation, solid state relays, and industrial control transformers.	Prerequisites: None.	L+L 3.0 6.0 6.0
ATP111	Mechanical Systems and Maintenance	Examination of mechanical drive systems. Includes fundamentals of direct drives, belt and pulley drives, chain drives and gear drives. Explores calculating and measuring quantities such as power, speed, torque, speed and torque reduction/amplification, and backlash. Also includes hands-on experience assembling and aligning components, testing and troubleshooting systems.	Prerequisites: None.	L+L 3.0 6.0 6.0
ATP115	Fluid Power	Fundamental industrial fluid power concepts including hydraulic and pneumatic installation, maintenance, and adjustments for the control of automated manufacturing systems.	Prerequisites: None.	L+L 3.0 6.0 6.0
ATP130	DC Circuit Analysis	Direct current (DC) electric circuits. Ohm's law, Kirchoff's laws, series, parallel and series-parallel circuits, network theorems, fundamentals of magnetism in electric circuits.	Prerequisites: None.	L+L 2.0 2.0 2.0
ATP135	AC Circuit Analysis	Alternating Current (AC) circuits containing resistance and reactance. Detailed coverage of AC circuit parameters, including theorems, impedance matching, and resonance.	Prerequisites: A grade of C or better in ATP130 or ELE100 or approval of Instructor.	L+L 2.0 3.0 3.0
ATP150	Fluid Power 1 - Hydraulics, Pneumatics, and Vacuum Concepts	Fundamental fluid power and vacuum for industry. Pneumatic, hydraulic, and vacuum system technologies with emphasis on assembly, integration, and measurement.	Prerequisites: None.	L+L 2.0 3.0 3.0
ATP160	Programmable Logic Controllers 1 - Introduction to Ladder Logic	Introductory lecture and laboratory course explores the origin and basic operation of Programmable Logic Controllers (PLC) with laboratory exercises including wiring of hardware, ladder logic programming and basic troubleshooting concepts.	A grade of C or better required in all Prerequisites. Prerequisites or Corequisites: ATP135 or ELC119 or permission of Program Director.	LEC 3.0 2.0 2.0 LAB 0.0 4.0 4.0
ATP175	Introduction to Motors and Motor Controls	Introduction to direct current and alternating current (AC) motors, types of direct current (DC) and alternating motors.	Prerequisites: A grade of C or better in (ATP130 and ATP135) or ELE111.	L+L 2.0 3.0 3.0

ATP180	Programmable Logic Controllers 2 - Human-Machine Interfaces and Function Block Programming	Advanced lecture and laboratory course builds upon the foundations covered in introductory course, covering development and documentation of advanced ladder logic and function block programming, Programmable Logic Controller (PLC) control of variable frequency devices, and the installation and programming of Human Machine Interfaces (HMI).	Prerequisites: A grade of C or better in ATP160 or permission of Program Director.	LEC 4.0 2.0 2.0 LAB 0.0 5.0 5.0
ATP190	Industrial Robotics	Introduction to industrial robotics covering topics such as safety, operation, control technology, and programming.	Prerequisites: A grade of C or better in GTC108 or higher level math course.	LEC 3.0 4.0 3.7
ATP201	Programmable Logic Controller (PLC) Systems	Advanced lecture and laboratory course builds upon the foundations covered in introductory course, including development and documentation of advanced ladder logic and function block programming, Programmable Logic Controller (PLC) control of variable frequency devices, PLC Networks and the installation and programming of Human Machine Interfaces (HMI).	Prerequisites: A grade of C or better in (ATP100 and ATP106) or permission of Instructor.	L+L 3.0 6.0 6.0
ATP205	Electric Motors and Controls	Examination of electrical motor control, power, and protection systems. Includes fundamentals of single and three-phase power, power, control and protection circuits. Also includes variable frequency drive (VFD), silicon controlled rectifier (SCR) control, and programmable logic controller (PLC).	Prerequisites: A grade of C or better in (ATP100 and ATP106) or permission of Instructor.	L+L 3.0 6.0 6.0
ATP210	Process Control	Introduction to instrumentation and control systems for wet type (continuous product) and dry type (discrete product) production systems. Includes process control concepts, instrumentation tag information, piping and instrumentation diagrams, level and flow sensing devices, Proportional-Integral-Derivative (PID) controllers, Programmable Logic Controllers (PLC), and final control elements.	Prerequisites: A grade of C or better in (ATP100 and ATP106) or permission of Instructor.	L+L 3.0 6.0 6.0
ATP215	Automation System Integration	Capstone course regarding the implementation of the planning, construction, adjustment, and testing of an industrial control system needed for the development of a functional automated system.	Prerequisites: A grade of C or better in (ATP201 and ATP205 and ATP210) or permission of Instructor.	L+L 3.0 6.0 6.0
ATP296WA	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students.	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and be able to obtain a position related to student's academic or career goals (student's present job may qualify) or permission of Instructor.	LAB 1.0 5.0 0.0

			Corequisites: Must be concurrent in at least one class which is related to student's major or career interest or with permission of the Instructor.	
ATP296WB	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students.	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and be able to obtain a position related to student's academic or career goals (student's present job may qualify) or permission of Instructor. Corequisites: Must be concurrent in at least one class which is related to student's major or career interest or with permission of the Instructor.	LAB 2.0 10.0 0.0
ATP296WC	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students.	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and be able to obtain a position related to student's academic or career goals (student's present job may qualify) or permission of Instructor. Corequisites: Must be concurrent in at least one class which is related to student's major or career interest or with permission of the Instructor.	LAB 3.0 15.0 0.0
ATP296WD	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students.	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and be able to obtain a position related to student's academic or career goals (student's present job may qualify) or permission of Instructor. Corequisites: Must be concurrent in at least one class which is related to student's major or career interest or with permission of the Instructor.	LAB 4.0 20.0 0.0
AUT097	General Automotive Maintenance	A study of automotive systems operation and maintenance for the consumer. Purchasing service for cars and performing minor maintenance	Prerequisites: None.	LEC 3.0 3.0 3.0
AUT101	Internal Combustion Engines Theory	Study of construction and operating principles of internal combustion engines and related lubrication, cooling, fuel, and electrical systems	Prerequisites: None.	LEC 3.0 3.0 3.0

AUT101AA	Internal Combustion Engines Theory	Study of construction and operating principles of internal combustion engines and related lubrication, cooling, fuel, and electrical systems	Prerequisites: None.	L+L 3.0 4.0 4.0
AUT103AA	Automotive Electrical Systems	Basic principles and fundamentals of automotive electricity and electrical systems. Training in diagnosis, service and reconditioning procedures of automotive starting, charging, ignition, and electrical circuits and components	Prerequisites: None.	L+L 6.0 10.0 10.0
AUT103AB	Automotive and Electrical/Electronic Systems I	Designed for beginning automotive students. The principle of electricity; the mathematical computations involved with Ohm's Law; the use of meters; electrical schematics; the theory of electrical components as they relate to automobiles; the diagnosis, testing, service and repair of batteries, starting systems and charging systems, lighting systems and instrumentation	Prerequisites: None.	L+L 4.0 7.0 7.0
AUT103BD	Ignition Systems	Diagnosis, service, and reconditioning procedures for automotive ignition systems	Prerequisites: Permission of Instructor.	LEC 1.0 1.0 1.0
AUT103DA	Basic Automotive Electrical Theory	Covers introductory level automotive electrical theory. This includes shop safety and procedures, Circuits, Ohm's Law, use of meters, oscilloscopes, and other basic test equipment, as well as diagnosis of problems in and caused by electrical circuits. Repair of these problems also covered	Prerequisites: None.	L+L 1.1 2.0 2.0
AUT103DB	Automotive Batteries	Study of automotive batteries. Diagnosis, testing, service, and repair of batteries and related circuits covered	Prerequisites: A grade of C or better in AUT103DA or permission of Instructor.	L+L 0.6 1.0 1.0
AUT103DC	Automotive Charging Systems	The diagnosis, testing, service, and repair of charging systems and related components	Prerequisites: A grade of C or better in AUT103DA or permission of Instructor.	L+L 0.9 1.5 1.5
AUT103DD	Automotive Starting Systems	Covers the starting motor systems used on modern automotive vehicles including light duty trucks. Diagnosis, testing, service, and repair of starting systems and related components covered.	Prerequisites: A grade of C or better in AUT103DA or permission of Instructor.	L+L 0.6 1.12 1.12
AUT103DE	Automotive Lighting, Indicator, and Warning Circuits	Covers the operation of, diagnosis and repair of common automotive lighting, instrumentation, and warning device circuits used on the automobile.	Prerequisites: A grade of C or better in AUT103DA or permission of Instructor.	L+L 0.8 1.37 1.37
AUT104AA	Automotive Fuel Systems	Theory and operation of fuel injection, engine control management, turbo charging and fuel systems, training in diagnosis, service and reconditioning procedures	Prerequisites: A grade of C or better in AUT103AA or AUT103AB or permission of Instructor.	L+L 3.0 5.0 5.0
AUT105AA	Engine Performance and Diagnosis	The theory and fundamentals of automotive engine management troubleshooting and oscilloscope testing as it pertains to diagnosis and tune-up of the modern day automobile. Emphasis on interpretation of	Prerequisites: A grade of C or better in (AUT103AA and AUT104AA) or permission of Instructor.	L+L 3.0 5.0 5.0

		oscilloscope patterns and Scantool Data as they relate to engine performance.		
AUT106AA	Engine Overhaul and Reconditioning	Diagnostic and service skills essential to service and repair automotive internal combustion engines. Includes valve guide, seat reconditioning, cylinder block, piston, rod and crankshaft service	Prerequisites: None.	L+L 4.0 8.0 8.0
AUT106AC	Engine Overhaul and Reconditioning: Heads and Valves	Diagnostic and service skills essential to service and repair of the cylinder head and valve train of contemporary automotive engines. Includes valve, guide, and seat reconditioning and service. Does not include block and crankshaft service	Prerequisites: A grade of C or better in AUT103AA or permission of Instructor.	L+L 3.0 5.0 5.0
AUT106AD	Engine Overhaul and Reconditioning Block and Crankshaft	Diagnostic and service skills related to cylinder block, piston, rod and crankshaft service. Includes honing, boring and crankshaft reconditioning as well as piston and ring service. Does not include cylinder head and valve work.	Prerequisites: None.	L+L 3.0 5.0 5.0
AUT107AA	Automotive Air Conditioning	The theory and principles of refrigeration and air conditioning. Training in diagnosis, servicing, and reconditioning procedures of automotive air conditioning systems	Prerequisites: None.	L+L 3.0 5.0 5.0
AUT107AC	Automotive Air Conditioning	The theory and principles of refrigeration and air conditioning. Training in diagnosis, servicing, and reconditioning procedures of automotive air conditioning systems	Prerequisites: None.	L+L 3.0 6.0 6.0
AUT107AD	Automotive Air Conditioning	The theory and principles of refrigeration and air conditioning. Training in diagnosis, servicing, and reconditioning procedures of automotive air conditioning systems including electronic system controls.	Prerequisites: A grade of C or better in AUT103AA.	L+L 4.0 7.0 7.0
AUT108AB	Front-End Suspension, Steering, and Alignment	The fundamentals and principles of suspension and steering systems. Diagnosis, service, and reconditioning procedures. Laboratory emphasis on front-end service and alignment	Prerequisites: None.	L+L 4.0 7.0 7.0
AUT109AA	Automotive Brake Systems	The fundamentals and principles of hydraulics and automotive braking systems. Diagnosis, service, and reconditioning procedures of automotive braking systems	Prerequisites: None.	L+L 3.0 5.0 5.0
AUT109AC	Automotive Brake Systems	Designed for beginning automotive students. Fundamentals of drum, disc, and ABS brakes. Includes training in diagnosis, testing, service, and repair	Prerequisites: None.	L+L 4.0 7.0 7.0
AUT110AC	Automotive Power Trains	Designed for beginning automotive students. Operation, diagnosis, service, and repair of the automotive power train. Includes clutches, torque converters, standard and automatic transmissions and transaxles, front and rear drive axles, drive shafts, differentials and transfer case	Prerequisites: None.	L+L 4.0 7.0 7.0

AUT123	Automatic Transmissions	Theory of operation and servicing procedures for current automatic transmissions.	Prerequisites: A grade of C or better in (AUT103AA and AUT104AA) or permission of Instructor.	LEC 6.0 4.0 4.0 LAB 0.0 6.0 6.0
AUT123AA	Automatic Transmissions	Theory of operation and servicing procedures for current domestic automatic transmissions; includes diagnostics and testing of mechanical, electrical, and hydraulic components	Prerequisites: None.	L+L 4.0 8.0 8.0
AUT130	Automotive Quick Service	Use of standard service publications; performance of commonly used service operations following published service procedures; emphasis on good attitude development and safety habits about automotive service.	Prerequisites: None.	L+L 4.0 7.0 7.0
AUT203	Electrical Accessories	Theory and principles of wiring diagrams, accessories circuits, turn signals, and warning systems. Circuit trouble-shooting and service of gauges, indicators, power windows and seats, deck latches, and windshield wipers. Computerized electronic devices.	Prerequisites: A grade of C or better in AUT103AA or permission of Instructor.	L+L 3.0 5.0 5.0
AUT210	Automotive Emission Systems	Automotive emissions control systems and methods of emissions measurement. Diagnostic practices as suggested by the manufacturers and the related service of emissions control devices	Prerequisites: A grade of C or better in (AUT103AA and AUT104AA) or permission of Instructor.	LEC 3.0 3.0 3.0
AUT210AA	Automotive Emission Systems	Automotive emissions control systems and methods of emissions measurement. Diagnostic practices as suggested by the manufacturers and the related service of emissions control devices	Prerequisites: A grade of C or better in (AUT103AA and AUT104AA) or permission of Instructor.	L+L 3.0 5.0 5.0
AUT215AA	Automotive and Electrical/Electronic Systems II	Electrical accessory circuits including horns, wipers, defoggers, automatic door locks, power mirrors, power windows and power seats. Focuses on introduction to body computers, advanced lighting circuits and instrumentation, and chassis electronic control systems. Includes training in diagnosis, testing, service, and repair.	Prerequisites: A grade of C or better in AUT103AA or AUT103AB or permission of Instructor.	L+L 4.0 7.0 7.0
AUT233	Computerized Engine Control Systems	Presents the reasons for developing and using computerized engine control systems. Explores system operation, examining each component. Emphasizes diagnosis and repair of system faults	Prerequisites: A grade of C or better in AUT103AB and AUT104AA or permission of Instructor.	L+L 3.0 5.0 5.0
AUT240	Hybrid Vehicle Overview	Automotive hybrid vehicle design and operation. Safety practices as suggested by manufacturers for servicing hybrid vehicles.	Prerequisites: A grade of C or better in AUT130.	L+L 2.0 3.0 3.0
AUT282AA	Service-Learning Experience in Automotive	Unpaid Service-Learning (SL) experience, completed with approved community partner.	Prerequisites: Permission of Instructor.	LAB 1.0 1.0 0.0

AUT282AB	Service-Learning Experience in Automotive	Unpaid Service-Learning (SL) experience, completed with approved community partner.	Prerequisites: Permission of Instructor.	LAB 2.0 2.0 0.0
AUT282AC	Service-Learning Experience in Automotive	Unpaid Service-Learning (SL) experience, completed with approved community partner.	Prerequisites: Permission of Instructor.	LAB 3.0 3.0 0.0
AVT298AA	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 1.0 1.0 0.0
AVT298AB	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 2.0 2.0 0.0
AVT298AC	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 3.0 3.0 0.0
BAW102	Aesthetics Essentials	Introduction to the field of aesthetics including application of theory and skills to deliver an effective skin care facial treatment and client pre and post consultations. Focus on effective client communication, interpersonal skills, sanitation, Arizona laws, client care, and facial care.	Prerequisites: None.	L+L 4.0 8.0 8.0
BAW104	Hair Essentials I	Introduction to the basic theory and procedures in cosmetology hair essentials.	Prerequisites: None.	L+L 4.0 8.0 8.0
BAW106	Hair Essentials II	Hair-shaping techniques and chemical application procedures in cosmetology hair essentials.	Prerequisites: None.	L+L 4.0 8.0 8.0
BAW110	Advanced Aesthetics	Theory and application of advanced skin care modalities, resurfacing, and cosmetic chemistry. Hair removal	Prerequisites: None.	L+L 4.0 8.0 8.0

		techniques, makeup application, and an introduction to body treatments is also included. Application of theory and skills through treatment services provided to the public. Focus on communication and documentation to create customized treatment plans and product recommendations for clients that follow all safety and infection control procedures in compliance with the Arizona Board of Cosmetology (AZBOC).		
BAW112	Hair Essentials	Focus on the competencies of the Cosmetologist and the Hair Stylist Certificate Programs and the Arizona State Board of Cosmetology as an introduction to the basic theory and procedures in Cosmetology Hair Essentials.	Prerequisites: None.	L+L 7.0 17.0 17.0
BAW114	Student Salon I	Introduction to Cosmetology Student Salon operations and client services in the Cosmetology Clinic. Focus on application of skills learned in the classroom on live and mock clients.	Prerequisites: None.	L+L 4.0 8.0 8.0
BAW115	Aesthetics Mastery	Focus on theories and performance of comprehensive professional aesthetics treatments for the public including communication and documentation to create customized treatment plans and product recommendations for clients that follow all safety and infection control procedures in compliance with the Arizona Board of Cosmetology (AZBOC). Overview of business planning and employment in the field including marketing, job search strategies, professional development, and self promotion. AZBOC examination licensure preparation.	Prerequisites: None.	L+L 4.0 8.0 8.0
BAW116	Student Salon II	Continuation of student salon with a focus on real life scenarios to serve a client and/or become a future business owner in the beauty industry.	Prerequisites: A grade of C or better in BAW114.	L+L 4.0 8.0 8.0
BAW118	Hair Stylist State Licensure	Preparation for the written and practical examinations for Arizona State Board of Cosmetology licensure as related to hairstyling. Focus on Arizona State testing procedures for the written and practical examinations, as well as applicable Arizona State laws for a Hairstylist. Final salon business practices and services.	Prerequisites: None.	L+L 4.0 8.0 8.0
BAW119	Nail Essentials	Introduction to nail services in the beauty industry. Focus on knowledge and skills of providing nail services on actual clients in a salon setting.	Prerequisites: None.	L+L 4.0 8.0 8.0
BAW212	Skin Essentials	Introduction to skin services in the beauty industry. Focus on knowledge	Prerequisites: None.	L+L 4.0 8.0 8.0

		and skills of providing skin services on actual clients in a salon setting.		
BAW214	Student Salon III	Focus on application of cosmetology skills learned in the live salon setting to perform services with limited instructor assistance. Industry readiness and preparation to perform services in the chosen field of expertise after licensure with Arizona State Board of Cosmetology.	Prerequisites: A grade of C or better in BAW116.	L+L 4.0 8.0 8.0
BAW218	Cosmetology State Licensure	Preparation for the written and practical examinations for Arizona State Board of Cosmetology licensure. Focus on Arizona State testing procedures for the written and practical examinations, as well as Arizona State laws for a cosmetologist. Final salon business practices and services.	Prerequisites: None.	L+L 4.0 8.0 8.0
BAW298AA	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development.	Prerequisites: Permission of Program Director or Instructor.	LAB 1.0 1.0 0.0
BAW298AB	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development.	Prerequisites: Permission of Program Director or Instructor.	LAB 2.0 2.0 0.0
BAW298AC	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development.	Prerequisites: Permission of Program Director or Instructor.	LAB 3.0 3.0 0.0
BHS150	Introduction to Behavioral Health and Social Services	Survey of the behavioral health and social services professions, including scope of practice and training requirements. Exploration of employment opportunities in the field and self-assessment/academic planning for a career in mental health. Overview of mental health disorders and first	Prerequisites: None.	LEC 3.0 3.0 3.0

		responder skills in a mental health crisis situation.		
BHS155	Professional Resiliency and Well-Being	Exploration of building human resilience and well-being to prevent burnout, traumatic stress, and compassion fatigue for social services and mental health professionals, healthcare providers, emergency first responders, and other relationship-intense occupations. Causes, symptoms, and effects of traumatic stress, burnout compassion fatigue and other work-related stress. Focus on enhancing quality of life and improving a healthy lifestyle by incorporating evidenced-based practices in psychological and emotional resilience training, cognitive behavioral therapy, mindfulness, positive psychology, prevention, peer support, and self-care, including nutrition, exercise, and sleep.	Prerequisites: None.	LEC 3.0 3.0 3.0
BHS160	Ethical, Legal and Professional Issues in Behavioral Health and Social Service	Explores relevant ethical, legal, and professional issues inherent in the behavioral health and social services field, including expectations of and limitations on providers. Key areas of inquiry include boundaries and dual relationships, mandated reporting, confidentiality, scope of practice, beneficence and non-maleficence, rights and responsibilities, professional relationships, and credentialing/regulating agencies.	Prerequisites: None.	LEC 3.0 3.0 3.0
BHS165	Applied Therapeutic Communication Skills	Theory and practice of communication skills to establish and maintain effective helping relationships and enhance the therapeutic alliance. Emphasis on verbal communication, nonverbal communication, paraverbal communication, rapport building, empathetic and active listening skills, resolving interpersonal conflicts, appropriate feedback, and developing and maintaining personal and professional relationships.	Prerequisites: None.	LEC 3.0 3.0 3.0
BHS170	Case Management and Clinical Documentation	Overview and application of the principles, practices, and function of case management in human services. Case management service delivery and coordination for clients with psychological, developmental, and psychiatric and comorbid medical conditions. Documentation techniques necessary to maintain clinical records in a variety of behavioral healthcare settings.	Prerequisites: None.	LEC 3.0 3.0 3.0
BHS175	Introduction to Trauma-Informed Care and Trauma-Focused Caregiving	Comprehensive overview of various types of trauma, neurobiological effects of traumatic stress, and ethics	Prerequisites: None.	LEC 3.0 3.0 3.0

		associated in working with a trauma survivor. Concepts and skills needed to become a fully functioning trauma-informed caregiver professional in the mental health and primary care setting.		
BHS180	Child, Family, and Adult Advocacy	The role of advocacy in relation to multiple systems affecting children, families, and adults. Emphasis on identifying appropriate supports, community resources, and "wrap-around" services to help foster healthy family and child development, adult recovery, and social welfare.	Prerequisites: None.	LEC 3.0 3.0 3.0
BHS185	Cultural Competence in Behavioral Health	Exploration of cultural diversity and its potential impact on behaviors, emotions, cognitions and perceptions, relationships, and values. Intercultural communication skills through the examination of cultural and racial diversity, sexual and gender identity, social justice, and religious and spiritual diversity. Consideration of its implications for the therapeutic process and the importance of self-awareness and effective communication skills for professionals in the behavioral health and social sciences.	Prerequisites: None.	LEC 3.0 3.0 3.0
BHS190	Professional Portfolio: Supervised Practice In Behavioral Health and Social Services	Firstrand work experience in mental health, social service or a related behavioral healthcare provider setting. 80 hours of designated volunteer or paid work.	Prerequisites: A grade of C or better in BHS150, BHS155, and BHS160, and permission of Department or Division.	L+L 3.0 15.0 0
BHS205	Therapeutic Models and Interventions in Individual Therapy	Introduction to the major evidence-based therapeutic models and interventions in social and behavioral sciences. Defines the key concepts, techniques and procedures of each theoretical model.	Prerequisites: None.	LEC 3.0 3.0 3.0
BHS210	Addictions, Substance Use Disorders, and Relapse Prevention	An introduction to the historical and current developments in the field of addictions, as well as sociological, psychological and physiological aspects of addictive behaviors and substance abuse. Introduces contemporary treatment methods within addiction practice, including self-help groups, levels of care, symptom identification, and models of prevention and intervention.	Prerequisites: None.	LEC 3.0 3.0 3.0
BHS215	Therapeutic Models and Intervention in Group Therapy	Evaluate and demonstrate the methods and techniques for influencing change in group settings.	Prerequisites: None.	LEC 3.0 3.0 3.0
BHS216	Group Process	Evaluate and demonstrate the methods and techniques for influencing change in group settings.	Prerequisites: A grade of C or better in BHS151 or permission of Department or Division.	LEC 3.0 3.0 3.0
BHS220	Introduction to Integrated Behavioral Healthcare	Introduction to key concepts related to the provision of integrated health care services, as well as role of wellness and	Prerequisites: None.	LEC 3.0 3.0 3.0

		prevention in community health services. The course will introduce students to the theory and clinical practice of integrated behavioral health in primary care, as well as evidence-based approaches to promote wellness in individuals and communities.		
BHS230	Crisis and Trauma Stabilization	Theoretical and applied foundation designed for behavioral health service providers working with people in crisis. Examines the phenomena and dynamics of crises and emergencies, as well as the related strategies/modalities.	Prerequisites: None.	LEC 3.0 3.0 3.0
BHS235	Emergency Mental Health Crisis Response and Recovery	Comprehensive study of natural and human-caused disasters and their effects on the trauma survivor. Introduction to basic emergency mental health interventions to help stabilize those experiencing crisis following critical incident disasters.	Prerequisites: None.	LEC 3.0 3.0 3.0
BHS251	Harm Reduction in Addiction, Substance Use, and Social Services	Introduction to harm reduction principles, policies, programs, and practices that aim to reduce the adverse health, social and economic consequences of the use of legal and illegal drugs. This course will introduce behavioral health and social service providers as well as paraprofessional counselors to the theory and practice of harm reduction strategies in addiction, social service, and community settings.	Prerequisites: None.	LEC 3.0 3.0 3.0
BHS255	Health and Wellness Coaching in Professional Resiliency	Comprehensive overview of the art, science, and role of coaching and teaching resiliency for the following issues: personal and work-related stress, burnout, traumatic stress, and compassion fatigue. Develop pedagogical techniques and practical application of evidence-based interventions in biobehavioral self-regulation, mindfulness, cognitive restructuring, positive psychology, peer support, and holistic self-care. Designed to develop skills as a health and wellness coach in professional resiliency for enhancing health and quality of life.	Prerequisites: A grade of C or better in BHS155.	LEC 3.0 3.0 3.0
BHS262	Behavioral Health Service Techniques for the Elderly	Specific counseling skills and appropriate intervention strategies for working with the elderly. Focus on the particular psychological, sociological and physical problems of this age group.	Prerequisites: A grade of C or better in ASD102, or BHS152, or permission of Department or Division.	LEC 3.0 3.0 3.0
BHS266	Violence and Abuse Services	Techniques, strategies, and treatment modalities necessary for the helping professional working with the victims and perpetrators of violence and abuse.	Prerequisites: None.	LEC 3.0 3.0 3.0
BHS267	Introduction to Play Therapy	Exploration and application of therapeutic play techniques and	Prerequisites: A grade of C or better in (BHS105 and	LEC 3.0 3.0 3.0

		strategies for the helping professional working with children.	BHS165) or permission of Department or Division.	
BHS269	Grief Support Techniques	Techniques, strategies, and treatment modalities necessary for the helping professional working with the bereaved and others affected by traumatic loss.	Prerequisites: None.	LEC 3.0 3.0 3.0
BHS271	Developmental Disabilities Assistance Training	Introduction to the field of developmental disability assistance. Also includes common causes of developmental disabilities, treatments and other behavioral conditions that may affect such individuals.	Prerequisites: None.	LEC 30 3.0 3.0
BHS272	Child and Adolescent Mental Health and Interventions	Strategies for training and reinforcing positive interaction with children. Covers behavior management strategies and techniques to prevent behavioral problems, replace behaviors and manage consequences.	Prerequisites: None.	LEC 3.0 3.0 3.0
BHS275	Infant and Early Childhood Mental Health	Foundational knowledge of mental health during infancy and early childhood. Exploration of social-emotional development and relational influences on mental health. Emphasis on identifying early warning signs, making appropriate referrals, and employing a multidisciplinary child and family team approach to services.	Prerequisites: None.	LEC 3.0 3.0 3.0
BHS281	Introduction to Art Therapy	Exploration of the process, dynamics and objectives of the therapeutic art experience. Emphasis on Art Therapy from both the psychological and artistic perspectives. Highlights topics in the history, theory and practice of Art Therapy	Prerequisites: A grade of C or better in BHS105 or permission of Department or Division.	LEC 3.0 3.0 3.0
BHS298AA	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment are made available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 1.0 1.0 0.0
BHS298AB	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment are made available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 2.0 2.0 0.0

BHS298AC	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment are made available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 3.0 3.0 0.0
BIO100	Biology Concepts	Introductory course covering basic principles and concepts of biology. Methods of scientific inquiry and behavior of matter and energy in biological systems are explored.	Prerequisites: None.	LEC 4.0 3.0 3.0 LAB 0.0 3.0 3.0
BIO101	Introduction to Human Genetics for Non-Majors	Study of inheritance in humans, at the organismal, cellular and molecular levels. Includes exploration of gene expression, isolation and manipulation of DNA, Mendelian genetics, pedigree analysis, as well as chromosomal abnormalities and genetic diseases.	Prerequisites: None.	LEC 4.0 3.0 3.0 LAB 0.0 3.0 3.0
BIO102	Cells to Systems: An Introduction to Biology for Non-Majors	Study of living things. Builds from basic molecular components to structure and physiology of cells and organ systems of animals and plants.	Prerequisites: None.	LEC 4.0 3.0 3.0 LAB 0.0 3.0 3.0
BIO105	Environmental Biology	Fundamentals of ecology and their relevance to human impact on natural ecosystems. Field trips may be required at students` expense.	Prerequisites: None.	LEC 4.0 3.0 3.0 LAB 0.0 3.0 3.0
BIO106	Biotechnology and Society I	Introduction to biotechnology and its impact on society. Covers applications, limitations, benefits, risks, and legal and moral issues associated with biotechnology	Prerequisites: None.	LEC 3.0 3.0 3.0
BIO107	Introduction to Biotechnology	Introduction to biotechnology and its global impact on society. Covers applications, laboratory techniques, limitations and the international economic benefits, risks, and legal and moral issues associated with biotechnology	Prerequisites: None.	LEC 4.0 3.0 3.0 LAB 0.0 3.0 3.0
BIO108	Plants and Society	A global study of plants in relation to humans; as a source of food, fiber, drugs, and other products; for aesthetic value, survival, and energy	Prerequisites: None.	LEC 4.0 3.0 3.0 LAB 0.0 3.0 3.0
BIO109	Natural History of the Southwest	Study of the common plants and animals of the Southwest including their distribution, adaptation, behavior, and ecology. Introduction to basic field and laboratory techniques used in the study of natural history. Specific field problems presented dealing with plant and animal analysis and ecological interrelationships.	Prerequisites: None.	LEC 4.0 3.0 3.0 LAB 0.0 3.0 3.0

BIO111	Microbes and Society	Examination of the science of microbes and the impact of microbes on human affairs. Topics include principles of microbial diversity, cell structure, growth and reproduction, global processes, disease, and prevention of disease.	Prerequisites: None.	LEC 4.0 3.0 3.0 LAB 0.0 3.0 3.0
BIO116	Introduction to Animal Behavior	Scientific study of animal behavior for non-majors. Includes experimental exploration of current hypotheses for genetic and environmental influences, communication, reproductive strategies, habitat selection, and sociality.	Prerequisites: None.	LEC 4.0 3.0 3.0 LAB 0.0 3.0 3.0
BIO145	Marine Biology	A survey of marine environments and their biotic communities with emphasis on the natural history of marine organisms	Prerequisites: None.	LEC 4.0 3.0 3.0 LAB 0.0 3.0 3.0
BIO149AF	Field Biology: Natural History of the Grand Canyon	Survey of plants and animals of the Grand Canyon emphasizing ecological relationships and adaptational biology. Human activities in and impact upon the Canyon's ecosystems from prehistoric times to present considered. Course consists of on-campus lectures and 7-day raft trip through inner gorge of the Grand Canyon	Prerequisites: None.	LAB 1.0 7.0 1.0
BIO149AH	Field Biology: Marine Biology in Mexico	Introduction to marine experiments, marine biology, and ecology. On-site field experience in Mexico. Emphasis on observation and study of marine organisms along the shore.	Prerequisites: Permission of Instructor.	L+L 1.0 1.34 1.34
BIO149AI	Biology: Tropical Biology/ Costa Rica	A 14-day study of different tropical life zones, including hot wet jungle, hot dry jungle, and cloud forest. Emphasis on unusual plant and animal interactions, tropical ecology, and adaptations. Topics include diversity, competition, epiphytes, parasites, pollinators, reproductive strategies, and zonation. Field sites located in national parks of Costa Rica. Living conditions not developed but comfortable. Daily hikes required.	Prerequisites: None.	LAB 2.0 14.0 2.0
BIO149AK	Field Biology: Ecological and Environmental Field Experience	Field expeditions in which ecological and environmental principles and concepts are observed and studied.	Prerequisites: None.	LAB 1.0 7.0 1.0
BIO149AL	Field Biology: Ecological and Environmental Field Experience	Field expeditions in which ecological and environmental principles and concepts are observed and studied.	Prerequisites: None.	LAB 2.0 14.0 2.0
BIO149AM	Field Biology: Ecological and Environmental Field Experience	Field expeditions in which ecological and environmental principles and concepts are observed and studied	Prerequisites: None.	LAB 3.0 21.0 1.0
BIO149AN	Field Biology: Ecological and Environmental Field Experience	Field expeditions in which ecological and environmental principles and concepts are observed and studied	Prerequisites: None.	LAB 4.0 28.0 1.0
BIO149SV	Field Biology: Ecological and Environmental Field Experience	Field expeditions in which ecological and environmental principles and concepts are observed and studied.	Prerequisites: None.	L+L 1.0 1.34 1.34

BIO156	Introductory Biology for Allied Health	An introductory biology course for allied health majors with an emphasis on humans. Topics include fundamental concepts of cell biology, histology, microbiology, and genetics.	Prerequisites: A grade of C or better in RDG100 or RDG100LL or higher or eligibility for CRE101 as indicated by appropriate reading placement test score. One year of high school or one-semester of college level chemistry is strongly recommended.	LEC 4.0 3.0 3.0 LAB 0.0 3.0 3.0
BIO156XT	Introductory Biology for Allied Health	An introductory biology course for allied health majors with an emphasis on humans. Topics include fundamental concepts of cell biology, histology, microbiology, and genetics.	Prerequisites: A grade of C or better in RDG100 or RDG100LL or higher or eligibility for CRE101. One year of high school or one-semester of college level chemistry is strongly recommended.	LEC 4.0 3.0 3.0 LAB 0.0 4.0 4.0
BIO160	Introduction to Human Anatomy and Physiology	Principles of scientific method. Structural organization, homeostasis and control mechanisms of the body. Specific chemistry concepts. Structure and function of the major systems of the body.	Prerequisites: None.	LEC 4.0 3.0 3.0 LAB 0.0 3.0 3.0
BIO171	Introduction to Good Manufacturing Practices(GMP)-Regulated Manufacturing	Course is designed to provide individuals with an overview of Good Manufacturing Practices (GMP), their application in a variety of industries and the opportunities for in such fields.	Prerequisites: None.	LEC 3.0 3.0 3.0
BIO173	Basic Instrumentation and Lab Math	Introductory course covering basic equipment, measurements, and calculations used in biotechnology laboratories.	Prerequisites: None. BIO156 or BIO181 recommended.	LEC 1.0 1.0 1.0
BIO174	BioSafety	General laboratory safety, hazardous chemical use and disposal, biohazardous material use and disposal, biosafety procedures, and radiation safety.	Prerequisites: None.	LEC 1.0 1.0 1.0
BIO175	Research Methods in Biology	Fundamentals of planning and conducting biological experiments, including ones that simultaneously vary multiple experimental variables. Subsequent analysis, interpretation, and reporting of results.	Prerequisites: None. BIO156 or BIO181 recommended.	L+L 1.0 2.0 2.0
BIO181	General Biology (Majors) I	The study and principles of structure and function of organisms at the molecular and cellular levels. A detailed exploration of the chemistry of life, the cell, and genetics.	Prerequisites: A grade of C or better in RDG100, or RDG100LL, or higher, or eligibility for CRE101. One year of high school or one semester of college-level biology and chemistry is strongly recommended.	LEC 4.0 3.0 3.0 LAB 0.0 3.0 3.0
BIO181XT	General Biology (Majors) I	The study and principles of structure and function of organisms at the molecular and cellular levels. A detailed exploration of the chemistry of life, the cell, and genetics.	Prerequisites: A grade of C or better in RDG100, or RDG100LL, or higher, or eligibility for CRE101. One year of high school or one semester of college-level	LEC 4.0 3.0 3.0 LAB 0.0 4.0 4.0

			biology and chemistry is strongly recommended.	
BIO182	General Biology (Majors) II	The study and principles of structure and function of living things at cellular, organismic, and higher levels of organization. A detailed exploration of the mechanisms of evolution, biological diversity, biology of organisms, and ecology.	Prerequisites: A grade of C or better in BIO181 or BIO181XT.	LEC 4.0 3.0 3.0 LAB 0.0 3.0 3.0
BIO182XT	General Biology (Majors) II	The study and principles of structure and function of living things at cellular, organismic, and higher levels of organization. A detailed exploration of the mechanisms of evolution, biological diversity, biology of organisms, and ecology.	Prerequisites: A grade of C or better in BIO181 or BIO181XT.	LEC 4.0 3.0 3.0 LAB 0.0 4.0 4.0
BIO192	Recitation in Biology	Discussion, guided practice and problem solving related to a topically focused area of biology.	Prerequisites: None. Corequisites: Any 100-level BIO Biology course or permission of Instructor.	L+L 1.0 1.0 1.0
BIO194AA	Special Topics in Biology	Conceptual and research basis of a current topic in biology.	Prerequisites: Permission of Instructor.	LEC 1.0 1.0 1.0
BIO194AB	Special Topics in Biology	Conceptual and research basis of a current topic in biology. Includes integrated laboratory and/or field applications of related methodologies.	Prerequisites: Permission of Instructor.	L+L 1.0 2.0 2.0
BIO194AC	Special Topics in Biology	Conceptual and research basis of a current topic in biology. Includes laboratory and/or field applications of related methodologies.	Prerequisites: Permission of Instructor.	LEC 2.0 1.0 1.0 LAB 0.0 3.0 3.0
BIO195AA	Principles and Practice of Scientific Research	Students will learn the use of the scientific method; how, why and where research is conducted; the ethical protocol in the scientific process; how peer review works, and how to formulate scientifically testable hypotheses and design supporting experiments. Students will apply the scientific method in laboratory and/or field research projects, will learn and use appropriate laboratory techniques, and will communicate research design, data collection, and data interpretation in conventional scientific formats.	Prerequisites: A grade of C or better in (BIO181 or CHM151 or PHY111) or permission of Instructor.	L+L 1.0 2.0 2.0
BIO195AB	Principles and Practice of Scientific Research	Students will learn the use of the scientific method; how, why and where research is conducted; the ethical protocol in the scientific process; how peer review works, and how to formulate scientifically testable hypotheses and design supporting experiments. Students will apply the scientific method in laboratory and/or field research projects, will learn and use appropriate laboratory techniques, and will communicate research design, data collection, and data interpretation in conventional scientific formats.	Prerequisites: A grade of C or better in (BIO181 or CHM151 or PHY111) or permission of Instructor.	L+L 2.0 4.0 4.0

BIO195AC	Principles and Practice of Scientific Research	Students will learn the use of the scientific method; how, why and where research is conducted; the ethical protocol in the scientific process; how peer review works, and how to formulate scientifically testable hypotheses and design supporting experiments. Students will apply the scientific method in laboratory and/or field research projects, will learn and use appropriate laboratory techniques, and will communicate research design, data collection, and data interpretation in conventional scientific formats.	Prerequisites: A grade of C or better in (BIO181 or CHM151 or PHY111) or permission of Instructor.	L+L 3.0 6.0 6.0
BIO201	Human Anatomy and Physiology I	Study of structure and function of the human body. Topics include cells, tissues, integumentary system, skeletal system, muscular system, and nervous system.	Prerequisites: (A grade of C or better in BIO156 or BIO156XT or BIO181 or BIO181XT or one year of high school biology) and a grade of C or better in RDG100 or RDG100LL or higher or eligibility for CRE101. CHM130 or higher or one year of high school chemistry suggested but not required.	LEC 4.0 3.0 3.0 LAB 0.0 3.0 3.0
BIO201XT	Human Anatomy and Physiology I	Study of structure and function of the human body. Topics include cells, tissues, integumentary system, skeletal system, muscular system, and nervous system.	Prerequisites: A grade of C or better in (BIO156, or BIO156XT, or BIO181, or BIO181XT, or one year of high school biology) and (RDG100, or RDG100LL, or higher, or eligibility for CRE101). CHM130 or higher or one year of high school chemistry suggested but not required.	LEC 4.0 3.0 3.0 LAB 0.0 4.0 4.0
BIO202	Human Anatomy and Physiology II	Continuation of structure and function of the human body. Topics include endocrine, circulatory, lymphatic, respiratory, digestive, urinary, and reproductive systems; and fluid and electrolyte balance.	Prerequisites: A grade of C or better in BIO201 or BIO201XT.	LEC 4.0 3.0 3.0 LAB 0.0 3.0 3.0
BIO205	Microbiology	Study of microorganisms and their relationship to health, ecology, and related fields.	Prerequisites: (A grade of C or better in BIO156 or BIO156XT or BIO181 or BIO181XT or one year of high school biology) and a grade of C or better in RDG100 or RDG100LL or higher or eligibility for CRE101. CHM130 or higher or one year of high school chemistry suggested but not required.	LEC 4.0 3.0 3.0 LAB 0.0 3.0 3.0
BIO208	Nucleic Acid Methods	Intensive introduction to laboratory methods for the isolation, purification, manipulation analysis and quantification of nucleic acids.	Prerequisites: A grade of C or better in [BIO156 or BIO181 and (BIO173 and	L+L 3.0 6.0 6.0

			BIO175)], or permission of Instructor.	
BIO209	Biomolecular Separation	Introduction to industrial laboratory biotechnology with intensive focus on the recovery of heterologous proteins and other biomolecules from cultivated cells and the subsequent recovery, purification and characterization of these molecules.	Prerequisites: A grade of C or better in [BIO181 or BIO156 and (BIO173 and BIO175)] or permission of Instructor.	L+L 3.0 6.0 6.0
BIO210	Advanced Lab Instrumentation	Provides training in the principles, operation and interpretation of data from laboratory instrumentation.	Prerequisites: A grade of C or better in BIO208, or BIO209, or permission of Instructor.	L+L 3.0 6.0 6.0
BIO211AA	Biotechnology Seminar: Biomedical Applications	Special topics in biotechnology with an emphasis on current issues not covered in other life science courses	Prerequisites: None.	LEC 1.0 1.0 1.0
BIO211AB	Biotechnology Seminar: Laboratory Protocol	Special topics in biotechnology with an emphasis on current issues not covered in other life science courses	Prerequisites: A grade of C or better in BIO211AA or permission of Instructor.	LEC 1.0 1.0 1.0
BIO211AE	Biotechnology Seminar: Business and Regulatory Issues	Selected topics in biotechnology with an emphasis on current issues not covered in other life science courses	Prerequisites: None.	LEC 1.0 1.0 1.0
BIO212AA	Biotechnology I	Intensive introduction to biotechnology, including media and solution preparation, routine manipulations of DNA, structural properties of DNA, and regulation of gene expression.	Prerequisites: A grade of C or better in BIO181 or Corequisites: BIO181 or permission of Instructor.	LEC 5.0 3.0 3.0 LAB 0.0 6.0 6.0
BIO212AB	Biotechnology II	Intensive introduction to biotechnology, including protein biochemistry, techniques for handling and purifying proteins, recombinant deoxyribonucleic acid (DNA), sequencing deoxyribonucleic acid (DNA), testing deoxyribonucleic acid (DNA) fragments for promoter activity and analysis of deoxyribonucleic acid (DNA) for open reading frames, promoters, and homology	Prerequisites: A grade of C or better in BIO212AA.	LEC 5.0 3.0 3.0 LAB 0.0 6.0 6.0
BIO212AC	Biotechnology III	Intensive introduction to biotechnology, including techniques for working with proteins, especially antibodies. Testing for presence of and purifying antibodies. Techniques for working with eukaryotic cells	Prerequisites: A grade of C or better in BIO212AB.	LEC 5.0 3.0 3.0 LAB 0.0 6.0 6.0
BIO213	Biotechnology Refresher	Opportunity for students who need more practice with biotechnology laboratory techniques to review their skills.	Prerequisites: A grade of C or better in (BIO208 or BIO209 or BIO212AA) and permission of Program Director.	L+L 2.0 6.0 6.0
BIO215AB	Biotechnology Internship	Internship experience in a biotechnology laboratory. Setting, achieving, and evaluating goals for hands-on learning experience in a biotechnology laboratory. Development of skills and knowledge needed to work in a biotechnology laboratory.	Prerequisites: A grade of C or better in (BIO208 or BIO209 or BIO213) and permission of Program Director.	LAB 2.0 2.0 0.0
BIO215AC	Biotechnology Internship	Internship experience in a biotechnology laboratory. Setting, achieving, and	Prerequisites: A grade of C or better in (BIO208 or	LAB 3.0 3.0 0.0

		evaluating goals for hands-on learning experience in a biotechnology laboratory. Development of skills and knowledge needed to work in a biotechnology laboratory.	BIO209 or BIO213) and permission of Program Director.	
BIO220	Biology of Microorganisms	Detailed study of microbial cells, their structure, genetics, physiology and taxonomy.	Prerequisites: A grade of C or better in BIO181. Corequisites: (CHM152 and CHM152LL) or (CHM154 and CHM154LL).	LEC 4.0 3.0 3.0 LAB 0.0 3.0 3.0
BIO234	Fundamental Evolutionary Biology	Fundamentals of evolutionary theory including natural selection, adaptation, species concepts, speciation, extinction, basics of phylogenetics, molecular and population genetics, and the evolution of sex and sociality.	A grade of C or better required in all Prerequisites. Prerequisites or Corequisites: BIO182 or permission of Instructor.	LEC 3.0 3.0 3.0
BIO240	General Genetics	Intensive introduction to the field of genetics including historical perspective, Mendelian insights and patterns of inheritance, exceptions to expected Mendelian ratios, quantitative genetics, non-Mendelian inheritance, pedigree analysis, molecular levels of gene expression, genetic control of metabolic pathways, analytic dissection of molecular mechanisms behind DNA replication, transcription, translation, and gene regulation in both prokaryotes and eukaryotes, population genetics, genetics of behavior, and genetics of evolution and speciation	Prerequisites: A grade of C or better in BIO181.	LEC 4.0 4.0 4.0
BIO241	Human Genetics	An introduction to the basic concepts of human heredity and cytogenetics including Mendelian, molecular, and population genetics	Prerequisites: A grade of C or better in BIO100 or BIO181 or equivalent or permission of Instructor.	LEC 4.0 3.0 3.0 LAB 0.0 3.0 3.0
BIO244	General Genetics Laboratory	Introductory laboratory course in support of BIO240. Designed to familiarize students with basic laboratory skills and equipment used in genetic research	Prerequisites: A grade of C or better in BIO181. Corequisites: BIO240.	LAB 1.0 3.0 3.0
BIO249	Applied Biosciences: Biotechnology Internship	Internship/work experience in a biotechnology laboratory. Setting, achieving, and evaluating goals for hands-on learning experiences in a biotechnology laboratory. Development of skills and knowledge needed to work in a biotechnology laboratory.	Prerequisites: Permission of Instructor.	LAB 4.0 4.0 0.0
BIO254	Entomology	Form, activities, and classification of insects.	Prerequisites: One semester of college-level biology or equivalent or permission of Instructor.	LEC 4.0 3.0 3.0 LAB 0.0 3.0 3.0
BIO270	Sustainable Biological Systems	Course to introduce concepts in Ecology covering abiotic and biotic systems, population biology and ecology, community ecology, biotic communities, disturbance and succession, biogeography, fire ecology, evolution in changing environments, human	Prerequisites: A grade of C or better in BIO181.	LEC 3.0 3.0 3.0

		population biology, and issues in ecology.		
BIO274	Introduction to Wildlife Management	Introduction to the field of wildlife biology/management and the legal, cultural, ecological, and population dynamics of wildlife biology and management. Covers wildlife management objectives, management techniques, research techniques, and the organizational environment that wildlife biologists work in; provides an overview of careers in the field and guidance in planning a career.	Prerequisites: High school biology with a grade of C or better or a grade of C or better in BIO100 or BIO181 or permission of Instructor.	LEC 4.0 3.0 3.0 LAB 0.0 3.0 3.0
BIO276	Scientific Diving	Theory and practice of underwater research using snorkel and self-contained underwater breathing apparatus (SCUBA). Advanced diving skills, data acquisition and processing, and planning an underwater study.	Prerequisites: A grade of C or better in PED101SU or PED201SU (any certification card from a nationally recognized agency.) BIO145 or BIO181 recommended but not required.	L+L 3.0 4.0 4.0
BIO282AA	Service-Learning Experience in Biology	Unpaid Service-Learning (SL) experience, completed with approved community partner.	Prerequisites: Permission of Instructor.	LAB 1.0 1.0 0.0
BIO282AB	Service-Learning Experience in Biology	Unpaid Service-Learning (SL) experience, completed with approved community partner.	Prerequisites: Permission of Instructor.	LAB 2.0 2.0 0.0
BIO282AC	Service-Learning Experience in Biology	Unpaid Service-Learning (SL) experience, completed with approved community partner.	Prerequisites: Permission of Instructor.	LAB 3.0 3.0 0.0
BIO283	Bioinformatics and Scientific Computing	Introduction to bioinformatics, including history, concepts, major genetic databases and access tools. Computer software and techniques for analyzing one nucleotide or protein sequence, searching for similar sequences, and aligning and comparing two or multiple sequences. Microarray analysis and phylogenetic trees. Application of standard software to bioinformatic computing tasks, including word processing of reports, and use of spreadsheets for statistical analysis and graphing. Text editors, Unix, Internet web site searching and construction, and ethics.	Prerequisites: A grade of C or better in [(BIO156 or BIO181) and (MAT095, or MAT096, or MAT114, or MAT115, or MAT12+, OR an appropriate district placement for MAT15+ or higher)], or permission of Instructor or Department/Division Chair. Concurrent enrollment in, or previous completion of, BIO208 or BIO212AA is strongly suggested but not required.	L+L 3.0 4.0 4.0
BIO292	Advanced Recitation in Biology	Discussion, guided practice and problem solving related to advanced topics in biology.	Prerequisites: None. Corequisites: Any 200-level BIO Biology course or permission of Instructor.	L+L 1.0 1.0 1.0
BIO294AA	Special Topics in Biology- Advanced	Advanced evidence-based study of a current topic in biology from a research and theoretical perspective.	Prerequisites: Permission of Instructor.	LEC 1.0 1.0 1.0
BIO294AB	Special Topics in Biology-Advanced	Advanced evidence-based study of a current topic in biology from a research and theoretical perspective. Includes integrated laboratory and/or field applications of related methodologies.	Prerequisites: Permission of Instructor.	L+L 1.0 2.0 2.0

BIO294AC	Special Topics in Biology-Advanced	Advanced evidence-based study of a current topic in biology from a research and theoretical perspective. Includes integrated laboratory and/or field applications of related methodologies.	Prerequisites: Permission of Instructor.	LEC 2.0 1.0 1.0 LAB 0.0 3.0 3.0
BIO295AA	Independent Research in Biology	Original scientific investigation of biological phenomenon.	Prerequisites: A grade of C or better in (BIO156 or BIO181) and permission of Instructor.	LAB 1.0 1.0 0.0
BIO295AB	Independent Research in Biology	Original scientific investigation of biological phenomenon.	Prerequisites: A grade of C or better in (BIO156 or BIO181) and permission of Instructor.	LAB 2.0 2.0 0.0
BIO295AC	Independent Research in Biology	Original scientific investigation of biological phenomenon.	Prerequisites: A grade of C or better in (BIO156 or BIO181) and permission of Instructor.	LAB 3.0 3.0 0.0
BIO296WA	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. COMMON COMPETENCY COURSE	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and be able to obtain a position related to students academic or career goals (students present job may qualify or permission of instructor Corequisites: Must be concurrently enrolled in at least one class which is related to students major or career interest or with permission of Instructor.	LAB 1.0 5.0 0.0
BIO296WB	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. COMMON COMPETENCY COURSE	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and be able to obtain a position related to students academic or career goals (students present job may qualify or permission of instructor Corequisites: Must be concurrently enrolled in at least one class which is related to students major or career interest or with permission of Instructor.	LAB 2.0 10.0 0.0
BIO296WC	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. BIO298AC	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 3.0 3.0 0.0
BKL105	Basic Masonry Skills and Trade Calculations I	Bricklaying trade history, apprenticeship, jurisdiction, and employment opportunities. Basic hand tools and safety issues. Trade skills and masonry tools. Types, uses, handling, and properties of masonry materials. Trade calculations including linear measurement, area, and volume.	Prerequisites: Registered Apprentice status with the Phoenix Bricklaying and Tilesetting Joint Apprenticeship Training Committee or permission of the Apprenticeship Coordinator.	LEC 5.0 5.0 5.0

BKL115	Basic Masonry Skills and Trade Calculations II	Tools and equipment selection, use, maintenance and care. Measurement systems and trade calculations. Architectural drawings, schedules, and specifications. Specific construction plans and drawings. Wall construction, bricklaying assignments, and reinforced masonry.	Prerequisites: Registered Apprentice status with the Phoenix Bricklaying and Tilesetting Joint Apprenticeship Training Committee or permission of the Apprenticeship Coordinator.	LEC 5.0 5.0 5.0
BKL205	Advanced Brick and Block Construction	General job site safety. Use of the metric system as it applies to bricklaying and masonry construction. Basic construction drawings. Numbers, symbols, abbreviations and names associated with bricklaying and masonry construction. Construction procedures and trade practices including walls, corners, arches, members, details, and combustible chambers. Moisture control.	Prerequisites: Registered Apprentice status with the Phoenix Bricklaying and Tilesetting Joint Apprenticeship Training Committee or permission of the Apprenticeship Coordinator.	LEC 5.0 5.0 5.0
BKL215	Blueprint Reading: Residential and Light Construction	Language and symbols of blueprint reading. Working drawings of brick veneer residential, light commercial, and light frame structures. Types of light frame construction and specifications for residential structure. Metric system adoption, effect on construction, and conversions for measurement and quantity.	Prerequisites: Registered Apprentice status with the Phoenix Bricklaying and Tilesetting Joint Apprenticeship Training Committee or permission of the Apprenticeship Coordinator.	LEC 5.0 5.0 5.0
BKL225	Blueprint Reading: Heavy Commercial	The building planning process. Blueprint divisions, specifications, symbols, abbreviations, and interpretations. Building Specifications, legal requirements, materials, procedures, and quality control. Construction Specifications Institute (CSI) format and divisions. Estimating, project budgeting, and job completion.	Prerequisites: Registered Apprentice status with the Phoenix Bricklaying and Tilesetting Joint Apprenticeship Training Committee or permission of the Apprenticeship Coordinator.	LEC 5.0 5.0 5.0
BKL235	Masonry Estimating and Formal Bidding	Estimating techniques, quantities of labor, materials, and equipment. Masonry, concrete and reinforcing steel, and steel member costs. Contract development and formal bid processes.	Prerequisites: Registered Apprentice status with the Phoenix Bricklaying and Tilesetting Joint Apprenticeship Training Committee or permission of the Apprenticeship Coordinator.	LEC 5.0 5.0 5.0
BKL298AA	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. BKL298AC	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 3.0 3.0 0.0
BLT101	Introduction to Construction Trades	Introduction to trade and craft apprenticeships in Arizona, including concrete, carpentry, millwright, pipefitting, steamfitting and plumbing, sheet metal, painter, decorator and drywall taper, electrician and ironworker	Prerequisites: None.	LEC 1.0 1.0 1.0
BLT120	Techniques of Building Inspection	Theory and practice of zoning, foundation, structural, mechanical and electrical inspection in modern residential and commercial construction	Prerequisites: None.	LEC 3.0 3.0 3.0
BLT121	Electrical Codes	Principles of safe electrical installations and proper inspection procedures. Topics include conduit installation, transformer service, raceways, control circuits, grounding and bonding, hazardous occupancies and the National Electrical Code	Prerequisites: None.	LEC 3.0 3.0 3.0
BLT122	Basic Engineering for Building Inspectors and Contractors I	Basic engineering mechanics, gravity loads, shears, bending moments, wood frame construction, deck joints, beams, columns, bracing and shear walls.	Prerequisites: A grade of C or better in BLT120 and MAT187 or equivalent or permission of Department or Division.	LEC 3.0 3.0 3.0
BLT124	Designing for the Americans with Disabilities Act(ADA)	In-depth analysis of federal standards described in the Americans with Disabilities Act (ADA). Reviews the state of Arizona's enforcement document (AzDAAG). Focuses on helping designers, architects, and building officials create barrier-free buildings and facilities	Prerequisites: None.	LEC 3.0 3.0 3.0
BLT125	Residential Electrical Codes	National Electrical Code requirements for safe electrical installations and proper inspection procedures in residential buildings. Topics include branch circuitry, feeder calculations,	Prerequisites: None.	LEC 3.0 3.0 3.0

		services grounding, overcurrent protection, wiring methods, types and proper usage of material, swimming pool installation		
BLT126	Soil Mechanics	Soil conditions as related to modern building requirements. Topics include bearing value, classification and identification, exploration and samplings, behavior of fills, compaction, subsurface drainage, and field sampling.	Prerequisites: A grade of C or better in MAT150 or MAT151 or MAT152 or satisfactory score on District placement exam.	LEC 3.0 3.0 3.0
BLT127	Plumbing Codes	Code requirements and construction practices. Topics include underground and above ground plumbing, venting and finish plumbing	Prerequisites: None.	LEC 3.0 3.0 3.0
BLT128	Mechanical Codes	Code requirements and construction practices. Topics include duct work, conductors and fuel supply, insulation, and controls	Prerequisites: None.	LEC 3.0 3.0 3.0
BLT129	Materials of Construction	Fundamental characteristics of modern construction materials and the effective use of these materials in construction	Prerequisites: None.	LEC 3.0 3.0 3.0
BLT131	Applied Electric Codes	National Electric Code (NEC) administration and application. NEC requirements for safe installation of system control equipment and design of electric utilization systems. Identification of wiring systems and permitted uses. Application of NEC requirements for hazardous locations, specific occupancies, and special uses of electric equipment	Prerequisites: None.	LEC 4.0 4.0 4.0
BLT132	Applied Plumbing Codes	Plumbing code administration. Application, design and installation of drainage/waste and venting systems in private and public buildings. Application of plumbing codes for design and installation of water systems	Prerequisites: None.	LEC 4.0 4.0 4.0
BLT140	Environmentally Responsible Building	An overview of environmentally responsible building and a historical survey of building methodologies. Introduces design concepts and strategies related to the mitigation of environmental impacts. Examines building processes, environmental issues and the interdependent nature of our built environment. Topics include human impacts, climate and geography, sustainability, renewable energies, water use and energy, resource efficiency, building materials, indoor air quality and waste reduction	Prerequisites: None.	LEC 3.0 3.0 3.0
BLT142	Green Building Codes, Standards and Rating Systems	Surveys green building rating systems, environmental building standards and green construction codes; addresses the broader scope of public health, safety and general welfare in the context of regulations and the natural environment; examines site	Prerequisites: None.	LEC 3.0 3.0 3.0

		development and land use, material resource conservation, energy efficiency, water resource conservation, indoor environmental quality, building commissioning, operation and maintenance; includes exercises demonstrating the use of tools and applying the principles discussed during the course.		
BLT191	Applied Plumbing Codes	Uniform plumbing code and plumbing systems installation requirements. Code administration as well as requirements relative to the installation and maintenance of plumbing systems.	Prerequisites: None.	LEC 3.0 3.0 3.0
BLT200	Construction Management: Field Operations	Skills and techniques necessary for management of construction field operations. Includes job scheduling, inspection techniques, personnel relations, safety, and the scope and supervision of the overall construction process.	Prerequisites: A grade of C or better in DFT126 and GTC121 or departmental permission.	LEC 3.0 3.0 3.0
BLT201	Construction Management: Office Operations	Develops the skills and techniques necessary for successful management of construction office operations. Includes establishing and financing the business, marketing, office operations, and relationships with other construction industry entities	Prerequisites: A grade of C or better in DFT122 or DFT126 or GTC121 or permission of Instructor.	LEC 3.0 3.0 3.0
BLT263AK	Building Codes: IBC	Designed specifically to acquaint students with safety principles of building construction under the International Building Code (IBC), including structural requirements for wood, masonry and concrete, fire resistance of building construction, fire resistant materials, and ratings and occupancy requirements	Prerequisites: None.	LEC 3.0 3.0 3.0
BLT263AL	Building Codes: IRC	Designed specifically to acquaint students with safety principles of building construction under the International Residential Code, including structural requirements for wood, masonry and concrete, fire resistance of building construction, fire resistant materials, and ratings and occupancy requirements	Prerequisites: None.	LEC 3.0 3.0 3.0
BLT296WA	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. COMMON COMPETENCY COURSE	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and be able to obtain a position related to students academic or career goals (students present job may qualify or permission of instructor Corequisites: Must be concurrently enrolled in at least one class which is related to students major or	LAB 1.0 5.0 0.0

			career interest or with permission of Instructor.

Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development.	Prerequisites: Permission of Program Director or Instructor.	LAB 3.0 3.0 0.0
BME101	Introduction to Biomedical Equipment Technology	Introduces fundamental concepts of the field of biomedical equipment technology. Emphasis on the responsibilities of the technician, electrical safety, and knowledge of devices and their functions, maintenance, and repair.	Prerequisites: A grade of C or better in ELE111, BIO160 and (HCC145 or HCC145AA).	LEC 3.0 3.0 3.0
BPC100AA	Business-Personal Computers I	Introduction to the use of personal computers in the business environment. Computer hardware components, operating system functions and concepts. Running application software	Prerequisites: None.	LEC 0.5 0.5 0.5
BPC100AB	Business-Personal Computers II	Use the personal computer to create, store and retrieve information. Procedures for running and using business application software to produce documents and spreadsheets	Prerequisites: A grade of C or better in BPC100AA or permission of Instructor.	LEC 0.5 0.5 0.5
BPC100AD	Computing Fundamentals	Fundamental computer concepts and terminology for business and personal computers	Prerequisites: None.	L+L 1.0 2.0 2.0
BPC100BD	Key Software Applications	Covers basic features of software applications for business and personal computers	Prerequisites: None.	L+L 1.0 1.0 1.0
BPC100CD	Living Online	Fundamental network and Internet concepts and terminology for business and personal computers. Covers basic features of electronic mail applications	Prerequisites: None.	L+L 1.0 1.0 1.0
BPC100DD	Internet and Computing Fundamentals	Fundamental computer and Internet concepts and terminology for business and personal computers. Covers basic features of software applications	Prerequisites: None.	L+L 3.0 4.0 4.0
BPC101	Introduction to Computers	Computer software applications for the personal computer, including electronic spreadsheet and word processing, keyboarding review, a desktop environment, database management, computer graphics and operating system commands. Individualized advanced applications of software	Prerequisites: None.	L+L 3.0 4.0 4.0

		selected to solve specific problems on the personal computer.		
BPC101AA	Introduction to Computers I	Computer software applications for the personal computer, including electronic spreadsheet and word processing, keyboarding review, and a desktop environment.	Prerequisites: None.	L+L 1.0 2.0 2.0
BPC101AB	Introduction to Microcomputers I: Macintosh	Microcomputer software applications for the Macintosh personal computer, including electronic spreadsheet and word processing, keyboarding review, and a desktop environment	Prerequisites: None.	LEC 1.0 2.0 1.7
BPC101BA	Introduction to Computers II	Computer software applications for the personal computer, including database management, computer graphics, electronic spreadsheet, and word processing, and operating system commands	Prerequisites: A grade of C or better in BPC101AA.	L+L 1.0 1.0 1.0
BPC103AK	Using Word: Level I	Use of Word to create, manipulate and print documents on a microcomputer	Prerequisites: None.	LEC 0.5 0.5 0.5
BPC104AD	Using Excel: Level I	Use of Excel to create, edit, save and print worksheets	Prerequisites: None.	LEC 0.5 0.5 0.5
BPC104BD	Using Excel: Level II	Use of Excel to enhance worksheets to include graphing and formatting data, using complex formula and function expressions to build and analyze data, and special print options to output worksheets and graphs	Prerequisites: A grade of C or better in BPC104AD or permission of Instructor.	LEC 0.5 0.5 0.5
BPC104CD	Using Excel: Level III	Use of Excel to produce worksheets utilizing macros for template development and automation of repetitious tasks, and worksheet methods for the storage and management of data.	Prerequisites: A grade of C or better in BPC104BD or permission of Instructor.	LEC 0.5 0.5 0.5
BPC106AH	MS Outlook: Level I	Messaging and word processing functions of a Microsoft Outlook electronic work state	Prerequisites: None.	L+L 0.5 0.5 0.5
BPC106BH	Microsoft Outlook: Level II	Microsoft Outlook features including sort, filter and group items; templates and forms; information sharing by public folders and Net Folders; share and fax contacts; and record activities in the Journal. Outlook environment customization also covered	Prerequisites: A grade of C or better in BPC106AH or permission of Instructor.	L+L 0.5 0.5 0.5
BPC110	Computer Usage and Applications	Introduction to business and personal computer operations and usage. Software applications for analyzing and solving business problems including word processing, spreadsheet, database, and presentation graphics	Prerequisites: None.	L+L 3.0 4.0 4.0
BPC111AA	Computer Keyboarding I	Mastery of essential microcomputer keyboarding skills. Emphasis on touch typing of alphabetic and numeric keys and symbols	Prerequisites: None.	L+L 1.0 2.0 2.0
BPC111AB	Computer Keyboarding II	Further development of microcomputer keyboard speed and accuracy. Emphasis on touch typing with speed	Prerequisites: A grade of C or better in BPC/OAS111AA or permission of Instructor.	L+L 3.0 4.0 4.0

		and accuracy development of numerals as related to preparation and handling of documents.		
BPC113	Micro-Alphabetic Indexing	Mastery of essential microcomputer filing skills. Emphasis on indexing and alphabetizing individual and business names; subject, geographic, and numeric methods; and cross-referencing.	Prerequisites: None.	L+L 1.0 1.7 1.7
BPC119	Basic Data Entry Activities	Development of speed and accuracy of data entry skills. Includes vocabulary, keyboard drills, and data entry simulations.	Prerequisites: A grade of C or better in (BPC111AA or OAS111AA or OAS101AA) or permission of Instructor. OAS118 recommended but not required.	LAB 1.0 2.0 2.0
BPC125	Microcomputer Set Up and Maintenance	How to install and maintain a microcomputer (personal computer). Steps used to set up a new or add options to a previously installed microcomputer. Installation of internal options (memory, graphics, modems, etc.), as well as external options and devices (printers, monitors, communications, etc.). Troubleshoot (identify and repair or have repaired) microcomputer problems	Prerequisites: None.	L+L 1.0 1.0 1.0
BPC128	Introduction to Desktop Publishing	Presents basic concepts of commercially prepared software used to do desktop publishing. Incorporates a combination of narrative and pictorial/graphic creation and presentation, including set-up, text entry, graphic generation, text and graphic merging, and other computer-based functions	Prerequisites: None.	L+L 1.0 2.0 2.0
BPC128AF	Introduction to Desktop Publishing: MS Publisher	Presents basic concepts of commercially prepared software used to do desktop publishing. Incorporates a combination of narrative and pictorial/graphic creation and presentation, including set-up, text entry, graphic generation, text and graphic merging, and other computer-based functions	Prerequisites: None.	L+L 1.0 2.0 2.0
BPC138AA	Windows Desktop Design and Publishing	Use of Windows based microcomputers and appropriate commercial software package to compose and print textual and graphic materials of high quality. Includes overview of micro operating system, word processing of copy, use of graphics programs, layout of design elements, and printing alternatives.	Prerequisites: A grade of C or better in CIS105 or BPC110 or permission of Instructor.	L+L 3.0 4.0 4.0
BPC160	AppleCare: Service Fundamentals	Prepares students to become certified in repairing and troubleshooting iOS or macOS devices. It prepares the students for the AppleCare Certified technician exams: Apple Certified iOS Technician (ACIT) and Apple Certified Mac Technician (ACMT). Students will	Prerequisites: None.	L+L 3.0 4.0 4.0

		learn the Apple service style for customer interactions, safety precautions, and basic troubleshooting skills.		
BPC170	A+ Exam Prep: Computer Hardware Configuration and Support	Explore technical aspects of personal computers, including system components, installation, system configuration, peripheral devices, and notebooks. Emphasis placed on hardware installation, maintenance, mobile devices, and hardware troubleshooting. Helps prepare students for the CompTIA A+ examinations.	Prerequisites: None.	L+L 3.0 4.0 4.0
BPC171	Recycling Used Computer Technology	Use of hardware maintenance knowledge and skills to refurbish used computers.	Prerequisites: A grade of C or better in BPC170 or Corequisites: BPC170 or permission of Instructor.	L+L 1.0 2.0 2.0
BPC210	Advanced Computer Usage and Applications	Advanced application of software for business and personal computers including word processing, spreadsheet, database, and presentation. Includes integration of applications and Internet	Prerequisites: A grade of C or better in BPC110 or permission of Instructor.	L+L 3.0 4.0 4.0
BPC225	Computer Configuration and Enhancement	Configuration and enhancement of a computer. Emphasis on configuration of hardware and software to optimize computer performance. Includes memory configuration and the identification and troubleshooting of configuration problems	Prerequisites: A grade of C or better in BPC125 or permission of Instructor.	L+L 1.0 2.0 2.0
BPC250	Post-Advanced Computer Usage and Applications	Post-advanced applications of software for business and personal computers including word processing, spreadsheet, database, and presentation. Includes integration of applications and Internet	Prerequisites: A grade of C or better in BPC210 or permission of Instructor.	L+L 3.0 4.0 4.0
BPC260	AppleCare iPhone Technician (ACIT) Certification	Prepares students for the AppleCare iPhone Technician Certification and to perform warranty level hardware repairs and troubleshooting Apple iOS devices.	Prerequisites: None.	L+L 3.0 4.0 4.0
BPC262	AppleCare MAC Technician (ACMT) Certification	Prepares the students for the AppleCare MAC Technician certification exam and to perform warranty level hardware repairs on Apple iOS devices.	Prerequisites: None.	L+L 3.0 4.0 4.0
BPC270	A+ Exam Prep: Operating System Configuration and Support	Explore advanced technical aspects of maintaining and servicing computers. Emphasis placed on OS installation, maintenance, mobile devices, security, software troubleshooting, and on proper usage of tools, safety procedures, and professionalism. Helps prepare students for the CompTIA A+ examinations.	Prerequisites: A grade of C or better in CIS105 or permission of Instructor.	L+L 3.0 4.0 4.0
BPC274	Advanced Server Computer Maintenance: Server+ Prep	Explores the technical aspects of computer servers, including hardware installation and management; operating system configuration, access control and virtualization; and overall diagnostic and resolution of system hardware, software, connectivity, storage and security issues. Includes an emphasis	Prerequisites: A grade of C or better in (CIS126++ and MST150++), or BPC270, or permission of Instructor.	L+L 3.0 4.0 4.0

		on physical and network data security techniques and implementation of backup techniques to remediate disaster recoveries. Helps prepare students for the CompTIA Server+ examination.		
BPC275	CompTIA Exam Prep	Focuses on reviewing key concepts, practicing skills and preparing to successfully demonstrate existing knowledge on CompTIA certification exams. The course is designed to provide an overview of exam topics, study and test-taking strategies. It also will include structured study time, group discussions, and the use of practice exams to assess test readiness.	Prerequisites: A grade of C or better in BPC170, or BPC270, or permission of the Instructor.	L+L 2.0 3.0 3.0
BPC278	Software Installation - MS Windows	Installing and configuring microcomputer software. Emphasis placed on the installation, configuration, upgrade, and related problem resolution of microcomputer operating system and applications software.	Prerequisites: A grade of C or better in CIS105 or BPC114 or CIS114 (any module whose course number suffix begins with a D) BPC117 or CIS117 (any module whose course number suffix begins with a D) and BPC170 or permission of Instructor.	L+L 3.0 4.0 4.0
CAD100	Fundamentals of 2D AutoCAD	Utilize AutoCAD software to generate two-dimensional (2-D) drawings and components in a generic installation. Apply basic AutoCAD commands and properties to format, draw, edit, layer, dimension, import/export, and manage drawing files. Creation, manipulation, and hardcopy production of 2-D drawing files from major AutoCAD command and display environments and plot options	Prerequisites: None.	L+L 3.0 6.0 6.0
CAD101	Elements of CAD Graphics (AutoCAD)	Computer generation of drafting and design components using pure elements and basic geometric procedures. Incorporates concept illustration based on standard pictorial methods and develops multi-view projection techniques and presentation methods. Introduction to the fundamentals of three-dimensional (3D) modeling and the construction and printing of 3D objects.	Prerequisites: A grade of C or better in CAD100 or Corequisites: CAD100 or permission of Instructor.	L+L 3.0 6.0 6.0
CAD105	Fundamentals of Revit Architecture	Introduction to Revit Architecture. Utilize Revit software to develop and generate basic 3-D models and components. Create, edit, dimension, and manage 2-D and 3-D drawing views and projects. Produce drawing files and plots using various display environments and plot options.	Prerequisites: A grade of C or better in CAD100 or (previous architectural and CAD experience, and permission of Department or Division).	L+L 3.0 6.0 6.0
CAD106	Fundamentals of Civil 3D	Introduction to Civil 3D. Utilize Civil 3D software to develop and generate basic 3D models and components. Create, edit, dimension, and manage 2D and 3D	Prerequisites: A grade of C or better in CAD100 or (previous civil and CAD	L+L 3.0 6.0 6.0

		drawing views and projects. Produce drawing files and plots using various display environments and plot options.	experience, and permission of Department or Division).	
CAD120AH	Getting Started with CAD: Microstation	Basic Commands; drawing aids; input devices; use of default settings	Prerequisites: None.	L+L 1.0 2.0 2.0
CAD125AH	Drawing Database Management: Microstation	Operating the system file manager. Establishing, updating, managing, and maintaining a CAD drawing database	Prerequisites: A grade of C or better in CAD120AH or permission of Instructor.	L+L 1.0 2.0 2.0
CAD145	Design Principles for Industry	Survey of the basic standards and procedures for drawing setups and design documentation in the fields of architecture, manufacturing, and civil technology. Multi-source hard copy design presentation.	Prerequisites: A grade of C or better in (CAD100 and CAD101) or permission of Instructor.	L+L 3.0 6.0 6.0
CAD150AH	Two-Dimensional CAD: Microstation	Constructing scaled two-dimensional drawing using CAD.	Prerequisites: A grade of C or better in CAD125AH or permission of Instructor.	L+L 1.0 2.0 2.0
CAD160	Residential Architectural Drafting	Basic skills associated with board drafting in the architectural field	Prerequisites: A grade of C or better in (CAD105 CAD110 and CAD115) or permission of Instructor.	L+L 2.0 4.0 4.0
CAD164	Residential Working Drawings	Team projects in the development of a set of architectural working drawings for a residence.	Prerequisites: A grade of C or better in CAD145 or permission of Instructor.	L+L 3.0 6.0 6.0
CAD165	Architectural Software (AutoCAD Architecture)	Introduction to AutoCAD Architecture, a modeling software used by architecture professionals. Procedures unique to advanced software and pertinent to architectural documentation. Emphasis on residential working drawings.	Prerequisites: A grade of C or better in CAD145 or permission of Instructor.	L+L 3.0 6.0 6.0
CAD167	Architectural Drawings I (Revit): Residential CAD	Use of Revit architectural modeling software to develop 3-D architectural models, working drawings, construction documentation, and renderings. Emphasis on residential working drawings.	Prerequisites: A grade of C or better in CAD105 or permission of Department or Division.	L+L 3.0 6.0 6.0
CAD186	Site Development I	Use coordinate geometry and survey point databases to create topographic maps utilizing civil engineering/surveying application software. Volumetric analysis of earthwork (cut and fills) utilizing civil engineering/surveying application software. Production of base mapping, earthwork, grading, and drainage plan utilizing civil engineering/surveying application software.	Prerequisites: A grade of C or better in CAD106 or permission of Instructor.	L+L 3.0 6.0 6.0
CAD201	Three-Dimensional (3D) Modeling and Advanced CAD Techniques	Advanced Computer Aided Drafting (CAD) techniques including the automation and semi-automation of design documentation, external referencing and attribute creation and manipulation. Development of three-dimensional (3D) models including construction, manipulation, rendering and 2D/3D output.	Prerequisites: A grade of C or better in (CAD100 and CAD101) or permission of Instructor.	L+L 3.0 6.0 6.0

CAD235	Modeling, Rendering and Animation for Technical Presentations	Entry level course in technical modeling, visualization, and animation. Uses 3D modeling software, rendering, and animation tools to visualize and solve design issues. Development of professional quality presentation materials for design projects.	Prerequisites: A grade of C or better in CAD201 or Corequisites: CAD201 or permission of Department or Division.	L+L 3.0 6.0 6.0
CAD256	CAD Customization and Management	Emphasis on developing customized user interfaces and basic programming skills. Installation and configuration of software processes. File management techniques; file archival, batch plotting, file conversion, and CAD standards.	Prerequisites: A grade of C or better in DFT254AA or permission of Department or Division.	L+L 3.0 6.0 6.0
CAD265	Architectural Software (AutoCAD Architecture) II: Commercial CAD	Use of AutoCAD Architecture, an architectural modeling software to generate features associated with commercial building design. CAD treatment of selected details and other structural practices common to nonresidential buildings. Emphasis on the practices and standards of working drawings.	Prerequisites: A grade of C or better in CAD165.	L+L 3.0 6.0 6.0
CAD267	Architectural Drawings (REVIT) II: Commercial CAD	Use of REVIT architectural modeling software utilized by the architectural industry to generate plans and features associated with commercial building design. Focus on CAD development of selected plans, details, and structural practices common to nonresidential buildings.	Prerequisites: A grade of C or better in CAD167 or permission of Department or Division.	L+L 3.0 6.0 6.0
CAD269	Computer Aided Landscape Design	Using AutoCAD to create landscape design drawings and wire frames in Sketchup for elevations, sections and perspective sketches.	Prerequisites: A grade of C or better in : (AGB139 or CAD100 or CAD101) and AGL189 or permission of Instructor.	L+L 3.0 6.0 6.0
CAD274	Residential Design CAD	Developing designs with plans and details based on current design vogues. CAD problem solving associated with design	Prerequisites: A grade of C or better in (CAD152 and CAD164) or permission of Instructor.	L+L 3.0 6.0 6.0
CAD282	HVAC and Sheet Metal Design	Drawing, design, and specification of heating, ventilating, and air conditioning (HVAC) systems. Basic types of heating and cooling systems, heat loss calculations, sheet metal development, and solar design	Prerequisites: A grade of C or better in (CAD150 and [two of CAD262 CAD264 CAD266 CAD268]) or permission of Instructor.	L+L 1.0 2.0 2.0
CAD286	Site Development II	Use a coordinate geometry and survey point database to create construction drawings utilizing civil engineering/surveying software.	Prerequisites: A grade of C or better in CAD186.	L+L 3.0 6.0 6.0
CAD287	Advanced Revit Techniques	Advanced use of Revit architectural modeling software utilized by the architectural industry. Develop custom families with parameters and formulas, generate conceptual mass plans, prepare design phasing for renovation and tenant improvement projects, and work with advanced features associated with architectural building design.	Prerequisites: A grade of C or better in CAD167 or permission of Department or Division.	L+L 3.0 6.0 6.0

CAD292	Current Developments in CAD Technology	The exploration and analysis of the newest software packages and/or plugins on the market designed to enhance or replace existing Computer Aided Drafting (CAD) software. Designed to introduce and develop skills in the latest state-of-the-art tools pertinent to industry today.	Prerequisites: A grade of C or better in CAD100 or permission of Department or Division.	L+L 1.0 2.0 2.0
CAN101	Introduction to Cannabis Industry	Introductory overview of the cannabis industry. Explores the historical, legal, social, and political aspects of cannabis use, cannabis careers and business management, including business plans, for the cannabis industry. Includes how industry trends and regulations have influenced supporting industries and consumer behaviors.	Prerequisites: None.	LEC 3.0 3.0 3.0
CAN110	Social Equity and Current Issues in the Cannabis Industry	Social equity programs, trends, current issues and the societal impact in the cannabis industry.	Prerequisites: None.	LEC 1.0 1.0 1.0
CAN120	Legal and Regulatory Environment in the Cannabis Industry	Study of cannabis industry laws, policies, regulations and ethics in non-use, medicinal-use, and adult-use U.S. states and territories.	Prerequisites: A grade of C or better in CAN101.	LEC 3.0 3.0 3.0
CAN125	Supply Chain Management in the Cannabis Industry	Management of cannabis supply chain stages including: growing, extracting, laboratory testing, product development and manufacturing, shipping and distributing, and dispensary and retailing across all legislative environments (federal, medicinal-use, and adult-use in U.S. states and territories).	Prerequisites: A grade of C or better in CAN101.	LEC 2.0 2.0 2.0
CAP120	Introduction to Counseling	Introduction to the field of counseling with a focus on skills and competencies needed as a mental health practitioner. Foundations of counseling including counseling theories, ethical considerations, prevention and intervention topics, and multicultural counseling practices.	Prerequisites: None.	LEC 3.0 3.0 3.0
CAP220	The Counselor in a Multicultural Society	Current theories and research on culture, race and ethnicity, gender and other aspects of cultural diversity in a multicultural society through the lens of counseling. Focus on personal perspectives, will explore themes, theories, topics and research related to power, privilege and oppression in the United States as applied to counseling discipline.	Prerequisites: None.	LEC 3.0 3.0 3.0
CAP240	Introduction to Counseling Skills	Introduction to basic skills and techniques used in the counseling field. Focuses on active listening, self-awareness, and other related skills.	Prerequisites: A grade of C or better in CAP120.	LEC 3.0 3.0 3.0
CAP260	Career and Professional Preparation for the Helping Professions	Overview of the process of career and life planning through self-awareness for students interested in helping fields. Focus on current occupational trends and outlook, the learning models of the	Prerequisites: A grade of C or better in ENG101.	LEC 3.0 3.0 3.0

		individual, the world of work, and decision-making. Emphasis on individual application and workplace diversity. Design materials for use in the professional world such as resumes, online presence, career portfolio.		
CCS101	Chicana and Chicano Studies	Introduction to the wealth and diversity of Chicana and Chicano Studies research from a variety of disciplinary perspectives through the use of a series of historical and social scientific studies, novels, testimonios, and films	Prerequisites: A grade of C or better in ENG101 or ENG107 or equivalent.	LEC 3.0 3.0 3.0
CCS111	Introduction to Chicana and Chicano Culture	A study of Chicano popular culture, including cultural themes and artistic expression. Expression of the Chicano experience in American society from the perspective of the social sciences. Analyzes Chicano self-identity and social and cultural dynamics of the Chicano community	Prerequisites: None.	LEC 3.0 3.0 3.0
CCS202	Ethnic Relations in the United States	Basic concepts and processes, including historic overview, of interethnic relations in the United States: culture, race, ethnicity, ethnocentrism, prejudice, discrimination, racism, assimilation, acculturation, and individual and group responses to interethnic contact. Cultural knowledge and intercultural communication skills and perspectives as fundamental tools for successful management of social relations in a multicultural world.	Prerequisites: None.	LEC 3.0 3.0 3.0
CCS212	The Mexican American Novel	A study of the social, historical, and cultural backgrounds as well as the form and content of the Mexican American novel.	Prerequisites: ENG101 and ENH112 suggested but not required.	LEC 3.0 3.0 3.0
CCS282AA	Volunteerism for Chicana and Chicano Studies: A Service Learning Experience	Service learning field experience within private/public agencies such as museums and libraries, and citizen volunteer groups.	Prerequisites: Permission of Instructor.	LAB 1.0 1.0 0.0
CCS298AA	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 1.0 1.0 0.0
CCS298AB	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available	Prerequisites: Permission of Program Director or Instructor.	LAB 2.0 2.0 0.0

		for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE		
CCS298AC	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 3.0 3.0 0.0
CDH101	Introduction to Dentistry and Oral Health	Basic dental knowledge for the non-dental person seeking to be employed in a dental office or enroll in the Community Dental Health Coordinator (CDHC) program. Covers basics of dentistry, including dental treatment procedures, dental specialties, oral pathology, dental disease process and prevention, tooth morphology and numbering systems, and infection control procedures.	Prerequisites: None.	LEC 3.0 3.0 3.0
CDH105	Community Oral Health Project Planning	Overview of Community Health Worker and the Community Dental Health Coordinator responsibilities. Includes advocacy concepts, process of advocacy in the community, and strategies for assisting underserved local populations in health and social services. Development of a personal health and wellness plan covered. Community outreach topics and strategies emphasized.	Prerequisites: Permission of Department or Division.	LEC 3.0 3.0 3.0
CDH110	Oral Health Communication	Overview of oral health communication and oral health literacy for the Community Dental Health Coordinator. Impact of oral health literacy on one's health emphasized. Includes communication strategies, verbal and nonverbal communication skills.	Prerequisites: Permission of Department or Division.	LEC 1.0 1.0 1.0
CDH111	Legal and Ethical Issues in Dentistry	Overview of legal and ethical issues in relation to the Community Dental Health Coordinator (CDHC). Covers policy, confidentiality, and liability, Health Insurance Portability and Accountability Act (HIPAA) regulations, telehealth, and professional conduct.	A grade of C or better required in all Prerequisites. Prerequisites or Corequisites: CDH101 or permission of Department or Division.	LEC 2.0 2.0 2.0
CDH112	Dental Care Finance and Resources	Overview of options for financing dental care, including government-funded programs, private insurance, and non-governmental, charitable resources. Includes information on eligibility	Prerequisites: A grade of C or better in CDH111 or permission of Department or Division.	LEC 1.0 1.0 1.0

		requirements and differences between various plans, providers, and services.		
CDH113	Communication and Interviewing Skills for Dental Health Advocacy	Overview of oral health communication strategies, oral health literacy and education, and interviewing skills for the Community Dental Health Coordinator. Human behavior and behavior change interventions utilized in dental health coordination and cultural competency and humility are emphasized.	Prerequisites: A grade of C or better in CDH111 or permission of Department or Division.	LEC 3.0 3.0 3.0
CDH115	Interviewing Skills for Dental Health Advocate	Overview of patient assessment interviewing skills for the Community Dental Health Coordinator. Covers motivational interviewing, human behaviors, and health concepts emphasizing oral health. Patient assessment, feedback, education, and behavior change interventions for dental patients included	Prerequisites: Permission of Department or Division.	LEC 2.0 2.0 2.0
CDH130	Dental Health Legal and Ethical Issues	Overview of legal and ethical issues in relation to the Community Dental Health Coordinator (CDHC). Covers policy, confidentiality and liability as well as Health Insurance Portability and Accountability Act (HIPAA) regulations. Also includes consumer protection and professional conduct.	Prerequisites: Permission of Department or Division.	LEC 2.0 2.0 2.0
CDH211	Grant Writing for Oral Health	Grant seeking and grant writing processes for the beginning grant writer in community dental health coordination. Pre-application preparation, application development, and grant proposal evaluation and follow-up. Includes development of grant applications for government and private funding sources for community oral health initiatives.	Prerequisites: A grade of C or better in CDH111 or permission of Department or Division.	LEC 2.0 2.0 2.0
CDH212	Case Management	Overview and application of the principles, practices, and functions of oral health case management. Case management service delivery and coordination for clients in the oral health setting. Documentation techniques necessary to maintain clinical records in a variety of oral health care settings.	Prerequisites: A grade of C or better in CDH111 or permission of Department or Division.	LEC 2.0 2.0 2.0
CDH213	Community Dental Health Project Planning	Development of a community-based oral health intervention plan. Emphasizes advocacy and strategies for assisting populations in need of oral health services. Community outreach topics and strategies covered.	Prerequisites: A grade of C or better in CDH111 or permission of Department or Division.	LEC 3.0 3.0 3.0
CDH214	Community Dental Health Project	Implementation of a community intervention plan. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Allows the best aspects of independent study and individualized learning to be combined to maximize student development.	Prerequisites: CDH213 or permission of Department or Division.	LEC 3.0 3.0 3.0

CDH240	Dental Care Finance	Procedures for determining dental care payment eligibility. Covers public financing available to clients as well as non-governmental third party insurance.	Prerequisites: Permission of Department or Division.	LEC 0.5 0.5 0.5
CDH245	Community Dental Health Coordinator Internship	Practical application of the Community Dental Health Coordinator (CDHC) skills in an internship setting. Includes knowledge and skills required to organize, develop and manage integrated dental care in community-based clinics within practice standards.	Prerequisites: Permission of Department or Division.	LAB 3.0 3.0 3.0
CET102	Surveying II	Surveying principles including triangulation, municipal and land surveys, topographic surveys, earthwork, state plane coordinate systems, stadia methods, practical astronomy, highway curves, superelevations and construction.	Prerequisites: A grade of C or better in CON241 or permission of Department or Division.	LEC 3.0 2.0 2.0 LAB 0.0 3.0 3.0
CET103	Construction Methods	Modern construction techniques: planning methods, critical path method (CPM), excavation and earthmoving practices, estimating and work scheduling, concrete design and placement practices. Includes reinforced concrete, prestressed concrete, carpentry, asphalt characteristics, proper proportioning of aggregate and important safety methods. Introduction to heavy construction equipment use	Prerequisites: None.	LEC 3.0 3.0 3.0
CET104	Community Planning and Development	Provides a comprehensive overview of the urban planning and development process. Introduces planning theories, methodologies, and strategies with practical applications from local and other urban communities. Topics include municipal planning, land use and zoning, circulation, water and waste water management, storm drainage and public utility services. Examines the economic development process, environmental and legal issues and focuses on the interdependent nature of development	Prerequisites: None.	LEC 3.0 3.0 3.0
CET105	Highway Technology	Economics of highway locations, rights-of-way, curves, drainage problems, bridge structures, road building equipment, highway financing, and administrative problems at the state, county and city levels	Prerequisites: None.	LEC 3.0 3.0 3.0
CET150	Introduction to Geodesy and Map Projections	Coordinate frames used in geodesy, photogrammetry, surveying, and mapping. Cartesian, spherical, and ellipsoidal coordinates. Introduction to kinematics, gravity field, and size and shape of earth. Positioning in three dimensions. Introduction to map projections and associated coordinate systems. Theory and application of the plane coordinate systems with	Prerequisites: A grade of C or better in (CET102 and MAT182) or permission of Department or Division.	LEC 3.0 3.0 3.0

		emphasis on Arizona. Development of projections from Global Positioning System (GPS) observations.		
CET171	Construction Contracts	Legal aspects of construction contracts, writing and interpretation of specifications, prequalifications, and use of performance bonds	Prerequisites: None.	LEC 3.0 3.0 3.0
CET201	Boundary Control and Legal Principles	Principles of land surveying, boundary controls, ethical and legal principles, and office practices.	Prerequisites: A grade of C or better in CON241 or permission of Department or Division.	LEC 3.0 3.0 3.0
CET202	Writing Legal Descriptions	Application of principles to actual case studies. Emphasis on proper form and clarity in legal description writing. Procedure for filing subdivision plats and preparation for land surveyors' registration examinations.	Prerequisites: A grade of C or better in CON241 or permission of Department or Division.	LEC 3.0 3.0 3.0
CET205	Photogrammetry	An introduction to the study of aerial cameras, equipment, flight procedures, and interpretation of aerial photographs, including stereoscopic principles used in planimetric and topographic maps, map projections, grids, and forms. Practical applications of principles stressed	Prerequisites: A grade of C or better in CET102 or permission of Department or Division.	LEC 3.0 3.0 3.0
CET211	Strength of Materials	A study of strength and application of the materials of engineering construction, including the mechanics of beams, shafts, and bolted and welded connections under various loading conditions.	Prerequisites: A grade of C or better in DFT107 or ELT102 or (MAT151 and MAT182) or MAT187 or equivalent or permission of Department or Division.	LEC 3.0 3.0 3.0
CET241	Fundamentals of Traffic Engineering	Basic study of traffic movement, ordinances, mechanical controls, planning, street and highway design, parking, and traffic engineering organization. Training for personnel as civil engineer technicians.	Prerequisites: None.	LEC 3.0 3.0 3.0
CET250	Public Land Survey System	Overview of unique requirements to determine land boundaries according to the Manual of Instructions for the Survey of Public Lands of the United States, including history of the system, lotted sections, proportioning, subdividing, and evidence analysis. Emphasis on rules in order to perform any boundary survey, particularly for Arizona	Prerequisites: A grade of C or better in CET102 and CET201.	LEC 3.0 3.0 3.0
CET257	Route and Construction Surveying	Principles and field practice of route and construction surveying, including route control surveys, construction control, topographic mapping, highway curves, and computations for roadways, utilities, bridges, buildings, small commercial sites, and subdivisions	Prerequisites: A grade of C or better in CET102 or permission of Department or Division.	L+L 3.0 5.0 5.0
CET296WA	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and be able to obtain a position related to	LAB 1.0 5.0 0.0

		students. COMMON COMPETENCY COURSE	students academic or career goals (students present job may qualify or permission of instructor Corequisites: Must be concurrently enrolled in at least one class which is related to students major or career interest or with permission of Instructor.	
CET296WB	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. COMMON COMPETENCY COURSE	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and be able to obtain a position related to students academic or career goals (students present job may qualify or permission of instructor Corequisites: Must be concurrently enrolled in at least one class which is related to students major or career interest or with permission of Instructor.	LAB 2.0 10.0 0.0
CET296WC	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. COMMON COMPETENCY COURSE	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and be able to obtain a position related to students academic or career goals (students present job may qualify or permission of instructor Corequisites: Must be concurrently enrolled in at least one class which is related to students major or career interest or with permission of Instructor.	LAB 3.0 15.0 0.0
CET296WD	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. COMMON COMPETENCY COURSE	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and be able to obtain a position related to students academic or career goals (students present job may qualify or permission of instructor Corequisites: Must be concurrently enrolled in at least one class which is related to students major or career interest or with permission of Instructor. CET298AC	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 3.0 3.0 0.0
CFS101AH	Art Activities for the Young Child	The creative use of art media and techniques at appropriate developmental levels.	Prerequisites: None.	LEC 1.0 1.0 1.0
CFS101AJ	Music Activities for the Young Child	Experiences with music in singing, rhythm instruments, creative movements, and games, as well as the development of music appreciation and basic listening skills	Prerequisites: None.	LEC 1.0 1.0 1.0
CFS101AP	Science Activities for the Young Child	Interpreting the study of science in early childhood education as a part of a dynamic growth process offered by the child's daily life experiences	Prerequisites: None.	LEC 1.0 1.0 1.0
CFS101AR	Learning With Toys	Use of creative imagination with toys to enable the child alone or with others to explore the world. Includes evaluating proper use of toys and appropriate developmental skills	Prerequisites: None.	LEC 1.0 1.0 1.0
CFS106	Stress Management in the Family	Impact of stress factors on the family. Managing time and stress in the home. Options for coping with anxiety	Prerequisites: None.	LEC 1.0 1.0 1.0
CFS107	Men and Children: Strengthening the Bond	Overview of the relationship between fathers or significant male figures and children from the role perspective of the involved, nurturing male. Strategies for assessing and organizing successful male involvement programs examined	Prerequisites: None.	LEC 1.0 1.0 1.0
CFS109	Parent/Child Communication	Communication between parents and children. Developing self-esteem, responsibility and empathic listening. Pitfalls to communication	Prerequisites: None.	LEC 1.0 1.0 1.0

CFS111	Relationships to Promote Learning in Young Children: Birth to Age Three	Overview of the relationship between the teacher/caregiver and child from the perspective of a reflective teacher. Students will learn the importance of assessing, understanding, and enhancing the development of emotional skills of young children to help guide and develop a child's self-image. Student will also be able to monitor, reflect, and plan self-care so they become effective teachers.	Prerequisites: None. CFS/ECH176 recommended.	LEC 1.0 1.0 1.0
CFS112	Personal Growth and Family Relations	Personal development as related to the individual, the family, and their relations. Emphasis on interpersonal family relationships. Skills and techniques to facilitate and strengthen the individual and family relationships	Prerequisites: None.	LEC 3.0 3.0 3.0
CFS114	Working with the Hyperactive Child	Causes of hyperactivity in children; focus on the family's role in identification, treatment and school/community support	Prerequisites: None.	LEC 1.0 1.0 1.0
CFS116	Discipline and Guidance	Age appropriate principles for disciplining and guiding young children's behavior in child care settings, including interpersonal and environmental strategies. Observational opportunities provided	Prerequisites: None.	LEC 3.0 3.0 3.0
CFS120	Contemporary Issues In Early Childhood	Designed to develop understanding of a broad range of contemporary issues that impact the child in today's society. Course directed at pre-service and in-service professionals.	Prerequisites: None.	LEC 1.0 1.0 1.0
CFS121AA	Single Parent Family-Adjustment	Overview of issues facing single parent families. Examination of adjustment issues with emphasis on relationships. Methods of adapting family life to meet the needs and variations of one-parent families	Prerequisites: None.	LEC 1.0 1.0 1.0
CFS123	Health and Nutrition In Early Childhood Settings	Creating and maintaining healthy environments and practices in programs serving young children. Emphasis on assessing the child's health status, nutrition and food service, communicable disease recognition, transmission, and prevention, infection control, regulations and regulatory agencies, current topics, resources, and innovative practices	Prerequisites: None.	LEC 1.0 1.0 1.0
CFS125	Safety in Early Childhood Settings	Fundamental concepts of promoting a safe, but challenging learning environments. Establishing and maintaining safety procedures in the early childhood setting. Emphasis on indoor and outdoor equipment and activities, risk analysis, accident, evacuation, and emergency plans, regulations, regulatory agencies and resources, current topics, and innovative practices	Prerequisites: None.	LEC 1.0 1.0 1.0

CFS130	Demystifying Adolescence	A holistic overview of the physical, social, and emotional development of adolescents. Emphasis on effective skills necessary for working with adolescents and their families.	Prerequisites: None.	LEC 1.0 1.0 1.0
CFS140	Special Topics: Child and Family Studies	Explores special topics related to child and family studies. Topics vary and include concepts relevant to those pursuing careers in or employed in early childhood care or to those working with families in programs, agencies, organizations, and resource centers that provide services to families.	Prerequisites: None.	LEC 0.5 0.5 0.5
CFS157	Marriage and Family Life	Study of marriage and the family as a social system, including models of family analysis, intra- and interpersonal relations, and cross-cultural and historical patterns	Prerequisites: None.	LEC 3.0 3.0 3.0
CFS159	The Modern Family	An examination of the modern American family. Special emphasis on the changing functions and roles of individuals within today's society and an analysis of the basic problems confronting the family, including alternative family styles	Prerequisites: None.	LEC 3.0 3.0 3.0
CFS160	Using Music, Speech, and Movement with Children's Literature	Using elements of music, speech, and movement with children's literature, including rhymes, chants, songs, and books to enhance children's social, physical, cognitive, and emotional development	Prerequisites: None.	LEC 1.0 1.0 1.0
CFS163	Family Child Care: Introduction to Business Management	Emphasis on small business management and effective policies and procedures for family child care providers. Licensing, legal, and regulatory issues in a home setting are examined	Prerequisites: None.	LEC 3.0 3.0 3.0
CFS164	Family Child Care: Curriculum and Environment	Family child care planning for multi-age groupings of children through age eight. Role of the environment as well as various curriculum programs will be explored and evaluated. Exploration of culturally rich, inclusive and child-centered environment in his/her own child care setting. Issues of professionalism, family partnerships, observation, guidance, and health/safety practices are examined	Prerequisites: None.	LEC 3.0 3.0 3.0
CFS164AA	Family Child Care: The Environment	Family child care environments for multi-age groupings of children through age eight. Exploration of culturally rich, inclusive, and child-centered environment in his/her own child care setting. Issues of health/safety practices are examined	Prerequisites: None.	LEC 1.0 1.0 1.0
CFS164AB	Family Child Care: Programming, Guidance and Observation	Family child care programming for multi-age groupings of children through age eight. Various curriculum programs will	Prerequisites: None.	LEC 1.0 1.0 1.0

		be explored and evaluated. Issues of observation and guidance are examined		
CFS164AC	Family Child Care: Family Partnerships and Professionalism	Issues of professionalism, family partnerships, communication, and ethical practices are examined	Prerequisites: None.	LEC 1.0 1.0 1.0
CFS167	School-Age Child Care Provider	Issues related to school-age child care. Past, current, and future trends; regulations, insurance liabilities and coverage, shared facilities, and community resources. Techniques for managing/administering services and personnel, communicating with parents, and evaluating the care/program. Planning and scheduling the school-age program. Includes overview of child growth and development, types of routines and activity schedules.	Prerequisites: None.	LEC 3.0 3.0 3.0
CFS176	Child Development	Study of the science of human development from conception through adolescence. Includes observation skills, parent and adult roles in the lives of children, and contemporary issues	Prerequisites: None.	LEC 3.0 3.0 3.0
CFS177	Parent-Child Interaction	Positive methods to strengthen relationships and resolve conflicts with children. Focus on effective interpersonal skills and guidance techniques	Prerequisites: None.	LEC 3.0 3.0 3.0
CFS178	Survey of Early Childhood Education	Orientation to basic concepts of day care and nursery programs. History and philosophy of child care services including state regulations governing those services. Observation opportunities provided	Prerequisites: None.	LEC 3.0 3.0 3.0
CFS179	Child Care: A Multifaceted Career	Overview of the child care field. Focus on enhancing children's self esteem, providing for children's nutritional needs, and developing adequate safety and sanitation practices	Prerequisites: None.	LEC 1.0 1.0 1.0
CFS181	Enhancing Infant and Toddler Development	Principles of development in children from birth through 30 months. Emphasis on individuality of child and the adult role in providing a safe and stimulating environment for the development of the child	Prerequisites: None.	LEC 3.0 3.0 3.0
CFS182	Parenting the Early Adolescent: Ages Ten to Fourteen	Emphasis on the early adolescent developmental period, ages ten to fourteen, and the importance of the parent-child relationship, as well as strategies to ensure successful teen years	Prerequisites: None.	LEC 1.0 1.0 1.0
CFS183	Contemporary Issues in Adolescence	Current issues that impact adolescent development and behavior explored. Comprehensive and specific strategies for addressing these issues as parents or professionals working with teens emphasized. Issues related to adolescent sexuality, abuse, mental	Prerequisites: None.	LEC 3.0 3.0 3.0

		health, violence, and risk behaviors included		
CFS190	Home-Based Visitation	Emphasis on development of skills needed to successfully complete home-based client visitation. Opportunities for field-based observations provided. .	Prerequisites: None.	L+L 3.0 4.0 4.0
CFS192	Child Care Center Staff Development	Presents strategies to administrators and supervisors in child care centers for developing the personal and professional growth of child care staff	Prerequisites: None.	LEC 1.0 1.0 1.0
CFS193	Financial Management in Child Care Centers	Provides strategies for financial management and administration of finances in a child care center. Specific concerns of participants addressed	Prerequisites: None.	LEC 1.0 1.0 1.0
CFS194AA	Early Childhood Program Management: Staffing and Managing	Methods and techniques for recruiting, staffing, and managing in early childhood programs	Prerequisites: None.	LEC 1.0 1.0 1.0
CFS194AB	Early Childhood Program Management: Human Relations	Basic human relations in early childhood organizations and the influence of the individual's personal needs on the overall needs and objectives of the organization	Prerequisites: None.	LEC 1.0 1.0 1.0
CFS194AC	Early Childhood Program Management: Organizational Structure	Provides a broad perspective of the organizational life of an early childhood environment	Prerequisites: None.	LEC 1.0 1.0 1.0
CFS195	Early Childhood Personnel Supervision	Covers supervision concepts and applications for early childhood programs	Prerequisites: None.	LEC 1.0 1.0 1.0
CFS196	Ethics and the Early Childhood Educator	Ethical issues in the early childhood field	Prerequisites: None.	LEC 1.0 1.0 1.0
CFS197	Leadership in Early Childhood Education	Provides concepts for understanding and managing leadership roles and responsibilities in the early childhood field	Prerequisites: None.	LEC 1.0 1.0 1.0
CFS204	Reflective Supervision	Reflective supervisory processes to enhance learning and professional development. Includes professional development stages to provide supervisors with tools to support professional growth. Also covers challenges and barriers to the supervisor and employee/practitioner relationship.	Prerequisites: None.	LEC 1.0 1.0 1.0
CFS205	Human Development	Explores the growth and development process over the human life span. Research and theoretical approaches; physical, cognitive, social, and personality development from birth through adulthood and death	Prerequisites: None.	LEC 3.0 3.0 3.0
CFS206	Child and Family Organizations: Management and Administration	Examination of management and administration of community- based child and family organizations within the context of organizational behaviors. Focus on attributes of effective organizations: the impact of organizational culture and learning,	Prerequisites: None.	LEC 3.0 3.0 3.0

		work-place diversity and employee motivation		
CFS207	Organization and Community Leadership in Child and Family Organizations	Examination of organization and community leadership as it applies to the management and administration of community-based child and family services organizations. Provides overview of leadership styles and function	Prerequisites: None.	LEC 3.0 3.0 3.0
CFS208	Child and Family Organizations: Fiscal Management and Grant Writing	Examination of fiscal accountability and resource development as it applies to the management and administration of community-based child and family social service organizations. Provides overview of grant development processes beginning with research into governmental and private funding sources through fiscal and grant audit processes. Includes budget development, risk management, and cost control issues	Prerequisites: None.	LEC 3.0 3.0 3.0
CFS209	Child and Family Organizations: Project Management	Focuses on concepts and strategies associated with effective project management in community-based child and family organizations. Emphasis on planning, evaluation and project management models	Prerequisites: None.	LEC 3.0 3.0 3.0
CFS210	Family Life Education	Provides an overview of the professional work within the field of family life education. Emphasis on developing flexible, culturally sensitive and effective professional skills	Prerequisites: None.	LEC 3.0 3.0 3.0
CFS220	Introduction to Parenting and Family Development	Overview of the field of family and parent development. Focuses on parenthood as a developmental process and cultural influences on child rearing. A family systems perspective introduced and applied to understanding families with children	Prerequisites: None.	LEC 3.0 3.0 3.0
CFS225	Foundations of Parent Education	Professional development as related to work with parents. Emphasis on developing effective skills with parents, professionals and paraprofessionals involved with the child. Skills and techniques to facilitate and strengthen the individual and family relationships.	Prerequisites: None.	LEC 3.0 3.0 3.0
CFS235	Developing Child: Theory into Practice, Prenatal to Age Eight	Understanding and working with young children, birth through age eight. Analysis of young children's physical, social, emotional, cognitive and linguistic development within their home, school, and cultural contexts. Typical and atypical development. Implications for teachers and parents. Emphasis on observations and planning curriculum based on theories, research, and child-specific data	Prerequisites: None.	LEC 3.0 3.0 3.0
CFS240	Human Behavior in Context	Considers the influences of physical and social environments in which human	Prerequisites: None.	LEC 3.0 3.0 3.0

		behavior occurs. Includes multiple roles and perspectives of the individual, the family, society and the professional		
CFS242	Curriculum Planning for Diversity	Practical early childhood classroom applications for a diverse population, including integration of cultures, generations, genders, and races into the classroom, facilitation of second language acquisition, and practical teaching strategies which are also developmentally appropriate.	Prerequisites: A grade of C or better in CFS/ECH176.	LEC 3.0 3.0 3.0
CFS243	Cross-Cultural Parenting	Focus on the study of parents and children from a cross-cultural position. Emphasis on parenting styles and practices from a cultural directive and expectation perspective. Course designed for those seeking careers in Family Studies, Parent Education, Psychology, Social Work/Human Services	Prerequisites: None.	LEC 3.0 3.0 3.0
CFS247	Family Ties and Aging	Identification and examination of facets of family relationships and aging. Emphasis on study of central family connections for older people, unique family situations, and implications of family transitions. Course designed for those seeking careers in Family Studies, Parent Education, Psychology, Social Work/Human Services	Prerequisites: None.	LEC 3.0 3.0 3.0
CFS249	Transition to Adulthood	Emphasis on major elements of the transition to adulthood and key links to changes in family relationships. Focus on the realignment of intergenerational relationships and reassessment of family priorities. Course designed for those seeking careers in Family Studies, Parent Education, Psychology, Social Work/Human Services	Prerequisites: None.	LEC 3.0 3.0 3.0
CFS250	Social Policy and Families	Examines the impact of social policy on family systems and the implications for professional roles and practice	Prerequisites: None.	LEC 3.0 3.0 3.0
CFS251	Transitions: Work to Retirement	Explores the work to retirement transitional issues that impact individuals and families. Emphasis on physical, cognitive and psychosocial dimensions of retirement	Prerequisites: None.	LEC 3.0 3.0 3.0
CFS252	Contemporary Issues in Aging	Current issues that impact aging development and behavior explored. Comprehensive and specific strategies for addressing these issues for professionals working with aging adults emphasized	Prerequisites: None.	LEC 3.0 3.0 3.0
CFS256	Management in the Family	Management as a means to the realization of individual and family values and goals; creation, allocation, and use of resources. Focus on decision making	Prerequisites: None.	LEC 3.0 3.0 3.0

CFS257	Working with Families with Diverse Needs	A collaborative approach to working with families with diverse needs. Examines the effect of specific challenges on the family system. Presents techniques for those working with families to facilitate stress management, conflict resolution, and utilization of community and personal resources to aid in the strengthening of the family unit	Prerequisites: None.	LEC 3.0 3.0 3.0
CFS258	Families in Society	Areas of concentration include family transition, diversity in structure and culture faced by contemporary families, problems, crisis and change affecting the stress on families as our society progresses into a more complicated future. The study of change as an integral part of all family's day-to-day experiences while recognizing that family ancestral and cultural dimensions are fundamental for all family groupings. Course designed for those seeking careers in Family Studies, Parent Education, Psychology, Social Work/Human Services	Prerequisites: A grade of C or better in CFS157 and CFS259 or permission of Instructor.	LEC 3.0 3.0 3.0
CFS259	Sexuality over the Life Span	Examination of the physical, psychological, social, and cultural contributions to human sexuality. Emphasis on family life and cultural variation. Examination of facts and myths, current literature, and changing mores regarding human sexuality. Sexuality of males and females in contemporary society; impact of sexual trends on society; home/school issues in sexuality education.	Prerequisites: Permission of Department or Division. Student must be 18 years or older.	LEC 3.0 3.0 3.0
CFS263	Child and Family Studies Seminar	Classroom portion of Child and Family Studies Internship. Emphasizes the blend of job-related activities including career exploration, employment procedures, human relations, and on-the-job problems.	Prerequisites: Permission of Department or Division. Corequisites: CFS264AA or CFS264AB or CFS264AC initial enrollment in internship module.	LEC 1.0 1.0 1.0
CFS264AA	Child and Family Studies Internship	Laboratory portion of Child and Family Studies Seminar. Five hours of work weekly. Supervision and evaluation by a coordinator.	Prerequisites: Permission of Department or Division. Corequisites: CFS263 when initially enrolled in CFS264AA or CFS264AB or CFS264AC module.	LAB 1.0 5.0 0.0
CFS264AB	Child and Family Studies Internship	Laboratory portion of Child and Family Studies Seminar. Ten hours of work weekly. Supervision and evaluation by a coordinator.	Prerequisites: Permission of Department or Division. Corequisites: CFS263 when initially enrolled in CFS264AA or CFS264AB or CFS264AC module.	LAB 2.0 10.0 0.0
CFS264AC	Child and Family Studies Internship	Laboratory portion of Child and Family Studies Seminar. Fifteen hours of work weekly. Supervision and evaluation by a coordinator.	Prerequisites: Permission of Department or Division. Corequisites: CFS263 when initially enrolled in CFS264AA or CFS264AB or CFS264AC module.	LAB 3.0 15.0 0.0

CFS269	Child Care Seminar	Emphasizes the blend of job-related activities including career exploration, employment procedures, human relations, and on-the-job issues.	Prerequisites: Permission of Department or Division.	LEC 1.0 1.0 1.0
CFS271	Arranging the Environment	Exploration of the influence of the environment on the behavior of young children. Indoor and outdoor spaces considered and analysis of environments practiced.	Prerequisites: None.	LEC 1.0 1.0 1.0
CFS273	Math for the Young Child	Methods and techniques for encouraging the beginnings of mathematical/logical thought with young children. Focus upon the theory of Jean Piaget.	Prerequisites: None.	LEC 1.0 1.0 1.0
CFS275	Literacy Development and the Young Child	Literacy from birth through the early childhood years. Focus on developmentally appropriate ways to encourage speaking, listening, writing, and reading in the home and classroom.	Prerequisites: None.	LEC 1.0 1.0 1.0
CFS277	Adult-Adolescent Interaction	Prepares social service workers, teachers, and parents to interact effectively with teenagers. Develops understanding of the interaction between adolescents and their families. Teaches practical strategies to deal with specific problem areas	Prerequisites: None.	LEC 3.0 3.0 3.0
CFS281	Adolescent School Success	An overview of factors that contribute to adolescent school success, including family-school interactions, special needs adolescents, and problem areas. Emphasis on strategies and resources to facilitate school success	Prerequisites: None.	LEC 1.0 1.0 1.0
CFS282	Mainstreaming The Young Child with A Disability	An exploration of the educational, social, and behavioral issues and concerns involved in the successful integration of children with disabilities into typical preschool classes. Includes discussion of practical concerns such as adaptation of environment and accessing existing resources in the community	Prerequisites: None.	LEC 1.0 1.0 1.0
CFS283	Multicultural Early Child Education	Practical early childhood classroom applications for a diverse ethnic population, including integration of multicultures into the classroom, facilitation of second language acquisition, and practical teaching strategies which are also developmentally appropriate	Prerequisites: A grade of C or better in CFS/ECH176.	LEC 1.0 1.0 1.0
CFS284AA	Early Childhood Teaching Internship	Work experience in child care centers. 80 hours of designated work per credit.	Prerequisites: A grade of C or better in CFS/ECH176 and permission of Department or Division.	L+L 1.0 1.0 0.0
CFS284AB	Early Childhood Teaching Internship	Work experience in child care centers. 80 hours of designated work per credit. Maximum of 6 credits allowed.	Prerequisites: A grade of C or better in CFS/ECH176 and permission of Department Corequisites: CFS/ECH269.	L+L 3.0 3.0 3.0

CFS285	Family-School Interaction	Interaction among parents, teachers and the school. Emphasis on methods used cooperatively by parents and teachers to provide for education and developmental needs.	Prerequisites: A grade of C or better in CFS/ECH176 or CFS278 or permission of Instructor.	LEC 3.0 3.0 3.0
CFS285AA	Family-School Interaction: Preschool	Interaction among parents, teachers and the preschool. Emphasis on methods used cooperatively by parents and preschool teachers to provide for education and developmental needs.	Prerequisites: A grade of C or better in CFS/ECH176 or CFS278 or permission of Instructor.	LEC 1.0 1.0 1.0
CFS287	Professional Development in Early Childhood Education	Emerging professionalism within the field of early childhood education. Consideration of job responsibilities, rewards, ethics and current issues facing practitioners. Includes assessment and career planning.	Prerequisites: None.	LEC 1.0 1.0 1.0
CFS290AA	Child Abuse: Identification and Reporting in Child Care Settings	Identification, recording, and reporting by child care providers of sexual abuse, physical abuse, or neglect of young children	Prerequisites: None.	LEC 1.0 1.0 1.0
CHA104	Community Health Work	Preparation of Community Health workers for outreach health prevention, advocacy, education, referral, and intervention working with individuals, communities and families. Includes history of community health work programs, community systems, and resources for clients and families often in disparity.	Prerequisites: None.	LEC 3.0 3.0 3.0
CHI101	Elementary Chinese (Mandarin) I	Introduction to the basic grammar, pronunciation and vocabulary of the Mandarin Chinese language. Includes the study of Chinese culture, practice of listening, speaking, reading, and writing skills	Prerequisites: None.	L+L 5.0 6.0 6.0
CHI102	Elementary Chinese (Mandarin) II	Study of grammar and vocabulary along with the study of Chinese culture. Emphasis on pronunciation and speaking skills.	Prerequisites: A grade of C or better in CHI101 or permission of Department or Division. Completion of prerequisites within the last three years is required.	L+L 5.0 6.0 6.0
CHI115	Beginning Chinese Conversation I	Introduction to Chinese sound system, basic grammar, and vocabulary necessary to develop speaking ability in Mandarin Chinese. Designed for students seeking speaking and listening ability with little emphasis on writing and reading Chinese characters	Prerequisites: None.	LEC 3.0 3.0 3.0
CHI116	Beginning Chinese Conversation II	Continued development of speaking and listening skills for effective communication in Mandarin Chinese. Includes elements of Chinese culture	Prerequisites: A grade of C or better in CHI115 or permission of Department or Division. Completion of prerequisites within the last three years is required.	LEC 3.0 3.0 3.0

CIS100	Internet: A Tool for Learning	Use of the Internet to promote learning. Focus on Internet services and access. Information provided on browsing, Internet addresses, naming conventions, search concepts and techniques, using bookmarks and capturing information	Prerequisites: None.	L+L 0.5 0.5 0.5
CIS102	Interpersonal and Customer Service Skills for IT Professionals	Examines behaviors necessary to develop and support an effective client service organization. Focuses on methods of increasing the effectiveness of help-desk professionals when responding to a range of customer conditions	Prerequisites: None.	LEC 1.0 1.0 1.0
CIS102DA	Customer User Support	Examines skills, tools and strategies necessary for becoming a computer help-desk or end-user support professional.	Prerequisites: None.	L+L 3.0 4.0 4.0
CIS103	Introduction to Social Media	Identify and explain social media and Web 2.0 technologies for personal, academic, professional, and business applications. Create and maintain accounts on various sites to socialize,	Prerequisites: None.	L+L 3.0 4.0 4.0

		write, and share multimedia, while understanding the related ethics, privacy and security issues.		
CIS105	Survey of Computer Information Systems	Overview of computer technology, concepts, terminology, and the role of computers in business and society. Discussion of social and ethical issues related to computers. Use of word processing, spreadsheet, database, and presentation software. Includes uses of application software and the Internet for efficient and effective problem solving. Exploration of relevant emerging technologies.	Prerequisites: None.	L+L 3.0 4.0 4.0
CIS107	The Electronic Game Industry	Introduction to the electronic game industry, including history, market, distribution and publishing channels, business models, team roles, and career landscape. Technical topics covered include software engineering, artificial intelligence, game physics, computer graphics, and networking.	Prerequisites: A grade of C or better in CIS105 or permission of Instructor.	L+L 3.0 4.0 4.0
CIS108	Electronic Portfolio Development	Compile, reflect on, and select prior learning experiences and artifacts. Design, produce, and publish an online portfolio that documents prior learning. Includes techniques for presenting the electronic portfolio for evaluation.	Prerequisites: A grade of C or better in (CIS105 or BPC110) or permission of Instructor.	L+L 1.0 2.0 2.0
CIS109AM	Networking Technology I	Computer networking basics. Network services, transmission media, and connectivity devices covered. Open Systems Interconnection (OSI) Reference Model	Prerequisites: None.	LEC 2.0 2.0 2.0
CIS111	Ethics in Information Technology	Ethical issues that arise as a result of increasing use of computers, and the responsibilities of those who work with computers, either as computer science professionals or end users. Critical inquiry and review of ethical challenges in information technology business, including professional and corporate responsibility, government regulation, fiduciary responsibilities of information, infringement of intellectual property, security risk assessment, Internet crime, identity theft, employee surveillance, privacy, compliance, social networking, and the ethics of IT corporations.	Prerequisites: None.	LEC 3.0 3.0 3.0
CIS113AE	Microsoft Word: Word Processing Level I	Using word processing software to create, name and manage files, edit text, and do basic formatting of documents.	Prerequisites: None.	L+L 1.0 2.0 2.0
CIS113BE	Microsoft Word: Word Processing Level II	Using more advanced features of word processing software to format documents, create lists, mail-merged documents, and documents with themes and styles.	Prerequisites: A grade of C or better in CIS113AE or permission of Instructor.	L+L 1.0 1.0 1.0

CIS113CE	Microsoft Word: Word Processing Level III	Utilizing more advanced features of word processing software to incorporate style and theme elements, use desktop publishing capabilities, and insert tables.	Prerequisites: A grade of C or better in CIS113BE or permission of Instructor.	L+L 1.0 1.0 1.0
CIS113DE	Microsoft Word: Word Processing	Using word processing software to create, name and manage files, edit text, format, apply themes and styles, create and modify tables, apply desktop publishing features, and print a variety of types of documents.	Prerequisites: None.	L+L 3.0 4.0 4.0
CIS114AE	Excel: Level I	Computer spreadsheet skills for solving business problems using Excel, including calculations, forecasting, and projections.	Prerequisites: None.	L+L 1.0 2.0 2.0
CIS114BE	Excel: Level II	Additional Excel spreadsheet techniques, including macro programming, database searching, extraction, and linking to obtain prescribed reports and graphs.	Prerequisites: A grade of C or better in CIS114AE or permission of Instructor.	L+L 1.0 1.0 1.0
CIS114CE	Excel: Level III	Additional Excel spreadsheet techniques, including complex macros, statistics, and matrix manipulation. Project design using multiple, integrated spreadsheets	Prerequisites: A grade of C or better in CIS114BE or permission of Instructor.	LEC 1.0 1.0 1.0
CIS114DE	Excel Spreadsheet	Computer spreadsheet skills for solving business problems using Excel, including calculations, forecasting, projections, macro programming, database searching, extraction, linking, statistics, and matrix manipulation. Production of graphs and reports. Project design using multiple, integrated spreadsheets.	Prerequisites: None.	L+L 3.0 4.0 4.0
CIS116	Computer Graphics: Introduction to Microsoft Visio	Introduction to use of Visio graphics software to create and edit drawings using predefined shapes and templates. Use of Visio tools to create simple drawings with text, symbols and labels.	Prerequisites: None.	L+L 1.0 2.0 2.0
CIS117AM	Database Management: Microsoft Access - Level I	Introduction to the basic elements of a current version of the Microsoft Access database management program, for casual and beginning users.	Prerequisites: None.	L+L 1.0 2.0 2.0
CIS117BM	Database Management: Microsoft Access - Level II	Exploration of additional components of the Microsoft Access database management program.	Prerequisites: A grade of C or better in CIS117AM or permission of Instructor.	L+L 1.0 1.0 1.0
CIS117CM	Database Management: Microsoft Access - Level III	Application of the features of the Microsoft Access program to some common database management problems	Prerequisites: A grade of C or better in CIS117BM.	L+L 1.0 1.0 1.0
CIS117DM	Microsoft Access: Database Management	Introduction to Microsoft Access. Emphasis on features, design, and database management.	Prerequisites: None.	L+L 3.0 4.0 4.0
CIS118AB	PowerPoint: Level I	Use of PowerPoint software to produce professional-quality presentation visuals	Prerequisites: None.	L+L 1.0 2.0 2.0
CIS118BB	PowerPoint: Level II	Use of PowerPoint software to add movement and sound to desktop	Prerequisites: A grade of C or better in CIS118AB.	L+L 1.0 1.0 1.0

		presentations to enhance audience attention.		
CIS118DB	Desktop Presentation: PowerPoint	Use of PowerPoint to produce professional-quality presentation visuals with animation and sound.	Prerequisites: None.	L+L 3.0 4.0 4.0
CIS119DO	Introduction to Oracle: SQL	Use of Oracle tools and methodologies to fulfill real-world business information requirements. Hands-on exercises for designing, creating, and maintaining database structures to store, retrieve, update, and display data in a relational database using the SQL programming language. Creating and maintaining database objects. Advanced retrieval techniques.	A grade of C or better required in all Prerequisites. Prerequisites or Corequisites: CIS105 or permission of Instructor.	L+L 3.0 4.0 4.0
CIS119DP	Oracle: Database Administration	Basic administrative tasks performed by a database administrator (DBA). Conceptual understanding and hands-on applications of the Oracle database architecture and interaction of its components.	Prerequisites: A grade of C or better in CIS119DO, or permission of Instructor. (CIS126++ or CIS121++ or MST152++) is recommended.	L+L 3.0 4.0 4.0
CIS120AJ	Introduction to Digital Photo Editing	Introduction to digital photography and image editing. Digital photo editing use of electronic techniques to select, manipulate, and edit images.	Prerequisites: None.	L+L 1.0 2.0 2.0
CIS120DA	Introduction to Adobe Premiere	Foundations of video import, export, and editing. Includes parts and function of a video camera, preproduction and production, incorporating photographs, titles, graphics, animation and audio, capturing, editing, rendering and outputting digital video. Prepares students for the Adobe Certifications related to Adobe Premiere.	Prerequisites: None.	L+L 3.0 4.0 4.0
CIS120DB	Introduction to Adobe Illustrator	Provides students with the knowledge and skills to use Adobe Illustrator graphics software on a computer. Basic foundation course in the use of electronic techniques to create, manipulate, and edit images, text, abstract art, graphics design, color graphics and business charts; determine file formats appropriate for web and print; utilize tools to optimize graphics and create a PDF file.	Prerequisites: None.	L+L 3.0 4.0 4.0
CIS120DC	Introduction to Adobe Animate	Focuses on entry-level skill expectations for digital animation using Adobe Animate. Covers basic animation techniques used in the creation, manipulation, and editing of animation graphics. Prepares students for the Adobe certifications related to Adobe Animate.	Prerequisites: None.	L+L 3.0 4.0 4.0
CIS120DF	Introduction to Adobe Photoshop	Focuses on entry-level skills and knowledge for digital imaging using Adobe Photoshop. Prepares students for the Adobe Certifications related to Photoshop.	Prerequisites: None.	L+L 3.0 4.0 4.0

CIS120DG	Fireworks: Web Graphics	Use of graphics software to create and edit vector and bitmap (raster) graphics. Creation and manipulation of paths and special effects. Covers slices, buttons, pop-up menus, navigation bars, and animations for use in web sites.	Prerequisites: None.	L+L 3.0 4.0 4.0
CIS120DK	Introduction to Digital Video Editing	Introduction to digital video editing comprises of a foundation for video import, export, and editing functions. Includes parts and function of a video camera, preproduction and production, incorporating photographs, titles, graphics, animation and audio, capturing, editing, rendering and outputting digital video.	Prerequisites: None.	L+L 3.0 4.0 4.0
CIS120DL	Introduction to Adobe After Effects	Includes creating visual effects for video projects. Explores techniques and methodologies used to create shots for big budget special effects. Topics include color and light matching, keying, motion tracking, rotoscoping and working with film.	Prerequisites: A grade of C or better in CIS120DA or CIS120DK, or permission of Instructor.	L+L 3.0 4.0 4.0
CIS120DO	Introduction to Adobe Audition	Introduction to editing audio files in a multitrack editing environment using Adobe Audition. Includes the import of files in a variety of formats that were generated using other software and how to export files.	Prerequisites: None.	L+L 3.0 4.0 4.0
CIS120DP	Adobe Acrobat Pro: Portable Document Format (PDF) Files	Introduction to creating PDF (Portable Document Format) files using Adobe Acrobat for web viewing and printing. Addresses creation of interactive PDF documents including security settings, navigation links, and form fields.	Prerequisites: None.	L+L 3.0 4.0 4.0
CIS121AB	Microsoft Command Line Operations	Use of the Microsoft command line interface: basic concepts, internal and external commands, subdirectories, and editor.	Prerequisites: None.	L+L 1.0 2.0 2.0
CIS121AE	Windows Operating System: Level I	Specific topics include Windows basics, navigating and customizing the desktop, maintaining hardware and software, improving performance, configurations, securing your computer, taskbar, organizing, searching and managing folders and files, installing and uninstalling applications, Internet Explorer fine tuning, security, and searching, including advanced search techniques, keyboard shortcuts, and current topics.	Prerequisites: None.	L+L 1.0 2.0 2.0
CIS121AH	Microsoft PowerShell/Command Line Operations	Day-to-day command line administration tasks of Microsoft Windows. PowerShell used to create scripts to administer Microsoft windows environment.	Prerequisites: None. MST150++ suggested but not required.	L+L 3.0 4.0 4.0
CIS121AI	Mac Operating System	Specific topics include getting started with Mac OS; working with disks, folders, and files; installing and using applications; setting system preferences; printing, faxing, and	Prerequisites: None.	L+L 1.0 2.0 2.0

		scanning; getting and living online; using iLife; sharing a Mac with other users; creating a home network; and maintaining the Mac.		
CIS122AE	Windows Operating System: Level II	Additional capabilities of the Windows program that configure devices and customize the presentation of the operating system. System tools, control panel utilities, the My Computer, Network Neighborhood, and Microsoft Exchange desktop icons. Other helpful utilities presented.	Prerequisites: A grade of C or better in CIS121AE or permission of Instructor.	L+L 1.0 2.0 2.0
CIS124AA	Project Management Software: Level I	Utilization of project management software packages by managers and advanced business students to solve critical management planning tasks. Evaluation of management opportunities utilizing software packages to monitor project progress and resource allocation. Includes "what-if" analyses, and preparation of management reports	Prerequisites: None.	L+L 1.0 1.7 1.7
CIS124BA	Project Management Software: Level II	Advanced use of project management software. Covers features and functions to solve critical management planning tasks. Project communications, scheduling, resource allocation, tracking processes and importing and exporting data also covered. Project consolidation emphasized.	Prerequisites: A grade of C or better in CIS124AA or permission of Instructor.	L+L 1.0 1.7 1.7
CIS126AA	UNIX Operating System: Level I	Use of the UNIX operating system: system components, built-in commands, files and directories, editors, and UNIX Shell and command lines.	Prerequisites: None.	L+L 1.0 2.0 2.0
CIS126AL	Linux Operating System I	Introduction to the Linux Operating system. Develop knowledge and skills required to install, configure a Linux-based workstation including basic network functions.	Prerequisites: None.	L+L 1.0 2.0 2.0
CIS126BA	UNIX Operating System: Level II	Installation, configuration, and maintenance of the UNIX operating system	Prerequisites: A grade of C or better in CIS126AA.	LEC 1.0 1.0 1.0
CIS126CA	UNIX Operating System: Level III	Create login scripts and batch files, and maintain system communications	Prerequisites: A grade of C or better in CIS126BA.	LEC 1.0 1.0 1.0
CIS126DA	UNIX Operating System	Use of a UNIX operating system including system components, built-in commands, files, and directories, editors, and UNIX shell and command lines. Installation, configuration, and maintenance of a UNIX operating system. Create scripts and batch files, and maintain system communications.	Prerequisites: None.	L+L 3.0 4.0 4.0
CIS126DL	Linux Operating System	Introduction to the Linux Operating system. Develop knowledge and skills required to install, configure and troubleshoot a Linux-based workstation including basic network functions. Learn basic command line and Graphical User Interface (GUI) desktop environment	Prerequisites: None.	L+L 3.0 4.0 4.0

		utilities and applications. Fundamental abilities to achieve the entry-level industry certification covered.		
CIS126RH	Red Hat System Administration I	Introduction to core administration skills needed to manage a Red Hat Enterprise Linux system. This Red Hat Academy course helps prepare for the Red Hat certification exams using a hands-on, task-focused curriculum.	Prerequisites: None.	L+L 3.0 4.0 4.0
CIS128	Databases in Practice Management	Use of a Practice Management Database (Electronic Health Record software) for installation and maintenance of an Electronic Health Record. Application of policies and procedures for data control, security, privacy, and confidentiality of health information in electronic health information management systems.	Prerequisites: None.	L+L 3.0 4.0 4.0
CIS129	Introduction to Microsoft Sharepoint	Designed to provide basic skills enabling the end user to navigate, manage documents and collaborate using Microsoft Sharepoint.	Prerequisites: A grade of C or better in BPC110, or CIS105, or permission of Instructor.	L+L 1.0 2.0 2.0
CIS130DA	3D Studio Max: Modeling	Introduction to 3D modeling using 3D Studio Max. Emphasis will be placed on Polygonal, Solid, and Surface modeling tools. Students will also understand concepts such as modifiers, sub-object editing, extruding, Booleans, lofting, lathing and compound object modeling. Introduction to basic lighting, texturing and rendering techniques.	Prerequisites: A grade of C or better in CIS105.	L+L 3.0 4.0 4.0
CIS130DB	3D Studio Max: Animation	Introduction to three-dimensional animation tools and principles, with an emphasis on character construction and animation. 3D Studio Max will be the primary application for use in this class.	Prerequisites: A grade of C or better in CIS105.	L+L 3.0 4.0 4.0
CIS131AA	Doing Business on the Internet	Overview of different ways businesses are taking advantage of and using the Internet. Includes how companies are selling items and services over the Internet; techniques used to expand customer contacts; marketing strategies; availability of government and financial information; future potential and disadvantages; using the Internet for customer service; establishing a World Wide Web site. Some previous computer experience preferred	Prerequisites: None.	LEC 1.0 1.0 1.0
CIS132	HTML/CSS	Overview of foundational HyperText Markup Language (HTML) and Cascading Style Sheets (CSS) coding. Create web pages and sites that adhere to web standards and best practices using current web coding standards.	Prerequisites: None.	L+L 3.0 4.0 4.0
CIS133AA	Internet/Web Development Level I-A	Overview of the Internet and its resources. Hands-on experience with various Internet communication tools	Prerequisites: None.	L+L 1.0 2.0 2.0

CIS133DA	Internet/Web Development Level I	Overview of the Internet/World Wide Web (WWW) and its resources. Hands-on experience with various Internet/WWW resource discovery, information retrieval, and social media tools. Design and Development of multi-page websites using current Hyper Text Markup Language (HTML) and Cascading Style Sheets (CSS) standards..	Prerequisites: None.	L+L 3.0 4.0 4.0
CIS136	Content Management Systems: WordPress	Overview of WordPress Content Management System. Includes hands-on design and creation of web pages and blogs for the World Wide Web. Designed to cover best practices for web site/blog creation.	Prerequisites: None.	L+L 3.0 4.0 4.0
CIS138DA	Desktop Design and Publishing Using Adobe InDesign	Use of Adobe InDesign to compose and print textual and graphic materials of high quality. Includes word processing of copy, use of graphics programs, layout of design elements, printing alternatives, and file formats.	Prerequisites: None.	L+L 3.0 4.0 4.0
CIS140	Survey of Multimedia Technology	Introduction to multimedia technology and its uses. Overview of the various hardware and software used in developing and delivering multimedia. Emphasis on how multimedia is used in education and training. Provides a basic understanding of the process used to define and develop multimedia applications.	Prerequisites: A grade of C or better in CIS105 or permission of Instructor.	L+L 2.0 3.0 3.0
CIS143	Introduction to Critical Infrastructure Protection	History and overview of critical infrastructure protection and its ties within the Department of Homeland Security prior to and after September 11, 2001. Focus on risk management associated with sectors specific industries and provides an overview of the public and private partnerships, along with laws and standards developed to protect critical infrastructures.	Prerequisites: A grade of C or better in CIS111 or permission of Instructor.	LEC 3.0 3.0 3.0
CIS150	Programming Fundamentals	Structured program design and logic tools. Use of computer problems to demonstrate and teach concepts using appropriate programming language.	A grade of C or better required in all Prerequisites. Prerequisites or Corequisites: CIS105 or permission of Instructor.	L+L 3.0 4.0 4.0
CIS150AB	Object-Oriented Programming Fundamentals	Structured and Object-Oriented design and logic tools. Use of computer problems to demonstrate and teach concepts using an appropriate programming language.	A grade of C or better required in all Prerequisites. Prerequisites or Corequisites: CIS105 or permission of Instructor.	L+L 3.0 4.0 4.0
CIS151	Computer Game Development -Level I	Introduction to object-oriented game development, game design, and game theory. Use of computer software to demonstrate and teach concepts using an appropriate game development platform to model real-time simulations and create computer games using	Prerequisites: A grade of C or better in CIS105 or permission of Instructor.	L+L 3.0 4.0 4.0

		object oriented tools. Introduction to developing PC games, educational software, and training software using windows based object oriented developments tools.		
CIS154	Database Modeling and Design	Top-down, systematic approach to defining a database design based on analysis of business information and requirements. Identifying and evaluating standard data model and design patterns. Developing an entity-relationship (ER) diagram that accurately reflects the business. Mapping the ER diagram to an initial database design and revising for complex entities, attributes, and relationships.	Prerequisites: A grade of C or better in CIS105 or permission of Instructor.	L+L 3.0 4.0 4.0
CIS156	Python Programming: Level I	Introduction to Python programming. Includes general concepts, program design, development, data types, operators, expressions, flow control, functions, classes, input and output operations, debugging, structured programming, and object-oriented programming.	Prerequisites: A grade of C or better in CIS105 or permission of Instructor.	L+L 3.0 4.0 4.0
CIS159	Visual Basic Programming I	Use of the Visual Basic programming language to solve problems using suitable examples from business or other disciplines	Prerequisites: A grade of C or better in CIS105 or permission of Instructor.	L+L 3.0 4.0 4.0
CIS162	C Programming I	Beginning C programming. Includes features needed to construct programs, functions, pointers, input and output options, data types, structures, and unions, and disk file operations.	Prerequisites: A grade of C or better in CIS105 or permission of Instructor.	L+L 3.0 4.0 3.7
CIS162AB	C++: Level I	Introduction to C++ programming including general concepts, program design, development, data types, operators, expressions, flow control, functions, classes, input and output operations, debugging, structured programming, and object-oriented programming	Prerequisites: A grade of C or better in CIS105 or permission of Instructor.	L+L 3.0 4.0 4.0
CIS162AC	Visual C++: Level I	Introduction to Visual C++ programming including general concepts, program design, development, data types, operators, expressions, flow control, functions, classes, input and output operations, debugging, structured programming, and object-oriented programming.	Prerequisites: A grade of C or better in CIS105 or permission of Instructor.	L+L 3.0 4.0 4.0
CIS162AD	C#: Level I	Introduction to C# programming including general concepts, program design, development, data types, operators, expressions, flow control, functions, classes, input and output operations, debugging, structured programming, and object-oriented programming	Prerequisites: A grade of C or better in CIS105 or permission of Instructor.	L+L 3.0 4.0 4.0

CIS162RS	Rust Programming	Beginning Rust programming. Includes features needed to construct programs, functions, pointers, input and output options, data types, structures, unions, and disk file operations.	Prerequisites: A grade of C or better in CIS105 or permission of Instructor.	L+L 3.0 4.0 4.0
CIS163AA	Java Programming: Level I	Introduction to Java programming. Includes features needed to construct Java Applets, Java Applications, control structures, methods, arrays, character and string manipulation, graphics, and object-oriented programming	Prerequisites: A grade of C or better in CIS105 or permission of Instructor.	L+L 3.0 4.0 4.0
CIS164AB	Oracle: PL/SQL Programming	Writing PL/SQL procedures, functions, and packages. Creating and managing PL/SQL program units and database triggers in Oracle development environment. Managing dependencies and manipulating large objects	Prerequisites: A grade of C or better in CIS119DO or permission of Instructor.	L+L 3.0 4.0 4.0
CIS165	Introduction to IOS Application Development	Introduction to iOS device programming utilizing the XCode application, and the programming languages Objective-C and/or Swift, utilizing various iOS frameworks. Understand iOS hardware and feature basics. Go through the entire design process from concept to final product delivery.	Prerequisites: A grade of C or better in CIS150++, or CIS156, or CIS159, or CIS162++, or CIS163AA, or permission of Instructor.	L+L 3.0 4.0 4.0
CIS165DA	Introduction to Android Application Development	Beginning with an overview of Android features, this class explores the required software tools and programming techniques for developing Android device applications from creating the user interface, working with activities, intents and views, to using databases, providing data persistence, accessing device services, to debugging and publishing applications.	Prerequisites: A grade of C or better in CIS150++, or CIS156, or CIS159, or CIS162++, or CIS163AA, or permission of Instructor.	L+L 3.0 4.0 4.0
CIS165DB	C#/VB.NET: Windows 8 App Development	Building upon desktop application development with Visual Studio using VB.NET or C# languages, developing apps for Windows 8 utilizes Extensible Application Markup Language (XAML) for interface design. Windows 8 utilizes UI design standards that are unique from previous versions. Develop apps for Windows 8 smartphones and tablets that utilize touch input methods, translate into different resolutions, states, and orientations, and can tap into mobile features such as location and acceleration sensors. Includes working with external data and packaging for Windows Store distribution.	Prerequisites: A grade of C or better in CIS159 or CIS162AD or permission of Instructor.	L+L 3.0 4.0 4.0
CIS165DC	Xamarin/C# Cross-Platform Development	Develop cross-platform mobile apps for iOS, Android, and Windows devices using the Xamarin.Forms Platform and C#, utilizing the Visual Studio IDE. Focusing on Xamarin.Forms projects, the course includes PCL and SAP approaches to shared code, developing	Prerequisites: A grade of C or better in CIS162AD, or permission of Instructor.	L+L 3.0 4.0 4.0

		interfaces with XAML or in C# code, emulator testing, data binding, backgrounding, packaging for deployment. Coding techniques include Layouts and shared controls (views), MVVM pattern, LINQ, SQLite, and Dependency Injection for platform specific coding.		
CIS166	Web Scripting/Programming	Software development for Web sites, including client-side script and Common Gateway Interface (CGI) scripting. Covers Web-based transaction processing and use of databases in conjunction with the Web. Includes security issues.	Prerequisites: A grade of C or better in CIS133DA or permission of Instructor.	L+L 3.0 4.0 4.0
CIS166AA	Introduction to JavaScript	Introduction to basic JavaScript programming concepts including syntax. Covers Hypertext Markup Language (HTML), programming logic and debugging, as well as forms manipulation and animation.	Prerequisites: A grade of C or better in CIS133DA or permission of Instructor.	L+L 3.0 4.0 4.0
CIS166AC	Web Scripting with Active Server Pages (ASP).NET	Introduction to web scripting using Microsoft's ASP.Net (Active Server Pages). Web application development using Hypertext Markup Language (HTML), ASP.Net Web Forms, programming logic, and Structured Query Language (SQL).	Prerequisites: A grade of C or better in CIS133DA and (CIS159 or CIS162AD) or permission of Instructor.	L+L 3.0 4.0 4.0
CIS166AE	Web Scripting with PHP: Hypertext Preprocessor (PHP)	Introduction to web scripting with PHP (PHP: Hypertext Preprocessor). Web application development using Hypertext Markup Language (HTML), PHP, programming logic, and Structured Query Language (SQL).	Prerequisites: A grade of C or better in CIS133DA or permission of Instructor.	L+L 3.0 4.0 4.0
CIS171	Survey of Blockchain Technology	This survey class will introduce you to the exciting world of distributed ledger technology (i.e. the blockchain), cryptocurrencies such as Bitcoin and Ether as well as smart contracts. The emphasis is on the blockchain's role in revolutionizing business. Basic knowledge of computer operation and the ability to browse the Internet are recommended.	Prerequisites: None.	L+L 3.0 4.0 4.0
CIS175SA	Interconnecting Cisco Network Devices	Procedures for interconnecting existing computer networks. Emphasis on internetworking, layer usage, and software configuration. Covers router and switch usage, protocol suite and wide-area networking, as well as Internet protocol address and routing configuration. Also includes frame relay and X.25 configuration, access list traffic management, and alternate router access information.	Prerequisites: None.	L+L 3.0 4.0 4.0
CIS189	Virtualization and IT Solutions for Digital Businesses	Introduction to Virtualization course is designed to teach basic virtualization computing concepts to learners. It then expands on the basic technical	Prerequisites: None.	L+L 3.0 4.0 4.0

		introduction provided and explores the concepts in more detail with an emphasis on mapping the technologies to business needs and solutions. This course is suitable for anyone who wants to know more about terms like "cloud" and "virtualization." It will serve as a foundation to build upon when students learn how to design, install and configure various cloud technologies.		
CIS190	Introduction to Networking	Overview of networks. Emphasis on the elements of a network, current issues and products, and use of a network. Includes terminology, hardware and software components, connectivity, resource monitoring and sharing, electronic mail and messaging, and security issues. Helps prepare students for the CompTIA Network+ examination.	Prerequisites: None. Corequisites: CIS105 or permission of Instructor.	L+L 3.0 4.0 4.0
CIS197	VMware ESXI Server Enterprise	Introduction to vSphere and VMware ESXI server in the enterprise. Covers many aspects of virtualization for VMware ESXI server administration. Designed to develop knowledge and skills required to install, configure and troubleshoot a VMware ESXI Server (vSphere) including basic network functions.	Prerequisites: A grade of C or better in [CIS105 and (BPC270 or MST150++) and (CIS126DL or CIS126RH) and (CIS190 or CNT140AB)] or permission of Instructor.	L+L 3.0 4.0 4.0
CIS198	VMware vSphere: Optimize and Scale	VMware vSphere: Optimize and Scale is designed for experienced VMware vSphere users. It teaches advanced skills for configuring and maintaining a highly available and scalable virtual infrastructure. Through a mix of lecture and hands-on labs, you will configure and optimize the vSphere features that build a foundation for a truly scalable infrastructure and discuss when and where these features have the greatest effect. It enables you to understand vSphere at a deeper level and how to use advanced features and controls.	Prerequisites: A grade of C or better in CIS197.	L+L 3.0 4.0 4.0
CIS200	VMware NSX: Install, Configure, Manage	This comprehensive, fast-paced training course focuses on installing, configuring, and managing VMware NSX. This course covers NSX as a part of the software-defined data center platform, implementation use cases along with features of NSX, and functionality operating at Layer 2 through Layer 7 of the OSI model. Lecture and hands-on lab activities support the student's understanding of NSX features, functionality, and ongoing management and control.	Prerequisites: A grade of C or better in CIS197.	L+L 3.0 4.0 4.0
CIS201	Introduction to Operational Technology	Differences between Operational Technology (OT) and Information Technology (IT). Focus on the components and their uses within an OT	Prerequisites: A grade of C or better in CIS272DB or permission of Instructor.	L+L 3.0 4.0 4.0

		system. Addresses the inherent threats, physical and cyber related, to an OT system when connected to an IT system needed to be addressed in order to maintain security and resilience.		
CIS202	Introduction to Smart Grid Security	Focus on differences between control systems, used to control physical and computer information systems, used to process data, in the Power and Utility industry. Power Systems industry, system elements, functions and security risks are covered.	Prerequisites: A grade of C or better in (CIS272DB and CIS143) or permission of Instructor.	LEC 3.0 3.0 3.0
CIS203	Principles of the Risk Management Framework	History and overview of the Federal Information Security Modernization Act (FISMA) and its effect on cybersecurity management and oversight. Focus of the Risk Management Framework (RMF) and its use in the process of authorizing information systems to operate under the FISMA guidelines.	Prerequisites: A grade of C or better in CIS272DB or permission of Instructor.	L+L 3.0 4.0 4.0
CIS213DE	Advanced Microsoft Word: Word Processing	Using advanced word processing software features to perform tasks such as mail merge, collaboration, web pages, math functions, macros, photo enhancements, graphics, tables, forms and manage long documents.	Prerequisites: A grade of C or better in CIS113DE or (CIS113AE and CIS113BE and CIS113CE) or permission of Instructor.	L+L 3.0 4.0 4.0
CIS214DA	Advanced Excel for Data Analytics	Advanced Excel spreadsheet features for data analytics including advanced functions, PivotTables, Data Modelling, Dashboard creation and forecasting for Business Intelligence (BI). Includes capstone project of an interactive dashboard using a multi-table Excel Data Model.	A grade of C or better required in all Prerequisites. Prerequisites or Corequisites: [CIS114DE and (CIS117DM or CIS276DA or CIS276DB)], or permission of Instructor.	L+L 3.0 4.0 4.0
CIS214DE	Advanced Excel Spreadsheet: Level II	Advanced Excel spreadsheet features including formatting techniques, macros and Visual Basic for applications. Templates, built-in functions and lists as well as analysis tools including Pivot Tables and Goal Seek covered. Import and export data, workgroup collaboration and Internet features of Excel emphasized.	Prerequisites: A grade of C or better in CIS114DE or permission of Instructor.	L+L 3.0 4.0 4.0
CIS217AM	Advanced Microsoft Access: Database Management	Advanced database concepts including database design, primary and secondary key selection and relationships between tables. Queries, sub forms, macros, events, Visual Basic modules and Access Internet features also covered	Prerequisites: A grade of C or better in CIS117CM or CIS117DM.	L+L 3.0 4.0 4.0
CIS220DC	Flash: Advanced Animation and ActionScript	Advanced Flash programming, action scripting, tweening, advanced buttons and user input, movie clips, using dynamic sound and text, managing information flow, Object-Oriented Programming concepts in relation to Flash.	Prerequisites: A grade of C or better in CIS120DC or permission of Instructor.	L+L 3.0 4.0 4.0

CIS220DF	Adobe Photoshop Level II: Advanced Digital Imaging	Goes beyond the basic use of palettes, selections, layers, menus, and tool options, and focuses on using Photoshop software's advanced features to manipulate and correct digital and digitally produced images.	Prerequisites: A grade of C or better in CIS120DF or permission of Instructor.	L+L 3.0 4.0 4.0
CIS220DK	Advanced Adobe Premiere	Includes an in-depth study of digital video editing using premiere, including preproduction, production and post production. Advanced techniques into a capstone project. Emphasis placed on enhanced workflow processes, integration of other applications into Premiere, multiple output formats, timesaving quick key setup and advanced production and editing tools.	Prerequisites: A grade of C or better in CIS120DA, or CIS120DK, or permission of Instructor.	L+L 3.0 4.0 4.0
CIS221AB	Microsoft Power Shell	Microsoft Power Shell (PS) is used to aid system administrators of Microsoft Network Operating Systems (NOS) in automating many administrative tasks through shell script automation.	Prerequisites: A grade of C or better in BPC121AB CIS121AB or permission of Instructor.	L+L 1.0 2.0 2.0
CIS224	Project Management Microsoft Project for Windows	Introduction to project management concepts while working with MS Project to solve complex project management networks, including creating Gantt and PERT charts, tracking project progress, planning for restrictions, and integrating MS Project with other software packages such as Excel, Word, Powerpoint, and cc Mail.	Prerequisites: None.	L+L 3.0 4.0 4.0
CIS225	Business Systems Analysis and Design	Investigation, analysis, design, implementation and evaluation of business computer systems.	Prerequisites: Any programming language or permission of Instructor.	L+L 3.0 4.0 4.0
CIS225AB	Object-Oriented Analysis and Design	Methodologies and notations for fundamental object-oriented analysis and design including use cases, objects, classes, stereotypes, and relationships. Object-oriented iterative process for system development. A continuous application development exercise for applying the analysis and design concepts.	Prerequisites: Any programming language or permission of Instructor.	L+L 3.0 4.0 4.0
CIS226AL	Internet/Intranet Server Administration-Linux	Configuration and management of internet/intranet services, including the Apache web server, Simple Mail Transfer Protocol servers (SMTP), Structured Query Language (SQL server), File Transfer Protocol (FTP), Network Time Protocol (NTP), and other network services used in home and small business environments. Covers basic security configuration and testing.	Prerequisites: A grade of C or better in CIS126 (any module) or permission of Instructor.	L+L 3.0 4.0 4.0
CIS227	Assembly Language	Concepts and use of the Assembly programming language, including basic arithmetic operations, flow control, and memory management.	Prerequisites: A grade of C or better in CIS162++ or permission of Instructor.	L+L 3.0 4.0 4.0
CIS228	Advanced Databases for Practice Management	Advanced installation, configuration and use of Practice Management Database (Electronic Health Record software) for	Prerequisites: A grade of C or better in CIS128 or permission of Instructor.	LEC 3.0 4.0 4.0

		implementation and maintenance of for vendor specific and open source Electronic Health Records (EHRs). Configuration of policies and procedures for data control, security, privacy, and confidentiality of health information in electronic health information management systems.		
CIS230DA	3D Studio Max: Materials	Emphasis on creating and applying materials and textures to three-dimensional environments. Techniques for creating skins, surfaces, and shading types for objects, environments and characters will be explored. Original textures, both life-like and imaginary, will be created using 3D Studio Max and a 2D computer graphics software application.	Prerequisites: A grade of C or better in CIS130DA or CIS120DF or CIS120DG or permission of Instructor.	L+L 3.0 4.0 4.0
CIS230DB	3D Studio Max: Lighting and Rendering	Emphasis on lighting and rendering for three-dimensional environments. Techniques for illuminating scenes and characters will be explored. Prepare scenes for rendering to video, film and real-time rendering using 3D Studio Max.	Prerequisites: A grade of C or better in CIS130DA or permission of instructor.	L+L 3.0 4.0 4.0
CIS231	Ethereum Blockchain Application Development	Exploration of the theory behind Ethereum blockchain technology and the development of Ethereum smart contracts. In-depth emphasis on programming concepts relating to the creation and eventual deployment of smart contracts to the Ethereum blockchain.	Prerequisites: A grade of C or better in CIS171 or permission of Instructor.	L+L 3.0 4.0 4.0
CIS233AA	Internet/Web Development Level II-A	Design and creation of pages on the World Wide Web using hypertext markup language (HTML). Hands-on experience authoring HTML and preparing sophisticated web documents.	Prerequisites: A grade of C or better in CIS133DA or permission of Instructor.	L+L 1.0 2.0 2.0
CIS233AC	Internet Web Development: Dreamweaver Level I	Design and development of websites using Dreamweaver. Hands-on experience designing, developing, testing, and publishing web documents that contain client-side web technologies.	Prerequisites: A grade of C or better in CIS133DA or permission of Instructor.	L+L 1.0 2.0 2.0
CIS233BA	Internet/Web Development Level II-B	Hands-on experience designing Web presentations using advanced markup languages, programming languages, scripts, and multimedia	Prerequisites: A grade of C or better in CIS233AA or permission of Instructor.	LEC 1.0 1.0 1.0
CIS233DA	Internet/Web Development Level II	Plan, design and create web sites using HTML and Advanced Cascading Style Sheets (CSS). Expedite the development process using CSS frameworks and libraries. Enhance user experience and web site functionality using supporting technologies. Exploration of User Interface (UI) and User Experience (UX), best practices, accessibility, strategies, and careers in web design and development.	Prerequisites: A grade of C or better in CIS133DA or permission of Instructor.	L+L 3.0 4.0 4.0

CIS233DC	Internet Web Development: Dreamweaver	Design and development of comprehensive and interactive websites using Dreamweaver. Hands-on experience designing, developing, testing, and publishing web documents that contain various client-side web technologies. Assists in preparing students for the Adobe Certifications related to Adobe Dreamweaver.	Prerequisites: A grade of C or better in CIS132 or CIS133DA or permission of Instructor.	L+L 3.0 4.0 4.0
CIS234	XML Application Development	The use of Extensible Markup Language (XML) to make documents smarter, simplify Web automation, and to communicate between databases, both within and between corporations. Includes techniques for XML generation, data extraction and sharing, and transformation and managing of XML files.	Prerequisites: A grade of C or better in CIS133DA or permission of Instructor.	L+L 3.0 4.0 4.0
CIS235	e-Commerce	Introduction to Electronic Commerce on the Internet. Designing an electronic storefront including web page content and development, e-commerce site marketing, advertisement, legal and security considerations, credit card and other debit transaction covered. Also includes current issues in e-commerce.	Prerequisites: A grade of C or better in CIS133DA or permission of Instructor.	L+L 3.0 4.0 4.0
CIS236	Web-Based Teaching and Learning I	Experience using a web-based learning environment from an online student's perspective. Use communication tools, submit assignments, use evaluation tools, create homepages, and navigate online-learning environment. Introduction to basics of online pedagogy. Hands-on experience with a web-based learning environment.	Prerequisites: A grade of C or better in CIS133DA or permission of Instructor.	L+L 2.0 3.0 3.0
CIS237	Web-Based Teaching and Learning II	Create an online or hybrid course using a web-based learning environment. Create, prepare, and manage content and resource files; locate and add resources; and manage a course homepage. Add, delete, and revise tools; create, maintain, and release quizzes and assignments; and manage a course. Track students, data, and revise student grades, submissions, and attendance. Hands-on experience with creating a course using a web-based learning environment	Prerequisites: A grade of C or better in CIS236 or permission of Instructor.	L+L 3.0 4.0 4.0
CIS238DL	Linux System Administration	Managing Linux Operating Systems including sophisticated manipulation of file structures, backup systems, printing processes, troubleshooting, user account management, hard disk maintenance and configuration, process monitoring and prioritizing, kernel customization, and system resource control. Preparation for industry certifications such as the CompTIA Linux+, the Red Hat Certified System	Prerequisites: A grade of C or better in CIS126DL or CIS126RH or permission of Instructor.	L+L 3.0 4.0 4.0

		Administrator (RHCSA), the Red Hat Certified Engineer (RHCE) and the Linux Professional Institute (LPIC-1).		
CIS238RH	Red Hat System Administration II	Continue to develop core administration skills needed to manage a Red Hat Enterprise Linux system. This Red Hat Academy course helps to prepare students for the Red Hat certification exams using a hands-on, task-focused curriculum.	Prerequisites: A grade of C or better in CIS126RH, or permission of Instructor.	L+L 3.0 4.0 4.0
CIS239DL	Linux Shell Scripting	Linux Shell Scripting syntax and methods including the automation of system tasks as well as interpreted user-level programming. Course includes the Linux Borne Again Shell (BASH) as well as a variety of industry competitors.	Prerequisites: A grade of C or better in CIS238DL or CIS238RH or permission of Instructor.	L+L 3.0 4.0 4.0
CIS240	Local Area Network Planning and Design	Analysis of the needs and requirements for a local area network (LAN). Emphasis on basic systems analysis and design for a local area network, selection of appropriate hardware and software components. Includes current and future issues, needs analysis, cost estimation, selection of connectivity and network components, and issues relating to access, security, and support	Prerequisites: A grade of C or better in CIS190 or MST140 or permission of Instructor.	LEC 3.0 3.0 3.0
CIS240DL	Linux Network Administration	In depth networking based on Linux servers and the Transmission Control Protocol/Internet Protocol (TCP/IP) protocol suite. Integrating Linux servers and workstations into a network environment with multi-platform network operating systems including a variety of open-standard and proprietary protocols. Preparation for industry certifications such as the CompTIA Linux+, the Red Hat Certified System Administrator (RHCSA), the Red Hat Certified Engineer (RHCE) and the Linux Professional Institute (LPIC-1).	Prerequisites: A grade of C or better in CIS238DL or permission of Instructor.	L+L 3.0 4.0 4.0
CIS240RH	Red Hat System Administration III	Provides solid understanding of how to automate services on a Linux system. Covers use of Ansible to automate provisioning, configuration, application deployment, and orchestration on Red Hat Enterprise Linux 8. Content aligns with the Red Hat Certified Engineer (RHCE - EX294) exam, a professional certification.	Prerequisites: A grade of C or better in CIS238RH or permission of Instructor.	L+L 3.0 4.0 4.0
CIS243	Internet/Web Development Level III	Development of interactive websites with graphics, video, and sound using advanced web design techniques and tools. Design theory for maximizing web readership, interactive and multimedia elements, speed and accessibility optimization, and intuitive user interfaces	Prerequisites: A grade of C or better in CIS233DA or permission of Instructor.	L+L 3.0 4.0 4.0

CIS250	Management of Information Systems	The study of business information systems and its management, communication, e-business strategies, emerging technologies, database concepts, and project management. Overview of systems analysis and design. Learn about the competitive and strategic uses of information systems and how they are transforming organizations and their management.	Prerequisites: A grade of C or better in CIS105.	L+L 3.0 4.0 4.0
CIS251	Computer Game Development -Level II	Advanced object-oriented game development, advanced game design, and advanced game theory. Use of game development software tools to demonstrate advanced concepts for modeling real-time simulations and creating computer games using object oriented development tools. In depth coverage of game programming (scripting) techniques, and decision logic using object oriented techniques.	Prerequisites: A grade of C or better in CIS151 or permission of Instructor.	L+L 3.0 4.0 4.0
CIS252	Introduction to Kubernetes Administration	Provides students skills and knowledge to perform the responsibilities of a Kubernetes administrator. Includes covering the cluster architecture, installation, configuration, workloads, scheduling, services, networking, storage and troubleshooting. Helps students prepare for the Certified Kubernetes Administrator (CKA) certification.	Prerequisites: A grade of C or better in CIS238DL or CIS238RH or permission of Instructor.	L+L 4.0 5.0 5.0
CIS254	Introduction to Kubernetes Application Development	Provides students skills and knowledge to perform the responsibilities of a Kubernetes application developer. Helps students prepare for the Certified Kubernetes Application Developer (CKAD) certificate.	Prerequisites: A grade of C or better in CIS126DL or CIS126RH or permission of Instructor.	L+L 3.0 4.0 4.0
CIS255	Introduction to Kubernetes Security	Provide students with skills and knowledge on a broad range of best practices for securing container-based applications and Kubernetes platforms during build, deployment, and runtime. Helps students prepare for Kubernetes Security Specialist (CKS) Certification.	Prerequisites: A grade of C or better in CIS252 or permission of Instructor.	L+L 3.0 4.0 4.0
CIS256	Python Programming Level II	Advanced Python object-oriented programming concepts and applications. Emphasis on code documenting, versioning, unit testing strategies, and security practices for Python project/package development. Includes Python applications for data analysis, networking, database manipulation, and web application development.	Prerequisites: A grade of C or better in CIS156 or permission of Instructor.	L+L 3.0 4.0 4.0
CIS256CN	Python for Cybersecurity and Networking	Focus on practical applications of Python frameworks and libraries to support offensive and defensive cybersecurity operations and the management of network devices.	Prerequisites: A grade of C or better in (CIS156 and CNT140AB), or permission of Instructor.	L+L 3.0 4.0 4.0

CIS256DA	Python for Data Analysis	Introduction to data analysis concepts using Python's rich set of tools, libraries, and packages. Includes basic data analysis, creation of meaningful data visualizations, and advanced topics such as supervised and unsupervised machine learning techniques.	Prerequisites: A grade of C or better in CIS156 or permission of Instructor.	L+L 3.0 4.0 4.0
CIS259	Visual Basic Programming II	Use of the Visual Basic programming language to identify and solve advanced problems using suitable examples from business or other disciplines.	Prerequisites: A grade of C or better in CIS159 or permission of Instructor.	LEC 3.0 4.0 3.7
CIS261	Hyperledger Blockchain Application Development	Exploration of the theory behind Hyperledger blockchain technology and the development of Hyperledger smart contracts. In-depth emphasis on programming concepts relating to the creation and eventual deployment of smart contracts to the Hyperledger blockchain.	Prerequisites: A grade of C or better in CIS171 or permission of Instructor.	L+L 3.0 4.0 4.0
CIS262AB	C++: Level II	Advanced level C++ programming with emphasis on arrays, data management, dynamic memory allocation, object-oriented programming concepts, input/output operations, libraries, and debugging techniques. Includes overview of other advanced applications of C++.	Prerequisites: A grade of C or better in CIS162AB or permission of Instructor.	L+L 3.0 4.0 4.0
CIS262AD	C# Level II	Advanced C# programming with emphasis on data structures, dynamic memory allocation, object-oriented programming, user interfaces, and database processing. Overview of web applications, network programming, and reporting tools	Prerequisites: A grade of C or better in CIS162AD or permission of Instructor.	L+L 3.0 4.0 4.0
CIS263AA	Java Programming: Level II	Intermediate Java programming. Includes features needed to construct object-oriented programming, multithreading, multimedia, files, streams and data structure	Prerequisites: A grade of C or better in CIS163AA or permission of Instructor.	L+L 3.0 4.0 4.0
CIS265	Advanced iOS Application Development	Advanced iOS device programming utilizing the Swift/XCode application, and the programming languages Objective-C and/or Swift, utilizing various iOS frameworks. Understand iOS hardware and feature basics. Go through entire design process from concept to final product delivery.	Prerequisites: A grade of C or better in CIS150++ and CIS165, or permission of Instructor.	L+L 3.0 4.0 4.0
CIS265DA	Advanced Android Application Development	Advanced Android device programming utilizing an Android Integrated Development Environment, and an Android-focused programming language such as Java or Kotlin, utilizing various advanced activity layouts, views, and intents. Covers advanced Object Oriented Programming (OOP) practices, local and cloud-based database backends, threading, incorporating device features and sensors, and unit testing.	Prerequisites: A grade of C or better in CIS165DA or permission of Instructor.	L+L 3.0 4.0 4.0

CIS266	Network Integration Capstone	Application of project management, installation and troubleshooting to integrate multiple operating systems. Topics include: diagnostic and troubleshooting procedures, security vulnerability and penetration software to installation.	Prerequisites: A grade of C or better in [(CIS238DL or CIS238RH) and (CIS240DL or CIS240RH)], or CNT160AB, or [(MST155DC and MST157DC) and (CIS270 or CIS271DL or CIS271RH or CNT205)], or associated industry certifications, or permission of Instructor.	L+L 4.0 5.0 5.0
CIS270	Essentials of Network and Information Security	Threats to security of information systems; responsibilities and basic tools for information security, including communication security, infrastructure security, organizational security and basic cryptography. Introduction to the language of network security and hardware, software and firmware components of an information security system for local, metropolitan, enterprise, and wide area networks. Helps prepare participants for the Comptia Security+ exam and the GIAC Security Essentials Certificate (GSEC).	Prerequisites: A grade of C or better in BPC270 or CIS190 or CNT140AB or MST150++ or permission of Instructor.	L+L 3.0 4.0 4.0
CIS271DB	Information Security Essentials	Overview of information security principles, access control, risk management, and compliance. Provides partial preparation for certification in one or all of the following: Comptia Security+ exam, International Information Systems Security Certification Consortium (ISC)2, Systems Security Certified Practitioner (SSCP) exam, the Committee on National Security Systems (CNSS) 4011 certification, or GIAC Security Essentials Certificate (GSEC).	Prerequisites: A grade of C or better in (BPC270 or CIS126DL or CIS126RH or MST150++) and (CIS190 or CNT140++) and (CIS111 or ITS120).	L+L 3.0 4.0 4.0
CIS271DL	Linux Security	Implementing in-depth security methods and techniques in a Linux-based network environment. Utilize programs, utilities and configuration techniques to provide user-level, file system, and network security. Gain knowledge in a variety of security cracking techniques and how to guard against them. In all aspects of security, the standard of practicing professional ethics seriously emphasized. Preparation for industry certifications such as the SAIR/GNU LCP and LCA certificates, CompTIA's Linux+, RHCT, RHCE, and LPIC	Prerequisites: A grade of C or better in CIS240DL or Permission of Instructor.	L+L 3.0 4.0 4.0
CIS271RH	Red Hat System Administration IV	Provides solid understanding on containers, containerized applications, and orchestration of containers using Kubernetes and Red Hat OpenShift on Red Hat Enterprise Linux.	Prerequisites: A grade of C or better in CIS238RH or permission of Instructor.	L+L 3.0 4.0 4.0
CIS272DB	Information Security Principles	Covers threats to the IT infrastructure and how they can impact operations.	Prerequisites: A grade of C or better in CIS271DB.	L+L 3.0 4.0 4.0

		Demonstrates strategies to mitigate risk impacts as they relate to the IT infrastructure. Provides technical knowledge required to execute on the essentials of information security. Provides partial preparation for certification in one or all of the following: Comptia Security + exam, International Information Systems Security Certification Consortium ((ISC)2), Systems Security Certified Practitioner (SSCP) exam, the Committee on National Security Systems (CNSS) 4011 certification, or GIAC Security Essentials Certificate (GSEC).		
CIS274DA	Introduction to Power Systems Security	Demonstrates distinct difference between control systems, used to control physics and computer information systems, used to process data, in the Power and Utility industry. Background information related to the Power Systems industry, elements and security risks. In-depth overview of how all elements of the power system function, as well as risks.	Prerequisites: A grade of C or better in CIS272DB and PPT120, or permission of Instructor.	L+L 3.0 4.0 4.0
CIS275DA	Generation and Transmission Systems Security	Introduction to industrial control systems and how they support Power Generation and Transmission. Risks associated with infrastructures and why it is important to reduce those risks to acceptable levels by securing supporting industrial control systems. Advanced knowledge of industrial control systems used in the power, energy and utility industry with a concentrated focus on cyber security. This experience will also be directly transferable to other industries that operate industrial control systems such as Chemical Processing, Manufacturing, Defense, etc. Partial preparation for the Certified SCADA (Supervisory Control and Data Acquisition) Security Architect (CSSA) certification provided by the Information Assurance Certification Review Board (IACRB).	Prerequisites: A grade of C or better in CIS274DA or permission of Instructor.	L+L 3.0 4.0 4.0
CIS275DL	Linux Capstone	The Linux Capstone course aggregates the skills, knowledge, communication, and critical thinking skills from the Linux Program. This course is to emulate a production environment that prepares students to work as a Linux Systems Administrator. The course helps to prepare students for Linux Industry certification exams.	Prerequisites: A grade of C or better in CIS240DL, or CIS240RH, or permission of Instructor.	L+L 3.0 4.0 4.0
CIS276DA	MySQL Database	A broad overview of the MySQL database. Includes Structured Query Language (SQL) instruction for data definition, data manipulation, and data retrieval. Develops knowledge and skills	Prerequisites: A grade of C or better in CIS105, or CIS117DM, or permission of Instructor.	L+L 3.0 4.0 4.0

		required to install MySQL, model and create new databases, manage users, authentication, and stored procedures, and develop backup/restore strategies.		
CIS276DB	SQL Server Database	A broad overview of the Microsoft Structured Query Language (SQL) Server database. Includes SQL instruction for data definition, data manipulation, and data retrieval. Develops knowledge and skills required to install SQL Server, model and create new databases, manage users, authentication, and stored procedures, and develop backup/restore strategies.	Prerequisites: A grade of C or better in CIS105, or CIS117DM, or permission of Instructor.	L+L 3.0 4.0 4.0
CIS280	Current Topics in Computing	Critical inquiry of current topics in computing. Application of industry trends to solve problems and/or investigate issues	Prerequisites: None.	L+L 3.0 4.0 4.0
CIS280AA	Current Topics in Computing	Critical inquiry of current topics in computing. Application of industry trends to solve problems and/or investigate issues	Prerequisites: None.	L+L 1.0 2.0 2.0
CIS280AB	Current Topics in Computing	Critical inquiry of current topics in computing. Application of industry trends to solve problems and/or investigate issues	Prerequisites: None.	L+L 2.0 3.0 3.0
CIS282AA	Volunteerism for Computer Information Systems: A Service Learning Experience	Service learning field experience within private/public agencies, educational institution, and citizen volunteer groups.	Prerequisites: Permission of Instructor.	LAB 1.0 1.0 0.0
CIS284	Certified Internet Web (CIW) Associate Certification Preparation Course	Explain and implement Internet technologies, network infrastructure, and protocols. Utilize a variety of markup languages and web technologies to design web pages. Utilize job skills such as project management. Explore best practices/issues for web design, publishing, and e-commerce. Prepare for Certified Internet Web (CIW) Associate Examinations.	Prerequisites: A grade of C or better in CIS233DA or permission of Instructor.	L+L 4.0 5.0 5.0
CIS285	Computer Information Systems Capstone Project	Students will create a capstone project with opportunities for individualized research and application of aggregate technology and professional knowledge and skills obtained throughout the student's program of study. Focus on communication, problem solving, critical thinking, and project management skills.	Prerequisites: Permission of Program Director or Instructor.	L+L 3.0 4.0 4.0
CIS286	Technology Team Peer Mentorship	Students will have an opportunity to mentor other students and work as a team to develop and support a technology project related to their program of study paralleled by professional expertise and guidance from team members, faculty, and/or industry mentor. Focus on application of technology knowledge to the development of a team project to solve real world technology problems/needs	Prerequisites: A grade of C or better in EPS151. Corequisites: CIS285.	L+L 3.0 4.0 4.0

		with an innovative technology focus. Focus on the team experience and project and workforce development, management and research, as well as mentoring and collaborative professional behaviors needed to facilitate innovations for profitable commercial feasibility.		
CIS288	Digital Design Portfolio	Procedures for compiling, evaluating, and selecting prior learning experiences and artifacts for a digital portfolio. Covers techniques for the design, production, and publishing of an online portfolio documenting prior learning. Includes techniques for presenting the digital portfolio for evaluation.	Prerequisites: A grade of C or better in BPC/CIS133DA and (BPC/CIS120DB or BPC/CIS120DF or BPC/CIS138DA) or permission of Instructor.	L+L 2.0 3.0 3.0
CIS290AA	Computer Information Systems Internship	Work experience in business or industry	Prerequisites: Permission of Instructor.	LAB 1.0 6.0 0.0
CIS290AB	Computer Information Systems Internship	Work experience in business or industry	Prerequisites: Permission of Instructor.	LAB 2.0 12.0 0.0
CIS290AC	Computer Information Systems Internship	Work experience in business or industry	Prerequisites: Permission of Instructor.	LAB 3.0 18.0 0.0
CIS296WB	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. COMMON COMPETENCY COURSE	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and be able to obtain a position related to students academic or career goals (students present job may qualify or permission of instructor Corequisites: Must be concurrently enrolled in at least one class which is related to students major or career interest or with permission of Instructor.	LAB 2.0 10.0 0.0
CIS296WC	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. COMMON COMPETENCY COURSE	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and be able to obtain a position related to students academic or career goals (students present job may qualify or permission of instructor Corequisites: Must be concurrently enrolled in at least one class which is related to students major or career interest or with permission of Instructor.	LAB 3.0 15.0 0.0
CIS298AA	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized	Prerequisites: Permission of Program Director or Instructor.	LAB 1.0 1.0 0.0

		learning to be combined to maximize student development. COMMON COMPETENCY COURSE		
CIS298AB	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 2.0 2.0 0.0
CIS298AC	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 3.0 3.0 0.0
CLD110	Amazon Web Services Cloud Foundations	Provides a detailed overview of cloud concepts, Amazon Web Services (AWS) core services, security, architecture, pricing, and support. Intended for students who seek an overall understanding of cloud computing concepts, independent of specific technical roles. Helps to prepare students for the AWS Certified Cloud Practitioner exam.	Prerequisites: None. CIS105 suggested but not required.	L+L 3.0 4.0 4.0
CLD120	Amazon Web Services Cloud Architect Associate	Fundamentals of building IT infrastructure on Amazon Web Services (AWS). Focus on how to optimize use of the AWS Cloud by understanding AWS services and best practices for the AWS Cloud and how they fit into cloud-based solutions. Covers design patterns for architecting optimal IT solutions on AWS, as well as strategies and services implemented on AWS.	Prerequisites: A grade of C or better in CLD110 or permission of Instructor.	L+L 3.0 4.0 4.0
CLD130	Amazon Web Services Cloud Developing	Designed to provide technical knowledge and skills in cloud technology that can be developed with Amazon Web Services (AWS) software development kit (SDK). Focus on best practices for building and deploying secure applications in the AWS Cloud. Helps to prepare students for the AWS Certified Developer - Associate examination.	Prerequisites: A grade of C or better in CLD120 or equivalent AAWS Certified Solutions Architect - Associate certification. CLD110 and CNT140AB recommended.	L+L 3.0 4.0 4.0
CLD140	Amazon Web Services Cloud Operations	Designed to provide technical information and skills required to	Prerequisites: A grade of C or better in CLD120 or	L+L 3.0 4.0 4.0

		implement automatable and repeatable deployments of networks and systems on Amazon Web Services (AWS). Describes specific AWS features and tools related to configuration and deployment. Emphasis on best practices in the AWS Cloud and recommended design patterns, problem-solving and troubleshooting. Helps prepare students for the AWS Certified SysOps Administrator - Associate exam.	equivalent AAWS Certified Solutions Architect - Associate certification. CLD110 and CNT140AB recommended.	
CNS102	Foundations for Apprenticeship	The demographics and industry projections of the building and construction trades. Structure and purpose of registered apprenticeship. Apprenticeship roles and responsibilities. Overview of fluctuation in employment and finances inherent to the construction trades. Emphasis on preparation for periods of high and low employment debt management within registered apprenticeship.	Prerequisites: None.	LEC 1.0 1.0 1.0
CNS110	Green Construction Overview	Overview of 'green construction'. Green energy vs. green building, U.S. Green Building Council (USGBC) and the building life cycle, five main areas of green building standards, Leadership in Energy and Environmental Design (LEED) accreditation, and LEED certification.	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	LEC 0.5 0.5 0.5
CNS182	Construction Estimating and Print Reading	Analysis and interpretation of construction drawings (blueprint reading); interpretation of symbols, annotations, conventions, and terms of trade. Emphasizes learning quantities of material, equipment, and labor for a construction project. Includes a focus on procedures used to apply timely unit costs. Covers Occupational Safety and Health Administration (OSHA) Safety Standards and their impact on construction cost.	Prerequisites: None.	LEC 3.0 3.0 3.0
CNS200	Construction Management: Field Operation	Procedures and methods used by construction contractors to manage field operation during various phases of a project. Includes project team, job scheduling, personnel relations, use of the construction documentation on site, inspection techniques, safety issues, scope and supervision of the overall construction process.	Prerequisites: A grade of C or better in CON181 and CON244, or permission of Department or Division.	LEC 3.0 3.0 3.0
CNS201	Construction Management: Office Operation	Skills and techniques required to manage construction office operations. Includes establishing and financing the business, marketing, office operations, and maintaining relationships with other construction industry entities through a systematic planning approach.	Prerequisites: A grade of C or better in (CON130, CON181, and CON244), or permission of Department or Division.	LEC 3.0 3.0 3.0

CNS205	Sustainable Construction/LEED Certification	Fundamentals of major components of sustainable design and construction, including energy, health care facilities, cultural and natural resources, and other environmental and economic issues of sustainable built environments. Importance of a collaborative team effort with owner, developers, architects, engineers, and constructors will be integrated into the course. Issues impacting schedule and budgets of sustainable construction projects will be analyzed. Prepares student for the Leadership in Energy and Environmental Design (LEED) Certification Exam.	Prerequisites: None.	LEC 3.0 3.0 3.0
CNS230	Computer Aided Design and Drafting (CADD) 3D for Construction & Architecture (CADD II)	Design, construction, and annotation of three-dimensional objects for construction and architecture industries using AutoCAD software.	Prerequisites: A grade of C or better in COM130 or permission of Department or Division.	L+L 3.0 6.0 6.0
CNS240	Advanced Computer Aided Design and Drafting (CADD) for Construction & Architecture (CADD III)	Use of advanced AutoCAD two- and three-dimensional commands along with various customization codes and techniques specific to architecture and construction industries	Prerequisites: A grade of C or better in CNS230 or permission of Department or Division.	L+L 3.0 6.0 6.0
CNS250	Civil Drafting I: Civil 3D	Application of civil drafting software (Civil 3D) for civil drafting and surveying. Use of coordinating geometry and survey point databases to create topographical maps. Interpreting and delineating topographical data and maps for site and route work. Applying the basics of coordinate geometry (COGO) to surveying language.	Prerequisites: A grade of C or better in CON130 or permission of Department or Division.	L+L 3.0 6.0 6.0
CNS251	Civil Drafting II: Civil 3D	Advanced knowledge and skill in using civil drafting software (Civil 3D) in right-of-way improvement. Use of base maps in utility and street improvement; use of street improvements in creation of maps and profiles; use of map and profiles in utility improvements.	Prerequisites: A grade of C or better in CNS250, or permission of Department or Division.	L+L 3.0 6.0 6.0
CNS252	Civil Drafting III: Civil 3D	Use of civil drafting software (Civil 3D) for site development. Includes use of engineering and surveying software in analysis and computation of earthwork and creation of site drawings.	Prerequisites: A grade of C or better in CNS251, or permission of Department or Division.	L+L 3.0 6.0 6.0
CNS271	Home Inspection Structure	Home inspection practices for foundation, footings, roof, and framework, including floor, wall, and ceiling. Covers structural considerations and reporting practices.	Prerequisites: A grade of C or better in (CON244 and CON262) or permission of Department or Division.	LEC 3.0 3.0 3.0
CNS272	Home Inspection Plumbing, Electrical and HVAC	Home inspection practices for plumbing, electrical, heating, cooling, and air conditioning, and defects of exposed parts of these systems in a house structure. Includes components of systems and reporting practices.	Prerequisites: A grade of C or better in CON244 and CON262, or permission of Department or Division.	LEC 3.0 3.0 3.0
CNS273	Home Inspection: Insulation and Interiors	Home inspection practices for insulation and interiors, including walls, ceilings,	Prerequisites: A grade of C or better in CON244 and	LEC 3.0 3.0 3.0

		floors, windows, and doors, and their possible defects. Covers reporting practices.	CON272, or permission of Department or Division.	
CNS274	Home Inspection: Roofing and Exteriors	Home inspection practices for roofing and exteriors of a house, and their defects. Covers reporting practices.	Prerequisites: A grade of C or better in (CON244 and CON262) or permission of Department or Division.	LEC 3.0 3.0 3.0
CNS282AA	Volunteerism for Construction: A Service Learning Experience	Service-learning field experience within private/public agencies and citizen volunteer groups.	Prerequisites: Permission of Department or Division.	LAB 1.0 1.0 0.0
CNS282AB	Volunteerism for Construction: A Service Learning Experience	Service-learning field experience within private/public agencies and citizen volunteer groups.	Prerequisites: Permission of Department or Division.	LAB 2.0 2.0 0.0
CNS282AC	Volunteerism for Construction: A Service Learning Experience	Service-learning field experience within private/public agencies and citizen volunteer groups.	Prerequisites: Permission of Department or Division.	LAB 3.0 3.0 0.0
CNS285	Introduction to Residential Plan Review	Application of international model code (building, mechanical, plumbing, and electrical) to contract documents for one- and two-family dwelling residential construction.	Prerequisites: A grade of C or better in (CON244 and CON262) or permission of Department or Division.	LEC 3.0 3.0 3.0
CNS286	Introduction to Commercial Plan Review	Application of international model codes (building, mechanical, plumbing, and electrical) to contract documents for commercial construction.	Prerequisites: A grade of C or better in (CON244 and CON263) or permission of Department or Division.	LEC 3.0 3.0 3.0
CNS290AA	Construction Internship	Construction internship office/field experience with private/public agencies or citizen volunteer groups. Eighty (80) hours of designated work experience.	Prerequisites: Permission of Department or Division.	LAB 1.0 6.0 0.0
CNS290AB	Construction Internship	Construction internship office/field experience with private/public agencies or citizen volunteer groups. One hundred and sixty (160) hours of designated work experience.	Prerequisites: Permission of Department or Division.	LAB 2.0 12.0 0.0
CNS290AC	Construction Internship	Construction internship office/field experience with private/public agencies or citizen volunteer groups. Two hundred and forty (240) hours of designated work.	Prerequisites: Permission of Department or Division.	LAB 3.0 18.0 0.0
CNS290AE	Construction Internship	Construction internship office/field experience with private / public agencies or citizen volunteer groups.	Prerequisites: Permission of Department or Division.	LAB 5.0 25.0 0.0
CNS296WA	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. COMMON COMPETENCY COURSE	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and ability to obtain a position related to students academic or career goals (students present job may qualify or permission of instructor Corequisites: Must be concurrently enrolled in at least one class which is related to students major or career interest or with permission of Instructor.	LAB 1.0 5.0 0.0

CNS296WB	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students.	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and ability to obtain a position related to students academic or career goals (students present job may qualify or permission of instructor Corequisites: Must be concurrently enrolled in at least one class which is related to students major or career interest or with permission of Instructor.	LAB 2.0 10.0 0.0
CNS296WC	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. 		type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE		
CNS298AC	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 3.0 3.0 0.0
CNT140AB	Introduction to Networks	Focus on the architecture, structure, functions, components, and models of the Internet and other computer networks. Principles and structure of IP addressing and the fundamentals of Ethernet concepts, media, and operations are introduced. Students will build simple LANs, perform basic configurations for routers and switches, and implement IP addressing schemes. Preparation for Cisco certification examination.	Prerequisites: None.	L+L 4.0 6.0 6.0
CNT150AB	Switching, Routing, and Wireless Essentials	Focus on configuring switches and routers for use in small and medium size networks. Including Virtual Local Area Networks (VLANs), VLAN trunking, Inter-VLAN routing, Spanning Tree Protocol (STP), EtherChannel, Dynamic Host Configuration Protocol (DHCP), First Hop Redundancy, Local area Network (LAN) and Switch security, and Static routing. Knowledge and skills needed to implement a Wireless Local Area Network (WLAN) is also covered. Preparation for Cisco certification examination.	Prerequisites: A grade of C or better in CNT140AB or permission of Instructor.	L+L 4.0 6.0 6.0
CNT160AB	Enterprise Networking, Security, and Automation	Focus on the configuration of routers and switches within small and medium size networks for advanced functionality including Open Shortest Path First (OSPF), Network security, Access Control Lists (ACLs), Network Address Translation (NAT), Wide Area Network (WAN) concepts, Virtual Private Networks (VPNs), Quality of Service (QOS), network management, design, troubleshooting, virtualization, and automation. Preparation for Cisco certification examination.	Prerequisites: A grade of C or better in CNT150AB or permission of Instructor.	L+L 4.0 6.0 6.0
CNT168	CCNA Discovery - Designing and Supporting Computer Networks	Networking design and customer support including gathering	Prerequisites: A grade of C or better in CNT158.	L+L 4.0 6.0 6.0

		requirements, designing basic networks, establishing proof-of-concept, and performing project management tasks. Lifecycle services, including upgrades, competitive analyses, and system integration, in the context of pre-sale support		
CNT171	CCNA Exam Prep	Preparation for renewal of CCNA certification by reviewing the Open Systems Interconnection (OSI) model and industry standards including network topologies, IP addressing, subnet masks, access control list, basic network design and cable installation. Practice the skills to configure, customize, maintain and troubleshoot Cisco routers and switches for Local Areas Networks (LANs) and Wide Area Networks (WANs) using Cisco IOS command set. Review any new material introduced since the last CCNA exam version.	Prerequisites: A grade of C or better in CNT160AB, or Cisco Certified Network Associate (CCNA) certification, or permission of Instructor.	L+L 1.0 2.0 2.0
CNT202	Cisco Secure Firewall Appliance Configuration	Applications of Cisco Networking technologies in designing and implementing security solutions to reduce risk of revenue loss and vulnerability. Hands-on experience and skills in security policy design and management, security technologies, products and solutions, secure firewall design, installation, configuration and maintenance, Authentication, Authorization, and Accounting (AAA), Failover, and Virtual Private Network (VPN) implementation using firewalls.	Prerequisites: A grade of C or better in CNT160AB or permission of Instructor.	L+L 4.0 5.0 5.0
CNT203	CCNA Cybersecurity Operations	Uses virtual environments to simulate real-world cybersecurity threat scenarios and create opportunities for practice with ethical hacking, security monitoring, analysis and resolution. Introduces current technical concepts, such as classification of network attacks, monitoring, analysis of network intrusion data, cryptography, prevention and mitigation of network attacks and application of incident response models to manage network security incidents.	Prerequisites: A grade of C or better in CNT150AB or permission of Instructor.	L+L 4.0 6.0 6.0
CNT205	Cisco Certified Network Associate Security	Associate-level knowledge and skills required to secure Cisco networks. Development of a security infrastructure, identification of threats and vulnerabilities to networks. Mitigation of security threats. Core security technologies. Installation, troubleshooting and monitoring of network devices to maintain integrity, confidentiality and availability of data and devices. Competency in the technologies that Cisco uses in its security structure.	Prerequisites: A grade of C or better in CNT160AB, or Cisco Certified Network Associate (CCNA) certification, or permission of Instructor.	L+L 4.0 6.0 6.0

CNT206	Cisco Certified Network Associate Wireless	Associate-level knowledge and skills required in Cisco wireless networks. Includes comprehensive hands-on labs to design, plan, implement, operate, secure, and troubleshoot wireless networks.	Prerequisites: A grade of C or better in CNT160AB or permission of Instructor.	L+L 4.0 6.0 6.0
CNT240	Cisco Certified Network Professional: Enterprise Core	Provides Cisco Certified Network Professional (CCNP) Enterprise knowledge and skills needed for professional-level networking technologies and architecture. Topics include virtualization, network assurance, security, and automation. Helps to prepare students to take the Cisco Enterprise Network Core Technologies (ENCOR) certification exam aligned with the CCNP Enterprise, CCIE Enterprise Infrastructure, CCIE Enterprise Wireless, and Cisco Certified Specialist - Enterprise core certifications.	Prerequisites: A grade of C or better in CNT160AB, or Cisco Certified Network Associate (CCNA) industry certification, or permission of Instructor.	L+L 8.0 12.0 12.0
CNT240AA	Cisco Certified Network Professional: Enterprise Core I	Provides Cisco Certified Network Professional (CCNP) Enterprise knowledge and skills needed for professional-level networking technologies and architecture. Topics include virtualization, network assurance, security, and automation. Helps to prepare students to take the Cisco Enterprise Network Core Technologies (ENCOR) certification exam aligned with the CCNP Enterprise, CCIE Enterprise Infrastructure, CCIE Enterprise Wireless, and Cisco Certified Specialist - Enterprise core certifications.	Prerequisites: A grade of C or better in CNT160AB, or Cisco Certified Network Associate (CCNA) industry certification, or permission of Instructor.	L+L 4.0 6.0 6.0
CNT240AB	Cisco Certified Network Professional: Enterprise Core II	Provides Cisco Certified Network Professional (CCNP) Enterprise knowledge and skills needed for professional-level networking technologies and architecture. Topics include virtualization, network assurance, security, and automation. Helps to prepare students to take the Cisco Enterprise Network Core Technologies (ENCOR) certification exam aligned with the CCNP Enterprise, CCIE Enterprise Infrastructure, CCIE Enterprise Wireless, and Cisco Certified Specialist - Enterprise core certifications.	Prerequisites: A grade of C or better in CNT240AA.	L+L 4.0 6.0 6.0
CNT250	Cisco Certified Network Professional: Enterprise Advanced Routing and Services	Provides Cisco Certified Network Professional (CCNP) Enterprise advanced knowledge and skills needed for professional-level networking technologies and architecture. Covers the implementation and troubleshooting of advanced routing technologies and services including Layer 3 VPN services, infrastructure security, and	Prerequisites: A grade of C or better in CNT160AB, or Cisco Certified Network Associate (CCNA) industry certification, or permission of Instructor.	L+L 8.0 12.0 12.0

		infrastructure services. Helps to prepare students to take the Implementing Cisco Enterprise Network Advanced Routing and Services (ENARSI) certification exam aligned with the CCNP Enterprise, Cisco Certified Specialist - Advanced Infrastructure Implementation certifications.		
CNT250AA	Cisco Certified Network Professional: Enterprise Advanced Routing and Services I	Provides Cisco Certified Network Professional (CCNP) Enterprise advanced knowledge and skills needed for professional-level networking technologies and architecture. Covers the implementation and troubleshooting of advanced routing technologies and services including Layer 3 VPN services, infrastructure security, and infrastructure services. Helps to prepare students to take the Implementing Cisco Enterprise Network Advanced Routing and Services (ENARSI) certification exam aligned with the CCNP Enterprise, Cisco Certified Specialist - Advanced Infrastructure Implementation certifications.	Prerequisites: A grade of C or better in CNT160AB, or Cisco Certified Network Associate (CCNA) industry certification, or permission of Instructor.	L+L 4.0 6.0 6.0
CNT250AB	Cisco Certified Network Professional: Enterprise Advanced Routing and Services II	Provides Cisco Certified Network Professional (CCNP) Enterprise advanced knowledge and skills needed for professional-level networking technologies and architecture. Covers the implementation and troubleshooting of advanced routing technologies and services including Layer 3 VPN services, infrastructure security, and infrastructure services. Helps to prepare students to take the Implementing Cisco Enterprise Network Advanced Routing and Services (ENARSI) certification exam aligned with the CCNP Enterprise, Cisco Certified Specialist - Advanced Infrastructure Implementation certifications.	Prerequisites: A grade of C or better in CNT250AA.	L+L 4.0 6.0 6.0
COM080	Conversation Circles	Practice in conversing in English for non-native speakers. Emphasis in developing conversational techniques to facilitate building and maintaining relationships.	Prerequisites: None.	LEC 3.0 3.0 3.0
COM095	Basic Oral Communication Skills	Listening, speaking, and related academic performance skills, including note taking. Emphasis on activities designed to improve and synthesize these skills	Prerequisites: None.	LEC 3.0 3.0 3.0
COM100	Introduction to Human Communication	Introduces the theory and practice of human communication. Surveys communication topics related to interpersonal, small group, and public communication.	Prerequisites: None.	LEC 3.0 3.0 3.0
COM100AA	Introduction to Human Communication Part I	Introduces the theory and practice of human communication. Surveys	Prerequisites: None.	LEC 1 1 1

		communication topics related to interpersonal, small group, and public communication.		
COM100AB	Introduction to Human Communication Part II	Introduces the theory and practice of human communication. Surveys communication topics related to interpersonal, small group, and public communication.	Prerequisites: None.	LEC 1 1 1
COM100AC	Introduction to Human Communication Part III	Introduces the theory and practice of human communication. Surveys communication topics related to interpersonal, small group, and public communication.	Prerequisites: None.	LEC 1 1 1
COM101	Interpersonal Communication in the Workplace	Elements and functions of communication; perception of self and others; verbal and nonverbal communication; listening skills; effective verbal responses; communicating ideas and feelings; role of communication in relationships with others	Prerequisites: None.	LEC 1.0 1.0 1.0
COM102	Group Discussion in the Workplace	Concept of a decision-making group; role requirements in group discussion; characteristics and responsibilities of small-group leaders; tools for problem solving in a group; presenting proposals to management	Prerequisites: None.	LEC 1.0 1.0 1.0
COM105	Relational Communication/ Senior Adults	Communication skills as they apply to personal relationships of older adults. Student's assessment of their individual communication skills in relations with family members, social and business acquaintances, and friends	Prerequisites: None.	LEC 1.0 1.0 1.0
COM110	Interpersonal Communication	Theory and practice of communication skills which affect day-to-day interactions with other persons. Topics may include using verbal and nonverbal symbols, interactive listening, resolving interpersonal conflict, developing and maintaining personal and professional relationships	Prerequisites: None.	LEC 3.0 3.0 3.0
COM110AA	Interpersonal Communication Part I	Theory and practice of communication skills which affect day-to- day interactions with other persons. Topics may include using verbal and nonverbal symbols, interactive listening, resolving interpersonal conflict, developing and maintaining personal and professional relationships	Prerequisites: None.	LEC 1.0 1.0 1.0
COM110AB	Interpersonal Communication Part II	Theory and practice of communication skills which affect day-to- day interactions with other persons. Topics may include using verbal and nonverbal symbols, interactive listening, resolving interpersonal conflict, developing and maintaining personal and professional relationships	Prerequisites: None.	LEC 1.0 1.0 1.0
COM110AC	Interpersonal Communication Part III	Theory and practice of communication skills which affect day-to-day	Prerequisites: None.	LEC 1.0 1.0 1.0

		interactions with other persons. Topics may include using verbal and nonverbal symbols, interactive listening, resolving interpersonal conflict, developing and maintaining personal and professional relationships		
COM120	Pronunciation of American Speech	Analysis of American speech production problems due to accents produced by another language, correction of misarticulated American speech sounds, critical listening to sound production, understanding American English speech patterns, practicing American idioms and expressions, and preparing and delivering group and individual speech presentations	Prerequisites: None.	LEC 3.0 3.0 3.0
COM125	Presentational Speaking	Techniques for developing oral presentations which include visual media. Principles of verbal message development and related visual design stressed. Techniques of managing the presentational environment including question and answer periods and the operation of common equipment	Prerequisites: None.	LEC 3.0 3.0 3.0
COM145	Digital Storybook	Enables students to find and develop a narrative representing an aspect of their personal histories. Use of digital technology to produce and archive a storybook	Prerequisites: None.	L+L 1.0 2.0 2.0
COM150	Digital Storytelling	Enables students to find and develop their personal stories. Emphasis on the use of digital technology to create, edit, produce and archive a digital story	Prerequisites: None.	L+L 3.0 6.0 6.0
COM163	Intercultural Communication in Everyday Life	Provides knowledge to promote greater understanding and application of intercultural communication in social and organizational interactions. For advanced non-native English speakers.	Prerequisites: Appropriate English placement test score at the ENG101 or ENG107 level or a grade of C or better in ENG091 or ESL097 or permission of Instructor.	LEC 3.0 3.0 3.0
COM177	Experiential Group Activities Facilitation	Communication skills, tools, and strategies used to lead experiential learning activities. Designed to enhance the student's ability to facilitate experiential group learning activities.	Prerequisites: None.	LEC 3.0 3.0 3.0
COM181	Conflict Mediation	Develop communication skills necessary to conduct mediation in formal and informal settings. Applies principles and theories of message production and responding, listening, questioning, source and receiver factors, and emotion to conflict management communication. Emphasis on respecting diversity and empowering joint problem solving throughout	Prerequisites: None.	LEC 3.0 3.0 3.0
COM207	Introduction to Communication Inquiry	Overview of theory and methodological practice in communication with particular attention to scholarly writing skills. Emphasis on development of	Prerequisites: A grade of C or better in ENG101 or ENG107 or equivalent and	LEC 3.0 3.0 3.0

		critical thinking skills through active participation in the research process.	COM100 or equivalent or permission of Instructor.	
COM215	Listening	Emphasis on diagnosis of individual listening, corrective procedures, and reinforcement of improved habits through normal and speeded listening drills. Includes everyday communication experiences	Prerequisites: None.	LEC 3.0 3.0 3.0
COM221	Oral Fluency in American Speech	Designed for English Language Learner (ELL) students to develop greater oral fluency in spontaneous speaking contexts and presentational speaking. Emphasis on development of speech, language, and vocal clarity; basic skills in presentational speaking; and use of English to interact spontaneously with others.	Prerequisites: A grade of C or better in COM120 or permission of Instructor.	LEC 3.0 3.0 3.0
COM222	Argumentation	Discussion and practice of the use of evidence, applied reasoning, recognition of fallacies, selection of arguments, and methods of analyzing issues	Prerequisites: A grade of C or better in ENG101 or ENG107 or equivalent.	LEC 3.0 3.0 3.0
COM225	Public Speaking	Designed to enhance the student's ability to present public speeches confidently and competently. Also designed to improve information literacy and critical thinking skills	Prerequisites: A grade of C or better in ENG101 or ENG107 or equivalent.	LEC 3.0 3.0 3.0
COM230	Small Group Communication	Principles and processes of small groups and development of skills for participation and leadership in small group settings. Practice in problem solving, decision making, and information sharing.	Prerequisites: None.	LEC 3.0 3.0 3.0
COM241	Oral Interpretation of Literature	The study, analysis, and preparation for performance of prose, poetry, and dramatic literature. Preparation of material for public audiences.	Prerequisites: A grade of C or better in ENG101 or ENG107.	LEC 3.0 3.0 3.0
COM250	Introduction to Organizational Communication	Introduction to the study of communication in organizations including identification of variables, roles and patterns influencing communication in organizations	Prerequisites: None.	LEC 3.0 3.0 3.0
COM251	Interviewing	Principles and techniques of interviewing, including practice through real and simulated interviews in informational, persuasive, and employee-related situations	Prerequisites: None.	LEC 3.0 3.0 3.0
COM259	Communication in Business and Professions	Interpersonal, organizational, intercultural, group, and public communication in business and professional organizations. Emphasis on oral communication and the effective use of technology and new media.	Prerequisites: A grade of C or better in ENG101, or ENG107, or equivalent.	LEC 3.0 3.0 3.0
COM263	Elements of Intercultural Communication	Diverse cultural contexts are explored through basic concepts, principles, and theories of intercultural communication. Discovering effective interaction and appropriate communication in a global community is emphasized.	Prerequisites: None.	LEC 3.0 3.0 3.0

COM270	Health Communication	Theory and practice of interpersonal, intercultural, public, and team communication skills in a healthcare setting.	Prerequisites: None.	LEC 3.0 3.0 3.0
COM271	Voice and Diction	Exercises and techniques to free the voice and improve projection, resonance, and articulation. Covers international phonetic alphabet and standard stage speech	Prerequisites: None.	LEC 3.0 3.0 3.0
COM275	Nonverbal Communication	Effects of space, time, body movements, environment, objects, and voice quality on human communication and interaction	Prerequisites: None.	LEC 3.0 3.0 3.0
COM277	Group Facilitation Theory and Practice	Theory and practice of group facilitation skills. Emphasis on leading organizational groups in problem solving and decision-making	Prerequisites: Associates degree or equivalent or 3 to 5 years work experience or permission of Instructor.	LEC 2.0 2.0 2.0
COM281	Communication Activities	Designed to provide students with competence and confidence in a variety of speech situations beyond the classroom setting. May include presentations at speech competitions or at community organizations.	Prerequisites: None.	L+L 1.0 3.0 3.0
COM281AA	Communication Activities	Designed to provide students with competence and confidence in a variety of speech situations beyond the classroom setting. May include presentations at speech competitions or at community organizations.	Prerequisites: None.	L+L 2.0 4.0 4.0
COM281AB	Communication Activities	Designed to provide students with competence and confidence in a variety of speech situations beyond the classroom setting. May include presentations at speech competitions or at community organizations.	Prerequisites: None.	L+L 3.0 5.0 5.0
COM282AA	Service-Learning Experience in Communication	Unpaid Service-Learning (SL) experience, completed with approved community partner.	Prerequisites: Permission of Instructor.	LAB 1.0 1.0 0.0
COM282AB	Service-Learning Experience in Communication	Unpaid Service-Learning (SL) experience, completed with approved community partner.	Prerequisites: Permission of Instructor.	LAB 2.0 2.0 0.0
COM282AC	Service-Learning Experience in Communication	Unpaid Service-Learning (SL) experience, completed with approved community partner.	Prerequisites: Permission of Instructor.	LAB 3.0 3.0 0.0
COM296WA	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. COMMON COMPETENCY COURSE	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and be able to obtain a position related to students academic or career goals (students present job may qualify or permission of instructor Corequisites: Must be concurrently enrolled in at least one class which is related to students major or career interest or with permission of Instructor.	LAB 1.0 5.0 0.0

COM296WB	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. COMMON COMPETENCY COURSE	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and be able to obtain a position related to students academic or career goals (students present job may qualify or permission of instructor Corequisites: Must be concurrently enrolled in at least one class which is related to students major or career interest or with permission of Instructor. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 3.0 3.0 0.0
CON100	Introduction to Construction	Introduces students to all aspects of the construction industry such as how projects are delivered, reviewing the procurement process and how they are estimated, scheduled, and contracted. Introduces students to the individual roles that constructors fill in the delivery of a construction project.	Prerequisites: None.	LEC 2.0 2.0 2.0
CON101	Construction and Culture	The cultural context of construction, emphasizing the evolution and expansion of constructed environments as expressions of ethical and historical value systems.	Prerequisites: None.	LEC 3.0 3.0 3.0
CON103	Foundation of Construction Safety	Occupational Safety and Health Act (OSHA). Common causes for accidents and fatalities in construction. Abatement techniques for construction-specific hazards. Use of personal protection and lifesaving equipment. Specific types of health hazards related to the construction industry. Proper methods for handling hazardous materials.	Prerequisites: None.	L+L 1.0 1.0 1.0
CON104	Hand and Power Tools, Equipment, and Workspace	Overview of the selection, use, maintenance and safety procedures for common hand tools, power tools and equipment used in the construction industry. Overview of the maintenance of workspace according to professional standards.	Prerequisites: None.	L+L 1.5 1.5 1.5
CON105	Construction Calculations	Introduction to basic calculation skills in the construction environment including the four primary operations. United States standard and metric units of measure, geometric figures, and area and volume calculations for two and three-dimensional objects.	Prerequisites: None.	L+L 1.5 1.5 1.5
CON106	Foundations of Concrete	Examines the effects of concrete-making materials (aggregates, cements, admixtures, etc.) on the properties of fresh and hardened concrete. Concrete mixture proportioning is discussed along	Prerequisites: None.	LEC 4.0 2.0 2.0 LAB 0.0 4.0 4.0

		with the calculations and statistical analysis of strength testing.		
CON107	Construction Drawings Introduction	Provides students with the information and skills needed to read and understand construction drawings.	Prerequisites: None.	L+L 1.0 1.0 1.0
CON110	Carpentry: Floor Systems	Emphasis on the layout and construction procedures for floor systems, including: interpretation of construction drawings and specifications; selection of appropriate types of floor system components; and application of floor system materials. Includes estimation of the amount of materials needed for a floor assembly and some common alternative floor systems.	Prerequisites: None.	L+L 3.5 4.0 4.0
CON111	Carpentry: Wall Systems	Examines the layout and construction procedures for wall systems, including: interpretation of construction drawings and specifications; selection of appropriate types of wall system components; and application of wall system materials. Emphasis of the estimation of the amount of materials needed for a wall assembly and some common alternative wall systems.	Prerequisites: None.	L+L 3.5 4.0 4.0
CON112	Carpentry Ceiling Joist and Roof Framing	Covers the layout and construction procedures for roof systems, including interpretation of construction drawings and specifications. Provides an overview of ceiling and roof construction methods, the different types of roofs used in residential construction, materials, estimation of materials, and the use of trusses in basic roof framing.	Prerequisites: None.	L+L 4.0 5.0 5.0
CON117	Interpersonal Skills, Issues and Resolutions in Construction	Information about communication and human relations skills, the expectations of today's diverse workforce, and relationships with stakeholders. Leadership style, interview techniques, and professional development plans. Management skills in problem solving and negotiating.	Prerequisites: None.	LEC 2.0 2.0 2.0
CON124	Plumbing: Pipes and Fittings	Introduces the various types of plumbing materials, pipe schedules and material properties, and applications of piping. Trainees will learn how to determine the appropriate types of fittings, valves, hangers, and supports needed for piping jobs. Trainees will learn to properly measure, cut, prep, and join piping.	Prerequisites: None.	L+L 3.5 4.0 4.0
CON125	Plumbing: Fixtures	Introduces commonly used fixtures in plumbing systems. Select and operate each type of fixture for a variety of installations. Provides an overview of plumbing system installation, maintenance and water heating systems.	Prerequisites: None.	L+L 2.0 3.0 3.0

CON126	Plumbing: Drain, Waste, and Vent	Examine the drainage, waste movement and ventilation for construction application. Provides instruction in locating, installing, connecting, and testing a complete drain, waste, and vent (DWV) system.	Prerequisites: None.	L+L 3.5 4.0 4.0
CON127	Plumbing: Water Distribution Systems	Discuss the processes through which potable water is distributed. Examine the identification of the components and functions of a water distribution system and explains the relationships among the components. Includes installation and testing of water distribution systems.	Prerequisites: None.	L+L 2.0 3.0 3.0
CON130	Computer Aided Design and Drafting	Fundamental drafting and documentation topics and techniques related to construction, using both board and computer as tools. Concentration on various methods of two-dimensional and three-dimensional drawing, sketching, scaling, and dimensioning with computer and board.	Prerequisites: None.	L+L 3.0 6.0 6.0
CON131	Electrical Systems	Electricity related to residential and light commercial applications, to include common electrical components, AC and DC circuits, and electrical safety. Provides an introduction to reading, interpreting, and creating wiring diagrams and the application of electrical power. Operation and use of specific meters, tools, and an introduction to National Electrical Code (NEC).	Prerequisites: None.	L+L 3.5 4.0 4.0
CON132	Distribution Panels, Wiring, and Circuit Protection in Electrical Systems	Discuss construction drawings and code related to conductors and cables (types, ratings), residential and commercial applications, wire sizes, utilities, meters, disconnects, breakers, grounding and bonding, rough-in wiring and circuit safety protection.	Prerequisites: None.	L+L 3.5 4.0 4.0
CON133	Conduit, Raceways, and Termination in Electrical Systems	Termination and implementation of electricity in a facility. Considers topics related to box capacities, raceways, conduit sizes, termination practices, wire trays, and finish wiring.	Prerequisites: None.	L+L 4.0 5.0 5.0
CON138	Introduction to Project Management and Resource Control	Technical and management skills such as preconstruction planning, cost and risk control and policy development. Criteria for project layout purchasing, subcontractor management, project layout. Preparation process for project start up, close out and alternate project delivery methods. Major factors which affect production control and production control standards. Project manager's role.	Prerequisites: None.	LEC 1.0 1.0 1.0
CON181	Cost Estimating	Determining quantities of material, equipment, and labor for a construction project. Includes procedures used to	Prerequisites: None.	LEC 3.0 3.0 3.0

		apply unit costs to these items in a minimum of time. Occupational Safety and Health Administration Safety Standards and their impact on construction cost.		
CON213	Carpentry: Steel Framing	The layout and construction procedures for steel framing, including: interpretation of construction drawings and specifications; selection of appropriate types of steel framing components; and application of materials. Includes estimation of the amount of materials needed for a steel assembly.	Prerequisites: None.	L+L 1.0 2.0 2.0
CON214	Carpentry: Roof Systems and Building Envelopes	Safety, codes, and construction procedures for roof systems and building envelopes, including interpretation of construction drawings and specifications. Students construct conventional roof structures and ceilings, and install exterior finish materials.	Prerequisites: None.	L+L 3.0 4.0 4.0
CON215	Carpentry: Interior Finishes	The layout and construction procedures for interior finishes such as: drywall, trim, doors, cabinetry and stairs, including interpretation of construction drawings and specifications. Provides an overview of construction methods, the different types of materials, and estimation of materials.	Prerequisites: None.	L+L 4.0 5.0 5.0
CON216	Carpentry: Concrete Forms	Safety, codes, and construction procedures for layout and construction of concrete footers and post-tensioned slabs, wall forms, and columns. Includes interpretation of construction drawings and estimation of materials.	Prerequisites: None.	L+L 3.0 4.0 4.0
CON220	Statics Application for Construction	Emphasis on response of bodies to the action of forces. Elementary analytical and practical approach to the principles and physical concepts of statics. Focus on mastery of basic principles of trigonometry, application of vectors and forces, and moments, with analysis of basic structures and structural components, and statics application to construction.	Prerequisites: None.	LEC 3.0 3.0 3.0
CON221	Applied Statics	Emphasis on response of bodies to the action of forces. Elementary analytical and practical approach to the principles and physical concepts of statics, focuses on mastery of basic principles of trigonometry, application of vectors and forces, and moments, with analysis of basic structures and structural components, trusses, shear and moment diagrams, centroids, and moments of inertia.	Prerequisites: A grade of C or better in MAT15+, (MAT182 OR MAT187) and PHY111.	LEC 3.0 3.0 3.0
CON223	Strength of Materials	Strength and application of materials of construction, including mechanics of	Prerequisites: None.	LEC 3.0 3.0 3.0

		beams, shafts, and bolted and welded connections under various loading conditions. Construction behavior of various materials externally and internally.		
CON224	Plumbing: Pipe Systems and Controls	Examines applied calculations to determine size, types and service of pipe systems. Discusses the application of drawings, codes, and specifications for assembly and installation of gas, air, and water systems.	Prerequisites: None.	L+L 3.0 4.0 4.0
CON225	Plumbing: Water Disposal Systems	Examines water disposal and drainage systems, to include the types, components, functions, codes, safety, design, installation and repair.	Prerequisites: None.	L+L 4.0 5.0 5.0
CON226	Plumbing: Fixtures and Appliances	Examines the safety, codes, installation, maintenance, and repair of appliances, fixtures, and gas piping.	Prerequisites: None.	L+L 3.0 4.0 4.0
CON227	Plumbing: Water Resource Solutions	Introduces water supply disinfection, filtration systems, and sustainable water practices.	Prerequisites: None.	L+L 2.0 2.0 2.0
CON234	Electric Power Distribution	Theory and applications of distribution of power from utilities to residential and commercial sites, including transformers and commercial electrical distribution equipment and services. Includes safety, codes, and interpretation of construction drawings and specifications.	Prerequisites: None.	L+L 3.0 4.0 4.0
CON235	Motors: Theory and Application	Describes motor and motor controls in electricity. Explains how to select and install relays and troubleshoot control circuits. Distinctions between AC and DC motors, motor speed control, and design and operation characteristics, connections and terminal markings.	Prerequisites: None.	L+L 4.0 5.0 5.0
CON236	Industrial Wiring Applications	A broad variety of electrical wiring applications, including healthcare facility, heating, ventilation and air conditioning (HVAC), standby, emergency, and fire alarm systems.	Prerequisites: None.	L+L 3.0 3.0 3.0
CON241	Surveying I	Fundamental surveying principles including theory and field work using the level and transit, horizontal measurement by tape or stadia, benchmark and profile leveling traverse surveys and computations, establishment of line and grade. Designed to develop semi-professional personnel working for private or government engineering agencies.	Prerequisites: None.	LEC 3.0 2.0 2.0 LAB 0.0 3.0 3.0
CON243	Heavy Construction Equipment, Methods, and Materials	Fundamentals of machine selection and production estimating, using computer-generated data to develop programs that speed the decision process or allow easy analysis of multiple options used in the heavy construction industry. Applications of engineering principles in	Prerequisites: None.	LEC 3.0 3.0 3.0

		analyzing economical approaches for heavy construction. Covers fleet operation, methods, maintenance, and programs for construction of dams, tunnels, roads, and excavations of buildings.		
CON244	Working Drawing Analysis: Blueprint Reading	Detailed analysis and interpretation of construction drawings (blueprint reading); interpretation of symbols, annotations, conventions, terms of trade; and understanding of drawing, dimensioning, plan organization, and specifications.	Prerequisites: None.	LEC 3.0 3.0 3.0
CON251	Microcomputers for Constructors	Effective application of computers in support of construction management, administration, and technical aspects of the construction industry. Uses of the computer as a problem-solving tool, including multimedia software, information management, and spreadsheet applications in construction.	Prerequisites: None.	LEC 3.0 3.0 3.0
CON252	Building Construction Methods, Materials, and Equipment	Comprehensive study of construction methods, materials, codes, and equipment used in building construction.	Prerequisites: None.	LEC 3.0 3.0 3.0
CON262	Introduction International Residential Code (IRC)	Covers International Residential Code for various trades, including building, mechanical, plumbing and electric, for one and two family residential construction. Preparation for voluntary certification (IRC building inspection).	Prerequisites: None.	LEC 3.0 3.0 3.0
CON263	Building Codes	Designed specifically to acquaint students with safety principles of building construction under the Uniform Building Code, including structural requirements for wood, masonry and concrete, fire resistance of building construction, fire resistant materials, and ratings and occupancy requirements.	Prerequisites: None.	LEC 3.0 3.0 3.0
CON271	Construction Safety	Overview of safety methods and procedures for accident prevention and equipment used by construction workers to maximize field safety during various phases of a construction project, including requirements and regulations for construction safety set by Occupational Safety and Health Administration (OSHA) standards along with biological aspects of construction safety.	Prerequisites: None.	LEC 3.0 3.0 3.0
CON273	Electrical Construction Fundamentals	General knowledge of electrical work related to construction management, administration, and technical aspects of the construction industry. Covers circuits and machinery, power transmission, and electrical distribution with emphasis on secondary distribution systems as well as measurement and	Prerequisites: None.	LEC 3.0 3.0 3.0

		instrumentation, Ohm's Law, low voltage, high voltage, temporary power, generators, service, systems, circuits, motors, transformers, electrical installations, codes, cogeneration, energy conservation, estimating, safety and related blueprint readings.		
CON290AA	Construction Internship	Construction internship office/field experience with private/public agencies or citizen volunteer groups. Eighty (80) hours of designated work experience.	Prerequisites: Permission of Department or Division.	LAB 1.0 6.0 0.0
CON290AB	Construction Internship	Construction internship office/field experience with private/public agencies or citizen volunteer groups. One hundred and sixty (160) hours of designated work experience.	Prerequisites: Permission of Department or Division.	LAB 2.0 12.0 0.0
CON290AC	Construction Internship	Construction internship office/field experience with private/public agencies or citizen volunteer groups. Two hundred and forty (240) hours of designated work.	Prerequisites: Permission of Department or Division.	LAB 3.0 18.0 0.0
CON298AA	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 1.0 1.0 0.0
CON298AB	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 2.0 2.0 0.0
CON298AC	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 3.0 3.0 0.0
COV110	The Seven Habits of Highly Effective People	Development of interpersonal habits that are used by successful people in	Prerequisites: None.	LEC 2.0 2.0 2.0

		their personal and professional lives. Seven Habits of Highly Effective People. Video-based lecture course.		
COV112	Great Leaders, Great Teams, Great Results	Overview of foundational characteristics of great teams and organizations. Process oriented approach to creating strategies for inspiring trust and building credibility, defining a purpose, aligning systems of success, and unleashing talents of teams.	Prerequisites: None.	LEC 2.0 2.0 2.0
CPD101	Personal Development	Designed to assist students in developing confidence in making personal, social, and educational decisions. Examination and assessment of individual needs, interests, abilities and values to develop and strengthen interpersonal communication, enhance transitional skills and identify realistic life planning goals	Prerequisites: None.	LEC 2.0 2.0 2.0
CPD102AA	Assertiveness Training	Designed to help students, differentiate assertive, non-assertive and aggressive behavior, overcome blocks to acting assertively, establish boundaries, and develop effective verbal and nonverbal assertive behavior. Group discussion, role playing, and videotape feedback are used to enable students to express feelings, beliefs, and opinions in a direct appropriate manner	Prerequisites: None.	LEC 2.0 2.0 2.0
CPD102AB	Career Exploration	Designed to assist students make informed career decisions. Focuses on current occupational trends and outlook. Explores career-related interests, values, needs, preferences, skills, and strengths with the use of various assessments. Aids in the development of individualized educational/career goals and action plan.	Prerequisites: None.	LEC 2.0 2.0 2.0
CPD102AC	Creative Job Hunting	Assists students in gaining skills and confidence necessary to compete in the job market. Emphasis on job search techniques and strategies, resume and cover letter writing, interviewing skills and professional etiquette.	Prerequisites: None.	LEC 2.0 2.0 2.0
CPD102AD	Growth and Transformation Strategies	Designed to help students adopt a growth mindset within a holistic framework in order to transform patterns that prevent them from achieving their goals.	Prerequisites: None.	LEC 2.0 2.0 2.0
CPD102AF	Human Sexuality	Enables students to view gender and sexuality as dimensions of personal identity, and explores intersectionality between multiple identities. Examination of differences between identity expression, behavior, and biological influences, tracing social evolution from masculine-feminine dichotomy to non-binary perspectives.	Prerequisites: None.	LEC 2.0 2.0 2.0

CPD102AH	Stress Management	Reviews the sources of stress, the physiological effects and the psychological impact of stress on the individual. Provides strategies to manage and reduce stress. Helps students develop and understand behaviors to create a healthy balance in their lives by studying the biological, psychological, physiological, and social aspects of stress and wellness.	Prerequisites: None.	LEC 2.0 2.0 2.0
CPD102AJ	Personal Spiritual Development	Designed to encourage exploration of human spirituality. Focus on personal values and individual belief systems. Emphasis on developing an integrated concept of spirituality and applying it to one's own life	Prerequisites: None.	LEC 2.0 2.0 2.0
CPD102AN	Anger Management	Provides an understanding of the emotion of anger, explores the types, origins and typical reactions to anger. Covers stress and the need for stress management in relation to anger. Examines personal anger patterns and feelings, and the use of effective interpersonal communications in effective anger management	Prerequisites: None.	LEC 2.0 2.0 2.0
CPD102AR	Relaxation Training	Emphasis on specific relaxation techniques to alleviate dysfunctional tension. Use of progressive relaxation methods to reduce stress. Discussion of other modalities of relaxation	Prerequisites: Permission of Instructor.	LEC 1.0 1.0 1.0
CPD102AS	Conflict Resolution	Developing new skills for dealing effectively with everyday conflict and improving quality of one's own life. Opportunity to discuss issues and seek cooperative resolutions	Prerequisites: None.	LEC 2.0 2.0 2.0
CPD102AT	Building Self-Esteem	Practice in specific methods for building and keeping self-esteem. Personal assessment of attitudes, values, support systems, and goals	Prerequisites: None.	LEC 2.0 2.0 2.0
CPD102AU	Introduction to Meditation: Vipassana Practice	Introduction to the practice of Vipassana (Insight) Meditation. Focus on the history, benefits and methodology of Vipassana meditation. Special emphasis on establishing a formal and informal meditation practice	Prerequisites: None.	LEC 1.0 1.0 1.0
CPD103BA	Women In Transition	Designed to assist and support women who are experiencing life transitions. Emphasis on assessing self-potential, increasing self-confidence, managing life change, and exploring education/career/life options in terms of the realities of roles for women today	Prerequisites: None.	LEC 2.0 2.0 2.0
CPD103BB	Men in Transition	Designed to assist men who are experiencing life transitions. Emphasis on assessing potential, increasing self-confidence, managing change, exploring educational/career options, and exploring mens' roles in a changing society	Prerequisites: None.	LEC 2.0 2.0 2.0

CPD103BC	African American Cultural Pride and Awareness	Develop an awareness of cultural roots, history, and traditions with emphasis on the shaping of personal identity, social, career, and educational decisions	Prerequisites: None.	LEC 2.0 2.0 2.0
CPD103BD	Latino/Hispanic American Pride and Awareness	Develop an awareness of cultural roots, history, and traditions with emphasis on the shaping of personal identity, social, career, and educational decisions	Prerequisites: None.	LEC 2.0 2.0 2.0
CPD103BE	Native American Cultural Pride and Awareness	Develop an awareness of cultural roots, history, and traditions with emphasis on the shaping of personal identity, social, career, and educational decisions	Prerequisites: None.	LEC 2.0 2.0 2.0
CPD103BG	Asian American Cultural Pride and Awareness	Develop an awareness of cultural roots, history, and traditions with emphasis on the shaping of personal identity, social, career, and educational decisions	Prerequisites: None.	LEC 2.0 2.0 2.0
CPD103BH	Male-Female Communication	Designed to provide students with a better understanding of male-female characteristics and how that along with a renewed emphasis on basic communication skills will improve communication between the sexes	Prerequisites: None.	LEC 2.0 2.0 2.0
CPD103BJ	Dynamic Parenting	Designed to provide students with an understanding of parenting dynamics and effective communication between parents and children. Emphasis on building self-esteem, developing coping skills, behavior modification, and other techniques for improving parenting and communication in a variety of circumstances	Prerequisites: None.	LEC 2.0 2.0 2.0
CPD103BL	Dynamics of Leadership	Designed to provide strategies that may be used when assuming leadership roles. Focus on improving self-confidence through the development of appropriate behaviors, problem-solving skills, and techniques of leadership.	Prerequisites: None.	LEC 2.0 2.0 2.0
CPD103BV	Personal Development for Military Veterans	Assist military veterans in examining role changes, values, strengths, resources, career, readjustment and lifestyle choices. Strategies for coping with life changes, stress, and other personal development needs in transitioning into civilian life	Prerequisites: None.	LEC 2.0 2.0 2.0
CPD104	Career and Personal Development	An overview of the holistic process of career/life planning through self-awareness and understanding of the world of work. Exploration and application of behavioral, social, and cultural factors leading to college, career, and personal success with emphasis on assessment, applied behavior management, motivation, self-care, and career development.	Prerequisites: None.	LEC 3.0 3.0 3.0
CPD108	Personal Money Management for College Students	Designed to assist students in examining values related to spending, borrowing and saving money. Identify financial priorities and responsibilities	Prerequisites: None.	LEC 1.0 1.0 1.0

		associated with debt. Develop and follow a personal budget plan and learn strategies for maintaining a financially balanced personal life		
CPD115	Creating College Success	Strategies to create success in college. Methods for selecting and developing effective academic strategies, increasing self-awareness and developing self-management strategies. Elements of college resources and relationships with others explored in support of students' educational experience	Prerequisites: None.	LEC 1.0 1.0 1.0
CPD125	Employee Development: Problem Solving/Decision Making	Development of decision-making skills as well as techniques for problem solving. Focus on values and value conflicts as related to decision-making. Also includes establishing short and long-term goals for personal and career development	Prerequisites: None.	LEC 1.0 1.0 1.0
CPD126	Writing Resumes	Planning, organizing, and writing a professional resume. Focus on presentation skills including format and language	Prerequisites: None.	L+L 1.0 1.7 1.7
CPD150	Strategies for College Success	Focus on increasing student success through college orientation and personal growth, study skills development, and educational and career planning.	Prerequisites: None.	LEC 3.0 3.0 3.0
CPD150AA	College Orientation and Personal Growth	Emphasis on increasing student success through college orientation, identification of learning style and the use of time management, goal-setting, and interpersonal communication strategies	Prerequisites: None.	LEC 1.0 1.0 1.0
CPD150AB	Study Skills Development	Emphasis on increasing student success through the use of study strategies including materials organization, note-taking, reading, test-taking, memory, and critical and creative thinking	Prerequisites: None.	LEC 1.0 1.0 1.0
CPD150AC	Educational and Career Planning	Emphasis on increasing student success through educational and career planning.	Prerequisites: None.	LEC 1.0 1.0 1.0
CPD160	Introduction to Multiculturalism	Examination of the multiple cultures and subcultures within the contemporary United States. Personal exploration of awareness and appreciation of multiculturalism. Activities for experiencing diverse cultural perspectives. Critical thinking skills for recognizing, analyzing, and mediating cultural and psychological factors impacting conflict and accord between diverse cultures through written and oral discourse.	Prerequisites: A grade of C or better in ENG101, or ENG107, or permission of Instructor.	LEC 3.0 3.0 3.0
CPD180	Human Resilience: Cognitive, Emotional, and Behavioral Applications	Exploration of human resilience and well-being within the context of personal, academic, and career life.	Prerequisites: None.	LEC 3.0 3.0 3.0

		Focus on enhancing quality of life, and improving academic performance and career success through awareness of behavior, cognition, and emotion as well as the practice of self-regulation. Topics include mindfulness, positive psychology, motivation, effective thinking, applied neuroscience, mental and emotional health and self-care.		
CPD195AA	Special Topics: Counseling and Personal Development	Introduction to current topics and contemporary issues related to promoting and enhancing personal development	Prerequisites: None.	LEC 0.5 0.5 0.5
CPD195AB	Special Topics: Counseling and Personal Development	Introduction to current topics and contemporary issues related to promoting personal development. Focuses on a variety of techniques and strategies to improve personal and interpersonal effectiveness	Prerequisites: None.	LEC 1.0 1.0 1.0
CPD250	Peer Mentor Training	Development and application of beginning skills and knowledge required to establish and maintain effective peer helping relationships in a college setting. Focus on the role, function, and responsibilities of the peer mentor; verbal and nonverbal communication skills; problem solving; and strategies and resources for first-year student success. Includes on-campus service-learning component.	Prerequisites: Completion of 24 credit hours (100-level or above) with a B grade point average or better and permission of Instructor.	L+L 3.0 4.0 4.0
CPD282AA	Volunteerism for Counseling and Personal Development: A Service Learning Experience	Service-learning field experience within private/public agencies, and citizen volunteer groups.	Prerequisites: Permission of Instructor.	LAB 1.0 1.0 0.0
CPD282AB	Volunteerism for Counseling and Personal Development: A Service Learning Experience	Service-learning field experience within private/public agencies, and citizen volunteer groups.	Prerequisites: Permission of Instructor.	LAB 2.0 2.0 0.0
CPD282AC	Volunteerism for Counseling and Personal Development: A Service Learning Experience	Service-learning field experience within private/public agencies, and citizen volunteer groups.	Prerequisites: Permission of Instructor.	LAB 3.0 3.0 0.0
CPD298AA	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 1.0 1.0 0.0
CPD298AB	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects	Prerequisites: Permission of Program Director or Instructor.	LAB 2.0 2.0 0.0

		of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE		
CPD298AC	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 3.0 3.0 0.0
CRA290	Introduction to Clinical Research Associate	Introduction to the Clinical Research Associate (CRA) profession as an advanced career path for clinical research coordinators. Topics include CRA role, career development, study development process, monitoring, training and oversight, and regulations. Effective analysis, synthesis, and evaluation of topics through written discourse.	Prerequisites: Bachelor or higher degree in life/health sciences and permission of Program Director.	LEC 3.0 3.0 3.0
CRA291	Monitoring	Basic monitoring skills and responsibilities required of the Clinical Research Associate (CRA). site selection and Initiation, routine monitoring and close-out visits; audit techniques and preparations; expectations and professionalism; monitoring plans, Standard Operating Procedure (SOP) adherence, training of sites, travel expectations and conduct; sponsor interactions (acting as a liaison); source document verification; review of patient charts; use of electronic systems; monitoring reports and letters; adverse event monitoring and reporting; recruitment and retention.	Prerequisites: A grade of C or better in CRA290.	LEC 4.0 4.0 4.0
CRA293	Clinical Study Development	Introduction to the Clinical Study Development Process and various roles of a Clinical Research Associate (CRA). Roles and responsibilities of in-house CRA versus Field CRA support, timelines of Clinical Study Development, overview of the ABC model, drug versus device study development and national and international considerations.	Prerequisites: A grade of C or better in CRA290.	LEC 3.0 3.0 3.0
CRA295	Ethics and Regulations	Overview of the regulations, guidelines and resources associated with the Clinical Research Associate (CRA) role. Monitoring responsibilities, Code of Federal Regulations, International Conference of Harmonisation (ICH) guidelines, European Directives, Pharmaceutical Research and	Prerequisites: A grade of C or better in CRA290.	LEC 3.0 3.0 3.0

		Manufacturers of America (PhRMA) principles, Food and Drug Administration (FDA) Guidelines for the Monitoring of Clinical Investigations and sponsor responsibilities for conduct of clinical trials and approval.		
CRA297	Clinical Trial Material and Device Accountability	Overview of Clinical Trial Material (CTM) from development and manufacturing to accountability and destruction along with comparable device processes. Roles of a Clinical Research Associate (CRA) relative to Clinical Trial Materials/Devices. Investigational New Drug (IND) applications, good manufacturing practices, importing and exporting of CTMs/devices, packaging and stability, accountability records, destruction requirements and review of regulatory considerations.	Prerequisites: A grade of C or better in CRA290.	LEC 3.0 3.0 3.0
CRE101	College Critical Reading and Critical Thinking	Develop and apply critical thinking skills through critically reading varied and challenging materials. Includes analysis, evaluation, interpretation, and synthesis through at least two substantial writing and/or speaking tasks.	Prerequisites: A grade of C or better in [(ENG101 or ENG107) and (RDG095 or RDG100 or RDG100LL or RDG111 or RDG112 or RDG113)] or a grade of B or better in ALT100 or an appropriate district placement or permission of Instructor.	LEC 3.0 3.0 3.0
CRE101AT	College Critical Reading and Critical Thinking in Applied Technology	Develop and apply critical thinking skills through critically reading varied and challenging materials relevant to current issues in applied technology. Includes analysis, evaluation, interpretation, and synthesis through at least two substantial writing and/or speaking tasks.	Prerequisites: A grade of C or better in [(ENG101 or ENG107) and (RDG095 or RDG100 or RDG100LL or RDG111 or RDG112 or RDG113)] or a grade of B or better in ALT100 or an appropriate district placement or permission of Instructor.	LEC 3.0 3.0 3.0
CRE101BM	College Critical Reading and Critical Thinking in Business, Entrepreneurialism and Management	Develop and apply critical thinking skills through critically reading varied and challenging materials relevant to current issues in business, entrepreneurialism and management. Includes analysis, evaluation, interpretation, and synthesis through at least two substantial writing and/or speaking tasks.	Prerequisites: A grade of C or better in [(ENG101 or ENG107) and (RDG095 or RDG100 or RDG100LL or RDG111 or RDG112 or RDG113)] or a grade of B or better in ALT100 or an appropriate district placement or permission of Instructor.	LEC 3.0 3.0 3.0
CRE101BS	College Critical Reading and Critical Thinking in Behavioral Sciences and Human Services	Develop and apply critical thinking skills through critically reading varied and challenging materials relevant to current issues in behavioral sciences and human services. Includes analysis, evaluation, interpretation, and synthesis through at least two substantial writing and/or speaking tasks.	Prerequisites: A grade of C or better in [(ENG101 or ENG107) and (RDG095 or RDG100 or RDG100LL or RDG111 or RDG112 or RDG113)] or a grade of B or better in ALT100 or an appropriate district	LEC 3.0 3.0 3.0

			placement or permission of Instructor.	
CRE101CS	College Critical Reading and Critical Thinking in Culture and Society	Develop and apply critical thinking skills through critically reading varied and challenging materials relevant to current issues in culture and society. Includes analysis, evaluation, interpretation, and synthesis through at least two substantial writing and/or speaking tasks.	Prerequisites: A grade of C or better in [(ENG101 or ENG107) and (RDG095 or RDG100 or RDG100LL or RDG111 or RDG112 or RDG113)] or a grade of B or better in ALT100 or an appropriate district placement or permission of Instructor.	LEC 3.0 3.0 3.0
CRE101CT	College Critical Reading and Critical Thinking in Computer Information Technology	Develop and apply critical thinking skills through critically reading varied and challenging materials relevant to current issues in computer information technology. Includes analysis, evaluation, interpretation, and synthesis through at least two substantial writing and/or speaking tasks.	Prerequisites: A grade of C or better in [(ENG101 or ENG107) and (RDG095 or RDG100 or RDG100LL or RDG111 or RDG112 or RDG113)] or a grade of B or better in ALT100 or an appropriate district placement or permission of Instructor.	LEC 3.0 3.0 3.0
CRE101ED	College Critical Reading and Critical Thinking in Education	Develop and apply critical thinking skills through critically reading varied and challenging materials relevant to current issues in education. Includes analysis, evaluation, interpretation, and synthesis through at least two substantial writing and/or speaking tasks.	Prerequisites: A grade of C or better in [(ENG101 or ENG107) and (RDG095 or RDG100 or RDG100LL or RDG111 or RDG112 or RDG113)] or a grade of B or better in ALT100 or an appropriate district placement or permission of Instructor.	LEC 3.0 3.0 3.0
CRE101HS	College Critical Reading and Critical Thinking in Health Sciences	Develop and apply critical thinking skills through critically reading varied and challenging materials relevant to current issues in health sciences. Includes analysis, evaluation, interpretation, and synthesis through at least two substantial writing and/or speaking tasks.	Prerequisites: A grade of C or better in [(ENG101 or ENG107) and (RDG095 or RDG100 or RDG100LL or RDG111 or RDG112 or RDG113)] or a grade of B or better in ALT100 or an appropriate district placement or permission of Instructor.	LEC 3.0 3.0 3.0
CRE101SM	College Critical Reading and Critical Thinking in STEM	Develop and apply critical thinking skills through critically reading varied and challenging materials relevant to current issues in science, technology, engineering, and mathematics (STEM). Includes analysis, evaluation, interpretation, and synthesis through at least two substantial writing and/or speaking tasks.	Prerequisites: A grade of C or better in [(ENG101 or ENG107) and (RDG095 or RDG100 or RDG100LL or RDG111 or RDG112 or RDG113)] or a grade of B or better in ALT100 or an appropriate district placement or permission of Instructor.	LEC 3.0 3.0 3.0
CRE101VA	College Critical Reading and Critical Thinking in Visual and Performing Arts	Develop and apply critical thinking skills through critically reading varied and challenging materials relevant to current issues in visual and performing arts. Includes analysis, evaluation, interpretation, and synthesis through at	Prerequisites: A grade of C or better in [(ENG101 or ENG107) and (RDG095 or RDG100 or RDG100LL or RDG111 or RDG112 or RDG113)] or a grade of B or better in ALT100 or an	LEC 3.0 3.0 3.0

		least two substantial writing and/or speaking tasks.	appropriate district placement or permission of Instructor.	
CRE201	Critical Reading and Writing in a Global Society	Critical evaluation of writings of authors from a variety of countries and cultures in order to gain a more global perspective of both universal and contemporary issues. Analysis, synthesis, and evaluation of various contemporary cultural viewpoints through at least two substantial writing and/or speaking tasks.	Prerequisites: A grade of C or better in (ENG101 or ENG107) and (CRE101 or exemption by score on the reading placement test).	LEC 3.0 3.0 3.0
CRE298AA	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 1.0 1.0 0.0
CRE298AB	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 2.0 2.0 0.0
CRE298AC	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 3.0 3.0 0.0
CRP101	Orientation - Carpenter Apprenticeship	Fundamental trade skills, employee-employer roles and responsibilities, and safe work practices needed for entry level performance in the construction industry. Emphasis on attaining standard industry safety credentials, practical experience using construction terminology, math and basic measuring techniques. Training for job site hazard recognition, accident prevention, safe tool and equipment operation.	Prerequisites: Apprentice status or permission of the Apprenticeship Coordinator.	L+L 3.0 3.0 3.0

CRP102	Safety/Health Certifications for Carpentry - Carpenter Apprenticeship	Promotes hand/power tool and equipment skill development for various construction applications. Scaffold building and equipment operating procedures will also be covered. Financial and life skills will be presented to help survive in the construction industry. Upon successful completion, students will be issued United Brotherhood of Carpenters (UBC) Scaffold Erector-Welded Frame Qualification Card.	Prerequisites: Apprentice status or permission of the Apprenticeship Coordinator.	L+L 3.0 3.0 3.0
CRP102AI	Concrete Formwork: Concrete Stair Forms	Building stair forms from shop drawings; basic terminology related to stair form construction	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	L+L 1.0 1.5 1.5
CRP102AJ	Tilt-Up Construction I - Carpenter Apprenticeship	Building a form for a tilt-up slab for commercial structures complete with all necessary inserts and block-outs for openings.	Prerequisites: Apprentice status or permission of the Apprenticeship Coordinator.	L+L 1.0 1.5 1.5
CRP102AN	Concrete Formwork: Culverts, Headwall and Wingwalls	Box culvert design, form systems, areas, volumes and pressures. Culvert headwall, side walls and wingwall forms using a single and double whaler assembly. Concrete industry nomenclature.	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	LEC 2.0 2.0 2.0
CRP102AP	Concrete Formwork: Gang Forms	Building and plumbing a section of gang form using a standard whaler system complete with all the necessary components and hardware	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	L+L 1.0 1.5 1.5
CRP103	Tool and Equipment Applications - Carpenter Apprenticeship	Safe and appropriate use of fall protection and emergency response procedures. Tool applications presented in this training will provide opportunities for tool skill mastery and equipment operation.	Prerequisites: Apprentice status or permission of the Apprenticeship Coordinator.	L+L 3.0 3.0 3.0
CRP103AI	Framing: Wood Stairs	Building a set of stairs consisting of two flights and a landing from a given set of working drawings	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	L+L 1.0 1.5 1.5
CRP104	Basic Wall Framing - Carpenter Apprenticeship	Theory, methods, and procedures required to frame basic walls. Hands-on practice using proper tool techniques and appropriate materials. Introduction to print reading, basic wall layout, plating procedures, framing assembly and bracing.	Prerequisites: Apprentice status or permission of the Apprenticeship Coordinator.	L+L 3.0 3.0 3.0
CRP105AC	Interior Finish: Running Trim	Building a small frame trimmed out with a variety of moldings according to a set of shop drawings	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	L+L 1.0 1.5 1.5
CRP105AG	Interior Finish: Door Hardware	Installation of door hardware including knob, latch, strike plate, hinge butts, and door closer.	Prerequisites: Registered Apprentice Status and a grade of C or better in CRP105AA or permission of the Apprenticeship Coordinator.	L+L 1.0 1.5 1.5

CRP105AI	Interior Finish: Metal Partitions	Assembling metal partition unit complete with all panels and hardware	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	L+L 1.0 1.5 1.5
CRP105AJ	Interior Finish: Soffit Panel	Building a soffit panel with trim and detailed projections as shown on a set of shop drawings	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	L+L 1.0 1.5 1.5
CRP106AA	Interior Systems: Metal Frame Walls	Tools, materials, components and erection procedures of metal frame walls and soffits as shown per shop drawings	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	L+L 1.0 1.5 1.5
CRP106AB	Interior Systems: Dry Wall Application	Tools, materials and installation procedures for dry wall application.	Prerequisites: Registered Apprentice Status and a grade of C or better in CRP106AA or permission of the Apprenticeship Coordinator.	L+L 1.0 1.5 1.5
CRP106AH	Interior Systems: Dry Wall Estimation of Material	Reading and interpreting blueprints and shop drawings to estimate the amount of material needed for a dry wall project	Prerequisites: Registered apprentice status or permission of the Apprenticeship Coordinator.	L+L 1.0 1.5 1.5
CRP106AK	Interior Systems: Suspended Lay-In Ceilings - Carpenter Apprenticeship	Tools, materials, components, and erection procedures for suspended lay-in ceilings	Prerequisites: Registered Apprentice status or permission of the Apprenticeship Coordinator.	L+L 1.0 1.5 1.5
CRP108	Moldings and Trim - Carpenter Apprenticeship	Course covers how moldings and trims are utilized to finish exterior and interior construction design features.	Prerequisites: Apprentice status or permission of the Apprenticeship Coordinator.	L+L 3.0 3.0 3.0
CRP110AA	Introduction to Carpentry I: History and Tools	History, significance and benefits of labor unions. Successful and efficient labor relations. Carpentry in relation to other construction trades. Building trades organizations. Components of lumber. Hand and power tools used in carpentry.	Prerequisites: Registered Apprentice status with the Central Arizona Carpenters Joint Apprenticeship Training Committee or permission of Apprenticeship Coordinator.	LEC 2.0 2.0 2.0
CRP110AB	Introduction to Carpentry II: OSHA Safety	Safe and proper use of hand and power tools. Safe work habits, first aid, and cardiopulmonary resuscitation (CPR) according to Occupational Safety and Health Administration (OSHA) regulations.	Prerequisites: Registered Apprentice status with the Central Arizona Carpenters Joint Apprenticeship Training Committee or permission of Apprenticeship Coordinator.	LEC 2.0 2.0 2.0
CRP113	Basic Roof Framing - Carpenter Apprenticeship	Introduction to basic gable roof framing, terminology, characteristics, and construction methods. Interpretation of print views and drawing elevations for job planning, rafter systems, and layout details. Review of basic rise, run, rafter angles, and length calculations. Framed wall construction to facilitate gable roof assembly techniques.	Prerequisites: Apprentice status or permission of the Apprenticeship Coordinator.	L+L 3.0 3.0 3.0
CRP114AA	Blueprint Reading for Carpenters I	Types of blueprints and basic print reading. Symbols for materials. Construction details, standards, and specifications for brick veneer. Steel supports of plans for stores and apartments.	Prerequisites: Registered Apprentice status with the Central Arizona Carpenters Joint Apprenticeship Training Committee or	LEC 2.0 2.0 2.0

			permission of Apprenticeship Coordinator.	
CRP116AA	Concrete Formwork I	Construction and installation techniques. Building site and layout factors. Parts of forms and related hardware. Function of concrete form work in walls, columns, beams, decks and retaining walls. Wall forms and prefabricated walls. Residential foundations.	Prerequisites: Registered apprentice status or permission of Apprenticeship Coordinator.	LEC 2.0 2.0 2.0
CRP116AB	Concrete Formwork II	Construction and installation techniques. Elements of flatwork construction	Prerequisites: A grade of C or better in CRP116AA.	LEC 2.0 2.0 2.0
CRP121	Print Reading for Carpenters - Carpenter Apprenticeship	Introduction to print reading skills for carpenters. Developing ability to interpret two-dimensional views, standard drawing methods, pictorial elements, visual and verbal communication cues. Recognizing parts of drawings, locating building and insulation features, calculating dimensions, and using views to determine construction methods.	Prerequisites: Apprentice status or permission of the Apprenticeship Coordinator.	L+L 3.0 3.0 3.0
CRP123	Wall Forming - Carpenter Apprenticeship	Skills and procedures for forming reinforced concrete walls using single and double waler systems. Characteristics and application of built-in-place, prefabricated and specialty forms, wall forming, calculating layout dimensions and estimating. Overview of wall panel forming reinforcement methods, material preparation and hardware installation.	Prerequisites: Apprentice status or permission of the Apprenticeship Coordinator.	L+L 3.0 3.0 3.0
CRP124	Foundations and Flatwork - Carpenter Apprenticeship	Design and function of several types of foundations and concrete flatwork. Overview of methods, techniques and procedures for formwork layout, elevation, and construction including jobsite safety, print interpretation, material identification and basic use of builders' level.	Prerequisites: Apprentice status or permission of the Apprenticeship Coordinator.	L+L 3.0 3.0 3.0
CRP130	Basic Commercial Framing - Carpenter Apprenticeship	Introduction to basic rake wall framing theory and commercial construction techniques and materials.	Prerequisites: Apprentice status or permission of the Apprenticeship Coordinator.	L+L 2.0 2.0 2.0
CRP131	Commercial Floor Framing - Carpenter Apprenticeship	Course covers floor joist construction and the various installation techniques used in the commercial industry.	Prerequisites: Apprentice status or permission of the Apprenticeship Coordinator.	L+L 3.0 3.0 3.0
CRP150	Acoustical Ceilings - Carpenter Apprenticeship	Introduction to basic acoustical ceiling installation in accordance with industry standards and utilizing proper techniques and procedures. Acoustical engineering and applicable building and seismic code requirements.	Prerequisites: Admission into the Southwest Carpenters Training Fund (SWCTF) Registered Apprenticeship program and permission of the GateWay Apprenticeship Office.	L+L 3.0 3.0 3.0
CRP151	Standard Acoustical Grids - Carpenter Apprenticeship	Grid patterns considered standard for acoustical ceilings in the interior system construction industry. Methods and procedures used to form patterns.	Prerequisites: Admission into the Southwest Carpenters Training Fund (SWCTF) Registered	L+L 3.0 3.0 3.0

		Students install several standard acoustical grid patterns to print specifications using proper techniques and procedures.	Apprenticeship program and permission of the GateWay Apprenticeship Office.	
CRP152	Acoustical Soffits - Carpenter Apprenticeship	Construction of acoustical soffits in various configurations. Square and slant-faced, tapered, concealed, drywall suspension, and sloped soffits methods. Students complete selected acoustical soffit installation.	Prerequisites: Admission into the Southwest Carpenters Training Fund (SWCTF) Registered Apprenticeship program and permission of the GateWay Apprenticeship Office.	L+L 3.0 3.0 3.0
CRP153	Concealed Glue-Up/Staple-Up System - Carpenter Apprenticeship	Concealed and semi-concealed ceilings and soffits, glue-up and staple-up systems, and their design flexibility. Students employ glue-up/staple-up techniques to install a concealed grid ceiling system.	Prerequisites: Admission into the Southwest Carpenters Training Fund (SWCTF) Registered Apprenticeship program and permission of the GateWay Apprenticeship Office.	L+L 3.0 3.0 3.0
CRP154	Metal Pan and Security Systems - Carpenter Apprenticeship	Design, function, and installation of metal pan and security systems incorporated into construction of suspended ceilings. Students install components to create a monolithic appearance in a suspension ceiling grid system.	Prerequisites: Admission into the Southwest Carpenters Training Fund (SWCTF) Registered Apprenticeship program and permission of the GateWay Apprenticeship Office.	L+L 3.0 3.0 3.0
CRP160	Basic Lathing - Carpenter Apprenticeship	Advanced methods and application techniques for lath and trim products. Basic framing and lathing methods used for exterior/interior installations. Exterior waterproofing, lath, and trim installation procedures. Students complete an exterior lathing project.	Prerequisites: Admission into the Southwest Carpenters Training Fund (SWCTF) Registered Apprenticeship program and permission of the GateWay Apprenticeship Office.	L+L 3.0 3.0 3.0
CRP163	Framing Ceilings and Soffits - Carpenter Apprenticeship	Materials and their application for various types of fire-rated walls, ceilings, and soffits. Methods and procedures used for layout and template development. Drywall and trim applications. Types of tools and their associated safety, applied math, and print reading fundamentals. Students complete a ceiling and soffit project.	Prerequisites: Admission into the Southwest Carpenters Training Fund (SWCTF) Registered Apprenticeship program and permission of the GateWay Apprenticeship Office.	L+L 3.0 3.0 3.0
CRP164	Basic Hand Finishing - Carpenter Apprenticeship	Basic hand finishing skills using correct tools and materials. Terminology and description of finishing levels, hand tool manipulation techniques, material identification, and selection criteria. Manufacturer's guidelines for environmental conditions, proper mixture preparation, and use. Typical finish issues, causes, and solutions frequently employed. Tool techniques and application sequence explained and demonstrated. Importance of mixture consistency and proper coating sequence during level four hand finishing exercises.	Prerequisites: Admission into the Southwest Carpenters Training Fund (SWCTF) Registered Apprenticeship program and permission of the GateWay Apprenticeship Office.	L+L 3.0 3.0 3.0
CRP165	Framing Curves and Arches - Carpenter Apprenticeship	Framing methods for curves and arches and their related structural limitations. Various wall and ceiling types, layout	Prerequisites: Admission into the Southwest Carpenters Training Fund	L+L 3.0 3.0 3.0

		principles, and materials used for each. Lath applications and trim. Students complete a framing project including curves and arches.	(SWCTF) Registered Apprenticeship program and permission of the GateWay Apprenticeship Office.	
CRP166	Automatic Finishing Tools - Carpenter Apprenticeship	Basic automatic tool techniques and finish schedule interpretation. Hands-on instruction with machine tools and the importance of proper use, assembly, and breakdown. Basic maintenance and repair techniques and safe handling demonstration. Sanding selections will be reviewed.	Prerequisites: Admission into the Southwest Carpenters Training Fund (SWCTF) Registered Apprenticeship program and permission of the GateWay Apprenticeship Office.	L+L 3.0 3.0 3.0
CRP167	Exterior Insulation Finish Systems - Carpenter Apprenticeship	Introduction to exterior insulation finish systems including terminology, definitions, specifications, and properties. Reinforcing mesh installation and application of insulation board. Application methods and techniques for primers and finishes. Students complete an exterior insulation finishing system (EIFS) installation project.	Prerequisites: Admission into the Southwest Carpenters Training Fund (SWCTF) Registered Apprenticeship program and permission of the GateWay Apprenticeship Office.	L+L 3.0 3.0 3.0
CRP202	Basic Stairs - Carpenter Apprenticeship	Introduction to stair framing theory, terminology, and construction techniques.	Prerequisites: Apprentice status or permission of the Apprenticeship Coordinator.	L+L 3.0 3.0 3.0
CRP207	Solar Installer Level I - Carpenter Apprenticeship	Design and installation of several types of solar panel systems. Methods, sequences, and procedures for layout, assembly, mounting, and elevating/positioning for solar array construction will be presented. Upon successful completion, students will receive a United Brotherhood of Carpenters (UBC) Solar Installer Level 1 Qualification Card.	Prerequisites: Apprentice status or permission of the Apprenticeship Coordinator.	L+L 2.0 2.0 2.0
CRP210AA	Basic Framing I	Construction and installation techniques. Floor framing and layout plate for specific spacing.	Prerequisites: Registered apprentice status or permission of Apprenticeship Coordinator.	LEC 2.0 2.0 2.0
CRP210AB	Basic Framing II	Construction and installation techniques. Factors of weight, stress, tension, and compression. Truss connectors, bracing, and anchors. Gable, gambrel, hip, and shed roofs. Dormers. Intersecting roof. Roof trusses. Exterior deck. Fasteners, and connectors, and foundations	Prerequisites: A grade of C or better in CRP210AA.	LEC 2.0 2.0 2.0
CRP211	Storefront Installations - Carpenter Apprenticeship	Installation process from constructing storefront openings to putting glass components into commercial storefront metal framing. An emphasis will be placed on print interpretation, window and door schedules, symbols, and material recognition.	Prerequisites: Apprentice status or permission of the Apprenticeship Coordinator.	L+L 3.0 3.0 3.0
CRP212AA	Scaffolding for Carpenters	Occupational Safety and Health Administration (OSHA) regulations for system scaffolding. Terminology, assembly procedures, platform safety and access, and dismantling of	Prerequisites: Registered Apprentice status with the Central Arizona Carpenters Joint Apprenticeship Training Committee or	LEC 2.0 2.0 2.0

		scaffolding. Scaffolding framework to include braces, tie-ins, and guylines.	permission of Apprenticeship Coordinator.	
CRP212AB	Level, Transit and Layout	Terminology, types, parts, handling, set up, care, storage, transport, and use of leveling instruments. Leveling rods, leveling operations, vernier scales, linear and angular measurement. Conventional system of measurement. Builder's level and transit level. Simulated fieldwork exercises.	Prerequisites: Registered Apprentice status with the Central Arizona Carpenters Joint Apprenticeship Training Committee or permission of Apprenticeship Coordinator.	LEC 2.0 2.0 2.0
CRP212AC	Rigging - Carpenter Apprenticeship	Lifting theory and practical rigging methods and procedures. Rigging attachment procedures, lifting equipment, limits of operation, and communication practices will be covered.	Prerequisites: Apprentice status or permission of the Apprenticeship Coordinator.	LEC 2.0 2.0 2.0
CRP214AA	Drywall Applications - Carpenter Apprenticeship	History, advantages, and applications of drywall and wall framing. Drywall products and wall framing for interior partition work. Safe tool use and jobsite safety. Blueprints, specifications, and layout. Standard framing for partitions. Drywall installation on metal framework. Suspended ceiling systems. Commercial and residential installation for fire resistance, sound control, and safety.	Prerequisites: Apprentice status or permission of the Apprenticeship Coordinator.	LEC 2.0 2.0 2.0
CRP214AC	Interior Finish: Door Installation and Hardware	Terms, tools, types of doors and door hardware. Installation procedures for doors and door hardware. Fabrication and installation of jam and trip components.	Prerequisites: Registered apprentice status or permission of Apprenticeship Coordinator.	LEC 2.0 2.0 2.0
CRP214AD	Cabinets and Tops	Fundamentals, terms, tools, safety. Types of wood and glue. Case construction: joints, layout, cutting, assembly. Hardware, plastic laminates, completed cabinets, completed tops. Installation procedures.	Prerequisites: Registered apprentice status or permission of Apprenticeship Coordinator.	LEC 2.0 2.0 2.0
CRP215	Drywall/Acoustical Ceilings - Carpenter Apprenticeship	Materials and methods used for acoustical ceilings combined with drywall installation. Seismic codes, materials, and construction requirements reviewed. Green building rating systems applied to selected acoustical and drywall materials. Installation for various grid systems. Students complete a drywall acoustical ceiling project.	Prerequisites: Admission into the Southwest Carpenters Training Fund (SWCTF) Registered Apprenticeship program and permission of the GateWay Apprenticeship Office.	L+L 3.0 3.0 3.0
CRP216	Designer and Specialty Trims - Carpenter Apprenticeship	Specialty skills to produce a professionally finished edge for designer ceiling installations. Techniques used to produce multiple ceiling variations using the Compresso trim system.	Prerequisites: Admission into the Southwest Carpenters Training Fund (SWCTF) Registered Apprenticeship program and permission of the GateWay Apprenticeship Office.	L+L 3.0 3.0 3.0
CRP217	Drywall Installation/Finish Trims - Carpenter Apprenticeship	Introduction to drywall handling methods, applications, and recommended levels of drywall finish to achieve desired aesthetics. Emphasis	Prerequisites: Admission into the Southwest Carpenters Training Fund (SWCTF) Registered	L+L 3.0 3.0 3.0

		placed on trim attachment and finishing techniques. Identification of various types of finish trim. Students demonstrate proficiency in the proper use of automatic taping tools.	Apprenticeship program and permission of the GateWay Apprenticeship Office.	
CRP221	Advanced Print Reading - Carpenter Apprenticeship	Analyze multi-view drawings to determine construction type. Locate benchmark and building elements. Review codes, references, and perform calculations for construction/insulation planning.	Prerequisites: Apprentice status or permission of the Apprenticeship Coordinator.	L+L 2.0 2.0 2.0
CRP222	Bridge Construction - Carpenter Apprenticeship	Overview of basic bridge construction including exterior and interior girders, edge forms, bulkheads, and hinge forms. Job-built and precast formwork methods, panel construction, assembly, and hardware installation tasks. Review of related safety, math, and print reading.	Prerequisites: Apprentice status or permission of the Apprenticeship Coordinator.	L+L 3.0 3.0 3.0
CRP226	Air, Moisture, and Thermal Barriers - Carpenter Apprenticeship	Increasing building envelope energy efficiency using correctly installed air, moisture, and thermal barrier systems. Hands-on installation exercises using building sealing products.	Prerequisites: Admission into the Southwest Carpenters Training Fund (SWCTF) Registered Apprenticeship program and permission of the GateWay Apprenticeship Office.	L+L 3.0 3.0 3.0
CRP227	Green Building and Weatherization - Carpenter Apprenticeship	Explanation of building envelope science. Audit procedures, discuss testing and reporting mechanisms used to measure inefficiencies. Course provides novice workers with fundamental skills to properly install the beneficial "green" and cost-effective, energy-efficient retrofits for residential buildings.	Prerequisites: Apprentice status or permission of the Apprenticeship Coordinator.	L+L 2.0 2.0 2.0
CRP228	Water Treatment Facilities - Carpenter Apprenticeship	Instruction in the detailing, layout, and construction of concrete formwork and waterstop used in water treatment facilities.	Prerequisites: Apprentice status or permission of the Apprenticeship Coordinator.	L+L 3.0 3.0 3.0
CRP232	Stair and Ramp Forming - Carpenter Apprenticeship	Methods, procedures and practices used to form stair and ramp structures including configuration and dimensions. Review of Stinger riser and stair thread calculations, state and federal building codes.	Prerequisites: Apprentice status or permission of the Apprenticeship Coordinator.	L+L 3.0 3.0 3.0
CRP233	Basic Metal Framing - Carpenter Apprenticeship	Overview of residential metal framing theory and construction techniques. Interpretation of prints for job planning and estimation of materials. Layout and detail of wall plates, measuring techniques, calculating principles, wall and roof assembly and installation techniques.	Prerequisites: Apprentice status or permission of the Apprenticeship Coordinator.	L+L 3.0 3.0 3.0
CRP234	Transit Level/Laser - Carpenter Apprenticeship	Detailing, layout and construction of abutments used in the heavy highway industry. Overview of assembly components, key terms and abutment anatomy; footings; piers and retaining walls. Techniques for laying out keyway	Prerequisites: Apprentice status or permission of the Apprenticeship Coordinator.	L+L 3.0 3.0 3.0

		centerline and footing formwork construction.		
CRP235	Advanced Metal Framing - Carpenter Apprenticeship	Review of basic metal framing. Detailed procedures for framing curved, serpentine, and elliptical non-load-bearing partitions. Use of standard light gage components and other materials. Project emphasizing advanced techniques to expedite work processes.	Prerequisites: Admission into the Southwest Carpenters Training Fund (SWCTF) Registered Apprenticeship program and permission of the GateWay Apprenticeship Office.	L+L 3.0 3.0 3.0
CRP241	Gang Forms/Columns	Formwork types, applications and construction methods for gang and column forms using built and manufactured forming systems. Heavy timber gang forms and use of taper ties, bracing, and bulkhead tables.	Prerequisites: Registered Apprentice status with the Central Arizona Carpenters Joint Apprenticeship Training Committee or permission of Apprenticeship Coordinator.	L+L 3.0 3.0 3.0
CRP242	Doors/Door Hardware - Carpenter Apprenticeship	Installation process for several types of security and exit door hardware. Print interpretation, codes, door schedules, symbols, and hardware recognition.	Prerequisites: Apprentice status or permission of the Apprenticeship Coordinator.	L+L 3.0 3.0 3.0
CRP243	Scaffold Erector Qualification	Safety and terminology related to scaffold built applications, elevated platform use, span and loading criteria, access and egress, stability, and structural connections and inspections. Project drawing review for locating dimensions, determining layout and scaffold material requirements. Erection/dismantling sequence for the development of job planning, preparation skills and applied math.	Prerequisites: Registered Apprentice status with the Central Arizona Carpenters Joint Apprenticeship Training Committee or permission of Apprenticeship Coordinator.	L+L 3.0 3.0 3.0
CRP244	Cabinet Installation - Carpenter Apprenticeship	Cabinet installation from establishing the design layout to attaching countertops. Print interpretation, job planning, scribing techniques, and proper installation sequence.	Prerequisites: Apprentice status or permission of the Apprenticeship Coordinator.	L+L 3.0 3.0 3.0
CRP250	Prefab/Sound Panels - Carpenter Apprenticeship	Basic description of acoustical effectiveness of prefabricated sound panels. Planning, location, and installation of ceiling and wall panels.	Prerequisites: Admission into the Southwest Carpenters Training Fund (SWCTF) Registered Apprenticeship program and permission of the GateWay Apprenticeship Office.	L+L 3.0 3.0 3.0
CRP251	Advanced Acoustical Ceilings Layout - Carpenter Apprenticeship	Advanced layout methods used to complete accent acoustical ceiling installations. Seismic codes and hanger requirements. Layout techniques for establishing geometric designs. Students complete acoustical ceiling layout projects.	Prerequisites: Admission into the Southwest Carpenters Training Fund (SWCTF) Registered Apprenticeship program and permission of the GateWay Apprenticeship Office.	L+L 3.0 3.0 3.0
CRP252	Advanced Acoustical Ceiling Installations - Carpenter Apprenticeship	Identifying materials and methods used for the advanced installation of acoustical ceilings. Installation for custom and intricate grid systems. Green building rating systems applied to selected acoustical materials. Students complete a complex acoustical ceiling project.	Prerequisites: Admission into the Southwest Carpenters Training Fund (SWCTF) Registered Apprenticeship program and permission of the GateWay Apprenticeship Office.	L+L 3.0 3.0 3.0

CRP253	Framing Curves and Arches - Carpenter Apprenticeship	Framing methods for curves and arches and their related structural limitations. Identifying various wall and ceiling types and layout principles and materials used for each. Lath applications and trim. Students complete a framing project that includes curves and arches.	Prerequisites: Admission into the Southwest Carpenters Training Fund (SWCTF) Registered Apprenticeship program and permission of the GateWay Apprenticeship Office.	L+L 3.0 3.0 3.0
CRP255	Fire Stopping/Fire Proofing Procedures - Carpenter Apprenticeship	Methods, technical skills, and fire stopping/fire proofing materials used to meet industry code requirements. Students apply and test fire stopping/fire proofing materials in a controlled environment.	Prerequisites: Admission into the Southwest Carpenters Training Fund (SWCTF) Registered Apprenticeship program and permission of the GateWay Apprenticeship Office.	L+L 3.0 3.0 3.0
CRP260	Advanced Lathing - Carpenter Apprenticeship	Advanced skills for the interior/exterior application of lathing materials. Wall anatomy terminology, applicable codes, lathing materials, and waterproofing methods. Includes key discussions to draw attention to typical installation issues, causes, and solutions frequently employed to correct flaws. Detailed project drawing review, providing practical experience for design analysis, material requirement, and code assessment. Emphasis on construction sequence will foster the development of job planning, preparation, and applied math skills. Importance of applicable building codes, tool use, safety, accuracy, construction sequence, and proper use of waterproofing techniques will be stressed during lathing exercises.	Prerequisites: Admission into the Southwest Carpenters Training Fund (SWCTF) Registered Apprenticeship program and permission of the GateWay Apprenticeship Office.	L+L 3.0 3.0 3.0
CRP261	Free-Form Lathing - Carpenter Apprenticeship	Comprehensive study of the theory and techniques used for development of freeform lathing projects. Students interpret gridline drawings, lay out and build lath cage work, and apply the appropriate lath(s) to achieve the desired or designed form or structure.	Prerequisites: Admission into the Southwest Carpenters Training Fund (SWCTF) Registered Apprenticeship program and permission of the GateWay Apprenticeship Office.	L+L 3.0 3.0 3.0
CRP263	Ceiling and Soffit Finishing - Carpenter Apprenticeship	Advanced level of finishing skills for applications with architecturally detailed ceilings and soffits. Determining type and quantity of materials for various designs and differentiating between levels of finish. Guided practice with a combination of hand and automatic tool techniques, promoting manipulative ability required for a successful result. Variety of finish trims integrated into each method of finish. Inspection criteria for evaluating finish levels.	Prerequisites: Admission into the Southwest Carpenters Training Fund (SWCTF) Registered Apprenticeship program and permission of the GateWay Apprenticeship Office.	L+L 3.0 3.0 3.0
CRP264	Advanced Hand Finishing - Carpenter Apprenticeship	Advanced methods and applications using hand tool techniques. Proper sequence of operation, phases, and materials to be used in order to produce a higher-level finished product to industry standards. Curved and radius wall characteristics for finish levels. Wall	Prerequisites: Admission into the Southwest Carpenters Training Fund (SWCTF) Registered Apprenticeship program and permission of the GateWay Apprenticeship Office.	L+L 3.0 3.0 3.0

		frame components, materials used, surface preparation, and application methods. Students complete a project to a level five standard.		
CRP267	Wet Wall Finishes - Carpenter Apprenticeship	Industry methods, mediums, and typical applications of wet wall finishes. Includes terminology and description of industry standard finishing levels, application tool types and techniques, and material identification and selection. Manufacturer's guidelines highlighting the environmental conditions for proper mixture preparation and use. Key discussions drawing attention to typical finish issues, causes, and solutions frequently employed. Emphasis on the selection and use of low volatile organic compounds (VOC) products. Importance of mixture consistency and proper coating sequence during wet wall finishing exercises.	Prerequisites: Admission into the Southwest Carpenters Training Fund (SWCTF) Registered Apprenticeship program and permission of the GateWay Apprenticeship Office.	L+L 3.0 3.0 3.0
CRP268	Decorative Trims - Carpenter Apprenticeship	Advanced hand and automatic tool finishing techniques used to apply decorative trims. Product information for metal, paper, plastics, and art beads. Special attention given to coating and sanding sequence of selected specialty trim installations and waste reduction.	Prerequisites: Admission into the Southwest Carpenters Training Fund (SWCTF) Registered Apprenticeship program and permission of the GateWay Apprenticeship Office.	L+L 3.0 3.0 3.0
CRP280	Total Station (Robotics) - Carpenter Apprenticeship	Terminology, optical principles, and operating procedures for transit and laser levels. Students will set up levels, determine benchmarks, and take and record elevation readings.	Prerequisites: Admission into the Southwest Carpenters Training Fund (SWCTF) Registered Apprenticeship program and permission of the GateWay Apprenticeship Office.	L+L 3.0 3.0 3.0
CRP296WA	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. COMMON COMPETENCY COURSE	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and be able to obtain a position related to students academic or career goals (students present job may qualify or permission of instructor Corequisites: Must be concurrently enrolled in at least one class which is related to students major or career interest or with permission of Instructor.	LAB 1.0 5.0 0.0
CRP296WB	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. 		atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE		
CRW120	Introduction to Writing Children's Literature	Overview of writing children's literature. Emphasis on genres and standards for quality. Development of techniques in reading, evaluating, writing, revising, and editing literature written for children ENH291 suggested but not required	Prerequisites: None, ENH291 suggested but not required.	LEC 3.0 3.0 3.0
CRW150	Introduction to Creative Writing	Introduction to the basic aesthetics and techniques in contemporary creative writing within a variety of genres. Introduction to the analytical concepts and terminology necessary to understand, interpret, and enact contemporary creative writing. Facilitation of writing practices and evaluation. Introduction to literature's role in society.	Prerequisites: None.	LEC 3.0 3.0 3.0
CRW160	Introduction to Writing Poetry	Prewriting (invention and discovery); writing; analyzing and evaluating (in workshop); and revising to practice manipulating various elements of poetry, critique one's own and the poetry of others, and produce a portfolio of finished, marketable poems .	Prerequisites: None. CRW150 recommended but not required.	LEC 3.0 3.0 3.0
CRW161	Focused Topics in Writing: Poetry	Analysis, writing, and revision of genre or elements within poetry.	Prerequisites: None. CRW150 suggested but not required.	LEC 1.0 1.0 1.0
CRW170	Introduction to Writing Fiction	Practice in writing fiction through a process of prewriting (invention and discovery), writing, analysis and evaluation (in workshop), and revision; practice in manipulating various elements and forms of fiction.	Prerequisites: None. CRW150 recommended but not required.	LEC 3.0 3.0 3.0
CRW172	Introduction to Comic Book Writing	Introduction to elements and techniques of comic book writing in its specific form; teaches terminology and concepts needed for the successful participation in writing workshops; focuses on proposal outline, planning, structure facilitates writing practice (including character study) and evaluation; offers individual suggestions in the student's development in this genre.	Prerequisites: None.	LEC 3.0 3.0 3.0
CRW176	Writing Narrative for Video Games	Provides an introduction to narrative theory as it relates to video game production. Delivers a variety of video game storylines, narrative theories, and processes for narrative development in video games. Terminology and video game industry standards are covered.	Prerequisites: None.	LEC 3.0 3.0 3.0

		Offers discussion of team building and the role of video games in society.		
CRW180	Introduction to Writing Nonfiction	Practice in writing creative nonfiction, including autobiography and biography, the essay, reviews, and humor using a process of invention and discovery, writing, analysis, evaluation, and revision. Combines lecture, discussion, and workshop, leading to the production of marketable quality creative nonfiction.	Prerequisites: None. CRW150 recommended but not required.	LEC 3.0 3.0 3.0
CRW190	Introduction to Screenwriting	Overview of screenwriting elements; introduction to screenwriting techniques CRW150 recommended but not required.	Prerequisites: None. CRW150 recommended but not required.	LEC 3.0 3.0 3.0
CRW191	Focused Topics in Writing: Plays	Analysis, writing, and revision of genre or elements within plays and/or motion picture screenplays.	Prerequisites: None. CRW150 suggested but not required.	LEC 1.0 1.0 1.0
CRW200	Readings for Writers	Close analysis and interpretation of selected literary texts designed to strengthen the students' own writing by extending their familiarity with the genre in which they write and their knowledge of selected literary elements. One-on-one meetings between student and instructor.	Prerequisites: A grade of C or better in RW150 or permission of Instructor.	LAB 1.0 1.0 0.0
CRW201	Portfolio	Close analysis of the creative writing portfolio culminating in selection, revision, editing, and compiling of the student's own literary work in a portfolio. Students meet individually with instructor to choose, prepare, and compile their work.	Prerequisites: (Acceptance into Creative Writing Certificate Program and completion of at least nine (9) credit hours in creative writing (CRW)), or permission of Program Director.	LAB 1.0 1.0 0.0
CRW202	The Writer as Witness	Studio course focusing on writing with the writer as witness of the world: pre-writing, writing, analysis, evaluation, and writing of monologue and dialogue in various formats	Prerequisites: A grade of C or better in CRW150 or permission of Instructor.	LEC 3.0 3.0 3.0
CRW203	Dialogue	Studio course focusing on writing dialogue in a variety of genres; prewriting, writing, analysis, evaluation, and writing of monologue and dialogue in various formats	Prerequisites: A grade of C or better in CRW150 or permission of Instructor.	LEC 3.0 3.0 3.0
CRW204	Journaling	Studio course focusing on journal writing	Prerequisites: A grade of C or better in CRW150 or permission of Instructor.	LEC 3.0 3.0 3.0
CRW220	Intermediate Writing Children's Literature	Application of techniques in writing literature for children. Emphasis on independent writing, self-evaluation, and revision. Includes completion of a major writing project of marketable quality	Prerequisites: A grade of C or better in CRW120 or permission of Instructor.	LEC 3.0 3.0 3.0
CRW251	Topics in Creative Writing	Analysis, writing, and revision focused on a selected element applicable to all genres of creative writing.	Prerequisites: None. CRW150 recommended.	LEC 3.0 3.0 3.0
CRW260	Intermediate Poetry Writing	Emphasis on writing a series of original poems; analysis and evaluation of the functions and effects of established works of poetry; concentration on	Prerequisites: A grade of C or better in CRW160 or permission of Instructor.	LEC 3.0 3.0 3.0

		evaluation and revising students' poetry through intensive workshopping.		
CRW261	Topics in Writing: Poetry	Analysis, writing, and revision of genre or element within poetry	Prerequisites: A grade of C or better in CRW150 or permission of Instructor.	LEC 3.0 3.0 3.0
CRW270	Intermediate Fiction Writing	Writing original short stories; analysis of works of fiction; concentration on revising students' fiction through intensive workshopping.	Prerequisites: A grade of C or better in CRW170.	LEC 3.0 3.0 3.0
CRW271	Topics in Writing: Fiction	Analysis, writing, and revision of genre or element within fiction	Prerequisites: A grade of C or better in CRW150 or permission of Instructor.	LEC 3.0 3.0 3.0
CRW272	Planning and Structuring the Novel	Focus on planning, structuring, and beginning a novel; prewriting, writing, analysis, evaluation, and revision of novel plans and excerpts	Prerequisites: A grade of C or better in CRW150 or permission of Instructor.	LEC 3.0 3.0 3.0
CRW273	Writing the Novel	Provides the beginning novelist with structure, support, and guidance vital to sustained writing; focus on establishing goals and using critique sessions with instructor and peers to draft a novel; open- and topic-focused in-class forums, novel writing, peer and instructor critiques	Prerequisites: A grade of C or better in CRW272 or permission of Instructor.	LEC 3.0 3.0 3.0
CRW274	Revising the Novel	Studio course workshop format. Requires a complete novel finished, in manuscript, ready for revision and polishing	Prerequisites: A grade of C or better in CRW273 or permission of Instructor.	LEC 3.0 3.0 3.0
CRW281	Topics in Writing: Non-Fiction	Analysis, writing, and revision of genre or element within non-fiction	Prerequisites: A grade of C or better in CRW150 or permission of Instructor.	LEC 3.0 3.0 3.0
CRW290	Intermediate Screenwriting	Drafting and revision of original screenplay; overview of marketing a screenplay	Prerequisites: A grade of C or better in CRW190 or permission of Instructor.	LEC 3.0 3.0 3.0
CRW291	Topics in Writing: Plays	Analysis, writing, and revision of genre or element within plays and/or motion picture screenplays	Prerequisites: A grade of C or better in CRW150 or permission of Instructor.	LEC 3.0 3.0 3.0
CRW298AA	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development.	Prerequisites: Permission of Program Director or Instructor.	LAB 1.0 1.0 0.0
CRW298AB	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized	Prerequisites: Permission of Program Director or Instructor.	LAB 2.0 2.0 0.0

		learning to be combined to maximize student development.		
CRW298AC	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development.	Prerequisites: Permission of Program Director or Instructor.	LAB 3.0 3.0 0.0
CSC100	Introduction to Computer Science (C++)	Concepts of problem solving, structured programming in C++, fundamental algorithms and techniques, and computer system concepts. Social and ethical responsibilities. Intended for majors other than Computer Science.	Prerequisites: A grade of C or better in MAT095 or MAT096 or MAT114 or MAT115 or MAT12+ or an appropriate District placement for MAT15+ or higher or permission of Instructor or Department/Division Chair.	L+L 3.0 3.0 3.0
CSC100AA	Introduction to Computer Science (C++)	Concepts of problem solving, structured programming in C++, fundamental algorithms and techniques, and computer system concepts. Social and ethical responsibilities. Intended for majors other than Computer Science.	Prerequisites: A grade of C or better in MAT095 or MAT096 or MAT114 or MAT115 or MAT12+ or an appropriate District placement for MAT15+ or higher or permission of Instructor or Department/Division Chair.	L+L 3.0 4.0 4.0
CSC100AB	Introduction to Computer Science (C++)	Concepts of problem-solving, structured programming in C++, fundamental algorithms and techniques, and computer system concepts. Social and ethical responsibilities. Intended for majors other than Computer Science.	Prerequisites: A grade of C or better in MAT095 or MAT096 or MAT114 or MAT115 or MAT12+ or an appropriate District placement for MAT15+ or higher or permission of Instructor or Department/Division Chair.	L+L 4.0 4.0 4.0
CSC110	Introduction to Computer Science (Java)	Concepts of problem-solving, structured and object-oriented programming in Java, fundamental algorithms and techniques and computer system concepts. Social and ethical responsibilities. Intended for Computer Science and Computer Systems Engineering majors.	Prerequisites: A grade of C or better in MAT095 or MAT096 or MAT114 or MAT115 or MAT12+ or an appropriate District placement for MAT15+ or higher or permission of Instructor or Department/Division Chair.	L+L 3.0 3.0 3.0
CSC110AA	Introduction to Computer Science (Java)	Concepts of problem-solving, structured and object-oriented programming in Java, fundamental algorithms and techniques and computer system concepts. Social and ethical responsibilities. Intended for Computer Science and Computer Systems Engineering majors.	Prerequisites: A grade of C or better in MAT095 or MAT096 or MAT114 or MAT115 or MAT12+ or an appropriate District placement for MAT15+ or higher or permission of Instructor or Department/Division Chair.	L+L 3.0 4.0 4.0

CSC110AB	Introduction to Computer Science (Java)	Concepts of problem-solving, structured and object-oriented programming in Java, fundamental algorithms and techniques and computer system concepts. Social and ethical responsibilities. Intended for Computer Science and Computer Systems Engineering majors.	Prerequisites: A grade of C or better in MAT095 or MAT096 or MAT114 or MAT115 or MAT12+ or an appropriate District placement for MAT15+ or higher or permission of Instructor or Department/Division Chair.	L+L 4.0 4.0 4.0
CSC120	Digital Design Fundamentals	Number systems, conversion methods, binary and complement arithmetic, Boolean switching algebra and circuit minimization techniques. Analysis and design of combinational logic, flip-flops, simple counters, registers, ROMs, PLDs, synchronous and asynchronous sequential circuits, and state reduction techniques. Building physical circuits.	Prerequisites: None. Corequisites: CSC100 or CSC110 or permission of Instructor.	L+L 4.0 6.0 6.0
CSC150	Programming in C/C++	Introduction to C and C++ programming. Flow control, functions, pointers, data structures, file handling, and introduction to object-oriented programming	Prerequisites: Permission of Instructor.	L+L 3.0 4.0 4.0
CSC150AA	Programming in C/C++	Introduction to C and C++ programming. Flow control, functions, pointers, data structures, file handling, and introduction to object-oriented programming	Prerequisites: Permission of Instructor.	LEC 4.0 4.0 4.0
CSC180	Computer Literacy	Introduction to computers and technology and their impact on society. Explores technology, current topics in computing, applications and related issues. Students gain fluency in integrating technology to solve problems using computational thinking. Use of application software to create documents, spreadsheets, databases, e-mail and text files, and use of Internet browsers.	Prerequisites: None.	LEC 3.0 3.0 3.0
CSC180AA	Computer Literacy	Introduction to computers and technology and their impact on society. Explores technology, current topics in computing, applications and related issues. Students gain fluency in integrating technology to solve problems using computational thinking. Use of application software to create documents, spreadsheets, databases, e-mail and text files, and use of Internet browsers.	Prerequisites: None.	L+L 3.0 4.0 4.0
CSC180AB	Computer Literacy	Introduction to computers and technology and their impact on society. Explores technology, current topics in computing, applications and related issues. Students gain fluency in integrating technology to solve problems using computational thinking. Use of application software to create documents, spreadsheets, databases,	Prerequisites: None.	LEC 4.0 4.0 4.0

		e-mail and text files, and use of Internet browsers.		
CSC181	Applied Problem Solving with Visual BASIC	Introduction to systematic definition of problems, solution formulation, and testing. Visual BASIC programming language applied to problems in mathematics, science, and business	Prerequisites: None.	LEC 3.0 3.0 3.0
CSC181AA	Applied Problem Solving with Visual BASIC	Introduction to systematic definition of problems, solution formulation, and testing. Visual BASIC programming language applied to problems in mathematics, science, and business	Prerequisites: None.	L+L 3.0 4.0 4.0
CSC181AB	Applied Problem Solving with Visual BASIC	Introduction to systematic definition of problems, solution formulation, and testing. Visual BASIC programming language applied to problems in mathematics, science, and business	Prerequisites: None.	LEC 4.0 4.0 4.0
CSC182	Principles of Programming with C#.NET	Introduction to object-oriented program analysis, design, and development using Visual C#.NET. Includes general concepts, data types, expressions, flow control, methods, classes, arrays, event-driven models, Windows applications, and Web applications	Prerequisites: None.	LEC 3.0 3.0 3.0
CSC182AA	Principles of Programming with C#.NET	Introduction to object-oriented program analysis, design, and development using Visual C#.NET. Includes general concepts, data types, expressions, flow control, methods, classes, arrays, event-driven models, Windows applications, and Web applications	Prerequisites: None.	L+L 3.0 4.0 4.0
CSC185	World Wide Web and Introductory Internet Programming	Organization of and access to information on the Internet. Design, creation and publication of interactive web pages with HTML, multimedia, animated custom graphics, applets and JavaScript programming. Ethical issues, including security and privacy on the World Wide Web	Prerequisites: None.	LEC 3.0 3.0 3.0
CSC185AA	World Wide Web and Introductory Internet Programming	Organization of and access to information on the Internet. Design, creation and publication of interactive web pages with HTML, multimedia, animated custom graphics, applets and JavaScript programming. Ethical issues, including security and privacy on the World Wide Web	Prerequisites: None.	L+L 3.0 4.0 4.0
CSC200	Principles of Computer Science (Java)	Introduction to computer science. Issues and concepts throughout the field, including software development, data organization, machine architecture, algorithmic machines, and ethics in computing. Programming in Java.	Prerequisites: A grade of C or better in CSC110 or (CSC100 or equivalent) and permission of Instructor.	L+L 3.0 3.0 3.0
CSC200AA	Principles of Computer Science (Java)	Introduction to computer science. Issues and concepts throughout the field, including software development, data organization, machine architecture,	Prerequisites: A grade of C or better CSC110 or (CSC100 or equivalent) and permission of instructor).	L+L 3.0 4.0 4.0

		algorithmic machines, and ethics in computing. Programming in Java		
CSC200AB	Principles of Computer Science (Java)	Introduction to computer science. Issues and concepts throughout the field, including software development, data organization, machine architecture, algorithmic machines, and ethics in computing. Programming in Java	Prerequisites: A grade of C or better in CSC110 or (CSC100 or equivalent) and permission of Instructor.	L+L 4.0 4.0 4.0
CSC205	Object Oriented Programming and Data Structures	Covers Object-Oriented design and programming; elementary data structures; arrays; lists; stacks; queues; binary trees; recursion; searching and sorting algorithms.	Prerequisites: A grade of C or better in CSC110 or permission of Instructor.	L+L 3.0 3.0 3.0
CSC205AA	Object Oriented Programming and Data Structures	Covers Object-Oriented design and programming; elementary data structures; arrays; lists; stacks; queues; binary trees; recursion; searching and sorting algorithms.	Prerequisites: A grade of C or better in CSC110 or permission of Instructor.	L+L 3.0 4.0 4.0
CSC205AB	Object Oriented Programming and Data Structures	Covers Object-Oriented design and programming; elementary data structures; arrays; lists; stacks; queues; binary trees; recursion; searching and sorting algorithms.	Prerequisites: A grade of C or better in CSC110 or permission of Instructor.	L+L 4.0 4.0 4.0
CSC205AC	Object Oriented Programming and Data Structures	Covers Object-Oriented design and programming; elementary data structures; arrays; lists; stacks; queues; binary trees; recursion; searching and sorting algorithms.	Prerequisites: A grade of C or better in CSC110 or permission of Instructor.	L+L 4.0 5.0 5.0
CSC205AD	Object Oriented Programming and Data Structures	Covers Object-Oriented design and programming; elementary data structures; arrays; lists; stacks; queues; binary trees; recursion; searching and sorting algorithms.	Prerequisites: A grade of C or better in CSC110 or permission of Instructor.	L+L 4.0 6.0 6.0
CSC210	Data Structures and Algorithms (Java)	Static and dynamic data structures and associated applications; recursive and iterative sorting and searching algorithms; introduction to object oriented design and programming techniques; software engineering methods including design models and implementation/testing strategies; professional responsibilities; Java language.	Prerequisites: A grade of C or better in CSC200.	L+L 3.0 3.0 3.0
CSC210AA	Data Structures and Algorithms (Java)	Static and dynamic data structures and associated applications; recursive and iterative sorting and searching algorithms; introduction to object oriented design and programming techniques; software engineering methods including design models and implementation/testing strategies; professional responsibilities; Java language	Prerequisites: A grade of C or better in CSC200.	L+L 3.0 4.0 4.0
CSC210AB	Data Structures and Algorithms (Java)	Static and dynamic data structures and associated applications; recursive and iterative sorting and searching algorithms; introduction to object oriented design and programming	Prerequisites: A grade of C or better in CSC200.	L+L 4.0 4.0 4.0

		techniques; software engineering methods including design models and implementation/testing strategies; professional responsibilities; Java language.		
CSC220	Programming for Computer Engineering	Introduction to procedural programming (C/C++) and hardware description language (VHDL).	Prerequisites: A grade of C or better in ((EEE120 or CSC120) and CSC205) or permission of Instructor.	L+L 3.0 5.0 5.0
CSC225	Assembly Language Programming on Motorola Microprocessors	Assembly language programming including input/output programming and exception/interrupt handling. Register-level computer organization, I/O interfaces, assemblers, and linkers. Macintosh-based assignments.	Prerequisites: A grade of C or better in (CSC100 or CSC110 or CSC200) and CSC/EEE120 or permission of Instructor.	L+L 4.0 5.0 5.0
CSC230	Computer Organization and Assembly Language	Assembly language programming including input/output (I/O) programming and exception/interrupt handling. Register-level computer organization, I/O interfaces, assemblers, and linkers. Processor organization and design, data path, control, pipelining, and input/output. Memory organization with cache and virtual memory.	Prerequisites: A grade of C or better in [(CSC100 or CSC110) and CSC120 EEE120] or permission of Instructor.	L+L 4.0 5.0 5.0
CSC240	Introduction to Different Programming Languages	Introduction to procedural (C/C++), applicative (LISP), and declarative (Prolog) languages.	Prerequisites: A grade of C or better in CSC205 or permission of Instructor.	L+L 3.0 5.0 5.0
CSC240AA	Introduction to Different Programming Languages	Introduction to procedural (C/C++), applicative (LISP), and declarative (Prolog) languages.	Prerequisites: A grade of C or better in CSC205 or permission of Instructor.	LEC 4.0 4.0 4.0
CSC250	Advanced Programming Using C++	Developing Applications in C++; moving from C to C++ including objects and classes, inheritance, polymorphism and data abstraction	Prerequisites: A grade of C or better in CSC150 or permission of Instructor.	L+L 3.0 5.0 5.0
CSC250AA	Advanced Programming Using C++	Developing Applications in C++; moving from C to C++ including objects and classes, inheritance, polymorphism and data abstraction	Prerequisites: A grade of C or better in CSC150 or permission of Instructor.	LEC 4.0 4.0 4.0
CSC260	Object-Oriented Programming in Java	Software development in Java including both applets and applications, in both standard and graphical programming. Includes objects and classes, inheritance, polymorphism, graphical programming with the Abstract Windows Toolkit and the Swing extension, graphical user interface design and layout, event handling, and exception handling	Prerequisites: A grade of C or better in CSC150 or CSC200 or permission of Instructor.	L+L 3.0 4.0 4.0
CSC260AA	Object-Oriented Programming in Java	Software development in Java including both applets and applications, in both standard and graphical programming. Includes objects and classes, inheritance, polymorphism, graphical programming with the Abstract Windows Toolkit and the Swing extension, graphical user interface design and layout, event handling, and exception handling	Prerequisites: A grade of C or better in CSC150 or CSC200 or permission of Instructor.	LEC 4.0 4.0 4.0

CSC261	Advanced Programming in Java	Advanced topics in Java including the JavaBean component model, multithreading, client/server development using Java sockets, the Java Database Connectivity interface (JDBC), and remote method invocation (RMI)	Prerequisites: A grade of C or better in CSC260 or permission of Instructor.	LEC 3.0 4.0 3.7
CSC261AA	Advanced Programming in Java	Advanced topics in Java including the JavaBean component model, multithreading, client/server development using Java sockets, the Java Database Connectivity interface (JDBC), and remote method invocation (RMI)	Prerequisites: A grade of C or better in CSC260 or permission of Instructor.	LEC 4.0 4.0 4.0
CSC270	C# Programming	Developing C# applications for the Microsoft .NET platform. Use of object-oriented principles in developing modularized C# programs	Prerequisites: A grade of C or better in CSC200 or CSC250 or CSC260 or permission of Instructor.	LEC 3.0 3.0 3.0
CSC270AA	C# Programming	Developing C# applications for the Microsoft .NET platform. Use of object-oriented principles in developing modularized C# programs	Prerequisites: A grade of C or better in CSC200 or CSC250 or CSC260 or permission of Instructor.	L+L 3.0 4.0 4.0
CSC270AB	C# Programming	Developing C# applications for the Microsoft .NET platform. Use of object-oriented principles in developing modularized C# programs	Prerequisites: A grade of C or better in CSC200 or CSC250 or CSC260 or permission of Instructor.	L+L 4.0 4.0 4.0
CSC281	Advanced Programming in Visual Basic	Graphical user interfaces are generated for advanced programming applications using Visual Basic. Event-driven programs, programming mouse interactions, interactive computer graphics, file processing, and how to distribute application programs	Prerequisites: A grade of C or better in CSC100 or CSC181 or equivalent programming knowledge or permission of Instructor.	L+L 3.0 4.0 4.0
CSC281AA	Advanced Programming in Visual Basic	Graphical user interfaces are generated for advanced programming applications using Visual Basic. Event-driven programs, programming mouse interactions, interactive computer graphics, file processing, and how to distribute application programs	Prerequisites: A grade of C or better in CSC100 or CSC181 or equivalent programming knowledge or permission of Instructor.	LEC 4.0 4.0 4.0
CSC282AA	Volunteerism for Computer Science: A Service Learning Experience	Service learning field experience within private/public agencies, educational institutions, and citizen volunteer groups.	Prerequisites: Permission of Instructor.	LAB 1.0 1.0 0.0
CSC282AB	Volunteerism for Computer Science: A Service Learning Experience	Service learning field experience within private/public agencies, educational institutions, and citizen volunteer groups.	Prerequisites: Permission of Instructor.	LAB 2.0 2.0 0.0
CSC282AC	Volunteerism for Computer Science: A Service Learning Experience	Service learning field experience within private/public agencies, educational institutions, and citizen volunteer groups.	Prerequisites: Permission of Instructor.	LAB 3.0 3.0 0.0
CSC283	Bioinformatics and Scientific Computing	Introduction to bioinformatics, including history, concepts, major genetic databases and access tools. Computer software and techniques for analyzing one nucleotide or protein sequence, searching for similar sequences, and	Prerequisites: A grade of C or better in [(BIO156 or BIO181) and (MAT095, or MAT096, or MAT114, or MAT115, or MAT12+, OR an appropriate district	L+L 3.0 4.0 4.0

		aligning and comparing two or multiple sequences. Microarray analysis and phylogenetic trees. Application of standard software to bioinformatic computing tasks, including word processing of reports, and use of spreadsheets for statistical analysis and graphing. Text editors, Unix, Internet web site searching and construction, and ethics.	placement for MAT15+ or higher)], or permission of Instructor or Department/Division Chair. Concurrent enrollment in, or previous completion of, BIO208 or BIO212AA is strongly suggested but not required.	
CSC283AA	Bioinformatics and Scientific Computing	Introduction to Bioinformatics, including history, concepts, major genetic databases and access tools. Computer software and techniques for analyzing one nucleotide or protein sequence, searching for similar sequences, and aligning and comparing two or multiple sequences. Microarray analysis and phylogenetic trees. Application of standard software to bioinformatic computing tasks, including word processing of reports, and use of spreadsheets for statistical analysis and graphing. Text editors, Unix, Internet web site searching and construction, and ethics.	Prerequisites: A grade of C or better in [BIO220 and (MAT095 or MAT096 or MAT114 or MAT115 or MAT12+ or an appropriate District placement for MAT15+ or higher)] or permission of Instructor or Department/Division Chair.	LEC 4.0 4.0 4.0
CSC284	Web Programming and Design with FLASH	Design and publication of interactive web pages using Macromedia FLASH and Action Script. Animation, graphics design, timeline, layers, sound, movie clips, libraries, publishing with HTML, event driven programming, interactive programming of FLASH objects, form processing in FLASH, and programming constructs	Prerequisites: A grade of C or better in CSC185 or CIS233 or permission of Instructor.	LEC 3.0 3.0 3.0
CSC284AA	Web Programming and Design with FLASH	Design and publication of interactive web pages using Macromedia FLASH and Action Script. Animation, graphics design, timeline, layers, sound, movie clips, libraries, publishing with HTML, event driven programming, interactive programming of FLASH objects, form processing in FLASH, and programming constructs	Prerequisites: A grade of C or better in CSC185 or CIS233 or permission of Instructor.	LEC 3.0 4.0 3.7
CSC285	Computer Programming in the WWW Environment	Software development paradigms and environments including Advanced HTML, JavaScript, Common Gateway Interface (CGI) and CGI scripting languages. Security and large scale data management	Prerequisites: A grade of C or better in CSC185 and prior programming experience/coursework.	LEC 4.0 4.0 4.0
CSC285AA	Computer Programming in the WWW Environment	Software development paradigms and environments including Advanced HTML, JavaScript, Common Gateway Interface (CGI) and CGI scripting languages. Security and large scale data management	Prerequisites: A grade of C or better in CSC185 and prior programming experience/coursework.	LEC 3.0 4.0 3.7
CSC294	Special Topics in Computing	Investigation of special topics in computing technology and applications.	Prerequisites: Permission of Instructor.	LEC 3.0 3.0 3.0

		Examination of industry trends to solve problems and/or investigate issues

CSI105	Debt Resolution Enrollment	Overview of debt resolution enrollment procedures. Covers characteristics of debt settlement, including regulatory entities, information security, and client	Prerequisites: None.	L+L 3.0 5.0 5.0

		hardships. Also includes procedures for completing quality enrollment calls, as well as a review of resources available to clients.		
CSI112	Introduction to U.S. Banking	Introduction to the United States banking industry. Covers bank organization, structure, and regulatory agencies in addition to a review of lenders, borrowers, and direct banking products. Also includes bank profitability, information-based and account-based regulations, and compliance with federal regulations.	Prerequisites: None.	LEC 2.0 2.0 2.0
CSI113	Deposit Banking Accounts	Overview of customer accounts. Includes account ownership, relationships, funding options, and availability in addition to account set-up and maintenance. Also covers use of the account center and documentation procedures.	Prerequisites: None.	LEC 2.0 2.0 2.0
CSI114	Account Maintenance	Account product maintenance research and procedures. Includes characteristics of various types of accounts, including funds availability and accessibility, wire transfer policy and procedures, and statement features. Also covers Internal Revenue Service (IRS) account forms and procedures for handling fraud and security.	Prerequisites: None.	LEC 2.0 2.0 2.0
CSI115	Deposit Banking Lab	Practical application of customer service procedures in account set-up and maintenance. Includes completing rate inquiries, application fallout and accessing customer accounts. Also covers procedures for handling security issues, processing account adjustments and inquiries regarding accounts and tax filing.	Prerequisites: None.	LAB 2.0 6.0 6.0
CSI120	Introduction to Student Loans	Introduction to the role and processing of student loans within company structure. Includes customer service strategies, professional customer care, and call management in the completion of student loan procedures. Covers loan options, application processes, and customer verification procedures in addition to loan documentation and legal disclosures. Also includes procedures for managing account center and web-top navigation.	Prerequisites: None.	L+L 3.0 4.0 4.0
CSI122	Introduction to Cardmember Services	Introduction to credit cardmember services. Covers job responsibilities of a cardmember service account manager. Also covers customer account management including merging accounts, various credit card products and features, and Customer Contact Strategy (CCS). Use of a computer emphasized.	Prerequisites: None.	L+L 2.0 3.0 3.0

CSI124	Intermediate Cardmember Services	Credit cardmember services. Covers balance transfers, call handling procedures, statements, account documentation, payment information, feedback, and complaints. Computer usage emphasized.	Prerequisites: A grade of C or better in CSI122.	L+L 3.0 4.0 4.0
CSI126	Advanced Cardmember Services	Advanced credit cardmember services. Includes authorizations and adjustments, finance charges, listening, and customer interaction strategies. Covers lost/stolen report processing and negotiation techniques.	Prerequisites: A grade of C or better in CSI124.	L+L 2.0 3.0 3.0
CSI130	Cardmember Assistance	Overview of credit cardmember assistance. Policies and procedures emphasized. Communication tools and cardmember assistance telephone calls covered.	Prerequisites: None.	LEC 3.0 3.0 3.0
CSI132	Cardmember Assistance Calls	Credit cardmember assistance telephone calling. Placing and answering cardmember phone calls emphasized. Use of a collection system also covered	Prerequisites: A grade of C or better in CSI130.	L+L 2.0 3.0 3.0
CSI143	Cardmember Payment Assistance	Procedures and policies for calling and collecting payments from credit card members. Effective customer service techniques for payment resolution on delinquent accounts emphasized	Prerequisites: None.	LEC 2.0 2.0 2.0
CSI151	Cardmember Retention I	Retention procedures of credit card members. Emphasis on retention closure reasons and account negotiation strategies. Includes cardmember accounts procedures, credit card features, and reward programs	Prerequisites: None.	LEC 2.0 2.0 2.0
CSI153	Cardmember Retention II	Cardmember retention procedures. Auto reopen accounts process and account negotiation strategies emphasized. Balance transfers and finance charges also covered.	Prerequisites: A grade of C or better in CSI151 or Corequisites: CSI151.	L+L 2.0 3.0 3.0
CSI154	Introduction to Debt Settlement	Introduction to the debt settlement industry. Covers customer service representative role in debt settlement including types of hardships, debt solutions, account resources, and legal services available to clients. Also includes Fair Debt Collection Practices Act regulations.	Prerequisites: None.	LEC 2.0 2.0 2.0
CSI155	Customer Service for Debt Settlement	Basic customer service principles for debt settlement. Evaluation of various program services as well as types of client debt. Emphasis on elements of customer service debt settlement transactions and effective communication.	Prerequisites: None.	LEC 3.0 3.0 3.0
CSI164	Debt Resolution Account Procedures	Procedures for maintaining debt settlement customer accounts. Emphasis on screens and processes used to maintain accounts, provide	Prerequisites: None.	L+L 3.0 4.0 4.0

		education resources to customers, and respond to customer inquiries.		
CSI166	Debt Settlement Services	Practical application of customer service representative debt settlement skills. Includes various types of customers, calls, and interactions in addition to procedures for navigating client accounts. Also covers account modifications, legal services, and negotiations procedures.	Prerequisites: None.	LAB 2.0 6.0 6.0
CSI168	Introduction to Debt Resolution Sales	Introduction to debt resolution sales and the debt settlement industry. Covers characteristics, solutions, components, and regulators of debt settlement including the Fair Debt Collection Practices Act. Also includes types of hardships and financial distress, credit reports, and resources available to clients, in addition to an introduction to the sales process.	Prerequisites: None.	LEC 3.0 3.0 3.0
CSI174	Debt Resolution Sales Procedures	Practical application of debt resolution sales procedures. Covers consultative sales tools and services used in the provision of direct debt management sales. Includes approval calls, enrollment agreements, underwriting and file submission procedures as well as tax consequences and managing client objections.	Prerequisites: None.	L+L 2.0 4.0 4.0
CSI180	Debt Resolution Sales Practices	Further application of debt resolution sales procedures. Covers consultative sales tools and services used in the provision of direct debt management sales. Includes approval and welcome calls, enrollment agreements, underwriting and file submission procedures as well as disclosures and tax consequences.	Prerequisites: A grade of C or better in CSI174.	L+L 2.0 4.0 4.0
CSI182	Introduction to Loan Consolidation	Introduction to loan consolidation in the debt settlement industry. Covers consolidation loan terminology, details, cycles, and benefits as well as disclosures and effective business communication for the loan consultant.	Prerequisites: None.	LEC 2.0 2.0 2.0
CSI184	Loan Consolidation Procedures	Practical application of loan consolidation procedures. Covers benefits of and processes for loan consolidation as well as consultative sales tools and services used in the provision of direct debt management sales. Includes initial calls, enrollment agreements, and customer education procedures as well as effective communication strategies.	Prerequisites: None.	L+L 3.0 4.0 4.0
CSI186	Personal Loans	Introduction to personal loans. Includes characteristics, components, purpose, and function of a personal loan system. Also covers features, benefits, and characteristics of consumer loans in	Prerequisites: None.	LEC 3.0 3.0 3.0

		addition to banking legislation and regulations.		
CSI187	Personal Loan Applications	Personal loan application components and policy. Includes credit reports, identity authentication, and characteristics of fraudulent applications, in addition to application workflow. Also covers guidelines for maintenance, referencing, verification and evaluation of applications.	Prerequisites: None.	LEC 3.0 3.0 3.0
CSI188	Personal Loan Account Services	Personal loan services and procedures. Covers assessment of customer need and risk, application and identity fraud, types of business ownership, and procedures for handling self-employment income. Also includes withdrawal strategy and application review.	Prerequisites: None.	LEC 3.0 3.0 3.0
CSI189	Personal Loans Lab	Practical application of personal loans banking procedures. Includes navigation of the personal loan system, acquisitions call flow, and procedures for identifying and resolving fraudulent applications and claims. Also covers the applications process including verification, referencing, and review in addition to overrides.	Prerequisites: None.	LAB 2.0 6.0 6.0
CSI200	Retail Website Customer Service	Overview of customer agent's role and responsibilities. Introduction to retail website features and procedures. Includes shopping guides, customer accounts, and basic order entry guidelines and procedures.	Prerequisites: None.	LEC 3.0 3.0 3.0
CSI201	Retail Website Customer Service Procedures	Practical application of retail website customer service procedures. Includes order entry, modifications, and service recovery as well as procedures for handling registries and store services.	Prerequisites: None.	L+L 3.0 4.0 4.0
CSI202	Debt Settlement Loan Servicing	Consolidation loan servicing procedures. Covers types of loans, features, and guidelines as well as enrollment structure and loan calculations. Also covers payments, customer protections, and procedures for account collections.	Prerequisites: None.	L+L 4.0 6.0 6.0
CSI206	Banking Member Service Representative	Introduction to banking member service representative roles and responsibilities. Includes communication and problem solving skills when dealing with members. Also covers various types of banking products and services available to members as well as an introduction to computerized banking and online documentation systems.	Prerequisites: None. Corequisites: CSI207, CSI208 and CSI209.	LEC 3.0 3.0 3.0
CSI207	Banking Accounts and Products	Knowledge of bank accounts, products, and procedures for banking member service representatives. Covers new accounts, credit cards, debit cards, certificates of deposit and individual	Prerequisites: None. Corequisites: CSI206, CSI208 and CSI209.	LEC 3.0 3.0 3.0

		retirement accounts. Self-service banking benefits and procedures as well as cash advances and funds transfers included.		
CSI208	Banking Account Management	Account management procedures for banking member service representatives. Banking terminology and maintenance procedures including member verification and privacy policies. Includes fraud handling and common banking inquiries by members such as updating account information, stopping payments, reordering checks, and requesting refunds. Retention of banking members also covered.	Prerequisites: None. Corequisites: CSI206, CSI207 and CSI209.	LEC 3.0 3.0 3.0
CSI209	Banking Account Management Lab	Practical application of banking member services and procedures. Covers computerized banking systems including online documentation and database usage. Procedures for new accounts and account maintenance included as well as procedures for handling various member requests. Communication and customer service skills emphasized.	Prerequisites: None. Corequisites: CSI206, CSI207 and CSI208.	LAB 1.0 2.0 2.0
CSI240	Credit Services Legal Procedures	Legal procedures for the credit services industry. Includes security responsibility and communication systems, as well as credit law. Also covers account issues including ownership inquiries, verifications, and restrictions	Prerequisites: Permission of Department or Division.	LEC 3.0 3.0 3.0
CSI241	Credit Services Account Procedures	Account procedures for credit services. Includes rewards, upgrades, and frequent buyer programs. Also covers fees, procedures for saving accounts, limit increases, and lost/stolen cards.	Prerequisites: A grade of C or better in CSI240 or Corequisites: CSI240.	LEC 2.0 2.0 2.0
CSI242	Credit Services Billing Procedures	Credit services billing procedures and statements. Includes disputes and deferred purchases, as well as third party products and services. Also covers back office discounts and procedures for handling payment issues.	Prerequisites: A grade of C or better in CSI241 or Corequisites: CSI241.	LEC 2.0 2.0 2.0
CSI243	Credit Services Lab	Practical application of credit services procedures. Includes computer, phone, and Voice Recognition Unit (VRU) procedures and screens as well as demonstration of effective customer service techniques. Covers procedures for account ownership, verification, and advertising as well as disputes, deferred purchases, and transfers.	Prerequisites: Permission of Department or Division.	LAB 1.0 3.0 3.0
CSI245	Introduction to Credit Granting	Overview of policies and procedures for credit granting. Includes account research, updates, and restrictions as well as authorization procedures. Also covers referrals, applications, and special processing issues.	Prerequisites: None.	LEC 2.0 2.0 2.0

CSI246	Credit Granting Procedures	Practical application for procedures for credit granting. Includes representative responsibilities in the areas of computer skills, customer service, and communication. Also covers procedures for completing customer inquiries, account modifications, and authorizations as well as special processing procedures and referrals.	Prerequisites: None.	L+L 3.0 5.0 5.0
CSI250	Customer Service for Credit Counselors	Basic customer service principles for the credit counselor. Examination of credit-counseling programs covered. Emphasis on elements of customer service transactions	Prerequisites: None.	L+L 3.0 4.0 4.0
CSI251	Legal Issues In Credit Counseling	Overview of laws and practices in granting credit. Types of credit and calculating finance charges included. Emphasis on implications of inadequate payment history on credit ratings.	Prerequisites: None.	LEC 3.0 3.0 3.0
CSI252	Credit Counseling New Accounts	Overview of establishing new client accounts in a credit- counseling program. Emphasis on screens used to setup an account.	Prerequisites: None.	L+L 3.0 4.0 4.0
CSI255	Account Maintenance Procedures	Account maintenance procedures for customer service representatives. Emphasis on managing ongoing client accounts. Covers contact with creditors and clients	Prerequisites: None.	L+L 3.0 4.0 4.0
CSI257	Credit Counseling Account Processes	Overview of maintaining a client account in a credit counseling program. Emphasis on screens used to maintain an account.	Prerequisites: None.	L+L 3.0 4.0 4.0
CSI258	Credit Counseling and Financial Management	Overview of financial topics relevant to clients and their accounts. Covers creditor information and policies as well as procedures for account review. Also includes identification of and education regarding client financial issues in addition to client resource identification and use.	Prerequisites: None.	LEC 3.0 3.0 3.0
CSM101	Quality Customer Service	Examines the nature of quality customer service and the attitudes, knowledge, and skill needed to work effectively in a quality customer service environment. Foundation skills for quality customer services are taught, applied, and practiced	Prerequisites: None.	LEC 3.0 3.0 3.0
CSR105	Advanced Abandoned Vehicle Inspection	Advanced abandoned vehicle inspection procedures. Covers types of abandoned vehicles, the third party inspection form, fees, and policies as well as governing authority. Also includes additional requirements, letters, and transfer of ownership.	Prerequisites: None.	LEC 0.5 0.5 0.5
CSR106	Basic Abandoned Vehicle Inspection	Basic abandoned vehicle inspection procedures. Covers safety procedures, vehicle types, and eligibility status	Prerequisites: None.	LEC 0.5 0.5 0.5

		determination as well as forms completion.		
CSR107	Driver License Basic Procedures	Basic driver license procedures. Emphasis on accessing, reading, and creating customer records. Covers Driver Maintenance (DM) segments, documentation verifications, all original credentials, and procedures for updating credentials.	Prerequisites: None.	L+L 2.0 3.0 3.0
CSR108	Motor Vehicle Documentation Concerns	Vehicle titling considerations with emphasis on documentation procedures. Includes Department of Revenue policy and procedures and examination of title documents. Also covers trailer and damaged vehicle documentation as well as procedures for completing special vehicle titling	Prerequisites: None.	L+L 2.0 3.0 3.0
CSR109	Motor Vehicle Documentation Procedures	State motor vehicle documentation procedure. Use of computer based government workstation emphasized. Includes procedures for location and modification of customer and vehicle records	Prerequisites: None.	L+L 2.0 3.0 3.0
CSR110	Federal Employee Program Systems: Claims and Inquiries	Overview of the federal employee health benefit program and associated benefits. Emphasis in accessing and operating varying systems and online system tools for processing claims and resolving customer inquiries.	Prerequisites: None.	LEC 4.0 4.0 4.0
CSR111	Motor Vehicle Customer Service	State motor vehicle division record and duplicate credential issuance operations. Emphasis on the replacement and renewal of customer and vehicle records and credentials. Covers workstation operation procedures, title and registration transactions, vehicle updates, and database navigation.	Prerequisites: None.	L+L 3.0 4.0 4.0
CSR112	Federal Employee Program Systems: Correspondence	Overview of Federal Employee Program (FEP) correspondence inquiries. Covers guidelines for processing internal and external correspondence, as well as adjustments, voids, and recoupments.	Prerequisites: None.	L+L 2.0 4.0 4.0
CSR113	Motor Vehicle Title and Registration Administration	Motor vehicle division title and registration record administration procedures. Emphasis on Arizona title transfers, commercial vehicles, trailers, personalized and special plate issuance information. Covers recreational vehicles, titles with/without court orders, bonds, branded titles, mobile homes, and operation of law liens.	Prerequisites: None.	L+L 3.0 4.0 4.0
CSR114	Federal Employee Program Systems: Processing Claims	Overview of the federal employee health benefit program and policies and procedures for processing claims. Covers benefit packages, covered services and costs, and coordination of benefits. Also included customer service standards and techniques.	Prerequisites: None.	LEC 4.0 4.0 4.0

CSR115	Privilege Restriction Documentation	Procedures for documenting the resolution of loss of driving privileges in a state motor vehicle division database. Emphasis on the processing of suspension, revocation, and uninsured driver issues. Covers driver impairment suspension issues and citation notation processing. Also includes driver re-examination, reinstatements, and authorized presence documentation.	Prerequisites: None.	L+L 2.0 3.0 3.0
CSR116	Federal Employee Program Systems: Advanced Procedures	Advanced policies and procedures for completing claims. Covers access and navigation of the membership system to include claims processing, pricing, recalculations, and suspends. Also includes anesthesia pricing procedures, deferrals, and J codes.	Prerequisites: A grade of C or better in CSR114.	L+L 4.0 6.0 6.0
CSR118	Property Insurance Financial Security Customer Service	Financial security needs determinations procedures for the customer service representative. Referrals, value factors, and solutions applicable to providing opportunities for member financial security. Also includes company lines of business.	Prerequisites: None.	L+L 1.0 2.0 2.0
CSR119	Introduction to Homeowner Insurance Customer Service	Introduction to homeowner insurance components and coverage types for the customer service representative. Covers the home buying process as well as industry specific vocabulary and contracts.	Prerequisites: None.	LEC 2.0 2.0 2.0
CSR120	Homeowner Policy Issuance Customer Service	Examination of homeowner insurance components and policies for customer representative issuance procedures. Covers dwelling types and characteristics as well as various systems and procedures for policy issuance. Also includes an introduction to old age homes procedures.	Prerequisites: None.	L+L 2.0 3.0 3.0
CSR121	Homeowner Policy Servicing Customer Service	Homeowner policy servicing components for the customer service representative. Covers systems and procedures for completing policy modifications, cancellations, and declines. Also includes Earned Premium Location (EPL) and Probable Maximum Loss (PML) guidelines.	Prerequisites: None.	L+L 2.0 3.0 3.0
CSR122	Introduction to Unit Owner Policy Customer Service	Unit owner policy components and procedures for the customer service representative. Covers various systems and procedures for issuance, modification, cancellation, and rewrite of policies. Also includes strategies for needs, determinations, and procedures for responding to member coverage inquiries.	Prerequisites: None.	L+L 2.0 3.0 3.0
CSR123	Introduction to Rental Property Insurance Customer Service	Introduction to rental property insurance components and policies for the customer service representative. Covers various systems and procedures for	Prerequisites: None.	L+L 2.0 3.0 3.0

		issuance, modification, and cancellation of policies as well as declined accounts.		
CSR124	Renters Valuable Personal Property Customer Service I	Introduction to renters valuable personal property insurance procedures for the customer service representative. Covers types of policies, coverages, and limits as well as issuance and billing procedures. Also includes member policy update procedures.	Prerequisites: None.	L+L 2.0 3.0 3.0
CSR125	Renters Valuable Personal Property Customer Service II	Additional renters valuable personal property insurance procedures. Includes characteristics of valuable personal property coverage and limits as well as guidelines and procedures for dealing with collections. Also covers policy modifications, declines, and cancellations.	Prerequisites: A grade of C or better in CSR124.	L+L 2.0 3.0 3.0
CSR126	Automobile Insurance Customer Service Procedures	Automobile insurance industry customer service procedures. Covers roles and responsibility of a call center customer service consultant, including customer care expectations, call flow guidelines, insurance policy lifespan, and bill processing. Also covered workstation operation principles.	Prerequisites: None.	LEC 2.0 2.0 2.0
CSR130	Advocate-Driven Healthcare	Procedures for advocate-driven healthcare customer service representatives. Covers eligibility requirements, enrollment procedures, and Health Insurance Portability and Accountability Act of 1996 (HIPAA) compliance standards. Also includes healthcare services, products, and plans.	Prerequisites: None.	LEC 2.0 2.0 2.0
CSR136	Health Care Insurance: Claims I	Overview of health insurance, medical terminology, and various operating systems and applications. Also includes research of medical, outpatient, and inpatient claims.	Prerequisites: None.	L+L 4.0 6.0 6.0
CSR137	Health Care Insurance: Claims II	Guidelines and procedures for finalizing claims. Covers research and manual pricing procedures, adjudication, and claim liability in addition to procedures for completing cutbacks and recovery.	Prerequisites: A grade of C or better in CSR136.	L+L 2.0 3.0 3.0
CSR138	Health Care Insurance: Claims III	Overview of computer usage in the health care insurance industry. Covers various on-line systems/applications, benefit plans and screens, eligibility, pre-certification, and claims pricing. Claims processing emphasized.	Prerequisites: A grade of C or better in CSR137.	L+L 4.0 6.0 6.0
CSR139	Introduction to Retail Pharmacy Customer Care	Introduction to the retail pharmacy program. Includes customer care responsibilities, confidentiality, and eligibility status in addition to various types of member inquiries. Also covers quality assurance and Federal and State laws governing controlled substances.	Prerequisites: None.	LEC 3.0 3.0 3.0

CSR143	Patient Prescription Adherence Procedures	Overview of patient prescription adherence program procedures for patient support representative. Includes program benefits, eligibility requirements, enrollment procedures, and waiver process. Computerized database usage emphasized	Prerequisites: None.	L+L 2.0 3.0 3.0
CSR144	Prior Authorization Programs and Systems	Prior authorization programs and systems for federal employees. Covers Med-Ex, 'Buy and Bill' and Medical Formulary Exception (MFE) programs as well as identification and processes for compounds. Also covers the Clinical Authorization System (CAS) program organization and use, including clinical rationales, outcomes, inquiries, and non-covered Qsets.	Prerequisites: None.	LEC 2.0 2.0 2.0
CSR145	Prescription Prior Authorization I	Prescription prior authorization procedures for federal employees. Covers account access, documentation, and eligibility as well as claims process and claims adjudication. Computerized databases and automated phone systems emphasized.	Prerequisites: None.	L+L 3.0 4.0 4.0
CSR146	Prescription Prior Authorization II	Advanced prescription prior authorization procedures for federal employees. Usage of various computerized databases emphasized. Includes drug benefit management, drug limitation guidelines, standard allowance fill quantity, and prior authorization fill quantity. Approved and denied authorizations also covered in addition to grandfathered records and change in therapy procedures.	Prerequisites: A grade of C or better in CSR145.	L+L 3.0 4.0 4.0
CSR147	Health Care Insurance: Correspondence	Overview of health care insurance correspondence inquiries. Covers guidelines for processing internal and external correspondence, including reconsiderations, grievances, appeals, and adjustments.	Prerequisites: None.	L+L 4.0 6.0 6.0
CSR148	Health Care Insurance: Customer Service	Overview of customer service standards and objectives for health care insurance phone inquiries. Covers customer service solution processes, including first call resolution, account inquiries, member eligibility and benefits. Health care regulations also covered.	Prerequisites: None.	L+L 4.0 6.0 6.0
CSR155	Retail Pharmacy Plans	Retail pharmacy benefit plan design. Includes types of plans, limitations, and drug coverage in addition to fulfillment requests. Also covers procedures for accessing accounts, responding to caller inquiries, completing test claims, and steps for locating formulary alternatives.	Prerequisites: A grade of C or better in CSR139.	LEC 3.0 3.0 3.0
CSR156	Retail Pharmacy Procedures	Practical application of retail pharmacy customer care procedures. Includes procedures for accessing accounts,	Prerequisites: A grade of C or better in CSR139.	L+L 2.0 4.0 4.0

		responding to eligibility issues, and completing customer requests. Also covers billing and payment procedures as well as the provision of non-technical web support.		
CSR157	Mail Order Pharmacy Procedures	Practical application of mail order pharmacy customer care procedures. Includes procedures for managing billing and payment inquiries as well as order status processes and prior authorizations.	Prerequisites: A grade of C or better in CSR155.	L+L 2.0 3.0 3.0
CSR158	Pharmacy Support Services	Overview of a pharmacy support representative's duties. Includes techniques for addressing electronic communication and formatting standards. Covers claims service including codes, rejections, overrides, and search methods, as well as coordinating benefits. Usage of various pharmaceutical's computer programs emphasized.	Prerequisites: None.	L+L 2.0 3.0 3.0
CSR159	Motor Vehicle Fraudulent Documents	Policies and procedures for the identification of Motor Vehicle Department fraudulent documents. Includes examination of paper and plastic/laminated documents as well as identification of counterfeits and alterations. Also covers interviewing techniques and procedures for handling fraud situations	Prerequisites: None.	LEC 1.0 1.0 1.0
CSR160	Pharmacy Practice for the Customer Service Representative	Orientation to customer service responsibilities in pharmacy practice. Includes educational and licensure requirements as well as basic functions of the pharmacy and the customer service representative	Prerequisites: Permission of Department or Division.	LEC 1.0 1.0 1.0
CSR162	Pharmacy Operations for the Customer Service Representative	Customer service responsibilities in pharmacy operations. Includes procedures for prescription dispensing and drug distribution in the retail setting. Inventory control, packaging and storage, in addition to computer usage and third party operations	Prerequisites: A grade of C or better in CSR160.	LEC 3.0 3.0 3.0
CSR163	Telecommunications Industry Collections Customer Service	Introductory collections customer service strategies. Covers essential behaviors for effective customer support and professional interaction, in addition to knowledge of company products, services, roles and functions.	Prerequisites: None.	LEC 1.0 1.0 1.0
CSR164	Telecommunications Industry Receivables Management	Receivables management procedures for customer services representatives in the telecommunications industry. Covers tools and systems for managing billing account modifications, prorations, and credit adjustments in addition to handling fraud claims. Also includes payment processing, options and restrictions, as well as distributions and various declined payments.	Prerequisites: None.	LEC 2.0 2.0 2.0

CSR165	Collections Customer Service	Practical application of telecommunications collections customer service procedures. Covers access to and navigation of tools and systems for completion of billing, payment and collections services.	Prerequisites: None.	L+L 2.0 4.0 4.0
CSR166	Telecommunications Industry Collections	Telecommunications industry collection procedures and strategies. Includes policies and procedures for collections, including the Fair Debt Collections Practice Act (FDCPA) and federal laws and regulations for compliance. Also covers collections schemes and payments options, as well as call escalation and miscellaneous billing procedures.	Prerequisites: None.	L+L 2.0 3.0 3.0
CSR171	Customer Representative Web Design Products and Services	Introduction to web design products and services. Includes customer services for web design, branding, and hosting as well as various products available to business owners. Also covers domain ownership and security.	Prerequisites: None.	LEC 2.0 2.0 2.0
CSR172	Customer Representative Web Service Sales	Customer service account procedures for web service sales. Covers business specific services and products, and application to meeting customer needs. Also covers hosting and website design sales procedures as well as customer consultation techniques.	Prerequisites: None.	LEC 2.0 2.0 2.0
CSR173	Customer Service for Web Hosting	Introduction to web hosting products and customer services. Includes features and benefits of branding, productivity, presence, and marketing.	Prerequisites: None.	LEC 2.0 2.0 2.0
CSR174	Hosting Product Support Customer Service	Hosting product support customer service procedures. Covers databases, email solutions, and Content Management Systems (CMS) as well as business hosting. Also covers troubleshooting procedures including site latency.	Prerequisites: None.	LEC 2.0 2.0 2.0
CSR175	Web Hosting Account Customer Service	Account customer service for web hosting and domains. Includes new accounts, branding, and presence strategies and products, and their application to meeting customer needs. Also covers hosting and website design procedures as well as completion of a marketing consultation.	Prerequisites: None.	LEC 1.0 1.0 1.0
CSR176	Customer Product Service Management for Web Hosting/Domain Registrar	Introduction to web hosting and domain registrar products and customer services. Includes features and benefits of branding, productivity, presence, and marketing.	Prerequisites: None.	LEC 3.0 3.0 3.0
CSR177	Customer Representative for Web Hosting/Domain Registrar Services	Customer service account procedures for web hosting and domain registrar product application. Includes new accounts, branding, and presence strategies and products, and their application to meeting customer needs.	Prerequisites: None.	L+L 2.0 4.0 4.0

		Also covers hosting and website design procedures as well as completion of a marketing consultation.		
CSR178	Customer Service Consultations and Troubleshooting Lab	Practical application of strategies and procedures for conducting customer consultations and troubleshooting.	Prerequisites: None.	LAB 1.0 2.0 2.0
CSR184	Business Technology in Customer Service	Foundational business technology for enhancing customer service. Includes the integration of technology into an effective workforce management solution. Covers Enterprise Resource Planning (ERP) in addition to Customer Relationship Management (CRM) and Business Intelligence (BI).	Prerequisites: None.	LEC 2.0 2.0 2.0
CSR185	Insurance Industry Direct Sales Concepts	Overview of customer service direct sales concepts for the insurance industry. Covers building relationships with customers in addition to systems used and strategies for effective communication and sales techniques. Also includes product knowledge, coverages, and procedures for closing the sale.	Prerequisites: None. Corequisites: CSR186.	LEC 3.0 3.0 3.0
CSR186	Insurance Industry Direct Sales Procedures	Practical application of direct sales basics. Covers product knowledge, sales procedures, and systems in addition to effective communication techniques.	Prerequisites: None. Corequisites: CSR185.	L+L 2.0 4.0 4.0
CSR195	Customer Service Representative Sales and Marketing	Introduction to sales and marketing strategies for the customer service representative. Includes the sales and negotiation processes as well as behavioral styles and demographics of customers. Also covers types of markets, organizational structure, and elements of a marketing plan.	Prerequisites: None.	L+L 2.0 4.0 4.0
CSR196	Call Center Customer Service	Introduction to practical application for call center representatives. Covers the role of call center representatives and skills and behaviors necessary for successful and effective call flow and completion of inbound calls. Also includes procedures for customer authentication, billing, payments, and claims loss reports as well as de-escalation.	Prerequisites: Permission of Department or Division.	L+L 3.0 5.0 5.0
CSR197	Customer Service Representative Business Practices	Introduction to business practices for the customer service representative. Includes organization types and structures as well as essential business communication techniques and foundational skills. Also covers professional telephone techniques.	Prerequisites: None.	L+L 2.0 3.0 3.0
CSR200	Automobile Representative Customer Services	Automobile representative customer service responsibilities. Includes overview of insurance industry terminology and contracts as well as need determination. Also covers privacy	Prerequisites: None.	LEC 3.0 3.0 3.0

		and security issues in addition to relationship management strategies.		
CSR201	Web-Based Hosting Customer Service	Web-based hosting customer service. Includes resources, tools, and services for setup, maintenance, and troubleshooting.	Prerequisites: None.	LEC 1.0 1.0 1.0
CSR202	Automobile Insurance Policy Customer Service	Front-line customer service procedures for automobile insurance policies. Emphasis upon information associated with completing automobile insurance policy changes. Covers policy issue and policy status change operations, endorsements, policy cancellation, and vehicle ownership concerns. Includes title lien holder issues and model call flow identification and demonstration.	Prerequisites: None.	L+L 3.0 5.0 5.0
CSR203	Productivity Customer Service	Web-based productivity customer service. Includes tools and resources for managing productivity as well as troubleshooting procedures.	Prerequisites: None.	LEC 1.0 1.0 1.0
CSR204	Auto Insurance Quotes and Underwriting	Automobile insurance member services representative operating procedures. Procedures for providing auto insurance quotes and completing payments. Covers tools for underwriting, including risk factors and rate determination. Also includes account research techniques and fundamental need-based sales principles.	Prerequisites: None.	L+L 3.0 5.0 5.0
CSR206	Special Lines Customer Service Procedures	Introduction to special lines customer service procedures. Covers types of coverage, discounts, and eligibility for motorcycle, recreational vehicles, and watercraft. Includes procedures for quoting and use of state-specific guidelines and procedures.	Prerequisites: Permission of Department or Division.	L+L 2.0 3.0 3.0
CSR207	Automobile Policy Adjustment	Emphasis upon policy explanation and adjustment. Covers membership flow-thru criteria, quality customer service information, and in-depth on-line resource instrument review. Also includes consultative selling practice and the observation of acting member service representatives.	Prerequisites: None.	L+L 3.0 4.0 4.0
CSR208	House and Home Customer Service	Introduction to house and home coverage. Includes homeowner products and procedures for completing customer inquiries and cross-selling. Also covers an introduction to renter insurance.	Prerequisites: None.	L+L 1.0 2.0 2.0
CSR209	State Specific Customer Service	Introduction to state specific variations in coverage and service. Covers product knowledge, guidelines and processes for specific states in both auto and property lines.	Prerequisites: None.	L+L 1.0 2.0 2.0
CSR211	Auto Insurance Quotes	Procedures for providing auto insurance quotes and completing various payments. Covers tools for investigating	Prerequisites: None.	L+L 3.0 5.0 5.0

		rate changes as well as procedures for modifying account vehicles and driver information. Also includes account research techniques and reinstatement procedures.		
CSR212	Automobile Insurance Operations I	Automobile insurance member services representative operating procedures. Emphasis upon explanation of payment and rate information, the provision of written correspondence, and file information completion. Covers representative underwriting observation, fundamental need based sales principles, and phone system usage.	Prerequisites: None.	LEC 3.0 3.0 3.0
CSR213	Automobile Insurance Operations II	Auto insurance account operations. Includes the format and use of vehicle identification numbers (VIN) and the impact of regulation in the insurance industry. Also covers policy procedures including liability, exclusions, and credits. Review of the billing process and statements also covered.	Prerequisites: A grade of C or better in CSR212.	LEC 2.0 2.0 2.0
CSR214	Automobile Insurance Operations Lab	Practical application of auto insurance member services operational procedures. Includes use of the direct sales system to complete account navigation in addition to modification and billing procedures. Emphasis on effective communication skills, information gathering, and sales techniques.	Prerequisites: A grade of C or better in CSR213.	LAB 1.0 2.0 2.0
CSR215	Digital Telephone Customer Service	Digital telephone customer service provisions. Emphasis on the establishment and alteration of digital phone service. Covers phone number assignation, ancillary service provision, and public directory phone number listing information	Prerequisites: None.	L+L 1.0 2.0 2.0
CSR219	Disconnects and Transfers	Procedures for completing disconnects and transfers of service using the Integrated Communications Operations Management System. Includes restrictions, documentation, and scheduling issues	Prerequisites: None.	L+L 1.0 2.0 2.0
CSR220	Sales and Retention	Practical application for call center representatives. Covers skills and behaviors necessary for successful and effective completion of inbound sales and retention calls.	Prerequisites: Permission of Department or Division.	LAB 2.0 6.0 6.0
CSR224	Communications Industry Billing Practices	Provision of billing services to digital telecommunications industry customers. Covers database billing issues, billing policy concerns, payment acceptance, and adjustments processing.	Prerequisites: None.	L+L 1.0 2.0 2.0
CSR225	Digital Telecommunications Customer Service	Principles for the provision of digital telecommunications industry customer service. Emphasis upon the initiation of services to customers. Covers deposit collection, credit check performance,	Prerequisites: None.	LEC 2.0 2.0 2.0

		and Internet connection procedures. Includes digital television upgrade and pay-per-view provision information.		
CSR226	Digital Telecommunications Customer Interaction	Digital telecommunications industry customer service communication techniques. Emphasis on active listening and questioning strategies in the identification of digital telecommunications customer needs. Covers negotiation and customer valuation techniques	Prerequisites: None.	L+L 1.0 2.0 2.0
CSR228	Telecommunications Database Navigation	Telecommunications database navigation procedures. Emphasis on the documentation of customer service activities in a telecommunications database. Covers code and notation interpretation, function key usage, and work order data entry.	Prerequisites: None.	L+L 1.0 2.0 2.0
CSR232	Auto Insurance and Claims Overview	Overview of auto insurance coverage, including claims and claims handling. Emphasis on liability, uninsured and underinsured motorist, medical and physical damage	Prerequisites: None.	LEC 3.0 3.0 3.0
CSR233	Auto Damage Appraisal	Overview of various components of the automobile. Emphasis on types of damage that may require a claims report. Covers appraisal process, total losses, and vehicle design platforms	Prerequisites: None.	LEC 3.0 3.0 3.0
CSR242	Auto Insurance Loss Reports	Automobile insurance loss reports. Determination of fault and claims processing emphasized. Various types of damage covered as well as claim correspondence and compliance policies.	Prerequisites: None.	LEC 2.0 2.0 2.0
CSR243	Auto Insurance Loss Reports Lab	Practical application of processing of automobile insurance accident and loss reports. Emphasis on customer service while processing claims reports. Usage of computerized insurance system included.	Prerequisites: A grade of C or better in CSR242.	LAB 2.0 6.0 6.0
CSR280AB	Customer Service Internship	Customer service experience in business or industry. Eighty hours of designated work per credit. Maximum of eight credits allowed	Prerequisites: Permission of Department or Division.	L+L 2.0 2.0 2.0
CTE200	Career and Technical Education: Principles, Philosophy and Student Organizations	Examination of the role of career and technical educational (CTE) pathways as they relate to workforce development. Overview of career and technical student organizations (CTSO), occupational clusters, development and role of career and technical education, philosophy, history and impact of federal funding revenue streams, and career and technical delivery system.	Prerequisites: None.	LEC 3.0 3.0 3.0
CTE210	Career and Technical Education: Teaching Methods and Curriculum Development	Overview and practical application of teaching methodology and curriculum development for secondary education career and technical education	Prerequisites: None.	LEC 3.0 3.0 3.0

		teachers. Teaching strategies and learning styles covered. Curriculum design/mapping, lesson objectives, time management skills, teaching resources, and Arizona Department of Education Career and Technical Curriculum Framework Standards also included.		
CTE220	Career and Technical Education: Classroom Management and Lab Safety	Classroom management techniques. Classroom discipline models, student behavior and misbehavior, group dynamics, student self-motivation, and learning styles covered. Essentials of lab safety issues, including regulatory agencies and policies. State Board of Education Professional Teaching Standards emphasized.	Prerequisites: None.	LEC 4.0 4.0 4.0
CTR101	Court Reporting: Machine Shorthand Theory Block I	Basic court reporting machine shorthand theory.	Prerequisites: (45 wpm keyboarding or permission of Department or Division) and placement into ENG101 or ENG107 district placement exam OR permission of Department or Division.	L+L 6.0 10.0 10.0
CTR102	Court Reporting: Machine Shorthand Theory Block II	Introduction of court briefs and phrases.	Prerequisites: A grade of C or better in CTR101 or permission of Department or Division or Program Director.	L+L 6.0 10.0 10.0
CTR105	Court Reporting: Punctuation and Grammar	Application of the rules of punctuation, grammar, spelling, and capitalization to sentences, paragraphs, and transcripts through systematic testing and/or projects.	Prerequisites: None.	L+L 1.0 1.0 1.0
CTR106	Court Reporting: Legal Terminology	Civil/criminal law, the judicial system, legal terminologies, and researching legal citations.	Prerequisites: None.	L+L 1.0 1.0 1.0
CTR107	Court Reporting: Medical Terminology	Body systems and functions. Psychological and physical diseases and drugs. Methods of researching medical information.	Prerequisites: None.	L+L 1.0 1.0 1.0
CTR197	Court Reporting Lab	Court reporting practice/transcription as assigned under supervision.	Prerequisites: None. Corequisites: CTR101.	LAB 1.0 5.0 0.0
CTR209	Judicial Procedures for Court Reporting	Professional procedures, techniques, ethics, and introduction to video applications for judicial court reporters. Proper transcription methods and correct formatting styles for transcript production.	Prerequisites: A grade of C or better in CTR102 or permission of Program Director.	L+L 3.0 5.0 5.0
CTR211	Judicial Internship	A minimum of 50 hours of participation in an actual courtroom deposition setting. Transcript production required.	Prerequisites: A grade of C or better in CTR209 and student must pass one (1) 200 words per minute Q/A test with speed and accuracy to meet court reporting industry standards or permission of Program Director.	LAB 1.0 4.0 0.0

CTR215	Computer-Aided Transcription	Computer terminology, trouble-shooting and basic maintenance of a computer-aided transcription (CAT) system. Court reporting system set-up, maintenance and operation. Realtime system applications in specific environments. Production of transcripts from dictation and with a computer-aided transcription system.	Prerequisites: A grade of C or better in (CTR101 and BPC101AA) or permission of Department or Division.	L+L 3.0 3.0 3.0
CTR251	Court Reporting Speed Building Block III	Instruction, dictation, and readback in speeds of 80-100 wpm in Literary Material; 100-120 wpm in Jury Charge Material; 120-140 wpm in Question/Answer Testimony Material with a minimum of 95% accuracy.	Prerequisites: A grade of C or better in CTR102 or permission of Department or Division.	L+L 14.0 20.0 20.0
CTR251AA	Court Reporting Skill Building: Block III Literary Material	Development of speed and accuracy skills with dictation, readback, and transcription in literary material. Speed requirements of 80 and 100 words per minute (wpm) with a speed and accuracy to meet court reporting industry standards.	Prerequisites: A grade of C or better in CTR102 or permission of Program Director. Corequisites: (CTR251AB or CTR252AB or CTR253AB) and (CTR251AC or CTR252AC or CTR253AC).	L+L 4.0 4.0 4.0
CTR251AB	Court Reporting Skill Building: Block III Jury Charge Material	Development of speed and accuracy skills with dictation, readback, and transcription in jury charge material. Speed requirements of 100 and 120 words per minute (wpm) with speed and accuracy to meet court reporting industry standards.	Prerequisites: A grade of C or better in CTR102 or permission of Program Director. Corequisites: (CTR251AA or CTR252AA or CTR253AA) and (CTR251AC or CTR252AC or CTR253AC).	L+L 4.0 4.0 4.0
CTR251AC	Court Reporting Skill Building: Block III Question/Answer Testimony Material	Development of speed and accuracy skills with dictation, readback, and transcription in question/answer material. Speed requirements of 120 and 140 words per minute (wpm) with speed and accuracy to meet court reporting industry standards.	Prerequisites: A grade of C or better in CTR102 or permission of Program Director. Corequisites: (CTR251AA or CTR252AA or CTR253AA) and (CTR251AB or CTR252AB or CTR253AB).	L+L 6.0 12.0 12.0
CTR252	Court Reporting Speed Building Block IV	Instruction, dictation, and readback in speeds of 120-140 wpm in Literary Material; 140-160 wpm in Jury Charge Material; 160-180 wpm in Question/Answer Testimony Material with a minimum of 95% accuracy.	Prerequisites: A grade of C or better in CTR251 or permission of Department or Division.	L+L 14.0 20.0 20.0
CTR252AA	Court Reporting Skill Building: Block IV Literary Material	Development of speed and accuracy skills with dictation, readback, and transcription in literary material. Speed requirements of 120 and 140 words per minute (wpm) with speed and accuracy to meet court reporting industry standards.	Prerequisites: A grade of C or better in CTR251AA or permission of Program Director. Corequisites: (CTR251AB or CTR252AB or CTR253AB) and (CTR251AC or CTR252AC or CTR253AC).	L+L 4.0 4.0 4.0
CTR252AB	Court Reporting Skill Building: Block IV Jury Charge Material	Development of speed and accuracy skills with dictation, readback, and transcription in jury charge material. Speed requirements of 140 and 160 words per minute (wpm) with speed and	Prerequisites: A grade of C or better in CTR251AB or permission of Program Director. Corequisites: (CTR251AA or CTR252AA or CTR253AA) and	L+L 4.0 4.0 4.0

		accuracy to meet court reporting industry standards.	(CTR251AC or CTR252AC or CTR253AC).	
CTR252AC	Court Reporting Skill Building: Block IV Question/Answer Testimony Material	Development of speed and accuracy skills with dictation, readback, and transcription in question/answer material. Speed requirements of 160 and 180 words per minute (wpm) with speed and accuracy to meet court reporting industry standards.	Prerequisites: A grade of C or better in CTR251AC or permission of Program Director. Corequisites: (CTR251AA or CTR252AA or CTR253AA) and (CTR251AB or CTR252AB or CTR253AB).	L+L 6.0 12.0 12.0
CTR253	Court Reporting Speed Building Block V	Instruction, dictation, and readback in speeds of 160-180 wpm in Literary Material; 180-200 wpm in Jury Charge Material; 200-225 wpm in Question/Answer Testimony Material with a minimum of 95% accuracy.	Prerequisites: A grade of C or better in CTR252 or permission of Department or Division.	L+L 14.0 20.0 20.0
CTR253AA	Court Reporting Skill Building: Block V Literary Material	Development of speed and accuracy skills with dictation, readback and transcription in literary materials. Speed requirements 160 and 180 words per minute (wpm) with speed and accuracy to meet court reporting industry standards.	Prerequisites: A grade of C or better in CTR252AA or permission of Program Director. Corequisites: (CTR251AB or CTR252AB or CTR253AB) and (CTR251AC or CTR252AC or CTR253AC).	L+L 4.0 4.0 4.0
CTR253AB	Court Reporting Skill Building: Block V Jury Charge Material	Development of speed and accuracy skills with dictation, readback and transcription in jury charge materials. Speed requirements 180 and 200 words per minute (wpm) with speed and accuracy to meet court reporting industry standards.	Prerequisites: A grade of C or better in CTR252AB or permission of Program Director. Corequisites: (CTR251AA or CTR252AA or CTR253AA) and (CTR251AC or CTR252AC or CTR253AC).	L+L 4.0 4.0 4.0
CTR253AC	Court Reporting Skill Building: Block V Question/Answer Testimony Material	Development of speed and accuracy skills with dictation, readback, and transcription in question/answer material. Speed requirements of 200 and 225 words per minute (wpm) with speed and accuracy to meet court reporting industry standards.	Prerequisites: A grade of C or better in CTR252AC or permission of Program Director. Corequisites: (CTR251AA or CTR252AA or CTR253AA) and (CTR251AB or CTR252AB or CTR253AB).	L+L 6.0 12.0 12.0
CTR253AD	Court Reporting Skill Building Review	Progression and retention of speed and accuracy skills with dictation, readback, and transcription in literary, jury charge, and question/answer material.	Prerequisites: A grade of C or better in CTR253AA, or CTR253AB, or CTR253AC, or permission of Program Director.	LAB 3.0 20.0 0.0
CTR271	Scoping	Ability to read machine shorthand steno notes and employ Computer-Aided Transcript (CAT) software to edit/correct court reporters' files with an emphasis on correct transcript formatting structure. Concentration on grammar, punctuation, proofreading skills, and accuracy to produce transcripts, including but not limited to trials, depositions, conferences, arbitrations, and other administrative hearings.	Prerequisites: A grade of C or better in (BPC101AA, CTR101, and CTR215) or permission of Department or Division.	L+L 2.0 2.0 2.0
CTR272	Transcription	Machine shorthand transcription, realtime writing from audio and/or video files, with an emphasis on correct	Prerequisites: A grade of C or better in (BPC101AA, CTR101, CTR215, and	L+L 2.0 2.0 2.0

		transcript formatting structure. Concentration on dictation, transcription, proofreading skills and accuracy. Computerized machine shorthand in conjunction with specialized Computer-Aided Transcription (CAT) software to generate transcripts that would include medical, interviews, judicial hearings, dissertations, and meetings.	CTR271) or permission of Department or Division.	
CTR290	Registered Professional Reporter Preparation	Live dictation practice to increase speed in any machine shorthand system in preparation for the national Court Reporters Association Registered Professional Reporter (RPR) Exam.	Prerequisites: One year of machine shorthand.	LEC 2.0 2.0 2.0
CTR291	Extended Machine Shorthand Practice	Dictation and testing in Literary, Jury Charge, and Question/Answer testimony material at incremental speeds for the purpose of the student to increase machine shorthand speed and accuracy. Readback of paper or computerized notes.	Prerequisites: Permission of Program Director or Instructor.	LAB 2.0 2.0 2.0
CTT110	Introduction to Caterpillar Service Industry	Introduction to the Caterpillar organization and product line, basic shop safety, and shop operation. Includes computer operations and service information systems.	Prerequisites: Permission of Department or Division.	L+L 3.0 5.0 5.0
CTT111	Caterpillar Engine Fundamentals	Introduction to diesel engine theory and service procedures. Focuses on Caterpillar engine systems and applications.	Prerequisites: A grade of C or better in CTT110.	L+L 4.0 8.0 8.0
CTT112	Hydraulic Fundamentals	Hydraulic fundamentals, including functions of valves used in Caterpillar hydraulic systems, functions of vane pumps, gear pumps, and piston pumps, and assembly and disassembly of hydraulic components. Includes ISO hydraulic symbols.	Prerequisites: A grade of C or better in CTT110.	L+L 3.0 5.0 5.0
CTT113	Fuel Systems	Introduction to fuel systems used in Caterpillar engines. Covers fuel selection, calibrations, and nozzle testing procedures, governor operation, and hydraulic fuel ratio controls. Includes 1.1 and 1.2 MUI and HEUI, EUI, Nippondenso, and Zexel fuel systems.	Prerequisites: A grade of C or better in CTT110.	L+L 3.0 5.0 5.0
CTT114	Basic Electrical Fundamentals	Basic electrical and electronic principles used by the technician to diagnose and repair electrical systems in Caterpillar machines.	Prerequisites: A grade of C or better in CTT110.	L+L 3.0 5.0 5.0
CTT115	Air Conditioning Fundamentals	Introduction to principles, systems, components, and servicing of air conditioning systems used in Caterpillar products.	Prerequisites: A grade of C or better in CTT110.	L+L 3.0 5.0 5.0
CTT116	Power Train I	Basic components and operations of power train systems used in Caterpillar machines. Covers basic components, clutches, manual shift transmissions, and power shift transmissions.	Prerequisites: A grade of C or better in CTT110.	L+L 3.0 5.0 5.0

CTT117	Machine Hydraulic Systems	Operation, testing, and adjustment procedures for pilot operated hydraulic systems, load sensing pressure compensated (LSPC) hydraulic systems, electro-hydraulic systems, and hydrostatic systems. Components of hydraulic systems and oil flow through the system.	Prerequisites: A grade of C or better in CTT110.	L+L 3.0 5.0 5.0
CTT118	Caterpillar Dealer Internship I	Application of skills and knowledge gained in CTT coursework in an internship in a dealership environment. Develops professional skills required of Caterpillar service technician. Provides experience in tool usage, shop safety, connective devices, computers and service information systems, air intake and exhaust systems, lubrication systems, cooling systems, fuel systems, engines, and electrical systems. Requires intern to complete a list of learning objectives, keep a logbook, and be evaluated by dealership supervisor and internship coordinator.	Prerequisites: A grade of C or better in CTT110.	LAB 3.0 3.0 0.0
CTT119	Caterpillar Dealer Internship II	Application of skills and knowledge gained in CTT coursework in an internship in a dealership environment. Develops professional skills required of Caterpillar service technician. Provides experience in hydraulics, pumps, valves, cylinders, and pilot-operated implement system. Requires intern to complete a list of learning objectives, keep a logbook, and be evaluated by dealership supervisor and internship coordinator.	Prerequisites: A grade of C or better in CTT110.	LAB 3.0 3.0 0.0
CTT200	Power Train II	Methods of transferring power. Hydraulic-driven machines and mechanical power train components, including differentials, brakes, final drives, and undercarriage.	Prerequisites: A grade of C or better in CTT110.	L+L 3.0 5.0 5.0
CTT201	Machine Electronics	Introduction to machine electronic systems and diagnostic tooling used to diagnose and repair the complex electrical/electronic systems installed in Caterpillar machines.	Prerequisites: A grade of C or better in CTT110.	L+L 3.0 5.0 5.0
CTT202	Engine Diagnostics and Repair	In-depth study of engine diagnostics and repair techniques used to troubleshoot and repair engine problems in Caterpillar machines. Selection and use of Caterpillar diagnostic tools. Covers oil, air, cooling, and fuel systems.	Prerequisites: A grade of C or better in CTT110.	L+L 3.0 5.0 5.0
CTT203	Machine Diagnostics	Failure analysis, troubleshooting logic, and diagnostic tooling and processes used to diagnose and repair the complex systems installed in Caterpillar machines. Use of Caterpillar's Applied Failure Analysis. Introduction to Service	Prerequisites: A grade of C or better in CTT110.	L+L 3.0 5.0 5.0

		Technician Workbench (STW) applications.		
CTT204	Machine Specific Systems	Introduction to machine-specific systems. Machines covered include compact construction equipment, agricultural combines and challengers, 325B Excavator, off-highway trucks, wheel tractor scrapers, and motor graders.	Prerequisites: A grade of C or better in CTT110.	L+L 3.0 5.0 5.0
CTT205	Caterpillar Dealer Internship III	Application of skills and knowledge gained in CTT coursework in an internship in a dealership environment. Develops professional skills required of Caterpillar service technician. Provides experience in air conditioning systems, power trains, couplings, transmissions, and hydraulic systems. Requires intern to complete a list of learning objectives, keep a logbook, and be evaluated by dealership supervisor and internship coordinator.	Prerequisites: A grade of C or better in CTT110.	LAB 3.0 3.0 0.0
CTT206	Caterpillar Dealer Internship IV	Application of skills and knowledge gained in CTT coursework in an internship in a dealership environment. Develops professional skills required of Caterpillar service technician. Provides experience in lubrication systems, engine air induction systems, cooling systems, fuel systems, timing systems, failure analysis, diagnosis, and troubleshooting of specific types of Caterpillar equipment. Requires intern to complete a list of learning objectives, keep a logbook, and be evaluated by dealership supervisor and internship coordinator.	Prerequisites: A grade of C or better in CTT110.	LAB 3.0 3.0 0.0
CUL101	Culinary Basics	Theory and practice of basic elements of culinary arts fundamentals. Emphasis on safety, sanitation and uniform requirements, culinary terminology, basic nutritional guidelines, equipment needs and usage, standard measurements, knife selection and care, basic knife cuts, and fruit and vegetable identification and preparation.	Prerequisites: None.	LEC 3.0 3.0 3.0
CUL102	Hot Foods	Cooking techniques and preparation of varied meat, fish and poultry items. Theory and practice of production of stocks, sauces, and soups. Study of butchering, yields, purchasing and grade classification.	Prerequisites: None.	LEC 3.0 3.0 3.0
CUL103	Breakfast and Cold Foods	Cooking techniques and preparation of breakfast items, salads, sandwiches, and dressings. Theory and practice of production of egg, pasta, cheeses, and fruit dishes, canap's and hors d' oeuvre creations. Study of lettuces, fruits, grains, cheeses and dressings as components of salads and sandwiches.	Prerequisites: None.	LEC 3.0 3.0 3.0

CUL104	Bakery and Pastry	Provides a study of cooking techniques and preparation methods for cakes, pies, cookies and simple desserts as well as production of doughs and breads. Includes preparation of various bakery sauces and toppings, uses of chocolate, and appropriate presentation methods for various types of desserts.	Prerequisites: None.	LEC 3.0 3.0 3.0
CUL105	Principles of Professional Cooking	Introductory principles and skills for professional cooking. Introduces organizational structure of kitchen staff in different types of kitchens. Includes basic principles of safety and sanitation, equipment and utensil use, French cooking terms, recipe use, measuring techniques, identification and use of seasoning agents, and basic cooking methods applied to stocks, sauces and soups, vegetables, starches, entrees, and eggs. Emphasis on practical experiences in a commercial kitchen.	Prerequisites: None.	L+L 3.0 5.0 5.0
CUL107	Principles and Techniques of Garde Manger	Prepares students for employment in garde manger pantry positions in restaurants and resorts. Includes costing out and ordering food products; food and safety factors; preparing and garnishing pantry product. Emphasis on classical food presentation.	Prerequisites: A grade of C or better in CUL105 or permission of Program Director.	L+L 3.0 5.0 5.0
CUL109	Menu Planning Development	Principles and techniques of menu planning for food service operations where food is served in quantity; includes applications for health care institutions, commercial kitchens, school cafeterias, and industrial facilities.	Prerequisites: None.	LEC 2.0 2.0 2.0
CUL111	Purchasing for Food Service Systems	Food purchasing for institutions: cost factors, quality standards, purchasing practices and controls.	Prerequisites: None.	LEC 3.0 3.0 3.0
CUL113	Commercial Baking Techniques	Principles and techniques for preparation, storage, and serving of bakery products. Includes breads, cakes, pies, pastry, cookies, fillings, and icings. Emphasis on practical experiences in a commercial bakery.	Prerequisites: None.	L+L 3.0 5.0 5.0
CUL115	Food Service Sanitation, Safety and Stewarding	Focuses on the theory and practice of food service safety and sanitation. Emphasis on understanding and applying the Hazard Analysis Critical Control Points (HACCP) concept. Reviews legal elements of food service sanitation based on requirements and recommendations of Maricopa County Health Department. Focuses on stewarding as an important kitchen support service with emphasis on appropriate practices and principles of receiving food and product rotation	Prerequisites: None.	LEC 2.0 2.0 2.0
CUL117	Catering - Planning and Production	Focuses on the basic steps of the catering process in a commercial food setting. Includes a review of safety and	Prerequisites: A grade of C or better in CUL105.	LAB 1.0 3.0 3.0

		sanitation principles. Emphasizes practical experiences in booking and record keeping, planning, ordering, production, and service set-up and break-down for both in-house and off-premise catered events.		
CUL119	Baking Theory and Retail Operations	Baking principles to include detailed study of ingredients, heat transfer, and recipe conversions. Basic business operations for a retail bakery including bakery product line and floor plan design.	Prerequisites: None.	LEC 3.0 3.0 3.0
CUL120	Food Costing, Purchasing and Inventory Control	Basic skills necessary to understand and utilize cost controls. Focus on measurements, recipe costing and yield analysis. Application of systems and practices for efficient food purchasing, storage, production, budgeting and inventory.	Prerequisites: None.	L+L 3.0 3.0 3.0
CUL121	Principles of Food and Beverage Service	Qualities and skills necessary for successful food and beverage service. Includes room planning and setup, duties of service staff, types of service, customer relations, dining room etiquette, and cash management.	Prerequisites: None.	LEC 3.0 3.0 3.0
CUL123	Customer Service Practicum	Professional food and beverage experience in a commercial food service operation. Focuses on food server, host/hostess, cashier, and busperson. Includes beverage preparation, application of sanitation, and safety concepts. Stresses professionalism in service, demeanor, and appearance.	Prerequisites: A grade of C or better in FON104.	L+L 4.0 11.0 11.0
CUL123AA	Customer Service Practicum	Professional food and beverage experience in a commercial food service operation. Focuses on food server, host/hostess cashier, busperson. Includes beverage preparation, application of sanitation and safety concepts. Stresses professionalism in service, demeanor, and appearance.	Prerequisites: A grade of C or better in FON104 and Permission of Department or Division.	L+L 1.0 4.0 0.0
CUL123AB	Customer Service Practicum	Professional food and beverage experience in a commercial food service operation. Focuses on food server, host/hostess cashier, bus person. Includes beverage preparation, application of sanitation and safety concepts. Stresses professionalism in service, demeanor, and appearance.	Prerequisites: None.	L+L 2.0 5.0 5.0
CUL127	Classical Desserts	Advanced principles and techniques in commercial baking and dessert preparation. Focus on fine pastries with European flair and on desserts served in better hotels, restaurants, and resorts. Preparation of macaroons, tarts, puff pastries, specialty cakes, and desserts such as Bavarian creams, mousses, custards, souffles, crepe desserts, and flammes. Preparation	Prerequisites: A grade of C or better in CUL113, or permission of Program Director.	L+L 3.0 5.0 5.0

		and use of sauces, techniques for using nuts and chocolate, and exploration of new recipes.		
CUL130	Savory Foods I	Studies all facets of hot foods with an emphasis on French and regional cooking techniques; including vegetable preparation, stocks, sauces, and soups. Reviews ingredients, production and plating techniques that are unique to contemporary, international and regional cuisines.	Prerequisites: None.	L+L 6.0 7.5 7.5
CUL131	Customer Services in Food Service Systems	Customer service principles and procedures in commercial food service operations. Focuses on experiences in busing, waiter/waitressing, hosting, and beverage preparation in a coffee shop or at catered events. Emphasis on professionalism. Includes principles of safety and sanitation.	Prerequisites: None.	LAB 1.0 3.0 3.0
CUL137	Specialty Breads and Breakfast Pastry	The preparation of classical and artisan breads using advanced production techniques and skills. Classic breakfast pastry, with the production of laminated doughs, sweet doughs, and rich yeast doughs to include Danish, croissant, puff pastry, brioche, and other international classics. Completion of edible centerpieces made out of various styles of bread.	Prerequisites: A grade of C or better in CUL113 or permission of Program Director.	L+L 3.0 5.0 5.0
CUL140	Culinary Principles and Kitchen Management I	Historical background of the culinary profession and food components. Overview of kitchen administration and responsibilities. Includes food history, terminology, tools and equipment, food preparation, tasting and sensory evaluation, stocks and sauces, herbs and spices, chocolates, vegetables, fruits, pasta, grains and cheeses	Prerequisites: None.	LEC 3.0 3.0 3.0
CUL145	Banquet Food and Beverage Service Externship	Waiter/waitress serving experiences in a banquet setting; includes instructor-assisted placement, orientation, job seeking skills, and working a minimum of four banquets or twenty-four hours in banquet service. Professional appearance and attire required.	Prerequisites: A grade of C or better in CUL121, CUL123, and FON104.	LAB 1.0 5.0 0.0
CUL150	Garde Manger I	Provides a foundation in Garde Manger. Includes equipment, sanitation and safety, production, salads, emulsified and non-emulsified dressings, sandwiches, cold sauces, salad condiments, knife skills, cleaning of salad greens and spice and herb identification. Studies culinary terms and presentation techniques. Teaches cooking techniques such as poaching, sauteing, and grilling in the context of Garde Manger work.	Prerequisites: None.	L+L 2.0 3.5 3.5
CUL160	Bakery I	Theory and practice of operating a bakery or pastry shop in a hotel or	Prerequisites: None.	L+L 3.0 5.0 5.0

		restaurant kitchen. Provides experience in planning, ordering, scheduling and producing fine French and American pastries and baked goods. Emphasis on rapid, high-quality hand production of doughs, creams, fillings, cookies and breads.		
CUL170	Dining Room Operations I	Focuses on theory and practice of operating a casual dining room; includes set-up and clean-up, food and beverage service, proper etiquette, point-of-sale operation and presenting guest checks. Emphasis on service techniques, including buffet and banquet set-ups, and customer accommodations.	Prerequisites: None.	L+L 3.0 5.8 5.8
CUL180	Food In History	Focuses on the history of foodstuffs, the story of cuisine and the social history of eating. Includes the relationship between people and what they eat, between particular foods and social behavior, and between dietary habits, customs and methods of cooking	Prerequisites: None.	LEC 3.0 3.0 3.0
CUL190	Catering Operations I	Studies theory and practice of planning and executing catering functions; includes initial customer contact and follow-up, room set-up and scheduling, menu and incidental planning event execution and breakdown, billing and post-event follow up	Prerequisites: None.	LEC 3.0 3.0 3.0
CUL201	International Cuisine	Gourmet international food preparation applied to restaurants. Review principles of sanitation and safety. Explores history and customs, serving styles, and preparation techniques of foods unique to selected international cultures. Emphasis on practical cooking experiences in a restaurant kitchen. Cultures to include, but not limited to: Italian, German, Oriental, Middle Eastern, and Spanish.	Prerequisites: A grade of C or better in CUL105 or permission of Program Director.	L+L 3.0 5.0 5.0
CUL203	American Regional Cuisine	American regional food preparation applied to restaurants. Review principles of sanitation and safety. Explores history and customs, serving styles, and preparation techniques of foods unique to selected American regions. Emphasis on practical cooking experiences in a restaurant setting. American regions to include, but not limited to: Southern, Cajun/Creole, New England, Mid-West, and Pacific Coast.	Prerequisites: A grade of C or better in CUL105 or permission of Program Director.	L+L 3.0 5.0 5.0
CUL205	French Cuisine	Principles of French cooking applied to restaurant kitchens. Includes review of safety and sanitation principles, orientation to French culture, use of French terms and recipes, and reading French menus. Emphasis on practical experiences in preparing French meals in a restaurant kitchen. Introduces	Prerequisites: A grade of C or better in CUL105 or permission of Program Director.	L+L 3.0 5.0 5.0

		preparation of appetizers, hors-d'oeurves, charcuterie items, pastries, and desserts.		
CUL207	Pacific Rim Cuisine	Local and gourmet Pacific Rim food preparation applied to restaurants. Overview of principles of sanitation and safety. Explores history and customs, serving styles, and preparation techniques of foods unique to Pacific Rim cultures. Emphasis on practical cooking experiences in a restaurant kitchen. Cultures to include, but not limited to Chinese, Japanese, Thai, Korean, and South Pacific islands.	Prerequisites: A grade of "C" or better in CUL105.	L+L 3.0 5.0 5.0
CUL209	Italian Cuisine	Principles of Italian cooking applied to restaurant kitchens. Includes review of safety and sanitation principles, orientation to Italian culture, use of Italian terms and recipes, and reading Italian menus. Emphasis on practical experiences in preparing Italian meals in a restaurant kitchen. Introduces preparation of appetizers, entrees, salads, fresh pasta items, pastries, and desserts.	Prerequisites: A grade of "C" or better in CUL105.	L+L 3.0 5.0 5.0
CUL210	Menu Planning and Facilities Design	Principles and techniques of menu planning and restaurant design for food service operations. Includes applications for health care institutions, commercial kitchens, and industrial facilities. Studies building codes and examines the relationships among equipment, staff and customers in the design of a facility	Prerequisites: None.	LEC 2.0 2.0 2.0
CUL211	Professional Cooking Practicum	Preparation of hot and cold foods in a commercial food service operation; experience in volume food production preparing salads, soups, stocks, sauces, entrees, starches, and vegetables; designed to develop knowledge and skills necessary to cook in a variety of commercial kitchens.	Prerequisites: A grade of C or better in (CUL105 and FON104) or permission of Department or Division.	L+L 7.0 19.0 19.0
CUL211AA	Professional Cooking Practicum	Preparation of hot and cold foods in a commercial food service operation; experience in volume food production preparing salads, soups, stocks, sauces, entrees, starches, and vegetables; designed to develop knowledge and skills necessary to cook in a variety of commercial kitchens.	Prerequisites: A grade of C or better in CUL105, FON104, and permission of Department or Division.	L+L 1.0 3.0 0.0
CUL211BA	Professional Cooking Practicum	Preparation of hot and cold foods in a commercial food service operation; experience in volume food production preparing salads, soups, stocks, sauces, entrees, starches, and vegetables; designed to develop knowledge and skills necessary to cook in a variety of commercial kitchens.	Prerequisites: A grade of C or better in (CUL105 and FON104) or permission of Department or Division. Corequisites: CUL211BB.	L+L 4.0 11.0 11.0

CUL211BB	Professional Cooking Practicum	Preparation of hot and cold foods in a commercial food service operation; experience in volume food production preparing salads, soups, stocks, sauces, entrees, starches, and vegetables; designed to develop knowledge and skills necessary to cook in a variety of commercial kitchens.	Prerequisites: A grade of C or better in (CUL105 and FON104) or permission of Department or Division. Corequisites: CUL211BA.	L+L 3.0 6.0 6.0
CUL213	Buffet Catering	Focuses on the basic steps of the catering process in a commercial food setting. Includes an overview of safety and sanitation principles. Emphasizes practical experiences in booking and record keeping, function planning, ordering, production, and service set-up and breakdown for both in-house and off-premise catered events.	Prerequisites: A grade of C or better in CUL105 or permission of Program Director.	L+L 3.0 5.0 5.0
CUL215	Advanced Pastry Arts	Advanced pastry arts and decorative work as applied to showpieces and special occasion cakes. Includes sugar work such as pulled, blown, and poured as well as the use of tempered and modeling chocolate. Design and execution of a three-tier wedding cake as well as work on a special occasion and team wedding cake using gum paste, pastillage, chocolate, or marzipan. Includes desserts for special diets and spa desserts.	Prerequisites: A grade of C or better in CUL113 or permission of Program Director.	L+L 3.0 5.0 5.0
CUL217	Wedding Cake Production	Basic and advanced execution for special occasion, wedding, and groom's cakes to include initial design work, baking, icing, and advanced finishing techniques to include the use of fondant and gum paste. Enhancement of cakes to include basic sugar, pastillage, and chocolate decoration.	Prerequisites: A grade of C or better in CUL113 or permission of Program Director.	L+L 3.0 5.0 5.0
CUL219	Professional Pastry Techniques	Advanced production techniques for plated desserts, frozen desserts, modern and classical gateaux, petits fours, and chocolates.	Prerequisites: A grade of C or better in CUL113 or permission of Program Director.	L+L 3.0 5.0 5.0
CUL220	Food Service Nutrition	Study of basic nutrition concepts with an emphasis on the nutritional concerns of restaurants and other types of food service operations. Focuses on nutrients in foods, the relationships to other nutrients and the planning of well-balanced menus throughout the life cycle	Prerequisites: None.	LEC 2.0 2.0 2.0
CUL223	Food Service Management	Administrative procedures and personnel relationships: Management of materials costs, record keeping and legal aspects of food and beverage service operations.	Prerequisites: None.	LEC 3.0 3.0 3.0
CUL225	Supervisory Functions in Food Service	Principles and techniques of supervision applied to food service workers. Includes roles and responsibilities of a food service supervisor, basic theories of management, line staffing functions,	Prerequisites: None.	LEC 3.0 3.0 3.0

		basic concepts of communication, motivation techniques, problem-solving, labor relations and laws, performance evaluation and basic record keeping functions in food service settings.		
CUL230	Savory Foods II	Hot food product utilization, preparation and display for contemporary, continental kitchen. Focuses on classical preparation skills with an emphasis on contemporary and international flavors in food production. Students also practice organization, communication, teamwork and plating skills. Food production includes the creation of appetizers, hors d'oeuvres, salads, and salad dressings; the use of grains and legumes; the production of charcuterie; and the creation of display pieces in both catering and kitchen environments.	Prerequisites: A grade of C or better in CUL130.	L+L 6.0 7.0 7.0
CUL231AA	Culinary Studies Internship	Work experience preparing hot and cold foods in a commercial food service operation, experience in volume food production preparing salads, soups, stocks, sauces, entrees, starches, and vegetables. Five (5) hours of work weekly. Supervision and evaluation by an internship coordinator.	Prerequisites: A grade of C or better in CUL105, FON104, and permission of Department or Division.	LAB 1.0 5.0 0.0
CUL231AB	Culinary Studies Internship	Work experience preparing hot and cold foods in a commercial food service operation, experience in volume food production preparing salads, soups, stocks, sauces, entrees, starches, and vegetables. Ten (10) hours of work weekly. Supervision and evaluation by an internship coordinator.	Prerequisites: A grade of C or better in CUL105, FON104, and permission of Department or Division.	LAB 2.0 10.0 0.0
CUL231AC	Culinary Studies Internship	Work experience preparing hot and cold foods in a commercial food service operation, experience in volume food production preparing salads, soups, stocks, sauces, entrees, starches, and vegetables. Fifteen (15) hours of work weekly. Supervision and evaluation by an internship coordinator.	Prerequisites: A grade of C or better in CUL105, FON104, and permission of Department or Division.	LAB 3.0 15.0 0.0
CUL235	Advanced Culinary Techniques I - Meats	Theory and practice of the varied uses and preparation of protein products. Emphasis on butchering, creating stocks, soups and sauces, cooking methodologies, cost effective applications, plating and selection of appropriate accompaniments and garnishes.	Prerequisites: A grade of C or better in CUL230 or industry equivalent.	L+L 2.0 2.0 2.0
CUL236	Advanced Culinary Techniques II - Seafood	Theory and practice of the varied uses and preparation of seafood products. Emphasis on butchering, creating stocks, soups and sauces, cooking methodologies, cost-effective applications, plating and selection of	Prerequisites: A grade of C or better in CUL230 or industry equivalent.	L+L 2.0 2.0 2.0

		appropriate accompaniments and garnishes.		
CUL237	Advanced Culinary Techniques III - Game and Poultry	Theory and practice of the varied uses and preparation of game and poultry products. Emphasis on butchering, creating stocks, soups and sauces, cooking methodologies, cost effective applications, plating and selection of appropriate accompaniments and garnishes.	Prerequisites: A grade of C or better in CUL230 or industry equivalent.	L+L 2.0 2.0 2.0
CUL240	Culinary Principles and Kitchen Management II	Advanced culinary and management practices instruction. Emphasis on principles and terminology used in contemporary kitchens. Identification and use of fish and shellfish and game. Understanding of wine, beer and spirits. Study of diversity of international cuisines and menu development. Special emphasis on management functions and practices for kitchen supervisors and chefs, staff hiring, training and evaluation, point of sale system components, cost accounting procedures, legal regulations and maintenance of records to understand and control profit and loss.	Prerequisites: A grade of C or better in CUL140.	LEC 3.0 3.0 3.0
CUL245	Professional Kitchen Management Techniques	Theory and practice of the key elements of kitchen leadership. Emphasis on identifying leadership and communication skills, understanding employment laws, establishing performance criteria, developing accountability, utilizing motivational procedures and training practices, controlling labor and food costs, maintaining guest satisfaction and bottom line profits.	Prerequisites: A grade of C or better in CUL240 or industry equivalent.	L+L 2.0 2.0 2.0
CUL250	Garde Manger II	Refinement of skills required in a Garde Manger Department. Preparation of appetizers, hors d'oeuvres, salads, salad dressings, use of grains and legumes, production of charcuterie and display pieces. Emphasis placed on eye appeal, texture, color contrast, artistic touch, taste and processing. Includes study of production and storage of ingredients, sanitation and hygiene standards	Prerequisites: A grade of C or better in CUL150.	L+L 2.0 4.0 4.0
CUL255	Advanced Garde Manger I - Salads and Sandwiches	Theory and practice of creating simple and complex salads and sandwiches. Emphasis on use of multiple ingredients for hot and cold products, dressings, emulsified oils and vinegars, condiments, production methodologies, cost effective applications, plating and appropriate accompaniments and garnishes.	Prerequisites: A grade of C or better in CUL250 or industry equivalent.	L+L 2.0 2.0 2.0

CUL256	Advanced Garde Manger II - Appetizers and Hors d'oeuvres	Theory and practice of the key elements in production of appetizers and hors d'oeuvres. Emphasis on ingredient selection, flavor combinations, preparation methodologies, cost effective applications, displaying, garnishing and plating.	Prerequisites: A grade of C or better in CUL250 or industry equivalent.	L+L 2.0 2.0 2.0
CUL260	Bakery II	Focuses on theory and practice of operating a bakery or pastry shop in a hotel or restaurant kitchen. Provides experience in planning, ordering, scheduling and producing fine French and American pastries and baked goods. Emphasis placed on rapid, high-quality hand production and assembly of breads, desserts and garnishes.	Prerequisites: A grade of C or better in CUL160.	L+L 3.0 7.5 7.5
CUL265	Professional Baking I - Base Products and Sauces	Theory and practice of the preparation of base products and sauces. Emphasis on creating finished products using basic components, creating sauces, and study of cooking methodologies, cost effective applications and plating techniques.	Prerequisites: A grade of C or better in CUL260 or industry equivalent.	L+L 2.0 2.0 2.0
CUL266	Professional Baking II - Breads and Rolls	Theory and practice of cooking techniques and procedures in the preparation of breads and rolls. Emphasis on hands-on production of scratch recipes, understanding formulas, ratios and ingredient interaction for producing high quality breads and rolls, cooking methodologies, and cost-effective applications. Focus on production of yeast-leavened breads, quick breads, laminated dough, unleavened dough and artisan style breads.	Prerequisites: A grade of C or better in CUL260 or industry equivalent.	L+L 2.0 2.0 2.0
CUL267	Professional Baking III - Pastries, Pies and Cakes	Theory and practice of the preparation of complex pastries, pies and cakes. Emphasis on cooking methodologies, high quality cost effective applications, and visually dramatic plating and garnishing techniques.	Prerequisites: A grade of C or better in CUL260 or industry equivalent.	L+L 2.0 2.0 2.0
CUL268	Professional Baking IV - Decorative and Design Work	Theory and practice of the varied uses and preparation of chocolate and sugar as decorative items. Emphasis on applications for advanced show work, cooking methodologies, cost effective applications for plated desserts and use as appropriate display pieces.	Prerequisites: A grade of C or better in CUL260 or industry equivalent.	L+L 2.0 2.0 2.0
CUL270	Dining Room Operations II	Theory and practice of operating a formal dining room, including set-up and clean-up, food and beverage service, proper etiquette and tableside food preparation. Emphasis on formal etiquette and service practices for a dining room including buffet and banquet set-up and managerial duties	Prerequisites: A grade of C or better in CUL170.	L+L 3.0 6.0 6.0

DAE212	Dental Assisting III	Advanced dental assisting skills, with an emphasis in assisting for dental specialty procedures, including pediatrics, endodontics, periodontics, orthodontics, prosthodontics, and oral and maxillofacial surgery. Additional emphasis will be on expanded functions procedures performed by the dental assistant, as well as patient records management and pharmacology related to dental treatment procedures.	Prerequisites: A grade of C or better in DAE156 or permission of Program Director.	LEC 2.0 2.0 2.0 LAB 0.0 2.0 2.0
DAE224	General Clinical Practice	Placement of students in general practice dental facilities for supervised practical experience.	Prerequisites: A grade of C or better in DAE112 and DAE156, or Permission of Program Director. Corequisites: DAE140 or permission of Program Director.	LAB 1.0 5.0 0.0
DAE225	Pediatric Clinical Practice	Placement of students in pediatric dental facilities for supervised practical experience.	Prerequisites: A grade of C or better in DAE112 and DAE156, or Permission of Program Director. Corequisites: DAE140 or permission of Program Director.	LAB 1.0 5.0 0.0
DAE226	Periodontal Clinical Practice	Placement of students in periodontal facilities for supervised practical experience.	Prerequisites: A grade of C or better in DAE112 and DAE156, or Permission of Program Director. Corequisites: DAE140 or permission of Program Director.	LAB 1.0 5.0 0.0
DAE227	Orthodontic Clinical Practice	Placement of students in orthodontic facilities for supervised practical experience.	Prerequisites: A grade of C or better in DAE112 and DAE156, or Permission of Program Director. Corequisites: DAE140 or permission of Program Director.	LAB 1.0 5.0 0.0
DAE228	Oral and Maxillofacial Surgery Clinical Practice	Placement of students in oral and maxillofacial surgical facilities for supervised practical experience.	Prerequisites: A grade of C or better in DAE112 and DAE156, or Permission of Program Director. Corequisites: DAE140 or permission of Program Director.	LAB 1.0 5.0 0.0

DAE240	Dental Radiographic Imaging	Dental radiographic imaging. Diagnostic value of radiographs, image geometry, exposure techniques, processing of intra-oral and extra-oral radiographs covered. X-ray production, exposure factors, and image characteristics emphasized. Identification of image defects and corrective measures. Biological effects of x-radiation, radiation safety, digitized radiography, infection control procedures, and legal implications also covered.	Prerequisites: Admission to the Clinical Dental Assisting Program or permission of Department or Division.	L+L 3.0 4.0 4.0
DAE256	Dental Assisting IV	Advanced dental assisting sciences, with an emphasis in the recognition of oral pathologies, use of technology in dentistry, intermediate dental office management skills, and legal considerations for the practice of dentistry. Additional emphasis will be placed on coronal polishing and community oral health.	Prerequisites: A grade of C or better in DAE212 or permission of Program Director.	LEC 2.0 2.0 2.0 LAB 0.0 2.0 2.0
DAE285	Clinical Dental Assisting Seminar	Overview of special topics in clinical dental assisting. Clinical internship evaluation included. Covers expanded functions, legal responsibilities and liabilities. One hundred (100) hours of designated work required.	Prerequisites: None. Corequisites: DAE290.	L+L 2.0 2.0 0.0
DAE290	Internship for Clinical Dental Assistants	Perform clinical dental assisting skills within a dental practice setting. Practice safety and infection control, clinical and expanded dental assisting, patient management, laboratory skills, business assisting, equipment operation, and maintenance. Operate within practice standards, and record and evaluate internship experience. Two hundred (200) hours of designated work required.	Prerequisites: Permission of Program Director. Corequisites: DAE285.	L+L 4.0 4.0 4.0
DAE298AA	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment are made available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 1.0 1.0 0.0
DAE298AB	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment are made available for student use. Allows the best aspects of independent study and	Prerequisites: Permission of Program Director or Instructor. DAN245	Tap Dance IV	Theory and practice of tap dance at an intermediate level.	Prerequisites: A grade of C or better in DAN240 or permission of Instructor.	L+L 1.0 3.0 3.0
DAN250	Dance Performance III	Continued study of the process and practice of dance performance at beginning intermediate level.	Prerequisites: A grade of C or better in DAN155 or permission of Instructor. Corequisites: Any level of any of the following dance technique courses with a	L+L 1.0 3.0 3.0

			DAN prefix: ballet, modern, jazz, hip hop, tap, social, or world dance.	
DAN255	Dance Performance IV	Continued study of the process and practice of dance performance at the intermediate level.	Prerequisites: A grade of C or better in DAN250 or permission of Instructor. Corequisites: Any level of any of the following dance technique courses with a DAN prefix: ballet, modern, jazz, hip hop, tap, social, or world dance.	L+L 1.0 3.0 3.0
DAN264	Choreography I	Study of basic dance choreography to include construction of a phrase, structure and form in a composition, and the basic elements of time, space and energy	Prerequisites: None.	L+L 3.0 3.0 3.0
DAN265	Choreography II	Exploration of choreography at the intermediate level. Experimentation with the various approaches to creative practice as established by 20th and 21st century artists.	Prerequisites: A grade of C or better in DAN264 or permission of Instructor.	L+L 3.0 3.0 3.0
DAN272	Dance Technology	Survey of the expanding field of technology as it pertains to the study and performance of dance.	Prerequisites: None.	L+L 3.0 3.0 3.0
DAN280	Dance Practicum	A culmination of coursework for the dance major requiring completion of an extended choreographic work from conception to performance. Also requires a final evaluative paper on the successes and challenges encountered throughout the project.	Prerequisites: Permission of Instructor.	L+L 2.0 3.0 3.0
DAN282AA	Service-Learning Experience in Dance	Unpaid Service-Learning (SL) experience, completed with approved community partner.	Prerequisites: Permission of Instructor.	LAB 1.0 1.0 0.0
DAN282AB	Service-Learning Experience in Dance	Unpaid Service-Learning (SL) experience, completed with approved community partner.	Prerequisites: Permission of Instructor.	LAB 2.0 2.0 0.0
DAN282AC	Service-Learning Experience in Dance	Unpaid Service-Learning (SL) experience, completed with approved community partner.	Prerequisites: Permission of Instructor.	LAB 3.0 3.0 0.0
DAN290AA	Dance Conservatory I	An intensive course focusing on the theory and practice of dance technique including, but not limited to, ballet, modern dance, modern jazz, pilates, yoga and dance performance at the beginning level. Study of repertory and development of movement quality and performance skills. Includes an informal public showing of dance technique and performance skills.	Prerequisites: None.	L+L 1.0 3.0 3.0
DAN290AB	Dance Conservatory I	An intensive course focusing on the theory and practice of dance technique including, but not limited to, ballet, modern dance, modern jazz, pilates, yoga and dance performance at the beginning level. Study of repertory and development of movement quality and	Prerequisites: None.	L+L 2.0 6.0 6.0

		performance skills. Includes an informal public showing of dance technique and performance skills.		
DAN290AC	Dance Conservatory I	An intensive course focusing on the theory and practice of dance technique including, but not limited to, ballet, modern dance, modern jazz, pilates, yoga and dance performance at the beginning level. Study of repertory and development of movement quality and performance skills. Includes an informal public showing of dance technique and performance skills.	Prerequisites: None.	L+L 3.0 9.0 9.0
DAN291AA	Dance Conservatory II	An intensive course focusing on the theory and practice of dance technique including, but not limited to, ballet, modern dance, modern jazz, pilates, yoga and dance performance at the intermediate level. Study of repertory and development of movement quality and performance skills. Includes an informal public showing of dance technique and performance skills.	Prerequisites: A grade of C or better in (DAN131and DAN132) or permission of Instructor.	L+L 1.0 3.0 3.0
DAN291AB	Dance Conservatory II	An intensive course focusing on the theory and practice of dance technique including, but not limited to, ballet, modern dance, modern jazz, pilates, yoga and dance performance at the intermediate level. Study of repertory and development of movement quality and performance skills. Includes an informal public showing of dance technique and performance skills.	Prerequisites: A grade of C or better in (DAN131and DAN132) or permission of Instructor.	L+L 2.0 6.0 6.0
DAN291AC	Dance Conservatory II	An intensive course focusing on the theory and practice of dance technique including, but not limited to, ballet, modern dance, modern jazz, pilates, yoga and dance performance at the intermediate level. Study of repertory and development of movement quality and performance skills. Includes an informal public showing of dance technique and performance skills.	Prerequisites: A grade of C or better in (DAN131and DAN132) or permission of Instructor.	L+L 3.0 9.0 9.0
DAN292AA	Dance Conservatory III	An intensive course focusing on the theory and practice of dance technique including, but not limited to, ballet, modern dance, modern jazz, pilates, yoga and dance performance at the advanced level. Study of repertory and development of movement quality and performance skills. Includes an informal public showing of dance technique and performance skills.	Prerequisites: A grade of C or better in (DAN134 and DAN135) or permission of Instructor.	L+L 1.0 3.0 3.0
DAN292AB	Dance Conservatory III	An intensive course focusing on the theory and practice of dance technique including, but not limited to, ballet, modern dance, modern jazz, pilates, yoga and dance performance at the advanced level. Study of repertory and	Prerequisites: A grade of C or better in (DAN134 and DAN135) or permission of Instructor.	L+L 2.0 6.0 6.0

		development of movement quality and performance skills. Includes an informal public showing of dance technique and performance skills.		
DAN292AC	Dance Conservatory III	An intensive course focusing on the theory and practice of dance technique including, but not limited to, ballet, modern dance, modern jazz, pilates, yoga and dance performance at the advanced level. Study of repertory and development of movement quality and performance skills. Includes an informal public showing of dance technique and performance skills.	Prerequisites: A grade of C or better in (DAN134 and DAN135) or permission of Instructor.	L+L 3.0 9.0 9.0
DAN293	Teaching Dance in Elementary Education	Introduction to theories and methods of teaching dance and movement in the elementary school setting. Includes planning, facilitating, and assessing dance and movement experiences for grades K-6.	Prerequisites: A grade of C or better in (BIO160, DAN231, DAN232, DAN233 and DAN264) or permission of Instructor.	LEC 3.0 3.0 3.0
DAN294	Teaching Dance In Secondary Education	Introduction to the theories and methods of teaching dance and movement in the elementary school setting. Includes planning, facilitating, and assessing dance and movement experiences for grades K-6.	Prerequisites: A grade of C or better in (BIO160, DAN231, DAN232, DAN233 and DAN264) or permission of Instructor.	LEC 3.0 3.0 3.0
DAN295	Teaching and Management of Studio Dance	Expands upon teaching/learning processes in the area of dance as relates to studio dance setting and exploration of management skills.	Prerequisites: A grade of C or better in (BIO160, DAN231, DAN232, DAN233 and DAN264) or permission of Instructor.	LEC 3.0 3.0 3.0
DAN298AA	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 1.0 1.0 0.0
DAN298AB	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 2.0 2.0 0.0
DAN298AC	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research	Prerequisites: Permission of Program Director or Instructor.	LAB 3.0 3.0 0.0

		and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE		
DFT105AA	Computer Aided Drafting I: AutoCAD	Industrial use of AUTOCAD equipment (hardware and software) in the areas of mechanical, electronic and construction drawings	Prerequisites: None.	L+L 3.0 6.0 6.0
DFT106	Algebra and Graphs for Design Technology	Algebraic principles and applications used in the design trades. Additional topics in the use of rectangular coordinates.	Prerequisites: A grade of C or better in MAT092 or equivalent or 1 year of high school algebra or permission of Department or Division.	LEC 3.0 3.0 3.0
DFT107	Trigonometry and Analytic Geometry for Design Technology	An introduction to plane trigonometry and plane and solid geometry with practical applications to the field of design drafting. Problems in the analysis of force, stress, and vectors as well as primary geometric considerations	Prerequisites: A grade of C or better in DFT106 or equivalent.	LEC 3.0 3.0 3.0
DFT110	Introduction to Drafting	Fundamentals of drafting including lettering, basic drawing concepts, geometric construction and multiview projection.	Prerequisites: None.	L+L 3.0 6.0 6.0
DFT111	Intermediate Drafting	Dimensioning and tolerancing, sectional views and auxiliary views.	Prerequisites: A grade of C or better in DFT105AA, or DFT110, or equivalent.	L+L 3.0 6.0 6.0
DFT112	Advanced Drafting	Detail and assembly drawings, dimensioning and tolerancing per current manufacturing standards.	Prerequisites: A grade of C or better in (DFT111 and DFT254AA) or equivalent.	L+L 3.0 6.0 6.0
DFT114	Machine Trades Blueprint Reading	Analysis and interpretation of technical drawings, common to manufacturing and the machine trades	Prerequisites: None.	LEC 3.0 3.0 3.0
DFT115	Geometric Dimensioning and Tolerancing	Principles and application of the latest techniques in geometric dimensioning and tolerancing in accordance with current American Society of Mechanical Engineers (ASME) Y14.5M. Recommended for all manufacturing personnel who read or produce engineering drawings related to contracts with the U.S. Government.	Prerequisites: A grade of C or better in DFT110 or Corequisites: DFT110 or permission of Department or Division.	LEC 3.0 3.0 3.0
DFT126	Building Trades Blueprint Reading	Analysis and interpretation of technical drawings common to the construction industry and building trades	Prerequisites: None.	LEC 3.0 3.0 3.0
DFT254AA	Computer Aided Drafting II: AutoCAD	Advanced AutoCAD techniques in constructing three-dimensional objects and symbols, dimensioning and text; advanced techniques for projection, rotation, and translation of objects; advanced plotter use.	Prerequisites: A grade of C or better in DFT105AA or equivalent or permission of Department or Division.	L+L 3.0 6.0 6.0
DFT255	3D Printing/Additive Manufacturing	Rapidly advancing additive manufacturing (AM) technologies, often	Prerequisites: A grade of C or better in DFT254AA or or	L+L 4.0 4.0 4.0

		called 3D printing, provide us a direct way of converting digital data into physical objects. Additive manufacturing enables the building of customized parts previously impossible to fabricate. Design for additive manufacturing teaches background, terminology, fundamentals designing for additive manufacturing, and current AM technology as well as advantages and limitations of 3D printing, materials, and post-processing. Students will learn and apply technique through lab activities, machine operation and maintenance, part design and analysis, adapting stereolithography files, printing models, and post-processing.	permission of Department or Division.	
DFT296WA	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. COMMON COMPETENCY COURSE	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and be able to obtain a position related to students academic or career goals (students present job may qualify or permission of instructor Corequisites: Must be concurrently enrolled in at least one class which is related to students major or career interest or with permission of Instructor.	LAB 1.0 5.0 0.0
DFT296WB	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. COMMON COMPETENCY COURSE	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and be able to obtain a position related to students academic or career goals (students present job may qualify or permission of instructor Corequisites: Must be concurrently enrolled in at least one class which is related to students major or career interest or with permission of Instructor.	LAB 2.0 10.0 0.0
DFT296WC	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. COMMON COMPETENCY COURSE	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and be able to obtain a position related to students academic or career goals (students present job may qualify or permission of instructor Corequisites: Must be concurrently enrolled in at least one class which is related to students major or career interest or with permission of Instructor.	LAB 3.0 15.0 0.0

DFT296WD	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. COMMON COMPETENCY COURSE	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and be able to obtain a position related to students academic or career goals (students present job may qualify or permission of instructor Corequisites: Must be concurrently enrolled in at least one class which is related to students major or career interest or with permission of Instructor.	LAB 4.0 20.0 0.0
DFT298AA	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 1.0 1.0 0.0
DFT298AB	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 2.0 2.0 0.0
DFT298AC	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 3.0 3.0 0.0
DHE110	Pharmacology	Study of the principles of pharmacology and drugs affecting oral health and dental treatment. Topics include drug interactions, oral manifestations, drugs used in dentistry and alternative medicine.	Prerequisites: Admission to the Dental Hygiene Program or permission of Instructor.	LEC 3.0 3.0 3.0
DHE112	Oral Pathology	Identification, classification, etiology and treatment of lesions of the oral mucosa and atypical conditions of the oral cavity	Prerequisites: Admission to the Dental Hygiene Program or permission of Instructor.	LEC 3.0 3.0 3.0

		and supporting structures. Understanding of abnormal conditions to recognize the parameters of comprehensive dental hygiene care. Multimedia resources are used extensively for identification of oral lesions.		
DHE115	Emergency Medicine	Introduction to recording and interpreting medical history. Additional topics include: recognition of signs and symptoms of medical emergencies, procedures and techniques introduced to prevent emergencies and management of emergency situations in the dental environment.	Prerequisites: Admission to the Dental Hygiene Program.	LEC 2.0 2.0 2.0
DHE117	Dental Radiography	Physics of radiography, theory of radiation production, exposure techniques, radiation protection, image processing, mounting, and interpretation of radiography. Course activities include multimedia resources.	Prerequisites: Admission to the Dental Hygiene Program or permission of Program Director.	LEC 2.0 2.0 2.0
DHE119	Head and Neck Anatomy	Study of the structures of the head and neck relevant to dental hygiene. Topics include: osteology, musculature, vascular supply, lymph and glandular tissue, cranial nerves and routes of infection. Course activities include use of skulls, models and multimedia resources.	Prerequisites: Admission to the Dental Hygiene Program or permission of Instructor.	LEC 3.0 3.0 3.0
DHE120	Pre-Clinical Dental Hygiene	Introduction to the dental hygiene profession and the process of care. Infection control, patient assessment, preventive treatment and dental hygiene instrumentation are practiced. Students are introduced to self assessment skills and quality improvement.	Prerequisites: Admission to the Dental Hygiene Program or permission of Instructor.	L+L 6.0 12.0 12.0
DHE121	Dental Anatomy, Embryology and Histology	Includes the histology and embryology of oral tissues; developmental disturbances of the face, oral cavity, and related structures; tooth composition and morphology including anomalies; eruption patterns and occlusal evaluation. Use of skulls, models and multimedia resources also covered.	Prerequisites: Admission to the Dental Hygiene Program.	L+L 2.0 3.0 3.0
DHE125	Dental Radiography Laboratory	Radiation safety and infection control procedures for operator and patient. Image receptor placement, exposure, processing, mounting and evaluation of dental radiographs. Operation and maintenance of X-ray and processing equipment. Interpretation of radiographic findings.	A grade of C or better required in all Prerequisites. Prerequisites or Corequisites: (DHE117 and admission to the Dental Hygiene Program) or permission of Program Director.	LAB 1.0 3.0 3.0
DHE127	Prevention of Dental Disease	Introduction to preventive aids, agents, and coaching to help patients achieve optimum oral health, reduce incidence of disease, and minimize risk of oral injury. Instills critical thinking in etiologic agents, cariology, fluorides, sealants,	Prerequisites: Admission to the Dental Hygiene Program or permission of Instructor.	LEC 3.0 3.0 3.0

		nutrition, and their oral and systemic implications.		
DHE132	Dental Hygiene Theory I	Study of the dental hygiene process of care with emphasis on assessment, planning and implementation. Topics include instrumentation, adjunct dental hygiene services, instrument sharpening, computer technology, dental specialties and professional accountability.	Prerequisites: A grade of C or better in (DHE120 and admission to the Dental Hygiene Program) or permission of Instructor. Corequisites: DHE133.	L+L 3.0 5.0 5.0
DHE133	Dental Hygiene Clinic I	Application of the dental hygiene process of care with emphasis on assessment, planning, and implementation. Introduction to evaluation of dental hygiene therapy.	Prerequisites: A grade of C or better in DHE120 and admission to the Dental Hygiene Program. Corequisites: DHE132 and current CPR card.	LAB 3.0 9.0 9.0
DHE201	Dental Materials	Composition, properties and criteria for use of dental materials. Principles of manipulation of restorative, preventive, and laboratory dental materials.	Prerequisites: Admission to the Dental Hygiene Program or permission of Program Director/Chair. Corequisites: DHE202.	LEC 2.0 2.0 2.0
DHE202	Dental Materials Laboratory	Manipulate permanent and temporary restorative materials, impression materials/systems, cements, bases and liners. Fabricate mouth protectors, tooth whitening appliances and study models. Laboratory proficiency in margination of permanent restorative materials.	Prerequisites: Admission to the Dental Hygiene Program or permission of Program Director/Chair. Corequisites: DHE201.	LAB 1.0 3.0 3.0
DHE212	Dental Hygiene Theory II	Study of the dental hygiene process of care with emphasis on comprehensive care planning, case presentation, and clinical decision making. Introduction to advanced periodontal instrumentation.	Prerequisites: A grade of C or better in DHE132 and DHE133 and admission to the Dental Hygiene Program. Corequisites: DHE213.	LEC 2.0 2.0 2.0
DHE213	Dental Hygiene Clinic II	Application of the dental hygiene process of care with emphasis on comprehensive care planning, case presentation, clinical decision making, advanced instrumentation and improved time utilization.	Prerequisites: A grade of C or better in DHE132 and DHE133 and admission to the Dental Hygiene Program. Corequisites: DHE212.	LAB 5.0 15.0 15.0
DHE219	Practice Management	Integration of practice management concepts and comprehensive quality patient care in preparation for future collaborative practice between dental hygienists and dentists. Students are challenged with practice situations including productivity, conflict management, ethical and legal issues.	Prerequisites: Admission to the Dental Hygiene Program or permission of Instructor.	LEC 2.0 2.0 2.0
DHE225	Periodontics	Principles of periodontology; etiology, microbiology, pathogenesis, classification and characteristics of healthy and diseased periodontal tissues. Surgical treatment of periodontal disease and the effects of dental hygiene therapy, surgical techniques and maintenance therapy. Evaluation of the scientific literature and multi-media resources are used extensively.	Prerequisites: Admission to the Dental Hygiene Program or permission of Instructor.	LEC 3.0 3.0 3.0

DHE227	Dental Anesthesia	A comprehensive lecture and laboratory course providing concepts and techniques for the administration of local anesthetic agents and nitrous oxide. Experience gained in medical history review, electronic recordkeeping, patient management, and hands-on experience administering local anesthetics and nitrous oxide in a clinical setting.	Prerequisites: A grade of C or better in DHE119.	LEC 2.0 2.0 2.0 LAB 0.0 3.0 3.0
DHE229	Community Oral Health	An examination of methods used to assess the oral health status of the community and to plan, implement, finance and evaluate dental public health programs. Focus on community-based health promotion and disease prevention measures to improve the oral health of the population, as well as the characteristics of dental care delivery systems and the social, political, psychological and economic factors affecting utilization within the system.	Prerequisites: Admission to the Dental Hygiene Program or permission of Instructor.	LEC 3.0 3.0 3.0
DHE232	Dental Hygiene Theory III	Study of the dental hygiene process of care with emphasis on the patient with special needs and advanced instrumentation. Students participate in field observations and present case documentations.	Prerequisites: A grade of C or better in (DHE212 and DHE213) and admission to the Dental Hygiene Program. Corequisites: DHE233.	L+L 2.0 3.0 3.0
DHE233	Dental Hygiene Clinic III	Application of the dental hygiene process of care with emphasis on diverse populations. Students prepare for clinical practice using self assessment, evaluation and critical thinking skills.	Prerequisites: A grade of C or better in (DHE212 and DHE213) and admission to the Dental Hygiene Program. Corequisites: DHE232.	LAB 5.0 15.0 15.0
DHE298AA	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 1.0 1.0 0.0
DHE298AB	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 2.0 2.0 0.0

DHE298AC	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 3.0 3.0 0.0
DIE104	Electrical for Diesel Engines I	Introduces electrical principles and circuit theory through the operation, diagnostics and repair of batteries, starting and charging circuits. Concepts include magnetism, electrical circuits, DC electricity, electrical schematic reading, interpretation, and testing.	Prerequisites: None.	L+L 3.0 4.0 4.0
DIE106	Mobile Hydraulics and Pneumatics	The transmission of energy through hydraulic and pneumatic systems. Defines the function and operation of valves, cylinders, pumps, motors, accumulators, reservoirs, coolers, hoses, fluids, filters, seals and contamination control. Basic troubleshooting and schematic interpretation emphasized. Pneumatic functions discussed.	Prerequisites: None.	L+L 3.0 4.0 4.0
DIE108	Heavy Duty Diesel PowerTrains	Introduction to powertrain concepts and operation of basic components of the powertrain system. Basic powertrain maintenance industry practices and skills that include but not limited to pressure testing and adjustments. Clutch fill calibration and some component disassembly will be covered.	Prerequisites: None.	L+L 3.0 4.0 4.0
DIE112	General Diesel Engines	Introduction to diesel engine operation and related systems. Concepts include basic engine maintenance, engine teardown, inspection, reassembly, and all necessary adjustments.	Prerequisites: None.	L+L 3.0 4.0 4.0
DIE296WA	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. COMMON COMPETENCY COURSE	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and be able to obtain a position related to students academic or career goals (students present job may qualify or permission of instructor Corequisites: Must be concurrently enrolled in at least one class which is related to students major or career interest or with permission of Instructor.	LAB 1.0 5.0 0.0

COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 3.0 3.0 0.0
DMI100	Introduction to Diagnostic Medical Radiography: Professionalism and Patient Care	Preparation for entry into the medical field, with specific focus for diagnostic medical imaging. Role of health care worker in diagnostic imaging. Job duties, responsibilities, working conditions and work environments in the inpatient and outpatient clinical settings. Theoretical and practical understanding of patient assessment and patient care. Medical ethics and the laws related to the healthcare worker in general and those in the diagnostic imaging environment.	Prerequisites: Admission to the Medical Radiography Program.	L+L 1.0 1.0 1.0
DMI101	Radiation Safety	Sources and types of radiation. Units of radiation measurement. Conversions from traditional to system international units. Protection devices, operating equipment (including ancillary devices), and federal and state laws regarding radiation safety. Radiation monitoring devices.	Prerequisites: Admission to the Medical Radiography Program.	LEC 2.0 2.0 2.0
DMI102	Radiographic Positioning I	Terminology, procedures, and anatomy pertinent to radiography. Routine radiographic positioning of chest, upper limb, and lower limb. Special projections of the chest, upper and lower limbs. Evaluation of radiographs of the chest, upper and lower limb. The impact of pathology on positioning and radiographic quality.	Prerequisites: Admission to the Medical Radiography Program.	LEC 3.0 3.0 3.0
DMI102LL	Radiographic Positioning I Laboratory	Terminology, procedures, and anatomy pertinent to radiography. Routine radiographic positioning of chest, upper limb, and lower limb. Special projections of the chest, upper and lower limbs. Evaluation of radiographs of the chest, upper and lower limb.	Prerequisites: Admission to the Medical Radiography Program.	LAB 1.0 3.0 3.0
DMI103	Introduction to Imaging	Complete instruction overview on imaging receptors, image processing and imaging systems. Discussion of image processing procedure that renders physical and chemical changes as a visible radiographic image.	Prerequisites: Admission to the Medical Radiography Program.	L+L 1.5 2.5 2.5

DMI104	Radiography Practicum I	Observation of and familiarization with hospital procedures and environment. Demonstration of appropriate patient care. Process examination requisitions and other documentation related to the procedure. Image acquisition, processing and storage. Operation and maintenance of radiographic equipment. Performance of basic radiographic procedures to include the chest, upper and lower limb.	Prerequisites: Admission to the Medical Radiography Program.	LAB 3.5 21.0 0.0
DMI105	Fundamentals of Radiation Physics	Fundamental principles of the physics involved in medical radiography. Simplified math, physical concepts of energy, the structure of matter, static electricity, electric current, and electromagnetism. Generators and motors, high-voltage control, and circuitry of the x-ray tube. Principles and characteristics of x-ray production.	Prerequisites: Admission to the Medical Radiography Program or permission of Instructor.	LEC 3.0 3.0 3.0
DMI106	Radiographic Image Evaluation I	Systematic procedure for evaluating radiographic images to determine their diagnostic quality.	Prerequisites: Admission to the Medical Radiography Program.	LEC 1.0 1.0 1.0
DMI107	Principles of Digital Imaging	Content imparts an understanding of the components, principles, and operation of digital imaging systems found in diagnostic radiology. Establishes a knowledge base in factors that govern the image production process. Lab activities provide opportunities to apply course concepts and experiment with various digital imaging systems.	Prerequisites: Admission to the Medical Radiography Program.	LEC 4.0 3.0 3.0 LAB 0.0 3.0 3.0
DMI108	Structured Diagnostic Medical Imaging Skills Enhancement	Structured diagnostic imaging cognitive learning and imaging study skills to help students achieve success in their respective imaging courses. Diagnostic medical imaging learning process and critical thinking application skills emphasized in coordination with the level of matriculation.	Prerequisites: None. Corequisites: Enrolled in Diagnostic Medical Imaging Program (Medical Radiography Nuclear Medicine Technology and Diagnostic Medical Ultrasound) or permission of Program Director.	LEC 1.0 1.0 1.0
DMI110	Critical Evaluation of the Diagnostic Medical Image	Recognition of acceptable and substandard diagnostic images according to established radiographic criteria. Production of diagnostic images of various regions of the body. Assessment and analysis of medical images to detect positioning and exposure errors. Correction of diagnostic image errors. Impact of pathology on image quality. Application of radiographic principles and problem solving skills of the digital image.	Prerequisites: Valid Arizona Medical Radiography Technology Board of Examiners (MRTBE) Practical Technologist license and a grade of C or better in [BIO160, ENG101, (CRE101 or CRE111), (COM101 or COM110) and HCC146.]	L+L 1.5 2.5 2.5
DMI112	Radiographic Positioning II	Radiographic anatomy of the upper and lower limb, pelvis and bones of the thorax. Positioning of the humerus, shoulder, pelvis, hip, and bones of the thorax. Radiographic anatomy of the vertebral column and cranium.	Prerequisites: Admission to the Medical Radiography Program.	LEC 3.0 2.0 2.0 LAB 0.0 3.0 3.0

		Positioning of the vertebral column and cranium. Emphasis on radiation protection, image evaluation and modifications. Serving the culturally diverse patient.		
DMI113	Orientation to the Clinical Environment	Observation and familiarization with facility procedures, department specific procedures and protocols and the overall environment. Demonstration of appropriate patient care skills. Familiarization with facility Hospital Information System (HIS) and Radiology Information System (RIS), other specialized computer programs, i.e., Picture Archiving and Communication System (PACS), examination requisitions and other documentation related to procedures performed.	Prerequisites: Permission of Program Director.	LAB 1.0 6.0 0.0
DMI114	Radiography Practicum II	Reinforcement and broadening of routine acquired in earlier practicum. Operation and maintenance of radiographic equipment. Correct use of radiation protection devices. Evaluation of radiographic images. Ethical and professional job-related skills. Performance of skeletal and contrast media radiographic procedures.	Prerequisites: Admission to the Medical Radiography Program.	LAB 3.0 18.0 0.0
DMI118	Contrast Media Procedures	Terminology, gross and radiographic anatomy, procedures and image evaluation related to contrast media procedures. Type, nomenclature, administration, and adverse reactions and pharmacology related to contrast media. Preparation and dosages. Select topics related to surgical radiography. Unique positioning situations.	Prerequisites: Admission to the Medical Radiography Program.	LEC 2.5 2.5 2.5
DMI124	Radiography Practicum III	Reinforcement and broadening of routine and contrast media procedures, and portable skills acquired in earlier practicum with direct or indirect supervision as appropriate. Operation and maintenance of radiographic equipment. Correct use of radiation protection devices. Evaluation of radiographic images. Ethical and professional job-related skills.	Prerequisites: Admission to the Medical Radiography Program.	LAB 3.0 18.6 0.0
DMI204	Radiography Practicum IV	Supervised student performance of routine radiological procedures, including surgery and portable procedures.	Prerequisites: Admission to the Medical Radiography Program.	LAB 3.0 18.0 0.0
DMI211	Pharmacology of Contrast Agents	Common drug nomenclature and pharmacology of contrast agents. Correct preparation, dosages, and administration of contrast agents. Chemical characteristics and properties of contrast agents. Adverse reactions, patient care issues, and medical/legal issues.	Prerequisites: Currently enrolled in medical radiography program or graduate radiologic technologist or permission of Instructor.	LEC 0.5 0.5 0.5

DMI212	Advanced Radiographic Procedures	Physical space imaging equipment and sterile environment required for advanced and interventional radiographic procedures. Types and applications for needles, guide wires, and catheters. Advanced and interventional radiographic procedures.	Prerequisites: Admission to the Medical Radiography Program.	LEC 1.0 1.0 1.0
DMI214	Radiography Practicum V	Reinforcement and broadening of routine procedures, portable skills and surgical procedures acquired in earlier practicum. Operation and maintenance of radiographic equipment. Correct use of radiation protection devices. Evaluation of radiographic images. Ethical and professional job-related skills. Performance of advanced radiographic procedures.	Prerequisites: Admission to the Medical Radiography Program.	LAB 4.5 28.8 0.0
DMI215	Radiation Biology	Provide an overview of the principles of the interaction of radiation with living systems. Radiation effects on molecules, cells, tissues and the body as a whole. Factors affecting biological response including acute and chronic effects of radiation. Radiation health and safety requirements of federal and state regulatory agencies, accreditation agencies and health care organizations.	Prerequisites: Admission to the Medical Radiography Program.	LEC 2.0 2.0 2.0
DMI216	Radiographic Image Evaluation II	Systematic procedure for evaluating radiographic images to determine their diagnostic quality.	Prerequisites: Admission to the Medical Radiography Program.	LEC 1.0 1.0 1.0
DMI220	Sectional Anatomy	Sectional human anatomy in the transverse, sagittal and coronal planes. Emphasis on the brain, neck, chest, abdomen and pelvic cavity.	Prerequisites: (BIO160 or BIO201) and (HCC145 or HCC146), or a graduate of a related medical program of study or currently registered as a technologist in radiography, nuclear medicine, radiation therapy or sonography OR Admission to the Medical Radiography Program or permission of Instructor.	LEC 3.0 3.0 3.0
DMI221	Advanced Digital Imaging	Equipment used in digital imaging, including image intensification, calculation of magnification, brightness gain, viewing, and storage systems. Components and operating principles related to digital fluoroscopy. Principles, physics, and instrumentation related to digital radiography.	Prerequisites: Admission to the Medical Radiography Program.	LEC 2.5 2.0 2.0 LAB 0.0 1.5 1.5
DMI222	Advanced Radiologic Pathology	Application of terminology related to the disease process and the general principles of disease. Standard precautions - disease control measures to include education, asepsis, isolation, and communicability. Radiographic appearances of specific forms of pathology. Symptoms, prognosis, and diagnosis of specific forms of pathology.	Prerequisites: Admission to the Medical Radiography Program.	LEC 1.0 1.0 1.0

DMI223	Introduction to Computed Tomography	Overview of the principles and operation of computed tomography (CT) scanner. Content includes history, physics processes, instrumentation components, imaging acquisition, reconstruction and display for computed tomography imaging.	Prerequisites: Admission to the Medical Radiography Program or permission of Instructor.	LEC 1.0 1.0 1.0
DMI224	Radiography Practicum VI	Reinforcement and broadening of all radiographic procedures, portable skills and surgical procedures performed in the clinical environment acquired in earlier practicum. Operation and maintenance of radiographic equipment. Correct use of radiation protection devices. Evaluation of radiographic images. Ethical and professional job-related skills.	Prerequisites: Admission to the Medical Radiography Program.	LAB 5.0 30.6 0.0
DMI225	Quality Improvement	Components, tests, and procedures for evaluation of radiographic systems to assure consistency in the production of quality images. State and federal regulations.	Prerequisites: A grade of C or better in DMI103, DMI105 and DMI107 or permission of Instructor.	LEC 1.0 1.0 1.0
DMI226	Radiographic Image Evaluation III	Systematic procedure for evaluating radiographic images to determine their diagnostic quality.	Prerequisites: A grade of C or better in DMI216.	LEC 1.0 1.0 1.0
DMI227	Radiography Seminar	Use of skills and resources for reviewing content areas examined by the American Registry of Radiologic Technologists (ARRT). Professional job-seeking procedures and development of resume.	Prerequisites: Admission to the Medical Radiography Program.	LEC 1.0 1.0 1.0
DMI228	Radiography Practicum VII	Advanced imaging procedures.	Prerequisites: Permission of Instructor and acceptance by sponsoring clinical institution.	L+L 1.0 6.0 0.0
DMS100	Introduction to Diagnostic Medical Sonography	Role of health care worker in diagnostic medical sonography. Job duties, responsibilities, working conditions and work environments in the inpatient and outpatient clinical settings. Overview of diagnostic and therapeutic procedures. Shadowing experience in diagnostic sonography department.	Prerequisites: None.	LEC 0.5 0.5 0.5
DMS101	Patient Care in Diagnostic Sonography	Safety procedures for the hospitalized patient. Transfer, moving and positioning techniques. Patent assessment methods and procedures. Protection of drains, tubes, intravenous lines, and infusion pumps. Gloving, gowning, and sterile procedures. Safe use and application of sonography equipment. Professional behavior and responsibility of the sonographer in the diagnostic imaging lab.	Prerequisites: Admission to the Diagnostic Medical Sonography program or permission of Instructor.	LAB 1.0 3.0 3.0
DMS110	Introduction to Diagnostic Sonography	Use of ultrasound including medical applications. Job description including opportunities, licensure, use of sonography equipment, responsibilities	Prerequisites: Admission to Diagnostic Medical Sonography program.	LEC 3.0 3.0 3.0

		of diagnostic medical sonographers in the workplace, and medical ethics.		
DMS110LL	Introduction to Diagnostic Sonography Laboratory,	Use and maintenance of sonography equipment, and responsibilities of Diagnostic Medical Sonographers in the workplace.	Prerequisites: A grade of C or better in DMS110 or Corequisites: DMS110.	LAB 1.0 3.0 3.0
DMS120	Ultrasound Imaging: Abdominal Procedures I	Ultrasound evaluation of upper abdominal organs. Normal and pathologic ultrasound appearances of the liver, gallbladder, pancreas, biliary tree, spleen, adrenal glands, kidneys, major vascular structures, and lymph nodes.	Prerequisites: Admission to Diagnostic Medical Sonography program.	LEC 4.0 4.0 4.0
DMS120LL	Ultrasound Imaging: Abdominal Procedures I Laboratory	Ultrasound evaluation of upper abdominal organs. Normal ultrasound appearances of the liver, gallbladder, pancreas, biliary tree, spleen, adrenal glands, kidneys, major vascular structures, small parts, and lymph nodes.	Prerequisites: A grade of C or better in DMS120 or Corequisites: DMS120.	LAB 1.0 3.0 3.0
DMS121	Ultrasound Imaging: Abdominal Procedures II	Ultrasound evaluation of upper abdominal organs. Normal and pathologic ultrasound appearances of the liver, gallbladder, pancreas, biliary tree, spleen, adrenal glands, kidneys, major vascular structures, lymph nodes, and small parts.	Prerequisites: Admission to Diagnostic Medical Sonography program.	LEC 3.0 3.0 3.0
DMS130	Ultrasound Imaging: OB/GYN Procedures	Ultrasound evaluation of the female pelvis, reproductive system, and fetus. Diagnostic tests related to the ultrasound procedure. Normal and pathologic ultrasound appearances of the fetus, placenta, uterus, cervix, fallopian tubes, and ovaries.	Prerequisites: Admission to Diagnostic Medical Sonography program.	LEC 3.0 3.0 3.0
DMS130LL	Ultrasound Imaging: OB/GYN Procedures Laboratory	Application of diagnostic concepts to evaluation of the pelvis, reproductive system, and fetus. Normal and pathologic ultrasound appearances of the fetus, placenta, uterus, cervix, fallopian tubes, ovaries, and male pelvis.	Prerequisites: None. Corequisites: DMS130 or permission of the Program Director.	LAB 1.0 3.0 3.0
DMS140	Ultrasound Case Studies: Part I	Medical terminology, anatomy, physical principles, and techniques for determining proper technical factors. Anatomical variants, normal, and pathological sonographic findings in diagnostic ultrasound case presentations.	Prerequisites: Admission to Diagnostic Medical Sonography program.	LEC 2.0 2.0 2.0
DMS145	Clinical Pathology for Diagnostic Imaging	Disease etiology and impact on the human body. Physiologic effects of disease on body systems. Role of Diagnostic Medical Imaging (DMI) modalities in the diagnosis and treatment of selected disease processes. DMI as part of the health care team. Cultural implications in the prevention and treatment of disease.	Prerequisites: Admission to Diagnostic Medical Sonography program.	LEC 1.0 1.0 1.0

DMS148	Introduction to Musculoskeletal Sonographic Imaging	Ultrasound terminology. Ethics. Tissue structure and physiology in imaging. Legal ramifications. Documentation and reporting. Billing and coding. Professional standards. Roles healthcare clinicians and relationships to Sonography.	Prerequisites: Admission to Diagnostic Medical Sonography program or permission of the Program Director.	LEC 1.0 1.0 1.0
DMS150	Sonographic Principles and Instrumentation I	Sonographic principles and instrumentation necessary for the performance of diagnostic sonographic imaging and vascular examinations. Quality control materials and procedures. Biological effects of ultrasound energy.	Prerequisites: Admission to Diagnostic Medical Sonography program.	LEC 3.0 3.0 3.0
DMS150LL	Sonographic Principles and Instrumentation Laboratory	Laboratory experience in support of DMS150.	Prerequisites: A grade of C or better in DMS150 or Corequisites: DMS150.	LAB 1.0 3.0 3.0
DMS151	Sonographic Principles and Instrumentation II	Sonographic principles and instrumentation necessary for the performance of diagnostic sonographic examinations using Hemodynamics and Doppler imaging. Identifying and reducing image artifacts. Quality control materials and procedures. Biological effects of ultrasound energy.	Prerequisites: Admission to Diagnostic Medical Sonography program.	LEC 2.0 2.0 2.0
DMS155	Introduction to Clinical Care for Sonography	Observation of correct hospital policies and procedures in clinical simulation. The job description, duties, and functions of the sonographer. Career opportunities in ultrasound.	Prerequisites: Admission to Diagnostic Medical Sonography program.	LAB 1.0 5.0 0.0
DMS161	Clinical Practicum II-AA	Technical and professional aspects of diagnostic ultrasound in a hospital or clinical setting at the beginner level. Hospital procedures and policies. Observation, assistance, and performance of clerical, patient care, and sonographic duties under strict supervision.	Prerequisites: Admission to Diagnostic Medical Sonography program.	LAB 2.0 10.0 0.0
DMS162	Clinical Practicum II-AB	Development of technical and professional aspects of diagnostic ultrasound in a hospital or clinical setting at the beginner level. Hospital procedures and policies. Continued observation, assistance and performance of clerical, patient care and sonographic duties under strict supervision.	Prerequisites: Admission to Diagnostic Medical Sonography program.	LAB 2.0 10.0 0.0
DMS171	Clinical Practicum III-AA	Technical and professional aspects of diagnostic ultrasound in a hospital or clinical setting at the advanced beginner level. Reinforcement and broadening of knowledge base related to hospital procedures and policies. Observation, assistance and performance of patient care and sonographic duties under moderate supervision.	Prerequisites: Admission to Diagnostic Medical Sonography program.	LAB 2.0 10.0 0.0
DMS172	Clinical Practicum III-AB	Continued technical and professional aspects of diagnostic ultrasound in a hospital or clinical setting at the	Prerequisites: Admission to Diagnostic Medical Sonography program.	LAB 2.0 10.0 0.0

		advanced beginner level. Ongoing reinforcement and broadening of knowledge base related to hospital procedures and policies. Continued observation, assistance and performance of patient care and sonographic duties under moderate supervision.		
DMS210	Concepts of Vascular Imaging	Vascular physics and terminology. Application of imaging concepts to arterial, venous, and cerebrovascular ultrasound. Normal, abnormal and pathologic states of human vascular anatomy. Review and demonstration of selected scanning protocols to include extremity and cerebral vascular systems.	Prerequisites: Admission to Diagnostic Medical Sonography program.	LEC 2.0 2.0 2.0
DMS210LL	Concepts of Vascular Imaging Laboratory	Application of diagnostic concepts to arterial, venous, and cerebrovascular vasculature. Normal human vascular anatomy. Demonstration of selected scanning protocols to include extremity and visceral vascular systems.	Prerequisites: A grade of C or better in DMS210 or Corequisites: DMS210.	LAB 1.0 3.0 3.0
DMS220	Sectional Anatomy	Sectional human anatomy in the transverse, sagittal and coronal planes. Emphasis on the brain, neck, chest, abdomen and pelvic cavity.	Prerequisites: (BIO160 or BIO201) and (HCC145 or HCC146), or a graduate of a related medical program of study or currently registered as a technologist in radiography, nuclear medicine, radiation therapy or sonography OR Admission to the Medical Radiography Program or permission of Instructor.	LEC 3.0 3.0 3.0
DMS225	High Risk Obstetric/Gynecology Sonography	Sonographic overview of the female reproductive system. High risk intervention and tests related to sonography. Normal and abnormal sonographic presentations of the uterus and fetus in pregnancy.	Prerequisites: Admission to Diagnostic Medical Sonography program.	LEC 1.0 1.0 1.0
DMS230	Introduction to Echocardiography	Anatomy and physiology of the heart. Normal, abnormal and pathologic states of cardiac anatomy as it relates to diagnostic sonography. Demonstration of scanning techniques in echocardiography.	Prerequisites: Admission to Diagnostic Medical Sonography program.	LEC 1.0 1.0 1.0
DMS235	Ultrasound Breast Imaging	Ultrasound imaging of the breast. Includes terminology, technique, physics and instrumentation. Breast anatomy, physical examination and procedure findings. Pathology and correlation with other imaging modalities.	Prerequisites: Admission to Diagnostic Medical Sonography program.	LEC 1.0 1.0 1.0
DMS240	Ultrasound Case Studies: Part II	Medical terminology, anatomy, physical principles, and technology for determining proper technical factors. Anatomical variants, normal, and pathological sonographic findings in	Prerequisites: Admission to Diagnostic Medical Sonography program.	LEC 2.0 2.0 2.0

		diagnostic ultrasound case presentations.		
DMS241	Ultrasound Case Studies: Part III	Medical terminology, anatomy, physical principles, and technology for determining proper technical factors. Anatomical variants, normal, and pathological sonographic findings in diagnostic ultrasound case presentations.	Prerequisites: Admission to Diagnostic Medical Sonography program.	LEC 2.0 2.0 2.0
DMS245	Neurosonography	Neuroanatomy and neurosonography of the brain and spinal cord.	Prerequisites: Admission to Diagnostic Medical Sonography program.	LEC 1.0 1.0 1.0
DMS250	Musculoskeletal Sonography and Small Parts	Normal sonographic human anatomy in sagittal, transverse, oblique, coronal planes. Emphasis on musculoskeletal imaging, and small parts.	Prerequisites: Admission to Diagnostic Medical Sonography program.	L+L 2.0 2.0 2.0
DMS252	Musculoskeletal Procedures I	Ultrasound terminology and physics. Anatomical variants, normal, and pathological sonographic findings in musculoskeletal diagnostic ultrasound of the upper extremity.	Prerequisites: Admission to Diagnostic Medical Sonography program or permission of the Program Director.	L+L 4.0 6.0 6.0
DMS254	Musculoskeletal Procedures II	Ultrasound terminology and physics. Anatomical variants, normal, and pathological sonographic findings in musculoskeletal diagnostic ultrasound of the lower extremity.	Prerequisites: Admission to Diagnostic Medical Sonography program or permission of the Program Director.	L+L 4.0 6.0 6.0
DMS255	Pediatric Sonography	Ultrasound imaging of the pediatric population. Includes terminology, technique, physics and instrumentation. Embryology, anatomy, physical examination and procedure findings. Pathology and correlation with other imaging modalities.	Prerequisites: Admission to Diagnostic Medical Sonography Program, or Registered Diagnostic Medical Sonographer (RDMS) credentialed with permission from Program Director.	LEC 3.0 3.0 3.0
DMS261	Clinical Practicum IV-AA	Technical and professional aspects of diagnostic ultrasound in a hospital or clinical setting at the intermediate level. Reinforcement and broadening of knowledge base related to hospital procedures and policies. Observation, assistance and performance of patient care and sonographic duties under limited supervision.	Prerequisites: Admission to Diagnostic Medical Sonography program.	LAB 2.0 10.0 0.0
DMS262	Clinical Practicum IV-AB	Development of technical and professional aspects of diagnostic ultrasound in a hospital or clinical setting at the intermediate level. Ongoing reinforcement and broadening of knowledge base related to hospital procedures and policies. Continued observation, assistance and performance of patient care and sonographic duties under limited supervision.	Prerequisites: Admission to Diagnostic Medical Sonography program.	LAB 2.0 10.0 0.0
DMS263	Vascular Clinical Practicum I	Technical and professional aspects of diagnostic vascular ultrasound in a hospital or clinical setting at the intermediate level. Reinforcement and	Prerequisites: Admission to Diagnostic Medical Sonography program.	LAB 2.0 10.0 0.0

		broadening of knowledge base related to hospital procedures and policies. Observation, assistance and performance of patient care and vascular sonographic duties under limited supervision.		
DMS265	Musculoskeletal Clinical Practicum	Musculoskeletal Clinical Practicum of 240 hours in healthcare setting Ultrasound imaging instrumentation, protocol implementation and positioning techniques. Application of Ultrasound safety, quality control procedures and effective patient care and communication skills.	Prerequisites: Admission to Diagnostic Medical Sonography program or permission of the Program Director.	LAB 4.0 24.0 0.0
DMS267	Musculoskeletal Case Studies	Medical terminology, anatomy, physical principles, and technology for determining proper technical factors. Anatomical variants, normal, and pathological sonographic findings in musculoskeletal diagnostic ultrasound case presentations.	Prerequisites: Admission to Diagnostic Medical Sonography program or permission of the Program Director.	LEC 1.0 1.0 1.0
DMS270	Clinical Practicum V-AA	Technical and professional aspects of diagnostic ultrasound in a hospital or clinical setting at the advanced level. Clinical diagnostic experiences in routine/high risk obstetrics, pelvic, vascular, abdominal and small parts scanning.	Prerequisites: Admission to Diagnostic Medical Sonography program.	LAB 2.0 10.0 0.0
DMS271	Clinical Practicum V-AB	Development of technical and professional aspects of diagnostic ultrasound in a hospital or clinical setting at the advanced level. Continued opportunity for clinical diagnostic experiences in routine/high risk obstetrics, pelvic, vascular, abdominal and small parts scanning. Focus on progression to independent level of function.	Prerequisites: Admission to Diagnostic Medical Sonography program.	LAB 2.0 10.0 0.0
DMS272	Clinical Practicum V-AC	Culminating clinical practice course with application of theoretical and practical concepts related to diagnostic ultrasound. Emphasis on independent performance of all clinical diagnostic procedures including routine/high risk obstetrics, pelvic, vascular, abdominal and small parts scanning.	Prerequisites: Admission to Diagnostic Medical Sonography program.	LAB 2.0 10.0 0.0
DMS273	Vascular Clinical Practicum II	Development of technical and professional aspects of diagnostic vascular ultrasound in a hospital or clinical setting at the advanced level. Continued opportunity for clinical diagnostic experiences in routine/complex vascular scanning. Focus on progression to independent level of function.	Prerequisites: Admission to Diagnostic Medical Sonography program.	LAB 2.0 10.0 0.0
DMS281	Ultrasound Registry Preparation Seminar: Physics and Instrumentation	Intensive review of major content measured in the American Registry for Diagnostic Medical Sonography certification examination. Physics and	Prerequisites: Admission into the Diagnostic Medical Sonography program or	LEC 1.0 1.0 1.0

		instrumentation in ultrasound technology.	permission of the Program Director.	
DMS282	Ultrasound Registry Preparation Seminar: Abdominal and Small Parts Imaging	Intensive review of major content measured in the American Registry for Diagnostic Medical Sonography certification examination. Specialties of abdominal and small parts imaging.	Prerequisites: Admission into the Diagnostic Medical Sonography program or permission of the Program Director.	LEC 1.0 1.0 1.0
DMS283	Ultrasound Registry Preparation Seminar: Obstetrics and Gynecology	Intensive review of major content measured in the American Registry for Diagnostic Medical Sonography certification examination for obstetrics and gynecology.	Prerequisites: Admission into the Diagnostic Medical Sonography program or permission of the Program Director.	LEC 1.0 1.0 1.0
DMS284	Ultrasound Registry Preparation: Vascular Imaging	Anatomy and physiology of the vascular system. Testing parameters and methods for vascular examinations. Scan protocol for sonographic evaluation of head and neck, extremities, upper abdomen and pelvis vasculature. Interpret scans and special cases.	Prerequisites: Admission into the Diagnostic Medical Sonography program or permission of the Program Director.	LEC 1.0 1.0 1.0
DMS285	Intermediate Vascular Technology	Sonographic evaluation of the upper and lower peripheral vascular system and the cerebrovascular system. Normal and pathologic sonographic imaging and Doppler evaluation of the venous, arterial systems of the upper and lower extremities, and intra and extracranial vessels.	Prerequisites: Admission to Diagnostic Medical Sonography program.	LEC 2.0 2.0 2.0
DMS286	Advanced Vascular Technology	Vascular evaluation of the abdominal viscera and small parts. Normal and pathologic sonographic imaging and Doppler evaluation of the venous and arterial systems of the abdominal organs and small body parts. Capabilities, limitations, protocols and techniques required for diagnosis of the systemic, hepatoportal, and collateral systems, and extremities. Preoperative mapping of the radial, mammary, and epigastric arteries.	Prerequisites: Admission to Diagnostic Medical Sonography program.	LEC 2.0 2.0 2.0
DMS286LL	Advanced Vascular Technology Laboratory	Laboratory experience in support of DMS286.	Prerequisites: A grade of C or better in DMS286 or Corequisites: DMS286.	LAB 1.0 3.0 3.0
DMS290	Advanced Medical Ultrasound Procedures	Presentation of advanced topics in sonography including state of the art equipment. Superficial organs, heart and vessels, neurosonography, musculoskeletal, intraoperative, and interventional procedures. Aseptic technique, medical-legal and patient record keeping and image acquisition for performance of advanced sonographic examinations.	Prerequisites: Admission to Diagnostic Medical Sonography program.	LEC 4.0 4.0 4.0
DMS295	Stress Echocardiography	Anatomy and physiology of the heart. Normal and stressed states of cardiac anatomy as it relates to diagnostic sonography. Performance of stress echocardiography exam.	Prerequisites: Completion of echocardiography program, or Registered Diagnostic Cardiac Sonographer (RDCS), or Registered Diagnostic Medical	L+L 2.0 3.5 3.5

		Pharmacological agents used in stress echocardiography.	Sonographer (RDMS), or Registered Cardiac Sonographer (RCS) credentials.	
ECE102	Engineering Analysis Tools and Techniques	Learning culture of engineering, engineering use of computer tools, and computer modeling as applied to engineering analysis and design.	Prerequisites: A grade of C or better in MAT15+ or higher-level mathematics course, or permission of Instructor or Division or Department Chair.	L+L 2.0 4.0 4.0
ECE103	Engineering Problem Solving and Design	Fundamentals of the design process: engineering modeling, communication and problem-solving skills in a team environment. Emphasis on process-based improvements to the design process. Introduction to engineering as a profession.	Prerequisites: A grade of C or better in ECE102 or permission of Instructor or Division or Department Chair.	L+L 2.0 4.0 4.0
ECE103EP	Engineering Problem Solving and Design (with EPICS projects)	Fundamentals of the design process: engineering modeling, communication and problem-solving skills in a team environment. Emphasis on process-based improvements to the design process. Introduction to engineering as a profession.	Prerequisites: A grade of C or better in ECE102 or permission of Instructor.	L+L 2.0 4.0 4.0
ECE104	EPICS Gold I	EPICS Gold is the first of a sequence of two two-credit service learning courses in which EPICS teams are formed from students potentially representing all engineering, computer science, and construction disciplines, as well as other majors, including sustainability, business, liberal arts, sciences, and others.	Prerequisites: None.	L+L 2.0 2.0 2.0
ECE105	MATLAB Programming	Use MATLAB to solve engineering problems. An overview of programming, including matrices, structures, strings, functions, control flow, file management, data analysis, graphing capabilities, and mathematical calculations.	Prerequisites: A grade of C or better in [(MAT150 or MAT151 or MAT152 or MAT155 or MAT156) and MAT182] or MAT187 or higher level mathematics course or permission of Instructor or Division or Department Chair.	L+L 1.0 2.0 2.0
ECE106	Survey of Nanotechnology	Reading and discussion on topics in nanotechnology. Includes key issues in the development of nanoscale engineering	Prerequisites: None.	LEC 1.0 1.0 1.0
ECE111	Bioengineering Systems	Introduction to biological concepts and application of engineering to biological and earth systems. Analysis of materials, structures, fluid mechanics, bioelectricity, and dynamics as applied to biological and environmental systems	Prerequisites: None.	LEC 3.0 3.0 3.0 LAB 0.0 2.0 2.0
ECE150	Exploring Engineering and its Impact on Society	Introduction to the profession of engineering and its impact on culture and society.	Prerequisites: None.	LEC 3.0 3.0 3.0
ECE211	Engineering Mechanics_Statics	Modeling of static equilibrium in particles and rigid bodies through	Prerequisites: A grade of C or better in PHY115 or PHY121 or permission of	LEC 3.0 3.0 3.0

		analysis of forces and mechanical properties.	Instructor or Division or Department Chair. Corequisites: MAT230 or MAT231 or permission of Instructor or Division or Department Chair.	LAB 0.0 2.0 2.0
ECE212	Engineering Mechanics - Dynamics	Kinematics and kinetics of particles, translating and rotating coordinate systems, rigid body kinematics, dynamics of systems of particles and rigid bodies, and energy and momentum principles.	A grade of C or better required in all Prerequisites. Prerequisites: ECE211, and (PHY115 or PHY121). Prerequisites or Corequisites: MAT240 or MAT241.	LEC 3.0 3.0 3.0 LAB 0.0 2.0 2.0
ECE214	Engineering Mechanics	Foundations of engineering mechanics, including force systems, resultants, equilibrium of particles and rigid bodies, centroids and centers of mass, area and mass moments of inertia, friction, internal forces in structures, kinematics and kinetics of particles, kinematics and kinetics of rigid bodies, energy and momentum principles.	Prerequisites: A grade of C or better in (ECE103 or ECE103AB or ECE103EP) and (MAT230 or MAT231) and (PHY115 or PHY121). Corequisites: MAT240 or MAT241.	LEC 4.0 4.0 4.0 LAB 0.0 2.0 2.0
ECE215	Mechanics of Materials	Designed to provide students with a strong fundamental foundation in the mechanics of solids. Includes the concepts of stress and strain applied to the analysis and design of members subjected to axial and torsional loads and members subjected to shear and bending, applications and transformation of plane stress and plane strain, deformation of beams, and elastic buckling of columns.	Prerequisites: A grade of C or better in (ECE211 or ECE214).	L+L 3.0 5.0 5.0
ECE216	Computer-Aided Engineering	Introduction to engineering graphics, including tolerancing and fasteners, as well as creation and use of engineering drawings.	Prerequisites: A grade of C or better in ECE103, or ECE103EP, or permission of Instructor. Corequisites: ECE216LL.	LEC 2.0 2.0 2.0
ECE216LL	Computer-Aided Engineering Laboratory	Laboratory experience in support of ECE216.	Prerequisites: A grade of C or better in ECE103, or ECE103EP, or permission of Instructor. Corequisites: ECE216.	LAB 1.0 2.0 2.0
ECE230	Introduction to the Chemical Engineering Process	Introduces fundamental skills and principles needed to analyze the industrial processes of importance to the chemical engineering profession.	Prerequisites: A grade of C or better in CHM152 and MAT231.	L+L 3.0 5.0 5.0
ECE231	Introduction to Fluid Transport Phenomena	Fundamental skills and principles of fluid transport on both macroscopic and microscopic scales using mass balances, momentum balances and energy balances to analyze and/or design fluid systems of interest in the chemical engineering profession.	Prerequisites: A grade of C or better in MAT271 and PHY121.	L+L 3.0 5.0 5.0
ECE280	Foundational Statistics for Engineers	Fundamentals of probability, descriptive statistics, sampling distributions, parameter estimation, tests of hypotheses, regression analysis,	Prerequisites: A grade of C or better in MAT220, or MAT221, or equivalent.	L+L 3.0 5.0 5.0

		analysis of variance, and design of experiments.		
ECE285	Introduction to Astrodynamics	Introduction to celestial mechanics and the dynamics of spacecraft navigation. Introduction to rocket propulsion and spacecraft design. Orbital and interplanetary celestial mechanics and maneuvers. Astrophysics and characteristics of the space environment. Lab is project-based, utilizing a real-time spacecraft simulation environment.	Prerequisites: A grade of C or better in ENG101 and (PHY115 or PHY121).	LEC 4.0 3.0 3.0 LAB 0.0 3.0 3.0
ECE294	Special Topics in Engineering	Exploration and investigation of a focused topic in engineering.	Prerequisites: Permission of Instructor or Department or Division Chair.	L+L 3.0 3.0 3.0

ECH120	Contemporary Issues in Early Childhood	Designed to develop understanding of a broad range of contemporary issues that impact the child in today's society. Course directed at pre-service and in-service professionals.	Prerequisites: None.	LEC 1.0 1.0 1.0

ECH125	Writing for Early Childhood Professionals	Elements of effective written communication and use in the field of early childhood education. Practical experience using common classroom documents. Course surveys document purpose, readers needs, information organization, and clear expression of ideas	Prerequisites: None.	LEC 1.0 1.0 1.0
ECH128	Early Learning: Play and the Arts	Examines theory, research and practices relating to play and the creative arts in early childhood. Considers practical constraints and alternative perspectives.	Prerequisites: None.	LEC 3.0 3.0 3.0
ECH140	Learning Made Visible Through Documentation	The study of documentation in early childhood environments including strategies to reflect on children's thinking, hypothesis development, and the multiple relationships essential in the learning environments.	Prerequisites: None.	LEC 1.0 1.0 1.0
ECH141	Explore the Fundamentals of the Reggio Emilia Approach	Investigation and critically examination of the integral elements of the organization and philosophy of the Reggio Emilia approach to early childhood education.	Prerequisites: None.	LEC 1.0 1.0 1.0
ECH176	Child Development	Study of the science of human development from conception through adolescence. Includes observation skills, parent and adult roles in the lives of children, and contemporary issues	Prerequisites: None.	LEC 3.0 3.0 3.0
ECH183	Infant/Toddler Learning Materials	Safety and design features of commercial, homemade, and household learning materials for children from birth through 30 months of age. Focus on matching items with children's developmental levels.	Prerequisites: None.	LEC 1.0 1.0 1.0
ECH190	Emergent Language and Literacy	Analyzing, assessing, and enhancing language and literacy development for the young child.	Prerequisites: None.	LEC 3.0 3.0 3.0
ECH236	Learning Materials for Young Children	Design aspects of traditional early childhood play materials examined for teaching/learning potential. Includes design, production, and field-testing of teacher-made devices	Prerequisites: None.	LEC 1.0 1.0 1.0
ECH238	Computers in Early Childhood	Comparison of computers as a teaching device with traditional early childhood learning materials. Hands-on experience with child/computer interaction and software evaluation	Prerequisites: None.	LEC 1.0 1.0 1.0
ECH253	National Credential Portfolio Development	Portfolio or resource file development, completion, and presentation. Self-assessment and credentialing planning, professional development, writing, and critical learning included.	Prerequisites: Permission of Program Director.	LEC 3.0 3.0 3.0
ECH267	Child Development Associate Preparation Practicum I	Participation in early childhood education related work experience for the purpose of final preparation for the Child Development Associate (CDA) national credential process.	Prerequisites: A grade of C or better in (CFS123, or CFS125, or CFS/ECH287) and (CFS/ECH271, or ECH280) and (CFS101AH,	LEC 1.0 1.0 1.0

			or CFS101AJ, or CFS101AP, or CFS101AR, or CFS160, or CFS/ECH275, or ECH236, or ECH279, or ECH281) and (CFS116, or ECH282, or ITD201) and (CFS285AA or ITD204)	
ECH268	Child Development Associate Preparation Practicum II	Participation in early childhood education related work experience for the purpose of final preparation for the Child Development Associate (CDA) national credential process.	Prerequisites: A grade of C or better in (CFS178 or CFS194AB or CFS192 or CFS193) and (CFS/ECH287 or CFS278 or CFS196) and ECH270 and (CFS/ECH176 or CFS205).	LEC 1.0 1.0 1.0
ECH269	Child Care Seminar	Emphasizes the blend of job-related activities including career exploration, employment procedures, human relations, and on-the-job issues.	Prerequisites: Permission of Department or Division.	LEC 1.0 1.0 1.0
ECH270	Observing Young Children	Introduction to techniques of observing young children. Recording methods, interpretation and use of collected information including legal and ethical implications.	Prerequisites: None.	LEC 1.0 1.0 1.0
ECH271	Arranging the Environment	Exploration of the influence of the environment on the behavior of young children. Indoor and outdoor spaces considered and analysis of environments practiced.	Prerequisites: None.	LEC 1.0 1.0 1.0
ECH272	Science for the Young Child	Methods and techniques for encouraging beginning scientific thinking among young children. Focus upon the theory of Jean Piaget	Prerequisites: None.	LEC 1.0 1.0 1.0
ECH273	Math for the Young Child	Methods and techniques for encouraging the beginnings of mathematical/logical thought with young children. Focus upon the theory of Jean Piaget.	Prerequisites: None.	LEC 1.0 1.0 1.0
ECH274	Books and Verse for the Young Child	Introduction to verse, storytelling, books and bookmaking for infants, toddlers, and preschoolers. Information as well as storybooks considered	Prerequisites: None.	LEC 1.0 1.0 1.0
ECH275	Literacy Development and the Young Child	Literacy from birth through the early childhood years. Focus on developmentally appropriate ways to encourage speaking, listening, writing, and reading in the home and classroom.	Prerequisites: None.	LEC 1.0 1.0 1.0
ECH279	Early Childhood Curriculum Development	An intensive focus on the process of building curriculum units appropriate to the developmental needs and abilities of the young child. Design, use and evaluation of materials and activities.	Prerequisites: None.	LEC 1.0 1.0 1.0
ECH280	Food Experiences with Young Children	A discussion of the nutritional needs of young children and the cultural and social meanings of foods, feeding and eating. Includes planning and managing food experiences in home and group settings	Prerequisites: None.	LEC 1.0 1.0 1.0

ECH281	Movement/Music for the Young Child	Consideration of motor development in the toddler through the 8-year-old and exploration of age-appropriate rhythmic, musical and creative movement methods	Prerequisites: None.	LEC 1.0 1.0 1.0
ECH282	Discipline/Guidance of Child Groups	Exploration of techniques for guiding children in groups with focus on individual child and adult needs for a disciplined environment	Prerequisites: None.	LEC 1.0 1.0 1.0
ECH284AA	Early Childhood Teaching Internship	Work experience in child care centers. 80 hours of designated work per credit.	Prerequisites: A grade of C or better in CFS/ECH176 and permission of Department or Division.	L+L 1.0 1.0 0.0
ECH284AB	Early Childhood Teaching Internship	Work experience in child care centers. 80 hours of designated work per credit. Maximum of 6 credits allowed	Prerequisites: A grade of C or better in CFS/ECH176 and permission of Department or Division. Corequisites: CFS/ECH269.	L+L 3.0 3.0 3.0
ECH287	Professional Development in Early Childhood Education	Emerging professionalism within the field of early childhood education. Consideration of job responsibilities, rewards, ethics and current issues facing practitioners. Includes assessment and career planning.	Prerequisites: None.	LEC 1.0 1.0 1.0
ECH288	Community Resources and Referral	Survey of current community agencies, resources, and support groups for a variety of child and family needs. Considers appropriate procedures for referral, handling of information, confidentiality and follow up.	Prerequisites: None.	LEC 1.0 1.0 1.0
ECH298AA	Special Projects	Organized and tailored around the interests and needs of the individual student. Structured to provide an atmosphere of individualized research and study paralleled by professional expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 1.0 1.0 0.0
ECH298AB	Special Projects	Organized and tailored around the interests and needs of the individual student. 		expertise and guidance. Professional-type facilities and equipment available for student use. Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE		
ECN100	Economics in American Society	Selected principles of macroeconomic and microeconomic analysis. Recommended as a social science elective and for some paraprofessional programs. Not for business transfer students; credit will not be granted if ECN111 or ECN112 has been completed	Prerequisites: None.	LEC 3.0 3.0 3.0
ECN105	Consumer Economics	The relationship between the consumer and the economy in American society. Socioeconomic forces that impact on consumer purchases, debt, and budgeting. Consumerism as a movement	Prerequisites: None.	LEC 3.0 3.0 3.0
ECN160	Economic History of the United States	A description of the trends of American population, industry, and wealth through examination of major American institutions, historical events, and economic thought. Emphasis on the roles of technology and natural resources in agriculture and industry, the labor force, the monetary system, market structures, and the economic impact of government	Prerequisites: None.	LEC 3.0 3.0 3.0
ECN204	Macroeconomic Issues	Macroeconomic principles applied to current problems of economic policy, e.g., inflation, unemployment, gross national product (GDP), forecasting, ramifications for the international system.	Prerequisites: None.	LEC 3.0 3.0 3.0
ECN208	Microeconomic Issues	Microeconomic principles applied to current problems of market structure, consumer preference, supply and demand, and the theory of the firm. Topics will include contemporary events that are suitable for application of the economic way of thinking.	Prerequisites: None.	LEC 3.0 3.0 3.0
ECN211	Macroeconomic Principles	A descriptive analysis of the structure and functioning of the American economy. Emphasis on basic economic institutions and factors that determine national income and employment levels. Consideration given to the macroeconomic topics of national income, unemployment, inflation and monetary and fiscal policies.	Prerequisites: None.	LEC 3.0 3.0 3.0
ECN212	Microeconomic Principles	Microeconomic analysis including the theory of consumer choice, price determination, resource allocation and income distribution. Includes non-competitive market structures such as	Prerequisites: None.	LEC 3.0 3.0 3.0

		monopoly and oligopoly; and the effects of government regulation.		
ECN213	The World Economy	An analysis of the economic interdependence among nations, with emphasis on international trade and finance. Consideration given to the role and function of the multinational enterprise	Prerequisites: None.	L+L 3.0 3.0 3.0
ECN250	World Economic Systems	A descriptive analysis of capitalist, socialist and mixed economies. Some consideration also given to the problems of less developed economies	Prerequisites: None.	L+L 3.0 3.0 3.0
ECN263	The Economics of Natural Resources, Population and the Environment	Applies economic analysis to both the causes and possible remedies of the problems of environmental deterioration and natural resource depletion. Includes discussion of the economic problems of urban communities and the relationship between population and economic growth and the depletion of natural resources and environmental pollution	Prerequisites: A grade of C or better in ECN100 or ECN211 or ECN212.	LEC 3.0 3.0 3.0
ECN296WA	Cooperative Education	Work-college experiences that involve the combined efforts of educators and employers to accomplish an outcome related to the career objectives of the students. COMMON COMPETENCY COURSE	Prerequisites: Completion of at least twelve (12) college credits minimum 2.6 grade point average and be able to obtain a position related to students academic or career goals (students present job may qualify or permission of instructor Corequisites: Must be concurrently enrolled in at least one class which is related to students major or career interest or with permission of Instructor.	LAB 1.0 5.0 0.0

Allows the best aspects of independent study and individualized learning to be combined to maximize student development. COMMON COMPETENCY COURSE	Prerequisites: Permission of Program Director or Instructor.	LAB 3.0 3.0 0.0
EDA200	Adult Development	Exploration of adulthood. Includes research and theoretical approaches including physical, cognitive, social, and personality development. Examines the influences of age, gender, cohort,	Prerequisites: None.	LEC 3.0 3.0 3.0

		race/ethnicity, socioeconomic status, and culture.		
EDA220	Introduction to the Adult Learner	Provides an introduction to the field of adult education. Study of the adult as a learner, teaching-learning theories for adults, models and procedures for planning, designing, managing, and evaluating adult learning activities, and theories of motivation. Intended for practitioners who provide instruction to adults in a wide variety of workplace, community and lifelong learning arenas.	Prerequisites: None.	LEC 3.0 3.0 3.0
EDA230	Curriculum Development in Adult Education	Study of the principles and techniques for development of curricula for adult education services and programs.	Prerequisites: A grade of C or better in EDA220 or permission of Department or Division.	LEC 3.0 3.0 3.0
EDA240	Teaching Methods for Adult Learning	Study of teaching strategies responsive to learning preferences of the adult learner.	Prerequisites: A grade of C or better in EDA220 and EDA230 or permission of Department or Division.	LEC 3.0 3.0 3.0
EDA241	Coaching Across Generations	Overview of coaching across multiple generations. Examination of generation characteristics, motivations, attitudes, and learning styles. Communication techniques also covered.	Prerequisites: None.	LEC 1.0 1.0 1.0
EDA242	Introduction to Adults with Learning Disabilities	Overview of adult learners with learning disabilities. Topics include neurological disorders, central auditory processing, and visual deficiencies. Educational rights, characteristics, identification procedures, workplace concerns, and instructional practices also covered.	Prerequisites: None.	LEC 2.0 2.0 2.0
EDA245	Introduction to Coaching: Theory to Practice	Introduction to coaching as a field of study. Exploration of the nature of the profession in addition to theories, skills, and issues relative to the profession.	Prerequisites: None.	LEC 3.0 3.0 3.0
EDA246	Motivating Adult Learners	Overview of effective instruction as a consistent motivational process. Exploration of the influence of cultural relevance, adult learning styles, and intrinsic motivation on effective instruction. Also covers adult construction of knowledge.	Prerequisites: None.	LEC 1.0 1.0 1.0
EDA250	Mentoring the Adult Learner	Practice of mentoring as a process to provide effective on-the-job support and guidance to foster personal and professional growth of adult learners. Analyze the role of a mentor and practice how to build trust, clarify communication, and provide supportive feedback during collaborative planning, observation, and reflection activities.	Prerequisites: None.	LEC 3.0 3.0 3.0
EDA254	Assessment and Evaluation of Adult Learners	Examination of the assessment of adult learning. Includes assessment criteria and development of various types of assessments and evaluations.	Prerequisites: A grade of C or better in EDA200 and EDA220.	LEC 1.0 1.0 1.0
EDA255	Ethical and Professional Principles	Examination of professional code of ethics for adult educators. Includes	Prerequisites: None.	LEC 1.0 1.0 1.0

		professional practices and standards for self, students, colleagues, community, and society.		
EDA260	Coaching Practicum	Application of knowledge and skills in an applied coaching setting with supervision.	Prerequisites: A grade of C or better in (CFS204, CFS205, EDA240, EDA245, EDA246 and EDA250) or permission of Department or Division.	L+L 1.0 1.0 1.0
EDA265	Adult Educator Practicum	Practical application of knowledge and skills in an applied instructional setting with supervision.	Prerequisites: Permission of Department.	LAB 1.0 1.0 1.0
EDT100	Introduction to Endoscopy	Interpret endoscopy technology purpose, design, and structure. Basic understanding of the history and advancement of endoscopic procedures; anatomy of flexible endoscopes; role and importance of endoscopy technicians; introductory endoscopy reprocessing; regulating agencies and professional endoscopy organizations impacting the current field of endoscopy.	Prerequisites: None. Corequisites: EDT101, EDT102, EDT105, or permission of Program Director.	L+L 1.0 1.0 1.0
EDT101	Microbiology and Infection Control in Endoscopy	Identify and review the basic concepts of microbiology and microorganisms affecting endoscopic reprocessing and procedures. Indicate the requirements for all endoscopic work areas and staff to properly insure asepsis and best patient outcomes.	Prerequisites: None. Corequisites: EDT100, EDT102, EDT105, or permission of Program Director.	LEC 1.0 1.0 1.0
EDT102	Fundamentals of Endoscope Care and Handling	Learn the fundamentals of endoscope care and handling including cleaning, decontamination, testing, and preparation for disinfection and sterilization.	Prerequisites: None. Corequisites: EDT100, EDT101, EDT105, or permission of Program Director.	L+L 3.0 3.0 3.0
EDT105	Advanced Endoscopy Care and Handling	Learn advanced endoscope care and handling including recordkeeping, transport, manual and mechanical high-level disinfection and storage of rigid, semi-rigid, and flexible endoscopes.	Prerequisites: None. Corequisites: EDT100, EDT101, EDT102, or permission of Program Director.	L+L 3.0 3.0 3.0
EDT200	Clinical Practicum	Direct preceptor supervision of students applying knowledge from the Endoscopy program to include communication, policy and procedures, aseptic and sterile technique, endoscopy instruments, trays and packs, sterilization equipment, documentation, and patient assistance performed in the clinical environment.	Prerequisites: A grade of C or better in (EDT100 and EDT101 and EDT102 and EDT105) or permission of Program Director. Corequisites: EDT201 or permission of Program Director.	LAB 3.0 22.5 0.0
EDT201	Endoscopy Procedures	Roles and responsibilities of endoscopy room personnel focusing on the endoscopy technician under the direction of the clinical facility preceptor demonstrating the role of the endoscopy technician and scope of practice and standard of recommendations.	Prerequisites: A grade of C or better in (EDT100 and EDT101 and EDT102 and EDT105) or permission of Program Director. Corequisites: EDT200 or permission of Program Director.	LEC 3.0 3.0 3.0

EDU101AA	Tutor Training and Practicum	Tutor training with an opportunity to gain insights into instructional support services through a minimum of 30 hours of supervised on-site experience within an educational setting. Overview of the role and responsibilities of instructional tutors as well as tutoring techniques, with particular focus on reading and writing strategies	Prerequisites: None.	LEC 1.0 1.0 1.0
EDU110	Education in Film	Analysis of the portrayal of teaching, schooling and learning in mass media films, including documentary, feature length and emerging platforms. Considers historical, cultural, national and global perspectives on teaching, learning and schooling. Emphasis on identifying factors that contribute to successes as well as failures of schooling within a society.	Prerequisites: None.	LEC 3.0 3.0 3.0
EDU111	Inquiry-Based Instructional Approaches for Science and Mathematics I	Exploring teaching as a career option through observations and active participation in science or mathematics lessons. Supervised experience in planning and implementing inquiry-based science and/or mathematics lessons in elementary classroom settings.	Prerequisites: None.	L+L 1.0 2.0 2.0
EDU112	Inquiry-Based Instructional Approaches for Science and Mathematics II	Exploring teaching as a career option through observations and active participation in science or mathematics lessons. Supervised experience in planning and implementing inquiry-based science and/or mathematics lessons in middle school classroom settings.	Prerequisites: A grade of C or better in EDU111.	L+L 1.0 2.0 2.0
EDU115	Digital Literacy for Teaching and Learning in Education	Overview of digital literacy for identifying the skills needed to become informed users of technology to communicate, instruct, create and think critically with digital tools. Explores how emerging technologies are used to teach and learn across varied educational environments (face-to-face, hybrid, online, etc). Includes skills focused on basic computer operations, productivity software, digital citizenship, instructional practices, information literacy and family and professional partnerships. Discusses current trends and related issues about the use of technology and its impacts in P20 education.	Prerequisites: None.	LEC 3.0 3.0 3.0
EDU204	Fine Arts in Educational Settings	Exploration of fine arts integration in the K-12 classroom setting. Focus on the impact on life-long learning and education goal achievement when curriculum includes fine arts. Arizona art standards of dance, visual, theater and music also covered.	Prerequisites: Formal acceptance to a Maricopa Community College undergraduate state approved teacher preparation program or permission of Department or Division.	LEC 3.0 3.0 3.0

EDU207	Teaching Adolescents	Focuses on understanding adolescents' development including psychosocial, emotional, cognitive and physical. Covers impact of early experiences, relationships, and learning abilities. Establishment of a learning environment supportive of the adolescent emphasized.	Prerequisites: Formal admission to an undergraduate teacher preparation program.	LEC 3.0 3.0 3.0
EDU208	Introduction to Structured English Immersion	Emphasis on understanding English Language Learners (ELL) in the mainstream classroom. Brief history, culture, theory, methods, and an introduction to both the English Language Proficiency (ELP) standards and the state-mandated English language proficiency assessment test covered. Includes review of alternative methods of assessment.	Prerequisites: None.	LEC 1.0 1.0 1.0
EDU209AA	Teaching Students with Emotional Disabilities	Investigation into the characteristics of and teaching strategies for students with emotional disabilities. Emphasis on Professional Teaching Standards.	Prerequisites: A grade of C or better in EDU222 and formal admission to an undergraduate teacher preparation program.	LEC 3.0 3.0 3.0
EDU209AB	Teaching Students with Learning Disabilities	Investigation into the characteristics of and teaching strategies for students with learning disabilities. Emphasis on Professional Teaching Standards.	Prerequisites: Formal admission to an undergraduate teacher preparation program and a grade of C or better in EDU222.	LEC 3.0 3.0 3.0
EDU209AC	Teaching Students with Mild and Moderate Intellectual Disabilities	Investigation into the characteristics of and teaching strategies for students with mild and moderate intellectual development disability. Emphasis on Professional Teaching Standards.	Prerequisites: Formal admission to an undergraduate teacher preparation program and a grade of C or better in EDU222.	LEC 3.0 3.0 3.0
EDU209AD	Teaching Students with Physical and Other Health Impairments	Investigation into the characteristics of and teaching strategies for students with physical and other health impairments. Emphasis on Professional Teaching Standards.	Prerequisites: Formal admission to an undergraduate teacher preparation program and a grade of C or better in EDU222.	LEC 3.0 3.0 3.0
EDU209AF	Assessment and Eligibility of Exceptional Learners	A basic overview of eligibility requirements for special services of students with disabilities, as well as investigation into the concepts, laws, issues, and procedures that relate to the formal and informal assessment of students with disabilities. Covers educational achievement tests and standardized diagnostic tests for students with disabilities as well as intelligence and adaptive behavior measurements. Explains the relationship between assessment data and instruction.	Prerequisites: Formal admission to an undergraduate teacher preparation program.	LEC 3.0 3.0 3.0
EDU215	Methods and Curriculum Development in Secondary Education	Overview and practical application of teaching methodology and curriculum development for secondary education teachers. Teaching strategies,	Prerequisites: Formal admission to an undergraduate teacher preparation program.	LEC 1.0 1.0 1.0

		curriculum design, lesson objectives, time management skills, teaching resources and student assessments covered. Professional Teaching Standards emphasized.		
EDU215AA	Methods and Curriculum Development in Secondary Social Studies	Overview and practical application of social studies teaching methodology and curriculum development for secondary teachers. Teaching strategies and learning styles covered. Curriculum design, lesson objectives, time management skills, teaching resources and student assessment also included. Professional Teaching Standards emphasized.	Prerequisites: Formal admission to an undergraduate teacher preparation program. Prerequisites: A grade of C or better in EDU215 or Corequisites: EDU215.	L+L 2.0 2.0 2.0
EDU215AB	Methods and Curriculum Development in Secondary Mathematics	Overview and practical application of mathematics teaching methodology and curriculum development for secondary teachers. Teaching strategies and learning styles covered. Curriculum design, lesson objectives, time management skills, teaching resources and student assessment also included. Professional Teaching Standards emphasized.	Prerequisites: Formal admission to an undergraduate teacher preparation program. Prerequisites: A grade of C or better in EDU215 or Corequisites: EDU215.	L+L 2.0 2.0 2.0
EDU215AC	Methods and Curriculum Development in Secondary Science	Overview and practical application of science teaching methodology and curriculum development for secondary teachers. Teaching strategies and learning styles covered. Curriculum design, lesson objectives, time management skills, teaching resources and student assessment also included. Professional Teaching Standards emphasized.	Prerequisites: Formal admission to an undergraduate teacher preparation program. Prerequisites: A grade of C or better in EDU215 or Corequisites: EDU215.	L+L 2.0 2.0 2.0
EDU215AD	Methods and Curriculum Development in Secondary English	Overview and practical application of English teaching methodology and curriculum development for secondary teachers. Teaching strategies and learning styles covered. Curriculum design, lesson objectives, time management skills, teaching resources and student assessment also included. Professional Teaching Standards emphasized.	Prerequisites: Formal admission to an undergraduate teacher preparation program. Prerequisites: A grade of C or better in EDU215 or Corequisites: EDU215.	L+L 2.0 2.0 2.0
EDU215AE	Methods and Curriculum Development in Secondary Education - Special Topics	Overview and practical application of teaching methodology and curriculum development for secondary teachers in special topics such as Music, Theater, Art, Economics, Foreign Languages, Computers, PE, etc. Teaching strategies and learning styles covered. Curriculum design, lesson objectives, time management skills, teaching resources and student assessment also included. Professional Teaching Standards emphasized.	Prerequisites: Formal admission to an undergraduate teacher preparation program and (a grade of C or better in EDU215 or Corequisites: EDU215).	L+L 2.0 2.0 2.0
EDU219	Special Education Techniques and Methods	School-based experiences relating to the understanding of and teaching	Prerequisites: Formal admission to an	L+L 3.0 3.0 3.0

		strategies for exceptional learners with mild/moderate mental retardation, learning disabilities, emotional disabilities, physical disabilities and/or other health related impairments. Provides opportunities for students to apply learning in the classroom.	undergraduate teacher preparation program and a grade of C or better in (EDU209AA, EDU209AB, EDU209AC and EDU209AD) and EDU222.	
EDU220	Introduction to Serving English Language Learners (ELL)	Historical overview of current educational and legal issues for serving English Learners (EL). Comparison and evaluation of various types of language educational models including Structured English Immersion (SEI), Sheltered English Instruction, and bilingual/Dual Language Immersion (DLI). Includes SEI, Sheltered English Instruction, and bilingual/DLI strategies.	Prerequisites: None.	LEC 3.0 3.0 3.0
EDU221	Introduction to Education	Overview of the historical, political, economic, social, and philosophical factors that influence education and make it so complex. Opportunity for students to assess their interest and suitability for teaching .	Prerequisites: None.	LEC 3.0 3.0 3.0
EDU222	Introduction to the Exceptional Learner	Overview of the exceptional learner with emphasis on factors relating to current practices, identification, characteristics, and educational adaptations. Issues related to mild disabilities, severe disabilities, emotional and behavioral disorders, intellectual disabilities, and students who are gifted.	Prerequisites: None.	LEC 3.0 3.0 3.0
EDU223AA	Emotional Disabilities in the Classroom	Investigation into the characteristics of and teaching strategies for students with emotional disabilities. Emphasis on Professional Teaching Standards. Includes current research findings related to teaching students with emotional disabilities.	Prerequisites: Baccalaureate Degree and formal admission to a state approved post-baccalaureate teacher preparation program and a grade of C or better in EDU222.	LEC 3.0 3.0 3.0
EDU223AB	Learning Disabilities in the Classroom	Investigation into the characteristics of and teaching strategies for students with learning disabilities. Emphasis on Professional Teaching Standards. Includes current research findings related to teaching students with learning disabilities.	Prerequisites: Baccalaureate Degree and formal admission to a state approved post-baccalaureate teacher preparation program and a grade of C or better in EDU222.	LEC 3.0 3.0 3.0
EDU223AC	Mild and Moderate Intellectual Disability in the Classroom	Investigation into the characteristics of and teaching strategies for students with mild and moderate intellectual disability. Emphasis on Professional Teaching Standards.	Prerequisites: Baccalaureate Degree and formal admission to a state approved post-baccalaureate teacher preparation program and a grade of C or better in EDU222.	LEC 3.0 3.0 3.0
EDU223AD	Physical and Other Health Impairments in the Classroom	Investigation into the characteristics of and teaching strategies for students with physical and other health impairments. Emphasis on Professional Teaching	Prerequisites: Baccalaureate Degree and formal admission to a state approved post-	LEC 3.0 3.0 3.0

		Standards. Includes current research findings related to teaching students with physical and other health impairments.	baccalaureate teacher preparation program and a grade of C or better in EDU222.	
EDU223AF	Assessment and Eligibility in Special Education	A basic overview of eligibility requirements for special services of students with disabilities, as well as investigation into the concepts, laws, issues, and procedures that relate to the formal and informal assessment of students with disabilities. Covers educational achievement tests and standardized diagnostic tests for students with disabilities as well as intelligence and adaptive behavior measurements. Includes current research findings related to assessing students with special needs and how assessment is used to inform and guide instruction.	Prerequisites: Baccalaureate Degree and formal admission to a state approved post-baccalaureate teacher preparation program.	LEC 3.0 3.0 3.0
EDU224	Brain Development and Learning	Exploration of fine arts integration in the K-12 classroom setting. Focus on the impact on life-long learning and education goal achievement when curriculum includes fine arts. Arizona art standards of dance, visual, theater and music also covered.	Prerequisites: Formal acceptance to a Maricopa Community College undergraduate state approved teacher preparation program or permission of Department or Division.	LEC 3.0 3.0 3.0
EDU225	Professionalism and Ethics in Education	Exploration of topics relative to the professionalism, legal knowledge, and ethical development of classroom teachers. Topics include professionalism within the teaching profession, legal considerations, ethics vs. code of conduct, dispositions, and impact of personal and community values. Prepares individuals for the professional, legal, and ethical issues that are routinely seen in an educational setting.	Prerequisites: None.	LEC 1.0 1.0 1.0
EDU226	Methods in Special Education	School-based experiences relating to the understanding of and teaching strategies for exceptional learners with mild/moderate intellectual developmental disability, learning disabilities, emotional disabilities, physical disabilities and/or other health related impairments. Provides opportunities for students to apply learning in the classroom. Includes current research findings related to the application and learning in Special Education methods.	Prerequisites: Baccalaureate Degree and formal admission to a state approved post-baccalaureate teacher preparation program and a grade of C or better in EDU222 and (EDU223AA, EDU223AB, EDU223AC and EDU223AD).	L+L 3.0 3.0 3.0
EDU227	Social Studies Techniques and Methods	Overview of teaching elementary social studies. Topics include lesson plans preparation, teaching strategies, assessments, classroom management techniques and teaching resources.	Prerequisites: Formal admission to an undergraduate teacher preparation program.	LEC 3.0 3.0 3.0

		Emphasis on Professional Teaching Standards.		
EDU228AA	Reading and Decoding: Elementary	Focus on the theories, methods and models of the teaching and learning processes of reading in the elementary grades.	Prerequisites: Formal acceptance to a Maricopa Community College undergraduate state approved teacher preparation program or permission of Department or Division.	LEC 3.0 3.0 3.0
EDU228AB	Reading and Decoding: Secondary	Focus on the theories, methods and models of teaching literacy and decoding in the content areas of secondary grades.	Prerequisites: Formal admission to undergraduate teacher certification program.	LEC 3.0 3.0 3.0
EDU228AC	Reading and Decoding: Phonics Based	Overview of research, curricular content, and instructional practices associated with Research Based Systematic Phonics Instruction (RBSPI) and other methods for teaching reading. Emphasis on methods mandated by Arizona legislation. Covers the history of written language, alphabetic reading and writing systems, and implementation of effective methods for reading instruction.	Prerequisites: Formal acceptance to a Maricopa Community College undergraduate state approved teacher preparation program or permission of Department or Division.	LEC 3.0 3.0 3.0
EDU229	Science Techniques and Methods	Overview and practical application of teaching elementary science. Covers teaching strategies, learning environments, teaching resources, and use of technology. Emphasis on Professional Teaching Standards.	Prerequisites: Formal admission to an undergraduate teacher preparation program.	LEC 3.0 3.0 3.0
EDU230	Cultural Diversity in Education	Examination of the relationship of cultural values to the formation of self-concept and learning styles. Examination of the role of prejudice, stereotyping and cultural incompatibilities in education. Emphasis on teacher preparation (preservice and/or inservice) to offer an equal educational opportunity to students of all cultural groups	Prerequisites: None.	LEC 3.0 3.0 3.0
EDU231	Mathematics Techniques and Methods	Overview and practical application of teaching mathematics in K-8 grades. Development of lesson plans and assessment instruments emphasized. Current trends, Professional Teaching Standards, and National Council of Teachers of Mathematics Standards also covered.	Prerequisites: Formal admission to an undergraduate teacher preparation program.	LEC 3.0 3.0 3.0
EDU232	Serving K-12 English Language Learners (ELL)	Rationale and current educational and legal issues for serving English Language Learners (ELL). Comparison and evaluation of various types of language educational models including Structured English Immersion (SEI), English as a Second Language (ESL) and bilingual. Includes SEI, ESL, and bilingual strategies. Includes current	Prerequisites: Baccalaureate Degree and formal acceptance to a Maricopa Community College state approved post-baccalaureate teacher preparation program or permission of Department or Division.	LEC 3.0 3.0 3.0

		research findings related to teaching English language learners.		
EDU233	Structured English Immersion, English as a Second Language, and Bilingual Teaching Methods	Methods of planning, developing, and analyzing lesson plans in all content areas using English Language Learners (ELL) proficiency standards. Emphasis on components of curriculum content, teaching strategies, development/evaluation/adaptation of teaching materials, and the role of culture in learning. Examines the alignment of ELL proficiency standards to state academic standards. Covers multiple assessment techniques, tracking of student progress using the state mandated English language proficiency assessment, and use of assessment results for placement and accommodation.	Prerequisites: A grade of C or better in (EDU220 or EPD220) or permission of Department or Division.	LEC 3.0 3.0 3.0
EDU234	Role and Function of the Paraprofessional	Overview and understanding of the role and responsibilities of the Paraprofessional K-12 classroom. Covers appropriate strategies related to student interaction and communication, tutoring techniques, and leadership role in the classroom. Recognition of children with special needs and delivery of teacher identified support also included	Prerequisites: None.	LEC 2.0 2.0 2.0
EDU235	The Exceptional Learner	Overview of the exceptional learner, one who differs from the average or typical, with emphasis on factors relating to current practices, identification, characteristics, and educational adaptations. Issues related to mildly disabled, severely disabled, emotionally and behaviorally disordered, intellectual disabilities, and gifted students. Includes current research findings related to teaching exceptional learners.	Prerequisites: Baccalaureate Degree and formal acceptance to a Maricopa Community College state approved post-baccalaureate teacher preparation program or permission of Department or Division.	LEC 3.0 3.0 3.0
EDU236	Classroom Relationships	Analysis of K-12 classroom interactions, classroom environment, and classroom management skills from a teacher's point of view. Focus on classroom as a multidimensional environment in which principles of classroom design, communication, management, and resources determine effectiveness.	Prerequisites: None. EDU221 suggested but not required.	LEC 3.0 3.0 3.0
EDU237	Grades K-8 Structured English Immersion	A foundation course designed to serve needs of English Learners (EL) grades K-8. Includes comparison and evaluation of various language educational models including Structured English Immersion (SEI) and the Arizona Language Development Approach with a focus on asset based behaviors and expectations, integrated and targeted English Language Development (ELD) instruction. Covers	Prerequisites: Formal admission to an undergraduate educator preparation program or permission of Department or Division.	LEC 3.0 3.0 3.0

		legal and historical foundations and current issues.		
EDU238	Grades 6-12 Structured English Immersion	A foundational course designed to serve needs of English Learners (EL) grades 6-12. Includes comparison and evaluation of various Structured English Immersion (SEI) models and the Arizona Language Development Approach including asset based behaviors and expectations, integrated and targeted English Language Development (ELD) instruction, assessment monitoring and feedback. Also covers legal and historical foundations and current issues.	Prerequisites: Formal admission to an undergraduate educator preparation program or permission of Department or Division.	LEC 3.0 3.0 3.0
EDU239	Structured English Immersion Grades K-8	A foundation course designed to prepare educators to serve the needs of English Learners (EL) grades K-8. Includes Structured English Immersion (SEI) models and the Arizona Language Development Approach with emphasis on asset based behaviors and expectations, integrated and targeted English Language Development (ELD) instruction, assessment monitoring and feedback. Also covers legal and historical foundations and current issues.	Prerequisites: Baccalaureate Degree or permission of Department or Division.	LEC 3.0 3.0 3.0
EDU240	Structured English Immersion Grades 6-12	A foundational course designed to serve needs of English Learners (EL) grades 6-12. Includes comparison and evaluation of various Structured English Immersion (SEI) models and the Arizona Language Development Approach including asset based behaviors and expectations, integrated and targeted English Language Development (ELD) instruction, assessment monitoring and feedback. Also covers legal and historical foundations and current issues.	Prerequisites: Baccalaureate Degree or permission of Department or Division.	LEC 3.0 3.0 3.0
EDU241	Special Education: Language Development and Disorders	Language development and language acquisition of typical children and children with disabilities. Includes language characteristics of children with a variety of disabilities and the creation of enhanced learning experiences in the classroom. Covers the referral process, as well as augmentative and alternative communication tools. Also compares Language Disorders and Language Differences.	Prerequisites: Formal admission to an undergraduate teacher preparation program or permission of Department or Division.	LAB 2.0 2.0 2.0
EDU242	Language Developmental and Disorders	Language development and language acquisition of typical children and children with disabilities. Includes language characteristics of children with a variety of disabilities and the creation of enhanced learning experiences in the classroom. Covers the referral process,	Prerequisites: Baccalaureate Degree and formal admission to a state approved post-baccalaureate teacher preparation program or	LAB 2.0 2.0 2.0

		as well as augmentative and alternative communication tools. Also compares Language Disorders and Language Differences.	permission of Department or Division.	
EDU243	Effective Collaboration and Communication Practices in Special Education	Principles of effective collaboration, consultation, and co-teaching to improve programs, services, and outcomes for individuals with exceptionalities and their families. Includes critical interpersonal communication strategies and tools for working with diverse groups of people in addition to the benefits of collaboration as well as the challenges that educators currently face.	Prerequisites: Formal admission to an undergraduate teacher preparation program or permission of Department or Division.	LAB 1.0 1.0 1.0
EDU244	Special Education Collaboration and Communication Practices	Principles of effective collaboration, consultation, and co-teaching to improve programs, services, and outcomes for individuals with exceptionalities and their families. Includes critical interpersonal communication strategies and tools for working with diverse groups of people in addition to the benefits of collaboration as well as the challenges that educators currently face.	Prerequisites: Baccalaureate Degree and formal admission to a state approved post-baccalaureate teacher preparation program or permission of Department or Division.	LAB 1.0 1.0 1.0
EDU245	Games for Teaching and Learning	Survey of past and present games for teaching and learning from multiple cultures and continents. Exploration of the potential for games to help us: face challenges; solve problems; enhance our quality of life; and render our experience of the world in a more meaningful way. Applies theories of learning to determine best practices in game design, development, and production. Demonstrates how to align instructional content with appropriate game-based mechanics and thinking. Culminates in the prototype of a game for teaching and learning.	Prerequisites: A grade of C or better in (ENG101 or ENG107) and (RDG100 or RDG100LL or RDG111 or RDG112 or RDG113) or satisfactory score on District reading placement exam or permission of Instructor.	LEC 3.0 3.0 3.0
EDU250	Teaching and Learning in the Community College	The history, functions, organization and current issues in the community/junior college with emphasis on the Arizona community colleges. Includes focus on the design and practice of effective community college teaching and learning with special emphasis on the Maricopa County Community College District	Prerequisites: None.	LEC 3.0 3.0 3.0
EDU253	Analyzing Behavior and Managing the Classroom	Analyzing behavior and classroom management techniques. Classroom discipline models, student behavior and misbehavior, group dynamics, student self-motivation and learning styles covered. Professional Teaching Standards emphasized.	Prerequisites: Formal acceptance to a Maricopa Community College undergraduate state approved teacher preparation program or permission of Department or Division.	LEC 3.0 3.0 3.0

EDU254	Education Internship	Teaching experience in PK-12 classroom setting. Required to work 120 hours. Supervised and evaluated by a faculty coordinator.	Prerequisites: Permission of Department or Division and admission into a post-baccalaureate teacher certification program.	LAB 1.5 7.5 0.0
EDU255AA	Intern Certificate Student Teaching Lab Elementary Education	Supervised student teacher practicum. Emphasis on the provision of instruction to learners. Covers lesson plan development, classroom procedures, classroom management, and educator professionalism. Includes learner preparation, learner engagement, and learner outcome awareness.	Prerequisites: Baccalaureate Degree and formal acceptance of a specified teacher prep two year program plan by an Arizona Department of Education approved college program and the partnering school district.	LAB 4.0 12.0 0.0
EDU255AB	Intern Certificate Student Teaching Lab Elementary Education	Supervised student teacher practicum. Emphasis on the provision of instruction to learners. Covers lesson plan development, classroom procedures, classroom management, and educator professionalism. Includes learner preparation, learner engagement, and learner outcome awareness. EDU267	Reading Instructional Practices, Interventions, and Assessments	Overview of instructional practices, interventions, and assessments associated with reading instruction and the systematic teaching of phonics. Course will address historical methods and current research in reading; analyze research-based instructional practices; analyze research-based assessments and possible interventions; review support provided by Multi-Tiered Systems of Support (MTSS) and Response to Intervention (RTI); and explore Reading disabilities (Dyslexia) and laws associated with Reading disabilities.	Prerequisites: Formal acceptance to a Maricopa Community College state approved teacher preparation program or permission of Department or Division.	LEC 3.0 3.0 3.0
EDU268	Science of Reading Including Systematic Phonics Instruction	Overview of the science of reading with an emphasis on explicit instructional practices associated with research based systematic phonics instruction. Covers research based on the science of reading related to the teaching of reading in the K-8 school setting to include understanding reading research; essential components of reading instruction; implementation of effective methods for reading instruction; and alignment of reading instruction to systematic phonics instruction.	Prerequisites: Formal acceptance to a Maricopa Community College state approved teacher preparation program or permission of Department or Division.	LEC 3.0 3.0 3.0
EDU269	Educational Technology	Overview and practical application of teaching methodology integrating technology into curriculum development for teachers. Explores how emerging technologies are used to teach and learn across varied educational environments (face-to-face, hybrid, online, etc.). Includes skills focused on basic computer operations, productivity software, digital citizenship, instructional practices, information literacy and family and professional partnerships. Emphasis placed on effective use of technology in teaching and learning. Discusses current trends and related issues about technology and its impacts in P12 education.	Prerequisites: Baccalaureate Degree and formal acceptance to a Maricopa Community College state approved post-baccalaureate teacher preparation program or permission of Department or Division.	LEC 3.0 3.0 3.0
EDU270	Learning and the Brain	Teaching and learning issues within a cognitive processes context. Covers emotion, memory, and recall as well as early brain development and its	Prerequisites: Baccalaureate Degree and formal acceptance to a Maricopa Community	LEC 3.0 3.0 3.0

		relationship to learning. Emphasis on current neuroscientific brain research and how it impacts teaching practice in preK-12 classrooms.	College state approved post-baccalaureate teacher preparation program or permission of Department or Division.	
EDU270AA	Elementary Reading and Decoding	Focus on the theories, methods and models of the teaching and learning processes of reading in the elementary grades. Includes current research findings related to methods of teaching reading in the elementary school setting. Approved school-based practicum required.	Prerequisites: Baccalaureate Degree and formal acceptance to a Maricopa Community College state approved post-baccalaureate teacher preparation program or permission of Department or Division.	LEC 3.0 3.0 3.0
EDU270AB	Secondary Reading and Decoding	Focus on the theories, methods and models of teaching literacy and decoding in the content areas of secondary grades.	Prerequisites: Baccalaureate Degree and formal admission to a state approved Post Baccalaureate teacher preparation program.	LEC 3.0 3.0 3.0
EDU271	Phonics Based Reading and Decoding	Overview of research, curricular content, and instructional practices associated with Research Based Systematic Phonics Instruction (RBSPI) and other methods for teaching reading. Covers the history of written language, alphabetic reading, and writing systems, and implementation of effective methods for reading instruction.	Prerequisites: Baccalaureate Degree and formal acceptance to a Maricopa Community College state approved post-baccalaureate teacher preparation program or permission of Department or Division.	LEC 3.0 3.0 3.0
EDU272	Educational Psychology	Focus on the study and application of psychological principles, theories, and methodologies related to teaching and learning. Emphasis on developmental, learning, and motivational theories. Current trends also covered.	Prerequisites: None.	LEC 3.0 3.0 3.0
EDU274	Understanding Adolescent Behavior in the Classroom	Focuses on understanding adolescents' development including psychosocial, emotional, cognitive and physical. Covers impact of early experiences, relationships, and learning abilities. Establishment of a learning environment supportive of the adolescent emphasized. Includes current research findings related to adolescents.	Prerequisites: Baccalaureate Degree and formal admission to a state approved post-baccalaureate teacher preparation program.	LEC 3.0 3.0 3.0
EDU276	Classroom Management and Behavior Analysis	Classroom management techniques, and behavior analysis. Classroom discipline models, student behavior and misbehavior, group dynamics, student self-motivation and learning styles covered. Professional Teaching Standards emphasized.	Prerequisites: Baccalaureate Degree and formal acceptance to a Maricopa Community College state approved post-baccalaureate teacher preparation program or permission of Department or Division.	LEC 3.0 3.0 3.0
EDU277AA	Elementary Student Teaching	Supervised student teacher practicum. Emphasis on the provision of instruction to learners. Covers lesson plan development, classroom procedures, classroom management, and educator professionalism.
